OPINION ACCOMPANYING ORDER NO. 1737 UNDER MAXIMUM PRICE REGULATION NO. 120

The order which this opinion accompanies establishes maximum prices and price classifications and assigns mine index numbers to mines in District No. 8 which had not been classified and numbered by the former Bituminous Coal Division. This is done in accordance with § 1340.210 (a) (6) of the Regulation which provides for this action.

Under this section, a producer is required to file an application for maximum prices and classifications based upon those of the nearest mine in the same or substantially similar seams. Generally the producer requests the prices and classifications he deems proper.

This application was then submitted to the industry advisory committee for District No. 8. The prices and classifications established are those recommended by the committee and those requested by the applicants, if a request was made, and are fair and equitable.

MID-STATE MFG. CO.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188; *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by The Mid-State Manufacturing Company, 2030 W. Chicago Avenue, Chicago, Ill.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	For sale by manufacturer to—		For sale by any person to consumers
		Jobbers	Retailers	
Fluorescent metal bed lamp	204-B	*Each* $1.79	*Each* $2.10	*Each* $3.80

These maximum prices are for the articles described in the manufacturer's application dated August 20, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. For sales to persons other than consumers they are f. o. b. Chicago, Illinois, 1% 10 days, net 30 days. The maximum price to consumers is net delivered.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement, with the proper model number and the ceiling price inserted in the blank spaces:

Model Number_____
OPA Retail Ceiling Price—$_____
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) Jobbers' maximum prices for sales of the articles covered by this order shall be established under the provisions of section 4.5 of SR 14J.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 19th day of September 1946.

Issued this 18th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 5190 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

By application dated August 20, 1946, the Mid-State Manufacturing Company, 2030 W. Chicago Avenue, Chicago, Illinois, herein called the applicant, requested the Office of Price Administration to establish maximum prices for sales of lamps which it manufactures.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the Regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the sellers markups normally enjoyed in the industry for their types of distributive operations.

FIRESTONE TIRE AND RUBBER CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 9 of Maximum Price Regulation No. 591; *It is ordered:*

(a) The maximum net prices, f. o. b. point of shipment, for sales by any person of the following food freezer manufactured by the Firestone Tire & Rubber Company, Akron 17, Ohio, and as described in the application dated August 21, 1946 which is on file with the Mechanical Building Equipment Price Branch, Office of Price Administration, Washington 25, D. C., shall be:

	Class A dealer	Class B dealer	Class C dealer	Consumer
Model 5-a-6, 10 cu. ft.	$198 84	$220 24	$251 70	$323 00

(b) The maximum net prices established in (a) above may be increased by the following amount to each class of purchaser to cover the cost of crating when crating is actually supplied: $6.00.

(c) The maximum net prices established by this order shall be subject to discounts and allowances and the rendi-

tion of services which are at least as favorable as those which each seller extended or rendered or would have extended or rendered to purchasers of the same class on comparable sales of similar commodities in the same general category on October 1, 1941.

(d) On sales by a distributor or dealer the following charges may be added to the maximum prices established in (a) above:

(1) The actual amount of freight paid to obtain delivery to his place of business. Such charges shall not exceed the lowest common carrier rates.

(2) Crating charges actually paid to his supplier but in no instance exceeding the amount specified in (b) above.

(e) Each seller covered by this order, except a dealer, shall notify each of his purchasers, in writing, at or before the issuance of the first invoice after the effective date of this order, of the maximum prices established by this order for each such seller as well as the maximum prices established for purchasers upon resale, except dealers, including allowable transportation and crating charges.

(f) The Firestone Tire & Rubber Company shall stencil on the inside of the lid of the food freezer covered by this order, substantially the following:

OPA Maximum Retail Price $------

Plus freight and crating as provided in Order No. 819 under Maximum Price Regulation No. 591.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 19, 1946.

Issued this 18th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 819 UNDER SECTION 9 OF MAXIMUM PRICE REGULATION NO. 591

The accompanying Order No. 819 under section 9 of Maximum Price Regulation No. 591 establishes maximum prices for sales at all levels of distribution for food freezers manufactured by the Firestone Tire & Rubber Company of Akron 17, Ohio.

These particular commodities were only recently introduced into the market by the manufacturer. Maximum prices for the items could not be established under sections 7 and 8 of Maximum Price Regulation No. 591, because this company had never manufactured comparable commodities. Consequently, maximum prices must be approved pursuant to the provisions of section 9 of Maximum Price Regulation No. 591.

In its application the company submitted its proposed prices for the commodities covered by this order. Based on an analysis of the information submitted the prices set forth in the accompanying order are in line with the prices of competitive manufacturers for comparable commodities and, therefore, are in line with the level of prices established under Maximum Price Regulation No. 591.

In order to avoid any confusion on the part of resellers as to their maximum prices and for the purpose of protecting consumers, the accompanying order establishes dollars-and-cents prices for all levels of distribution. Maximum prices established for resellers reflect the usual margins of such resellers on sales of comparable products. The order also provides that distributors may, under certain circumstances, add delivery charges to the dollars-and-cents maximum prices established to cover actual freight paid to obtain delivery and crating charges actually paid.

The commodities manufactured by this company will be distributed by many resellers who may or may not have access to copies of the accompanying order. Therefore, in order to avoid confusion on the part of resellers who do not have access to this order, the order provides that The Firestone Tire & Rubber Company shall notify each of its purchasers of its maximum prices as well as purchasers' maximum resale prices. The order further provides that The Firestone Tire & Rubber Company shall stencil on the inside of the lid of the food freezer the maximum retail price thereof.

All provisions of the accompanying order and their effect upon business practices, or cost practices or methods or means or aids to distribution in the industry or industries affected, have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the Act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices, or methods or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

The Price Administrator has determined, on the basis of the foregoing that the maximum prices established by the order are generally fair and equitable, and are in conformity with the Emergency Price Control Act of 1942, as amended, and Executive orders issued by the President.

Administrator.

OPINION ACCOMPANYING THE FOLLOWING AMENDMENTS TO ORDERS UNDER MAXIMUM PRICE REGULATION 594: AMDT. 9 TO REV. ORDER 4, AMDT. 8 TO REV. ORDER 5, AMDT. 9 TO ORDER 6

This action authorizes increases in maximum prices of Ford, Mercury and Lincoln passenger automobiles.

The Ford Motor Company applied for an adjustment in its maximum reconversion prices under the provisions of section 9b of Maximum Price Regulation 594. Section 9b authorizes the Administrator to adjust maximum reconversion prices for new passenger automobiles when he finds the applying manufacturer to be in a financial hardship position. The standard for determining hardship and the extent of the adjustment that may be granted to remove it, which is now in effect for section 9b cases is set out in detail in the Supplementary Statement of Considerations to Maximum Price Regulation 594 which is being issued along with this action.

The Company qualifies for relief because on the basis of its most recent profit and loss statement it is in an over-all loss position and has comparatively little prospect of change from that position in the near future.

In accordance with the standard described in the Supplementary Statement of Considerations a new increase factor to be applied to January 1, 1941 prices was computed. Cost increases recognized by the reconversion formula and previously included in the company's increase factors were used plus the additional cost factors which the new standard recognizes for the first time. As explained in the Supplementary Statement of Considerations, the previous hardship adjustment standard was the reworking of the reconversion formula and the use of only increases in basic wage rate schedules and in the general level of materials prices. The new standard recognizes more up to date materials price increases and additional items of measureable labor cost. The use of the newly recognized cost increases in determining the various cost increase factors and the over-all price increase factor is explained in the following paragraphs.

The new adjustment standard permits the use of increases in the general level of materials prices as of August 31, 1946. The new materials cost increase factor, so developed, was then applied to direct and indirect material costs wherever they occurred on the composite profit and loss statement for the period ending June 30, 1941, which is used in the computation of the over-all increase factor.

The amount to be included in the increase factor for increases in labor cost was determined by the use of increases in average hourly earnings. Formerly only increases in basic wage rates schedules were recognized. By the use of increases in average hourly earnings fringe increases in direct labor cost are recognized. In the case of the Ford Motor Company, the fringe increases were its cost for lunch period and wash-up period programs which were put into effect by the company subsequent to June 30, 1941. Since these programs became effective subsequent to June 30, 1941, none of their costs were included in the composite profit and loss statement for the fiscal period ending June 30, 1941, which is used as the base for determining adjusted costs. Their total costs are now included in the new labor cost increase factor. This revised labor increase factor was then applied to all direct and indirect labor costs wherever they appeared on the composite profit and loss statement.

Increases in certain components of factory burden not recognized under the reconversion formula were included in the increase factor. The cost increases are those in workmen's compensation expense and in vacation pay allowances. The workmen's compensation expense increase was determined at the present rate. The company's vacation pay program was inaugurated subsequent to June 30, 1941. As a result, not any of the cost was included in the composite

profit and loss statement for the fiscal year ending June 30, 1941. This being the case the full cost of the vacation pay program, like the full cost of the lunch and clean-up period programs, has been included in the new price increase factor.

General and administrative salary increases were included for the first time in the price increase factor. In accordance with the new adjustment standard the actual increase in such salaries up to the level of the cost increase factor for direct and indirect labor were included.

No recognition was given to cost components in factory or commercial burden other than those enumerated above since, although they may be fixed expenses, their per unit cost allocation varies with volume, and no cost deficiencies resulting from low volume are recognized under the new hardship adjustment standard. To the adjusted costs described above was applied ½ the automobile industry's profit margin over cost for the years 1936 to 1939. The adjusted costs and profit were then totalled to obtain an adjusted net sales figure. This net sales figure was then divided by the net sales figure of the 1941 composite profit and loss statement to obtain the new increase factor.

The resulting increase factor yielded adjusted current costs lower than current recorded costs, and, therefore, in accordance with the new hardship adjustment standard, it has been applied to the January 1, 1941 prices for corresponding models, and the resulting amounts increased by permissible allowances for specification changes to obtain the new maximum prices. The increases in maximum wholesale prices range from $32 to $72 for Fords, $39 to $81 for the Mercury, and $96 to $191 for the Lincoln. The average increase for each make approximates 6%.

This action is temporary to meet the acute financial hardship in which the Ford Motor Company finds itself under present conditions. In view of the uncertainty of production prospects for the automobile industry this action is effective only to March 15, 1947 and subject to review at or prior to that time.

The company's maximum prices for extra or optional equipment prior to this action were, at the request of the company, those in effect for 1942 Model year automobiles and did not reflect the increases which it could have obtained under Maximum Price Regulation 594. In accordance with the company's recent request, this action includes maximum prices for certain items of extra or optional equipment which reflect for the first time the increases to which the company is entitled under sections 8 and 9b of Maximum Price Regulation 594.

The increases granted to the Ford Motor Company are passed on percentage-wise to consumers. Increases at the manufacturing level must be reflected percentage-wise in retail prices in accordance with the new sub-section (q) incorporated in section 2 of the Emergency Price Control Act of 1942, as amended, by the Price Control Extension Act of 1946.

5. Paragraph (f) is redesignated paragraph (g) and a new paragraph (f) is added to read as follows:

(f) The maximum prices authorized in this order shall remain in effect for Mercury automobiles and extra or optional equipment sold by the Company prior to March 15, 1947. In the absence of action by the Administrator either extending the effective period of or adjusting, the maximum prices established by this Order as amended on September 16, 1946, the maximum prices for Mercury automobiles and extra or optional equipment sold by the Company on or after March 15, 1947 shall be the maximum prices for such automobiles and extra optional equipment in effect on September 15, 1946.

This Amendment shall become effective September 16, 1946 for Mercury automobiles sold by the Company on and after September 16, 1946.

Issued this 16th day of September 1946.

OPINION ACCOMPANYING THE FOLLOWING AMENDMENTS TO ORDERS UNDER MAXIMUM PRICE REGULATION 594: AMDT. 9 TO REV. ORDER 4, AMDT. 8 TO REV. ORDER 5, AMDT. 9 TO ORDER 6

This action authorizes increases in maximum prices of Ford, Mercury and Lincoln passenger automobiles.

The Ford Motor Company applied for an adjustment in its maximum reconversion prices under the provisions of section 9b of Maximum Price Regulation 594. Section 9b authorizes the Administrator to adjust maximum reconversion prices for new passenger automobiles when he finds the applying manufacturer to be in a financial hardship position. The standard for determining hardship and the extent of the adjustment that may be granted to remove it, which is now in effect for section 9b cases is set out in detail in the Supplementary Statement of Considerations to Maximum Price Regulation 594 which is being issued along with this action.

The company qualifies for relief because on the basis of its most recent profit and loss statement it is in an overall loss position and has comparatively little prospect of change from that position in the near future.

In accordance with the standard described in the Supplementary Statement of Considerations a new increase factor to be applied to January 1, 1941 prices was computed. Cost increases recognized by the reconversion formula and previously included in the company's increase factors were used plus the additional cost factors which the new standard recognizes for the first time. As explained in the Supplementary Statement of Considerations, the previous hardship adjustment standard was the reworking of the reconversion formula and the use of only increases in basic wage rate schedules and in the general level of materials prices. The new standard recognizes more up to date materials price increases and additional items of measurable labor cost. The use of the newly recognized cost increases in determining the various cost increase factors and the over-all price increase factor is explained in the following paragraphs.

The new adjustment standard permits the use of increases in the general level of materials prices as of August 31, 1946. The new materials cost increase factor, so developed, was then applied to direct and indirect material costs wherever they occurred on the composite profit and loss statement for the period ending June 30, 1941, which is used in the computation of the over-all increase factor.

The amount to be included in the increase factor for increases in labor cost was determined by the use of increases in average hourly earnings. Formerly only increases in basic wage rates schedules were recognized. By the use of increases in average hourly earnings fringe increases in direct labor cost are recognized. In the case of the Ford Motor Company, the fringe increases were its cost for lunch period and wash-up period program which were put into effect by the company subsequent to June 30, 1941. Since these programs became effective subsequent to June 30, 1941, none of their costs were included in the composite profit and loss statement for the fiscal period ending June 30, 1941, which is used as the base for determining adjusted costs. Their total costs are now included in the new labor cost increase factor. This revised labor increase factor was then applied to all direct and indirect labor costs wherever they appeared on the composite profit and loss statement.

Increases in certain components of factory burden not recognized under the reconversion formula were included in the increase factor. The cost increases are those in workmen's compensation expense and in vacation pay allowances. The workmen's compensation expense increase was determined at the present rate. The company's vacation pay program was inaugurated subsequent to June 30, 1941. As a result, not any of the cost was included in the composite profit and loss statement for the fiscal year ending June 30, 1941. This being the case the full cost of the vacation pay program, like the full cost of the lunch and clean-up period programs, has been included in the new price increase factor.

General and Administrative salary increases were included for the first time in the price increase factor. In accordance with the new adjustment standard the actual increase in such salaries up to the level of the cost increase factor for direct and indirect labor were included.

No recognition was given to cost components in factory or commercial burden other than those enumerated above since, although they may be fixed expenses, their per unit cost allocation varies with volume, and no cost deficiencies resulting from low volume are recognized under the new hardship adjustment standard. To the adjusted costs described above was applied half the automobile industry's profit margin over cost for the years 1936 to 1939. The adjusted costs and profit were then totalled to obtain an adjusted net sales figure. This net sales figure was then divided by the net sales figure of the 1941 composite profit and loss statement to obtain the new increase factor.

The resulting increase factor yielded adjusted current costs lower than current recorded costs, and, therefore, in accordance with the new hardship adjustment standard, it has been applied to the January 1, 1941 prices for corresponding models, and the resulting amounts increased by permissible allowances for specification changes to obtain the new maximum prices. The increases in maximum wholesale prices range from $32 to $72 for Fords, $39 to $81 for the Mercury, and $96 to $191 for the Lincoln. The average increase for each make approximates 6%.

This action is temporary to meet the acute financial hardship in which the Ford Motor Company finds itself under present conditions. In view of the uncertainty of production prospects for the automobile industry this action is effective only to March 15, 1947 and subject to review at or prior to that time.

The company's maximum prices for extra or optional equipment prior to this action were, at the request of the company, those in effect for 1942 Model year automobiles and did not reflect the increases which it could have obtained under Maximum Price Regulation 594. In accordance with the company's recent request, this action includes maximum prices for certain items of extra or optional equipment which reflect for the first time the increase to which the company is entitled under section 8 and 9b of Maximum Price Regulation 594.

The increases granted to the Ford Motor Company are passed on percentage-wise to consumers. Increases at the manufacturing level must be reflected percentage-wise in retail prices in accordance with the new subsection (q) incorporated in section 2 of the Emergency Price Control Act of 1942, as amended, by the Price Control Extension Act of 1946.

OPINION ACCOMPANYING THE FOLLOWING AMENDMENTS TO ORDERS UNDER MAXIMUM PRICE REGULATION 594: AMDT. 9 TO REV. ORDER 4, AMDT. 8 TO REV. ORDER 5, AMDT. 9 TO ORDER 6

This action authorizes increases in maximum prices of Ford, Mercury and Lincoln passenger automobiles.

The Ford Motor Company applied for an adjustment in its maximum reconversion prices under the provisions of section 9b of Maximum Price Regulation 594. Section 9b authorizes the Administrator to adjust maximum reconversion prices for new passenger automobiles when he finds the applying manufacturer to be in a financial hardship position. The standard for determining hardship and the extent of the adjustment that may be granted to remove it, which is now in effect for section 9b cases is set out in detail in the Supplementary Statement of Considerations to Maximum Price Regulation 594 which is being issued along with this action.

The company qualifies for relief because on the basis of its most recent profit and loss statement it is in an over-all loss position and has comparatively little prospect of change from that position in the near future.

In accordance with the standard described in the Supplementary Statement of Considerations a new increase factor to be applied to January 1, 1941, prices was computed. Cost increases recognized by the reconversion formula and previously included in the company's increase factors were used plus the additional cost factors which the new standard recognizes for the first time. As explained in the Supplementary Statement of Considerations, the previous hardship adjustment standard was the reworking of the reconversion formula and the use of only increases in basic wage rate schedules and in the general level of materials prices. The new standard recognizes more up to date materials price increases and additional items of measurable labor cost. The use of the newly recognized cost increases in determining the various cost increase factors and the over-all price increase factor is explained in the following paragraphs.

The new adjustment standard permits the use of increases in the general level of materials prices as of August 31, 1946. The new materials cost increase factor, so developed, was then applied to direct and indirect material costs wherever they occurred on the composite profit and loss statement for the period ending June 30, 1941 which is used in the computation of the over-all increase factor.

The amount to be included in the increase factor for increases in labor cost was determined by the use of increases in average hourly earnings. Formerly only increases in basic wage rates schedules were recognized. By the use of increases in average hourly earnings fringe increases in direct labor cost are recognized. In the case of the Ford Motor Company, the fringe increases were its cost for lunch period and wash-up period programs which were put into effect by the company subsequent to June 30, 1941. Since these programs became effective subsequent to June 30, 1941, none of their costs were included in the composite profit and loss statement for the fiscal period ending June 30, 1941 which is used as the base for determining adjusted costs. Their total costs are now included in the new labor cost increase factor. This revised labor increase factor was then applied to all direct and indirect labor costs wherever they appeared on the composite profit and loss statement.

Increases in certain components of factory burden not recognized under the reconversion formula were included in the increase factor. The cost increases are those in workmen's compensation expense and in vacation pay allowances. The workmen's compensation expense increase was determined at the present rate. The company's vacation pay program was inaugurated subsequent to June 30, 1941. As a result, not any of the cost was included in the composite profit and loss statement for the fiscal year ending June 30, 1941. This being the case the full cost of the vacation pay program, like the full cost of the lunch and clean-up period programs, has been included in the new price increase factor.

General and Administrative salary increases were included for the first time in the price increase factor. In accordance with the new adjustment standard the actual increase in such salaries up to the level of the cost increase factor for direct and indirect labor were included.

No recognition was given to cost components in factory or commercial burden other than those enumerated above since, although they may be fixed expenses, their per unit cost allocation varies with volume, and no cost deficiencies resulting from low volume are recognized under the new hardship adjustment standard. This action is temporary to meet the acute financial hardship in which the Ford Motor Company finds itself under present conditions. In view of the uncertainty of production prospects for the automobile industry this action is effective only to March 15, 1947 and subject to review at or prior to that time.

The company's maximum prices for extra or optional equipment prior to this action were, at the request of the company, those in effect for 1942 Model year automobiles and did not reflect the increases which it could have obtained under Maximum Price Regulation 594. In accordance with the company's recent request, this action includes maximum prices for certain items of extra or optional equipment which reflect for the first time the increases to which the company is entitled under section 8 and 9b of Maximum Price Regulation 594.

The increases granted to the Ford Motor Company are passed on percentage-wise to consumers. Increases at the manufacturing level must be reflected percentage-wise in retail prices in accordance with the new subsection (q) incorporated in section 2 of the Emergency Price Control Act of 1942, as amended, by the Price Control Extension Act of 1946.

DOUGLAS FIR AND OTHER WEST COAST LUMBER

APPROVAL OF MAXIMUM PRICES FOR BROOM AND MOP HANDLE SQUARES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to 2d Revised Maximum Price Regulation 26, *it is ordered:*

(a) The maximum prices for Douglas fir broom and mop handle squares are:

Douglas Fir Handle Squares, Rough, Green

1 x 1 x 36" at $13.00 M pieces.
1 x 1 x 42" at $15.25 M pieces.
1 x 1 x 48" at $17.25 M pieces.
1 x 1 x 54" at $19.50 M pieces.
1¼ x 1¼ x 42 and 48" at $27.00 M pieces.
1¼ x 1¼ x 96" at $58.50 M pieces.
1⅛ x 1⅛ x 37" at $18.25 M pieces.

(b) All provisions of 2d Revised Maximum Price Regulation 26 not inconsistent with this order, apply to sales covered by this order.

(c) This order may be revoked or amended by the Office of Price Administration at any time.

This order shall become effective September 18, 1946.

Issued this 18th day of September 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

OPINION ACCOMPANYING THE ISSUANCE OF ORDER NO. 1 TO 2D REVISED MAXIMUM PRICE REGULATION 26

This order is issued to grant a discretionary price increase of approximately 35 percent on broom and mop handle squares formerly priced by letter order under 2d Revised Maximum Price Regulation 26, Douglas Fir and Other West Coast Lumber. This increase is necessary to provide a relationship with plaster lath prices favorable enough to permit the minimum necessary production of handle squares.

Both plaster lath and handle squares are made from slabs and edgings and both are manufactured on the same machines. An increase of over 80 percent in the price of plaster lath was granted temporarily by Amendment 21 to Revised Maximum Price Regulation 26 and continued by the 2d revision of that regulation. The available information indicates that this action has substantially increased the production of lath and thereby materially reduced the critical shortage that was the basis for the incentive increase. The price increase resulted in a greater utilization of machine capacity and waste. But a part of the increased lath production has been at the expense of handle square production and has resulted in an increasingly acute shortage of that necessary item. The Civilian Production Administration, therefore, has certified to this office that present essential consumer requirements will be most effectively met by restoring a more nearly normal relationship between the production of plaster lath and broom and mop handle squares. That agency has urged that the Price Administrator increase the price of handle squares and investigate the most appropriate reduction of lath prices in order to achieve the price and production relationship best adapted to present needs. Because of the present acute shortage of handle squares, this Order is issued at this time and is to be followed by an appropriate price reduction for plaster lath. This increase is discretionary in nature and is made pursuant to Executive Order 9599.

The increase granted by this Order establishes a price relationship between the principal sizes of handle squares, 1¼" x 1¼" x 42" and 48", and No. 1 plaster lath midway between the ratio existing before the incentive price increase on lath and the ratio existing after that increase was granted. The information available indicates that this price will provide for sufficient production to meet handle square requirements. Prices for the other sizes are related to the price for the principal sizes on the basis of relative lumber content except for the price of 8' lengths which are priced slightly higher because of greater difficulty of production.

In view of the above considerations, the Administrator finds that this Order is necessary and proper and consistent with the purposes and standards of the Price Control Extension Act of 1946 and the Executive Orders of the President.

[MPR 61, Order 17]

SHEEP AND LAMB LEATHER

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 19 of Maximum Price Regulation 61, it is ordered:

(a) *Applicability.* This order applies to leather tanned in the continental United States from sheepskins and lambskins, but does not apply to chamois leather nor to leather made from hair sheepskins, coarse woolskins, shearlings, skivers, imported semi-tanned sheepskins or imported semi-tanned lambskins.

(b) *Adjustment of maximum price.* On and after September 18, 1946, the maximum price of any leather specified in this order may be adjusted in accordance with the provisions of this paragraph (b).

(1) *Tanners.* Except as provided in paragraphs (c) and (d), below, on the first day of each calendar month, a tanner who determines his adjustment under this subparagraph (b) (1) may adjust his maximum price as follows:

Step 1. Take the invoice price per square foot of the leather specified in this order (not to exceed his maximum price established under Maximum Price Regulation 61, before any adjustment under this or any other order issued pursuant to Maximum Price Regulation 61) and multiply it by the number of square feet being sold to determine his invoice price for each item of such leather.

Step 2. Add all invoice prices of each item of such leather being sold and for which he is authorized to adjust his maximum price pursuant to the terms of this order to determine his total invoice price for all items of such leather being sold.

Step 3. Determine the applicable cents per square foot adjustment in Column II of Schedule A which corresponds to the applicable percentage group in Column I of Schedule A. The applicable percentage group in Column I is determined as follows: determine the total number of raw sheepskins and raw lambskins (domestic and imported) soaked by the tanner during the preceding month. Then, determine what percent of this total were imported raw sheepskins and lambskins.

Step 4. Multiply the amount of adjustment ascertained under Step 3 by the number of square feet of leather being sold for which the maximum price is to be adjusted under this order, to obtain the total dollar amount of adjustment. Add this amount to the total invoice price determined under Step 2.

No adjustment may be taken under this subparagraph unless the invoice so adjusted in accordance with the provisions thereof is dated the same month in which the delivery of such leather is made.

NOTE: The adjustment permitted by Revised Order No. 14, under Maximum Price Regulation 61 may not be computed on the amount of adjustment determined under this order.

To illustrate

Assume that a tanner sells 3000 square feet of Cowhide Leather G at 30 cents per square foot and 1000 square feet of sheep lining leather at 15 cents per square foot and 2000 square feet of aniline finish pocketbook sheep leather at 20 cents per square foot. Of the total amount of raw sheepskins and lambskins this tanner soaked during the preceding month, 75 per cent was imported and he so reported to the Office of Price Administration in accordance with paragraph (c). His percentage group of imported sheepskins soaked appears in the percentage group which reads "70% or over but less than 80%" in Column I of Schedule A of this order. The adjustment for this group is 6 cents per square foot. The tanner would invoice the sale of this leather as follows:

3,000 sq. ft., cowhide leather G at 30¢ sq. ft.	$900.00
1,000 sq. ft., sheep lining leather at 15¢ sq. ft.	150.00
2,000 sq. ft., aniline finish pocketbook sheep leather at 20¢ sq. ft.	400.00
	1,450.00
OPA adjustment 3,000 sq. ft. sheep and lamb leather at 6¢ per sq. ft., Order No. 17, MPR 61	180.00
OPA adjustment charge of 6% under Revised Order No. 14, MPR 61	[1] 87.00
	1,717.00

[1] The adjustment under Revised Order No. 14 is computed on the amount of $1,450.00 and may not be computed on the adjustment of $180.00.

(2) *Processors and finishers.* Except as provided in paragraph (d), a person who processes or finishes the leather specified in this order from the russet, off boards, or crust, may add to his total unadjusted invoice price (computed as outlined by Step 1 and Step 2 under subparagraph (b) (1), above) an amount not to exceed the cents per square foot adjustment paid to his supplier (as set forth on his supplier's invoice) for the same lot of leather, if his supplier adjusted the maximum prices for such leather in accordance with the provisions of this order.

(3) *Cutters, wholesalers, dealers, jobbers and manufacturers.* Except as provided in paragraph (d), on the first day of each month a cutter, wholesaler, dealer, jobber or manufacturer (other than a manufacturer who determined his maximum price under section 7 (a) of Maximum Price Regulation 61) who determines his adjustment under this subparagraph (b) (3), may adjust his maximum price as follows:

Step 1. Determine the aggregate amount of the dollar-and-cents adjustments from his suppliers' invoices dated during the preceding calendar month for the leather specified in this order and which was delivered to him during such month.

Step 2. Determine from his suppliers' invoices for the same calendar month used in Step 1, the total number of square feet of the leather specified in this order which was delivered to him during such calendar month (regardless of whether or not an adjustment was charged to him for such leather).

Step 3. Divide the dollar-and-cents total ascertained in Step 1 by the number of square feet ascertained in Step 2 to determine his cents per square foot average adjustment cost.

Step 4. Determine the group in Column I of Schedule B in which the cents per square foot average adjustment cost determined in Step 3 falls.

Step 5. A seller, other than a cutter or manufacturer, shall take as his adjustment in cents per square foot the amount stated in Column II of Schedule B of this order for the group determined in Step 4, above.

A cutter or manufacturer shall take as his adjustment the percentage stated in Column III of Schedule B of this order for the group determined in Step 4, above.

Step 6. A seller, other than a cutter or manufacturer, shall multiply the number of square feet being sold by the amount of the adjustment determined in Step 5. Add this to his total invoice price (computed as outlined in Steps 1 and 2 of subparagraph (b) (1) of this order).

A cutter or manufacturer shall multiply the total invoice price (computed as outlined in Steps 1 and 2 under subparagraph (b) (1), above) by the percentage determined under Step 5 to obtain the dollar-and-cents amount of his adjustment. This shall be added to the total invoice price determined for the leather specified in this order.

No adjustment may be taken under this subdivision unless the invoice so adjusted in accordance with the provisions of subparagraph (b) (3) is dated the same month in which delivery is made.

A cutter or manufacturer may combine his percentage adjustment permitted under this order with the percentage adjustment permitted under Revised Order No. 14, subject to the limitation of the note appearing under subparagraph (b) (4), of this order.

(NOTE: The adjustment permitted by Revised Order No. 14, under Maximum Price Regulation 61 may not be computed on the amount of adjustment under this order).

(4) *Tanner-cutters.* Except as provided in paragraphs (c) and (d), on the first day of each calendar month a tanner-cutter who determines his adjustment under this subparagraph (b) (4) may adjust his maximum price as follows:

Step 1. Determine the cents per square foot adjustment for tanners under Schedule A of this order in accordance with the provisions of subparagraph (b) (1), above.

Step 2. Determine the group in Column I of Schedule B into which the adjustment determined under Step 1 falls.

Step 3. Take as his adjustment the percentage stated in Column III of Schedule B of this order for the group determined in Step 2, above.

Step 4. Compute the dollar-and-cents amount of his adjustment by multiplying the total invoice price (computed as outlined in Steps 1 and 2 of subparagraph (b) (1), above) for the leather specified in this order by the percentage found in Step 3 and add the result to his total invoice price.

No adjustment may be taken under this subparagraph unless the invoice adjusted in accordance with the provisions of this subparagraph (b) (4) is dated the same month in which delivery is made.

NOTE: The seller may combine the percentage adjustment authorized under the provisions of this subparagraph (b) (4) with the percentage adjustment authorized by Revised Order No. 14, under Maximum Price Regulation 61, but in no event shall the seller compute the adjustment authorized by this order or Revised Order No. 14 on a basis other than his total invoice price (before any adjustment thereof pursuant to this or any other order issued under the regulation).

For example: A tanner-cutter finds that his soakings of raw sheepskins and raw lambskins during the preceding months were 75% imported skins. His adjustment under Column II of Schedule A is 6 cents per square foot. Reference to Schedule B discloses in Column I that this amount falls in the group which reads "6¢ or over but less than 6¾¢." The percentage adjustment in Column III of Schedule B for that group is 30%. The seller may combine the 30% with the 6% authorized under Revised Order No. 14 and adjust his total invoice price by 36%.

(5) *Sales of sheep and lamb leather by the pound.* Except as provided in paragraph (d), and in lieu of any other provisions of this order, on all sales by the pound of sheep and lamb leather covered by this order, the total invoice price of such leather (not to exceed his maximum price established or determined under Maximum Price Regulation 61, before any adjustment under this or any other order) may be increased by 24%, or the seller may increase such total invoice price by not more than 30% if he desires to combine the adjustment permitted by this subparagraph with the 6% adjustment authorized by Revised Order No. 14, under Maximum Price Regulation 61.

(6) *Sales and deliveries prior to October 1, 1946, other than sales or deliveries by a tanner or tanner-cutter.* Except as provided in paragraph (d), and in lieu of any other provisions of this order, on and after the effective date of this order and prior to October 1, 1946, a seller other than a tanner or tanner-cutter, may increase his total invoice price by 24% for sales of sheep and lamb leather specified in this order, provided delivery is made prior to October 1, 1946, or the seller may increase such total invoice price by not more than 30% if he desires to combine the adjustment permitted under this subparagraph with the 6% adjustment authorized by Revised Order No. 14 under Maximum Price Regulation 61.

(c) *Tanners' and tanner-cutters' imported raw stock reports.* No tanner or tanner-cutter may sell or deliver any leather specified in this order at a maximum price adjusted pursuant to the provisions thereof, unless he has mailed a report on or before the 5th day of each month to the Leather, Fur and Fibers Branch, Consumer Goods Price Division, Office of Price Administration, Washington 25, D. C., on the form reproduced in Appendix B of Maximum Price Regulation 61 setting forth the tanner's or tanner-cutter's imported raw stock position for the calendar month preceding the date of filing.

Tanners and tanner-cutters shall file the first report required by this paragraph on or before September 23, 1946.

(d) *Invoice requirements.* No seller (except one who sells under section 9 of Maximum Price Regulation 61) may sell or deliver any leather specified in this order at a maximum price adjusted pursuant to the provisions thereof, unless, in connection with each sale or delivery, the seller furnishes to the purchaser an invoice or similar document showing, in addition to all other information required by section 12 of Maximum Price Regulation 61, the following:

(i) The total invoice price of such leather exclusive of the adjustment authorized by this or any other order issued under Maximum Price Regulation 61.

(ii) The basis on which he has increased the total invoice price pursuant to the terms of this order. Except as hereinafter provided, in the case of sales by tanners, wholesalers, dealers, and jobbers, this basis must be stated on the invoice as follows: "OPA adjustment ---- sq. ft. sheep and lamb leather at ---- cents per sq. ft. Order No. 17, Maximum Price Regulation 61." (The appropriate number of square feet of leather sold for which the seller is authorized to adjust his maximum price shall be inserted in the first blank space and the appropriate adjustment in cents per square foot from Schedule A or Schedule B shall be inserted in the second blank space of this statement.)

In the case of sales by cutters, tanner-cutters, and manufacturers, the basis of the adjustment must appear on the invoice in the following form: "OPA adjustment of ----% Sheep and Lamb Leather, Order No. 17, Maximum Price Regulation 61." If the cutter or tanner-cutter, or manufacturer combines the amount of adjustment permitted under this order with the amount of adjustment permitted by Revised Order No. 14 the basis shall appear on the invoice as follows: "OPA adjustment of ----% Sheep and Lamb Leather, Revised Order No. 14 and Order No. 17, Maximum Price Regulation 61." (The total amount of the percentage shall be inserted in the blank space of this statement.)

During the month of September 1946, all sellers who increase their maximum price as provided in subparagraph (b) (5) of this order, shall state the basis of their adjustment as follows: "OPA adjustment of 24%, Sheep and Lamb Leather, Maximum Price Regulation 61."

The basis for the adjustment taken pursuant to the provisions of this order shall be stated at the foot of the invoice for the item, or if there is more than one item, then for the entire group of items for which the same adjustment is made, in which case the item or entire group of items increased by the same adjustment shall be clearly indicated.

(iii) The dollar-and-cents amount of the adjustment added and stated as a separate item.

(e) *Discounts.* Term discounts shall be deducted from the total amount of the adjusted invoice price.

(f) *Amendments.* This order may be amended or revoked at any time by the Office of Price Administration.

This order shall become effective September 18, 1946.

NOTE: The reporting provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 18th day of September 1946.

OPINION ACCOMPANYING ORDER NO 17 UNDER MAXIMUM PRICE REGULATION 61

The accompanying order provides for adjustment of maximum prices established under the provisions of Maximum Price Regulation 61 for leather tanned within the continental United States from raw sheepskins and lambskins. The order covers all sales and resales of such leather whether of whole skins, cut pieces, or scrap and includes sheep and lamb leather tanned from both imported and domestic raw skins. The order does not apply to chamois leather nor to leather made from hair sheep skins, coarse wool skins, shearlings, skivers, imported semi-tanned sheepskins or imported semi-tanned lambskins. Nor does it in any way effect the price of raw domestic sheepskins or lambskins or raw shearlings.

During the early part of 1942, tanners of sheepskin leather, whose prices were established at November-December 1941 levels under Revised Price Schedule 61, were unable to operate because of the advance in their raw skin costs, which had increased by 7% over December 1941 prices. On May 18, 1942, with the issuance of Maximum Price Regulation 145 (Pickled Sheepskins, prices for sheepskins and lambskins were rolled back to levels generally in line with the October 1–15, 1941 level of domestic and foreign sheepskin prices. These prices remained relatively stable until June 26, 1946, when, with the dissolution of the Combined Hides, Skins and Leather Committee, Supplementary Order 165 was issued permitting all foreign hides and skins to be brought into the country at landed cost. In the principal foreign sources of this raw material, (Australia, New Zealand, Argentina, and Chile) prices for raw sheepskins and lambskins rose rapidly. By August 1946, sales were made at double the former ceiling prices. Tanners of imported sheepskins and lambskins, as a result, are unable to continue to make sales at existing ceiling prices for this leather without substantial hardship.

On June 7, 1946, a 6% increase was granted to the leather tanning industry in recognition of actual and imminent increases in costs, including labor, tanning materials and overhead cost increases and decrease in yield and volume of skins obtainable. This increase was found to be sufficient to return to the industry the same profit on investment as was obtained in a normal peacetime period in accordance with the industry earnings standard. The increase was not, however, designed to take into account the recent unprecedented changes in prices of imported raw skins. It is, accordingly, necessary, under the aforementioned standard, to increase prices for leather tanned from raw sheepskins which will reflect the increases in cost of imported raw sheepskins and lambskins.

Thirteen percent of all leather tanned in the continental United States is produced from sheepskins and lambskins. Approximately 50% of these raw skins are of foreign origin; the remainder are obtained from domestic slaughterhouses and pulleries. Once the tanning process has been completed, it is difficult to distinguish the foreign from the domestic skins by visual examination. Any increase, therefore, must apply to all sheepskin leather and must take into account the difference between domestic and foreign rawskin prices.

Although there is a paucity of information concerning purchases because of export embargoes in two of the principal producing areas (Argentina and New Zealand), the few purchases recently made indicate that the cost of raw imported sheepskins at present is approximately 100% higher than the 1945 level. The necessary adjustment for tanners of imported skins is based upon the increase in raw skin cost and the historic relationship of raw skin cost to finished leather prices. On this basis, and with an average sheepskin leather price of approximately 16¢ per square foot, it was found that tanners of skins of foreign origin only, would require an increase of 8¢ per square foot. In view of the fact that domestic producers tan foreign and domestic skins in varying proportions, a sliding scale of increases based upon the proportion of foreign and domestic skins soaked during the previous month is provided by the order. The individual tanner determines his adjustment in the following manner:

If during the month of August, a tanner soaks 5000 dozen sheepskins of which 3990 dozen are foreign and 1010 dozen are domestic, his percentage of imported skins is 79.8%. The percentage falls in the percentage group of Schedule A in Column I which reads "70% or over but less than 80%." The adjustment permitted for this group is 6¢ per square foot.

Each tanner will be required to file, monthly, on Form B in Appendix B, Maximum Price Regulation 61, the purchases and soakings information on which his adjustment is based. The first report, however, is required to be filed by tanners within 5 days after the date of issuance of this order.

Sellers other than tanners, including processors, finishers, jobbers, dealers, wholesalers, manufacturers, tanner-cutters and cutters are allowed to pass on the increases which they pay to tanners. Processors and finishers obtain a simple pass-through of the dollars-and-cents adjustment which they have paid on each lot of leather. Jobbers, dealers and wholesalers obtain dollars-and-cents adjustments which represent a percentage pass-through, taking into consideration the amounts paid as adjustments to their suppliers and the average industry markup in effect on March 31, 1946. Cutters and manufacturers are allowed a percentage adjustment which is designed to return to them the amount actually paid as adjustments. No adjustment may be taken by manufacturers in the case of sales under section 7 (a) of Maximum Price Regulation 61. Tanner-cutters are authorized the same percentage adjustment as cutters based on their soakings of imported skins.

For stock sold by the pound, all sellers are allowed 24% over their previous unadjusted ceiling prices to reflect the average increase required to compensate for increased raw stock prices.

In order to prevent inequity during the first weeks of operation of this plan, a general increase of 24% is permitted all sellers other than tanners or tanner-cutters for all sheepskin leather. This

provision remains effective until October 1, 1946, and only for sales made in that period where deliveries are completed by that date.

If purchase data indicates that there is a change in the level of prices paid for foreign skins, corresponding adjustments in Schedules A and B will be made. In all cases this adjustment and any other adjustments taken under Maximum Price Regulation 61 must be computed on the unadjusted price established in accordance with the provisions of Maximum Price Regulation 61. The adjustments established herein must be stated as separate items on invoices. Provision is made however, for the simplification of invoicing by permitting cutters, tanner-cutters, and manufacturers to combine in a single statement on the invoice the percentage increase authorized by this order and that provided under Revised Order No. 14.

All provisions of this order and their effect upon business practices, cost practices or methods, or means or aids to distribution in the industry or industries affected have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, aids or methods established in the industry or industries affected, have been included in the order unless such provisons have been found necessary to achieve effective price control and to prevent circumvention or evasion of the regulation or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of the regulation or of the Emergency Price Control Act of 1942, as amended.

In so far as practicable, the Administrator has consulted with representatives of the industry affected by this order and has given consideration to their recommendations. In the opinion of the Administrator the maximum prices established by this order are fair and equitable to the industry generally and will effectuate the purposes of the Emergency Price Control Act, as amended, and Executive Orders 9250, 9328, 9599, 9651 and 9697.

Issued this 18th day of September 1946.

Administrator.

RADIO RECEIVER AND ALLIED SPECIAL PURPOSE TUBES

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion, issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 23 of Revised Maximum Price Regulation 136, *It is ordered:*

(a) (1) *Applicability.* For the purposes of this order, the phrase "sales by a manufacturer" shall mean the sale by a manufacturer, as defined in Revised Maximum Price Regulation 136, of radio receiver tubes and allied special purpose tubes when made to electron equipment manufacturers, for which the manufacturer of radio receiver tubes and allied special purpose tubes had maximum prices in effect pursuant to sections 7, 8, 9 and 31 of Revised Maximum Price Regulation 136.

(2) *Authorization to price adjustably.* Any manufacturer of radio receiver tubes and allied special purpose tubes to which paragraph (1) above applies, is authorized, subject to agreement with his buyer, to deliver such tubes at a price which may be adjusted upward in accordance with the action to be taken by the Office of Price Administration upon the request of the Radio Receiver Tube and Allied Special Purpose Tube Industry for a change in the applicable maximum prices of these commodities: *Provided, however,* That any price stated in such agreement shall not exceed the prices in effect for these commodities just prior to the issuance of this order, increased by 12%.

This order shall become effective September 18, 1946.

Issued this 18th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 677 UNDER REVISED MAXIMUM PRICE REGULATION 136

On May 2, 1946, Order No. 619 under Revised Maximum Price Regulation 136 granted manufacturers of radio receiver tubes and allied special purpose tubes a 27.5% increase in their current maximum prices for the sales of these products to manufacturers of electron equipment manufacturers. A further analysis of the increased production costs in this industry indicates that the current prices for these products constitute a threat to the ability of such industry to produce for civilian requirements. This authorization is therefore necessary to promote production by manufacturers of radio receiver and allied special purpose tubes pending the determination of relief which may be required.

It is the opinion of the Price Administrator that the authorization to price adjustably within the limits stated in the order will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended, but will serve to expedite the industry affected to return to a full production schedule.

FURNITURE

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith, and filed with the Division of the Federal Register, and pursuant to § 1499.159b of Maximum Price Regulation No. 188, *It is ordered:*

Order No. 4800 under Maximum Price Regulation No. 188 is amended in the following respect: The figure "25%" in section 4 (b) is amended to read "30%".

This amendment shall become effective on the 23d day of September 1946.

OPINION ACCOMPANYING AMENDMENT 4 TO ORDER NO. 4800 UNDER MAXIMUM PRICE REGULATION NO. 188

Order No. 4800 under Maximum Price Regulation No. 188 authorized increases in manufacturers' prices for household furniture.

The level of increase which could be authorized had been computed in accordance with the reconversion formula. However, in order to encourage the production of lower priced furniture the overall increase determined in the manner described in the opinion which accompanied the issuance of the original order was apportioned so that the increases applicable to lower priced articles were higher than those authorized for the more expensive items. Accordingly, the increase for items falling within the definition of "essential low-end furniture" was 25%.

Since the issuance of Order No. 4800 manufacturers have experienced further increases in material and labor costs. To a great extent, however, these cost increases have been compensated for by corersponding decreases in cost accounted for by increased volume production and other economies which the industry has been in a position to effect. It therefore does not appear that further overall increases are required at this time.

In the case of essential low-end furniture, however, in which lumber and labor are the principal cost items, the increases in these costs have not been compensated for by other factors. The Administrator has therefore determined that an authorized increase of 30% rather than 25% which has been in effect hitherto is necessary in order to restore a more favorable profit position in regard to the production of these lower priced articles. It is believed that further increase will enable manufacturers to produce lower priced articles on a larger scale with the consequent advantages to the consuming public.

ESTABLISHMENT OF MAXIMUM PRICES

Order 318 under section 13 of Maximum Price Regulation 580, order of revocation. Frank Bros.—Neptune Manufacturing Co. Docket No. 6063-580-13-788.

For the reasons set forth in the opinion issued simultaneously herewith, Order No. 318 under section 13 of Maximum Price Regulation 580, issued to Frank Bros—Neptune Manufacturing Co., 709 West Market Street, Louisville, Kentucky, is hereby revoked

Frank Bros.—Neptune Manufacturing Co. shall send a copy of this order of revocation to each person to whom it sent a copy of Order 318 or whom it notified of the provisions of Order 318.

This order shall become effective September 19, 1946.

Issued this 18th day of September 1946.

OPINION ACCOMPANYING ORDER OF REVOCATION OF ORDER NO. 318 UNDER SECTION 13 OF MAXIMUM PRICE REGULATION NO. 580

The accompanying order revokes Order 318 issued under Section 13 of Maximum Price Regulation 580 to Frank Bros.—Neptune Manufacturing Co. 709 West Market Street, Louisville, Kentucky. Order 318, which established a uniform retail ceiling price for a topcoat manufactured by that firm, is revoked because the article is low-end merchandise which should be priced under Maximum Price Regulation 578. The manufacturer is required to send a copy of the accompany order of revocation to each person to whom it sent a copy of Order 318 or whom it notified of the provisions thereof.

KENDALL CO.

ESTABLISHMENT OF CEILING PRICES

Maximum Price Regulation 580, Amendment 1 to Order 299. Establishing ceiling prices at retail for certain articles. Docket No. 6063-580-13-769.

For the reasons set forth in the opinion issued simultaneously herewith, Order No. 299 issued under section 13 of Maximum Price Regulation 580 on application of Bauer & Black, Division of The Kendall Company, 2500 South Dearborn Street, Chicago 16, Illinois, is amended in the following respects:

1. Paragraph (a) is amended by adding the following:

Article	Brand name	Selling price (per dozen)	Retail ceiling (per unit)
Men's Supporter	Bauer & Black	$41.40	$5.00

2. Paragraph (d) is amended by adding thereto the following undesignated paragraph:

Upon issuance of any amendment to this order which either adds an article to those already covered by the order or changes the retail ceiling price of a covered article, the manufacturer as to such article must comply with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60 day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this order. However, the pricing provisions of this order or of any subsequent amendment thereto shall apply as of the effective date of the order or applicable amendment.

3. Paragraph (e) is amended to read as follows:

(e) At the time of or before the first delivery to any purchaser for resale of any article covered by this order, the seller shall send the purchaser a copy of the order and of each amendment thereto issued prior to the date of such delivery. Within 15 days after the effective date of any subsequent amendment to the order, the seller shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment. The seller shall also send a copy to all other purchasers at the time of or before the first delivery of the article subject to the effective date of the amendment.

This amendment shall become effective September 19, 1946.

Issued this 18th day of September 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

OPINION ACCOMPANYING AMENDMENT 1 TO ORDER 299 UNDER MAXIMUM PRICE REGULATION NO 580

The accompanying amendment to Order No. 299 issued to Bauer & Black, Division of The Kendall Company, 2500 South Dearborn Street, Chicago 16, Illinois, under section 13 of Maximum Price Regulation 580 establishes a uniform retail ceiling price for a certain style of men's supporter upon which production is being resumed after an interruption due to wartime shortages and restrictions. This will enable the manufacturer to continue its customary business practice of maintaining uniform retail selling prices on its branded merchandise.

The amendment expressly declares that the retail ceiling prices established by the order or any amendment thereto apply as of the effective date of the order or amendment. This was done to make it clear that the effective date of the established prices is not governed by the preticketing provision of the order. With respect to articles for which retail ceiling prices are established by amendment, provision is made for the suspension of the preticketing requirements for a specified period.

The amendment also broadens the notice provision in paragraph (e) by requiring that the manufacturer send copies of amendments to the order to affected purchasers.

SPECIFIED CONSTRUCTION MATERIALS AND REFRACTORIES

MODIFICATION OF MAXIMUM PRICES

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order 1 is amended in the following respects:

1. A new section 2.1 (n) is added to read as follows:

(n) *Manufacturers maximum prices in Structural Clay Products Areas 1–17 inclusive*—(1) *What this paragraph covers.* This paragraph covers the manufacturers' maximum delivered prices for clay and shale building brick (common and face, including glazed ware), structural clay hollow and face building tile (including glazed facing tile), and clay drain tile (except clay drain tile produced in Structural Clay Products Area 4, and except clay drain tile manufactured as an allied product to Vitrified Clay sewer pipe), manufactured in Structural Clay Products Areas 1–17, inclusive. (For descriptions of Structural Clay Products Area 4, and Areas 1–17 see section 2.1 (k), (l) and (m) of Order 1.)

(2) *Manufacturers' maximum prices.* The manufacturers' maximum delivered prices for the items covered by this paragraph established pursuant to Maximum Price Regulation 592 as increased by the applicable area provisions of paragraphs (a) to (m) of section 2.1 of Order No. 1 under Maximum Price Regulation 592, may be further increased by amounts not in excess of the actual dollars-and-cents increased outbound interstate rail freight costs to him resulting from ex parte actions 148 and 162, effective July 1, 1946, taken by the Interstate Commerce Commission, and those actions regarding intrastate rail freight rates taken by State Public Utility or Railroad Commissions subsequent to June 30, 1946.

2. Section 2.1 (e) (4) is amended to read as follows:

(4) *Maximum prices for manufacturers of drain tile in Structural Clay Products Area 4.* The manufacturers' maximum prices established pursuant to Maximum Price Regulation No. 592, for clay or shale drain tile produced in Structural Clay Products Area 4 may be modified by adding an amount per M feet, not in excess of the amount set forth below opposite the following sizes and weights:

Size (inches)	Weight per foot (pounds)	Adjustment per M feet

Area 1 is defined to include the following: the state of Ohio, except Cuyahoga County; the following counties in Pennsylvania: Allegheny, Beaver, Lawrence, Washington, Armstrong, Butler, Clarion, Crawford, Erie, Fayette, Forest, Greene, Indiana, Mercer, Venango, Warren, Westmoreland, Bedford, Blair, Cambria, Cameron, Clearfield, Elk, Jefferson, McKean, Potter, Somerset; the following counties in Maryland: Allegany, Garrett, Frederick and Washington; the following counties in West Virginia: Brooke, Cabell, Hancock, Jackson, Kanawha, Mason, Marshall, Monongalia, Ohio, Pleasants, Putnam, Tyler, Wetzel, Wood, Barbour, Braxton, Calhoun, Clay, Doddridge, Gilmer, Grant, Hampshire, Hardy, Harrison, Lewis, Lincoln, Marion, Pendleton, Preston, Randolph, Ritchie, Roane, Taylor, Tucker, Upshur, Wayne and Wirt.

Area 2 is defined to include the following: the following counties in Pennsylvania: Adams, Bradford, Centre, Clinton, Columbia, Cumberland, Dauphin, Franklin, Fulton, Huntington Juniata, Lancaster, Lebanon, Lycoming, Mifflin, Montour, Northumberland, Perry, Snyder, Sullivan, Tioga, Union, York; the following counties in Maryland: Anne Arundel, Baltimore, Calvert, Carroll, Charles, Harford, Howard, Jefferson, Montgomery, Prince Georges, St. Marys; the following counties in West Virginia: Berkeley, Boone, Fayette, Greenbrier, Jefferson, Logan, Mercer, Mineral, Mingo, Monroe, Morgan, McDowell, Nicholas, Pocahontas, Raleigh, Summers, Webster, Wyoming.

Area 3 is defined to include the following: the states of Connecticut, Vermont, Rhode Island, Massachusetts, New Hampshire, the following counties in Maine: Cumberland, Sagadahoc, York, Androscoggin, Franklin, Kennebec, Knox, Lincoln, Oxford, Penobscot, Piscataquis, Somerset, Waldo; the following counties in New York: Albany, Bronx, Columbia, Delaware, Dutchess, Franklin, Fulton, Greene, Hamilton, Herkimer, Jefferson, Kings, Lewis, Montgomery, New York, Orange, Otsego, Putnam, Queens, Rensselaer, Richmond, Rockland, Saratoga, Schenectady, Schoharie, St. Lawrence, Sullivan, Ulster, Washington, Westchester and Clinton, Essex, Nassau, Suffolk, Warren; the following counties in Pennsylvania: Berks, Bucks, Carbon Chester, Delaware, Lackawanna, Lehigh, Luzerne, Montgomery, Monroe, Northampton, Philadelphia, Pike, Schuylkill, Susquehanna, Wayne, Wyoming; Washington, D. C.; the following counties in Maryland: Caroline, Cecil, Dorchester, Kent, Queen Annes, Somerset, Talbot, Wicomico, Worcester, the states of Delaware and New Jersey.

Area 4 is defined to include the following counties in Maine: Aroostook, Hancock and Washington.

7. A new section 2.4 (d) is added to read as follows:

(d) Notwithstanding the provisions of (a) and (b), above, jobbers or dealers purchasing clay drain tile for resale in the same form from any manufacturer who has increased his prices in accordance with Amendment 39 to Order 1, effective April 29, 1946 and Amendment 63 to Order 1, effective September 23, 1946, may increase their maximum prices as follows:

(1) Resellers whose maximum prices were not covered by area orders, on March 31, 1946, under General Order 68, may increase their March 31, 1946 maximum prices by 11.5 percent if located in Ohio, and by 10 percent if located elsewhere.

(2) Resellers covered by area orders on March 31, 1946, under General Order 68, may increase their maximum prices established under the area order as of March 31, 1946, by 11.5 percent if located in Ohio and by 10 percent if located elsewhere.

(3) If after September 23, 1946, maximum prices in effect on September 23, 1946, are changed by an area order issued under General Order 68, or by an amendment to such an order, the maximum prices established by the area order shall supersede maximum prices established under (1) or (2) above.

8. Section 7.14a is added to read as follows:

SEC. 7.14a *Modification of maximum delivered prices for sand lime building brick.* (a) The manufacturer's maximum net delivered prices for sand lime brick established pursuant to Maximum Price Regulation 592 as increased by Section 7.14 (above) may be further increased by amounts not in excess of the actual dollars-and-cents increased outbound interstate rail freight costs to him resulting from ex parte actions 148 and 162, effective July 1, 1946, taken by the Interstate Commerce Commission, and intrastate outbound rail freight resulting from State Public Utility or Railroad Commission actions subsequent to June 30, 1946.

(b) *Non-standard sizes.* If the manufacturer had an established differential in price during the month of March 1942 for non-standard sizes of sand lime building brick, he may convert the adjustments granted herein for standard size brick on the basis of conversion factors or formula used by him during March 1942 in establishing a price differential between the standard size brick and the non-standard size brick under this adjustment.

(c) *Maximum prices for resellers.* Any jobber or dealer purchasing sand lime building brick for resale in the same form from any manufacturer who has modified his maximum delivered prices in accordance with (a) above, may increase his maximum prices in effect on March 31, 1946, by an amount not exceeding the percentage increase in cost to him resulting from the increase granted manufacturers pursuant to (a) above.

This amendment shall become effective September 23, 1946.

Issued this 18th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 63 TO ORDER 1 UNDER SECTION 25 OF MAXIMUM NO. 592

The accompanying amendment permits manufacturers of certain structural clay products to increase their presently established maximum delivered prices for these products by the actual dollars-and-cents increased cost to them resulting from increases in outbound interstate rail freight rates permitted by the Interstate Commerce Commission, pursuant to ex parte actions 148 and 162 effective July 1, 1946, and intrastate outbound rail freight rates resulting from State Public Utility Railway Commission actions subsequent to June 30, 1946. The maximum delivered prices of the specific structural clay products involved in this action are common and face clay and shale building brick (including glazed ware), structural clay hollow and face building tile (including glazed facing tile), sand lime brick, and clay drain tile (except drain tile which is manufactured as an allied product to vitrified clay sewer pipe). The Interstate Commerce Commission action increased interstate rail freight rates by 11.3 percent in the Official Classification Territory and 6 percent in the rest of the United States. This amendment also covers outbound intrastate freight increases identical to the Federal action thereby enabling manufacturers to increase their delivered prices at and after the effective dates of said freight increases. While the action anticipates certain future intrastate increases upon which final decisions have not yet been reached, the Administrator will set a cut-off date when all state Commissions render final decisions on petitions of rail carriers filed with them, and in that manner will limit the freight cost pass-through to increases associated with the Federal action.

For all of the listed commodities except clay drain tile produced in Structural Clay Products Area 4, each manufacturer may increase his own delivered prices by the actual dollars-and-cents increased cost to him resulting from the increased outbound rail freight costs. For manufacturers of clay drain tile in Structural Clay Products Area 4, defined to include the states of Ohio, West Virginia, Michigan, except the Upper Peninsula, and that part of Pennsylvania west of and including the counties of Potter, Cameron, Clearfield, Blair and Bedford, the increase in maximum delivered prices reflecting increases in outbound rail freight costs are spelled out by a specific dolars-and-cents amount. The accompanying amendment does not modify presently established manufacturers' f. o. b. prices, or delivered prices where the transportation mode is other than by rail, except that manufacturers of clay drain tile in Structural Clay Products Area 4 are permitted an increase of 20 cents per ton in the maximum f. o. b. and delivered prices which reflects increases in coal costs resulting from Amendment 158 to Maximum Price Regulation 120, effective June 21, 1946.

Previously in Amendments 9 and 35 to Order 1, issued September 18, 1945 and April 1, 1946, respectively, incentive increases of $2.00 per thousand for standard sized brick and $0.80 per ton for structural tile were deemed appropriate to promote increased production of these vital building materials. The conditions which made these amendments necessary continue to prevail and the Price Administrator considers the present action appropriate for reasons identical to those set forth in the opinions accompanying these earlier Amendments, which are incorporated herein by reference. In addition, it is designed to result in net plant realizations approximating realizations prior to freight increases. In the absence of this action, producers who ordinarily sell on a delivered price basis would restrict their normal trading areas because of their inability to absorb the additional freight costs. Thus, present channels of distribution would be disrupted and outlying districts would not continue to receive their share of the production. The accompanying amendment encourages the continuance of the flow of brick to areas normally served by the manufacturers prior to July 1, 1946.

Pursuant to Amendment 24 to Order 1, issued December 29, 1945, glazed ware producers received an additional $2.50 per thousand increase, over and above the increase previously authorized by Amendment 9. Amendment 24 was designed to return the glazed ware industry to its 1936–1939 earnings position. Data available as to current output and earnings indicate that the conditions prevalent at that time continue to prevail and the opinion accompanying the former action is incorporated herein by reference. It has been determined that the additional cost represented by the increase in freight cannot be absorbed without reducing current earnings below earnings during the base period years 1936–1939. The accompanying amendment therefore, permits glazed ware producers to pass through their increased rail freight costs and thus insures the continued flow of this building commodity to all points presently serviced by this industry.

Clay drain tile, except as produced in Structural Clay Products Area 4, is manufactured primarily by brick and by sewer pipe manufacturers. Appropriate action for the latter group of manufacturers is presently under consideration by the Office of Price Administration. The accompanying action for drain tile produced by brick manufacturers is deemed appropriate for the same reasons outlined above. For clay drain tile produced in Structural Clay Products Area 4, Amendment 39 to Order 1, issued April 29, 1946, was deemed appropriate to return the industry to its 1936–1939 base period rate of profit. Available data as to current earnings and output indicate that the conditions prevalent at that time are still applicable and the opinion accompanying the earlier action is incorporated herein by reference. In addition, the accompanying amendment also permits clay drain tile manufacturers in Structural Clay Products Area 4 to increase their f. o. b. and delivered prices by an amount which reflects their increases in coal costs. The Administrator finds that in this instance absorption of the coal and freight increases would reduce this industry's profit position materially below base period levels. By permitting appropriate price increases based upon the amount required to restore base period earnings of this industry, the continued production and normal distribution of this vital building commodity is assured.

Resellers of brick and tile, except that produced in Structural Clay Products Area 4, are permitted to increase their present maximum prices by the percentage increase in acquisition cost resulting from the increases permitted the manufacturer by the accompanying amendment. Resellers of sand lime brick are permitted by this action to increase their maximum prices by the percentage increased cost to them resulting from the increase permitted the manufacturer. Thus, resellers will continue the same percentage margins. The accompanying amendment also permits Ohio resellers of clay drain tile produced in Structural Clay Products Area 4 to increase their March 31, 1946 prices, by 11.5 percent, and, if located elsewhere by 10 percent. The adjustments thus allowed have been determined by the Administrator to be necessary to permit these resellers to realize their average March 31, 1946 markups, and include cognizance of the price increase granted clay drain tile manufacturers in Amendment 39 to Order 1, under Maximum Price Regulation 592, effective April 29, 1946.

Prior to the issuance of the accompanying amendment, the Administrator has so far as practicable consulted with representatives of the industries involved and has given consideration to their recommendations. After due consideration of the foregoing, the Administrator finds that this action is appropriate under the circumstances and consistent with the purposes of the Emergency Price Control Act of 1942, as amended, and the Executive Orders of the President.

READY-MIXED CONCRETE

MODIFICATION OF MAXIMUM PRICES

An opinion accompanying this Amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order 1 is amended in the following respect:

Section 4.4 is amended to read as follows:

SEC. 4.4 *Modification of maximum prices of ready-mixed concrete.* (a) The manufacturer's maximum prices established pursuant to Maximum Price Regulation 592, for ready-mixed concrete, may be increased by adding to his established maximum prices per cubic yard for each specification of that commodity amounts not in excess of the following:

(1) The actual dollars-and-cents additional cost resulting from the price increases for sales of cement permitted by Amendments Nos. 6, 9, 10, 11, 13, and 14, to Regulation 224.

(2) The actual dollars-and-cents additional cost resulting from the price increase for sales of cement permitted by Amendment 17 to Maximum Price Regulation 224.

(3) The actual dollars-and-cents additional cost resulting from increases in in-bound rail freight charges on cement, sand, and coarse aggregates permitted pursuant to Interstate Commerce Commission ex parte actions 148 and 162, effective July 1, 1946, for interstate shipments of these commodities, and by State Public Utility or Railroad Commissions subsequent to June 30, 1946, for intrastate shipments of these commodities.

(b) As used in this Section 4.4 the term "manufacturer" means any person who makes the first sale of ready-mixed concrete.

(c) The manufacturer's maximum prices for ready-mixed concrete as increased by (a) above, may be rounded off to the nearest $0.05 per cubic yard.

(d) Each ready-mixed concrete manufacturer who recomputes his maximum prices to reflect the increases permitted by (a) (2) and (3) above, shall file with the Office of Price Administration, Building Materials Price Branch, Washington 25, D. C., a report setting forth the information required by OPA Form 2905 as set forth in Appendix A. This report must be filed within 10 days after the determination of modified maximum prices.

(e) The Office of Price Administration may at any time revoke adjustments under this section when the basis for the establishment of such prices appears incorrect.

This amendment shall become effective September 23, 1946.

NOTE: The reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 18th day of September 1946.

INSTRUCTIONS

Accompanying OPA Form 2905 for Calculation of Ready-Mixed Concrete Prices under Amendment 64 to Order 1 under Maximum Price Regulation No. 592

1. Complete a separate form for each of your five principal mixes of ready-mix concrete and your three principal mixes of topping, a total of eight forms to be submitted. Retain one set of forms for your files.

2. Specify the mix at the heading of each form, such as 1:2:4 (5 bag), 1:2:3 (6 bag), etc.

3. Cement price increases permitted by amendments to MPR 224, prior to 17, have already been included in your prices and should not be included in this report.

Amendments 17 to MPR 224 permitted an increase of $0.05 per barrel for bagged cement only. Specify whether the figure in column 2, line 1, includes this $0.05 by inserting an "x" in the proper box in the column heading.

4. In column 3, line 1, specify the number of barrels of cement used per cubic yard of concrete. For example, in a 5-bag mix, this would be 1.25.

5. In columns 1, 2, and 3 of line 2, specify the unit for your sand, whether cubic yard or ton.

6. In column 3, line 2, specify the number of units of sand used per cubic yard of ready-mix. For example, in a 5-bag mix, this would be on the average 0.630 tons of sand per cubic yard of concrete.

7. In columns 1, 2, and 3, of line 3, specify the unit for your coarse aggregate, whether cubic yard or ton.

8. In column 3, line 3, specify the number of units of coarse aggregate used per cubic yard of ready-mix. For example, in a 5-bag mix, this would be, on the average, 1.075 tons of gravel per cubic yard of concrete.

9. For lines 2, and 3, show only the increased cost to you of sand and coarse aggregate resulting from the rail freight increases authorized July 1, 1946, by the Interstate Commerce Commission, and those intra-state rail freight increases authorized by your State Public Utility or Railroad Commission since June 30, 1946.

OPINION ACCOMPANYING AMENDMENT NO. 64 TO ORDER NO. 1 UNDER SECTION 25 UNDER MPR 592

The accompanying Amendment permits manufacturers of ready-mixed concrete to add to their maximum prices the dollars-and-cents amount of their increased cost resulting from (1) Increases in maximum prices permitted by Amendment 17 to Maximum Price Regulation 224 and (2) increased cost of freight on cement, sand and coarse aggregates by *ex parte* Interstate Commerce Commission actions effective July 1, 1946, and those state regulatory agency actions affecting rail freight rates effective subsequent to June 30, 1946. The former Amendment, effective July 26, 1946, provided for an increase of $0.05 in the manufacturers' maximum prices for Portland Cement, when sold in paper or cloth bags, in that part of the United States east of, but not including, the states of Montana, Wyoming, Colorado and New Mexico. Amendment 17 to Maximum Price 224 did not modify cement prices when sold in bulk. The Interstate Commerce Commission permitted interstate freight increases of 8.15 percent for sand, gravel and crushed stone and 11.3 percent for cement in the Official Classification Territory, and for the remainder of the country, 3 percent and 6 percent, respectively.

Previously, Section 4.4 of Order 1 under Maximum Price Regulation 592, permitted ready-mixed concrete producers to pass-through cement price increases resulting from Amendments 6, 9, 10, 11, 13, and 14 to Maximum Price Regulation 224. The San Francisco Regional OPA Office also permitted the cement increase pass-through for Southern California, Southeastern Nevada, and Arizona. Before issuing these adjustments, the Office of Price Administration obtained extenstive data on production, sales and margins for ready-mixed concrete. Studies of these earnings indicated that these previous cement price increases could not be absorbed, since by so doing, earnings for this industry would be reduced below the average of pre-war years. The conditions which made Section 4.4 and Amendments thereto necessary continue to prevail and the Price Administrator deems the present action appropriate for the reasons set forth in the opinions accompanying the issuance of the previous actions, which are incorporated herein by reference. Available information regarding margins of ready-mixed concrete producers in those parts of the United States not yet covered by Section 4.4 also indicate inability to absorb these cost increases.

The rail freight rate increases both Federal and State, on cement, sand and coarse aggregates, similarly cannot be absorbed by the ready-mixed concrete industry. The State actions concerning intrastate rail rates are in many instances identical with the Federal action, and in others, no final decision had been reached by the date of issuance of the accompanying Amendment. When future State actions become effective, the accompanying Amendment will also permit each manufacturer to increase his prices in accordance with his increased freight costs. Since it is the intention of the Administrator to limit the intrastate freight cost pass-through to increases resulting from the railroads' joint petition before the Interstate Commerce Commission and the several State agencies, he will provide a cut-off date as soon as all the State Commissions take final action with respect to this petition.

This Office has not specified the exact increase in manufacturers' prices for ready-mixed concrete since it is apparent that the resulting cost increases for cement and freight do not result in meaningful averages. Accordingly, each manufacturer is permitted to compute his own adjustment when the cost of his cement and aggregates are increased because of higher rail freight rates and the cost of his packaged cement is increased by $0.05 and then, only by an amount not to exceed the actual additional cost of cement and aggregates entering into each specification of the commodity. Previously, the uniform cement cost increases were calculated by each producer. However, in this instance, the cost increases resulting from the freight increases on cement, sand and coarse aggregates vary widely with each producer, and accordingly, each producer who modifies his prices in accordance with the provisions of the accompanying amendment is required to file within 10 days after the determination of modified maximum prices a report for each of his five principal mixes of ready-mix concrete and three principal mixes of topping. These reports merely require a formal statement of calculations which each producer must make in complying with the formula set forth in the accompanying amendment. The Administrator will take appropriate action revising established prices where adjustments are computed incorrectly.

The established trade practice for manufacturers of ready-mixed concrete is to quote prices of this commodity to their customers in dollars-and-cents amounts rounded to the nearest 5c. The Amendment permits continuation of this practice.

Prior to the issuance of this Amendment, the Price Administrator consulted so far as practicable with representatives of the ready-mixed concrete industry and has given consideration to their recommendations. The reporting provision of the action and the report itself have been discussed with industry representatives and found acceptable and feasible.

On the basis of the foregoing considerations, the Price Administrator has determined that the adjustment provided herein is in accordance with the Emergency Price Control Act of 1942, as amended, and the Executive Orders of the President.

SOLID FUELS IN DENVER REGION

Order No. G-26 under Revised Maximum Price Regulation No. 122, Amendment No. 47. Maximum prices for solid fuels when sold by dealers within specified trade areas in Region VII. Docket No. 7-122-259 (a) (1), 260-29.

Pursuant to the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and sections 1340.259 (a) and 1340.260 of Revised Maximum Price Regulation No. 122, and for the reasons set forth in the accompanying opinion, this Amendment No. 47 is issued.

1. The table of maximum prices, as set forth in paragraph (3) of Appendix VI, Denver Metropolitan Trade Area, as heretofore amended, is hereby further amended by inserting at the end thereof and immediately preceding the note thereto, the following proviso: "*Provided, however*, That if you are a dealer located in the Lakewood suburban area of the Denver Metropolitan Trade Area, you may, as to all coal produced in District 16 and coming to your yard by rail shipment originating on the Union Pacific Railroad, add 21¢ per ton to the above specified dollars and cents prices."

2. *Effective date.* This Amendment No. 47 shall become effective on the 4th day of September 1946.

Issued this 4th day of September 1946.

PAUL D. SHRIVER,
Acting Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 47, ORDER NO. G-26 UNDER MAXIMUM PRICE REGULATION NO. 122

When maximum dollars-and-cents prices were established for the Denver Metropolitan Trade Area as set forth in Appendix VI to Order No. G-26 under Revised Maximum Price Regulation No. 122, dealers located in the Lakewood suburban area were able to have coals purchased by them from producers in District 16 shipped via Chicago, Burlington and Quincy Railroad, and the principal source of supply was the Columbine Mine of the Rocky Mountain Fuel Company. Some months ago the said Columbine Mine ceased production, and now the only sources of supply available to dealers located in said Lakewood suburban area are those which make shipment via Union Pacific Railroad only; and because of established freight tariffs, including a switching transfer at Denver to a local line which makes delivery, said Lakewood suburban area dealers are now subjected to an additional freight transportation charge of 21¢ per ton, and this Amendment No. 47 permits them to add such increase in their transportation costs to their dollars-and-cents maximum prices.

FRUITS AND VEGETABLES IN DALLAS REGION

For the reasons set forth in an accompanying opinion, this order is issued:

(1) The list of food items and prices are hereby deleted from all fresh fruit and vegetable price orders in this Region.

Issued and effective September 3, 1946.

W. A. ORTH,
Regional Administrator.

OPINION ACCOMPANYING SUPPLEMENTARY ORDER NO. 11

The order which this opinion accompanies removes all fresh fruit and vegetable items and prices from community Pricing Orders in Region V without impairment to the structure of the orders. The action is taken for the reason that most fresh fruits and vegetables have been removed from price control and at the present time it is uncertain as to the future program of community pricing of fresh fruits and vegetables. Those food items which remain under price control will be priced in accordance with the basic regulation covering the level of sale.

[Region III Order G-19 Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN FAIRMONT, W. VA., AREA

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1-B, *It is hereby ordered*, That:

(a) Table I of Order No. G-19 be amended to read as set forth in the price list marked Table I, which is annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amendment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this amendment.

(c) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of Resellers Maximum Prices Established under General Order No. 68 for Certain Building and Construction Materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This Amendment No. 1 to Order No. G-19 shall become effective August 19, 1946.

Issued August 19, 1946.

J. F. KESSEL.
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-19 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. Furthermore, Section 10 (t) of the Emergency Price Control Act, as amended, provides that retail distributors shall be allowed their average percentage mark-up, as of March 31, 1946, over their average current acquisition costs.

In order to meet the requirements of Section 10 (t) and to maintain maximum prices which are fair and equitable, the accompanying amendment is being issued.

In the opinion of the Regional Administrator, the provisions of the accompanying amendment are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of General Order No. 68, as amended.

[Region III Order G-30 Under G. O. 68, Amd't. 2]

HARD BUILDING MATERIALS IN HUNTINGTON, W. VA. AREA

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1-B, *It is hereby ordered*, That:

(a) Table I of Order No. G-30 be amended to read as set forth in the price list marked Table I, which is annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amendment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this amendment.

(3) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of Resellers Maximum Price Established under General Order No. 68 for Certain Building and Construction Materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This Amendment No. 2 to Order No. G-30 shall become effective August 19, 1946.

Issued August 19, 1946.

J. F. KESSEL.
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 2 TO ORDER NO. G-30 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. HARD BUILDING MATERIALS IN RICHMOND, IND., AREA

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1-B, *It is hereby ordered*, That:

(a) Table I of Order No. G-35 be amended to read as set forth in the price list marked Table I, which is annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amendment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this amendment.

(c) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of Resellers Maximum Prices Established under General Order No. 68 for Certain Building and Construction Materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This Amendment No. 1 to Order No. G-35 shall become effective August 21, 1946.

Issued August 21, 1946.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-85 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. Furthermore, Section 10 (t) of the Emergency Price Control Act, as amended, provides that retail distributors shall be allowed their average percentage mark-up, as of March 31, 1946, over their average current acquisition costs.

In order to meet the requirements of Section 10 (t) and to maintain maximum prices which are fair and equitable, the accompanying amendment is being issued.

In the opinion of the Regional Administrator, the provisions of the accompanying amendment are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942,

MALT BEVERAGES IN DESIGNATED SOUTHERN STATES

For the reasons set forth in the opinion issued simultaneously herewith and under the authority vested in the Regional Administrator by GO 50, Region V Order No. G-1 under GO 50, Maximum Prices for Malt Beverages in Designated Southern States, is amended in the following respects:

1. Table I, section 20, Appendix A, is amended by adding thereto the following brand names: Allweiden Brand, Badger Club Beer, and Hackers 5X Beer.

2. Table II, section 20, Appendix A, is amended by adding thereto the following brand names: Boston Beer and Signet Beer.

This amendment shall become effective September 4, 1946.

Issued at Dallas, Texas, this 5th day of September 1946.

W. A. ORTH,
Regional Administrator,
Region V, Dallas, Texas.

OPINION ACCOMPANYING AMENDMENT NO. 16 TO REGION V ORDER G-1 UNDER GENERAL ORDER 50

This amendment to the Region V Beer Order is issued for the purpose of incorporating into the list of brands in Table I, Section 20, Appendix A of the Order, Allweiden Brand brewed by White Eagle Brewing Company, Chicago, Illinois; Badger Club Beer brewed by Fauerbach Brewing Company, Madison, Wisconsin; and Hackers 5X Beer brewed by Cold Spring Brewery, Lawrence, Massachusetts. The Regional Administrator has found that the beverages named are "premium" brands of malt beverages and that the f. o. b. brewery prices and/or the historical retail selling prices of these brands are equivalent with the other brands of beer presently listed in the table. The amendment also incorporates into the list of brands in Table II, Section 20, Appendix A of the Order Boston Beer, brewed by the Boston Beer Company, Boston, Massachusetts, and Signet Beer, brewed by Lancaster Brewery Inc., Lancaster, Pennsylvania. The f. o. b. brewery prices of these brands are equivalent to the costs of brands presently listed in Table II.

The Regional Administrator is of the opinion that Amendment No. 16 is generally fair and equitable and will properly effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

W. A. ORTH,
Regional Administrator.

OPINION ACCOMPANYING ORDER REVOKING ORDER NO. G-4 UNDER SECTIONS 17 AND 23 OF MAXIMUM PRICE REGULATION NO. 592

Pursuant to the authority vested in him by Section 17 and 23 of Maximum Price Regulation 592, the Regional Administrator issued Order No. G-4 granting an adjustment of the maximum prices of sand produced and sold in the area comprising Clay and Jackson Counties, Missouri, and Johnson and Wyandotte Counties, Kansas, establishing the maximum prices, in dollars-and-cents amounts applicable to all sellers doing business in that area.

In issuing Order No. G-4 the Regional Administrator took into consideration certain information indicating that a local shortage of the supply of sand in the area covered by the order would develop and prevail unless an area-wide adjustment allowing price increases on the sale of sand was granted. There was also information available to the Regional Administrator indicating that sand had been sold historically by the various sellers in said area at substantially the same price.

Subsequent to the issuance of Order No. G-4, however, the Administrator has found that the threatened local shortage of the supply of sand in the area could be avoided by granting individual price adjustments to a small number of the suppliers of this commodity. The Administrator has also found that all suppliers of sand doing business in the trading area covered by Order No. G-4 have not historically sold sand at substantially the same price, therefore, the area-wide dollars-and-cents prices established in the order were not uniformly appropriate and fair to all sellers and purchasers of this commodity.

For the reasons, stated above, the Regional Administrator, by the accompanying order, has revoked the area adjustment Order No. G-4 issued under Sections 17 and 23 of Maximum Price Regulation 592.

CERTAIN SALES OF FLOUR FROM WHEAT, SEMOLINA AND FARINA IN CHICAGO REGION

For reasons set forth in an accompanying opinion and under the authority vested in the Regional Administrator of the Office of Price Administration by Section 12 of Revised Maximum Price Regulation 296; *It is ordered:*

1. That maximum prices set forth in paragraphs (2) and (4) of Appendix A, IX of Revised Maximum Price Regulation No. 296 are hereby increased 25¢ per hundred weight.

2. This order shall only be applicable in the Metropolitan Area at Chicago, Illinois.

3. This order may be revoked, amended or corrected anytime hereafter.

This order shall become effective at 12:01 a. m. on August 26, 1946 and shall terminate at 12:01 a. m. on October 31, 1946.

Issued: August 23, 1946.

EARL W. CLARK,
Regional Administrator.

OPINION ACCOMPANYING ORDER NO. G-1 UNDER SECTION 12 OF REVISED MAXIMUM PRICE REGULATION NO. 296

Revised Maximum Price Regulation No. 296 which establishes maximum prices for flour from wheat, semolina and farina, sold by millers, blenders, primary distributors and flour jobbers provides in paragraphs (2) and (4) of Appendix A, IX prices for shipments and deliveries of flour in amounts of 250 hundredweight or less. The maximum prices are determined for such sales by taking the base price set forth in Appendix A and adding thereto a markup of 25¢ per hundredweight for the Chicago Metropolitan Area on f. o. b. sales and 50¢ per hundredweight for delivered sales.

The Regional Administrator, under Section 12 of the regulation, has authority to increase the markups provided for in paragraphs (2) and (4) of Appendix A, IX provided that the increase does not exceed the 50¢ per hundredweight. The Chicago flour jobbers have requested the Regional Administrator to exercise this authority and have submitted to the Regional Administrator to exercise this authority and have submitted to the Regional Administrator their brief and argument. From an investigation it has been determined that normally distributors received flour in the Chicago Metropolitan Area on a delivered basis and the price paid for the flour is the laid down price in Chicago. However, because of present conditions millers are generally selling on f. o. b. plant basis requiring the distributors to pay the freight into Chicago. Because of increased freight charges the price to the distributor, laid down in Chicago, exceeds the price which flour may be sold at on a delivered basis into Chicago. This practice is permitted under Appendix A, XIV but limits the purchaser on resale to the maximum price applicable at the point where the flour is received by him. The result has been that the jobbers margin has been reduced substantially. This condition is a temporary one which should disappear in a short time. In addition distributors have had increased labor and delivery costs. The result of all these factors has tended to reduce the distributors markup to a point where they will be unable to operate profitably. The Regional Administrator has determined that an additional sum of 25¢ per cwt. should be sufficient to allow flour distributors in Chicago to continue operation and that sum has been allowed in the accompanying order. The order is made effective for a period of about 60 days and should events prove that a further continuation is necessary the flour distributors should, at least 2 weeks before that time, submit detailed data to the Regional Administrator to justify a further extension of the provisions of the order.

W. A. ORTH,
Regional Administrator.

OPINION ACCOMPANYING SUPPLEMENTARY ORDER NO. 10 UNDER REVISED MAXIMUM PRICE REGULATION NO. 251

By issuing Supplementary Order No. 10 under Revised Maximum Price Regulation No. 251, the Regional Administrator permits an increase in the maximum prices of certain asbestos-cement building material items and certain asphalt or tarred roofing materials, established in specified general area orders.

The dollars-and-cents maximum prices for the commodities affected by Supplementary Order No. 10 were established by general orders reflecting the general level of prices for those commodities as they existed under Revised Maximum Price Regulation No. 251, at the time the respective orders were issued.

Subsequent to the issuance of these orders, the Office of Price Administration, by Amendment No. 8 to Revised Price Schedule No. 45, effective May 10, 1946, granted a price increase to all manufacturers of asphalt or tarred roofing materials which includes certain commodities covered by the aforementioned general area orders. This amendment provides that the increased prices on said materials may be passed on by the purchaser who resells the commodities in the same form in which they were purchased. Therefore, this increased price on asphalt or tarred roofing materials will likewise increase the cost of the materials covered by those general orders when purchased for resale on an installed basis.

In like manner, the Office of Price Administration, by Amendment No. 6 to Maximum Price Regulation No. 466, effective May 22, 1946, granted a price increase to all manufacturers of asbestos-cement building materials, which includes certain commodities covered by the aforementioned general area orders. This amendment provides that increased prices on said materials may be passed on by the purchaser who resells them in the same form in which they were purchased. Therefore, this increased price on these materials will likewise increase the cost of certain asbestos-cement materials covered by those general orders when purchased for resale on an installed basis.

For these reasons the maximum prices established by general area orders for the sale of certain commodities made of asbestos-cement and asphalt or tar, when sold on an installed basis, have been increased to absorb this increased cost of these materials. Therefore, the Regional Administrator has issued Supplementary Order No. 10.

[Miami Rev. Order G-10 Under Gen. Order 68]

HARD BUILDING MATERIALS IN DADE COUNTY, FLA.

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68 it is ordered:

SECTION 1. *What this order covers.* This order covers all retail sales by any seller of commodities specified in this order delivered to a purchaser in Dade County, Florida.

SEC. 2. *Definition of retail sales.* For the purposes of this order, a retail sale means a sale to an ultimate user, or to a purchaser for resale on an installed basis.

SEC. 3. *Description of items covered by this order.* This order covers the commodities set forth in the annexed price table.

SEC. 4. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order. Except to the extent they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation, or of any other applicable regulation or order shall apply to sales covered

by this order. This order reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of Resellers Maximum Prices Established under General Order 68 for certain Building and Construction Materials). Accordingly, this order supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

SEC. 5. *Maximum prices.* The maximum prices for the building materials covered by this order are set forth in Table 1[1] which is annexed to and made a part of this order.

SEC. 6. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of the list of maximum prices fixed by this order in each of his places of business in Dade County in a manner plainly visible to all purchasers.

SEC. 7. *Sales slips and records.* Every seller covered by this order who has customarily given his customers a sales slip or other evidence of purchase must continue to do so. Upon request from a customer, each seller regardless of previous custom, shall give the purchaser a receipt showing the date, name and address of the seller, the description of each item sold and the price received for it. If he has customarily prepared his sales slips in more than one copy, he must keep for at least 6 months after delivery a duplicate copy of each sale slip delivered by him pursuant to this section. Each such seller shall also keep at least such records of each sale as he customarily kept. For any sale of $50.00 or more, each seller, regardless of previous custom, must keep records showing at least the following:

1. Name and address of buyer.
2. Date of transaction.
3. Place of delivery.
4. Complete description of each item sold and price charged.

SEC. 8. *Adjustment to reflect increase in suppliers price*—(a) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum price provides that all resellers, including those subject to area orders issued under General Order 68, may increase their maximum prices for the commodity in question.

(b) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your suppliers maximum price. You can only do this, however, if the effective date of the action increasing your suppliers maximum price is later than the date stated on the price list contained in this order. Thus, if your suppliers maximum price for a product is increased and at some later date the price listed in this order is increased for this product, the amendment to this order will supersede the increase originally granted you by the amendment or order increasing your suppliers maximum price.

[Region VI Order G-3 Under MPR 592]

CONSUMERS CO.

ESTABLISHMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to the provisions of section 16 of Maximum Price Regulation No. 592, it is ordered:

(a) *What this order does.* This order establishes maximum prices for sales of No. 2 Torpedo Sand and Gravel, and Crushed Stone produced by the Consumers Company, Chicago, Illinois (hereinafter referred to as the "producer").

(b) *Producer's maximum prices.* For sales covered by Maximum Price Regulation No. 592, the producer's maximum prices for No. 2 Torpedo Sand and Gravel, and Crushed Stone shall be the producer's maximum prices under the provisions of Maximum Price Regulation No. 592 plus 21 cents per cubic yard.

(c) *Resellers' maximum prices.* Each reseller of No. 2 Torpedo Sand and Gravel, and Crush Stone producer by the Consumers Company covered by this order may increase the prices listed in this order by the percentage by which the reseller's cost of acquisition has been increased by reason of the increase granted the producer pursuant to the provisions of this order.

(d) Producer and resellers must maintain customary discounts, allowances, and handling and delivery charges.

(e) *Notification.* At the time of or prior to the first invoice to the purchaser for resale, the producer shall furnish such purchaser with a copy of this order.

(f) *Definitions.* Reseller means any person who buys No. 2 Torpedo Sand and Gravel, and Crushed Stone subject to this order and who sells them in the same form as produced by the Consumers Company.

(g) *Applicability.* The maximum prices established by this order are applicable to all sales and deliveries of No. 2 Torpedo Sand and Gravel, and Crushed Stone subject to this order made in the continental United States.

(h) All requests not granted herein are denied.

This order may be amended, modified, or revoked at any time.

This Order No. G-3 shall become effective immediately, and shall remain in effect until December 31, 1946, unless otherwise amended, modified, or revoked by the Office of Price Administration.

Issued this 14th day of August 1946.

EARL W. CLARK,
Regional Administrator.

OPINION ACCOMPANYING ORDER NO. G-3 UNDER MAXIMUM PRICE REGULATION NO. 592

The accompanying order is issued pursuant to the provisions of section 16 of Maximum Price Regulation No. 592. Section 16 provides that a producer may file an application for adjustment where his supply of a commodity may not be replaced if he discontinued production, or his supply could be replaced only at a price equal to or higher than his requested maximum price. Paragraph (e) of this section provides that in connection with any order granting an adjustment in the producer's price, the Office of Price Administration may also adjust the maximum price of any person who resells the article in the same form to the extent deemed necessary in the judgment of the Price Administrator or his duly authorized representative.

The Consumers Company, Chicago, Illinois, filed an application with this Office requesting an increase in the maximum prices of No. 2 Torpedo Sand and Gravel, and Crushed Stone and also requested that adjusted prices be likewise established for resellers. An Order of Denial under section 16 of Maximum Price Regulation No. 592 was issued by this Office on March 29, 1946, on the ground that no adjustment in maximum prices was allowable in the light of the data then available to the Regional Administrator.

Since the issuance of the Order of Denial, the Consumers Company has submitted additional data indicating that the average selling price in 1945 was at such a level as to impede the continued supply of Crushed Stone and No. 2 Torpedo Sand and Gravel in the Chicago Area. We have found that the average selling price of these commodities did not return the average total costs. An average adjustment in the amount of 17 cents per cubic yard is warranted.

In addition, the Interstate Commerce Commission and the Illinois Commerce Commission has authorized freight rate increases, the effect of which has been calculated by this Office at 4 cents, rounded off to nearest cent, per cubic yard. It was found that this freight increase, which shall remain in effect until December 31, 1946, could not be absorbed in the costs of the commodities in question. Accordingly, a total increase of 21 cents per cubic yard, is allowable in the producer's maximum price of No. 2 Torpedo Sand and Gravel, and Crushed Stone.

[Region VII Rev. Order G-23 Under SO 94]

WAR SURPLUS COAL BURNING SPACE HEATERS IN DENVER REGION

Rev. Order G-23 Under Supplementary Order No. 94. Maximum resale prices at specified levels for the named war surplus commodity. Docket No. 7-SO 94-11-43.

Pursuant to the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and sections 11 and 13 of Supplementary Order No. 94, and for the reasons set forth in the accompanying opinion this Revised Order No. G-23 is issued.

(a) *What this revised order does.* This Revised Order No. G-23 supersedes Order No. G-23 as of the effective date hereof, and establishes maximum prices for all resellers of the war surplus commodity in question at the specified levels which are higher than the prices heretofore established by said Order No. G-23, in order to bring such resale prices into line with prices established by Region VI for the same commodity.

(b) *Description of commodity.* The war surplus articles covered by this Revised Order No. G-23 are used U. S. Army No. 1 coal burning space heaters, magazine type, manufactured by Locke Stove Company of 114 West Eleventh Street, Kansas City, Missouri, and designated by the manufacturer as Model 520 "Warm Morning" coal heaters. Each stove weighs approximately 300 pounds, has an over-all height of approximately 40½ inches, and a diameter of approximately 21 inches, with a 6-inch smoke pipe opening at top.

(c) *Maximum prices at specified levels.* (1) When sold by any reseller to a retailer, delivered at such retail dealer's place of business if shipment is by truck, or delivered at such retail dealer's nearest unloading point if shipment is by rail, the maximum prices for the commodity in question shall be as follows:

"As is": $19.50 each.
Reconditioned: $22.75 each.

(2) When sold by any reseller to an ultimate consumer, delivered at the seller's place of business or within his customary free delivery zone, the maximum prices for the commodity in question shall be as follows:

"As is": $32.50 each.
Reconditioned: $37.50 each.

(3) If cross-stream sales are made, that is, a sale by a wholesaler to a wholesaler, or a sale by a retailer to a retailer, nothing can be added to the net maximum prices as above set forth in subparagraphs (1) and (2) respectively. That is to say, a wholesaler who purchases from a wholesaler will still have as his maximum prices for sales made to retailers those above set forth in subparagraph (1), and a retailer purchasing from a retailer will still have for his maximum prices for sales to ultimate consumers the prices above set forth in subparagraph (2).

(d) *Definitions.* (1) "Reconditioned" means, painted, clean, and of good appearance, having no parts missing which are necessary for the useful operation of the stove without further repair.

(2) "As is" means that the stove is in the condition in which it was sold by the government agency but does not meet the requirements of subparagraph (1) above.

(e) *Notification to reseller and pricticeting.* Any person making a resale under this Revised Order No. G-23 to a reseller shall notify such reseller, either by an indorsement on his invoice or by a slip or rider attached thereto, of the maximum resale prices as established by paragraph (c) of this Revised Order No. G-23; and before any such reseller exhibits for sale, offers to sell, or sells to a consumer any of the stoves in question, he must attach a tag or affix a label to the stove, stating in substance the following: "This stove is reconditioned (or is 'as is,' as the case may be), and the OPA ceiling price to consumers is $____."

(f) *Geographical applicability.* This Revised Order No. G-23 applies only to the stoves in question when sold by the War Assets Administration or any other duly authorized government agency as a war surplus commodity at some place within Region VII, which includes the States of New Mexico, Colorado, Wyoming, Montana, and Utah, and all that part of the State of Idaho lying south of the southern boundary of Idaho County, the County of Malheur in the State of Oregon, and all that part of the Counties of Mohave and Coconino in the State of Arizona lying north of the Colorado River. But as to all resales of such war surplus commodity, this Revised Order No. G-23 covers resales when made by any reseller any place within the 48 states of the United States or the District of Columbia.

(g) *Application to other orders and regulations.* This Revised Order No. G-23 supersedes, as of the effective date hereof, Order No. G-23 under Supplementary Order No. 94, issued and effective July 26, 1946. Also, resellers making sales under this Revised Order No. G-23 are subject to all of the applicable terms and provisions of Supplementary Order No. 94, and therefore such resellers must keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, shall remain in effect, for any purpose whatsoever, their records of transactions as required by section 19 (d) of said Supplementary Order No. 94.

(h) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or order. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(i) *Right to revoke or amend.* This revised order may be revoked, modified, or amended at any time by the Price Administrator or the Regional Administrator.

Effective date. This Revised Order No. G-23 shall become effective retroactively as of August 28, 1946.

Issued this 30th day of August 1946.

PAUL D. SHRIVER,
Acting Regional Administrator.

OPINION ACCOMPANYING REVISED ORDER NO. G-23 UNDER SUPPLEMENTARY ORDER NO. 94

It now appears that there is no civilian demand at the retail level in this Region VII for the surplus war commodity in question, and the only place where there is such civilian demand is the north central states, particularly Wisconsin and Minnesota. The maximum prices established by Order No. G-23 heretofore issued by this Regional Office and effective on July 26, 1946, will not permit distribution from points in this Region VII to such consuming area.

Also, the Omaha, Nebraska District Office in Region VI recently established maximum prices for identically the same surplus war commodity which are identical with the maximum prices now established by this Revised Order No. G-23. In other words, this Revised Order No. G-23 simply brings the maximum prices for the surplus war commodity in question, when sold by the War Assets Administration or any other duly authorized government agency at a place within Region VII, in line with the maximum prices established by Region VI for such war surplus commodity.

[Region III Order G-14 Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN THE INDIANAPOLIS, IND., AREA

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1-B, *It is hereby ordered*, That:

(a) Table I of Order No. G-14 be amended to read as set forth in the price list marked Table I, which is annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amendment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this amendment.

(c) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of Resellers Maximum Prices Established under General Order No. 68 for Certain Building and Construction Materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This Amendment No. 1 to Order No. G-14 shall become effective August 19, 1946.

Issued August 19, 1946.

JOHN F. KESSEL,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G-14 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. Furthermore, section 10 (t) of the Emergency Price Control Act, as amended, provides that retail distributors shall be allowed their average percentage mark-up, as of March 31, 1946, over their average current acquisition costs.

In order to meet the requirements of section 10 (t) and to maintain maximum prices which are fair and equitable, the accompanying amendment is being issued.

In the opinion of the Regional Administrator, the provisions of the accompanying amendment are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of General Order No. 68, as amended.

[Region VIII Order G-11 Under RMPR 122, Amdt. 2]

SOLID FUELS IN SAN FRANCISCO REGION

An opinion accompanying this amendment has been issued simultaneously herewith.

Order No. G-11 under Revised Maximum Price Regulation No. 122 is amended in the following respect:

Paragraph (b) is amended to read as follows:

(b) Sellers to which this order No. G-11 applies are those covered by the following orders issued under Revised Maximum Price Regulation No. 122.

Order and Area Covered

G-4: Kellogg, Idaho.
G-10: Pendleton and LaGrande, Oreg.

This amendment to Order No. G-11 shall become effective upon issuance.

Issued this 6th day of September 1946.

BEN C. DUNIWAY,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 2 TO ORDER NO. G-11 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122

The accompanying amendment removes from the coverage of Order No. G-11 those dealers subject to Revised Order No. G-2, Order No. G-7, and Order No. G-9, all under Revised Maximum Price Regulation No. 122. This action was prompted by the issuance simultaneously herewith of Amendment No. 5 to Revised Order No. G-2, Amendment No. 7 to Order No. G-7, and Amendment No. 2 to Order No. G-9, incorporating therein those price increases permitted by Order No. G-11.

TITLE 7—AGRICULTURE

Chapter VIII—Production and Marketing Administration (Sugar Branch)

PART 802—SUGAR DETERMINATIONS

FAIR AND REASONABLE WAGE RATES FOR PERSONS EMPLOYED IN THE HARVESTING OF THE 1946 CROP OF SUGARCANE IN LOUISIANA

Pursuant to section 301 (b) of the Sugar Act of 1937, as amended, the following determination is hereby issued:

§ 802.24y *Fair and reasonable wage rates for harvesting the 1946 crop of sugarcane in Louisiana.* The requirements of section 301 (b) of the Sugar Act of 1937, as amended, shall be deemed to have been met with respect to the harvesting of the 1946 crop of sugarcane in Louisiana, if all persons employed on the farm in the harvesting of such crop shall have been paid in full for all such work and shall have been paid wages in cash therefor at rates as follows:

(a) The wage rates agreed upon between the producer and the laborer but in no case less than the rates prescribed under paragraphs (b), (c), and (d) of this section.

(b) *Adult males or adult females when employed on time basis.*

	Per day of 9 hours
(1) Cutting, topping, stripping:	
Adult males	$3.10
Adult females	2.70
(2) Loading	3.70
(3) Cutting and loading	3.30
(4) Tractor drivers and truck drivers	3.80
(5) Teamsters	$3.60
(6) Hoist operators	3.30
(7) Operators of mechanical loading or harvesting equipment	4.10
(8) Pilers	3.30
(9) Grabmen, spotters, ropemen	3.70
(10) Scrappers	3.10
(11) Any other operation connected with harvesting	2.70

For a working day longer or shorter than 9 hours the rate shall be in proportion to the applicable rate prescribed above.

(c) *Workers between 14 and 16 years of age when employed on a time basis.* For workers between the ages of 14 and 16 years, the rate per day of 8 hours (maximum hours per day for such workers) shall be not less than three-fourths of the applicable rate established under paragraph (b) of this section for adult male workers for a 9-hour day. For a working day shorter than 8 hours, the rate shall be in proportion.

(d) *All workers when employed on a piece work basis.*

Operations	Rate per ton: Large barrel varieties [1]	Rate per ton: Small barrel varieties [1]
(1) Cutting top and bottom, and stripping	$1.34	$1.61
(2) Cutting top and bottom	.89	1.07
(3) Loading	.39	.47
(4) Cutting top and bottom, stripping, and loading	1.73	2.08
(5) Cutting top and bottom, and loading	1.28	1.54

[1] Large barrel varieties shall include: C. O. 290; C. P. 29/103; C. P. 29/116; C. P. 33/243. All other varieties shall be classed as small barrel.

(6) The piece rate for any operation specified above when performed on a unit basis other than a ton unit, or the piece rate for any operation not specified above, shall be that agreed upon between the producer and the laborer: *Provided, however,* That the earnings for the time involved shall be not less than the applicable time rate specified in paragraphs (b) or (c) of this section.

(e) *General provisions.* (1) In addition to the foregoing the producer shall

(Sec. 5, 38 Stat. 719 as amended by sec. 3, 52 Stat. 112; 15 U. S. C., sec. 45b) [Cease and desist order, The Paebar Company, Inc., et al., Docket 5369, August 27, 1946]

At a regular session of the Federal Trade Commission held at its office in the City of Washington, D. C., on the 27th day of August A. D. 1946.

In the Matter of The Paebar Company, Inc., and Alan F. Pater, Individually and Trading Under the Names The Paebar Company, Literary Publications, Who's Who Publishing Company, Columbia Book Publishing Company, and Judicial Publishing Company

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the substitute answer of the respondents, in which answer respondents admit all the material allegations of fact set forth in said complaint and state that they waive all intervening procedure and further hearing as to said facts; and the Commission having made its findings as to the facts and its conclusion that said respondents have violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondents, The Paebar Company, Inc., a corporation, and its officers, and Alan F. Pater, individually and trading under the names The Paebar Company, Literary Publications, Who's Who Publishing Company, Columbia Book Publishing Company, and Judicial Publishing Company, and their respective representatives, agents, and employees, directly or indirectly, through any corporate or other device or in any other manner in connection with the offering for sale, sale, and distribution of books in commerce as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the term "Who's Who" in the title of respondents' publication "Who's Who in Poetry in America" or in the title of any other book of biographical reference, or using the term "Who's Who" in any other manner to represent or imply that the respondents are associated or connected with the publishers of "Who's Who in America".

2. Using the term "We, the People" in the title of any of respondents' publications unless wherever such words are used it shall be clearly and conspicuously stated in immediate connection and conjunction therewith that the respondents are not associated or connected with the producers or sponsors of the radio program "We, the People".

3. Inducing the purchase of respondents' publications and the payment of the purchase price by representing that the purchaser's article or poem will be incorporated in respondents' publication, without revealing to such purchaser until after payment that respondents reserve the right to revise, abridge, or omit the article or poem of the purchaser without return of the purchase price.

4. Representing that respondents have been engaged in the book-publishing business for a longer period of time than is the fact.

5. Representing, directly or by implication, that publications which are offered for sale at the usual and customary prices therefor are being sold at a special contributor's price or at reduced price; or in any other manner representing that a purchaser is receiving an advantage in price or other consideration not ordinarily available.

It is further ordered, That the respondents shall, within sixty (60) days after the service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

[SEAL] OTIS B. JOHNSON,
Secretary.

TITLE 24—HOUSING CREDIT

Chapter VIII—Office of Housing Expediter

[Housing Expediter Premium Payments Reg. 9]

PART 805—PREMIUM PAYMENTS REGULATIONS UNDER VETERANS' EMERGENCY HOUSING ACT OF 1946

MERCHANT PIG IRON

Purpose and findings. This general regulation is issued to stimulate additional production of merchant pig iron by providing for premium payments with respect to shipments of merchant pig iron above established quotas. It describes how quotas are established, and the methods, procedures and conditions under which premium payments may be obtained. This regulation is issued pursuant to the authority of the "Veterans' Emergency Housing Act of 1946".

All available means of increasing the supply of merchant pig iron for the veterans' emergency housing program and for other construction, maintenance and repair essential to the national well-being have been considered. Based on such consideration, the Expediter finds that premium payments on merchant pig iron are temporarily necessary to increase its supply and to stimulate such additional production with greater rapidity, economy and certainty than other available methods. The payment of a uniform rate of premium for the additional production of both operating plants and closed plants in this industry is not feasible. For this reason a uniform rate is provided for operating plants and another uniform rate for closed plants. In applying premium payments to necessary additional production in this industry emphasis has been placed upon avoiding either economic dislocations or adverse effects upon established business.

§ 805.9 *Merchant pig iron*—(a) *Definitions.* As used in this section:

(1) "Foundry and malleable grades of pig iron" means pig iron of grades within the specifications customarily accepted by the trade as foundry and malleable pig iron and which is used for manufacture of grey or malleable iron castings.

(2) "Merchant pig iron" means foundry and malleable grades of pig iron cast in pigs for sale.

(3) "Steel grade pig iron" means pig iron of grades used for the manufacture of steel or steel castings.

(4) "Plant" means production facilities consisting of one or more blast furnaces capable of producing one or more grades of pig iron and, where consisting of two or more blast furnaces, having common shipping, storing and servicing facilities, common operating supervision and common ownership.

(5) "Operating plant" means a plant in which one or more blast furnaces produced pig iron or any other metal product at any time from January 1, 1946 to August 31, 1946, inclusive, or a plant as to which a contract was entered into during that period for the operation of one or more blast furnaces for the production of any such product. *Provided, however,* That if, on application by letter from a producer, the Expediter finds with respect to a plant that, during the period January 1, 1946 to August 31, 1946, inclusive, there was such production or a contract entered into for such production which production or contract was only temporary and caused by unusual or special conditions, the plant shall not be an operating plant.

(6) "Closed plant" means a plant which is not an operating plant.

(7) "Person" means an individual, corporation, partnership, association, or any other organized group of any of the foregoing, or legal successor or representative of any of the foregoing, but does not include the United States, any of its political subdivisions or any agency thereof, any other Government, any of its political subdivisions or any agency thereof.

(8) "Producer" means a person who operates one or more plants in which merchant pig iron is produced in one or more blast furnaces.

(9) "New producer". A person who did not operate prior to the effective date of this section any plant for the production of any metal products from any blast furnaces shall be a new producer as to any plant, operated by him for the production of such products, which was not, prior to the effective date of this section, substantially completed as a plant capable of producing such metal products.

(10) "Month" means a calendar month, *Provided, however,* That any producer on whom this provision works a hardship may apply by letter to the Expediter, Washington 25, D. C., for authorization to submit his application for quota and claims for payments on the basis of a stipulated fiscal month. With respect to a producer who has received such authorization this section shall become effective on the first day of his fiscal month begining on or after September 1, 1946, and shall terminate on the same date as this section terminates as to other producers.

(11) "Gross ton" means 2240 lbs.

(12) "Production" means the output of merchant pig iron measured in gross tons.

(13) "Shipments" mean the number of gross tons of merchant pig iron sold and shipped from the producing plant by the producer thereof.

(14) "Claim" means a claim for payment filed pursuant to this section.

(15) "Expediter" means the Housing Expediter as defined in the Veterans' Emergency Housing Act of 1946, or his duly authorized representative.

(16) "OHE" means the Office of the Housing Expediter.

(b) *Establishment of quota.* (1) A separate quota shall be established for each plant and for each month during which this section remains in effect: *Provided, however,* That in the case of a producer with two or more plants, if the Expediter finds on application by the producer on Form NHA 14–98 that it is the producer's normal operating practice to shift a substantial portion of his production and/or shipments among any of his plants, the Expediter may establish a combined quota for such plants.

(2) If a plant produced no merchant pig iron in the period January 1, 1946 to August 31, 1946, inclusive, its quota for each month shall be zero.

(3) If a plant produced merchant pig iron at any time during the period January 1, 1946 to August 31, 1946, inclusive, its quota for any month shall be determined in the following manner:

(i) Determine the month of highest production of merchant pig iron in the period January 1, 1946 to August 31, 1946, inclusive, compute 80% of the plant's production of merchant pig iron during that month and divide this figure by the total number of calendar days in that month.

(ii) If a plant produced merchant pig iron in at least three months during the period January 1, 1946 to August 31, 1946, inclusive, determine the plant's total production of merchant pig iron in the three months of highest production during that period and divide this figure by the total number of calendar days in those three months. If a plant produced merchant pig iron in only one or two months during the period January 1, 1946 to August 31, 1946, inclusive, determine the total production of merchant pig iron in such month or months and divide by the total number of calendar days therein.

(iii) The quota for any month is arrived at by multiplying the daily average as computed in subdivision (i) or (ii), whichever is lower, by the number of calendar days in that month.

(4) If a plant's shipments in any month during which this section remains in effect are below quota, the quota for the next succeeding month shall consist of the established quota for such month plus the amount of the preceding month's deficit. *Provided, however,* That if on application on form NHA 14–99 the Expediter determines that the deficit was due to unusual circumstances beyond the control of the producer, such deficit shall not be added to the established quota. Such application shall be filed with the Reconstruction Finance Corporation Loan Agency with which the claims for that plant are filed, within 15 days of the end of the month in which the deficit occurred except that requests with respect to deficit incurred during September 1946 may be filed up to and including November 15, 1946.

(5) In the case of a plant whose quota is established under subparagraph (3) of this paragraph, an application for adjustment of quota may be filed with the Expediter within 10 days after the shutdown, if one or more of its furnaces is shut down for necessary repairs. Such applications shall be made by letter, in triplicate, containing an identification of the furnace or furnaces, the date the shutdown occurred or is contemplated, the cause of the shutdown and an estimate of the minimum length of time necessary to restore the furnace or furnaces to operation. If in the judgment of the Expediter the plant's production of merchant pig iron during the period on the basis of which the quota was established would have been substantially less if the shutdown had then occurred, the Expediter may adjust the plant's quota for the period during which the shutdown necessarily occurs, to a figure representing the production of merchant pig iron which in his judgment would have occurred during the quota period under such conditions.

(6) In the case of a plant the establishment of whose quota is governed by subparagraph (3) of this paragraph the Expediter may adjust the quota if the producer's application, on form NHA 14–98, for establishment of quota contains a request for adjustment and if the Expediter finds that one or more of its furnaces customarily produced blast furnace products other than merchant pig iron but that, because of unusual or special conditions, such furnaces temporarily produced merchant pig iron during the period on the basis of which the quota was established. In such cases the Expediter may adjust the quota for such period, and to such extent as he finds there would be no production of merchant pig iron from the furnaces involved without the stimulation of premium payments. This adjustment will be made by excluding that amount of the production of merchant pig iron during the quota period as the Expediter finds was temporary and the result of unusual or special circumstances.

(7) In the case of a producer with two or more plants, if the production in any plant falls below the quota for that plant in any month, the Expediter may establish a combined quota for any or all plants if he determines that production and/or shipments have been shifted among such plants so as to increase the producer's total claims without a corresponding increase in total output.

(c) *Application for quota.* (1) Every producer who wishes to receive premium payments under this section shall file promptly with the Expediter an application for the establishment of monthly quotas for each of his plants on form NHA 14–98 which may be obtained from any Reconstruction Finance Corporation Loan Agency.

(d) *Rate and computation of premium payment.* (1) For shipments by operating plants, a premium at the rate of $8 per gross ton shall be paid on all shipments of merchant pig iron during a month covered by a claim, which are in excess of the plant's established quota for that month.

(2) For shipments by a closed plant, a premium at the rate of $12 per gross ton shall be paid on all shipments of merchant pig iron during a month covered by a claim: *Provided, however,* That in the case of a new producer such premiums shall be payable on no more than 50% of the shipments of merchant pig iron during the month covered by the claim.

(3) For the purpose of determining the amount of a claim, shipments shall not include merchant pig iron cast prior to September 1, 1946.

(e) *Steel grade pig iron bonus.* (1) If an operating plant regularly supplied customers with steel grade pig iron between January 1, 1946 and August 31, 1946, inclusive, and reduces its production of such pig iron for shipment to such regular customers in order to increase its production of merchant pig iron, the operating plant may pay any producer of steel grade pig iron a bonus of $2.00 per gross ton for steel grade pig iron produced, sold, and shipped to the regular customers of the operating plant at its request: *Provided, however,* (i) That such a bonus may not be paid by an operating plant on any greater tonnage than the tonnage of steel grade pig iron which the operating plant normally shipped each month to its regular customers between January 1 and August 31, 1946, inclusive, and is currently unable to produce because of an increase in its production of merchant pig iron. (ii) That such a bonus may not be paid to or accepted by a steel grade pig iron producer unless his shipments of steel grade pig iron at the request of the operating plant will not result in a reduction of his shipments of either steel grade or merchant pig iron to any of his regular customers, and he shall furnish a certification to that effect.

(2) Any operating plant which pays a bonus under subparagraph (1) of this paragraph (e) shall file with the Expediter no later than the 15th day of the month following each month in which steel grade pig iron was shipped at his request by a steel grade pig iron producer, (i) his own certification on Form NHA 14–107, and (ii) the certification of the steel grade pig iron producer required by subparagraph (1) of this paragraph (e), which shall also be on Form NHA 14–107.

(f) *Claim for payment.* (1) Each claim shall be filed on Form NHA 14–99. These forms may be obtained from any RFC Loan Agency. A producer operating more than one plant shall simultaneously file the claims for each of his plants.

(2) Every producer shall file Form NHA 14–99 on or before the last day of the month following the end of the month in which the merchant pig iron was shipped except that claims for the month of September, 1946, may be filed up to and including November 30, 1946. Any producer whose shipments in any month are insufficient to permit the payment of a premium shall nevertheless file form NHA 14–99 on or before the last day of the month following the month in which the deficit occurred (except that if the deficit occurred in September, 1946, Form NHA 14–99 may be filed up to and including November 30, 1946) as an information return to indicate the amount of the deficit: *Provided, however,* That if such information return contains a request for waiver of the deficit carry-over provided in paragraph (b) (4) of this section, the information return shall be filed within 15 days of the end of the month in which the deficit occurred except that if the deficit occurred in September, 1946, the information may be filed up to and including November 15, 1946.

(3) Each claim or information return on Form NHA 14–99 shall be filed with RFC at the Loan Agency for the District in which the plant is located, except that a producer operating more than one plant shall simultaneously file the claims or information returns for all of his plants at the Loan Agency for the District in which his main office is located. A producer may find out in which RFC Loan Agency District his plant or main office is located by consulting his bank.

(4) No claim under this section shall be assignable except as a part of the bona fide transfer of the plant to a legal successor.

(g) *Payment*—(1) *Review by RFC.* In reviewing claims, the RFC will determine whether such claims appear to have been correctly and properly prepared.

(2) *Terms of payment.* If the claim or any part thereof is accepted by RFC subject to final verification, RFC will then pay the claimant that part of the claim so accepted: *Provided, however,* That with respect to claims for the last two months during which this section is in effect RFC may require that bond be furnished in form and amount satisfactory to it before making payment.

Preliminary acceptance and payment of a claim shall not constitute final acceptance of the validity or amount of the claim. If, after review or audit, there is cause to question the validity of any claim, RFC may:

(i) Require that bond be furnished in form and amount satisfactory to it before making further payments, or,

(ii) Suspend further payments.

(3) *Verification of claims.* (i) Upon receipt of claims, RFC will forward copies to the Expediter for verification and such investigation or audit as may be deemed appropriate.

(ii) If the amount verified and approved by the Expediter is less than the amount previously paid, the claimant shall upon demand by RFC refund the overage to RFC together with interest thereon at the rate of 4% per annum calculated from the date of such overpayment to the date repayment is made to the RFC or such overage plus interest may be deducted from any accrued or subsequent claim for any payment by RFC to the claimant.

(4) *Invalidation of claims.* The Expediter shall have the right at any time to declare invalid in whole or in part, any claim of a producer, and such producer shall upon demand refund to RFC any payment on such claim, or part thereof, if the Expediter finds that the producer;

(k) Termination.
(l) Effective date.

quota. Such application shall be filed

(i) Has failed to comply with any of the requirements of this section, or,

(ii) Has failed to comply with directives, orders or regulations of the Civilian Production Administration or OHE on pig iron or has sold pig iron at prices in excess of the ceiling prices established by the applicable Office of Price Administration regulations or orders.

(h) *Records.* Every producer shall prepare and preserve for inspection for a period of two years after the date of termination of this section, all books, records and other documents which furnish information in support of his claim for payment. The Expediter or his designated agents shall have the right at any time to make such examinations and audits of these books, records, and other documents as may be necessary to verify the representations in the producer's claim for payment or as may be required by the Expediter.

(i) *Reports.* Producers must furnish such reports as may be required by the Expediter from time to time, subject to approval by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(j) *Official interpretations.* Official interpretations of this section may be given only in writing by the General Counsel of the Office of the Expediter, or his duly authorized representative. A request for an official interpretation must be filed in writing directly with the Expediter or the General Counsel.

(k) *Termination.* This section shall terminate on June 30, 1947. In the event the Expediter finds that any substantive amendments, including but not limited to an amendment of the termination date, have become necessary, no such amendments will be issued until after adequate notice to and discussion with representatives of the producers covered by this section.

In no event will any amendment be made, including but not limited to an amendment of the termination date, which would reduce the amount closed plants would receive for their shipments of merchant pig iron through June 30, 1947, below the amount represented by their ceiling price on the effective date of this section plus the premium provided herein; in computing for this purpose the amount closed plants would receive for their merchant pig iron, consideration shall be given to any increases in OPA ceiling prices, any increases in selling prices in the event OPA ceiling prices cease to be applicable, and any subsidies or financial assistance in the nature thereof which may become payable to the closed plants by any agency of the United States.

Termination of this section shall not preclude the filing of claims for payment during the month following such termination on account of shipments during the immediately preceding month. Such claims shall be dealt with in accordance with the provisions of this section in the same manner as if it had not been terminated.

(l) *Effective date.* This section shall become effective as of September 1, 1946.

NOTE: The reporting and record keeping requirements of this regulation have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

PART 225—DISPOSAL OF GOVERNMENT ROYALTY OIL

Sec.
225.1 Statutory authority.
225.2 Policy.
225.3 Exchange agreements.
225.4 Application; contents.
225.5 Action by the Geological Survey.
225.6 Notice of offer of sale of oil.
225.7 Who may submit bids and priority of bidders.
225.8 Award of oil.

AUTHORITY: Act of July 13, 1946 (Public Law 506, 79th Cong., 2d Sess.); sec. 36, 41 Stat. 451, 30 U. S. C. 192.

§ 225.1 *Statutory authority.* The act of July 13, 1946 (Public Law 506, 79th Cong., 2d Sess.), provides that in order to assist small business enterprise by encouraging the operation of oil refineries not having an adequate supply of crude oil, the Secretary of the Interior is authorized and directed to grant a preference to such refineries in the sale of Government royalty oil accruing from public land oil and gas leases for processing or use in such refineries and not for resale in kind, when he determines that sufficient supplies of crude oil are not available to such refineries in the open market.

§ 225.2 *Policy.* Whenever practicable, Government royalty oil available for disposal pursuant to the act will be offered for sale by competitive bidding after notice by publication under sealed bids to the highest bidder entitled to a preference in accordance with the procedure prescribed in §§ 225.4 to 225.8, inclusive. The amount of the bond, the place of delivery of the oil, the volume measurements, the gravity determinations, and such other requirements or conditions of the sale as may be deemed necessary to effectuate the purposes of the act will be incorporated in the call for bids when royalty oil is offered for sale.

§ 225.3 *Exchange agreements.* The act of July 13, 1946 requires refiners granted a preference to process or use in such refineries and not resell in kind royalty oil purchased thereunder. Agreements providing for the exchange of crude oil purchased under the act for other crude oil on a volume or equivalent value basis will not be construed as constituting a resale in kind prohibited by the act. Where an exchange agreement has been entered into or is contemplated with regard to royalty oil available for sale, full information relative thereto must be furnished either at the time of filing application to purchase royalty oil or with the submission of a bid.

§ 225.4 *Application; contents.* A refiner unable to purchase in the open market an adequate supply of crude oil to meet the needs of his existing refinery capacity may file an application with the Director of the Geological Survey, Washington, D. C. Such application shall be filed in triplicate and must be accompanied by a detailed statement containing the following information:

(a) The full name and address of the applicant; the location of his refinery or refineries; a complete disclosure of applicant's affiliation or association with any other refiner of oil if such relationship exists; and reasons for believing that applicant is entitled to a preference under the act of July 13, 1946, including a full showing of efforts made to purchase the needed oil in the open market.

(b) The capacity of the refinery to be supplied and the amount, source, and grade of all crude oil currently available to the applicant refiner from his own production or by purchase.

(c) The minimum amount and grade of additional crude oil needed to meet existing refinery commitments or existing refinery capacity, the field or fields which the refiner believes offer a potential source of crude-oil supply because of proximity to the refinery, and the available transportation facilities which the refiner proposes to utilize.

(d) A tabulation for the preceding 12 months or for the last 12 months of operation of the amount and grade of crude oil refined each month, and the kind and amount of the principal finished products.

§ 225.5 *Action by the Geological Survey.* The Geological Survey shall examine each application filed pursuant to these regulations and where it finds that the showing submitted is inadequate or unsatisfactory, such additional showing shall be required as may be deemed necessary. Thereafter, the Geological Survey shall make appropriate recommendation to the Secretary as to the Government royalty oil to be sold, if any, and the terms and conditions to govern the sale.

§ 225.6 *Notice of offer of sale of oil.* Where the Secretary elects to offer royalty oil for sale, the oil will be advertised for sale in designated newspapers or periodicals of general circulation for such period of time as may be specified. Such notice will set the day and hour on which sealed bids will be received in the office of the Director, Geological Survey, and will contain the terms and conditions of the sale. The notice will be published at the expense of the Government. All bidders are warned against violation of the provisions of section 59 of the United States Criminal Code, approved March 4, 1909, prohibiting unlawful combination or intimidation of bidders.

§ 225.7 *Who may submit bids and priority of bidders.* Bids may be submitted regardless of whether or not a preference is asserted pursuant to the act of July 13, 1946. Where such a preference is asserted, bids must be accompanied by the showing required by § 225.4. Bidders asserting a preference and found properly entitled thereto will receive priority over bidders who have no preference where the bids are made for the same royalty oil.

§ 225.8 *Award of oil.* The Geological Survey shall consider all bids submitted for Government royalty oil and make appropriate recommendation to the Secretary of the Interior in accordance with the general principles stated in this section. In no case will Government royalty oil be sold for less than the market price. Where none of the bidders for the same royalty oil is found to be entitled to a preference, the oil will be awarded to the qualified bidder offering the highest price therefor in accordance with the specifications governing the sale. Where two or more bidders for the same royalty oil are properly entitled to a preference, the oil will be awarded to the bidder offering the highest price therefor in accordance with the specifications governing the sale. In case two or more identical bids are received for the same royalty oil from bidders properly entitled to a preference, the Secretary of the Interior reserves the right to prorate the oil among such bidders in such amounts as he deems equitable or, if it is not practicable to prorate the oil, to award it to one of such bidders by public drawing after notice to the bidders who submitted the identical bids. In connection with any sale of royalty oil under the act of July 13, 1946, the Secretary of the Interior reserves the right to reject all bids and sell the oil or any portion thereof at private sale to any refinery entitled to a preference at not less than the market price whenever in his judgment the spirit and intent of the act will be subserved thereby.

[SEAL] JULIAN D. SEARS,
Acting Director.

Approved: September 13, 1946.

OSCAR L. CHAPMAN,
Acting Secretary of the Interior.

TITLE 32—NATIONAL DEFENSE

Chapter VI—Selective Service System

[Amdt. 401]

PART 609—PROPERTY ACCOUNTABILITY

NONEXPENDABLE PROPERTY

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

Amend § 609.6 to read as follows:

§ 609.6 *Nonexpendable property: Lost, stolen, destroyed, or damaged.* Whenever any article of nonexpendable property is lost, stolen, destroyed, or damaged other than through fair wear and tear in service, the responsible officer shall prepare and submit in triplicate to the State Director of Selective Service, Report of Survey (Form 105). All copies

of Report of Survey (Form 105) shall be forwarded, through the accountable officer, to a surveying officer specifically designated by the State Director of Selective Service to make an investigation and report of his findings with recommendations. After reviewing the evidence pertaining to the loss, theft, destruction, or damage of the nonexpendable property and the recommendations of the surveying officer, the State Director of Selective Service will indicate his approval or disapproval and forward all copies of Surveys that exceed $50 to the Director of Selective Service for final action and instructions. Final action with respect to approval or disapproval of Surveys that total $50 or less may be taken by the State Director of Selective Service. One copy of each such Survey will be forwarded to the Director of Selective Service at National Headquarters.

The foregoing amendment to the Selective Service Regulations shall be effective within the continental United States immediately upon the filing hereof with the Division of the Federal Register and shall be effective outside the continental limits of the United States on the 30th day after the date of filing hereof with the Division of the Federal Register.

LEWIS B. HERSHEY,
Director.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-970]

C. K. SIVAS

C. K. Sivas, 2930 Emerson Way, Altadena, California is the owner of the premises located at 1214 East Huntington Drive, between Arcadia and Azusa, Los Angeles, California. On April 2, 1946 he began the construction of two 4 unit "motel" structures at 2930 Emerson Way, Altadena, California, at an estimated cost of $8,000, each of which was in excess of the $1,000 limit permitted by Veterans' Housing Program Order 1 and was in violation thereof. On May 1, 1946, C. K. Sivas began the construction also at 1214 East Huntington Drive of a 1-unit garage dwelling at an estimated cost of $8,000, each of which was in an estimated cost of $6,000, each of which exceeded the limit permitted by Veterans' Housing Program Order 1. All construction was begun without authorization from the Civilian Production Administration or Federal Housing Administration. These acts constituted wilful violations of Veterans' Housing Program Order 1 and have diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.970 *Suspension Order No. S-970.* (a) Neither C. K. Sivas, his successors or assigns, nor any other person, shall do any construction on the premises located at 1214 East Huntington Drive, between Arcadia and Azusa, Los Angeles, California, including putting up, completing or altering any of the structures located thereon, unless otherwise specifically authorized in writing by the Civilian Production Administration.

(b) C. K. Sivas shall refer to this order in any application or appeal which he may file with the Civilian Production Administration or the Federal Housing Agency for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve C. K. Sivas, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 18th day of September 1946.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-972]

E. B. STRICKLAND AND M. C. HERIDER

E. B. Strickland and M. C. Herider are partners doing business as H & S Construction Company, with their principal place of business in Marshall, Missouri. Subsequent, to March 26, 1946 without authorization from the Civilian Production Administration, the partners began the construction of a building at 259 S. Salt Pond Street in Marshall, Missouri, to be used in making repairs to automotive equipment and for an automobile sales and show room at a cost in excess of $1,000 limit permitted by Veterans' Housing Program Order 1. E. B. Strickland and M. C. Herider were aware of the restrictions on construction and their action constituted a wilful violation of Veterans' Housing Program Order 1. This violation has diverted scarce materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.972 *Suspension order No. S-972.* (a) The temporary suspension order issued by telegram dated July 19, 1946 against E. B. Strickland and M. C. Herider, doing business as H & S Construction Company, is hereby revoked.

(b) Neither E. B. Strickland and M. C. Herider, doing business as H & S Construction Company, their successors or assigns, nor any other person, shall do any further construction on the premises

located at 259 S. Salt Pond Street, Marshall, Missouri, including putting up, completing or altering the structure, unless hereafter specifically authorized in writing by the Civilian Production Administration.

(c) E. B. Strickland and M. C. Herider doing business as H & S Construction Company, shall refer to this order in any application or appeal which they or it may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction in connection with the construction project hereby prohibited.

(d) Nothing contained in this order shall be deemed to relieve E. B. Strickland and M. C. Herider, doing business as H & S Construction Company, their successors and assigns, from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

Issued this 18th day of September 1946.

[MPR 381,[1] Incl. Amdt. 1-10]

STOCK SCREEN GOODS

This compilation of Maximum Price Regulation 381 includes Amendment 10, effective September 23, 1946. Changes made in section 3 (b) (1) by Amendment 10 are indicated by note.

A statement of the consideration involved in the issuance of this regulation has been issued simultaneously herewith and has been filed with the Division of the Federal Register.[2] Such specifications and standards as are used in this regulation were, prior to such use, in general use in the trade or industry affected.

[Preamble amended by Supplementary Order 61, 8 F.R. 12552, effective 9-11-43]

[1] 8 F.R. 6159.

[2] Statements of the Considerations are also issued simultaneously with amendments. Copies may be obtained from the Office of Price Administration.

§ 1413.101 *Maximum prices for stock screen goods.* Under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Order No. 9250, Maximum Price Regulation No. 381 (Stock Screen Goods), which is annexed hereto and made a part hereof, is hereby issued.

Sec.

2. To what products, transactions, and persons this regulation applies.
3. Maximum prices.
3a. Items not specifically priced.
4. Additions for transportation and delivery.
5. Invoicing requirements.
6. Prohibited practices.
7. Records and reports.
8. Applications for adjustment and petitions for amendment.
9. Enforcement and licenses.
10. Relation to other regulations.
11. Appendix A: Screen door patterns.
12. Appendix B: List prices for Ponderosa pine and Southern pine screen doors.
13. Appendix C: List prices for oak screen doors.
14. Appendix D: List prices for extension window screens.
15. Appendix E: List prices for Northern and Western pine combination storm and screen doors.
16. Appendix F: List prices for Ponderosa pine knocked-down window screen frames.

AUTHORITY: § 1413.101 issued under 56 Stat. 23, 765; 57 Stat. 566; Pub. Law 383, 78th Cong.; Pub. Laws 108 and 548, 79th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681; E.O. 9599, 10 F.R. 10155; E.O. 9651, 10 F.R. 13487; E.O. 9697, 11 F.R. 1691.

SECTION 1. *Sales of stock screen goods at higher than maximum prices prohibited.* (a) On and after May 17, 1943, regardless of any contract or obligation, no person shall sell or deliver, and no person shall buy or receive in the course of trade or business, any stock screen goods at prices higher than the maximum prices fixed by this Maximum Price Regulation No. 381, and no person shall agree, offer or attempt to do any of these things.

(b) Prices lower than the maximum prices may, of course, be charged or paid.

(c) If stock screen goods have been received before May 17, 1943, by a carrier, other than one owned or controlled by the seller, for shipment to a buyer, that shipment is not subject to this regulation, but remains subject to the regulation which covered it at the time the goods were turned over to the carrier.

SEC. 2. *To what products, transactions, and persons this regulation applies*—(a) *Products covered by this regulation.* This regulation covers, under the term "stock screen goods," all of the screen doors, combination doors, extension window screens, and knocked-down wooden screen frames made of Ponderosa pine (Pinus ponderosa), Idaho pine (Pinus monticola), Sugar pine (Pinus lambertina), and Pinus species known commercially as "Southern pine", or any species of hardwood lumber, in the patterns or designs mentioned in the appendices of the regulation.

[Paragraph (a) amended by Am. 1, 8 F.R. 7198, effective 6-2-43 and Am. 3, 9 F.R. 4608, effective 4-29-44]

[Effective date of Am. 3 reads as follows: "If this amendment lowers any maximum price below that previously fixed in this regulation, then: (1) 'Sales to jobbers and special dealers' pursuant to firm contracts in existence prior to the issuance of this amendment at lawful prices may be completed according to their terms with respect to shipments made on or before May 15, 1944. (2) 'Sales to regular dealers' may be made at the previous lawful prices where shipment is made on or before June 15, 1944; and (3) 'Retail sales' may be made at the previous lawful prices where delivery is made on or before July 31, 1944."]

(b) *Transactions covered by the regulation.* This regulation covers all sales of stock screen goods, with the following exception: It does not cover direct-mill sales of combination doors which are covered by Maximum Price Regulation No. 293[3] (Stock Millwork). This means that this regulation does not cover combination doors included in direct-mill sales of 15,000 pounds or more of stock millwork which moves by rail to one or more places, or of 12,000 pounds or more of stock millwork which moves by truck to a single place.

Where screen goods are sold with hardware attached or are sold installed, this regulation covers the sale of the screen goods, exclusive of attachments and exclusive of services connected with either attachment or installation.

(c) *Persons covered by the regulation.* Any person who makes the kind of sale or purchase covered by this regulation is subject to the regulation. The term "person" includes: an individual, corporation, partnership, association, or any other organized group of persons, or their legal successors, or representatives; the United States, or any government, or any of its political subdivisions; or any agency of the foregoing.

SEC. 3. *Maximum prices*—(a) *Kinds of sales.* This regulation divides all sales of stock screen goods into two general groups, sales to distributors and sales to consumers.

(1) "Sales to distributors" include sales to jobbers, retailers, and all other persons who purchase to resell. Sales to distributors are divided into the following two kinds:

(i) *Sales to jobbers and special dealers.* A jobber is any distributor who in 1942 made 20 percent or more, by dollar volume, of his screen goods sales to other distributors. A special dealer is any distributor, other than a jobber, who in 1942 received from the manufacturer a discount or price equivalent to the price at which the manufacturer was invoicing his jobber customers.

[Subparagraph (i) amended by Am. 3, 9 F.R. 4608, effective 4-29-44]

(ii) *Sales to regular dealers.* A regular dealer is any distributor who is not a jobber or special dealer.

(2) "Sales to consumers" include sales to users and to persons who purchase to install for use. Sales to consumers are divided into the following three kinds:

(i) *Direct factory sales to consumers,* which are sales to consumers in which stock screen goods are shipped to a purchaser directly from a factory in a full or distribution car. A distribution (or pool) car is a carload of screen goods or other millwork shipped on orders of two or more buyers, and distributed to these individual buyers, or to another common carrier for the account of such a buyer, at a delivery (distribution) point or points specified by the buyers.

[3] 11 F.R. 5710.

(ii) *Retail sales,* which are sales to consumers in which shipment to the purchaser is not made in a full or distribution car originating at a factory. Such sales may be out of the stock of a warehouse maintained in connection with a factory, out of a jobber warehouse, or out of the stocks of a retail dealer. A sale to a distributor or a mail-order sale is not a retail sale.

(iii) *Mail-order sales,* which are sales to consumers by the mail-order department of a mail-order company or of a retail establishment, in which shipment to the purchaser is not made in a full or distribution car.

(b) *Maximum prices.* The maximum prices for stock screen goods shall be the prices arrived at by applying the following percentage addition or deduction for the specified species and products to the list prices in the appendices (adjusted for "list extras" and "list deductions").

(1) *Ponderosa pine screen products; maximum prices.* (Percentage to be added to or deducted from list price.)

Kind of Sale and Maximum Price

Sales to jobbers and special dealers—all quantities: List price less 7% of list price.

Sales to regular dealers:

Full carloads of screen goods: List price less 7% of list price.

Distribution cars: List price plus 4½% of list price.

Less than carload quantities not shipped in distribution or pool cars: List price plus 15½% of list price.

Direct factory sales to consumers:

Full carloads of screen goods: List price less 7% of list price.

Distribution cars: List price plus 4½% of list price.

Retail sales:

Full bundles: List price plus 47½% of list price.

Broken bundles: List price plus 57½% of list price.

Mail-order sales:

Full bundles: List price plus 27% of list price.

Broken bundles: List price plus 37% of list price.

[Paragraph (b) amended by Am. 2, 9 F.R. 2300, effective 3-4-44; Am. 3, 9 F.R. 4608, effective 4-29-44; Am. 7, 11 F.R. 5072, effective 5-8-46; and Am. 9, 11 F.R. 9136, effective 8-21-46]

(c) *Addition to maximum prices for retail sales.* When a regular dealer purchases from other than a factory or factory warehouse and pays inbound common carrier freight from his normal sources of supply in excess of $0.75 per hundred pounds, the regular dealer may increase his maximum prices for retail sales of screen doors or extension window screens or knocked-down window screen frames by 2 percent of list price, and he may increase his maximum prices for retail sales of combination doors by 3 percent of list price.

[Paragraph (c) added and former (c) redesignated as (d) by Am. 5, 9 F.R. 9891, effective 8-17-44]

(d) *Definition of full bundle and broken bundle.* (1) "A full bundle," for the purposes of this regulation, is the quantity of screen goods of a size and kind, which quantity is specified in the description of the product in the appropriate price table in the appendices as the quantity per bundle, carton, or crate.

(2) "A broken bundle" is a quantity of screen goods of a size and kind which is less than a full bundle.

SEC. 3a. *Items not specifically priced.* Any person desiring to sell an item covered by the regulation but not specifically priced therein must make application to the Building Materials Price Branch, Office of Price Administration, Washington, D. C., for approval of a price. The application must contain a complete description of the item to be priced, the requested selling price and any additional facts which the respondent cares to make in support of the requested price. Any price not approved within 30 days from receipt of the application shall be considered approved until specifically revoked. The seller may use his requested selling price, subject to adjustment, pending approval of a price.

[Sec. 3a added by Am. 3, 9 F.R. 4608, effective 4-29-44]

[NOTE: References to Lumber Branch are changed by Supplementary Order 112 (10 F.R. 6066) to be references to Building Materials Price Branch.]

SEC. 4. *Additions for transportation and delivery*—(a) *What charges for transportation and delivery may be added to the maximum price.* (1) In sales to distributors when shipment originates at a factory or factory warehouse, and in direct factory sales to consumers, the seller must allow freight (and freight tax) at the carload rail rate from factory to destination (or to point of distribution in the case of distribution cars).

(2) In sales to distributors, when the shipment originates at any place other than a factory or factory warehouse:

(i) The seller cannot charge for delivery when delivery is made by the seller's own truck.

(ii) When shipment is made by common carrier, any seller who allowed freight in March 1942 must allow freight to the same extent as he did in March 1942, but not in excess of $0.75 per hundred pounds. Sellers who allowed no freight in March 1942 may continue to allow no freight.

[Subparagraph (2) amended by Am. 5, 9 F.R. 9891, effective 8-17-44]

(3) In "retail sales," the seller cannot charge for delivery within the free delivery zones recognized by him during March 1942. For delivery outside of these free delivery zones, the seller may add the actual charge or cost paid or incurred by him in making shipment from his establishment to the purchaser.

(4) In mail-order sales, the seller may add the actual charge or cost paid or incurred by him in making shipment from the loading (or shipping) point to the place of delivery designated by the purchaser.

(b) *How to figure the actual charge or cost paid or incurred by the seller.* (1) When shipment is by common or contract carrier, the actual charge is the amount paid to the carrier.

(2) In "retail sales" when shipment is by truck owned or controlled by the seller, the cost which the seller figures cannot be higher than the over-all average trucking cost for a similar delivery, arrived at as of the six-month period ending September 1, 1942.

[Sec. 4 amended by Am. 3, 9 F.R. 4608, effective 4-29-44 and as otherwise noted]

SEC. 5. *Invoicing requirements*—(a) *When an invoice must be rendered.* An invoice must be rendered in all sales. In mail-order sales and retail sales, a sales slip may be considered an invoice.

(b) *What the invoice must contain*—(1) *Description of product.* All invoices must contain a sufficiently complete description of screen goods to show whether the price is proper or not. Any specifi-

cation or extra which affects the maximum price must be mentioned in the description. The amount added for extras does not have to be separately shown.

(2) *Type of sale.* The invoice must show whether the sale is a sale to a jobber or special dealer, a sale to a regular dealer, a direct factory sale to consumer, a mail-order sale, or a retail sale.

(3) *Transportation and delivery charges.* The invoice must show any charge which the seller has made for transportation or delivery. If a charge has been made, the invoice must contain the: (i) point of origin of the shipment; (ii) destination; (iii) rail or truck rate (or, if delivery is by private truck, the amount added for transportation).

(4) *Freight allowance.* In those cases where carload freight must be allowed, the invoice must show the rate of freight allowed.

SEC. 6. *Prohibited practices.*—(a) *In general.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents price is as much a violation of this regulation as an outright over-ceiling price. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying agreement, trade understandings and the like.

(b) *Specific prohibited practices.* The following are among the specific practices prohibited:

(1) Getting the effect of a higher price by changing credit practices or cash discounts from what they were on October 1, 1941. This includes reducing the cash discount period, decreasing credit periods, or making greater charges for extension of credit. In all cases, if the sale is on cash terms, the maximum price must be reduced by the same amount as the sale price would have been reduced for similar cash terms on October 1, 1941. For example, if the maximum price without cash discount is $10.00, and if in sales of this item on October 1, 1941, to purchasers of a certain class the seller reduced sales prices 2 percent for cash within 10 days, the ceiling cash price in sales to purchasers of this class is $9.80. For purposes of this paragraph, no discount over 2 percent is considered a cash discount.

(2) Unnecessarily routing screen goods through the stocks of a jobber warehouse or retail dealer.

(c) *Service commissions.* It is unlawful for any person to charge or receive from a buying plant, or for a buying plant to pay a commission for the service of procuring, buying, selling or locating stock screen goods, or for any related service (such as "expediting") which does not involve actual physical handling of the goods, if the commission plus the purchase price results in a total payment by the buyer which is higher than the maximum price of the screen goods. For purposes of this regulation, a commission is any service charge or payment which is figured either directly or indirectly on the basis of the quantity, price or value of the screen goods in connection with which the service is performed.

(d) *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of shipment; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after shipment. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

[Paragraph (d) amended by Supplementary Order 50, 8 F.R. 10568, effective 7-27-43]

SEC. 7. *Records and reports.*—(a) *Records.* Sellers must keep records which will show a complete description of the items of stock screen goods sold, the name and address of the buyer (except in retail sales), the date of the sale and the price. Buyers must keep similar records, including the name and address of the seller (except in retail sales). These records must be kept for two years, covering any month in which the seller or buyer sold or bought $200 or more of stock screen goods.

(b) *Reports.* All regular dealers who increase their retail prices on screen doors, extension window screens or combination doors in accordance with the provisions of section 3 (c) shall report to the Building Materials Price Branch, Office of Price Administration, Washington 25, D. C. the names of their regular suppliers of these products, the origin and destination of inbound shipments, the freight rates per hundred pounds, the amount of freight allowed by the supplier, and the quantity of screen goods and combination doors received from such regular suppliers. Such reports shall be made by September 1, 1944 to cover the period July 1, 1943 to June 30, 1944. No report shall be required for any period after June 30, 1944, except that a seller who advances his prices under section 3 (c) after, but not before, December 31, 1944, shall submit a report giving the above information for the most recently completed twelve month period prior to such price advance.

[Sec. 7 amended by Am. 5, 9 F.R. 9891, effective 8-17-44]

SEC. 8. *Applications for adjustment and petitions for amendment.* (a) See Procedural Regulation No. 6 [9] for adjustment provisions on certain government contracts or subcontracts.

[Paragraph (a) amended by Supplementary Order 83, 9 F.R. 973, effective 2-1-44]

[9] 9 F.R. 10628, 10 F.R. 1382, 9394.

(b) *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1,[1] issued by the Office of Price Administration.

(c) *Individual adjustment.* Any manufacturer of stock screen goods, subject to this regulation, may file an application for adjustment in his maximum prices for these commodities in accordance with the provisions of section 13 (c) of RMPR 293.

[Paragraph (c) added by Am. 8, 11 F.R. 8118, effective 7-26-46]

SEC. 9. *Enforcement and licenses.* (a) Persons violating any provision of this Maximum Price Regulation No. 381 are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942.

(b) War Procurement Agencies and their contracting or paying finance officers are not subject to any liability, civil or criminal, imposed by this regulation. Persons who make sales covered by this regulation to War Procurement Agencies are, however, subject to all the liabilities imposed by this regulation. "War Procurement Agencies" include the War Department, the Navy Department, the United States Maritime Commission, and Lend-Lease Section in the Procurement Division of the Treasury Department, or any of their agencies.

(c) *Licensing.* The provisions of Licensing Order No. 1 [8] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

[Paragraph (c) amended by Supplementary Order 72, 8 F.R. 13244, effective 10-1-43]

SEC. 10. *Relation to other regulations.*—(a) *General Maximum Price Regulation.* Any sale or delivery covered by this Maximum Price Regulation No. 381 is not subject to the General Maximum Price Regulation.[7]

(b) *Revised Maximum Export Price Regulation.* The maximum price for export sales of stock screen goods is governed by the Second Revised Maximum Export Price Regulation.[8]

SEC. 11. *Appendix A: Screen door patterns.* The pattern designations in this regulation refer to the patterns pictured in the attached chart which is incorporated herein.[9]

TABLE 8—WOOD AND METAL EXTENSION WINDOW SCREENS

Description of product: Metal rails and center strips; oil-treated wood stiles; packed 1 dozen to a carton.

Number	Price per dozen 14 mesh galvanized
1233	$3.70

All other numbers same prices as those listed in table 7.

(b) If 14 mesh painted cloth other than black is used, the list price shall in all cases be the same as for 14 mesh galvanized. If 16 mesh painted cloth other than black is used, the list price shall in all cases be the same as for 16 mesh galvanized.

(c) Special list extra to Table 7 which applies in sales other than "retail sales" and "mail-order sales" is as follows:

Less than 12 of a size and kind: 10% of the list price for 12 of a size and kind.

(d) If 16 mesh black wire is used, the list prices shall in all cases be as follows:

The list prices for 16 mesh galvanized reduced by the same differential for the identical size as exists between 12 mesh galvanized and 12 mesh black cloth extension window screens in Table 7.

[Paragraph (c) and (d) added by Am. 3, 9 F.R. 4608, effective 4-29-44]

(e) If extension window screens are furnished with 14 x 18 mesh galvanized wire, add to the list price in Table 7 for 16 mesh galvanized, the differential for the identical size as exists between 12 mesh galvanized and 14 mesh galvanized extension window screens.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 10 TO MAXIMUM PRICE REGULATION 381

This amendment provides for increases in maximum prices for combination screen and storm doors at the resellers level to compensate for the increase recently permitted manufacturers due to their increased cost for glass.

Maximum prices for combination screen and storm doors at the manufacturing level are established in Revised Maximum Price Regulation 293. These

prices have been increased by Amendment 20 to compensate for the 18 percent increase in glass granted under MPR 592. Resellers of combination screen and storm doors are governed by MPR 381. This action provides for a percentage pass through of the increase granted to the manufacturers to conform with the requirements of the Emergency Price Control Act of 1942, as amended. Combination doors have been increased one percent at the manufacturing level and all prices for resellers are being increased one percent by this action.

In view of the above considerations, the Administrator finds that this amendment is necessary and proper and is consistent with the purposes and standards of the Emergency Price Control Act of 1942, as amended.

PART 1499—COMMODITIES AND SERVICES

[2d Rev. SR 14,[1] Incl. Amdts. 1-43]

MODIFICATIONS OF MAXIMUM PRICES ESTABLISHED BY GENERAL MAXIMUM PRICE REGULATION FOR CERTAIN MISCELLANEOUS COMMODITIES AND SERVICES

This compilation of 2d Revised Supplementary Regulation 14 includes Amendment 43, effective September 24, 1946. Amendment 43 revokes section 5.2.

On July 13, 1943 Revised Supplementary Regulation 14 was issued to simplify Supplementary Regulation 14, which has served as a repository for modifications of maximum prices for commodities and services otherwise governed by the General Maximum Price Regulation. Revised Supplementary Regulation 14 set forth the modifications under certain subject headings, thus providing a more logical and convenient arrangement. Because of the many modifications necessitated, a further breakdown of the regulation is deemed advisable and the provisions contained in Revised Supplementary Regulation 14 are therefore being broken down by subjects and reissued under separate supplementary regulations.

Second Revised Supplementary Regulation 14 continues the provisions relating to miscellaneous commodities and services heretofore contained in sections 4.4, 4.7, 6.1, 6.5–6.7, 6.17, 6.20, 6.22, 6.23, 6.25, 6.28, 6.30, 6.31, 6.35, 6.37–6.39, 6.46, 6.47, 6.58, 6.60, 6.61, 9.1–9.4. The remaining provisions are grouped according to classes of commodities. They are continued in effect as of their original effective dates and, with respect to those heretofore amended, as of the effective dates of such amendments, with no change in application or meaning and with only such minor changes in form or language as have been necessary in order to accommodate them to the new arrangement. Obsolete provisions have also been deleted and all references have been brought up to date. New provisions will be added to the appropriate supplementary regulation.

Appendix A of this Second Revised Supplementary Regulation 14 consists of a table of cross references which shows the present counterparts of the former provisions of Supplementary Regulation 14 or Revised Supplementary Regulation 14, their effective dates and the amendments by which they were originally added or later amended.

A statement of the considerations involved in the issuance of this Second Revised Supplementary Regulation 14, issued simultaneously herewith, has been filed with the Division of the Federal Register.[2]

ARTICLE I—MISCELLANEOUS COMMODITIES AND SERVICES UNDER THE JURISDICTION OF THE FOOD PRICE DIVISION

SECTION 1.1 *Fat-bearing and oil-bearing animal waste materials.* (a) The maximum prices for fat-bearing and oil-bearing animal waste materials which are subject to the General Maximum Price Regulation, including but not limited to butcher shop fats, suets, and trimmings; slaughter-house fats, suets, and trimmings; breast fats or rattles; offal; bones; cooked grease, clear, rough or mixed; interceptor or trap grease, shall be computed in accordance therewith, except that November, 1941, shall be substituted for March, 1942, in computing the highest price which may be charged in accordance with § 1499.2 of the General Maximum Price Regulation.

(b) The maximum prices of grease collected under the War Production Board salvage campaign shall be:

(1) Four cents per pound on sales by the housewife or similar person to a butcher or grocer.

(2) Four cents per pound on sales by a group of housewives or similar persons to a renderer or independent collector. If the grease is not picked up by the renderer or independent collector but is shipped to the renderer or independent collector with the cost of transportation being paid by the group of housewives or similar persons, the actual cost of transportation may be added to the maximum price of four cents per pound.

(3) Five cents per pound on sales by a butcher or grocer to a renderer or independent collector. If the grease is not picked up by the renderer or independent collector at the place of business of the butcher or grocer but is shipped to the renderer or independent collector with the cost of transportation being paid by the butcher or grocer, the actual cost of transportation may be added to the maximum price of five cents per pound.

(4) Six cents per pound on sales by an independent collector to a renderer of grease collected in those areas in which an independent collector or renderer collected fat-bearing or oil-bearing waste materials during the period from May 1, 1942, to July 6, 1942, inclusive. This maximum price of six cents per pound shall be the maximum price of the grease delivered to the renderer, except that where the grease is shipped to the renderer by common carrier, the maximum price shall be six cents per pound f. o. b. point of shipment.

(5) Seven cents per pound on sales by an independent collector to a renderer of grease collected in those areas in which no independent collector or renderer collected fat-bearing or oil-bearing waste materials during the period from May 1, 1942, to July 6, 1942, inclusive. If the grease is not picked up by the renderer at the place of business of the independent collector but is shipped to the renderer with the cost of transportation being paid by the independent collector, the actual cost of transportation may be added to the maximum prices herein specified.

SEC. 1.2 *Maximum prices for sales and deliveries of pancreas glands and/or animal bile (animal gall).* (a) *Applicability.* This section applies to any person who sells or delivers hog, cattle, calf and sheep pancreas glands, and to any person who sells or delivers liquid and/or concentrated animal bile (animal gall) from cattle, calves, hogs, sheep or lambs. It also applies to any person who sells or delivers hog and/or sheep suprarenal glands.

[Paragraph (a) amended by Am. 20, 11 F.R. 3299, effective 4-2-46 and Am. 24, 11 F.R. 4339, effective 4-23-46]

(b) *Definitions.* (1) *Hog, cattle, calf and sheep pancreas glands.* As used in this section 1.2 hog, cattle, calf and sheep pancreas glands means pancreas glands obtained from the slaughter of hogs, cattle, calves (produced from dressed carcasses not in excess of 275 pounds, hides off), and sheep, and selected in accordance with standard commercial practices. The glands shall be trimmed, free from fat and tissue, shall be individually frozen and packed in suitable shipping containers.

[Subparagraph (1) amended by Am. 20, 11 F.R. 3299, effective 4-2-46]

(2) *Animal bile (animal gall).* As used in this section 1.2, animal bile (animal gall) means the liquid secretion from the liver which remains stored in the gall bladder of calves, cattle, hogs, sheep or lambs following slaughter, which is collected and saved for sale either in the form of liquid bile (fresh or frozen) or concentrated bile. If sold as liquid bile, the secretion shall contain not less than 8 percent solids. If sold as concentrated bile, the secretion shall contain not less than 75 percent solids.

(3) *Hog and sheep suprarenal glands.* As used in this section 1.2 hog and sheep suprarenal glands means suprarenal glands obtained from the slaughter of hogs and sheep, and selected in accordance with standard commercial practice.

[Subparagraph (3) added by Am. 24, 11 F.R. 4339, effective 4-23-46]

(c) *Maximum prices.* (1) For sales and deliveries after April 1, 1946, of hog, cattle, calf and sheep pancreas glands; the applicable maximum ceiling prices f. o. b. shipping point, shall be as follows:

	Cents per pound
Hog pancreas glands (individually frozen)	16
Beef pancreas glands (individually frozen)	16
Calf pancreas glands (individually frozen)	28
Sheep pancreas glands (individually frozen)	25

If the hog, cattle, calf or sheep pancreas glands are solid frozen but not individually frozen, the applicable maximum price shall be reduced ¼ cent per pound. If the hog, cattle, calf or sheep pancreas glands are sold unfrozen, the applicable maximum price shall be reduced ½ cent per pound. If the hog, cattle, calf or sheep pancreas gland are unfrozen and untrimmed, the applicable maximum price shall be reduced by not less than 5 cents per pound.

[Subparagraph (1) amended by Am. 20, 11 F.R. 3299, effective 4-2-46 and Am. 30, 11 F.R. 6683, effective 6-22-46]

(2) For sales and deliveries after September 24, 1945, of animal bile (animal gall), the applicable maximum selling prices, f. o. b. shipping point, shall be as follows:

Liquid bile (fresh or frozen), packed in tierces, $0.35 per gallon.

Concentrated bile, packaged, $0.35 per pound.

(3) For sales and deliveries after April 23, 1946, of hog and/or sheep suprarenal glands, the applicable maximum selling prices, f. o. b. shipping point, shall be as follows:

	Per pound
Hog suprarenal glands	$2.50
Sheep suprarenal glands	2.50

[Subparagraph (3) added by Am. 24]

(d) *Notification.* At the time of or prior to the first invoice on or after November 28, 1944, covering the sale of cattle or calf pancreas glands, and at the time of or prior to the first invoice on or after April 2, 1946, covering the sale of hog or sheep pancreas glands, each seller shall notify in writing each purchaser, of the maximum prices set forth by this section. This notice may be given in any convenient form. Similarly, at the time of or prior to the first invoice on and after April 23, 1946, covering the sale of hog or sheep suprarenal glands each seller shall notify each purchaser of the maximum prices set forth in this section.

[Paragraph (d) amended by Am. 20 and Am. 24]

(e) *Brokerage.* A payment by a buyer to a broker of not to exceed 5 percent in excess of the maximum prices herein established for pancreas glands and/or concentrated bile, and/or liquid bile for services rendered by the broker to the buyer in connection with sales of the said glands or bile, shall not be deemed an evasion, if the broker has no business affiliation with the seller and, if the total compensation received by the broker from both buyer and seller in connection with the sale does not exceed 5 percent of the applicable maximum price.

[Paragraph (e) added by Am. 20, 11 F.R. 3299, effective 4-2-46; amended by Am. 24, 11 F.R. 4339, effective 4-23-46 and Am. 30, 11 F.R. 6683, effective 6-22-46]

[Sec. 1.2 amended by Am. 2, 10 F.R. 2161, effective 2-27-45; Am. 10, 10 F.R. 9929, effective 8-14-45 and Am. 13, 10 F.R. 11934, effective 9-24-45]

SEC. 1.3 [Revoked]

SEC. 1.4 [Revoked]

[Secs. 1.3 and 1.4 revoked by Am. 1, 10 F.R. 2026, effective 1-29-45]

SEC. 1.5 *Maximum prices for sales of defluorinated phosphate.* The maximum prices for sales and deliveries of defluorinated phosphate shall be as follows:

(a) *Sales by processors.* (1) The maximum price for all sales and deliveries by processors of defluorinated phosphate packed in 100 pound paper bags f. o. b. processor's plant shall be $35.73 per net ton.

[Subparagraph (1) amended by Am. 22, 11 F.R. 3879, effective 4-15-46]

(2) The maximum delivered price for such sales and deliveries by processors of defluorinated phosphate shall be the maximum price f. o. b. processor's plant, plus the lowest freight rate per net ton for deliveries from said processor's plant to the point designated by his buyer as the receiving point.

(3) For all other sales and deliveries of defluorinated phosphate by processors, the maximum price shall be the same as for sales and deliveries in 100 pound paper bags plus or minus the difference in cost of packing in other than 100 pound paper bags.

(b) *Sales by jobbers.* The maximum price that a jobber may charge for the sale or delivery of defluorinated phosphate in carload lots shall be 50 cents per ton (maximum markup) and in less than carload lots shall be $1.00 per ton (maximum markup) over the maximum price which he could lawfully have paid a processor for the quantity and quality purchased together with actual or reasonable transportation charges incurred by the seller in respect to the lot sold.

(c) *Sales by wholesalers.* The maximum price that a wholesaler may charge for the sale or delivery of defluorinated phosphate shall be $2.00 per ton (maximum markup) over the maximum price which he could lawfully have paid the processor or jobber from whom he purchased (or if he purchased from any other class of person, over the maximum price which he could lawfully have paid a processor) for the quantity or quality purchased together with actual or reasonable transportation charges incurred by the seller in respect to the lot sold.

(d) *Sales by retailers.* The maximum price that a retailer may charge for the sale or delivery of defluorinated phosphate shall be $5.00 per ton (maximum markup) over the maximum price which he could lawfully have paid to the processor, jobber or wholesaler from whom he purchased (or if he purchased from any other class of persons, over the maximum price which he could lawfully have paid a processor (for the quantity

and quality purchased together with actual or reasonable transportation charges incurred by the seller in respect to the lot sold.

(e) *Sales by any other persons.* The maximum price for the sale of defluorinated phosphate by any other person of a class of seller not hereinbefore specifically provided for shall be the maximum price which his seller could lawfully have charged for a like sale. Notwithstanding any other provision of this regulation, sales between persons of one of the class of sellers hereinbefore specifically provided for shall be permissible: *Provided*, That no such sales, nor sales to a person of a different class, shall be at a higher price than the maximum price hereinbefore prescribed for said class of sellers.

(f) *Geographical applicability.* Section 1.5 shall apply to all sales, whether for immediate or future delivery, within the 48 states and the District of Columbia of the United States of imported and domestic defluprinated phosphate whether produced from domestic or imported phosphate.

(g) *Definitions.* (1) "Defluorinated phosphate" shall mean that product obtained by processing phosphate so that the flourine content is reduced below a toxic level.

(2) "Per net ton" shall mean a quantity of at least 2000 pounds.

(3) "Jobber" means a person other than a retailer who buys defluorinated phosphate and resells the same without unloading into a warehouse.

(4) "Wholesaler" means a person who buys defluorinated phosphate and unloads his purchase into a warehouse and resells the same, except at retail.

(5) "Retailer" means a person who buys defluorinated phosphate and resells the same to an ultimate consumer.

(6) "Ultimate consumer" means a person who buys defluorinated phosphate for feeding and not for resale or processing.

(7) "Transportation charges" shall be computed at:

(i) The lowest common carrier rate (including the 3 percent tax provided for in section 620 of the Revenue Act of 1942, as amended) for the billing or shipment in question; or

(ii) If there is no such rate, the reasonable value of the service (including said 3 percent tax, if any) not exceeding any maximum price established therefor.

SEC. 1.6 [Revoked]

[Sec. 1.6 revoked by Am. 1, 10 F.R. 2026, effective 1-29-45]

SEC. 1.7 *Antiseptically treated poultry litter.* The maximum price for antiseptically treated poultry litter sold and delivered by any seller, whether producer, distributor or retailer, shall be determined by adding $7.00 per ton to the maximum price as determined under § 1499.2 of the General Maximum Price Regulation by any such seller and the sum resulting shall be the adjusted maximum price for such seller.

SEC. 1.8 *Wheat bran for human consumption.* The maximum price for wheat bran for human consumption sold and delivered by any seller, whether producer, distributor or retailer, shall be determined by adding $10.00 per ton to the seller's maximum price as otherwise determined under the General Maximum Price Regulation. As used in this section, wheat bran for human consumption means wheat bran which is specially cleaned and prepared for use for human consumption.

[Sec. 1.8 added by Am. 31, 11 F.R. 6982, effective 6-20-46]

SEC. 1.9. *Increases in ceiling prices of certain domestic natural casings when sold by Oppenheimer Casing Company, and its subsidiary The Casing Manufacturing Company.* (a) The maximum prices established by Oppenheimer Casing Company and its subsidiary The Casing Manufacturing Company under the provisions of the General Maximum Price Regulation for the types of domestic natural casings listed in paragraph (b) of this section 1.9 may be increased by the amounts specified in said paragraph (b) on and after September 9, 1946.

(b) The types of domestic natural casings and the amounts by which their respective ceiling prices may be increased under the provisions of this section 1.9 are as follows:

Type of domestic natural casing:	*Amount of increase*
1. Sheep casings	$0.05 per hank
2. Hog casings	$0.08 per hank
3. Hog bungs	$0.0075 per piece
4. Sewed hog bungs	$0.02 per piece.

(c) Except for the increases in maximum prices herein authorized all sales of domestic natural casings shall remain subject to the provisions of the General Maximum Price Regulation.

[Sec. 1.9 added by Am. 33, 11 F.R. 9931, effective 9-9-46]

SEC. 1.10 *Maximum prices for sales of sulphate of ammonia for industrial use (minimum nitrogen content 20.5%).* Maximum prices for sales of sulphate of ammonia for industrial use shall be the higher of the following appropriate maximum prices:

(a) (1) *Washington, Oregon, California and Arizona.* The maximum price that may be charged for sulphate of ammonia delivered to any destination in Washington, Oregon, California and Arizona shall be $36.50 per ton in bulk, and $38.00 per ton in bags, *Provided*, That on any shipment made to destinations in Washington and Oregon where the freight charges exceed $7.21 per ton from Ironton, Utah to such destination, such excess freight charges may be added to the maximum price *And provided further*, That on any shipments made to destinations in California and Arizona where the freight charges exceed $4.53 per ton from Shell Point, California to such destination, such excess freight charges may be added to the maximum price.

(2) *Colorado, Idaho, Montana, Nevada, New Mexico, Utah and Wyoming.* The maximum price that may be charged for sulphate of ammonia in bags shall be: $41.00 per ton delivered to any destination in Colorado; $42.60 per ton delivered to any destination in New Mexico; and, for deliveries to any destination in Idaho, Montana, Nevada, Utah and Wyoming, f. o. b. Ironton, Utah: $31.50 per ton in carload quantities of 40 tons or more; $34.10 per ton in quantities of 15 tons or more but less than 40 tons and $41.60 per ton in quantities of less than 15 tons. In the case of deliveries of material in bulk, the above maximum prices shall be reduced by $2.50 per ton.

(3) *All other States.* The maximum price that may be charged for sulphate of ammonia for delivery to any destination in all other States than those set forth under (1) and (2) above, shall be $30.00 per ton in bulk f. o. b. at domestic producing plant or at nearest domestic producing plant to point of entry for imported sulphate of ammonia.

For bagged sales there may be added to the above maximum price $1.50 per ton plus a sum not in excess of the established maximum price, at the time of the sale, for the bags containing the ton.

(4) If sulphate of ammonia is shipped from the producer's plant or, in the case of imports, from the point of discharge, to a warehouse situated at a point other than the point of production or discharge is handled through a warehouse, and reshipped from the warehouse in bags, there may be added to the maximum bagged price the sum of 50 cents per ton. The point of discharge is the port at which the imported sulphate of ammonia is unloaded from a vessel, or, in the case of rail shipments of imported sulphate of ammonia, the price at which such shipment is first unloaded.

(b) If the seller's maximum price for sales of sulphate of ammonia to industrial users was higher under the General Maximum Price Regulation than for sales to fertilizer manufacturers, he may add to the appropriate maximum price specified in paragraph (a) above the same percentage differential that existed on March 31, 1946, between his sales to industrial users and his sales to fertilizer manufacturers.

[Sec. 1.10 added by Am. 34, 11 F.R. 8486, effective 8-2-46]

SEC. 1.11 *Mayonnaise and salad dressing.*—(a) *Mayonnaise.* The maximum price for a processor's sale of mayonnaise shall be determined by adding 4 cents per gallon to his maximum price as otherwise determined under the General Maximum Price Regulation.

(b) The maximum price for a processor's sale of salad dressing shall be determined by adding 2 cents per gallon to his maximum price as otherwise determined under the General Maximum Price Regulation.

(c) *Distributors.* Any distributor (other than a processor) whose prices are subject to the General Maximum Price Regulation may recalculate his maximum price for any item of mayonnaise or salad dressing upon receipt of notification under paragraph (d) of this section of an increase in his supplier's ceiling as follows: He shall multiply his "net cost" of the item by the same percentage markup as he received for that item during March 31, 1946. "Net cost" is the amount the distributor paid his supplier less all discounts, except the discount for prompt payment and swell and label allowances, plus all transportation charges he paid except local trucking and local unloading. Each kind, brand, grade, variety, container size, and container type shall be treated as a separate item. The percentage markup on March 31, 1946 is determined by taking the "net cost" of the item in stock during March 31, 1946 and dividing that "net cost" into the legal selling price of that item. If the item was not in stock on March 31, 1946 the distributor shall use his "net cost" of the most recent delivery of that item before March 31, 1946.

(d) *Notification of new maximum prices.* With the first delivery of an item covered by this section after the effective date of any provisions changing the seller's maximum price, he shall supply each wholesaler, retailer and other distributor who purchases from him with written notice reading as follows:

_____
(Insert date)

NOTICE TO WHOLESALERS, RETAILERS AND OTHER DISTRIBUTORS

Our OPA ceiling price for (describe item by kind, variety, grade, brand, style of pack and container type and size) has been changed by the Office of Price Administration. We are authorized to inform you that if you are a wholesaler or retailer pricing this item under MPR No. 421, 422 or 423 or another type of distributor pricing this item under the General Maximum Price Regulation, you must refigure your ceiling prices for this item on the first delivery of it to you from your customary type of supplier with this notification after (insert effective date of the applicable Amendment or Order). If pricing under MPR No. 421, 422 or 423, you must refigure your ceiling prices following the rules in Section 6 of MPR 421, 422, or 423, whichever is applicable to you. If pricing under the General Maximum Price Regulation, you must refigure your ceiling price by multiplying the new "net cost" of this item by the "percentage mark-up on March 31, 1946."

For a period of 60 days after determining the new maximum price for the item, and with the first shipment after the 60-day period to each person who has not made a purchase within that time, each seller shall include in each case, carton, or other receptacle containing the item, the written notice set forth above, or securely attach it to the outside. However, for sales direct to any retailer, the seller may supply the notice by attaching it to, or stating it on, the invoice covering the shipment instead of providing it with the goods.

(e) *Definitions.* (1) "Mayonnaise" means any semi-solid emulsion of edible vegetable oil, egg yolk or whole egg, a vinegar and/or lemon juice, with one or more of the following: salt and other seasoning commonly used in its preparation, sugar and/or dextrose. The finished product must contain not less than 50 percent edible vegetable oil.

(ii) "Salad dressing" is the wholly or partly cooked or boiled semi-solid emulsion of edible vegetable oil, egg yolk or whole egg, vinegar, water and/or lemon juice, with one or more of the following: salt and other seasoning commonly used in its preparation, sugar and/or dextrose, starches or other edible moisture absorbing agents.

SEC. 1.12 *Shortening and cooking or salad oil distributors (other than processors) subject to the General Maximum Price Regulation.* See MPR 53 section 10.3a.

SEC. 1.13 *Margarine distributors (other than processors) subject to the General Maximum Price Regulation.* See MPR 53 section 19.4a.

ARTICLE II—RUBBER

SEC. 2.1 *Vulcanized vegetable oil.*—(a) *Maximum prices for types of vulcanized vegetable oil delivered or offered for delivery during March, 1942.*—(1) *Molded vulcanized vegetable oil.* The maximum price for a sale by a manufacturer of a kind of molded vulcanized vegetable oil (other than truss pads) of a kind which is the same as a kind which was delivered or offered for delivery in March, 1942, by the manufacturer shall be the highest price charged for it by the manufacturer during March, 1942 (as defined in paragraph (c) of this section).

(2) *Unmolded vulcanized vegetable oil.* The maximum price for a sale by a manufacturer of a grade of unmolded vulcanized vegetable oil which is the same as a grade which was delivered or offered for delivery in March, 1942, by the manufacturer shall be the highest price charged for it by the manufacturer during March, 1942 (as defined in paragraph (c) of this section) adjusted by adding a certain percentage, named below, of the amount by which the replacement cost to the manufacturer, at July 25, 1942, maximum prices, for the vegetable oil used to produce the product being priced is greater than the inventory cost during March, 1942, of the same quantity of vegetable oil. For the purposes of this subparagraph and subparagraph (b) (4) of this section the "July 25, 1942, maximum price" for a particular vegetable oil means the maximum price for that oil when purchased in the quantity normally purchased by the manufacturer. The inventory cost during March, 1942, shall be determined by multiplying the quantity of the kind of vegetable oil used to produce the product being priced by the average cost of that oil charged to production during March, 1942, or, if it was not charged to production during that month, by the average cost at which it was in the manufacturer's inventory on March 1, 1942. The following named manufacturers shall use the specified percentages in calculating the amount of the adjustment to be made: Stamford Rubber Supply Company, 70 per cent; Carter Bell Manufacturing Company, 80 per cent; all other manufacturers, 100 per cent.

(3) *Transportation costs.* No seller shall require any purchaser, and no purchaser shall be permitted to pay a larger proportion of transportation costs incurred in the delivery of a type of vulcanized vegetable oil delivered by the seller during March, 1942, than the seller required purchasers of the same class to pay during that month on deliveries of the same type.

(b) *Maximum prices for types of vulcanized vegetable oil not delivered or offered for delivery during March, 1942.* The maximum f. o. b. price for the sale by a manufacturer of a grade of unmolded vulcanized vegetable oil which is not the same as a grade which was delivered or offered for delivery by the manufacturer during March, 1942, shall be the sum total of direct labor costs, direct materials costs, gross margin, and an adjustment, determined in accordance with subparagraphs (1), (2), (3), and (4) of this paragraph. The maximum f. o. b. price for a sale by a manufacturer of a kind of molded vulcanized vegetable oil (other than truss pads), which is not the same as a kind which was delivered or offered for delivery by the manufacturer during March, 1942, shall be the sum total of the same components with the exception that it shall not contain an adjustment. The maximum delivered price for a type of vulcanized vegetable oil (other than truss pads) not delivered or offered for delivery during March 1942, shall be the maximum f. o. b. price, plus the cost of transportation to the place of delivery.

(1) *Computation of direct labor costs.* Direct labor costs shall be determined by finding the average cost per pound of direct labor employed during the first quarter of 1942 in producing the type (unmolded white, unmolded brown or molded) of vulcanized vegetable oil which includes the particular grade being priced and multiplying that figure by the number of pounds being priced; except that for any kind of molded vulcanized vegetable oil (other than truss pads) which is individually molded and requires special hand labor which results in direct labor costs higher than the figure which would be obtained by computing the direct labor costs on the basis of average cost per pound as required by this subparagraph (1) for molded vulcanized vegetable oil generally, direct labor costs may be determined each time a quantity of such molded vulcanized vegetable oil is to be priced by multiplying the estimated number of hours of each type of labor required in the manufacture of the quantity being priced by the following wage rates: The wage rates to be used shall be the highest wage rates, in effect in the manufacturer's plant for any substantial portion of March, 1942, for each class of labor involved in the production of the kind of molded vulcanized vegetable oil being priced. If the manufacturer did not employ a given class of labor in March, 1942, he shall use the highest wage rate paid for any substantial portion of March, 1942, by the nearest employer operating under comparable conditions who employed that class of labor during that month.

(2) *Computation of direct materials costs.* Direct materials costs shall be determined by multiplying the quantity of each material used in the manufacture of the vulcanized vegetable oil being priced by materials prices determined as follows:

The price of any material used in the manufacture of the vulcanized vegetable oil being priced shall be the first applicable among the following:

(i) The average cost at which the material was charged into production during March, 1942;

(ii) The average cost at which it was in the manufacturer's inventory on March 1, 1942;

(iii) The highest price charged during March, 1942, (as defined in paragraph (c) of this section) by the manufacturer's supplier. The manufacturer's supplier shall be (*a*) his March, 1942, supplier of the material, or (*b*) lacking a March, 1942, supplier of the material, his most recent supplier of the material. If neither of these exists, it shall be his potential supplier.

(iv) The first price at which the manufacturer's supplier offered to sell the material to a purchaser of the same class as the manufacturer after March 31, 1942. However, if the first applicable of those prices is higher than the maximum price established by the Office of Price Administration for the sale of the material to the manufacturer by his supplier, that maximum price shall be used as the price of the material.

(3) *Computation of gross margin.* The gross margin shall be determined as follows:

(i) Determine the total sales value for the first quarter of 1942 of each grade of the particular type (unmolded white, unmolded brown or molded) of vulcanized vegetable oil which includes the grade being priced, at its March, 1942, highest price, by multiplying the quantity of each grade of that type produced during that quarter by the highest f. o. b. price for which the grade was sold during March, 1942, or, if it was not sold during that month, by the highest f. o. b. price for which it was offered for sale during March, 1942. Add the resulting figures to determine the total sales value for the quarter at March, 1942, highest prices, for the particular type of vulcanized vegetable oil.

(ii) Subtract from that figure the total direct labor and materials costs for the particular type to determine the gross margin. Direct labor costs for this purpose shall be computed by multiplying the average direct labor costs per pound of the particular type of vulcanized vegetable oil produced during the first quarter of 1942, by the total quantity of that type produced during that period. Direct materials costs shall be computed by multiplying the quantity of each material, used in the manufacture of the particular type by the average cost at which the material was charged into production during March, 1942, or, if it was not charged into production in that month, by the average cost at which it was in the manufacturer's inventory on March 1, 1942.

(iii) Divide the figure resulting from subtracting direct costs from total sales value by the total direct costs figure to determine the gross margin percentage of direct costs. That percentage shall be applied to the direct costs of the grade being priced (computed in accordance with subparagraphs (b) (1) and (2) of this section) to determine the gross margin for that grade.

(4) *Adjustment.* The sum total of direct labor costs, direct materials costs, and gross margin for a grade of unmolded white or unmolded brown vulcanized vegetable oil, computed as required by this paragraph (b), shall be adjusted by adding the percentage, designated for the particular manufacturer in subparagraph (a) (2) of this section, of the amount by which the replacement cost to the manufacturer, at July 25, 1942, maximum prices for the vegetable oil used to produce the product being priced is greater than the inventory cost during March, 1942, of the same quantity of vegetable oil. The inventory cost during March, 1942, shall be determined by multiplying the quantity of the kind of vegetable oil required to produce the product being priced by the average cost of that oil charged to production during March, 1942, or, if it was not charged to production during that month, by the average cost at which it was in the manufacturer's inventory in March, 1942. No adjustment shall be made in the case of molded vulcanized vegetable oil.

(c) *Definitions.* (1) "Brown vulcanized vegetable oil" means vulcanized vegetable oil produced by hot vulcanization.

(2) "Highest price charged during March, 1942" means:

(i) The highest price which the seller charged to a purchaser of the same class for delivery of the commodity during March, 1942;

(ii) If the seller made no such delivery during March, 1942, such seller's highest offering price to a purchaser of the same class for delivery during that month;

(iii) If the seller made no such offering price to a purchaser of the same class, the highest price charged by the seller during March, 1942, to a purchaser of a different class, adjusted to reflect the seller's customary differential between the two classes of purchasers.

(3) "Manufacturer" when referring to molded vulcanized vegetable oil means a person who makes the molded product from vulcanized vegetable oil manufactured by him.

(4) "Molded vulcanized vegetable oil" means a vulcanized vegetable oil in which the vulcanization reaction takes place substantially in molds which give shape utility to the production.

(5) "Type of vulcanized vegetable oil" means one of the three classifications of that product, namely, unmolded white, unmolded brown and molded.

(6) "Vulcanized vegetable oil" means the solid reaction product of unsaturated fatty oils and vulcanizing agents.

(7) "White vulcanized vegetable oil" means vulcanized vegetable oil produced by cold vulcanization.

(d) *Geographical applicability.* This section applies only to the 48 states of the United States and the District of Columbia.

SEC. 2.2 *Used bicycle tires, tubes and rim strips.* The maximum prices for used bicycle tires, tubes and rim strips shall be those established by the General Maximum Price Regulation, except that in no case shall the maximum price of a used bicycle tire, tube or rim strip exceed the maximum price set for such item new by Maximum Price Regulation 435,[1] New Bicycle Tires and Tubes.

SEC. 2.3 *Servicing of raw rubber*—(a) *Applicability and terms of sale.* This section covers the servicing of all raw synthetic, plantation, guayule and wild rubbers and balata, when performed by any person. The servicing covered is that servicing of raw rubber for manufacturers which has normally been performed by members of the Rubber Trade Association of New York, Inc. In order to be entitled to the maximum prices in this section, any person who offered such service to manufacturers on June 15, 1943 shall continue to supply all services which he offered and included in the price which he had in effect on that date. Any other person shall supply all services that his most closely competitive supplier is required to supply. If any person reduces in any way the service so required or makes his terms less favorable to purchasers than those in effect on June 15, 1943, there shall be a proportionate reduction in the maximum prices here set.

(b) *Maximum prices.* The maximum price for the servicing of raw rubber, not including the consolidation of less than carload lots, shall be the price in the following table. On all less than carload lots which are consolidated, ⅛ cent per pound may be added to the price in the table.

Long tons	Plantation, crepe and wild rubbers	Synthetic rubbers	Balata
	Cts. per lb.	Cts. per lb.	Cts. per lb.
750 tons and over	1½	1¼	1½
100 tons up to 750 tons	1⅝	1⅜	1⅝
30 tons up to 100 tons	1¾	1½	1¾
10 tons up to 30 tons	1⅞	1⅝	1⅞
1 ton up to 10 tons	2¼	2	2
Less than 1 ton	2½	2¼	2½

SEC. 2.4 *Lumberman's overs*—(a) *Coverage.* This section applies to lumberman's overs released by the War Department for use by civilians.

(b) *Maximum prices.* The maximum prices for sales of these lumberman's overs shall be as follows:

Seller	Maximum price per pair	
	10" Yukon	16" Yukon
War Department	$4.15	$5.75
Defense Supplies Corporation	4.36	5.79
Wholesalers other than Defense Supplies Corporation and the War Department	5.74	7.60
Retailers	8.61	11.38

(c) *Transportation expenses*—(1) *War Department and Defense Supplies Corporation.* The War Department and Defense Supplies Corporation may add transportation costs to the maximum prices established by this section.

(2) *Wholesalers and retailers.* Wholesalers and retailers may add to the maximum prices established by this section the same proportion of transportation costs that they added on sales of footwear to a purchaser of the same class during March, 1942.

[1] 10 F. R. 4199, 8015, 14061; 11 F. R. 1153.

(d) *Notification of maximum prices*—(1) *By Defense Supplies Corporation.* Before or at the time of the first delivery after January 17, 1944, of any lumberman's overs covered by this section to a wholesaler, the Defense Supplies Corporation shall notify the wholesaler of the maximum wholesale and retail prices established by this section.

(2) *By a wholesaler.* Before or at the time of the first delivery after January 17, 1944, of any lumberman's overs covered by this section to a retailer, the wholesaler shall notify the retailer of the maximum retail prices established by this section.

SEC. 2.5 *Passenger car tire reliners made from scrap tires.* The maximum retail price for a passenger car tire reliner made from scrap tires, regardless of size or ply, shall be $2.25, or the maximum retail price fixed pursuant to other provisions of the General Maximum Price Regulation, whichever is higher.

(b) *Maximum prices: Sales by assemblers.* Maximum prices for prime dogwood and persimmon shuttle blocks which are sold by an assembler shall be as follows: (NOTE: See definition of an assembler in paragraph (c) below.)

(1) *Prime dogwood and persimmon shuttle blocks in the sizes listed in Table A.* The maximum price f. o. b. the seller's plant for prime dogwood and persimmon shuttle blocks which are sold by an assembler (see definition of an assembler in paragraph (c) below), which comply with all of the specifications contained in paragraph (d) below and which are of a dry size listed in Table A in paragraph (a) above shall be the price listed in Table A for that particular dry size plus a mark-up of 39% of such price.

(2) *Prime dogwood and persimmon shuttle blocks in the sizes listed in Table B.* The maximum price f. o. b. the seller's plant for prime dogwood and persimmon shuttle blocks which are sold by an assembler (see definition of an assem-

bler in paragraph (c) below), which comply with all of the specifications contained in paragraph (d) below and which are of a dry size listed in Table B in paragraph (a) above shall be the price listed in Table B for that particular dry size plus a mark-up of 25% of such price.

(c) *Definition of an assembler.* Within the coverage of this section, an assembler is a seller of dogwood and persimmon shuttle blocks who performs all of the functions set forth in subparagraphs (1), (2), (3) and (4) below and who also fulfils the requirements of subparagraph (5), or (6), or (7) which follow:

(1) Assembles the shuttle blocks from one or more mills where such shuttle blocks were manufactured, regardless of whether those mills are owned by the seller or one or more persons other than the seller.

(2) Makes final inspection of the shuttle blocks, both for grade and for shipment, on a sale of the shuttle blocks to one of the classes of purchasers described in subparagraph (4) below.

(3) Packages the shuttle blocks, provided the buyer of such shuttle blocks orders that the shuttle blocks be packaged.

(4) Sells the shuttle blocks direct to a domestic shuttle manufacturer and/or for export.

(5) Shipped 250,000 or more prime shuttle blocks to either one or both of the classes of purchasers described in subparagraph (4) above during the year 1944. Written classification as an assembler from the Office of Price Administration is not necessary for a seller who fulfils the requirements of this subparagraph (5) and who also performs the other functions required in subparagraphs (1) through (4) of this paragraph (c) for a seller to be an assembler. A prime shuttle block is a shuttle block made in accordance with the specifications in paragraph (d) of this section.

(6) Shipped less than 250,000 but not less than 100,000 prime shuttle blocks to either one or both of the classes of purchasers described in subparagraph (4) above during the year 1944 provided such seller is duly classified in writing as an assembler by the Lumber Branch of the Office of Price Administration. In order to be classified as an assembler under this subparagraph (6) the seller must apply in writing for that classification to the Lumber Branch of the Office of Price Administration, Washington 25, D. C. The seller must show to the satisfaction of the Office of Price Administration that he performs all of the functions set forth in subparagraphs (1), (2), (3), and (4) above, and that he is entitled to classification as an assembler.

A prime shuttle block is a shuttle block made in accordance with the specifications in paragraph (d) of this section.

(7) A seller of shuttle blocks who desires to sell them as an assembler but who does not qualify as an assembler under the provisions of either subparagraph (5) or (6) above, must apply in writing for classification as an assembler to the Lumber Branch of the Office of Price Administration, Washington 25, D. C. The seller should submit evidence from at least two manufacturers of shuttles or from at least one manufacturer of shuttles and from a government procuring agency buying for lend-lease that they wish to purchase shuttle blocks from the seller. The seller should also submit evidence from at least three producers of shuttle blocks that they wish to sell shuttle blocks to the seller.

In addition, the seller must submit further information in support of his request for classification as may be required by the Office of Price Administration. If the Office of Price Administration finds that the seller is rendering or intends to render in good faith the services of an assembler, it may authorize the seller to sell prime shuttle blocks as an assembler.

(8) Even though a seller fulfils the requirements of subparagraphs (5) or (6) or (7) above, if such seller fails to perform all of the functions listed in subparagraphs (1), (2), (3) and (4) above in regard to the shuttle blocks which he sells, that seller shall not be regarded as an assembler in the sale of such shuttle blocks, and the prices provided for in paragraph (b) of this section shall not apply to such sale.

(d) *Specifications:* The specifications for prime dogwood and persimmon shuttle blocks priced in Table A and Table B above shall be as follows:

"Quality": Shall be dense wood, 100% sap wood, straight flat grain free of heartwood, pith, checks, dote, worm or grub holes, wane and discoloration (stain). Shall be free of knots or other visible defects within 3 inches of either end and within ½ inch of either wide face, or any defect combinations which render a piece unfit for a serviceable shuttle. "Manufacture": Shall be evenly sawed, squarely butted and of sufficient over-all size in green condition to assure the full net specified dimensions when later thoroughly dried. Shall be sufficiently air dried before preparation for shipment to prevent staining while in transit. Ends shall be waxed.

(e) *Maximum prices for sizes and specifications not specifically priced by this section.* Dogwood and persimmon shuttle blocks not specifically priced in this section are, nevertheless, subject to this section as "specially priced items" "or special items". A seller of such shuttle blocks, whether he be an assembler or a seller other than an assembler, must apply to the Lumber Branch of the Office of Price Administration, Washington 25, D. C., for approval of a requested maximum price.

On his application the seller should show the price difference between the "special item" and the most comparable standard item in October 1941 or the first month before that in which he had sales of both items, or, if this is impossible, the price differential which he would have used. ("The most comparable standard item" means any prime dogwood or persimmon shuttle block the size of which is listed in Table A or B of paragraph (a) of this section.) The seller should add this difference to, or subtract it from, the maximum price of the comparable standard item depending upon whether, in October 1941, the sale price of the special item was less than or greater than the sale price of the most comparable standard item. The seller should report such price in his application together with an explanation of how he has determined such price. The price requested by the applicant may be approved, reduced or revised by the Office of Price Administration as it deems appropriate. If the Office of Price Administration does not transmit by letter, telegram or in any other manner a disapproval of the price requested by the seller within 30 days of the receipt of the report by the Lumber Branch of the Office of Price Administration, the requested price may be deemed approved. Prior to approval of a maximum price for the special item by the Office of Price Administration the seller may proceed with delivery of the special item and collection of the price he has computed or requested. But the seller must inform the buyer that the price is subject to revision within the thirty day period and, if the price is ordered reduced by the Office of Price Administration, the seller must refund any excess over the final approved price.

(f) *Transportation.*—(1) *Common or contract carrier.* To the appropriate maximum price in paragraph (a) or (b), as provided in this section, the seller may add the actual transportation charges paid by the seller to a common or contract carrier for transportation directly from the seller's plant to the point of delivery required by the purchaser.

(2) *Pre-rail truck haul.* When a truck haul precedes rail shipment, as, for example, when a seller located away from a railhead hauls shuttle blocks by truck to the railhead, no addition may be made for the truck haul.

(3) *All-truck haul.* When shipment is by truck owned or controlled by the seller, no addition may be made for such transportation charges or expenses.

SEC. 3.3 *Baled Southern pine wood excelsior*—(a) *Maximum prices for sales by manufacturers and by Virginia Excelsior Mills, Incorporated, Doswell, Virginia.* The maximum price f. o. b. mill per net ton for sales of baled Southern pine wood excelsior by Virginia Excelsior Mills, Incorporated, Doswell, Virginia and by manufacturers in the States named in paragraph (e) shall be as follows:

Maximum price for carload lots shipped to jobbers and distributors

Grade:	Per net ton f. o. b. mill
XX	$29.25
XXXX	31.25
Wood wool	42.25
Fine wood wool	50.25

Addition for less than carload shipments. 1 to 10 tons, add $2.00 per ton to above prices. Less than 1 ton, add $4.00 per ton to the above prices.

Addition for shipments direct to consumer. Add $2.00 per ton to above prices.

(b) *Maximum price for sales by jobbers or distributors of baled Southern pine wood excelsior manufactured in Virginia.* The maximum prices per net ton for sales by jobbers and distributors, of baled Southern pine wood excelsior produced in Virginia shall be the seller's maximum price established under the General Maximum Price Regulation for the particular grade of excelsior, and class of consumer, plus $8.25 per ton.

[Paragraphs (a) and (b) amended by Am. 27, 11 F.R. 5601, effective 5-27-46]

(c) *Maximum prices for sales by jobbers or distributors of baled southern pine wood excelsior manufactured in the States of Delaware, Maryland, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Arkansas, Louisiana, Texas and Tennessee.* (1) The maximum price per net ton for sales by jobbers or distributors of baled southern pine wood excelsior produced in the States of Delaware, Maryland, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Arkansas, Louisiana, Texas and Tennessee shall be the net price determined by applying to the seller's net invoice cost of baled southern pine wood excelsior, not to exceed the applicable maximum price, the average dollars and cents markup, weighted by volume of sales, over net invoice cost realized during March 1942 for all baled southern pine wood excelsior of the same class sold by the seller to purchasers of the same class during March 1942, or, if no such sales were made during March 1942, during the first month preceding March 1942 in which such sales were made.

(2) If a jobber or a distributor cannot compute a maximum price for baled southern pine wood excelsior in accordance with subparagraph (1) above, he shall apply to the Lumber Branch of the Office of Price Administration, Washington, D. C. for authorization to establish a maximum price pursuant to a pricing method proposed in writing by the jobber or distributor.

(d) *Grade.* The grades used in this section refer to the standards and specifications set forth in Federal Specification No. NN-E-911, as generally understood in the trade.

(e) This section 3.3 applies to baled Southern pine wood excelsior produced in the States of Delaware, Maryland, Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, Arkansas, Louisiana, Texas and Tennessee.

SEC. 3.4 *Laminated wood structural members*—(a) *Products covered.* This section covers sales of all frame structural members such as rafters, joists, arches, and roof trusses, which are fabricated by laminating two or more pieces of lumber by gluing, scarf-jointing, or otherwise.

(b) *Maximum f. o. b. factory prices; sales by manufacturers.* The maximum f. o. b. factory price for laminated wood structural members shall be computed on the basis of the individual manufacturer's price-determining method during the month of March 1942, using rates and costs as provided in the following formula:

(1) *Materials.* Lumber material costs for the particular item shall not be higher than the current maximum price as established by the appropriate "mill ceiling" regulation plus the average inbound freight cost for the particular item during the six months period from June 1, 1943 through November 30, 1943. In the case of a manufacturer using lumber produced by him, the material costs that may be used for such lumber shall be at least $2.00 per MBM below the maximum mill price for that lumber.

(2) *Labor.* Labor costs shall include only labor that was treated as direct labor in the March 1942 price-determining method. To determine direct labor cost for a particular item, use the March 1942 direct labor cost plus the percentage increase in average hourly earnings between March 1942 and September 30, 1943. In computing average hourly earnings only the earnings of workers whose wages are computed on an hourly or piece-work basis shall be used.

Example: Average hourly earnings

March 1942	$0.50
September 30, 1943	$0.60
Increase	20%
Direct labor cost for item per MBM	
March 1942	$15.00
Increase 20%	3.00
Cost to be used	$18.00

(3) *All other expenses and profit.* To the out-of-pocket cost of the particular item determined as specified in (1) and (2) above, there may be added for all other expenses and for profit the same dollars-and-cents margin that was applied for such expenses and profit under the March 1942 price-determining method. The addition for "all other expenses and profit", it should be noted, is a fixed dollars-and-cents addition rather than a percentage addition and is the difference between the March 1942 price of the particular item and the March 1942 out-of-pocket cost (as determined by (1) and (2) using March 1942 costs.)

(c) *Maximum delivered prices; sales by dealers.* The maximum delivered price shall be a price computed by increasing the March 1942 delivered price by the amount of increase in current delivered cost (f. o. b. factory price of manufacturer plus the actual transportation charges paid or incurred by the seller in making shipments directly from the factory to the point of delivery required by the purchaser) over the March 1942 delivered cost. If the dealer did not sell the item in March 1942 he must request the factory to inform him of the March 1942 mark-up of his nearest competitive seller and use this dollars-and-cents mark-up for his current sales.

(d) Sellers must maintain trade discounts and credit terms no less onerous to buyers than the March 1942 discounts and terms given the same buyer or class of buyer.

(e) The provisions of this section shall be applicable to the 48 States of the United States and to the District of Columbia.

SEC. 3.5 *Continuance of manufacturers' and wholesalers' maximum prices for portable prefabricated farm buildings established under Maximum Price Regulation No. 246.*[4] The manufacturers' and wholesalers' maximum prices established under Maximum Price Regulation No. 246 prior to December 27, 1943, for portable prefabricated farm buildings shall continue in effect under the coverage of the General Maximum Price Regulation in the same manner as if such prices had been established under that regulation instead of under Maximum Price Regulation No. 246.

[4] 10 F.R. 2746.

SEC. 3.6. *Luggage frames*—(a) *Products and persons covered.* This section applies to all sales and deliveries of luggage frames manufactured in the States of New York, New Jersey, and Pennsylvania. As used in this section, the term "luggage frame" means the complete frame no matter what material is used in the manufacture.

(b) *Maximum prices.* The maximum prices for a complete luggage frame are set forth in the following table:

Material	Sizes				
	18"	21"	26"	29"	"Two suiters"
Cardboard or kraftboard	$0.66	$0.76	$1.14	$1.21	$1.13
Upson, Tekwood or Beaverboard	0.75	0.88	1.31	1.41	1.32
Plywood	0.83	0.97	1.44	1.57	1.46

(c) *Items not specifically priced.* For the price of any luggage frame not specifically priced in paragraph (b), the manufacturer shall submit an application for a price to the Lumber Branch, Office of Price Administration, Washington 25, D. C., setting forth:

1. Size of frame.
2. Net footage, waste factor and type of material used.
3. Cost of the material used and the average cost for the first six months of 1944 of the most similar material listed in the table in paragraph (b), which the manufacturer had used during that period. This average cost is to be computed by dividing the total purchases of that similar material by the total number of board feet or other units purchased.
4. Requested price.
5. Any other factors which may aid the Office of Price Administration in establishing a proper price.

The Office of Price Administration will by letter order approve, modify or deny the application for a price of the item in line with the prices established under this section.

All prices include commissions, delivery and all other charges.

[Sec. 3.6 amended by Am. 6, 10 F.R. 4107, effective 4-21-45]

SEC. 3.7 *Hickory picker stick blanks, color no defect.* This section covers, under the term, "hickory picker stick blanks, color no defect" all sizes of all white, mixed color, and all red hickory blanks manufactured or concentrated in the United States which are to be manufactured into hickory picker sticks and which satisfy the following specifications:

Manufactured from live, tough, heavy weight hickory logs; to be bright, free from all timber defects, straight and straight grained.

NOTE: Hickory blanks not covered by this section are covered by Maximum Price Regulation 501, Hardwood Small Dimension.

(a) *Direct-mill shipments.* The maximum prices f. o. b. the mill for direct-mill shipments of "hickory picker stick blanks, color no defect" described above are as follows:

NOTE: The following prices are applicable only to hickory blanks which are to be used in the manufacture of hickory picker sticks.

Dry size (inches)	*Price per blank*
1 x 1¾ x 35	$0.106
1 x 1¾ x 36	.109

2 x 2 x 36	.250
2 x 2 x 40	.278
2 x 2½ x 22½	.195

The maximum price for all other sizes shall be $250.00 per 1,000 board feet (figured on dry size dimensions.)

The mill may add to the appropriate f. o. b. maximum price the actual charge or cost paid or incurred by the mill in making delivery to the purchaser.

(b) *Concentration plant sales.* A concentration plant for the purpose of this section is any establishment which buys for resale picker stick blanks from primary producers. The maximum prices, f. o. b. concentration plant, for "hickory picker stick blanks, color no defect" covered in this section, which are sold out of concentration plants are the maximum prices established in paragraph (a) above plus 1 cent per blank.

The concentration plant may add to the appropriate f. o. b. maximum price the actual charge or cost paid or incurred by the concentration plant in making delivery to the purchaser.

[Sec. 3.7 added by Am. 4, 10 F.R. 2618, effective 3-12-45]

SEC. 3.8. *Baled basswood or poplar wood excelsior, baled basswood or poplar wood wool, wood excelsior pads and wrappers—Lake State Region.* This section covers baled basswood or poplar wood excelsior and baled basswood or poplar wood wool (referred to below as wood excelsior and wood wool, respectively throughout this entire section) produced only in the States of Michigan, Wisconsin and Minnesota (referred to below as the Lake States).

This section also covers under the terms, "pads" and "wrappers", pads and wrappers manufactured in the Lake States from wood excelsior produced in the Lake States.

(a) *Maximum price for sales of wood excelsior and wood wool by producers in carload lots.* Subject to paragraph (d) of this section, the maximum price, f. o. b. mill, carload lots, for sales by producers of wood excelsior and wood wool under this section shall be as follows:

(1) *Maximum price, f. o. b. mill, carload lots.*

(c) *Maximum prices for sales of pads and wrappers.* The maximum price f. o. b. mill or f. o. b. mill warehouse for sales by a seller of pads or wrappers shall be an amount equal to that seller's maximum price for the quantity sold computed in accordance with the provisions of the General Maximum Price Regulation plus 10½% of such maximum price so computed.

(d) *Transportation charges*—(1) *Mill shipments.* The maximum delivered price on direct-mill sales shall be either (i) a price no higher than the maximum f. o. b. mill price for the particular item under subparagraph (1) or (2) of paragraph (b) or under paragraph (c) above plus the actual transportation charges paid to a common or contract carrier for transportation directly from the mill to the point of delivery required by the purchaser, or transportation expenses not to exceed the amount which would have been paid to a common or contract carrier if its services had been utilized for such delivery, or, (ii) a price no higher than the maximum f. o. b. mill price for the particular item under subparagraph (1) or (2) of paragraph (b) or under paragraph (c) above plus the transportation charges figured according to the established practice of the seller in effect on March 31, 1942.

(2) *Mill warehouse shipments.* The maximum delivered price on mill warehouse sales shall be the maximum f. o. b. mill warehouse price for the particular item under subparagraphs (3), (4), or (5) of paragraph (b) or under paragraph (c) above plus the actual transportation charges paid to a common or contract carrier for transportation directly from the mill warehouse to the point of delivery required by the purchaser or transportation expenses not to exceed the amount which would have been paid to a common or contract carrier if its services had been utilized for such delivery.

(e) *Grades.* The grades used in this section in reference to wood wool and wood excelsior refer to the standards and specifications set forth in Federal Specification No. NN-E-911 as generally understood in the trade.

(f) *Definition of mill warehouse.* A mill warehouse is a warehouse owned by a mill which warehouse is located at some point other than where the mill is located and from which the mill distributes wood excelsior, wood wool, pads or wrappers in less than carload lots.

(g) *Maximum price for sales by sellers other than producers of wood excelsior and wood wool or by sellers other than manufacturers of pads and wrappers.* (1) The maximum price for sales of wood excelsior, wood wool, pads or wrappers in both carload and less than carload lots by a seller other than a producer or manufacturer of these items shall be the seller's maximum price established under the General Maximum Price Regulation for the particular item sold based on grade, if any, quantity sold and class of customers plus the average dollars and cents mark-up weighted by volume of sales over net invoiced cost realized by that seller during March 1942 for all wood excelsior, wood wool, pads or wrappers sold by the seller in the same type of sale in March 1942 or in the nearest month preceding March 1942, if the seller made no such sale in March 1942.

(2) If a seller other than a producer of wood excelsior and wood wool or a seller other than a manufacturer of pads and wrappers cannot compute a maximum price under subparagraph (1) above, that seller shall apply to the Lumber Branch, Office of Price Administration, Washington, D. C., for authorization to establish a maximum price pursuant to a pricing method proposed in writing by that seller. The Office of Price Administration shall approve a maximum price for such applicant in line with the maximum price established by other sellers of the same class.

[Sec. 3.8 added by Am. 5, 10 F.R. 3551, effective 4-5-45 and amended by Am. 29, 11 F.R. 6338, effective 6-15-46]

SEC. 3.9 *Battery separators*—(a) *Maximum prices.* The maximum price f. o. b. the mill for sales by any manufacturer of Port Orford Cedar or Douglas Fir battery separators produced in the United States shall be an amount equal to that manufacturer's maximum price for the quantity sold computed in accordance with the provisions of the General Maximum Price Regulation, plus 13% of such maximum price so computed.

(b) *Reports.* On or before February 15, 1946, the following manufacturers of Port Orford Cedar or Douglas Fir battery separators shall file with the Lumber Branch, Office of Price Administration, Washington, 25, D. C., such data as are required to determine what revision, if any, in the prices provided under the General Maximum Price Regulation is required by law for the sale by manufacturers of Port Orford Cedar or Douglas Fir battery separators:

Standard Battery Separator Co., Los Angeles, California
Evans Products Co., Coos Bay, Oregon
Arrow Mill Co., Chicago, Illinois
West Coast Separator Co., Los Angeles, California
Smith Wood Products Co., Coquille, Oregon
Pacific Wood Products Co., Grant's Pass, Oregon

The required data shall be submitted on the forms and according to the procedure, provided by the Office of Price Administration.

[Paragraph (b) amended by Am. 16, 11 F.R. 676, effective 1-21-46]

(c) *Duration of prices.* The prices established in paragraph (a) of this section are effective until such time as the Office of Price Administration may revise said prices as a result of the findings from the study of the reports submitted in accordance with paragraph (b) of this section.

[Sec. 3.9 added by Am. 8, 10 F.R. 8620, effective 7-16-45 and amended as otherwise noted]

SEC. 3.10 *Coverage.* This section covers all sales of hickory striking-tool handle blanks and all sales of striking-tool handles produced in the United States except the retail type of sale defined in paragraph (b) (5) (iv) of this section.

(a) *Hickory striking-tool handle blanks (referred to below as hickory handle blanks)*—(1) *Maximum prices for hickory handle blanks of certain specifications, classifications, grades and sizes.* The producers' maximum prices, f. o. b. the seller's plant, for hickory handle blanks manufactured in accordance with the specifications contained in Table B below, shall be the prices for the types, grades and sizes indicated in Table A below, but, when delivery of the hickory handle blanks is effected by the purchaser under the conditions stated in paragraph (f) (1) (iv), the seller shall make a deduction from such maximum prices as provided in that paragraph (f) (1) (iv).

Extra blanks must be all white, heavy timber, free from all defects, perfect, full size, and straight grain.

No. 1 blanks must be good weight timber, permitting ⅓ red wood the entire length of the blank. All white blanks of good weight not sufficiently heavy for Extra Grade, and blanks of good weight with two light hair streaks running the full length of the blank or their equivalent in shorter streaks are permitted. No. 1 blanks must be free from defects, full size and straight grain.

No. 2 blanks must be fair weight timber, permitting red, white or red and white mixed wood, permitting light streaks and 3 tight sound knots not over ¼" in diameter when occurring in that part of the blank other than will produce the center or spring of the handle. Reasonably straight grain is required.

No. 3 blanks include such blanks as will produce serviceable handles, but are not admissible to the higher grades on account of defects.

Reject blanks are those containing open knots greater than ⅜" in diameter, worm holes, windshakes, or that are brashy, and are not admissible to any grade.

(b) *Hickory striking-tool handles (referred to below as hickory handles); maximum prices.* The maximum prices provided for under this paragraph (b) are subject to the discount and concessions required by paragraph (e). On and after August 20, 1946,

1. The net maximum prices obtained by applying the authorized percentages to the list prices shown in Tables C, C-1, and D are increased by 7%, and

2. The net maximum prices established in Table E, of subparagraph (3) are increased by 7%.

Provided, That the 7% addition shall in every case be shown separately on the invoice in the form of an addition to the total of the invoice (exclusive of the transportation charges permitted by paragraph (f)) under the caption "Plus 7% per Amdt. 38 to 2d Rev. SR 14".

(1) *Manufacturers' maximum prices; Simplified Practice Recommendation R77-39 or Simplified Practice Recommendation R77-45.* A manufacturer's maximum prices, f. o. b. the manufacturer's plant, for hickory handles graded according to "Simplified Practice Recommendation R77-39 or Simplified Practice Recommendation R77-45 for Hickory Handles" issued by National Bureau of Standards, U. S. Department of Commerce, effective October 15, 1939, referred to below as Simplified Practice Recommendation R77-39 or Simplified Practice Recommendation R77-45, shall be as follows:

(i) *Sales to buyers except those engaged in the retail business.* A manufacturer's maximum prices on sales to a buyer, other than a buyer who is engaged in the business of selling hardwood striking-tool handles only at retail, shall be 65% of the prices listed in

Table C or Table C–1 below for the amount, types, classes, grades and sizes indicated. (See definitions in subparagraph (5) (iv), below, entitled *Retail type of sale.*)

(ii) *Sales to buyers engaged in the retail business.* A manufacturer's maximum prices on sales to a buyer who is engaged in the business of selling hardwood striking-tool handles only at retail shall be 74% of the prices listed in Table C or Table C–1 below for the amount, types, classes, grades and sizes indicated. (See definitions in subparagraph (5) (iv), below, entitled *Retail type of sale.*)

[Subparagraph (3) amended by Am. 18, 11 F.R. 2379, effective 3-12-46]

(4) *Sales of hickory handles marked with trademark or brand.* If an order for the purchase of hickory handles specifically stipulates that the order be composed of hickory handles to be marked with the trademark or brand of either the buyer or seller, which order constitutes a mixture of different grades of such handles of a type, class and pattern contained either in the list in Table C or Table C–1 of subparagraph (1) or in the list in Table D of subparagraph (2) or in both lists, the manufacturer's maximum price for the order shall be the price in either (i) or (ii) as follows:

(i) On a sale to a buyer other than a buyer who is engaged in the business of selling hardwood striking tool handles only at retail (see definitions in subparagraph (5) (iv)), the maximum price shall be 65% of the weighted average list price for those tables for the mixture of such handles evened off to the nearest 10 cents.

(ii) On a sale to a buyer who is engaged in the business of selling hardwood striking tool handles only at retail (see definitions in subparagraph (5) (iv)), the maximum price shall be 74% of the weighted average list price for those tables for the mixture of such handles evened off to the nearest 10 cents.

The distributor's maximum price for such an order of handles shall be 82% of the weighted average list price from those tables for the mixture of such handles evened off to the nearest 10 cents.

For example: A buyer orders 100 doz. single bit hickory axe handles of a brand called the "X" brand, the order to be made up of the following grades:

50 doz. AW, 10 doz. BW, 20 doz. AR, 20 doz. BR.

The weighted average price is computed as follows:

Grade	Number of dozen in order	List price per dozen	List price for number of dozen in order
AW	50	$8.20	$410.00
BW	10	6.90	69.00
AR	20	6.30	126.00
BR	20	5.30	106.00
			$711.00

$711.00 divided by 100 dozen = $7.10, the weighted average list price per each dozen in the order evened off to the nearest 10 cents.

The manufacturer's maximum price on a sale to a buyer other than a buyer who is engaged in the business of selling hardwood striking tool handles only at retail is 65% of $7.10 or $4.60 per dozen.

The manufacturer's maximum price on a sale to a buyer engaged in the business of selling hardwood striking tool handles only at retail shall be 74% of $7.10 or $5.30 per dozen.

The distributor's maximum price is 82% of $7.10 or $5.80 per dozen.

The manufacturer's maximum price for an order of hickory handles made up of hickory handles to be marked with the trademark or brand of either the buyer or seller and which are composed of a single grade of a type, class and pattern contained either in the list in Table C or Table C–1 of subparagraph (1) or in the list in Table D of subparagraph (2) shall be the price in either (i) or (ii) as follows:

(i) On a sale to a buyer other than a buyer who is engaged in the business of selling hardwood striking tool handles only at retail (see definitions in subparagraph (5) (iv)), the maximum price shall be 65% of the list price for those handles of that grade, type, class and pattern contained in Table C or Table C–1 or Table D, whichever table applies.

(ii) On a sale to a buyer who is engaged in the business of selling hardwood striking tool handles only at retail (see definitions in subparagraph (5) (iv)), the maximum price shall be 74% of the list price for those handles of that grade, type, class and pattern contained in Table C or Table C–1 or Table D, whichever table applies.

The distributor's maximum price for such an order of handles shall be 82% of the list price for those handles of that grade, type, class and pattern contained in Table C or Table C–1 or Table D, whichever table applies.

(5) *Sales by sellers other than producers and manufacturers.* The maximum prices provided for under this subparagraph (5) are subject to the discounts and concessions required by paragraph (e).

(i) *Definition of distribution type of sale.* The distribution type of sale is a sale by a seller, other than a producer or manufacturer, out of his own warehouse where that seller maintains a varied stock of items covered by this section and which seller buys those items from one or more producers or manufacturers of such items and sells them to government agencies, industrial users, tool manufacturers or retailers.

A sale by a producer or manufacturer or by a seller who does not maintain a warehouse shall not be classified as a distribution type of sale under any circumstances.

(ii) *Maximum prices for handles on distribution type of sale—(a) Hickory handles: Simplified Practice Recommendation R77–39 or Simplified Practice Recommendation R77–45.* The maximum price, on the distribution type of sale, f. o. b. the distributor's warehouse, for hickory handles graded according to Simplified Practice Recommendation R77–39 or Simplified Practice Recommendation R77–45 shall be 82% of the prices contained in Table C or Table C–1 in subparagraph (1) above for the types, classes, grades and sizes indicated.

(b) *Hickory handles: Federal Specification NN–H–93.* The maximum prices on the distribution type of sale, f. o. b. the distributor's warehouse, for hickory handles manufactured and graded according to Federal Specification NN–H–93 shall be 82% of the prices contained in Table D in subparagraph (2) above for the types, classes, grades and sizes indicated.

(c) *Handles specially priced under paragraph (c) below, of this section.* The maximum prices on the distribution type of sale, f. o. b. the distributor's warehouse, for handles not specifically priced in this section but which are specially priced under paragraph (c) below shall be 82% of the list price duly approved by the Office of Price Administration as provided in that paragraph (c).

(iii) *Maximum prices for handles sold by a seller who does not maintain a warehouse.* For a seller who does not maintain a warehouse the maximum prices for handles covered by this section shall be the same maximum prices established by this section for manufacturers.

(iv) *Retail type of sale.* The retail type of sale is excluded from the coverage of this section. That type of sale is covered by the General Maximum Price Regulation or a successor regulation possessing such coverage. For the purpose of this section, the retail type of sale is not a distribution type of sale but is a sale "across the counter" to an ultimate consumer in small quantities of an item which the seller carries in stock and which the seller has purchased for resale.

Within the meaning of this section, a person who is engaged in the business of selling hardwood striking-tool handles at retail is one who is in the business of making the retail type of sale as defined above.

[Paragraph (b) amended by Am. 38, 11 F.R. 9078, effective 8-20-46]

(c) *Maximum prices for hickory handle blanks, hickory handles and all*

other hardwood striking-tool handles not specifically priced in this section. Hickory handle blanks, hickory handles and all other hardwood striking tool handles sold on special grades or specifications or with special services or other extras not specifically priced in this section are nevertheless subject to this section as "specially priced items" or "special items." The producer or manufacturer (referred to as seller in this paragraph), making a sale of an item covered by this section for which that seller does not have a maximum price duly approved by the Office of Price Administration, shall apply to the Lumber Branch of the Office of Price Administration, Washington 25, D. C. for approval of a requested maximum price for that item. The application shall cover only one order or inquiry of hickory handle blanks or hardwood striking-tool handles and a copy of that order or inquiry shall accompany the application.

On his application the seller shall show (1) the list price in October 1941 of the "special item" and (2) the price differential in October 1941 between the net price of the "special item" and the net price of the most comparable standard item specifically priced in this section, or (3) the price differential during the first month before October 1941 in which he had sales of both the special item and the most comparable item, or (4) if (2) and (3) are impossible, the price differential which the seller would have maintained between these two items in October 1941. The seller shall report his requested price in his application together with an explanation of how he has determined such price. The maximum price shall be a price which is in appropriate relationship to the most comparable standard item, determined from an examination of the data submitted by the seller and from such other data as may be available to the Office of Price Administration. A maximum price duly approved by the Office of Price Administration for a seller for a special item shall apply to subsequent sales by that seller of the identical item unless the Office of Price Administration limits the applicability of the approved price in some manner.

Within thirty (30) days of the date on which the seller's application is received by the Lumber Branch, the Office of Price Administration shall send to the seller (1) an approval of a maximum price, (2) a disapproval of the requested price, or, (3) a request for additional information. If the Office of Price Administration fails to send one of such notices within the thirty (30) day period, the seller may use his requested price as an approved maximum price but such approval shall be applicable only to the one specific order or inquiry covered by the application and only to the quantity of the special item contained in that order or inquiry on the date of the application.

Following the receipt of the application by the Lumber Branch, the Office of Price Administration must send a notice to the seller informing him of the receipt of the application. If, within the thirty (30) day period described above, the Office of Price Administration requests additional information, a new thirty (30) day period shall begin to run from the date on which that information is received by the Lumber Branch.

Prior to the approval of a maximum price as provided in this paragraph, the seller shall not make any collections on account of the sale price of the special item. However, the seller may proceed with the delivery of the special item, using the requested price as a tentative maximum price but all quotations, contracts and invoices must notify the buyer that the price is subject to approval by the Office of Price Administration within the thirty (30) day period described above.

On all maximum prices authorized under this paragraph (c) prior to August 20, 1946, the seller is authorized to increase the prices so authorized by 7%: *Provided*, That the 7% addition shall in every case be shown separately on the invoice in the form of an addition to the total of the invoice (exclusive of any permitted transportation charges) under the caption "Plus 7% per Amdt. 38 to 2d Rev. SR 14".

[Above paragraph added by Am. 38, 11 F.R. 9078, effective 8-20-46]

(d) *Sales made on basis other than list prices contained in this section.* It shall not constitute a violation of this section for a seller of items covered by this section to sell on a basis other than the use of the list prices contained in Tables C and D of subparagraphs (1) and (2) respectively of paragraph (b) above, provided, the sale prices of such seller do not exceed the maximum prices provided for in this section.

(e) *Discounts and concessions.* All maximum prices provided for under this section 3.10 are subject to this paragraph (e). In making a sale of an item or items covered by this section, a seller shall give to the purchaser the same trade, cash or service discounts or concessions which that seller gave to a purchaser of the same class in March 1942. For example: A manufacturer of striking-tool handles sold handles in March 1942 to distributors at a discount of 50% from his list price and sold to tool manufacturers at discounts from his list prices of 50% and 5%. Under this section, that manufacturer must continue to maintain these discount relations and would sell to distributors at 65% of his list prices and would sell to tool manufacturers at discounts from his list prices of 35% and 5%.

(f) *Transportation*—(1) *Hickory handle blanks*—(i) *Common or contract carrier.* To the permissible maximum price for hickory handle blanks provided for in this section, the seller of the blanks may add the actual transportation charges paid by the seller to a common or contract carrier for transportation of the hickory handle blanks directly from the seller's plant to the point of delivery required by the purchaser.

(ii) *Truck haul prior to shipment by a common or contract carrier.* When a truck haul precedes a rail shipment or water-borne shipment, as for example, when a seller of hickory handle blanks located away from a railhead or away from the point at which water-borne shipment begins, hauls the hickory handle blanks by truck to the railhead or to shipside, no addition may be made for the truck haul.

(iii) *All truck haul.* When shipment of hickory handle blanks is by truck owned or controlled by the seller, no addition may be made for such transportation charges or expenses if the point of delivery ordered by the purchaser is located 25 miles or less from the seller's plant over the most direct route which is normally used. But, when shipment of the hickory handle blanks is by truck owned or controlled by the seller and if the point of delivery ordered by the purchaser is located at a point greater than 25 miles from the seller's plant over the most direct route which is normally used, the seller may make the following additions to the permissible maximum price for hickory handle blanks provided for in this section:

1 cent per blank for lengths 29" or more
½ cent per blank for lengths less than 29".

(iv) If, in the purchase of hickory handle blanks, the point of delivery ordered by the purchaser is located at a point greater than 25 miles from the seller's plant over the most direct route which is normally used and, if the purchaser collects the hickory handle blanks at the seller's plant and transports them in a truck owned or controlled by the purchaser to the point of delivery, the seller shall deduct from the maximum prices provided for in paragraph (a) (1) of this section a sum figured as follows:

1 cent per blank for lengths 29" or more
½ cent per blank for lengths less than 29".

(2) *Hickory handles or other hardwood striking-tool handles.* For a shipment of hickory handles or other striking-tool handles weighing less than 100 lbs., the seller may add to the permissible maximum price provided for in this section the actual charges paid or owed by the seller to a common or contract carrier for transportation directly from the seller's plant to the point of delivery required by the purchaser.

For a shipment of hickory handles or other striking-tool handles weighing 100 lbs. or more to a point of delivery ordered by the buyer located east of 105° West Longitude the following rules shall govern:

(i) If the seller makes shipment by a common carrier of the seller's own choice to the point of delivery referred to above, no addition for transportation shall be made by the seller to the permissible maximum prices for the items sold provided by this section.

(ii) If on the specific order of the buyer, the seller makes shipment by a common carrier other than the one charging the lowest rate of all common carriers providing transportation from the seller's shipping point to the point of delivery referred to above, the seller may add the amount of the difference between the lawful charges of the common carrier by which shipment was made and the lawful charges of that common carrier with the lowest rate.

For a shipment of hickory handles or other striking-tool handles weighing 100 lbs. or more, the seller may add to the permissible maximum prices provided for in this section any transportation charges owed or paid by the seller to a common or contract carrier which may exceed $1.25 per hundredweight provided the point of delivery ordered by the purchaser is located west of 105° West Longitude.

(g) *Export sales.* The maximum prices for export sales of items covered by this section are governed by the Second Revised Maximum Export Price Regulation.*

[Sec. 3.10 added by Am. 15, 10 F.R. 14738, effective 12-10-45]

SEC. 3.11 *Balsa lumber.* This section covers balsa lumber imported into the United States.

(a) *Coverage.* This section establishes maximum prices at which importers and intermediate distributors may sell, and maximum prices at which any person may buy from such sellers, imported balsa lumber. The balsa lumber to which this section applies is identified by grades, as indicated in paragraph (b), which are generally recognized and used in the trade.

(b) *Maximum prices.* On and after March 25, 1946 regardless of any contract, agreement, or other obligation, no importer or intermediate distributor may sell or deliver, and no person may buy or receive from such sellers, imported balsa lumber at prices per thousand feet board measure, exceeding the following:

(1) *Sales by importers*—(i) *Random lengths (36" and longer).*

	Kiln dried		Air dried	
	Bundled dressed	Bundled or loose rough	Bundled dressed	Bundled or loose rough
Atlantic and Gulf ports				
Grade:				
AA and A	$166.00	$161.00	$158.50	$153.50
B	150.75	145.75	143.25	138.25
C	135.75	130.75	128.25	123.25
California ports				
Grade:				
AA and A	158.75	153.25	150.50	145.50
B	143.00	138.00	135.50	130.50
C	127.75	122.75	120.25	115.25

(ii) *Shorts.* Deduct $10.00 per thousand feet board measure from prices established for "random lengths."

These prices are "free-of-ships-tackle" and include excise tax and entry fees. They also include any expenses of protecting the upper and lower surfaces of bundled dressed lumber against damage during shipment, by the use of slabs of native lumber. Costs actually incurred in effecting deliveries of balsa lumber, other than on the basis of "free-of-ships-tackle", may be added. Services rendered in making delivery in accordance with the buyer's specification may be charged in addition to the above, *Provided*, That such charges may not exceed the maximum permitted by the applicable maximum price regulation.

(2) *Sales by intermediate distributors.* The maximum price an intermediate distributor may charge may not exceed the sum of the following:

(i) **Net cost**, which may not be higher than the maximum price of his supplier.

(ii) **Transportation** expenses incurred to his warehouse or yard.

(iii) **Handling charges** as follows:

(a) On balsa lumber received from the importer in bundles and reshipped in the same bundles, the maximum handling charge may not exceed $10.00 per thousand feet board measure for all grades and thicknesses.

(b) On balsa lumber received and/or shipped in any other manner than that specified in subparagraph (a) above, the maximum handling charges per thousand feet board measure may not exceed

(1) $30.00 on lumber less than 1¾" sales thickness.

(2) $25.00 on lumber in sales thicknesses of 1¾" to 2½" inclusive.

(3) $20.00 on lumber in sales thicknesses of 2¾" or more.

(iv) A markup, on the sum of items (i), (ii), and (iii), of 30% on sales of 999 feet or less, 20% on sales of 1,000 feet to 4,999 feet, inclusive, 15% on sales of 5,000 feet to 15,000 feet, inclusive, and 10% on all sales over 15,000 feet.

NOTE: The size of the sale is determined on the basis of the total amount involved in the transaction, regardless of size of particular orders or shipments.

(c) *Definitions.* (1) "Grades" shall mean the grades of balsa lumber, as set forth in the grading rules of FEA, revised May 1, 1944, in effect under the FEA purchase program of balsa lumber, and which are generally recognized as such in the trade.

(2) "Shorts" means pieces of balsa lumber under 36" in length.

(d) *Brokers, or agents, commissions.* The maximum prices established by this section include, and may not be increased by, any commission paid to any broker or to any buying or selling agent.

(e) *Less than maximum prices.* Lower prices than those established by this section may be charged, demanded, paid or offered.

[Sec. 3.11 added by Am. 19, 11 F.R. 2833, effective 3-25-46]

SEC. 3.12 *Imports; lumber and other forest products.* — (a) *Coverage* — (1) *Items covered.* This section covers lumber and all other forest products which are either imported into the United States or produced in the United States from imported logs or imported flitches and which are subject to a transaction of a type described in subparagraph (2) below.

(2) *Transactions covered.* This section govern all sales which are made in the United States of items which were subject to the General Maximum Price Regulation or the Maximum Import Price Regulation prior to March 25, 1946.

Specifically but not exclusively, this section does not cover imported logs, mahogany lumber (see Maximum Price Regulation 611) or those items of balsa lumber covered by § 3.11 of this regulation (see Amendment 19).

[Subparagraph (2) amended by Am. 36, 11 F.R. 8728, effective 8-17-46]

(b) *Maximum prices* — (1) *Sellers who made sales in period September 1945 through February 1946.* On and after April 3, 1946, a seller's maximum price on a sale of an item subject to this section shall be the highest lawful price at which that seller sold the identical item on the same type of sale during the six (6) months period from September 1945 through February 1946.

The term, "type of sale" means one of the different classifications of sales such as distribution yard sale, direct mill sale, retail sale, carload sale or less than carload sale, or other classification of sale.

(2) *Sellers who can not price an item under subparagraph (1).* If a seller of an item covered by this section can not determine his maximum price from subparagraph (1) above, the seller making a sale of such item (referred to below as "special item") shall apply to the Lumber Branch of the Office of Price Administration, Washington, D. C., for approval of a maximum price. In his application, the seller shall show the maximum price which he can establish under subparagraph (1) above of the item most nearly comparable to the "special item" and also the price differential between that comparable item and the "special item" which he maintained in March 1942, or in the month most nearly preceding March 1942 when he had sales of both of those items. If the seller did not make sales of those items in March 1942, or in any month prior to that month, he must show the price differential which he would have maintained between the two items in March 1942 if he had made such sales.

The seller shall report his requested price in his application together with an explanation of how he has determined the price. The price approved shall be one which is in appropriate relationship to the most comparable item determined from an examination of the data submitted by the seller and from such other data as may be available to the Office of Price Administration. The maximum price duly approved by the Office of Price Administration for a seller for a special item shall apply to subsequent sales of that seller of the identical item unless the Office of Price Administration limits the applicability of the approved price in some manner. If within 30 days of the receipt of the application by the Lumber Branch of the Office of Price Administration that Office does not transmit a disapproval of the price requested by the seller on the application, that requested price may be deemed approved, but such approval shall be applicable only to the one specific order and only to the quantity of the special item contained in that order on the date of the application.

Prior to the approval of the Office of Price Administration of the maximum price for the special item, the seller shall not make any collections on account of the sales price of the special item. However, the seller may proceed with the delivery of the special item using the requested price as a tentative maximum price, but all quotations, contracts and invoices must notify the buyer that the price is subject to approval by the Office

* Third Revision: 11 F.R. 9069.

of Price Administration within the 30-day period described above.

(c) *Reports.* All sellers of the items covered by this regulation shall report to the Lumber Branch of the Office of Price Administration, Washington, D. C., the prices for items covered by this section which can be established under paragraph (b) (1) above. All sellers must file such reports within 30 days following April 3, 1946.

[Sec. 3.12 added by Am. 23, 11 F.R. 3602, effective 4-3-46]

SEC. 3.13 *Lumber preservatively treated by non-pressure method*—(a) *Persons covered.* Any person who sells lumber impregnated with a wood preservative by a non-pressure method is subject to this regulation.

(b) *Maximum prices f. o. b. plant.* The maximum price f. o. b. treating plant for lumber preservatively treated by a non-pressure method shall be the sum of the following:

(1) The highest price, f. o. b. plant, charged by the seller during March 1942 or otherwise established under the General Maximum Price Regulation, for a given species, size and grade of treated lumber *less* the untreated lumber cost, including inbound transportation, for that same item of untreated lumber received from the supplier who furnished the largest quantity of that item to the seller during 1942.

(2) The current "mill ceiling" (untreated) price for the species, size and grade of lumber to be sold.

(3) Actual inbound transportation charges, not exceeding the charges permitted under the Maximum Price Regulation covering mill sales of untreated material of the particular species involved. Where treating-in-transit rates are used, this item (3) is not to be used, but the seller shall compute transportation, both inbound and outbound, under paragraph (c) below.

(c) *Delivered sales, and treating-in-transit.* (1) Where treating-in-transit rates are used, the maximum price at final destination is the sum of items (1) and (2) in paragraph (b) plus the through rate from the original loading-out point indicated on the freight bills surrendered in connection with the outbound shipment. To these freight charges may also be added the transit charge.

(2) Where transit privileges do not apply, the additions for inbound transportation may not exceed the actual weights of the untreated material times the actual inbound rate. The maximum addition for outbound freight is an amount equal to the actual weight of the treated material times the actual outbound rate.

(d) Within a period of thirty days after the first use of any maximum price computed by means of any one of the formulas set forth in this section, the seller shall submit a report to the Lumber Branch, Office of Price Administration, Washington 25, D. C., in the form of a statement setting forth the type of preservative used, the treatment process used, and the factors considered in arriving at the selling price, separately listing, in dollars and cents, the various formulary items as well as the computed maximum selling price.

(e) Any person who did not sell lumber preservatively treated by non-pressure methods in March 1942 shall file an application for a maximum price with the Lumber Branch, Office of Price Administration, Washington 25, D. C. The application shall set forth:

(1) A complete description of the lumber preservative and treating method for which a maximum price is sought.

(2) The maximum price proposed by the seller together with a detailed explanation of the method by which the seller calculated such price.

(3) The reasons why the seller believes the proposed price to be in line with the level of maximum prices established by this amendment.

The seller shall also submit such additional pertinent information as the Lumber Branch may require. The Lumber Branch will establish a price for the applicant which is comparable with the average of the prices established under this amendment for his competitors. Any maximum price established under this paragraph (e) shall be subject to adjustment by the Lumber Branch at any time.

[Sec. 3.13 added by Am. 25, 11 F.R. 4340, effective 4-23-46]

SEC. 3.14 *Hardwood stock stair parts*—(a) *What this section covers.* This section covers all sales of hardwood stock stair parts in the United States.

(b) *Definition of hardwood stock stair parts.* The term "hardwood stock stair parts" means the various integral portions of a stairway produced from any species of hardwood in designs or patterns listed in the manufacturer's own catalogue, or produced in quantity but not according to an architect's plans, specifications, and details. It includes but is not limited to such items as stair treads, risers, newels, rails and crooks, balusters, and thresholds. It does not, however, include any hardwood moulding items.

(c) *Manufacturers' maximum prices for items sold in March 1942*—(1) *For those manufacturers who file reports as required in paragraph (f) below.* The maximum price f. o. b. mill for a manufacturer who files the report required under paragraph (f) below shall be for each item he delivered in March 1942 the sum of the following:

(i) The highest f. o. b. mill price he charged for the item during March 1942 to the same class of purchaser.

(ii) The increase in material costs since March 1942 computed as the difference between the weighted average March 1942 lumber cost for the grade and species involved and the current f. o. b. mill ceiling price for the same grade and species plus the average inbound freight cost for the particular material during the 6-months period from May 1 to October 31, 1943. In the case of a manufacturer using lumber produced by himself, the current material cost that may be used for such lumber shall be at least $2.00 per MBM below his maximum selling price for that lumber.

(iii) An allowance for waste on the increased material cost computed by applying a waste factor, not in excess of that used in March 1942, to the increased material cost.

(iv) The increase in direct labor costs only between March 1942 and September 30, 1943. To determine the September 30, 1943, direct labor cost for a particular item, use the March 1942 direct labor cost plus the percentage increase in average hourly earnings between March 1942 and September 30, 1943. In computing average hourly earnings, only the earnings of workers whose wages are computed on an hourly or piece rate basis shall be used.

In cases where an application for a wage increase had been filed with the War Labor Board prior to September 30, 1943, but where a determination was made by the War Labor Board after September 30, 1943, the manufacturer may use the wage rate as determined later by the War Labor Board.

(2) *Maximum prices for manufacturers who do not file reports.* The maximum prices for a manufacturer who has not filed the report required under paragraph (f) of this section shall be his highest March 1942 price to each class of purchaser for each item delivered during that month with no additions for increased costs.

(3) *Delivered prices.* The maximum delivered price for a manufacturer shall be a price no higher than his maximum f. o. b. mill price plus the actual transportation charges paid or incurred by the seller in making shipments directly from the mill to the point of delivery required by the purchaser. However, it is permissible to quote and charge delivered prices based on rail rate times the estimated weight evened out to the nearest quarter dollar per M'BM. The estimated weight shall be that weight which has customarily been used for the particular item.

(d) *Maximum prices for resellers.* The maximum prices for a reseller shall be for each item he delivered during March 1942 the sum of the following:

(1) The highest price he charged for the item during March 1942 to the same class of purchaser.

(2) An amount not greater than the percentage by which his current net acquisition cost of the item exceeds his March 31, 1946 net acquisition cost of the item. If the item was not purchased on March 31, 1946, then the cost of the item on the prior date nearest March 31, 1946 shall be used to determine this percentage.

[Paragraph (d) amended by Am. 39, 11 F.R. 9078, effective 8-20-46]

(e) *Maximum prices for items not sold in March 1942.* The maximum price for any item covered by this section but not sold during March 1942 shall be a price approved by the Office of Price Administration upon application to the Building Materials Price Branch, Building and Construction Price Divsion, Office of Price Administration, Washington 25, D. C. The application shall contain the name and address of the seller, a complete description of the item, the requested price, and how the requested price was determined. Any price not disapproved within 30 days of mailing of the application shall be deemed approved, but may be modified at any time by the Administrator. In case of such modification, the change will not be retroactive. A seller using this pricing section can go ahead with deliveries of the hardwood stair parts at the price he has computed or requested, but he must tell the buyer that the price is subject to revision within the thirty-day period, and if the price is ordered reduced, he must refund to the buyer any excess over the final approved price. The Price Administrator may approve, disapprove, or revise prices proposed or approved under this paragraph so as to make them consistent with the level of prices fixed by this section.

(f) *Reports.* Maximum prices for items sold in March 1942 shall be reported to the Building Materials Price Branch, Building and Construction Price Division, Office of Price Administration, Washington 25, D. C., by all manufacturers who determine maximum prices under paragraph (c) (1) and by those resellers who sell to other distributors such as retailers. No report need be filed by retailers. A manufacturer shall report the following with respect to each item sold in March 1942:

(1) Description of the item.

(2) March 1942 selling price to each class of purchaser.

(3) March 1942 material cost.

(4) March 1942 direct labor cost.

(5) Percentage increase in direct labor cost since March 1942 permitted by this section.

(6) Average lumber freight cost for 6 months period from May 1 to October 31, 1943.

(7) March 1942 waste factor.

(8) Present price permitted by paragraph (c) (1) showing all calculations.

A reseller shall report the following with respect to each item sold in March 1942:

(1) Description of item.

(2) March 1942 selling price.

(3) Acquisition cost of the item on March 31, 1946 or the prior date nearest to March 31, 1946 if the item was not purchased on March 31, 1946.

[Item 3 amended by Am. 39, 11 F.R. 9078, effective 8-20-46]

(4) Present acquisition cost.

(g) *Uniform pricing.* The Administrator may by order fix uniform specific dollars-and-cents maximum prices for hardwood stair parts.

[Sec 3.14 added by Am. 26, 11 F.R. 5314, effective 5-14-46]

ARTICLE IV—PAPER

SEC. 4.1 *Pass-on by resellers.* (a) Whenever the maximum price for any paper commodity at the wholesale or retail level is established under the General Maximum Price Regulation and the manufacturer has received a price increase for the commodity subsequent to March 31, 1946, the wholesale or retail distributor of such commodity may add to his maximum price prevailing on March 31, 1946, the same percentage increase as granted to the manufacturer of the commodity.

(b) On and after August 16, 1946, each wholesale distributor, in every first shipment or delivery to a customer of a commodity which has received an adjustment in accordance with paragraph (a) above, shall include a notice of his supplier's percentage increase in the maximum price of the commodity since March 31, 1946, the specific action authorizing such increase and a statement that such percentage increase may be added to the customer's maximum price of the commodity prevailing on March 31, 1946, as determined in accordance with the provisions of the General Maximum Price Regulation.

[Sec. 4.1 added by Am. 37, 11 F.R. 8968, effective 8-16-46. Former sec. 4.1 revoked by Am. 3, 10 F. R. 2432, effective 3-1-45]

SEC. 4.2 *Unspun fibre reinforced waterproofed paper including all grades of Fibreen and Sisalkraft.* (a) The maximum prices of The Sisalkraft Co., Chicago, Illinois for sales of unspun fibre reinforced waterproofed paper including all grades of Fibreen and Sisalkraft shall be:

(1) The maximum prices as established under the General Maximum Price Regulation, plus

(2) The increase in raw material costs between March, 1942 and September, 1943.

(b) The Sisalkraft Co. shall file with the Office of Price Administration, Washington, D. C., within 10 days after December 1, a statement of the raw material costs as of March, 1942 and as of September, 1943, the maximum prices as established under the General Maximum Price Regulation, and the modified maximum prices. Such modified maximum prices shall be subject to the non-retroactive adjustment by the Office of Price Administration at any time.

(c) Before charging the modified maximum prices, The Sisalkraft Co. shall notify the purchaser as follows:

The Office of Price Administration has authorized the addition of certain raw material cost increases to our maximum prices of unspun fibre reinforced waterproofed paper including all grades of Fibreen and Sisalkraft. You and your subsequent purchasers are also authorized to add to your March, 1942 prices the exact amount of the increase which you have been charged.

(d) Each subsequent reseller shall be permitted to add the amounts authorized in paragraph (a) above to his maximum prices under the General Maximum Price Regulation.

SEC. 4.3 *Facial tissue.* (a) Each manufacturer may add to his maximum price of packaged facial tissue prevailing during March, 1942, as established under the General Maximum Price Regulation, a sum not to exceed 8.0%. This increase shall not apply to packaged facial tissue made wholly of woodpulp of high alpha cellulose content, tissues which have been perfumed or medicated, tissues with an area of less than 80 sq. in. or more than 90 sq. in.

(b) A manufacturer who has received an individual adjustment of his maximum price of packaged facial tissue may elect to charge the industry-wide increase granted in paragraph (a) above, or his adjusted prices, whichever is higher, but in no event shall this industry-wide increase by added to an individually adjusted maximum price.

(c) Whenever the application of the 8% increase results in a fraction of ½¢ or more, the maximum price may be rounded out to the nearest cent by a manufacturer on a gross basis, by a distributor on a case basis and by a retailer on a package basis, but if the fraction results in less than ½¢, the seller shall drop the fraction in computing his maximum price for the appropriate unit.

(d) Instead of applying the 8% increase as provided in paragraph (a) above, each manufacturer and reseller may elect to reduce his sheet count per package by not more than 7.4% and sell the package at a price not to exceed the maximum price in effect during March 1942.

[Sec. 4.3 added by Am. 42, effective 9-18-46]

ARTICLE V—MISCELLANEOUS COMMODITIES AND SERVICES UNDER THE JURISDICTION OF THE BUILDING MATERIALS PRICE BRANCH

SEC. 5.1 *Maximum prices for sales of used beer, ale, and other domestic malt beverage bottles.* (a) On and after November 1, 1943, no person shall sell and no person in the course of trade or business shall buy used beer, ale, and other domestic malt beverage bottles at prices in excess of the following maximum prices:

	Per gross
7 or 8 oz. returnable pony bottle	$2.50
11 or 12 oz. returnable export, stubby or steinie beer or ale bottles	2.50
11 or 12 oz. non-returnable or throw-away beer or ale bottles	1.90
32 oz. returnable export beer or ale bottles	5.50
32 oz. stubby or steinie beer or ale bottles	4.00
32 oz. non-returnable or throw-away beer or ale bottles	3.50
64 oz. returnable export bottles	7.50

These maximum prices are f. o. b. the seller's accustomed place of business.

(b) *Minimum requirements of condition.* The maximum prices established in paragraph (a) above shall apply to used beer, ale, and other domestic malt beverage bottles free from chips, cracks, or other defects, defacement or pollution which render them unsuitable for refilling by brewers. Domestic malt beverage bottles which are not suitable for reuse shall be deemed to be broken glass or cullet.

(c) As used herein, the term "beer bottle", "ale bottle" and "domestic malt beverage bottle" means a glass container of the type or color customarily used by brewers in bottling beer, ale, stout and porter. Such bottles are generally designated as returnable or non-returnable (or throw-away), export, stubby, or steinie.

(d) *Prohibited practices.* Any practice which is a device to secure the effect of a higher-than-ceiling price even though executed without actually raising the dollars-and-cents prices of the used bottles themselves is a violation of this regulation. This applies to devices making use of commissions, services, transportation arrangements, premiums, special privileges, trade understandings,

service or collection charges, tying agreements, and the like.

The following are among the specific practices prohibited by this regulation:

The acceptance by the seller or offer by the purchaser of a price for a regular "case" or "shell" for beer bottles, or for any sack, crate, box, carton, or any other type or kind of bottle container or for any article or commodity used for the purpose of containing, holding, shipping or transferring beer, ale and other domestic malt beverage bottles, higher than the proper maximum price established for such commodity under the applicable Maximum Price Regulation issued by the Office of Price Administration;

The requirement by the seller that the purchaser buy a case or "shell" or any other commodity as a condition to the sale of the bottles (this is a violation even though the price demanded for the commodity is a lawful maximum price).

The requirement that the purchaser pay any fee, service charge, collection charge, or any other charge, in addition to the maximum prices herein established for the used beer, ale, or other domestic malt beverage bottles, for the finding, assembling, collecting, or sorting of those bottles.

(e) This section shall be applicable only to the 48 states of the United States and the District of Columbia.

SEC. 5.2 [Revoked]

[Sec. 5.2 revoked by Am. 43, effective 9-24-46]

SEC. 5.3 *Modification of maximum prices for jobbers and retailers of glass cloth*—(a) *Sales by jobbers.* On and after September 27, 1943, the maximum price for the sale of glass cloth by jobbers shall not be more than the actual cost of such cloth (figured at prices not higher than the maximum prices permitted by Maximum Price Regulation No. 127* (Finished Piece Goods), plus a mark-up over such cost of 33⅓ percent.

(b) *Sales by retailers except mail order houses.* (1) On and after September 27, 1943, the maximum price for the sale of glass cloth by retailers except mail order houses shall not be more than the actual cost of such glass cloth (figured at prices not higher than those permitted by the applicable maximum price regulation), plus a mark-up over cost of 50 percent.

(2) *Sales by mail order houses.* On and after September 27, 1943, the maximum price for the sale of glass cloth by mail order houses shall not be more than the maximum price permitted under the provisions of the General Maximum Price Regulation.

(c) *Definitions.* For the purpose of this section the term:

(1) "Glass cloth" means fabrics coated or impregnated with paraffin wax or similar substance, and used as a substitute for glass.

(2) "Jobber" means any person who buys glass cloth direct from the manufacturer for resale to retail stores.

(3) "Retailer" means any person who maintains a store or similar establishment and sells primarily to the ultimate consumer.

SEC. 5.4 *Modification of maximum prices for retail sales of standard wire nails.*—(a) *Applicability.* This section is applicable to all sales of standard wire nails when sold:

(1) By a retailer or through a retail outlet to a consumer in quantities of 2500 pounds or less;

(2) By any reseller to a farmer in quantities of 2500 pounds or less, or

(3) By any reseller to contractors, commercial, industrial, and institutional users (except retailers), or the Federal Government or any state government or any political subdivisions thereof, in quantities of 1500 pounds or less.

The weights specified above shall be determined by combining all items of bright and galvanized wire nails, brads, wire tacks or staples ordered by any person in one day.

(b) *Maximum prices.*—(1) *Sales out of jobbers' stocks.* When the nails are sold out of jobbers' stocks, the maximum price shall be determined as follows:

The seller shall multiply by 1.2 his delivered cost (not in excess of the applicable maximum price). The delivered cost used in determining the maximum price may not include the seller's cost of cartage from his local freight terminal to his warehouse or place of business.

(2) *Shipments directly from a manufacturer.* Where the nails were shipped to the seller directly from the manufacturer, the maximum price shall be determined as follows:

The seller shall multiply by 1.3 the manufacturer's mill carload price to dealers (not to exceed the applicable maximum price), excluding cost of cartage from his local freight terminal to his warehouse or place of business.

(3) *Sales of less than 25 pounds net.* Notwithstanding the provisions of (1) or (2), the maximum price for nails sold in lots of less than 25 pounds net shall be as follows:

Nails taking extras of:	*Maximum price per pound*
Less than $1.00	$0.08
$1.00 to $3.00	.10
More than $3.00	.12

(c) *Delivery charges.* Any maximum price determined under the provisions of this section shall include delivery within the seller's "free delivery" zone as recognized by the seller during March 1942. Charges for delivery outside such "free delivery" zones shall not exceed the common carrier rate.

(d) *Definitions.* When used in this section, the terms:

(1) "Extras" means the published or quoted extras of the subsidiaries of the U. S. Steel Corporation as of April 16, 1941, or the published or quoted extras of the individual producer, as of April 16, 1941, and are additions to or deductions from the base price to make adjustments for variations in the product sold from the product governed by the base price. Extras include, but are not limited to, the extra charges for sizes, galvanizing and special features.

(2) "Mill carload price to dealer" means the producer's price to dealers for carload quantities at the governing or emergency basing point, as established by Revised Price Schedule 6, whichever is applicable, plus freight computed at the carload freight rate from such basing point to the seller's local freight terminal.

(3) "Retailer" means a person who sells primarily to purchasers for use and not for resale.

(4) "Retail outlet" means an outlet operated primarily for the purpose of making retail sales and includes, but is not limited to, retail hardware stores and retail lumber yards.

(5) "Standard wire nails" means any wire nails, brads, or staples, including but not limited to, bright wire, galvanized and cement coated nails of the following varieties: common nails, fine nails, casing nails, finishing nails, shingle nails, roofing nails, hinge nails, flooring brads, and metal lath staples, for which the producer's maximum price (established by Revised Price Schedule 6) is determined by using a basing point base price expressed in dollars-and-cents per 100 pounds and which is not subject to percentage discounts.

[Sec. 5.4 added by Am. 7, 10 F.R. 7854, effective 7-2-45, amended by Am. 9, 10 F.R. 9276, effective 7-30-45; Am. 35, 11 F.R. 8728, effective 8-17-46 and Am. 40, 11 F.R. 9273, effective 8-23-46]

SEC. 5.5 *Resellers maximum prices for cast iron sash weights*—(a) (1) *Sales by wholesalers.* The maximum price for sales by any wholesaler of cast iron sash weights shall be his properly established maximum price in effect on January 29, 1946 to each class of purchaser or his new laid-down cost multiplied by 1.15, whichever is higher.

(2) *Sales by retailers purchasing direct from manufacturers.* The maximum price for sales by any retailers purchasing cast iron sash weights direct from the manufacturer shall be his properly established maximum price in effect on January 29, 1946 to each class of purchaser or the manufacturer's delivered price multiplied by 1.30, whichever is higher.

(3) *Sales by retailers purchasing from persons other than the manufacturer.* The maximum price for sales by any retailer purchasing cast iron sash weights from persons other than the manufacturer shall be his properly established maximum price in effect on January 29, 1946 to each class of purchaser or his wholesaler's properly established maximum delivered price multiplied by 1.30, whichever is higher.

(b) *Notification to retailers.* Each wholesaler of cast iron sash weights who adjusts his maximum prices in accordance with this section shall advise each of his purchasers in writing at or before the issuance of the first invoice after January 29, 1946 of the methods established by this section for determining maximum retail prices for the commodities in question by the following notice:

Under Amendment 17 to Second Revised Supplementary Regulation 14 to the General Maximum Price Regulation, effective January 30, 1946, the maximum price for sales by any retailer purchasing cast iron sash weights from persons other than the manufacturer shall be his properly established maximum price in effect on January 29, 1946 to each class of purchaser or his wholesaler's properly established maximum delivered price multiplied by 1.30, whichever is higher.

(c) *Effect of area pricing orders on resellers maximum prices.* Notwithstanding the provisions of paragraph (a) above, in any area where specific maximum prices are fixed by an area pricing order, such specific order shall apply in that area.

(d) *Definitions.* A "seller" shall not be considered a "reseller" within the meaning of this section when he uses the cast iron sash weights on or in connection with the sale of another article (such as a window or window frame) and his maximum price for the cast iron sash weights and the other article is established on the basis of a lump sum.

A "wholesaler" is any person making a wholesale sale as herein defined. A "wholesale sale" means a sale by any person who prices the commodities covered by this section and resells them to building contractors, resellers, commercial and industrial users, and installers without substantially changing the form.

A "retailer" is any person making a retail sale as herein defined. A "retail sale" means a sale by any person to the ultimate consumer except that for the purpose of this section the term "ultimate consumer" shall not be construed to include commercial and industrial users and installers.

An "installer" is any person who sells cast iron sash weights together with the labor, services, and materials necessary for the installation thereof.

[Sec. 5.5 added by Am. 17, 11 F.R. 1039, effective 1-30-46]

SEC. 5.6 *Maximum prices for sales of extension pieces of cast iron soil pipe.* On and after June 29, 1946, and notwithstanding any provision of the General Maximum Price Regulation, any extension piece of cast iron soil pipe extending more than 6 inches in length shall be priced only on a linear foot basis, using the maximum prices properly established under the General Maximum Price Regulation for sales per foot of cast iron soil pipe.

[Sec. 5.6 added by Am. 32, 11 F.R. 7423, effective 6-29-46]

ARTICLE VI—GENERAL PRICING PROVISIONS

SEC. 6.1 *Packers' maximum prices for commodities packed in new container types and sizes*—(a) *Explanation.* The purpose of the new method of pricing provided by this section is to permit the packer who is now packing certain commodities in containers of new types and sizes (that is, types and sizes which he did not deliver or offer for delivery during March, 1942) to establish maximum prices for those items. The method permits him to account for differences in container costs, and for differences in transportation costs caused by the difference in containers, without permitting him to increase the price per unit of the commodity packed in the new container. The new method, however, applies only where a previous maximum price of the commodity has been set for a container size not more than 50 per cent larger or smaller than the new size, and only in cases where both containers are of the nonreturnable, single-use type. Packers must refigure every maximum price set under the General Maximum Price Regulation for a commodity packed in a new container type or size to which the rules of this section are applicable. However, packers who before January 25, 1943, had figured the maximum price for a commodity under § 1499.2 (b) or § 1499.3 (b) of the General Maximum Price Regulation, or under the rules theretofore provided by § 1499.73 (a) (7) of Supplementary Regulation No. 14, may, if they wish, keep that price or instead figure a new maximum price using the new pricing method where it is applicable. The new pricing method applies to the following commodities:

(1) Food commodities, excepting coffee and coffee compounds (see section 1.3 of 2nd Revised Supplementary Regulation 14C) and dog and cat foods (see section 1.3 of this regulation).

(2) Granite grit.

(b) *Pricing method.* To figure the maximum price to any class of purchasers for the commodity in the new container type or size, the packer shall:

(1) *Determine the base container.* The packer shall first determine the most similar container type in which he has already established a maximum price for the commodity to that class of purchasers without using the former provisions of § 1499.73 (a) (7) of Supplementary Regulation No. 14 (even though he no longer sells that container type). From that container type he shall choose the nearest size which is 50 per cent or less larger or, if there is no such size, 50 per cent or less smaller (even though he no longer sells those sizes). This will be the "base container." If there is no such smaller size, he shall go to the next most similar container type and proceed in the same manner to find the base container.

NOTE: In most cases "the most similar container type" will be merely the container type which the packer is adding to or replacing, like the tin which he may be replacing with glass. Where there has been only a size change, "the most similar container type" will, of course, be the same container type. This is also true in the reverse situation; where there has been a change only in container type, the "nearest size" will be the same size.

(2) *Find the base price.* The packer shall take as the "base price" the maximum price which he may charge that class of purchasers for the commodity in the base container. However, if this maximum price is a price delivered to the purchaser or to any point other than the packer's factory, the packer shall first convert it to a base price f. o. b. packer's factory simply by deducting whatever transportation charges were included in it.

(3) *Deduct the container cost.* Taking his base price f. o. b. factory, the packer shall then subtract the direct cost of the base container. "Direct cost of the container" means the net cost, at the packer's factory, of the container, cap, label, and proportionate part of the outgoing shipping carton, but it does not include costs of filing, closing, labeling or packing.

(4) *Adjust for any difference in contents.* The figure gotten by this deduction shall then be adjusted, in the case of a size change, by dividing it by the number of ounces or other units in the base container and multiplying the result by the number of the same units in the new container.

(5) *Add to new container cost to get the price f. o. b. factory.* Next, the packer shall add to the adjusted figure the "direct cost of the container" in the new type and size. If his maximum price for the commodity in the base container is an f. o. b. factory price, the resulting figure is the packer's maximum price to that class of purchasers, f. o. b. factory.

(6) *Convert to a maximum delivered price, if the maximum price for the base container is on a delivered basis.* If the packer's maximum price for the commodity in the base container is a delivered price, he shall figure transportation charges to be added, as follows: The packer shall take the transportation charges which he first deducted to get his base price and adjust them in exact proportion to the difference in shipping weight. However, if for any reason the commodity in the new container will move under a different freight tariff classification, he shall figure his transportation charges (by the same means of transportation and to the same destination) on the basis of the new shipping weight, but at the rate in effect for that freight tariff classification on March 17, 1942. Increases in tariff rates or transportation taxes made since March 17, 1942, shall not be taken into account. (Similar principles shall apply where shipping volume is the measure of the transportation charge.) The packer shall then add these transportation charges to his f. o. b. factory price for the commodity in the new container. The resulting figure is the packer's maximum delivered price to that class of purchasers.

(c) *Units of sale and fractions of a cent.* The packer shall figure each maximum price, and the costs that enter into it, in terms of the same general units (like pounds, dozens, etc.) in which he has customarily quoted prices for the commodity in the base container. If any maximum price includes a fraction of a cent, the packer shall adjust the price to the nearest fractional unit (like 1 cent, ½ cent, ¼ cent, etc.) in which he has customarily quoted prices for the commodity in the base container.

(d) *Records.* Packers shall keep records showing how they figured each maximum price under this section.

(e) *Examples showing how the pricing method is to be applied.*

Case 1. *The maximum price f. o. b. factory if the base container is the same in size as the new container but different in type.* Assume the base container is a 16 oz. tin

*10 F.R. 14507, 14628, 15006; 11 F.R. 1783, 2075.

and the new container is a 16 oz. glass (pork and beans).

Maximum price per doz. f. o. b. factory in base container ("base price")	$0.55
Subtract "direct cost" of base container	−.20
	.35
Add "direct cost" of new container	+.34
New maximum price (f. o. b. factory)	$0.69

Case 2. *The maximum price f. o. b. factory if the base container is different in size from the new container and either the same or different in type.* Assume the base container is a 10½ oz. tin and the new container is an 8 oz. tin or glass (spaghetti sauce).

Maximum price per doz. f. o. b. factory in base container ("base price")	$1.20
Subtract "direct cost" of base container	−.15
	1.05
Adjust to new container: Divide by number of ounces of commodity in base container ($1.05 ÷ .10½)	.10
Multiply by number of ounces of commodity in new container (×8)	.80
Add "direct cost" of new container (glass)	.26
New maximum price (f. o. b. factory)	$1.06

Case 3. *Maximum delivered price if the base container is the same in size as the new container but different in type.* Assume the base container is a 16 oz. tin and the new container is a 16 oz. glass (pork and beans).

Maximum delivered price per doz. in base container (figured carload)	$0.60
Subtract transportation charges	−.05
Price f. o. b. factory ("base price")	.55
Subtract "direct cost" of container	−.20
	.35
Add "direct cost" of new container	+.34
Add new transportation charges: $.05 (old transportation charges) × 40 lb. (new shipping weight/case) = 34 lb. (old shipping weight/case)	.058
New maximum delivered price	$0.75

Case 4. *Same except that the new container type puts the commodity in a different freight tariff classification.* Assume the base container is a 16 oz. tin and the new container is a 16 oz. glass (pork and beans).

Maximum delivered price per doz. in base container (figured less than carload)	$0.60
Subtract transportation charges	−.05
Price f. o. b. factory ("base price")	.55
Subtract "direct cost" of container	−.20
	.35
Add "direct cost" of new container	+.34
Add new transportation charges: 40 lb. (new shipping weight) / 100 × $.185 (rate per cwt. under new classification)	−.074
New maximum delivered price (doz.)	$0.76

SEC. 6.2 *Distributors' maximum prices for commodities covered by section 6.1 (packed in new container types and sizes)*—(a) *Explanation.* This section establishes distributors' maximum prices for commodities, covered by section 6.1, which are packed in container types or sizes which the distributor did not deliver or offer for delivery during March 1942. However, it does not apply to commodities for which distributors' maximum prices are established by other regulations. A "distributor" is one who purchases all he sells (for his own account) of the kind and brand of product being priced and who resells it without processing or packaging any part of it.

(b) *Pricing method.* The distributor's maximum price to any class of purchasers for such a commodity shall be figured as follows: He shall (1) select from the same general classification and price range as the item being priced the most closely comparable item for which a maximum price is established under any regulation; (2) divide his current selling price for that item by its actual cost, delivered to him; and (3) multiply the figure so obtained by the current cost, delivered to him, of the item being priced. The resulting figure shall be his maximum price for the item. Where the distributor established a maximum price for the commodity in the new container prior to December 1, 1943, he may, if he wishes, retain that price as his maximum price instead of figuring a price under this section. However, prices established on and after December 1, 1943, for new container types and sizes must be established according to the pricing method of this section.

(c) *Units of sale and fraction of a cent.* The distributor shall figure each maximum price in terms of the same general units (like pounds, jars, or dozens) in which he has customarily quoted prices for the comparable item which he used as a base. If the maximum price includes a fraction of a cent, a distributor other than a retailer shall adjust the price to the nearest fractional unit (like 1¢, ½¢, ¼¢, etc.) in which he has customarily quoted prices for the comparable item which he used as a base; a retailer shall adjust any fraction of one-half cent or more to the next higher cent and a fraction of less than one-half cent to the next lower cent.

SEC. 6.3 *Accommodation sales at retail.* (a) The maximum price for an accommodation sale at retail of any commodity by a seller who, in March, 1942, had the fixed practice of making such accommodation sales, shall be the seller's maximum price for such commodity determined in accordance with the provisions of § 1499.2 of the General Maximum Price Regulation or the actual cost of the commodity, whichever is higher.

(b) "Accommodation sale" means a sale made entirely without profit, solely for the benefit or convenience of the purchaser—for example, a sale by an employer to his employees, or by a school to its students—and not for the purpose of promoting trade. It does not include sales by cooperative, non-profit or other organizations which make sales, initially above cost, but later give refunds, bonuses, dividends or other allowances to purchasers.

(c) If the seller manufactures or produces the commodity, "cost" means the actual cost of manufacturing or producing the commodity, determined in the same manner as the seller normally determines his actual costs. If the seller does not manufacture or produce the commodity, "cost" means invoice cost, plus any transportation charges paid by the seller, less any discounts allowed to the seller, in connection with his purchase of the commodity. But in no case shall "cost" exceed the seller's lowest maximum price for such commodity for sales other than accommodation sales.

SEC. 6.4 *Sales covered by orders issued under regulations covering manufacturers' sales.* Maximum prices for wholesale and retail sales covered by the General Maximum Price Regulation may be set by orders issued under regulations covering manufacturers' sales of the commodities.

This regulation shall become effective January 29, 1945. [2d Rev. SR 14 originally issued January 29, 1945.]

[Effective dates of amendments are shown in notes following the parts affected]

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 19th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF CONSIDERATIONS ACCOMPANYING AMENDMENT NO. 43 TO 2ND REVISED SUPPLEMENTARY REGULATION 14

The accompanying Amendment revokes Section 5.2 of 2d Revised Supplementary Regulation 14 which permitted resellers of vitrified clay sewer pipe and allied products to pass through the actual dollars-and-cents increase in cost to them resulting from increases granted manufacturers pursuant to Amendment 2 to Revised Maximum Price Regulation 206 and Amendment 32 to Order A–1 under Maximum Price Regulation 188. Subsequent to that time amendments to both Revised Maximum Price Regulation 206 and Order A–1 under Maximum Price Regulation 188 incorporated within these regulations the identical provisions of Section 5.2 of 2d Revised Supplementary Regulation 14. In order to eliminate duplication, the Price Administrator deems it appropriate to revoke section 5.2 of 2d Revised Supplementary Regulation 14, and the accompanying amendment effectuates this.

Chapter XIV—War Contracts Price Adjustment Board

PART 1608—TEXT OF STATUTES, ORDERS, JOINT REGULATIONS AND DIRECTIVES

SUBPART B—DELEGATIONS OF AUTHORITY

Section 1608.822–4 is added, as follows:

§ 1608.822–4 *Delegation of authority within the United States Maritime Commission.*

DELEGATION BY THE CHAIRMAN OF THE UNITED STATES MARITIME COMMISSION OF POWERS, FUNCTIONS AND DUTIES UNDER THE RENEGOTIATION ACT

1. The War Contracts Price Adjustment Board (herein referred to as the "Board") has delegated to the Chairman of the United States Maritime Commission (herein referred to as the "Chairman") certain of the powers, functions and duties conferred upon the Board under the Renegotiation Act (herein referred to as the "Act") by instrument dated February 26, 1944; and

2. Pursuant to the provisions of subsection (d) (4) of the Act any powers, functions or duties so delegated may be delegated in whole or in part by the Chairman to such officers or agencies of the United States as he may designate, and he may authorize successive redelegations of such powers, functions and duties;

3. Pursuant to such authority the Chairman hereby delegates to the Maritime Commission Price Adjustment Board the following powers, functions and duties as to contractors and subcontractors assigned by the Board or pursuant to its authority to the Chairman or to the Maritime Commission Price Adjustment Board for renegotiation.

(a) All of the powers, functions and duties conferred upon the Board by subsections (a) (4) (B); (a) (4) (C); (a) (4) (D); (a) (5) (B); (c) (1); (c) (2); (c) (3); (c) (4); (c) (5) (B); and (h) (1) of the Act;

(b) All of the powers, functions and duties conferred upon the Board to require the furnishing of information, records and data pursuant to the provisions of subsection (c) (5) (A) of the Act, except the financial statement provided for in the first sentence of said subsection; and

(c) All of the powers, functions and duties conferred upon the Board to interpret and apply the exemptions provided for in subsection (l) (1) (A), (B), (C), (E), and (F), the definition contained in subsection (a) (7) and the provisions of subsection (i) (3) pursuant to such interpretations thereof and regulations relating thereto as may be prescribed by the Board from time to time.

4. Without intending to limit the powers, functions and duties hereby delegated, nevertheless, the Maritime Commission Price Adjustment Board shall exercise such powers, functions and duties and all authority and discretion thereunder in accordance with such interpretations of the Act and such regulations relating thereto as are issued or adopted by the Board and in accordance with the principles, policies and procedures established by the Board; and may redelegate such powers, functions and duties as it may deem necessary or desirable; but nothing herein shall be construed as a delegation of the power of the Chairman to make a final or other agreement with a contractor or subcontractor with respect to the elimination of excessive profits received or accrued or likely to be received or accrued or, if such an agreement is not made, to issue and enter an order determining the amount of excessive profits, if any, and to take such action as may be necessary or appropriate to eliminate such excessive profits by one or more of the methods prescribed in the Act and such power is expressly reserved.

5. This delegation is subject to revocation or modification in whole or in part at any time but is effective immediately and shall be retroactive to the effective date of the Revenue Act of 1943.

Dated March 2, 1944.

Sgd E. S. Land,
EMORY S. LAND,
Chairman of the United States Maritime Commission.

MAURICE HIRSCH,
Brigadier General, GSC, Chairman.

TITLE 38—PENSIONS, BONUSES AND VETERANS RELIEF

Chapter I—Veterans' Administration

PART 2—ADJUDICATION: VETERANS' CLAIMS

SERVICE REQUIREMENTS

§ 2.1001 *Persons not included in the acts in addition to commissioned officers and enlisted men.* No change in (a) and (b).

(c) *Philippine Scouts and others.* Philippine Scouts, the Insular Force of the Navy, Samoan Native Guard and Samoan Native Band of the Navy are within the terms of the acts, except that neither the Philippine Scouts nor the Insular Force of the Navy were, or are included in Article II of the War Risk Insurance Act. However, Philippine Scouts enlisted under section 14 of Public No. 190, 79th Congress, approved October 6, 1945, are subject to the limitations contained in Public No. 391, 79th Congress. Benefits are accordingly limited to compensation payable for service-connected disability or death. Members of the organized military forces of the Government of the Commonwealth of the Philippines are included for purposes of the laws administered by the Veterans' Administration providing for the payment of compensation on account of service-connected disability or death from and after the dates and hours, respectively, that they were called into service of the armed forces of the United States by orders issued from time to time by the General Officer, United States Army, designated by the Secretary of War. (Sec. 2 (a) (12), Public No. 127, 73d Congress, and Pub. Law 301, 79th Congress.) Service of such Commonwealth forces in the United States armed forces was terminated as of June 30, 1946 by the military order of the President dated July 1, 1946. (Therefore, such Philippine Army service rendered on or after July 1, 1946 is not service in the United States armed forces within the purview of the laws administered by the Veterans' Administration.) Compensation payable to members of the organized military forces of the Government of the Commonwealth of the Philippines, under the conditions set forth above, and the Philippine Scouts who enlisted under section 14, Public Law 190, 79th Congress, shall be paid at the rate of one Philippine peso for each dollar authorized to be paid under the laws providing for such compensation.

§ 2.1002 *Persons not included in the acts.* No change in (a) to (f), inclusive, Paragraph (g) is added as follows:

(g) *Organized military forces of the Government of the Commonwealth of the Philippines.* Service in such organizations on or after July 1, 1946 is not service in the United States armed forces within the purview of the laws administered by the Veterans Administration. (Military order of the President dated July 1, 1946.) [R. S. 471, sec. 5, 43 Stat. 608, secs. 1, 2, 46 Stat. 1016, sec. 7, 48 Stat. 9, 456; 38 U. S. PART 35—VETERANS REGULATIONS

INSTRUCTIONS ON INCREASE IN MONTHLY RATES OF COMPENSATION AND PENSION PAYABLE TO VETERANS OF WORLD WAR I AND WORLD WAR II, AND THEIR DEPENDENTS

Paragraph 3 of instructions issued for the purpose of effecting the provisions of section 2, Public Law 662, 79th Congress, appearing in F. R. Doc. 46–14791, filed August 22, 1946, is amended as follows:

3. The increased rates of death compensation and pension provided by the act will be effective on and after September 1, 1946 and are applicable where benefits are payable to parents at the rates set forth in section 5, Public No. 198, 76th Congress, or to widows or children at the rates set forth in section 14 (a), Public Law 144, 78th Congress or Public No. 484, 73d Congress, as amended, or to widows, children or parents at the wartime rates set forth in § 35.01 or at a protected rate under section 20, Public No. 78, 73d Congress or section 28, Public No. 141, 73d Congress;

(a) Based on service rendered in World War I or World War II,

(b) Where the death of a veteran of World War I or World War II resulted under the conditions set forth in section 31, Public No. 141, 73d Congress, section 12, Public No. 866, 76th Congress or section 2 (§ 35.017 (d)) Public Law 16, 78th Congress,

(c) Where benefits are payable within the purview of Public Law 359, 77th Congress, and

(d) Where benefits are payable at the rates provided by Public No. 484, 73d Congress, as amended, to a child of a veteran of the Spanish-American War, Boxer Rebellion or Philippine Insurrection whose entitlement arises solely by virtue of the provisions of section 1, Public Law 144, 78th Congress. PART 205—RULE MAKING

§ 205.1 *Rule making procedure*—(a) *Public participation on notice.* Whenever the Commission, pursuant to section 4 (a) of the Administrative Procedure Act (60 Stat. 237), publishes in the FEDERAL REGISTER or otherwise gives notice of proposed rule making, interested persons may participate in the rule making process by filing with the Secretary of the Commission, Washington, D. C., within ten days from the date of publication (or from receipt of notice, if given otherwise than by publication) written material relevant to the issues which the proposed rule presents. This material may consist of views, arguments and data and shall include a statement showing the interest of the participant in the subject matter of the proposed rule. The Secretary shall route the material to the heads of interested divisions and other organizational units, who shall consider it and transmit to the Commission a summary thereof with their recommendations as to the action to be taken by the Commission.

(b) *Right to petition.* Any interested person may petition, under section 4 (d) of the Administrative Procedure Act (60 Stat. 237), for the issuance, amendment or repeal of a rule. The petition shall consist of a written request addressed to the Secretary of the Commission, Washington, D. C., setting forth the interest of petitioner and the nature of the relief desired. The petition should include any views, arguments and data deemed relevant by petitioner. The Secretary shall transmit the petition to heads of interested divisions and other organizational units, who shall consider it and transmit to the Commission a summary thereof with their recommendations as to the action to be taken by the Commission.

(c) *Formal requirements.* No special form is prescribed for material submitted pursuant to paragraphs (a) and (b) of this section. All papers should be legibly typed, printed, mimeographed, or otherwise duplicated. To the extent practicable, seven copies of all papers should be submitted to facilitate concurrent handling of the material by the several organizational units to which the matter may be assigned.

PART 206—ANCILLARY MATTERS

§ 206.1 *Notice of denial.* Prompt written notice will be given by the Secretary of the denial in whole or in part of any written application, petition, or other request submitted by any interested person in connection with any proceeding of the Commission. The notice shall be accompanied by a statement of the grounds on which such denial is based.

MARKET AGENCIES AT UNION STOCK YARDS, CHICAGO, ILL.

NOTICE OF PETITION FOR MODIFICATION

By a document filed on September 5, 1946, the respondents seek to amend and modify their present existing Tariff No. 7 so as to permit them to publish and file with the Secretary an amendment to such tariff making effective the following charges:

SECTION G

INTERNATIONAL LIVE STOCK EXPOSITION AND CHICAGO FEEDER CATTLE SHOW

In addition to the regular charges, the following service charge shall be made on all carlot entries of livestock entered in the International Live Stock Exposition or in the Chicago Feeder Cattle Show.

For each carlot entry of—	
Fat cattle	$25.00
Stocker and feeder cattle	10.00
Hogs	10.00
Sheep	10.00

[NOTE: The foregoing items represent new charges.]

SECTION J

A charge of 15 cents per head will be made on all cattle tagged by the State of Illinois as Bang Reactors, or cattle tagged and sold subject to post mortem inspection.

[NOTE: The foregoing represents an increase of 5 cents over the existing charge.]

Effect of proposed modification. The effect of such proposed modification, if granted, would be to increase the revenues of the respondents and, accordingly, it appears that public notice should be given to all interested persons of the request of the respondents so as to afford them an opportunity to manifest their desire to be heard on the matter. Therefore, notice is hereby given to the public of the request of the respondents for a modification of their presently effective tariff. The respondents and all other interested persons are therefore afforded an opportunity to be heard on the matters covered in the petition for modification.

All persons who desire to be heard shall notify the Hearing Clerk, Office of the Solicitor, United States Department of Agriculture, Washington 25, D. C. within 15 days from the date of the publication of this order. Copies hereof shall be served upon the respondents by registered mail or in person.

FEDERAL POWER COMMISSION.

[Docket No. G-776]

EASTERN INDIANA GAS CO.

NOTICE OF APPLICATION

SEPTEMBER 17, 1946.

Notice is hereby given that on September 6, 1946, an application was filed with the Federal Power Commission by Eastern Indiana Gas Company (hereinafter referred to as "Applicant"), an Indiana Corporation having its principal offices at Indianapolis, Indiana, and authorized to do business in the State of Indiana, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the Applicant to construct and operate a certain natural gas pipeline and for an order pursuant to said section 7 of the Natural Gas Act directing physical connection of certain natural gas transportation facilities with those of Applicant, all subject to the jurisdiction of the Federal Power Commission, and all of which said facilities are hereinafter more fully described.

Applicant seeks authorization to construct and operate the following described facilities:

(a) A 3-inch gas transmission pipeline having its northern terminus at a point of connection approximately two (2) miles south of the City of Muncie, Indiana, with the 18-inch gas transmission pipeline of Panhandle Eastern Pipe Line Company (hereinafter referred to as "Panhandle"), in Delaware County, Indiana, and extending in a southerly direction for approximately sixteen (16) miles to a point near the corporate limits of the City of Newcastle, Indiana, in Section Twenty-three (23), Township Seventeen (17) North, Range Ten (10) East, Henry County, Indiana, said transmission pipeline to be known as the Mount Summit Line.

(b) A 3-inch gas transmission pipeline connecting at its northern terminus with the said Mount Summit Line at the southern terminus thereof, and extending in a southwesterly direction for approximately seven (7) miles to a point of connection with Applicant's 6-inch transmission pipeline located approximately two (2) miles east of the Town of Spiceland, Indiana, in Section Fifteen (15), Township Sixteen (16) North, Range Ten (10) East, Henry County, Indiana, said transmission pipeline to be known as the Spiceland Line.

Applicant further seeks an order of the Federal Power Commission pursuant to section 7 (a) of the Natural Gas Act, directing the establishment of physical connection, in the alternative, of either of the transportation facilities hereinafter described with those of Applicant, all in the manner hereinafter set out:

(1) Applicant seeks an order directing Panhandle to establish physical connection of its natural gas transmission pipeline facilities near Muncie, Indiana with the northern terminus of Applicant's proposed Mount Summit Line and through such physical connection to deliver and sell to Applicant the natural gas required for resale and service to Applicant's ultimate consumers in certain towns and rural communities in Rush, Wayne, and Henry Counties, all in the State of Indiana, or,

(2) In the alternative, upon a finding and determination that Indiana Gas and Water Company, Inc., (hereinafter referred to as "Indiana") is a natural gas company within the meaning of the Natural Gas Act, an order directing Indiana to transport and Panhandle to furnish natural gas purchased by Applicant from Panhandle, through Indiana's 8-inch gas transmission pipeline extending from Panhandle's 18-inch pipeline near Muncie, Indiana to Newcastle, Indiana, and at that point, to establish physical connection with Applicant's proposed Spiceland Line at the northern terminus thereof, and to deliver through such connection said natural gas required by Applicant for resale and service as stated in (1) above.

Applicant states that the proposed pipeline facilities described in (a) and (b) above are required in order to enable Applicant to procure natural gas from sources outside of the natural gas wells owned and operated by Applicant in Rush and Henry Counties, in the State of Indiana which said wells, the application recites, are gradually being depleted as a result of which Applicant's supply of gas is becoming progressively worse. The application further recites that because of such depletion and the distances which the gas from Applicant's wells must travel to supply its customers, the Public Service Commission of Indiana in its order of January 24, 1946, found that Applicant is not able to and is not rendering adequate service to the public in the areas served, other than Rushville and Fortville, Indiana, and has ordered a rate reduction, the enforcement of which would impair Applicant's financial structure. Said order, the Applicant states, is presently temporarily suspended pending a rehearing. Applicant states that the only possible remedy for its situation is the procurement of gas from some outside source and that Panhandle's said 18-inch pipeline in Delaware County, Indiana is the only possible outside source available.

Applicant states that its requirements from Panhandle will be 275,000 Mcf per annum and that said requirements will not unduly burden Panhandle's ability to render adequate service to its existing customers because upon completion of presently authorized facilities (Docket No. G-620) Panhandle will have available reserves sufficient to supply its customers (including Applicant) for an excess of thirty years based upon an estimated annual withdrawal of 133 000,000 Mcf. Applicant further estimates the minimum quantity of gas to be transported through said proposed pipeline facilities will be 200 Mcf daily and the maximum quantity will be 300 Mcf.

Applicant estimates the total overall cost of the proposed facilities will be $83,812.00 of which $25,508.00 will be the cost of the Spiceland Line, and $58,304.00 will be the cost of the Mount Summit Line. Applicant expects to be able to finance the cost of the Spiceland Line from its own resources and states that to construct said Mount Summit Line it will be necessary for Applicant to borrow approximately $60,000.00 from outside

sources. Arrangements for the loan, payable in ten years at 4% interest, already have been made.

Should the proposed 16-mile Mount Summit Line be connected, Applicant recites the new lines would be in close proximity to, and wholly a duplication of Indiana's existing 8-inch pipe line connecting with Panhandle's 18-inch line and used by Indiana in transporting natural gas to Newcastle, Indiana, which gas is purchased by Indiana from Panhandle and which Applicant alleges is natural gas that flows continuously and uninterruptedly from the points of production in Texas, Oklahoma and Kansas to points of distribution in Indiana, including Newcastle. As a result of such operation, an established course of business on the part of Indiana, Applicant alleges Indiana is a natural gas company subject to the jurisdiction of the Federal Power Commission. Applicant states that it is informed and believes that Indiana's said 8-inch pipe line between Muncie and Newcastle, Indiana, is of such size and capacity that, in addition to the gas which Indiana presently transports by this line, Applicant's natural gas requirements could be transported through Indiana's 8-inch line and received by Applicant at Newcastle, from which point Applicant could transport such gas by means of the proposed Spiceland line. Applicant recites it is willing and has offered to pay Indiana a reasonable charge for use by the Applicant of its 8-inch line but that Indiana has refused to permit such use by Applicant.

Since Applicant began in November 1945, purchasing and receiving from Panhandle natural gas for resale in Applicant's Fortville Division, Applicant says that it has been negotiating with Panhandle for its requirements of natural gas for resale by Applicant to its Rushville Division customers which Panhandle has consistently refused to agree to furnish.

Applicant requests the Commission to issue a certificate of public convenience and necessity authorizing Applicant to construct and operate the afore described facilities and that the Commission order Panhandle to furnish its said requirements of natural gas. Applicant further requests, if the Commission should find and determine that Indiana is a natural gas company within the meaning of the Natural Gas Act and that it is feasible for Applicant to transport to Newcastle gas purchased from Panhandle through Indiana's 8-inch gas transmission pipe line, that the Commission order Indiana to establish necessary physical connection with Applicant's proposed Spiceland line, and further order Indiana to deliver to Applicant through such interconnection the natural gas to be purchased by Applicant from Panhandle. Pending a determination of its application, Applicant further requests that the Commission issue to it a temporary certificate of public convenience and necessity.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of Eastern Indiana Gas Company should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of this publication in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure.

FRANK KOLPIN ET AL.

In re: Stock owned by Frank Kolpin, Richard Naether, Richard Stern, Josefine Uzelino and Jean Philipp Uzelino. F-28-23354-D-1, F-28-23355-D-1, F-28-23356-D-1, F-28-23357-D-1, F-28-23358-D-1.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That the persons listed in Exhibit A, attached hereto and by reference made a part hereof, whose last known addresses are as set forth opposite each name in Exhibit A, are residents of Germany and nationals of a designated enemy country (Germany);

2. That the property described as follows: One hundred (100) shares of no par value capital stock of The New York Central Railroad Company, 466 Lexington Avenue, New York, New York, a corporation organized under the laws of the States of New York, Ohio, Illinois, Indiana, Pennsylvania and Michigan, evidenced by the certificates listed in Exhibit A, registered in the names of and owned by the persons listed therein in the amounts appearing opposite each name, together with all declared and unpaid dividends thereon,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the

aforesaid nationals of a designated enemy country;

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on July 17, 1946.

SECURITIES AND EXCHANGE COMMISSION.

[File Nos. 54–75, 70–726]

COMMONWEALTH AND SOUTHERN CORP. (DEL.)

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa. on the 13th day of September A. D. 1946.

The Commonwealth & Southern Corporation ("Commonwealth"), a registered holding company, having filed a declaration pursuant to the Public Utility Holding Company Act of 1935, particularly section 12 (c) thereof and Rule U–46 thereunder, regarding the proposed payment of a dividend of $3.00 per share (payable on the 28th day after approval by this Commission to stockholders of record at the close of business on the 14th day after such approval) on its 1,482,000 shares of preferred stock outstanding, the aggregate amount of such dividend payment being $4,446,000; and

Commonwealth having heretofore filed an Amended Plan of Recapitalization ("Amended Plan") and modifications thereto under section 11 (e) of the act

providing, among other things, for the restatement on Commonwealth's books of its investments in its subsidiaries upon consummation of the Amended Plan;

Commonwealth having thereafter filed a Plan for Compliance with sections 11 (b) (1) and 11 (b) (2) of the act providing, among other things, for the liquidation of Commonwealth;

Commonwealth having stated in the declaration filed with the Commission on February 21, 1946, proposing the payment of a dividend on the outstanding shares of preferred stock, which declaration was permitted to become effective on March 14, 1946 (Holding Company Act Release No. 6476), that "• • • the restatement of the carrying value of Commonwealth's investments, which restatement it is proposed in the Amended Plan will be made upon consummation thereof, may result in a decrease in such carrying value in an amount not less than the sum of (a) the amount shown as 'Earned Surplus' in the balance sheet as at January 31, 1946, and (b) the amount of net income to be received subsequent to January 31, 1946, and prior to the date of such restatement, provided such restatement is completed within some reasonable period, say by September 30, 1946 • • •";

Commonwealth having stated in the instant declaration that "The Board • • • recognizes that, in view of the pending proceedings, the 'Earned Surplus' account may be so qualified that, under the rules and practices of the Commission, payment of said dividend is subject to the requirement of Commission authorization under the provisions of section 12 (c) of the act and Rule U-46 in spite of the fact that, as authorized by section 34 of the Delaware General Corporation Law, the source of payment of such dividend under such Law is Commonwealth's net profits for the current and preceding fiscal years."

The instant declaration having been filed on August 27, 1946, and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for a hearing with respect to said declaration within the period specified in the said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission deeming that it would not be necessary or appropriate to deny effectiveness to the declaration under the standards of section 12 (c) of the act and Rule U-46 if it should be found that the proposed payment were to be made out of capital and that, therefore, it is unnecessary for the Commission to determine whether said proposed payment is being made out of capital; and

The Commission therefore deeming it appropriate in the public interest and in the interest of investors and consumers to permit said declaration to become effective insofar as section 12 (c) and Rule U-46 are applicable to the proposed payment; and

Commonwealth having requested that the effective date of the declaration be accelerated to facilitate prompt payment of the proposed dividend to the preferred stockholders and the Commission deeming it appropriate that such request for acceleration be granted;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of the act and subject to the terms and conditions prescribed in Rule U-24, that the aforesaid declaration be, and the same hereby is, permitted to become effective forthwith: *Provided, however*, That this order shall not be construed as a determination that such dividend payment is or is not taxable to the recipient pursuant to the provisions of the Internal Revenue Code, and provided further that Commonwealth accompany the dividend checks with a statement to the effect (1) that Commonwealth filed the declaration regarding the proposed dividends payment pursuant to section 12 (c) and Rule U-46 by reason of its uncertainty as to whether the "Earned Surplus" account may be so qualified that, under the rules and practice of the Commission, payment of the proposed dividend is subject to the requirement of Commission authorization under the act and the Rules thereunder and that the Commission permitted the declaration to become effective without determining whether the proposed payment is being made out of capital and (2) that the Commission's action in permitting the declaration to become effective should not be construed as a determination that such dividend payment is or is not taxable to the recipient pursuant to the provisions of the Internal Revenue Code.

By the Commission.

ASSOCIATED GAS AND ELECTRIC CO. ET AL.

ORDER GRANTING EXTENSION

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 16th day of September 1946.

In the matter of Stanley Clarke, trustee of Associated Gas and Electric Co., Denis J. Driscoll and Willard L. Thorp, trustees of Associated Gas and Electric Corporation, NY PA NJ Utilities Company, General Gas & Electric Corporation, General Public Utilities Corporation, Associated General Utilities Company, Metropolitan Edison Company Gas & Electric Associates, File No. 54-133.

An application for approval of a plan filed pursuant to section 11 (e) of the Public Utility Holding Company Act of 1935 having been filed by Stanley Clarke, Trustee of Associated Gas and Electric Company, a registered holding company, Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation, a registered holding company, and the following direct or indirect subsidiaries of the said two registered holding companies: NY PA NJ Utilities Company, General Gas & Electric Corporation, General Public Utilities Corporation (formerly Associated Utilities Corporation), and Gas & Electric Associates, each of which is a registered holding company, and Metropolitan Edison Company and Associated General Utilities Company; and the said plan proposing that various securities registered in the name of Day & Co., Dean & Co., Drake & Co., and Holland & Co., be transferred and delivered to the respective applicants above named, as beneficial owners of such securities, and that Day & Co., Dean & Co., Drake & Co., and Holland & Co., be dissolved; and

The Commission having on November 1, 1945, made and filed its findings and opinion and order (Holding Company Act Release No. 6180) and approved the plan subject to the conditions specified in Rule U-24 of the general rules and regulations promulgated pursuant to said act; and

The Commission having, by orders dated December 28, 1945, February 15, 1946, April 10, 1946, and June 13, 1946, upon the request of applicants, extended the time for consummating the transactions proposed by said plan to and including September 15, 1946; and

Applicants having advised the Commission that, although most of the securities referred to in said plan have been transferred and that Dean & Co., Drake & Co., and Holland & Co., have been dissolved, the parties have been unable to consummate all of the transactions proposed by said plan, and having requested that the time for such consummation be extended to and including December 15, 1946; and

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that such extension of time be granted:

It is ordered, That the time for consummating such transactions be, and hereby is, extended to and including December 15, 1946.

UNITED STATES TARIFF COMMISSION.

[Investigation No. 1]

HARSH OR ROUGH COTTON HAVING A STAPLE OF LESS THAN ¾ INCH IN LENGTH

PUBLIC NOTICE OF INVESTIGATION AND HEARING

The United States Tariff Commission, on this 17th day of September, 1946, announces the reopening of its investigation No. 1 under section 22 of the Agricultural Adjustment Act (of 1933), as amended, and under Executive Order No. 7233 of November 23, 1935, with respect to harsh or rough cotton having a staple of less than ¾ of one inch in length.

As a result of the report of the United States Tariff Commission dated August 25, 1939, the President proclaimed quotas on imports of cotton. The quota limitations were not made applicable, among other things, to harsh or rough cotton having a staple of less than ¾ of one inch in length and chiefly used in the manufacture of blankets and blanketing. The object of reopening the investigation and holding a hearing at this time is to determine whether conditions have so changed as to warrant a further report to the President as to whether harsh or rough cotton having a staple of less than ¾ of one inch in length should be made fully subject to quota restrictions or entirely removed therefrom, or be permitted entry only when imported for specified uses, or whether it should be made subject to other treatment.

Hearing. All parties interested will be given opportunity to be present, to produce evidence, and to be heard at a public hearing to be held in the Hearing Room of the Commission at 8th and E Streets NW., in Washington, D. C., at 10 a. m. on October 14, 1946.

Nature of information at hearing. Information submitted at the hearing must be relevant and material to the matters under investigation.

Appearances at hearing. Interested persons may appear at the hearing either in person or by representative; if several persons have a joint interest in the subject, it is suggested that effort be made for the designation of a representative in order to avoid unnecessary repetition of testimony.

OFFICE OF PRICE ADMINISTRATION.

[Rev. SO 119, Order 338]

CHICAGO ELECTRIC MFG. CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, *It is ordered:*

(a) The Chicago Electric Manufacturing Company, 6333 West 65th Street, Chicago 38, Illinois, may increase by no more than 2.7 per cent the ceiling price which it determines under Order No. 74 under Revised Supplementary Order No. 119 for its sales to each class of purchaser of the Model XL-3 detachable wringer which it manufactures.

(b) For sales by wholesale distributors to retail dealers the ceiling price for the Model XL-3 detachable wringer is $4.57 each. This ceiling price is subject to each seller's customary terms, discounts, allowances and other price differentials in effect on sales of similar articles.

(c) For all sales to ultimate consumers the ceiling price for the Model XL-3 detachable wringer is $6.95 each. This ceiling price is subject to each seller's customary terms, discounts, allowances and other price differentials in effect on sales of similar articles.

(d) These ceiling prices, supersede those established by Order 74 under Revised Supplementary Order No. 119 only with respect to articles sold by the manufacturer after the effective date of this order.

(e) At the time of, or prior to the first invoice to each purchaser for resale at wholesale on or after the effective date of this order, the manufacturer shall notify the purchaser of the ceiling price set by this order for resales at wholesale.

(f) The manufacturer, prior to shipping any article covered by this order which he sells at a price adjusted under this order, shall attach to the article a tag or label which contains the model number of the article, its OPA retail ceiling price, and a statement that the tag or label may not be removed until after the article has been sold to an ultimate consumer.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 20th day of September 1946.

Issued this 19th day of September 1946.

PAUL A. PORTER, *Administrator.*

OPINION ACCOMPANYING ORDER NO. 338 UNDER REVISED SUPPLEMENTARY ORDER NO. 119

The Chicago Electric Manufacturing Company, 6333 West 65th Street, Chicago 39, Illinois, hereinafter refered to as the applicant, has qualified for and received an adjustment under Revised Supplementary Order No. 119 in its ceiling prices for sales of a detachable wringer which it manufactures. The order granting the original adjustment also established dollar-and-cent ceiling prices for resale of the wringer at wholesale and retail.

Since the granting of the original increase, the applicant has incurred additional increases in his material and labor increases cognizable by this Office under Revised Supplementary Order No. 119. The applicant has, therefore, applied for a further adjustment under Revised Supplementary Order No. 119 to recompense him for these additional cost increases. The procedures set forth in Revised Supplementary Order No. 119 have been applied to the adjusted cost data submitted by the applicant and a price increase factor has been determined for the product line in accordance with the provisions of the order. The accompanying order permits the applicant to increase his ceiling price previously established under Revised Supplementary Order No. 119 by 2.7 percent.

For the reasons stated in the opinion accompanying the order granting the original adjustment the accompanying order also establishes adjusted dollar-and-cent resale ceiling prices and requires the applicant to tag the articles with their OPA retail ceiling prices. Those reasons are incorporated herein by reference.

The resale ceiling prices established by the accompanying order allow resellers to pass on to purchasers from them the adjustment permitted the manufacturer, in accordance with the existing policy of this office with respect to individual adjustments granted to manufacturers.

To insure notice to wholesale distributors of the ceiling price established by the accompanying order for their resales, the applicant is required to notify purchasers from him for resale at wholesale of the ceiling price and conditions of sale set by the order for resales by the purchaser.

[SO 133, Order 71]

COMMERCIAL FURNITURE CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to Supplementary Order No. 133, it is ordered:

(a) *Manufacturer's maximum prices.* The Commercial Furniture Co., 2739 West Chicago Avenue, Chicago, Illinois, may increase by 12 per cent its current maximum prices for sales of wood office desks and tables which it manufactures.

(b) *Maximum prices of purchasers for resale.* A reseller shall calculate his ceiling price by adding to his invoice cost the same percentage markup which he had on March 31, 1946 on the same article or if he had no properly established maximum price for the particular article, the same percentage markup which he has on the "most comparable article" for which he has a properly established ceiling price. For this purpose, the "most comparable article" is the one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of article to which, according to customary trade practices, an approximately uniform percentage markup is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by the OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum resale price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration for the establishment of a ceiling price under § 1499.3 (c) of the General Maximum Price Regulation. Ceiling prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's terms, allowances and other price differentials in effect during March 1942, or which have been properly established under the applicable OPA regulation.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale, showing a price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the methods established in paragraph (b) of this order for determining adjusted maximum prices for resales of the articles covered by this order. This notice may be given in any convenient form.

(e) *Reports.* The manufacturer shall file the report described in section 5 of Supplementary Order No. 133 with the Office of Price Administration, Washington 25, D. C.

The provisions of Supplementary Order No. 153 shall not apply to resale prices of articles covered by this order.

(f) *Revocation or amendment.* This order may be revoked or amended by the Price Administration at any time.

(g) *Effective date.* This order shall become effective on the 20th day of September 1946.

Issued this 19th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 71 UNDER SUPPLEMENTARY ORDER NO. 133

Commercial Furniture Co., 2739 West Chicago Avenue, Chicago, Illinois, applied to the Office of Price Administration under the provisions of Supplementary Order No. 133 for adjustment of its maximum prices for sales of wood office desks and tables which it manufactures.

Supplementary Order No. 133 authorizes the granting of an increase in the maximum prices of a manufacturer when his products are covered by Maximum Price Regulation No. 188, if the manufacturer shows that unless such an adjustment is authorized, he will be compelled to conduct his entire business operations at a loss. In addition, it must appear that the loss is not due to any of the factors listed in section 3 (b) of Supplementary Order No. 133.

The information submitted demonstrates that the articles in question are covered by Maximum Price Regulation No. 188; that the manufacturer's current over-all operations are being conducted at a loss; and that such loss is not occasioned by any of the factors listed in section 3 (b) of Supplementary Order No. 133. Therefore, the accompanying order permits a uniform percentage increase in the manufacturer's maximum prices with respect to the items specified in the application. This increase will enable the manufacturer to operate without loss.

In compliance with the requirements of section 5 of Supplementary Order No. 133, the manufacturer is advised of his duty to file a profit and loss statement covering the first three (3) months of his operations under this order with the Office of Price Administration, Washington 25, D. C., within four (4) months after the effective date of this order.

In addition and in accordance with the provisions of Order 5104 under Maximum Price Regulation No. 188, the accompanying order provides for a continuation of reseller's percentage markups in effect on March 31, 1946. This is in accordance with the provisions of the Price Control Act of 1942, as amended.

[SO 148, Order 37]

BISCHOFF, SONS AND CO.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to Supplementary Order No. 148, it is ordered:

(a) *Manufacturer's ceiling prices.* Bischoff, Sons and Company, Culloden, West Virginia, may sell and deliver to wholesale distributors the following articles of illuminating glassware which it manufactures, at the following adjusted maximum prices:

Article	Model No.	Adjusted maximum price to wholesale distributors

Do	14-14	8.18
Oval bowl	552	6.93
Do	551	5.41
Do	550	3.08

(b) *Maximum prices of purchasers for resale.* A purchaser for resale shall determine his maximum price by adding to his invoice cost the same percentage markup which he has on the "most comparable article" for which he has a properly established maximum price. For this purpose, the "most comparable article" is one which meets all of the following tests:

(1) It belongs to the narrowest trade category which includes the article being priced.

(2) Both it and the article being priced were purchased from the same class of supplier.

(3) Both it and the article being priced belong to a class of articles to which, according to trade practices, an approximately uniform percentage markup is applied.

(4) Its net replacement cost is nearest to the net cost of the article being priced.

The determination of a ceiling price in this way need not be reported to the Office of Price Administration; however, each seller must keep complete records showing all the information called for by OPA Form 620-759 with regard to how he determined his ceiling price, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect.

If the maximum price cannot be determined under the above method, the reseller shall apply to the Office of Price Administration, for the establishment of a maximum price under § 1499.3 (c) of the General Maximum Price Regulation. Maximum prices established under that section will reflect the supplier's prices as adjusted in accordance with this order.

(c) *Terms of sale.* Maximum prices adjusted by this order are subject to each seller's customary terms, discounts, allowances and other price differentials on sales to each class of purchaser in effect during March 1942, or established under any applicable OPA regulation.

(d) *Notification.* At the time of, or prior to the first invoice to a purchaser for resale showing a ceiling price adjusted in accordance with the terms of this order, the seller shall notify the purchaser in writing of the adjusted ceiling prices for resale of the articles covered by this order. This notice may be given in any convenient form.

(e) *Relation between this order and Supplementary Order No. 153.* The provisions of Supplementary Order No. 153 shall not apply to sales of any of the articles covered by this order.

This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 20th day of September 1946.

Issued this 19th day of September 1946.

OPINION ACCOMPANYING ORDER NO. 37 UNDER SUPPLEMENTARY ORDER NO. 148

Bischoff, Sons and Company, Culloden, West Virginia, completed its application for an adjustment in its maximum prices for sales of certain articles of illuminating glassware which it manufactures. This application has been considered under the provisions of Supplementary Order No. 148.

Supplementary Order No. 148 allows an adjustment of maximum prices for sales by manufacturers of certain "low-end" articles listed in Appendix A of that order, which appendix includes the articles above-mentioned, whereby adjusted maximum prices do not exceed the appropriate "cutoff" price for the commodity listed in the same appendix. A manufacturer's maximum price for a low-end article may be adjusted if his maximum price, including any adjustments previously authorized by the Office of Price Administration, is below the adjusted maximum price for which he can qualify under Supplementary Order No. 148.

The adjusted maximum price may be in an amount sufficient to cover the total unit cost to the manufacturer to make and sell the article plus one-half the industry's average profit margin during a normal peacetime period, determined in accordance with the provisions of the said Supplementary Order No. 148, provided same does not exceed the appropriate dollars-and-cents cutoff prices, or the maximum percentage adjustment set forth for the article in Appendix A. None of the adjusted maximum prices set forth in the accompanying order exceed the appropriate cutoff prices or maximum percentage adjustments.

No adjusted price is established by the order for the I. E. S. Shade Model 742/8 for the reason that it does not appear that applicant has a properly established maximum price for sales by it of that article.

As to the articles listed at the end of this paragraph, the adjusted maximum price includes only applicant's total unit cost to make and sell without any profit margin. The reason for this is that applicant has not set forth in his application what his own profit margin was in the base period (1936-1939) and, therefore, no such margin has been included in the necessary calculation. It was felt that in the interest of speed, the order would be issued in that way, rather than to delay same pending the receipt of further information from the applicant. The applicant may, therefore, apply for a further adjustment as to those prices upon further application setting forth the correct profit margin. In certain cases, the industry's profit factors are established by inclusion in Appendix A of Supplementary Order No. 148, but the order states that if a profit factor is not listed in the appendix, one-half the manufacturer's own profit margin during the base period may be used. The articles referred to in this paragraph are:

Opal unit, 590-12 x 6.
Opal unit, 590-14 x 6.
Opal unit, 590-16 x 6.
Opal ball, 14/12.
Opal ball, 14 14.
Oval bowl, 552.
Oval bowl, 551.

Adjusted maximum prices on the other articles covered by this order are established finally because the inclusion of the profit factor is not important as to them. The reason for this is that those prices are established by the use of the maximum percentage adjustments allowable which limit the amount of the adjustment that applicant would otherwise be entitled to, and even with the deduction of the profit factor, the adjusted price is still limited by the percentage amount. This is not true in the case of the articles listed above as the allowable percentage adjustments allow prices that are higher than the prices to which applicant is entitled.

Ceiling prices of purchasers for resale of the articles which the manufacturer sells at adjusted prices are established, allowing them their customary markups for their types of distributive operations. The order is, therefore, in conformity with the provisions of section 2 (t) of the Emergency Price Control Act of 1942, as amended, which provides that "In establishing maximum prices applicable to wholesale or retail distributors, the Administrator shall allow the average current cost of acquisition of any commodity, plus such average percentage discount or markup as was in effect on March 31, 1946."

[MPR 188, Order 5191]

ARTISTIC PRODUCTS CO.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188, *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by Artistic Products Company, 4856 West Adams Boulevard, Los Angeles 16, California.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	For sale by manufacturer to—		For sale by any person to consumers
		Jobbers	Retailers	
Plated-metal 6-way floor lamp with onyx insert.	107	*Each* $9.72	*Each* $11.44	*Each* $20.59
Plated-metal torchier with onyx insert and glass diffuser.	208	11.76	13.84	24.91
Glazed-pottery table lamp.	501-F	4.25	5.00	9.00
Decorated-china table lamp.	L-601-A	5.52	6.50	11.70
Do	901	6.37	7.50	13.50
Do	1001	7.61	8.95	16.11
Do	1101	5.91	6.95	12.51

These maximum prices are for the articles described in the manufacturer's application dated August 2, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. For sales to persons other than consumers they are f. o. b. Los Angeles, California, 1% 10 days, net 30. The maximum price to consumers is net delivered.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the fourth Pricing Method, § 1499.158, of Maximum Price Regulation 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement, with the proper model number and the ceiling price inserted in the blank spaces:

Model Number ------
OPA Retail Ceiling Price—$------
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) Jobbers' maximum prices for sales of the articles covered by this order shall be established under the provisions of section 4.5 of SR 14J.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 20th day of September 1946.

Issued this 19th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 5191 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

By application dated August 2, 1946, the Artistic Products Company, 4856 West Adams Boulevard, Los Angeles 16, California, herein called the applicant, requested the Office of Price Administration to establish maximum prices for sales of lamps which it manufactures.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the Regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the sellers markups normally enjoyed in the industry for their types of distributive operations.

[RMPR 86, Order 77]

KITCHEN QUEEN

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register

and pursuant to section 14 of Revised Maximum Price Regulation No. 86, *It is ordered:*

(a) This order establishes resale ceiling prices for sales of the Model No. 48–K portable washing machine and cabinet manufactured by S. H. Golden, Albert A. Pass, Irving Garsson, doing business as "Kitchen Queen," a Co-partnership, 1850 West 21st Street, Chicago, Illinois. The ceiling prices established include all the adjustments allowed under Revised Maximum Price Regulation No. 86 and are not, therefore, subject to any further increase under that regulation.

(1) Distributors' ceiling prices for sales to dealers are as follows:

Model	Quantity	Ceiling prices for sales to dealers		
		Zone 1	Zone 2	Zone 3
		Each	*Each*	*Each*
48 K with cabinet	1–5	$45.32	$48.32	$49.32
	6 or more	42.30	44.80	45.80

(2) Dealers' ceiling prices for sales to consumers are as follows:

Model	Ceiling prices for sales to consumers [1]		
	Zone 1	Zone 2	Zone 3
	Each	*Each*	*Each*
48 K with cabinet	$70.50	$73	$74

[1] These prices include delivery.

(b) For purposes of this order Zones 1, 2, and 3 are comprised as follows:

Zone 1—North Dakota, South Dakota, Nebraska, Kansas, Minnesota, Iowa, Missouri, Wisconsin, Illinois, Michigan, Indiana, Ohio, Kentucky.

Zone 2—Maine, Vermont, New Hampshire, New York, Massachusetts, Connecticut, Rhode Island, Pennsylvania, New Jersey, Maryland, Delaware, District of Columbia, West Virginia, Virginia, North Carolina, Tennessee, South Carolina, Georgia, Alabama, Mississippi, Louisiana, Arkansas, and Oklahoma.

Zone 3—Washington, Idaho, Montana, Oregon, Wyoming, California, Nevada, Utah, Colorado, Arizona, New Mexico, Texas and Florida.

(c) At the time of or prior to, the first invoice to each distributor, the manufacturer shall notify him of the ceiling prices established by this order for resales by the distributor. This notice may be given in any convenient form.

(d) All of the provisions of Revised Maximum Price Regulation No. 86 continue to apply to all sales and deliveries of machines covered by this order, except to the extent that those provisions are modified by this order.

(e) Unless the context requires otherwise, the definitions set forth in the various sections of Revised Maximum Price Regulation No. 86 shall apply to the terms used herein.

(f) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 20th day of September 1946.

Issued this 19th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER 77 UNDER REVISED MAXIMUM PRICE REGULATION NO. 86

S. H. Golden, Albert A. Pass, Irving Garsson, doing business as "Kitchen Queen", 1850 West 21st Street, Chicago, Illinois, have established their ceiling prices for sales of new model portable washing machine and cabinet which they are manufacturing under Revised Maximum Price Regulation No. 86.

Section 14 of the same regulation provides that whenever the manufacturer's ceiling prices for a washer have been determined under the regulation, an order may be issued fixing ceiling prices for resales of the machine by distributors and dealers. The new model washer is the first machine produced by the manufacturer which weighs so much that there is a need to set up resale price zones which reflect the difference in the cost of shipping the machine to various parts of the United States. Since the manufacturer has no previously established resale price zones, it is necessary to issue an order under section 14 in which such zones are set up.

The accompanying order, pursuant to section 14 sets up resale ceiling prices and price zones. The resale ceiling prices established allow resellers average markups over their cost equal to those they received on March 31, 1946 in connection with sales of similar machines produced by the same manufacturer. The prices established include the increases allowed by sections 15 and 16 b of Revised Maximum Price Regulation No. 86 and may not, therefore, be increased under those sections. The resale price zones set up are the same as those of other manufacturers located in the same freight rate area. The zone differentials set up are based upon the average cost of shipping the new model to each of the zones.

To insure compliance by the manufacturer with the preticketing, notification, and terms-of-sale provisions of Revised Maximum Price Regulation No. 86 the order also specifies that the ceiling prices established therein are subject to all the provisions of Revised Maximum Price Regulation No. 86 not modified by the specific provisions of the order.

NASH-KELVINATOR CORP.

APPROVAL OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register; and pursuant to section 11 of Maximum Price Regulation No. 599, *It is ordered:* That Order No. 8 under section 11 of Maximum Price Regulation No. 599 be amended in the following respects:

1. Paragraph (b) is amended by substituting the phrase "E. O. H. charge of $2.55" for the phrase, "E. O. H. charge of $2.35" wherever the latter phrase appears in that paragraph.

This amendment shall become effective on the 20th day of September 1946.

Issued this 19th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 3 TO ORDER NO. 8 UNDER SECTION 11 OF MAXIMUM PRICE REGULATION NO. 599

Order No. 8 under Section 11 of Maximum Price Regulation No. 599 hereinafter referred to as Order No. 8, as originally issued, provided that to the ceiling prices established by the order there could be added an E. O. H. charge of $2.35 for each radio. The E. O. H. charge is the amount of the Federal excise tax.

Thereafter Order No. 8 was amended to increase the ceiling prices originally established. Inadvertently it was overlooked that the amount of the Federal excise tax was increased by this action and that the E. O. H. charge should have been increased proportionately.

The accompanying amendment provides for the necessary increase in the E. O. H. charge.

PERMANENTE METALS CORP.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 10 of Maximum Price Regulation 592, *It is ordered:*

(a) Maximum f. o. b. plant, Natividad, California, prices for sales by any person of the following line products manufactured by the Permanente Metals Corporation, shall be:

	Dealer	Industrial	Putty plant
		Ton	*Ton*
Hydrated lime	$17.50 ton	$16.00	
Processed quicklime (3-600 paper bags).	$1.75 barrel	18.40	
Crushed quicklime (bulk).		13.00	$14.50
Crushed quicklime (paper bag).		15.00	16.50

(b) The above prices shall be subject to a cash discount of 25¢ per ton or 5¢ per barrel, if payment is made by the 10th of the month following date of invoice.

(c) The above prices shall be subject to a quantity premium as follows:

	Premium
Less than 5 tons	$2.00
From 5 tons to 15 tons	1.00

(d) The premiums provided for in (c) above shall apply to dealers' maximum prices to their purchasers.

(e) The above prices include all price increases authorized by Order No. 1 to date and may not be further increased pursuant to the provisions of Order No. 1 as are in effect as of the date of this order.

(f) All provisions of Maximum Price Regulation 592 not inconsistent with this order shall apply to sales covered by this order.

(g) This order may be amended or revoked by the Office of Price Administration at any time.

This order shall become effective September 20, 1946.

Issued this 19th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 148 UNDER SECTION 10 OF MAXIMUM PRICE REGULATION NO. 592

The Permanente Metals Corporation, Oakland, California, has applied for maximum prices f. o. b. plant for sales by any person of various lime products manufactured at its plant located at Natividad, California. From the data submitted it appears that the lime products are properly priced under the provisions of section 10 of Maximum Price Regulation 592.

In the judgment of the Administrator, the requested prices are in line with the level of maximum prices otherwise established for comparable commodities by the regulation, and are, therefore, established by the accompanying order.

WHOLESALE PRICES FOR NEW RUBBER TIRES AND TUBES

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 7 of Revised Maximum Price Regulation 143; *It is ordered:*

(a) The maximum retail prices for the following new sizes of logger tires of S–11 rayon construction manufactured by The Gates Rubber Company, Denver, Colo., shall be:

Size	Ply	Maximum retail price
		Each
[illegible]	12	$89.53
[illegible]	12	108.60
[illegible]	14	135.30

(b) The maximum wholesale price for sales of the tires described in paragraph (a) above when sold by The Gates Rubber Company, Denver, Colo., shall be determined by applying the appropriate discount determined under section 3 (b) (2) RMPR 143 to the discount base for such tire listed below and adding to the price so computed the amount of the wholesale increase specified for such tire below:

Size	Ply	Discount base	Wholesale increase
[illegible]	12	$87.35	$5.59
[illegible]	12	105.95	6.78
[illegible]	14	132.00	8.45

(c) All provisions of Revised Maximum Price Regulation 528 not inconsistent with this order shall apply to retail sales of commodities covered by this order. All provisions of Revised Maximum Price Regulation 143 not inconsistent with this order should apply to wholesale sales of commodities covered by this order.

(d) This order may be amended or revoked by the Office of Price Administration at any time.

This order shall become effective September 20, 1946.

Issued this 19th day of September 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

OPINION ACCOMPANYING ORDER NO. 42 UNDER REVISED MAXIMUM PRICE REGULATION 143

The Gates Rubber Company, Denver, Colorado, has applied for approval of maximum retail prices for several sizes of Logger tires of S–11 rayon construction being added to its tire line. Since these tires are not listed in Appendix III to Revised Maximum Price Regulation 143 for the purpose of determination of wholesale prices when sold by the manufacturer or brand owner, it is necessary to establish such wholesale price by authorization under section 7 of that regulation. In connection with the establishment of wholesale prices, maximum retail prices may also be established under the provisions of that section since these tires are not priced at retail under the provisions of Revised Maximum Price Regulation 528 nor were they listed in any price list of the manufacturer as of February 1, 1944. This order therefore also establishes maximum retail prices for sales of these tires by any person.

The maximum prices fixed by this order bear the normal relationship to the maximum prices fixed by the regulations for other sizes of this type of tire and such maximum prices are consistent with the level of maximum prices otherwise fixed by RMPR 143 for wholesale sales and RMPR 528 for retail sales.

UNITED STATES RUBBER CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 16 (d) of Revised Maximum Price Regulation 528, *It is ordered:*

(a) The maximum retail prices for the following sizes of U. S. Royal Air Guard passenger car tubes manufactured by the United States Rubber Company, New York 20, New York, shall be:

Size:	*Maximum retail price, each*
6.00–16	$5.59
6.50–16	6.30
6.50–15	6.40
7.00–15	6.45
7.00–16	6.60
7.50–15	7.50
7.50–16	7.80

(b) All provisions of RMPR 528 not inconsistent with this order shall apply to sales covered by this order.

(c) This order may be revoked or amended by the Office of Price Administration at any time.

This order shall become effective September 20, 1946.

Issued this 19th day of September 1946.

Acting Administrator.

OPINION ACCOMPANYING ORDER NO. 139 UNDER REVISED MAXIMUM PRICE REGULATION 528.

The United States Rubber Company, 1230 Avenue of the Americas, New York 20, New York, has made application for approval of maximum retail prices for seven new sizes of U. S. Royal Air Guard passenger car tubes being added to its line. Maximum retail prices for these Special Purpose tubes are determined under paragraph (d) of section 16.

The maximum retail prices fixed by the accompanying order bear the normal relationship to the maximum prices fixed by the regulation for other sizes of this type of tube, and such maximum retail prices are consistent with the level of maximum prices otherwise fixed by the regulation.

WABER CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 16 (d) of Revised Maximum Price Regulation 528, *It is ordered:*

(a) The maximum retail price for a 12.00–24 Waber Special Purpose Truck tube manufactured for The Waber Co., Chicago, Illinois, shall be $38.40 each.

(b) All provisions of RMPR 528 not inconsistent with this order shall apply to sales covered by this order.

(c) This order may be revoked or amended by the Office of Price Administration at any time.

This order shall become effective September 20, 1946.

Issued this 19th day of September 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

OPINION ACCOMPANYING ORDER NO. 140 UNDER REVISED MAXIMUM PRICE REGULATION 528

The Waber Co. of Chicago, Illinois, has made application for approval of a maximum retail price for a new size Waber Special Purpose Truck tube being added to its line. A maximum retail price for this Special Purpose tube is determined under paragraph (d) of section 16.

The maximum retail price fixed by the accompanying order bears the normal relationship to the maximum prices fixed by the regulation for other sizes of this type of tube, and such maximum retail price is consistent with the level of maximum prices otherwise fixed by the regulation.

OSHKOSH MOTOR TRUCK, INC.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 7 of Maximum Price Regulation 610, *It is ordered:*

Order No. 1 under Maximum Price Regulation 610 is amended in the following respects:

1. The schedule in paragraph (a) (1) is amended to include the following truck model and its list price:

Model No.	Description	List price at factory
W–1700	Truck, chassis and cab, gasoline powered, 4-wheel drive, 28,000 pounds gross vehicle weight, 159" wheelbase; standard specifications and equipment as of January 1, 1941, for Model W–700, excepting the following modifications; elimination of 2-speed auxiliary transmission; lighter transfer case; single reduction replacing double reduction front and rear axles; elimination of one 50-gallon gas tank; elimination of pintle hook	$7,880

This amendment shall become effective September 19, 1946 for new Model W–1700 Oshkosh trucks and extra or optional equipment sold by the Company on and after September 19, 1946.

Issued this 19th day of September 1946.

JAMES G. ROGERS, JR.,
Acting Administrator.

OPINION ACCOMPANYING AMENDMENT 1 TO ORDER 9 UNDER MAXIMUM PRICE REGULATION 610

Oshkosh Motor Truck, Inc. has applied for a maximum price on its Model W–1700 truck, chassis with cab. This truck is a modification of truck Model W–700 for which the Company has a maximum price authorized under section 8 of Maximum Price Regulation 610.

The maximum price for a vehicle which is a modification of a vehicle that has a price under section 8 is determined under section 7. The price established under section 7 is one that consists of the price under section 8 for the vehicle which is modified plus or minus the difference in direct cost due to the modification.

In this case there is a reduction of direct cost due to the use of lighter components in the modified vehicle. It appears that the amount of the reduction is commensurate with the reduction in cost due to the modification. The resulting price which has been submitted by the Company is, therefore, in accordance with the provisions of section 7 and has been authorized in this action as a maximum price for the modified vehicle.

Regional and District Office Orders.

[Connecticut Order G–7 Under Gen. Order 68, Amdt. 3]

HARD BUILDING MATERIALS IN CONNECTICUT

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order No. 68, as amended, and Region I Second Revised Order of Delegation, Region I Order G–7 is amended in the following respects:

Section 2 of said order is amended by adding the following paragraph (d):

(d) Each seller covered by this order may increase the price of any item listed in Appendix A by the amount permitted all resellers of such item (Including those subject to area Orders Issued under General Order No. 68) by any amendment or order of the Office of Price Administration which increases the maximum prices of his supplier of that item. However, this can be done only if the effective date of the action increasing his supplier's maximum price is later than the date of the price table listing such item in said Appendix A. Thus, if the supplier's maximum price for a product is increased, and at some later date the price for the product listed in the price table is increased, the amendment to this order effecting the price table increase in said Appendix A will supersede the increase originally granted by the amendment or order increasing the supplier's maximum price.

Appendix A of said Order G–7, as amended by Amendments 1 and 2 thereto, is hereby deleted and the following Appendix A is substituted therefor:

OPINION ACCOMPANYING AMENDMENT NO. 3 TO REGION I ORDER NO. G–7 UNDER GENERAL ORDER NO. 68

This amendment increases resellers' maximum prices established by Region I Order No. G–7 issued under General Order No. 68 for certain hard building materials. This action has been taken in order to reflect the increases in producers' maximum prices for those commodities permitted by Amendments Nos. 44, 49, 51, 53, 54, 55 and 57 to Order No. 1 under Maximum Price Regulation No. 592, Amendment No. 17 to Maximum Price Regulation No. 224, Amendment No. 22 to Maximum Price Regulation No. 206, Amendment No. 8 to Revised Price Schedule No. 45 and Amendment No. 6 to Maximum Price Regulation No. 466.

For some items, increases were authorized by Amendments 1 and 2 to Order No. G–7, but for others this is the first increase in maximum prices since March 31, 1946. Under section 2 (t) of the Emergency Price Control Act of 1942, as amended, the stated percentage increase should permit resellers to increase their maximum prices for those commodities by the average percentage increase in their acquisition cost, this action should permit resellers to realize the same average percentage mark-up on these commodities as was in effect on March 31, 1946, and the purpose of this amendment is to accomplish that.

This amendment will have the effect, in accordance with section 1 (b) of Supplementary Order No. 172, of superseding the provisions of Supplementary Order No. 172 which modified resellers' maximum prices established under General Order No. 68 for certain building and construction materials. It is also intended that Amendments to said Order No. G–7 will be issued from time to time to reflect in Appendix A the permitted increases in maximum prices at the manufacturer's level.

The prices fixed in this amendment are generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and Executive Orders Nos. 9250, 9328, 9599 and 9697.

[Region II 2d Rev. Adopting Order 21 Under Basic Order 1 Under Gen. Order 68]

WESTERN SOFTWOOD PLYWOOD IN WESTERN NEW YORK AND NORTHWESTERN PENNSYLVANIA

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and under the authority vested in the Regional Administrator of Region II by the Emergency Price Control Act of 1942, as amended, by General Order 68 as amended, and by Revised Procedural Regulation No. 1, it is hereby ordered:

SECTION 1. *What this order covers.* This Second Revised Adopting Order under Basic Order No. 1 as amended, under General Order 68 as amended, covers all retail sales of the sizes and types of plywood listed in the annexed price tables made by sellers located in the Counties of Niagara, Erie, Chautauqua, and Cattaraugus in the State of New York, and the counties of Warren, Forest, Clarion, Armstrong, Westmoreland, Washington, Beaver, Butler, Allegheny, Lawrence, Mercer, Crawford, Erie and Venango, in the State of Pennsylvania, which counties constitute the portion of the States of New York and Pennsylvania in which the carload freight rate of plywood from Seattle, Washington is 98½¢ per CWT. All provisions of Basic Order No. 1 as amended, under General Order No. 68 as amended, are adopted in this order and are just as much a part of this order as if specifically set forth herein. If said Basic Order No. 1 is further amended in any respect the provisions of said Order as amended shall likewise without further action become part of this order. All persons subject to this adopting order are also subject to Basic Order No. 1 as amended under General Order No. 68 as amended, and should be familiar with the provisions of said order. This Second Revised Adopting Order supersedes Revised Adopting Order No. 21 under Basic Order No. 1 under General Order 68 issued May 27, 1946 and effective as of March 30, 1946, and said Revised Adopting Order No. 21 under Basic Order No. 1 under General Order No. 68 is revoked as of the effective date of this order.

SEC. 2. *Definition of retail sales.* A retail sale means any sale to the ultimate consumer, or to a contractor for installation rather than resale, except where the sale is made by a plywood manufacturer, or a plywood distribution plant who in 1941 received more than 20 percent of its dollar income from the sales of plywood or veneer of any kind. These latter types of sales remain subject to the provisions of 3d RMPR 13.

SEC. 3. *Maximum prices.* Maximum Prices as herein set forth are different for each of two classes of retailers:

Class I retailers are those who since June 20, 1945, purchased or purchase at least one carload of plywood on direct mill shipment. Any shipment which comes directly from the mill without becoming an integral part of the stock of a distribution plant or a retail yard is a direct mill shipment no matter who the seller is. Class II retailers are all other retail sellers principally those who buy their plywood from distribution plants.

Maximum prices for Class I retailers in quantities under 1,000 square feet are set forth in Table I-A hereto annexed and made a part of this order. Maximum prices for Class I retailers in quantities of 1,000 square feet and over are set forth in Table I-A hereto annexed and made a part of this order. Maximum prices for Class II retailers in quantities under 1,000 square feet are set forth in Table II-A hereto annexed and made a part of this order. Maximum prices for Class II retailers in quantities of 1,000 square feet and over are set forth in Table II-B hereto annexed and made a part of this order.

SEC. 4. *Additions for delivery.* The above prices include all charges and additions for delivery in the seller's free delivery zone as recognized by him during March 1942. No deduction need be made if the purchaser elects to do his own delivery. If delivery is made outside the free delivery zone, the seller may add for delivery as prescribed in section 4 and 5 of 3d RMPR 13, namely the amount computed by multiplying the estimated weights in section 22 of 3d RMPR 13 by the applicable rail freight rate. Any addition for delivery must be shown separately on the invoice.

SEC. 5. *Discounts and allowances.* The maximum prices in this order include all commissions. All customary discounts for cash must be continued. Differentials in price based on quantity sold must be observed as set forth in the price tables.

SEC. 6. *Relationship of this order to Basic Order No. 1 as amended, under General Order No. 68 as amended and to 3d RMPR 13.* As previously stated all provisions of Basic Order No. 1 as amended, are adopted by this order. The maximum prices fixed by this order supersede any maximum price or pricing method previously established by any other regulation or order and specifically by 3d RMPR. Except to the extent that they are inconsistent with the provisions of this order, all other provisions of 3d RMPR 13 shall remain applicable to sales covered by this order.

SEC. 7. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of his list of maximum prices as fixed by this order in each of his places of business within the area covered by this order. Class I sellers shall post Tables I–A and I–B, and Class II sellers shall post Tables II–A and II–B. Posting of Tables II–A and II–B, by Class I sellers is a violation of this order.

SEC. 8. (a) *Records and sales slips.* The provisions of section (e) of Basic Order No. 1 covering sales slips and records are adopted in and applicable to this order as though specifically set forth herein; and also on any sale of $50.00 or more each seller regardless of previous custom, must keep records showing at least the following:

(1) Name and address of buyer.
(2) Date of transaction.
(3) Place of delivery.
(4) Complete description of each item sold and price charged.

(b) *Maximum prices for insufficiently described items.* Where the seller's records or sales slip upon a sale of any commodity covered by this order in the area covered by this order, do not contain a sufficiently complete description to identify the exact nature, type, size, or quantity of the commodity, and thus determine the maximum price fixed by the applicable table of this order, the maximum price applicable to such sale shall be the lowest maximum price which can be computed under the applicable table of this order in accordance with the incomplete description.

SEC. 9. *Adjustments for resellers to reflect increases in supplier prices.*—(a) *Applicability.* This section is applicable only to resellers whose supplier's prices have been increased by amendment or order, and where the amendment or order, which grants the increase, provides that all resellers (including those subject to area orders issued under General Order 68) may increase their maximum prices for the commodity in question.

(b) Resellers may increase the prices listed in this order by any amount permitted for resellers by an industry wide or area wide amendment or order increasing the maximum prices of the suppliers of such resellers. This can be done, however, only if the effective date of the action increasing the supplier's maximum price is later than the date stated on the tables of prices contained in this order. Thus, if the subject's maximum price for a product is increased, and at some later date the price listed in this order is increased for this product, the amendment to this order will supersede the increase originally granted to resellers by the amendment or order which increased the supplier's maximum price.

SEC. 10. *Revocation or amendment.* This order may be revised, amended, revoked or modified at any time by the Regional Administrator or the Price Administrator.

This order shall be effective as of July 1, 1946.

Issued this 11th day of September 1946.

JAMES L. MEADER,
Regional Administrator.

Fir Plywood Retail Maximum Prices

Opinion Accompanying Second Revised Adopting Order No. 21 Under Basic Order No. 1 as Amended, Under General Order No. 68 as Amended

On May 27, 1946, Revised Adopting Order No. 21 under Basic Order No. 1 as amended, was issued effective as of March 30, 1946. This order fixed maximum prices at the retail level for Western softwood plywood for Western New York and Northwestern Pennsylvania, being the portions of the states of New York and Pennsylvania in which the carload freight rate on plywood from Seattle, Washington was then 93¢ per cwt. At the time of the issuance of that order, special mark-ups were applied to construction items of plywood, which have now been eliminated, and since the issuance of that order, a 6% increase in freight rates became effective July 1, 1946.

The accompanying order eliminates the distinction between construction and other plywood items, gives effect to the increased freight rate, and eliminates the cost absorption between March 31, 1946 and June 30, 1946, and preserves the retailers March 31, 1946 margin in compliance with the provisions of section 2 (t) of the Emergency Price Control Act of 1942 as amended. The accompanying order also contains an adjustment provision to reflect increases in suppliers prices.

The provisions of the accompanying order and their effect upon business practices, cost practices, and methods in the industry affected have been carefully considered, and no provision which might have the effect of requiring a change in such methods or practices, has been included, except to the extent that such change is necessary to prevent circumvention or evasion of this order.

The accompanying order supersedes Revised Adopting Order No. 21, under Basic Order No. 1 as amended, under General Order No. 68 as amended, which is revoked as of the effective date of this order, and the accompanying order takes effect as of July 1, 1946.

District Director.

Opinion Accompanying Amendment No. 1 to Adopting Order No. 45 Under Basic Order No. 1 as Amended Under General Order No. 68 as Amended

The accompanying amendment to Adopting Order No. 45 under Basic Order No. 1, as amended, under General Order No. 68, as amended, provides for varying amounts of price adjustments for ready-mixed concrete in the Northern New Jersey Area.

Adopting Order No. 45 was issued on June 12, 1946 and established as maximum prices for ready-mixed concrete the level of existing prices for the commodity. This level represented the producers' March 1942 prices plus an adjustment of 75 cents per cubic yard which had been granted on June 19, 1945.

Since the last price adjustment, producers of ready-mixed concrete have experienced increases in costs of sand and gravel. While operating data are available for the year 1945, such data are not adequate for pricing purposes because of the extremely depressed volume of most producers.

However, inasmuch as the adjustment granted in June 1945 was an amount sufficient only to return total costs of production to the highest cost producer whose output was necessary at the time of the adjustment and since the output of that producer is still required, it appears reasonable to conclude that there exists no ability on the part of the ready-mixed producers to absorb the recent cost increases.

Accordingly the accompanying amendment provides for adjustments which reflect recent cost increases in sand and gravel. The amount of adjustment provided for in the accompanying amendment represents the price relief requested by the majority of producers affected.

Hard Building Materials in Louisville, Ky., Area

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1-B, *It is hereby ordered*, That:

(a) Table I of Order No. G-8 be amended to read as set forth in the price list marked Table I, which is annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amendment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this amendment.

(c) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of Resellers Maximum Prices Established under General Order No. 68 for Certain Building and Construction Materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This Amendment No. 2 to Order No. G-8 shall become effective August 19, 1946.

Issued August 19, 1946.

J. F. Kessel,
Regional Administrator.

(2) All sellers covered hereby not located in any of the areas defined in (1) above shall deliver articles covered by this order free of charge to any point within a radius of eight miles of such sellers' places of business.

(3) On sales of $10 or more, all sellers covered hereby may charge 50 cents per ton for each 5 miles, or fraction thereof, by which the point of delivery is located beyond the sellers' free delivery zones as defined in (1) or (2) above.

A minimum delivery charge of $1.50 per load trip may be made for delivery to points beyond a seller's free delivery zone as defined in (1) and (2) above.

(4) On sales of less than $10, all sellers covered hereby, making delivery beyond the free delivery zones defined in (1) and (2) above, may charge an amount equal to the amount computed in (3) above, plus 50 cents.

OPINION ACCOMPANYING AMENDMENT NO 2 TO ORDER NO. G–8 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. Furthermore, section 10 (t) of the Emergency Price Control Act, as amended, provides that retail distributors shall be allowed their average percentage mark-up, as of March 31, 1946, over their average current acquisition costs.

In order to meet the requirements of section 10 (t) and to maintain maximum prices which are fair and equitable, the accompanying amendment is being issued.

In the opinion of the Regional Administrator, the provisions of the accompanying amendment are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of General Order No. 68, as amended.

[Region III Order G–29 Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN PAINESVILLE-LAKE COUNTY, OHIO, AREA

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1–B, *It is hereby ordered*, That:

(a) Table I of Order No. G–29 be amended to read as set forth in the price list marked Table I, which is annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amendment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this amendment.

(c) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of Resellers Maximum Prices Established under General Order No. 68 for Certain Building and Construction Materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This Amendment No. 1 to Order No. G–29 shall become effective August 19, 1946.

Issued August 19, 1946.

JOHN F. KESSEL,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER G–66 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. Furthermore, section 10 (t) of the Emergency Price Control Act, as amended, provides that retail distributors shall be allowed their average percentage mark-up, as of March 31, 1946, over their average current acquisition costs.

In order to meet the requirements of section 10 (t) and to maintain maximum prices which are fair and equitable, the accompanying amendment is being issued.

In the opinion of the Regional Administrator, the provisions of the accompanying amendment are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of General Order No. 68, as amended.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G–13 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122

The accompanying amendment deletes certain paragraphs of Order No. G–13 under Revised Maximum Price Regulation No. 122. These deletions were prompted by the issuance simultaneously herewith of Amendment No. 5 to Revised Order No. G–2, Amendment No. 7 to Order No. G–7, and Amendment No. 2 to Order No. G–9, all under Revised Maximum Price Regulation No. 122. The amendments to those orders incorporated therein those price increases provided for by the paragraphs deleted from Order No. G–13.

BUILDING MATERIALS IN EATON, OHIO, AREA

For the reasons set forth in an accompanying opinion, which has been filed with the Division of the Federal Register, and pursuant to the provisions of General Order No. 68 and of Regional Basic Order No. 1–B, *It is hereby ordered*, That:

(a) Table I of Order No. G–75 be amended to read as set forth in the price list marked Table I, which is annexed to and made a part of this order.

(b) Where the amendment or order, which grants your supplier an increase in his maximum price, provides that all resellers (including those subject to area orders issued under General Order No. 68) may increase their maximum price for the commodity in question, you may increase the price listed in this amendment by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. This can be done only if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this amendment.

(c) This amendment reflects the increase in maximum prices permitted by Supplementary Order 172 (Modification of Resellers Maximum Prices Established under General Order No. 68 for Certain Building and Construction Materials). Accordingly this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

(d) This Amendment No. 1 to Order No. G–75 shall become effective August 19, 1946.

Issued August 19, 1946.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G–75 UNDER REVISED GENERAL ORDER NO. 68

General Order No. 68 provides that the Regional Administrator may establish, by area orders, dollars-and-cents maximum prices for commodities under the jurisdiction of the Building and Construction Price Division of the Office of Price Administration. Such prices are not to exceed the general level of prices in the particular area and may be adjusted from time to time if the prices, previously established by area order, are, in the opinion of the Regional Administrator, no longer fair and equitable.

Since the issuance of the latest price list for hard building materials in this area, there have been price increases granted to manufacturers by the Office of Price Administration which, in turn, have resulted in higher acquisition costs to the retailers. Furthermore, section 10 (t) of the Emergency Price Control Act, as amended, provides that retail distributors shall be allowed their average percentage mark-up, as of March 31, 1946, over their average current acquisition costs.

In order to meet the requirements of section 10 (t) and to maintain maximum prices which are fair and equitable, the accompanying amendment is being issued.

In the opinion of the Regional Administrator, the provisions of the accompanying amendment are fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of General Order No. 68, as amended.

CONSTRUCTION SERVICES, INSTALLED BUILDING MATERIALS, AND PLUMBING SERVICES IN OKLAHOMA COUNTY, OKLA.

For the reasons set forth in the opinion issued simultaneously herewith and pursuant to the authority vested in the Regional Administrator of the Office of Price Administration by section 9 of Revised Maximum Price Regulation No. 251, it is hereby ordered:

(a) *What this order does.* This order revokes Order No. G–10 under Revised Maximum Price Regulation No. 251, Construction Services and Sales of Installed Building Materials Plumbing Services Supplied in Oklahoma County, Oklahoma, which established maximum prices for all sales of plumbing services and all sales of plumbing fixtures and materials on an installed basis when sold in the geographical area comprising the limits of Oklahoma County, Oklahoma, with certain exceptions covered by other price regulations.

(b) Maximum prices established by Order No. G–10 under Revised Maximum Price Regulation No. 251 will now be established pursuant to the appropriate Section of Revised Maximum Price Regulation No. 251.

(c) *Basis for revocation.* The Regional Administrator has found that the prices established by Order No. G–10 are not proper and suitable in that they do not effectuate the purposes of the Emergency Price Control Act of 1942, as amended. Therefore, the Regional Administrator revokes Order No. G–10 pursuant to the authority contained in Order No. G–10 under Paragraph (i).

(56 Stat. 23,765; 57 Stat. 566; Pub. Law 383, 78th Cong.; E. O. 9240; 7 F. R. 7871 and E. O. 9328, 8 F. R. 4681)

This order shall be effective this 4th day of September 1946.

Issued at Dallas, Texas, this 26th day of August 1946.

W. A. ORTH,
Regional Administrator.

OPINION ACCOMPANYING ORDER REVOKING ORDER NO. G–10 UNDER REVISED MAXIMUM PRICE REGULATION NO. 251

Pursuant to the authority vested in the Regional Administrator of Region V of the Office of Price Administration, by section 9 of Revised Maximum Price Regulation No. 251, the accompanying order revoking Order No. G–10 has been issued due to the fact that the Regional Administrator has determined that the reasons for the issuance of Order No. G–10 are not now valid and appropriate.

The Regional Administrator has found that it will now be suitable to establish maximum prices for those sales of commodities and services covered by Order No. G–10 pursuant to the provisions of Revised Maximum Price Regulation No. 251.

Accordingly, this order revoking Order No. G–10 under Revised Maximum Price Regulation No. 251 has been issued.

[Region VI Order G–3 Under MPR 452, Amdt. 1]

NEW AND REBUILT AUTOMOTIVE PARTS SOLD IN CHICAGO REGION

For the reasons set forth in the opinion issued simultaneously herewith and under the authority vested in the Regional Administrator for Region VI of the Office of Price Administration by section 14a of Maximum Price Regulation No. 452, it is ordered:

(a) *Effect of this amendment.* This amendment amends Order No. G–3 under Maximum Price Regulation No. 452 with respect to paragraph (c) 4 so that it shall read as follows:

(4) All practices required under Maximum Price Regulation No. 452, as amended, and No. 453, as amended, in determining and applying discounts, allowances, rebates, deductions and differentials are equally applicable to prices adjusted in accordance with this order; *Provided, however*, That any rebuilder of Ford Motors in Region VI is hereby permitted to increase by $16.12 his existing additional charge for a new replacement block under the following conditions:

(i) The motor block received in exchange cannot satisfactorily be reconditioned for use, and

(ii) The rebuilder purchases either of the following cylinder blocks from the Ford Motor Company:

(a) 41A–6010 or

(b) 59A–6010

Order No. G–3 provisions incorporated. Except as specifically modified by this amendment, all provisions of Order No. G–3 under Maximum Price Regulation No. 452, effective December 5, 1944, shall remain in full force and effect, and as to such provisions they are incorporated herein.

This amendment shall become effective August 2, 1946.

Issued this 27th day of July 1946.

EARL W. CLARK,
Acting Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G–3 UNDER MAXIMUM PRICE REGULATION NO. 452

The accompanying amendment is issued for the reasons set forth in the opinion accompanying Order No. G–3 issued November 30, 1944, and effective December 5, 1944, and for the further reasons stated below.

The Ford Motor Company sells cylinder blocks at a delivered price. Recently it was authorized maximum prices for its sales of cylinder blocks Nos. 41A–6010 and 59A–6010, resulting in increased cost to dealers of $16.12 per block. A motor rebuilder (classed as a "producer" or as a "manufacturer" within the meaning of Maximum Price Regulations 452 and 453 respectively), may under the accompanying amendment, increase by $16.12 his additional charge for a rebuilt motor when a motor with a cracked or otherwise unusual block is received as a trade-in and the rebuilt motor he sells contains either of the above numbered blocks purchased from the Ford Motor Company. The result will be to pass on to the consumer the additional cost to the rebuilder in consequence of the increase in price authorized to the manufacturer of the block, which increase, generally, is larger than the rebuilder's margin in the sale of the block. The additional charge authorized is for a new replacement block.

[Region IX Order G–10 Under RMPR 295]

CORNMEAL IN VIRGIN ISLANDS

For the reasons set forth in the accompanying opinion and under the authority vested in the Territorial Director of the Virgin Islands of the United States for the Office of Price Administration by section 9a (b) of Revised Maximum Price Regulation 395, *It is hereby ordered:*

(a) The maximum prices set forth in section 16 of Revised Maximum Price Regulation 395 for the commodities listed below are hereby adjusted and established as follows:

Item	Quantity	At wholesale, St. Croix, St. Thomas	At retail	
			St. Croix, St. Thomas	St. John
Cornmeal, bulk, all brands	98# bag	$8.80	$0.10	$0.10

(b) Except as provided by paragraph (a) above, the provisions of Revised Maximum Price Regulation 395 shall continue to apply to all sales and deliveries at wholesale and/or retail of cornmeal, bulk, all brands.

(c) This order shall be automatically revoked on the effective date of an amendment to Revised Maximum Price Regulation 395 adjusting maximum prices for sale of cornmeal, bulk, all brands. It may be amended or revoked at any time.

A copy of this order has been filed in the Territorial Office of the Virgin Islands of the United States for the Office of Price Administration, where it may be inspected by the public.

This order shall become effective as of August 27, 1946.

Issued this 27th day of August 1946.

JACOB A. ROBLES,
Territorial Director.

OPINION ACCOMPANYING ORDER NO. G–1C UNDER REVISED MAXIMUM PRICE REGULATION NO. 395

Cornmeal is an important and essential item in the diet of Virgin Islands consumers. Due to the greater allocation of grain to famine areas in Europe, island importers who heretofore imported the bulk of their supply from the mainland find it increasingly difficult to obtain adequate and constant supplies of cornmeal from mill representatives in the continental United States. In order to relieve an area-wide shortage of this essential item in the Virgin Islands, merchants have been forced to import cornmeal at higher prices from the intermediate high cost supply center of Puerto Rico. Since the removal of the subsidy on this item resulted in the granting of an increase of $1.10 per hundredweight at the manufacturer's level, with a pass-through at the wholesale and retail levels, thereby increasing the current cost of acquisition, it is necessary in the judgment of the Director to issue this general order adjusting the maximum prices for cornmeal in accordance with the provisions of Section 2 (t) of the Emergency Price Control Act of 1942, as amended.

This order increases the March 31, 1946 wholesale price by $3.80 per 100-lb. bag and the retail price by $0.04 per pound. The previous wholesale price was $5.00 per bag and the retail price $0.06 per pound. The situation is being watched for any changes that may require an upward or downward adjustment in the prices hereby established.

General Notes

The following general notes shall be a part of the tables to which they relate:
(I) To the prices listed in Tables I–13, inclusive, may be added the following:
(a) 10¢ per net ton as heretofore permitted by Order 6–11 under RMPR 122.
(b) The exact amount of the increase in railroad freight increases as a result of the order of the Interstate Commerce Commission of June 20, 1946, on Docket EX Parte 162, as permitted by Amendment 46 to RMPR 122.
(II) To the prices listed in Tables 1–12, inclusive may be added 18¢ per net ton, as permitted by Amendment 48 to RMPR 122.
(III) To the prices listed in Table XIII, may be added 30¢ per net ton, as permitted by Amendment 48 to RMPR 122.

This amendment to Revised Order G–2 shall become effective September 6, 1946.

Issued this 6th day of September 1946.

BEN C. DUNIWAY,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 5 TO REVISED ORDER NO. G–2 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122, SOLID FUELS SOLD AND DELIVERED BY DEALERS

The accompanying amendment revises the prices set forth in Tables I through XIII of Revised Order G–2 under Revised Maximum Price Regulation No. 122.

The price changes effected by this amendment for Wyoming, Utah and Montana coals (Tables I through IV–A), and Washington coals (Tables V through IX) were prompted because of increased prices at the producer level granted by terms of Amendments 146 and 158 to Maximum Price Regulation No. 120. In the case of Wyoming, Utah and Montana coals, the maximum prices were re-calculated upon the basis of these mine increases and were determined in the same manner as the prices established by the terms of Revised Order G–2. Relative to Washington mined coals, specific price increases have been allowed to reflect authorized increases at the mine level.

When Revised Order No. G–2 under Revised Maximum Price Regulation No. 122 was originally issued, maximum prices for the various types of out-of-state coals were on a fairly uniform basis, after taking into consideration mine and transportation costs, and selling margins. Recently authorized mine increases, however, have varied in amounts among the different coal producing districts. For this reason the same types of coals from the various districts will command different maximum prices.

Maximum price changes for Canadian coals and coke (Tables X through XIII) were deemed necessary because of the change in exchange rates between Canadian funds and American funds on July 5, 1946. The 10% premium which was granted on American funds was discontinued by the Canadian Government and the exchange basis of Canadian currency raised to par with American currency. As a result, adjusted maximum prices for Canadian coals at the mine level have been incorporated in Amendment No. 2 to Revised Order G–1 under Order 68, as amended, under section 21 of the Maximum Import Price Regulation. The price changes, then, for Canadian coals have been re-calculated to reflect this 10% increase in the price of such coal at the mine and were determined in the same manner as the prices established by the terms of Revised Order No. G–2.

Since the preparation of the basic tables, certain increases have been permitted by Amendments 46 and 48 to Revised Maximum Price Regulation No. 122. These increases have been reflected in this amendment to Revised Orer No. G–2 by the insertion of the general notes at the end of the tables. In addition, the increases permitted by Order Numbers G–11 and G–13 under Revised Maximum Price Regulation No. 122 have been reflected in this amendment. Consequently, simultaneously with this amendment, Order Numbers G–11 and G–13 are being amended to eliminate from their coverage those dealers covered by Order No. G–2.

For reasons stated above, the maximum prices established by this order are generally fair and equitable and are consistent with and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders No. 9250 and 9328.

The same considerations which prompted the issuance of Revised Order G–2 are present herein. For a complete statement of such considerations, reference is made to the opinion accompanying the revised order.

[Montpelier Rev. Order G–1 Under Gen. Order 68, Amdt. 1]

HARD BUILDING MATERIALS IN VERMONT

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order No. 68, as amended, Revised Order No. G–1 under General Order No. 68 is amended in the following respects:

The following items of Table I, Appendix A, are amended to read as follows:

Item	Unit	Price
Asphalt roll roofing, smooth-surface (1st grade).	Roll (35#)	$1 41
Do	Roll (45#)	2 10
Do	Roll (55#)	2 56
Do	Roll (65#)	2 81
Asphalt roll roofing, smooth-surface (2d grade).	Roll (35#)	1 31
Do	Roll (45#)	1 99
Do	Roll (55#)	2 25

This amendment shall become effective September 9, 1946.

Issued this 9th day of September 1946.

JAMES G. BURKE,
Acting District Director.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO REVISED ORDER NO. G–1 UNDER GENERAL ORDER NO. 68

The accompanying amendment to the above order establishes corrected prices for the sales of certain hard building materials in the State of Vermont.

An amendment to the revised order was necessitated by the fact that an error was made in calculating the new ceiling prices for these items.

The statements made in the opinion accompanying the revised order apply to this amendment.

General Notes

The following general notes shall be a part of the tables to which they relate:

1. To the prices listed in Tables I–XI, inclusive, may be added the following:
   (a) 10 cents per net ton as heretofore permitted by Order G–11 under RMPR 132.
   (b) The exact amount of the increase in railroad freight incurred as a result of the order of the Interstate Commerce Commission of June 20, 1946, on Docket Ex Parte 162, as permitted by Amendment 46 to Revised Maximum Price Regulation 122.
   (c) 18 cents per net ton as permitted by Amendment 48 to Revised Maximum Price Regulation 122.

[1] NOTE: To the maximum prices listed in Tables IV through VII inclusive, may be added the appropriate one of the following amounts:
$1.00 Per Ton
.55 ½ Ton

OPINION ACCOMPANYING AMENDMENT NO. 7 TO ORDER NO. G–7 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122, SOLID FUELS SOLD AND DELIVERED BY DEALERS

The accompanying amendment revises the prices set forth in Tables I through XI of Order G–7 under Revised Maximum Price Regulation No. 122.

The price changes effected by this amendment for Wyoming, Utah and Montana coals (Tables I through III–A) and Washington coals (Tables IV through VII) were prompted because of increased prices at the producer level granted by terms of Amendments 146 and 158 to Maximum Price Regulation No. 120. In the case of Wyoming, Utah and Montana coals, the maximum prices were re-calculated upon the basis of these mine increases and were determined in the same manner as the prices established by the terms of Order No. G–7. Relative to Washington mined coals, specific price increases have been allowed to reflect authorized increases at the mine level.

When Order No. G–7 under Revised Maximum Price Regulation No. 122 was originally issued, maximum prices for the various types of out-of-state coals were on a fairly uniform basis, after taking into consideration mine and transportations costs, and selling margins. Recently authorized mine increases, however, have varied in amounts among the different coal producing districts. For this reason the same types of coals from the various districts will command different maximum prices.

Maximum price changes for Canadian coals and coke (Tables VIII through XI) were deemed necessary because of the change in exchange rates between Canadian funds and American funds on July 5, 1946. The 10% premium which was granted on American funds was discontinued by the Canadian Government and the exchange basis of Candian currency raised to par with American currency. As a result, adjusted maximum prices for Canadian coals at the mine level have been incorporated in Amendment No. 2 to Revised Order G–1 under Order 68, as amended, under section 21 of the Maximum Import Price Regulation. The price changes, then, for Canadian coals have been re-calculated to reflect this 10% increase in the price of such coal at the mine and were determined in the same manner as the prices established by the terms of Order No. G–7.

Since the preparation of the basic tables, certain increases have been permitted by Amendments 46 and 48 to Revised Maximum Price Regulation 122. These increases have been reflected in this amendment to Order No. G–7 by the insertion of the general notes at the end of the tables. In addition, the increase permitted by Order Nos. G–11 and G–13, both under Revised Maximum Price Regulation 122 have been reflected in the

amendment. Consequently, simultaneously with this amendment, Order Nos. G–11 and G–13 are being amended to eliminate from their coverage, those dealers covered by Order No. G–7.

For reasons stated above, the maximum prices established by this order are generally fair and equitable and are consistent with and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended and Executive Orders Nos. 9250 and 9328.

The same considerations which prompted the issuance of Order G–7 are present herein. For a complete statement of such considerations, reference is made to the opinion accompanying the order.

SOLID FUELS IN SEATTLE, WASH., AREA

An opinion accompanying this amendment has been issued simultaneously herewith.

Order No. G–8 under Revised Maximum Price Regulation No. 122 is amended in the following respect:

1. Subparagraph (b) (3) is amended to read as follows:

(3) *Discount adjustments.* (i) The minimum discounts as otherwise established in subparagraphs (1) (i), (1) (ii) and (2) of this paragraph (b) shall be increased by 19 cents per net ton.

(ii) The minimum discount as otherwise established by subparagraph (1) (iii) of this paragraph (b) shall be increased by 30 cents per net ton.

This amendment shall become effective upon issuance.

Issued this 6th day of September 1946.

BEN C. DUNIWAY,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 2 TO ORDER NO. G–8 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122, SOLID FUELS SOLD AND DELIVERED BY DEALERS

Amendment No. 1 to Order No. G–8 under Revised Maximum Price Regulation No. 122 provided a 10 cent increase in discount, effective only for the period January 2, 1946, to April 30, 1946, inclusive. This amendment was predicated upon Amendment No. 40 to Revised Maximum Price Regulation No. 122 permitting a temporary 10 cent increase for sales by dealers at retail. This 10 cent increase for sales at retail has been made permanent by Amendment No. 40 to Revised Maximum Price Regulation No. 122.

In addition, Amendment No. 5 to Revised Order No. G–2 under Revised Maximum Price Regulation No. 122, issued simultaneously herewith, has increased dealers' maximum prices for sales at retail. In the absence of this amendment to Order No. G–8, this entire increase would be permitted by Order No. G–8 in wholesale sales. However, Amendment No. 48 to Revised Maximum Price Regulation No. 122 spelled out the increase to be allowed dealers selling at wholesale. This increase was less than that permitted dealers selling at retail. Consequently, since Order No. G–8 is based upon Revised Order No. G–2, it was necessary to increase the discounts provided by Order No. G–8. The increase permitted by Amendment No. 48 to Revised Maximum Price Regulation No. 122 to dealers in retail sales was 18 cents per net ton and 30 cents per net ton in the case of sales of coke. The increase permitted by the same Amendment No. 48 to dealers making wholesale sales of these commodities was 9 cents per net ton and 10 cents per net ton respectively. The discount rates were therefore increased 9 cents per net ton and 20 cents per net ton in the case of coke.

The net result of this amendment will be, therefore, an increase in dealers' maximum prices for sales at wholesale.

ROCK, SAND, AND GRAVEL PRODUCED IN LOS ANGELES COUNTY, CALIF., AND VICINITY

An opinion accompanying this amendment has been issued simultaneously herewith.

Order No. G–18 under Maximum Price Regulation No. 592 is amended in the following respects:

1. The title is amended to read as follows: "Order No. G–18 Under Maximum Price Regulation No. 592, Specified Construction Materials and Refractories, Adjusted Maximum Prices for Sales by Producers of Rock, Sand, and Gravel Produced in Los Angeles County, California, and Vicinity."

2. Paragraph (b) is amended to read as follows:

(b) *Maximum prices.* The maximum price at which producers of rock, sand, and gravel may sell or deliver any of the said products shall be the sum of the particular producer's maximum price for that product heretofore established in Order No. G–4 under Maximum Price Regulation No. 188 plus 7 per cent of that maximum price.

This amendment shall become effective as of August 23, 1946.

Issued this 4th day of September 1946.

BEN C. DUNIWAY,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. G–18 UNDER MAXIMUM PRICE REGULATION NO. 592

Order No. G–18 was intended to establish maximum prices for producers of rock, sand, and gravel in Los Angeles County, California, and vicinity. Through inadvertence it was extended to producers of truck-mixed concrete whose prices were already established by Order No. G–8 under Maximum Price Regulation No. 592.

This amendment, therefore, removes from the coverage of Order No. G–18 the producers of truck-mixed concrete formerly under that order. The effect will be that such producers will continue to price under Order No. G–8. This was the intent of Order No. G–18 when it was issued.

SERVICES AND SALES IN SAN FRANCISCO REGION

An opinion accompanying this amendment has been issued simultaneously herewith.

Order No. G–22 under Revised Maximum Price Regulation No. 251 is amended in the following respects:

(a) In Appendix B, Table 2, subparagraph (e) (2), the name of the publication, "A Price Guide on Plumbing Materials," is corrected to read, "Current Price Service."

(b) In Appendix D the following changes are made:

(1) In Table 1, subparagraph (e) (1) (i), the maximum hourly rate of $2.75 is changed to $2.90.

(2) In Table 2, subparagraph (e) (1) (i), the maximum hourly rate of $2.75 for Journeymen in the "Remainder of the area" is changed to $2.90.

(3) In Table 2, subparagraph (e) (2), the name, "Central Pricing Bureau," of the publisher of the Current Pricing Service is corrected to read "Current Price Bureau."

(4) In Table 3, subparagraph (e) (1) (i), the maximum hourly rate of $2.75 for employees of sellers in the "Remainder of the area" is changed to $2.90.

(5) In Table 4, subparagraph (e) (1) (i), the maximum hourly rate of $2.75 is changed to $2.90.

This amendment shall become effective upon issuance.

Issued this 4th day of September 1946.

BEN C. DUNIWAY,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 2 TO ORDER NO. G–22 UNDER REVISED MAXIMUM PRICE REGULATION NO. 251

The substantive effect of this amendment is to increase certain of the maximum hourly rates formerly prescribed by Order No. G–22 for sellers in the Nevada area. This increase has been necessitated by the fact that employees in the trade affected by this amendment have been granted wage increases by the War Stabilization Board.

Two minor changes in Table 2 of Appendices B and D have been made to secure uniformity in the citation of the "Current Price Service" published by the Current Price Bureau, 55 Montgomery Street, San Francisco, California.

EXEMPTION OF CERTAIN OFFICERS OF THE EXECUTIVE BRANCH OF THE GOVERNMENT FROM COMPULSORY RETIREMENT FOR AGE

NOTE: Executive Order No. 9780, filed with the Division of the Federal Register as F. R. Doc. 46–17078, on September 19, 1946, at 2:23 p. m., exempted the following officers of the executive branch of the Government from compulsory retirement for age: Clyde B. Aitchison, Commissioner, Interstate Commerce Commission; William A. Ayres, Chairman, Federal Trade Commission; Ewin L. Davis, Commissioner, Federal Trade Commission; Claude L. Draper, Commissioner, Federal Trade Commission; E. Dana Durand, Commissioner, United States Tariff Commission; Phillips L. Goldsborough, Director, Federal Deposit Insurance Corporation; Samuel B. Hill, Judge, Tax Court of the United States; Luther A. Johnson, Judge, Tax Court of the United States, and Harry H. Schwartz, Member, National Mediation Board.

EXECUTIVE ORDER 9781

ESTABLISHING THE AIR COORDINATING COMMITTEE

By virtue of the authority vested in me as President of the United States, and in order to provide for the fullest development and coordination of the aviation policies and activities of the Federal agencies, and in the interest of the internal management of the Government, it is hereby ordered as follows:

1. (a) There is hereby established the Air Coordinating Committee (hereinafter referred to as the Committee) which shall have as members one representative from each of the following-named agencies (hereinafter referred to as the participating agencies): the State, War, Post Office, Navy, and Commerce Departments and the Civil Aeronautics Board. The members shall be designated by the respective heads of the participating agencies. The President shall name one of the members as the Chairman of the Committee. The Director of the Bureau of the Budget shall designate a representative of the Bureau as a non-voting member of the Committee.

(b) Each officer or body authorized under subparagraph 1 (a) hereof to designate a member of the Committee shall also designate one or more alternate members, as may be necessary.

(c) The Committee shall establish procedures to provide for participation, including participation in voting, by a representative of any agency not named in subparagraph 1 (a) hereof in connection with such aviation matters as are of substantial interest to that agency.

2. The Committee shall examine aviation problems and developments affecting more than one participating agency; develop and recommend integrated policies to be carried out and actions to be taken by the participating agencies or by any other Government agency charged with responsibility in the aviation field; and, to the extent permitted by law, coordinate the aviation activities of such agencies except activities relating to the exercise of quasi-judicial functions.

3. The Committee shall consult with Federal interagency boards and committees concerned in any manner with aviation activities; and consult with the representatives of the United States to the Provisional International Civil Aviation Organization or to the permanent successor thereof and recommend to the Department of State general policy directives and instructions for the guidance of the said representatives.

4. The Committee, after obtaining the views of the head of each agency concerned, shall submit to the President, together with the said views, (a) such of the Committee's recommendations on aviation policies as require the attention of the President by reason of their character or importance, (b) those important aviation questions the disposition of which is prevented by the inability of the agencies concerned to agree, (c) an annual report of the Committee's activities during each calendar year, to be submitted not later than January 31 of the next succeeding year, and (d) such interim reports as may be necessary or desirable.

5. The heads of the participating agencies shall cause their respective agencies to use the facilities of the Committee in all appropriate circumstances

PART 953—LEMONS GROWN IN THE STATES OF CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Pursuant to Marketing Agreement No. 94 and Order No. 53 (7 CFR, Cum. Supp. 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, and the applicable provisions of the Agricultural Marketing Agreement Act, 1937, as amended (48 Stat. 31, 670, 675; 49 Stat. 757; 50 Stat. 746; 7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, Lemon Regulation 193 (11 F. R. 10261), effective September 15, 1946, is hereby amended as follows:

1. By deleting the phrase "275 carloads" and inserting, in lieu thereof, the phrase "325 carloads".

It is hereby found that such limitation of the quantity of lemons which may be handled during the period beginning at 12:01 a. m., P. s. t., September 15, 1946, and ending 12:01 a. m., P. s. t., September 22, 1946, will tend to effectuate the declared policy of the act.

It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Public Law 404, 79th Cong., 2d Sess.) is impracticable and contrary to the public interest in that the time intervening between the date the information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

Done at Washington, D. C., this 17th day of September 1946.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

PART 953—LEMONS GROWN IN THE STATES OF CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.301 *Lemon Regulation 194*—(a) *Findings.* (1) Pursuant to the marketing agreement and the order (7 CFR, Cum. Supp., 953.1 et seq.), regulating the handling of lemons grown in the State of California or in the State of Arizona, and the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., September 22, 1946, and ending at 12:01 a. m., P. s. t., September 29, 1946, is hereby fixed at 275 carloads, or an equivalent quantity.

(2) The prorate base of each handler who has made application therefor, as provided in the said marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached to Lemon Regulation 193 (11 F. R. 10261) and made a part hereof by reference. The Lemon Administrative Committee, in accordance with the provisions of the said marketing agreement and order, shall calculate the quantity of lemons which may be handled by each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used in this section, "handled," "boxes," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such word in the said marketing agreement and order.

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 19th day of September 1946.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[Orange Reg. 155]

PART 966—ORANGES GROWN IN THE STATES OF CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 966.301 *Orange Regulation 155*—(a) *Findings.* (1) Pursuant to the provisions of the order (7 CFR, Cum. Supp., 966.1 et seq.) regulating the handling of oranges grown in the State of California or in the State of Arizona, issued under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendation and information submitted by the Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of the quantity of such oranges which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that compliance with the notice, public rule making procedure, and effective date requirements of the Administrative Procedure Act (Pub. Law 404, 79th Cong., 2d Sess.; 60 Stat. 237) is impracticable and contrary to the public interest in that the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient for such compliance.

(b) *Order.* (1) The quantity of oranges grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., September 22, 1946, and ending at 12:01 a. m., P. s. t., September 29, 1946, is hereby fixed as follows:

(i) *Valencia oranges.* (a) Prorate District No. 1, zero (0) carloads; (b) Prorate District No. 2, 1,450 carloads; and (c) Prorate District No. 3, zero (0) carloads.

(ii) *Oranges other than Valencia oranges.* Prorate Districts Nos. 1, 2, and 3, zero (0) carloads.

(2) The prorate base of each handler who has made application therefor, as provided in the said order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference. The Orange Administrative Committee, in accordance with the provisions of the said order, shall calculate the quantity of oranges which may be handled by

each such handler during the period specified in subparagraph (1) of this paragraph.

(3) As used herein, "handled," "handler," "carloads," and "prorate base" shall have the same meaning as is given to each such term in the said order; and "Prorate District No. 1," "Prorate District No. 2," and "Prorate District No. 3" shall have the same meaning as is given to each such term in § 966.107 of the rules and regulations (11 F. R. 10258) issued pursuant to said order.

(48 Stat. 31, 670, 675; 49 Stat. 750; 50 Stat. 246; 7 U. S. C. 601 et seq.)

Done at Washington, D. C., this 19th day of September 1946.

Chapter XI—Production and Marketing Administration (War Food Distribution Orders)

[WFO 10, Amdt. 18]

PART 1432—RICE

SET-ASIDE REQUIREMENTS AND RESTRICTIONS ON DISTRIBUTION AND MILLING OF RICE

War Food Order No. 10, as amended (11 F. R. 3993, 5105, 5995) is hereby further amended to read as follows:

§ 1432.1 *Set-aside Requirements and restrictions on distribution and milling of rice*—(a) *Definitions.* (1) "Miller" means any person who mills more than 500 barrels of rough rice in any calendar month. When a person qualifies as a miller in any calendar month he shall thereafter be deemed to be a miller subject to all of the restrictions of this order until released therefrom by the Administrator upon a showing that he does not mill or intend to mill more than 500 barrels of rough rice in any calendar month and subject to reclassification as a miller if he subsequently mills more than 500 barrels of rough rice in any calendar month.

(2) "Rough rice" means the commodity defined as such by the "United States Standards for Rough Rice," as amended May 15, 1942.

(3) "Brown rice" means the commodity defined as such by the "United States Standards for Brown Rice," as amended May 15, 1942.

(4) "Milled rice" means the commodity defined as such by the "United States Standards for Milled Rice," as amended September 4, 1946.

(5) "Mill" means to convert rough rice into brown or milled rice.

(6) "Delivery" means the physical transfer of rice from a miller to a buyer. The transfer of rice by a miller to a truck, a railroad car, ship, or other vehicle for transportation to the buyer, regardless of the ownership or control of the vehicle being used for such transportation, shall constitute a delivery.

(7) "Barrel" means 162 pounds.

(8) "Deliveries into civilian channels" means all deliveries of rice except deliveries to a governmental agency, or to other persons under set-aside credit as provided in (c).

(9) "Governmental agency" means the Army, Navy, Marine Corps, or Coast Guard of the United States (excluding for the purposes of this order, United States Army post exchanges, United States Navy ships' service departments, United States Marine Corps post exchanges, and similar organizations), the United States Department of Agriculture (including, but not restricted to, any corporate agency thereof), the United States Maritime Commission, any approved ship supplier designated as such by the United States Maritime Commission or by the War Shipping Administration, the Veterans' Administration, or any other instrumentality or agency designated by the Secretary of Agriculture.

(10) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(11) "Administrator" means the Administrator, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

(12) "Order Administrator" means the Administrator of War Food Order No. 10, United States Department of Agriculture, Washington 25, D. C.

(13) "Secretary of Agriculture" means the Secretary of Agriculture, United States Department of Agriculture, Washington 25, D. C.

(14) "Commodity Credit Corporation" means the Commodity Credit Corporation, United States Department of Agriculture, Washington 25, D. C.

(b) *Set-aside requirements and restrictions applicable to millers.* (1) Beginning September 1, 1946 every miller shall set aside in each calendar month for sale and delivery to a governmental agency milled rice of one or more of the grades 1 to 6, including the special grades unpolished milled rice and parboiled milled rice, and of the classes I to XII, all inclusive, in an amount equal to 40 percent of the total combined quantity of brown and milled rice milled by him during such month.

(2) Beginning October 1, 1946 no miller shall make any deliveries of brown or milled rice into civilian channels in any calendar month unless: (i) he has set aside in each preceding calendar month after August, 1946 the quantity and quality of milled rice required by (b) (1); (ii) not later than the second business day of each calendar month after September, 1946 he offers to sell and deliver to Commodity Credit Corporation (in 100 pound bags of a type and quality specified by said Corporation in its rice purchase announcements issued from time to time and otherwise in accordance with the terms and conditions stated in such announcements) all milled rice required by (b) (1) to be set aside in the preceding month, less any quantities of such rice delivered during such preceding month to governmental agencies, or to persons other than governmental agencies for set-aside credit as provided in (c), and (iii) he has delivered to Commodity Credit Corporation in accordance with the offer required by (b) (2) (ii) all rice offered to and accepted by said Corporation for which the delivery period determined as provided in said rice purchase announcements has passed: *Provided*, That if the quantity of rice to be offered to Commodity Credit Corporation under (b) (2) (ii) by the second business day of any calendar month constitutes less than a carload lot, it shall be held in inventory and shall be added to the quantity otherwise required to be offered to said Corporation by the second business day of the following month.

(3) After September 19, 1946 no miller shall in any calendar month use any device or process in the milling or other processing of rice which has the effect of causing milled rice so produced to come within a grade lower than the grades specified in (b) (1) unless he has set aside for sale and delivery to a governmental agency the quantity and quality of rice required by (b) (1) to be set aside in such month and unless thereafter as provided in (b) (2) he offers to sell and deliver and does deliver the quantity and quality of rice specified in (b) (2) (ii).

(4) No miller, on any day when the quantity of milled rice set aside by him under this order and prior amendments thereof, for all full calendar months preceding such day but after July 31, 1945, and held by him in inventory for sale to a governmental agency, plus the quantity of rice delivered by him under credit against the set-aside requirements made by this order and prior amendments thereof for such preceding months, is less than the quantity of rice required by this order and prior amendments thereof to be set aside for such preceding months, shall after September 19, 1946: (i) use any device or process in the milling or other processing of rice which has the effect of causing milled rice so produced to come within a grade lower than the grades specified in (b) (1); (ii) produce any brown rice except in the performance of a contract with a governmental agency; (iii) deliver any brown rice or any milled rice of a grade and class required to be set aside by (b) (1) to any person who at the time of delivery is not entitled to receive set-aside rice under this order; (iv) pack any rice of the grades and classes specified in (b) (1) in other than 100-pound bags of a type and quality specified from time to time by Commodity Credit Corporation in its rice purchase announcements, except that rice under contract at the time of packing for delivery as a credit against the set-aside requirements of

this order may be packed in accordance with such contract.

(c) *Credits against set-aside requirements and exemptions.* (1) Deliveries in any calendar month by any miller in the State of California to persons other than governmental agencies of brown and milled rice for shipment to Puerto Rico, the Virgin Islands, and Hawaii may be credited against the set-aside requirements of (b) (1) for such month in an amount not exceeding 25 percent of the total quantity of brown and milled rice milled by such miller during such month, and deliveries in any calendar month by any miller in any State other than California to such persons of brown and milled rice for shipment to Puerto Rico, the Virgin Islands, and Hawaii may be credited against the set-aside requirements of (b) (1) for such month in an amount not exceeding 15 percent of the total quantity of brown and milled rice milled by such miller during such month

(2) The Administrator may upon application of any miller authorize such miller to deliver brown or milled rice to persons other than governmental agencies and to credit such deliveries against the quantity of milled rice required to be set aside under (b) (1) when satisfactory evidence is submitted to the Administrator that the brown or milled rice so delivered is to be subsequently delivered to governmental agencies in the form of rice or a product thereof.

(3) Deliveries to governmental agencies of grades and classes of brown and milled rice other than those specified in (b) (1) may be credited against the quantity of milled rice required to be set aside under (b) (1) if such deliveries are accepted by the governmental agencies and are made in the month for which the credit is claimed.

(4) The restrictions contained in this order shall not apply to rice owned by any individual for use in his own household.

(d) *Reports required.* (1) Every person who mills rough rice (except such rice as is exempted from restriction by (c) (4)), whether or not in excess of 500 barrels in any calendar month, shall mail to the Order Administrator prior to the 10th day of each calendar month (on a form furnished by the Order Administrator) a report for the preceding calendar month showing: (i) the quantity of rough rice milled by him; (ii) the quantities of brown and milled rice produced by him; (iii) the quantity of brown and milled rice shipped by him first, to governmental agencies; second, to export trade; and third, to the domestic civilian trade; (iv) the total quantities of brown and milled rice shipped by him to Puerto Rico, the Virgin Islands, and Hawaii, and the quantities so shipped for which set-aside credit is claimed; (v) the quantity of milled rice set aside for governmental agencies which remains unshipped at the end of the month for which the report is made; and (vi) a computation of his set-aside position to show the status of his compliance with this order at the end of the month for which the report is made.

(2) Every person subject to this order shall, for at least two years (or for such other period of time as the Administrator may designate), maintain an accurate record of his production of and transactions in rice.

(3) The Administrator shall be entitled to obtain such other information from and require such other reports and the keeping of such other records by any person as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order subject to the approval of the Bureau of the Budget.

(e) *Audits and inspections.* The Administrator shall be entitled to make such audit or inspection of the books, records, and other writings, premises, or stocks of rice of any person and to make such investigations as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(f) *Contracts.* The provisions of this order and all orders or regulations issued pursuant thereto shall be observed without regard to contracts heretofore or hereafter made or any rights accrued or payments made thereunder.

(g) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Petitions shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Administrator. If the petitioner is dissatisfied with the action taken by the Order Administrator, he may, by request addressed to the Order Administrator, obtain a review of such action by the Administrator. After said review, the Administrator may take such action as he deems appropriate, which action shall be final.

(h) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using rice. Any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Civil action may also be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provisions of this order.

(i) *Delegation of authority.* The Administration of this order and the powers vested in the Secretary of Agriculture, insofar as such powers relate to the administration of this order, are hereby delegated to the Administrator. The Administrator is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order.

(j) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise provided, be addressed to the Administrator, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C.

(k) *Territorial Scope.* This order shall apply within the 48 States and the District of Columbia.

(l) *Effective Date.* Except insofar as other effective dates are specified herein, the provisions of this order shall become effective as of 12:01 a. m., e. s. t., September 19, 1946. With respect to violations, rights accrued, liabilities incurred, or appeals taken under the provisions of War Food Order No. 10 as amended prior to said dates, all such provisions shall be deemed to remain in full force for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

NOTE: All reporting and record-keeping requirements of this order have been approved by, and all subsequent reporting and record-keeping requirements will be subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 228—FREE AND REDUCED-RATE TRANSPORTATION

FREE TRAVEL FOR POSTAL EMPLOYEES

Adopted by the Civil Aeronautics Board at its office in Washington, D. C. on the 16th day of September 1946. (Amendment No. 8 of § 228.1 of the Economic Regulations.)

The Civil Aeronautics Board, acting pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 205 (a) and 405 (m) thereof, hereby makes and promulgates the following regulation; finds that notice and public procedure thereon are unnecessary for the reason that such regulation is occasioned by reorganization of air postal offices within the Post Office Department and involves merely minor and technical amendment of existing authorizations which do not affect the general public; and finds that such regulation shall take effect in less than thirty days after publication thereof in order that the authorizations provided therein will be consistent with changes effected by such reorganization:

Effective immediately, subparagraphs (3), (4) and (5) of paragraph (a) of § 228.1 of the Economic Regulations are amended to read as follows:

(3) The Assistant Postmaster General who at the time is charged with the duty of the general management of post offices; the Assistant Postmaster General who at the time is assigned the supervision of Air Postal Transport, his Confidential Assistant, his Under Second Assistant, and his four Deputy Second Assistants; the Solicitor and the Assistant Solicitor of the Post Office Department.

(4) The Director of Domestic Air Postal Transport and the Director of Foreign Air Postal Transport.

(5) The five Regional Superintendents, and the five Assistant Regional Superintendents, Air Postal Transport, located respectively at New York, N. Y., Chicago, Ill., San Francisco, Calif., Atlanta, Ga., and Fort Worth, Texas.

TITLE 32—NATIONAL DEFENSE

Chapter VI—Selective Service System

[State Director Advice No. 339]

PART 672—STATE DIRECTOR ADVICES

ENLISTMENT IN ARMED FORCES PRIOR TO OCT. 6, 1946, AND BENEFITS UNDER "GI BILL OF RIGHTS"

Pursuant to the provisions of the Administrative Procedures Act, the following directive issued under authority of the Selective Training and Service Act of 1940, as amended, is hereby made a matter of record.

§ 672.339 *Enlistment in armed forces prior to October 6, 1946, and benefits under "GI Bill of Rights."* (a) This Headquarters has had presented to it the question of what advantages, in the matter of benefits under the "GI Bill of Rights," attach to those who enlist in the armed forces under the Voluntary Recruitment Act of 1945 prior to October 6, 1946 as distinguished from those who enter the armed forces by induction prior to or after October 6, 1946, or by enlistment after October 6, 1946.

(b) We have been advised by the Veterans Administration as follows:

The Servicemen's Readjustment Act (Public Law 346, 78th Congress) applies to anyone who served in the active military or naval forces of the United States during the period of World War II. It follows, therefore, that anyone who is drafted at the present time may be eligible for the benefits provided under said Act, but some of these benefits will depend upon the period of time served; and this period is, of course, problematical, inasmuch as it is not known when the war will be declared at an end. As to those veterans who enlisted or reenlisted subsequent to October 6, 1945, and prior to October 6, 1946, under the provisions of Public Law 190, 79th Congress, approved October 6, 1945, the period of the war for the purpose of benefits under the Servicemen's Readjustment Act will continue until the termination of such period of enlistment or reenlistment. Consequently, one who enlists or reenlists may be entitled to more substantial benefits than one who is drafted.

The benefits of the Servicemen's Readjustment Act are confined to those who served during the period of World War II, and the termination thereof is defined by Section 1502 of the Act to mean the termination of the war as declared by Presidential proclamation or by concurrent resolution of the Congress. It follows that under the Act as it now stands there is no authority to credit anyone with service for benefits thereunder after the termination of World War II except those veterans provided for under Public Law 190, 79th Congress, whose service may extend beyond the termination of the war.

(c) It would appear therefore that all persons who enter the armed forces, either by enlistment or induction, whether before or after October 6, 1946, become eligible for benefits under the "GI Bill of Rights" (Servicemen's Readjustment Act—Public Law 346, 78th Congress) providing, of course, that they otherwise qualify and depending in some measure upon the date when the war will be declared officially terminated. The only advantage that accrues to those who enlist under the Voluntary Recruitment Act prior to October 6, 1946, over other enlistees or over inductees, is that those enlistees will be assured service credit for the entire period of their enlistment should the war be declared terminated during such period of enlistment. Other veterans, under existing legislation, will not receive service credit for time served after the official termination of the war.

(d) The amount of service credit which a veteran has determines the amount of educational benefits and readjustment allowances to which he may be entitled, but is not involved in the other benefits under the "GI Bill." For instance, eligibility for loans under the "GI Bill" requires only the entrance into active military service prior to the termination of the war and the basic 90 days' service, any part of which may be served after the termination of the war. The amount of education to which a veteran will be entitled over and above the first

year, however, will depend entirely upon the amount of wartime service credit which he has, as will the number of weeks of readjustment allowances to which he may be entitled.

Director.

PART 672—STATE DIRECTOR ADVICES

RECLASSIFICATION OF 19 YEAR OLD REGISTRANTS

Pursuant to the provisions of the Administrative Procedure Act, the following directive issued under authority of the Selective Training and Service Act of 1940, as amended, is hereby made a matter of record.

§ 672.340 *Reclassification of 19-year old registrants.* (a) There exist numerous cases of registrants who were classified into a class available for service and who were not liable for induction by reason of that classification because of the passage of an amendment to the Selective Training and Service Act of 1940, which prohibited the induction of registrants under the age of 19 years without their consent. Subsequent to that time, many of these registrants have become or will become liable for service in the armed forces.

(b) Such registrants should be allowed an opportunity to present any new information to local boards following which classification will be considered anew. Thus, all registrants who have become 19 years of age subsequent to the enactment of Public Law 473, and who were classified prior to June 29, 1946, shall have their cases reopened and their classifications considered anew prior to being processed for induction.

Issued: September 18, 1946.

Director.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-973]

LOUIS RUBEN AND BERNARD RUBEN

Louis Ruben and Bernard Ruben of 66-68 E. Long Street, Columbus, Ohio, began on or about May 16, 1946 without authorization from the Civilian Production Administration construction consisting of the altering and remodeling of two store rooms located at 66-68 E. Long Street, Columbus, Ohio. The estimated cost of such construction exceeded the $1,000 limit permitted by Veterans' Housing Program Order No. 1, and was in violation thereof. This violation has diverted critical materials to uses not authorized by the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.973 *Suspension Order No. S-973.* (a) Neither Louis Ruben nor Bernard Ruben, their successors and assigns, nor any other person shall do any further construction on the two store rooms located at 66-68 E. Long Street, Columbus, Ohio, including completing or altering the structures, unless hereafter authorized in writing by the Civilian Production Administration.

(b) Louis Ruben and Bernard Ruben shall refer to this Order in any application or appeal which they may file with the Civilian Production Administration for priorities assistance or for authorization to carry on construction.

(c) Nothing contained in this order shall be deemed to relieve Louis Ruben and Bernard Ruben, their successors and assigns, nor any other person from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, Direction 17 as Amended Sept. 20, 1946]

SALE OF CARBON STEEL BLACK ANNEALED OR GALVANIZED WIRE BY WAR ASSETS ADMINISTRATION

The following amended direction is issued pursuant to Priorities Regulation 13:

(a) *What this direction does.* There is an urgent need for carbon steel black annealed or galvanized wire suitable for use in making wire bale ties for baling hay, straw, alfalfa, other farm products, paper and rags, since this type of wire is not readily obtainable in sufficient quantities from new production.

The purpose of this direction is to earmark not more than 7,500 tons of carbon steel black annealed or galvanized wire in gauges 12-16 inclusive held by War Assets Administration as surplus property, and to make this material available for the above uses. It permits sales by WAA only to buyers who give the certification described in paragraph (b), except that 15% of any lot may be disposed of to other buyers. The direction only applies to wire of the type described which is declared surplus in Iowa, Minnesota, Missouri, or states east of the Mississippi River.

Although this direction restricts certain sales to persons who will use the wire for the purposes specified, it does not prohibit WAA from making sales, to the persons and for the purposes specified, upon such other terms and in such quantities as WAA may determine; and preference ratings have no effect upon any sales which may be made by WAA, either by way of obliging it to sell or by way of determining as among the several buyers permitted by this direction who shall get the material from WAA.

(b) *Restriction on sales by WAA.* WAA may not sell wire of the type described in paragraph (a), except to purchasers described below:

(1) With respect to any lot of wire which WAA determines is available for sale, 85% may be sold only to buyers who give a certificate with their purchase orders in substantially the following form:

> The undersigned certifies to the seller and CPA subject to the criminal penalties of section 35 (A) of the U. S. Criminal Code, that (1) he is a producer of wire bale ties; and (ii) the material obtained under this purchase order will be used only for the production of wire bale ties suitable for use in baling hay, straw, alfalfa, other farm products, paper and rags.

The standard certificate in Priorities Regulation 7 may not be used instead of this certificate.

(2) The other 15% may be sold freely to other buyers in accordance with the Surplus Property Act of 1944 and applicable regulations of WAA.

(c) *Obligations of persons giving certificates.* Any person giving the certificate described above may obtain and use the material he gets with the certificate only in accordance with its terms.

(d) *Expiration date.* Unless sooner revoked this direction shall expire on November 30, 1946, or as soon as WAA has sold to buyers under paragraph (b) (1) 7,500 tons of the type of wire described in paragraph (a), if that occurs before November 30, 1946. The expiration of the direction shall not relieve any person who has obtained wire by use of the certificate referred to above from the obligation of using the wire in accordance with the certificate which he has given.

Issued this 20th day of September 1946.

PART 4600—RUBBER, SYNTHETIC RUBBER AND PRODUCTS THEREOF

[Rubber Order R-1, as Amended Aug. 21, 1946, Amdt. 1]

Rubber Order R-1, as amended August 21, 1946, is hereby further amended in the following respects:

1. Amend paragraph (h) of § 4600.01 to read as follows:

(h) "Consume" means to compound, expend, formulate, or in any manner make any substantial change in the form, shape or chemical composition of natural rubber, natural rubber latex, synthetic rubber, or reclaimed rubber.

2. Amend § 4600.02, *Authorized consumption*; to read as follows:

§ 4600.02, *Authorization required to consume raw materials.* No person shall consume any of the following materials:

Natural rubber
Natural rubber latex
Butyl

until he has received an authorization to do so from the Civilian Production Administration on Form CPAI 3563. Applications for an authorization to consume any of these materials shall be made on Form CPA 4488, pursuant to instructions accompanying that Form, not later than the first day of the month next preceding the calendar quarter for which the authorization is required. The authorizations to consume on Form CPAI 3563 will be mailed by the Civilian Production Administration to applicants filing Form CPA 4488 on approximately the 20th day of the month next preceding the calendar quarter for which the consumption is authorized.

Chlorinated natural rubber. Consumption of chlorinated natural rubber no longer requires an authorization. Any person may consume chlorinated natural rubber without specific authorization from the Civilian Production Administration under the conditions specifically indicated in Table B of Appendix I.

(a) *Restrictions on consumption.* No person shall consume in any one calendar quarter, any of the materials listed above except in the amounts and for the purposes authorized on Form CAPI 3563 and in accordance with the special restrictions or provisions in Appendix I and the manufacturing regulations in Appendix II. In addition, these materials may be consumed for experimental use without authorization to the extent permitted in Table A in Appendix I.

(1) *Thick and thin pale crepe and natural rubber latex* may only be used for the products specifically indicated in Table B of Appendix I.

3. Delete entirely § 4600.03, *Permitted uses.*

4. Amend § 4600.04, *"Purchase procedure"*, to read as follows:

§ 4600.04 *Purchase requests for natural rubber, natural rubber latex or butyl.* Purchase requests for natural rubber, natural rubber latex and butyl must be made on Form CPA-3682 in accordance with instructions accompanying the form.

Consumers of chlorinated natural rubber and any consumer of synthetic rubber which is privately produced may purchase directly from the producer subject to the inventory restrictions of § 4600.06.

Material purchased, the consumption of which is subject to authorization on Form CPAI-3563, may be consumed only to the extent authorized on Form CPAI-3563 in any one calendar quarter and in accordance with applicable manufacturing regulations. For purchases of material for experimental use, see Appendix I below.

Purchase requests for butyl plant clean-up material shall be made on Form CPA-3682 in accordance with instructions accompanying the form. Butyl plant clean-up material must be specified on the form.

5. Amend § 4600.05, *Restrictions on deliveries of material*, to read as follows:

§ 4600.05 *Restrictions on deliveries of materials.* No person shall deliver any natural rubber, natural rubber latex, butyl, or GR-S (all types, including GR-S latex) except as specifically authorized by the Civilian Production Administration or as permitted by regulations of the Office of Rubber Reserve. Delivery of these raw materials, except GR-S (all types, including GR-S latex) will be authorized only for uses permitted by Table A and for products specified in Table B both of Appendix I below; delivery of all other raw rubber materials shall be subject only to the inventory restrictions contained in 4600.06 below; the poundage authorized will take into account the consumption capacity of the applicant and his reports of actual consumption received monthly on Form CPA-3410; in no event will the amounts authorized exceed the inventory restrictions specified in 4600.06 below. Nothing contained in this section shall be deemed to prohibit:

(a) Delivery of natural rubber, natural rubber latex, synthetic rubber of any type or reclaimed rubber from one location to another location controlled by the same person where no change of ownership takes place, or by any corporation to another corporation which is its subsidiary or of which it is a subsidiary within the continental limits of the United States.

(b) Any person from accepting delivery from another of natural rubber, natural rubber latex, synthetic rubber of any type or reclaimed rubber for the purpose of milling, washing, deresinating, drying, compounding or conditioning the same, or for processing or manufacturing products therefrom, and thereafter returning the same or the products thereof to such other person.

6. Amend Table A—"General Permitted Uses of Materials" to read as follows:

TABLE A—GENERAL PERMITTED USES OF MATERIALS

Type of material	General permitted uses subject to applicable end product restrictions	Monthly consumption for experimental use without specific authorization
Natural rubber.	In the manufacture of products listed in Table B below for which natural rubber is specifically permitted, subject to any applicable manufacturing regulations or restrictions, but only in the amount authorized on Form CPAI-3563.	25 pounds.
Natural rubber latex.	In the manufacture only of products specifically designated in Table B, subject to any applicable manufacturing regulations or restrictions, but only in the amount authorized on Form CPAI-3563.	None.
Chlorinated natural rubber.	In the manufacture of products listed in Table B below for which chlorinated natural rubber is specifically permitted, subject to any applicable manufacturing regulations or restrictions. (Use of Form CPA-3662 or CPAI-3563 is not required.)	None.
Butyl.....	In the manufacture of products listed in Table B below for which Butyl is specifically permitted, subject to any applicable manufacturing regulations or restrictions, but only in the amount authorized on Form CPAI-3563.	200 pounds.

Experimentation need not be confined to permitted uses, but none of the products produced or resulting from experimentation may be sold. Natural rubber and natural rubber latex are not permitted in the experimental manufacture of cements of any type. Materials in the amounts indicated may be diverted from inventory or from purchase for manufacturing operations. If manufacturer does not have inventory of natural rubber or natural rubber latex, application for permission to purchase should be made on Form CPA-3682. Such applications must definitely state that the natural rubber or natural rubber latex is to be used for experimentation and name the end product on which the experiment is to be made. To purchase butyl rubbers for experimental purposes, make applications to Sales Division, Office of Rubber Reserve, Reconstruction Finance Corporation, Washington 25, D. C.

For permission to consume materials for experimental use, in excess of the amounts authorized, file Form CPA-2242, in accordance with § 4600.14 of this order.

7. Amend Table B of Appendix I, "Permitted Products" by changing the textual paragraphs preceding the Code descriptions to read as follows:

TABLE B—PERMITTED PRODUCTS 1946

For general permitted uses of material in the manufacture of products, see Table A above.

Form CPA-2242 should not be used in applying for permission to consume any material for a purpose which is permitted by Appendix I or Appendix II.

Monthly consumption of natural rubber, natural rubber latex or butyl, will be permitted on the basis of uses shown in this appendix, but only to the extent that material is available.

Explanation of Table B Columns and Symbols:

The first column shows to what extent natural rubber authorized on Form CPAI-3563 may be used in the manufacture of particular products. The second column shows to what extent natural rubber latex authorized on Form CPAI-3563 may be used in the manufacture of particular products. The third column shows to what extent butyl authorized on Form CPAI-3563 may be used in the manufacture of particular products.

The natural rubber, natural rubber latex, or butyl column is blank when applicable regulations in Appendix II or special restrictions in the last column of Appendix I limit the use of these materials.

"O" indicates that the use of the material is prohibited, subject to any special restrictions or provisions applicable to the particular products.

"X" indicates that the material may be consumed in the minimum quantities required by a manufacturer who has received authorization to consume on Form CPAI-3563 subject to any special restrictions or provisions applicable to the particular product.

Percentage figures indicate maximum percent of total volume of compound, unless otherwise specified.

The rubber hydrocarbon (designated RHC in this table) is the sum total of natural rubber, synthetic rubber and the rubber hydrocarbon value of reclaimed rubber. The rubber hydrocarbon value of reclaimed rubber shall be calculated from the rubber value of reclaimed rubber as certified by the manufacturer of the reclaimed rubber and shall be determined by the "difference or indirect" method.

8. Amend Code 22C in Table B of Appendix I by inserting the following two items:

Code No.	Product	Percent natural rubber	Percent natural rubber latex	Butyl	Special restrictions or provisions
22E	Chlorinated natural rubber and cyclized rubber for protective coatings, including paints.	----	0	0	Natural rubber not exceeding 15% of the average monthly consumption of RHC during the year ending March 31, 1941 permitted monthly.
	Chlorinated natural rubber for the manufacture of cement for any purpose.	----	0	0	The over-all monthly consumption of chlorinated natural rubber and synthetic rubber shall not exceed the ratio of ¾ chlorinated natural rubber to ¼ synthetic rubber.

9. Amend Code 16 by deleting Code 16C.

PART 4600—RUBBER, SYNTHETIC RUBBER AND PRODUCTS THEREOF

[Rubber Order R-1, Appendix II as Amended Aug. 15, 1946, Amdt. 2]

Rubber Order R-1, Appendix II, as amended August 15, 1946, is hereby further amended as follows:

1. In List 8, Manufacture of Tires and Tire Casings, amend Table A to read as follows:

TABLE A—ALL TYPES OF PNEUMATIC TIRES

Size and type	Tire construction	Tire marking	Maximum percent[1] natural rubber of total RHC by weight, rayon, nylon, or cotton
All airplane, all intercity bus mileage, all low platform trailer and all wire tires	S-11	None	94
8.25 and up (all types)	S-11	None	94
7.50 and down—All types except passenger, motorcycle, tractor, implement, industrial pneumatic and bicycle	S-7	None	67
All passenger, motorcycle, tractor, implement, and industrial pneumatics	S-4	S-3	13
All other pneumatic tires	S-3	S-3	2.5

[1] Individual sizes may exceed the indicated maximum percentage, provided the average natural rubber content of all sizes within the groups as listed in this Table A, does not exceed the indicated maximum percentage. No tire within the group shall be manufactured with a natural rubber content more than 5 percent greater than maximum allowable percentage of total RHC for tires in that group, for example an 8-7 individual size may be 72 percent.

2. Amend List 9, paragraph (3) to read as follows:

(3) Natural rubber shall be consumed in the manufacture of tubes subject to the following regulations:

Optional in all tubes 18" diameter and under except passenger, tractor, implement or light truck tubes.
Optional in all 6.00 cross section and larger truck, tractor and implement tubes except 15 and 16 inch diameters.
Mandatory in 7.00 cross section and larger except passenger, tractor, implement or light truck tubes.

3. Amend List 9, paragraph (4) to read as follows:

(4) The manufacture of tubes from GR-I (Butyl) shall be permitted in all other sizes except bicycle.

4. Amend List 10 to read as follows:

(a) *Manufacturing regulations.* The use of natural rubber in the manufacture of tire flaps shall be subject to the following regulations:

	Maximum percent natural rubber of total RHC by weight
Flaps for 12.00 cross section and larger tires	X
Flaps for 11.00 cross section and smaller tires	50

5. Amend List 13, paragraph (2) to group the two full circle curing tube items together as follows:

	Maximum percent natural rubber of total RHC by weight
Full circle curing tubes	X

Chapter XI—Office of Price Administration

PART 1312—LUMBER AND LUMBER PRODUCTS

[MPR 535-1,[1] Amdt. 9]

INSULATION AND FELT CORDWOOD AND RELATED PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 11 of Maximum Price Regulation 535-1 is amended by the addition of the following undesignated paragraph to subsection (c) (5):

Where the maximum price for insulation and felt cordwood and related products has been increased subsequent to March 31, 1946, the consumer may compute the dealer's commission by applying to the current f. o. b. car price, established by this regulation, the same percentage mark-up that was in effect over the f. o. b. car price on March 31, 1946. In applying this percentage, the consumer may round off the resulting increased commission per cord to the nearest cent.

This amendment shall become effective September 20, 1946.

Issued this 20th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 9 TO MAXIMUM PRICE REGULATION NO. 553-1

This amendment allows consumers of insulation and felt cordwood and related products to compute dealers' allowances on these items by applying the percentage mark-up, in effect on March 31, 1946, over and above the appropriate producer f. o. b. car price as set forth in Maximum Price Regulation No. 535-1.

This action is taken in order to comply with Section 2, subsection (t) of the Emergency Price Control Act of 1942, as amended. Dealers in insulation and felt cordwood and related products are considered to be wholesale distributors of these items and, as such, are entitled to such benefits as Section 2, subsection (t) of the Act provides.

Previous to this amendment, the amount of the dealer allowance, for each zone where permitted, was specified in dollars and cents. This amendment now allows dealers in insulation and felt cordwood and related products buying cordwood cut from the stump in each of these zones the same percentage mark-up, in effect on March 31, 1946, above the appropriate producer f. o. b. price set forth in the regulation. This mark-up may be maintained in line with any increases in producer f. o. b. car prices which have been or may be authorized subsequent to March 31, 1946. Consumers, in computing the changes in dealers' allowances authorized by this amendment, may apply the appropriate percentage mark-up as it existed on March 31, 1946, and may round off to the nearest cent the resulting changes in allowances per cord.

Increases in producer f. o. b. car prices have been authorized subsequent to March 31, 1946, in only those areas comprising zones 464-III to 464-VII, inclusive (Amendment 6, effective May 6, 1946). This amendment, therefore, has the immediate effect of providing changes in the amount of dealers' allowances in these zones only.

In view of the foregoing considerations the Price Administrator finds that this amendment is reasonable and proper and consistent with the purposes and standards of the Emergency Price Control Act of 1942, as amended, and the relevant Executive Orders of the President.

PART 1351—FOOD AND FOOD PRODUCTS

[MPR 421,[1] Amdt. 35]

CEILING PRICES OF CERTAIN FOODS SOLD AT WHOLESALE

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.

Section 13 is amended by adding paragraph (i) to read as follows:

(i) *Limitations on sales of "seed beans".* Regardless of any other provisions of this regulation, you may not sell any of the varieties of dry edible beans covered by Second Revised Maximum Price Regulation 270[2] as seed beans unless you buy and resell them in original containers of a minimum net weight of 100 pounds (or 90 lbs. in the case of blackeye beans) and unless they meet all of the provisions of the definition of "certified seed beans" or "selected seed beans", whichever is applicable, set forth in that regulation. In all other cases, whether the beans are seed or non-seed, your ceiling price is your ceiling price for commercial quality beans of the particular variety and grade. If you have no ceiling price for that particular variety and grade you must, before making any sales of the item, figure your ceiling price for it on the basis of the net cost of the most recent delivery to you, not to exceed your supplier's ceiling price for commercial (not seed) quality of the item, according to section 5.

This amendment shall become effective September 25, 1946.

Issued this 20th day of September 1946.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 35 TO MAXIMUM PRICE REGULATION 421, AMENDMENT 78 TO MAXIMUM PRICE REGULATION 422, AND AMENDMENT 74 TO MAXIMUM PRICE REGULATION 423

Second Revised Maximum Price Regulation 270 (Dry Edible Beans and Certain Other Dry Food Commodities) has been amended so as to restrict the exemption of sales of seed beans. References made to the statement of considerations accompanying Amendment 16 to that regulation for details. In order to complete the action it is necessary that similar restrictions be imposed on wholesalers and retailers. Accordingly, the accompanying amendments are issued to prohibit wholesalers and retailers from selling dry edible beans as seed unless the goods meet the requirements and conditions that have been incorporated into the dry bean regulation by the above mentioned amendment. Henceforth wholesalers and retailers may only sell seed beans in the original hundred pound containers. Otherwise they are limited to their ceiling prices for ordinary commercial quality beans.

PART 1360—MOTOR VEHICLES AND MOTOR VEHICLE EQUIPMENT

[MPR 610, Amdt. 4]

MAXIMUM PRICES FOR NEW TRUCKS AND NEW MOTORCYCLES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 610 is amended in the following respects:

Paragraph 10 (c) (1) is amended to read as follows:

(1) *When the manufacturer prepays freight charges for the new truck or new motorcycle.* The amount which the manufacturer charges for the shipment of the new vehicle and extra or optional equipment to the location at which delivery is made to the reseller including transportation tax. However, when the manufacturer ships the new vehicle and extra or optional equipment to a body builder and prepays the freight only to that point, the reseller may charge, in addition to the prepaid charge, an amount computed in accordance with the provisions of paragraph (2) below for transportation of the complete vehicle from the body building factory to the point at which delivery is made to the purchaser; or

This amendment shall be effective September 25, 1946.

Issued this 20th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT NO. 4 TO MAXIMUM PRICE REGULATION NO. 610

This amendment to section 10 (c) (1) permits resellers for whom the factories prepay freight to make a charge to cover their cost of transportation of a new truck from a body building factory to the place at which delivery is made to the purchaser. Prior to this action the wording in section 10 (c) (1) did not permit such resellers to recover their cost of transporting the vehicle after the body was installed. The amendment corrects this situation.

PART 1351—FOOD AND FOOD PRODUCTS

[MPR 585, Amdt. 9]

MIXED FEEDS FOR ANIMALS AND POULTRY

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation 585 is amended in the following respects:

1. Section 2.1 (a) (viii) is amended to read as follows:

(viii) Mixtures of wheat, rye, corn, oats, feed oats, mixed feed oats, barley, grain sorghums, buckwheat, and any livestock or poultry feeds processed or manufactured entirely from any one or more of these whole grains.

2. Section 2.1 (a) (ix) is hereby deleted:

3. Section 3.7 (a) is amended by adding at the end thereof the following:

On shipments to a destination in an area which is not included in his 1942 system of differentials, he may, if he desires, use the differentials in effect on shipments to the point nearest such destination that takes the same or a lower flat freight rate from shipping point, increased by the difference, if any, between the flat rate from shipping point to such point and the flat rate from shipping point to the applicable destination. The applicable differential plus 3% to compensate for the tax provided for in section 620 of the Revenue Act of 1942 and an amount to reflect his average increase in freight rates granted by the Interstate Commerce Commission order in ex-parte No. 162 and ex-parte No. 148 shall be deemed to be the "transportation costs" for purposes of this regulation.

4. A new paragraph (4) is added to section 4.1 (e) to read as follows:

(4) Any differential between a Class A and a Class C plant established under paragraphs (1), (2) or (3) of this paragraph (e) may be increased to reflect a manufacturer's increase in freight rates on shipments from such Class A to such Class C plant granted by the Interstate Commerce Commission order ex-parte No. 162 and ex-parte No. 148.

5. Section 4.2 (b) (3) (b) is amended to read as follows:

(b) In computing your "control price" for any subsequent price list for any ingredient not subject to price control you may use either:

(i) The reasonable market value of such ingredient at your plant on the date upon which you compute your list price, or

(ii) Your base ingredient price as determined under section 4.2 as of June 30, 1946, or

(iii) An adjusted base ingredient price as determined under the provisions of section 4.3.

6. A new paragraph (i) is added to section 4.2 to read as follows:

(i) *Increased freight costs.* There may be added to your base ingredient cost as determined under the other provisions of this section 4.2, any increase therein resulting from the increase in freight rates granted by the Interstate Commerce Commission order in ex-parte No. 162 and ex-parte No. 148.

7. A new paragraph 6 is added to section 4.9 (a) to read as follows:

(a) If your nearest customer regularly selling your mixed feed at retail is located within 50 miles of your plant or wholesale warehouse, you may, with respect to deliveries to feeders at such plant or warehouse, add such an amount as will make your price equal to his maximum price (this is permitted to protect him from the possibility of underselling).

8. Section 5.2 (e) (2) is amended to read as follows:

(2) A handling charge of $3.00 per ton for mixed feeds in containers of 100 ponds and $4.75 per ton for mixed feeds in containers of less than 100 pounds: *Provided*, That no maximum price shall include more than one of the above handling charges on any one lot of mixed feed, plus.

9. Section 5.3 (a) (4) (ii) is amended to read as follows:

(ii) On lots you have unloaded into a wholesale warehouse before reloading, shipping to, and unloading into your retail place of business from which you sell to feeders, a handling charge in addition of $3.00 per ton for mixed feeds in 100 pound containers, and $4.75 per ton for mixed feeds in containers of less than 100 pounds: *Provided*, That you shall not add such charges on lots with respect to which such charges have been made by a prior seller; plus.

10. The table in section 5.3 (a) (4) (iii) is amended to read as follows:

SCHEDULE II—MARKUPS

(1) For sales in 100 pound containers.

Commodity	Maximum markup	
	Per ton	Per 100 pound bag
1. All dairy and cattle feed except calf feeds, all horse and mule feeds and all poultry, duck and turkey feeds except as set forth below	$6.50	$0.[illegible]
2. All rabbit feeds, all pig and hog feeds, all sheep and goat feeds, all laying, growing, and broiler mashes and pellets for poultry, ducks and turkeys, except (a) flushing mashes, concentrates and supplements for poultry, ducks and turkeys used for further mixing or feeding with more than 50% of grain and (b) starting mashes and pellets for poultry, ducks and turkeys	8.50	.[illegible]
3. All pigeon and squab feeds, all calf feeds, all poultry, duck and turkey mashes and pellets designed for starting poultry, ducks and turkeys and flushing mashes, concentrates and supplements for poultry, ducks and turkeys used for other mixing or feeding with more than 50% of grain	12.00	.[illegible]

This amendment shall become effective September 23, 1946.

Issued this 20th day of September, 1946.

PAUL A. PORTER,
Administrator.

Approved September 18, 1946.

CHARLES F. BRANNAN,
Acting Secretary of Agriculture.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 9 TO MPR 585

Amendment 8 to Maximum Price Regulation 585, issued on August 23, 1946, provided for the computation of price lists and base ingredient costs of uncontrolled commodities for price lists issued and effective prior to September 22, 1946. At that time it was not possible in view of the time element, to confer with representatives of the industry as to the proper method of pricing major uncontrolled ingredients on a permanent basis.

A working committee of the Class A and Class B Feed Manufacturers' and Retailers' Advisory Committee has since taken up this matter with members of this office and the changes in the accompanying amendment represent the conclusions reached by this office and the Committee. Many of the changes are relatively unimportant, several of them resulting from the decontrol action itself and others from the recent increase in freight rates granted by the Interstate Commerce Commission.

1. The definition of "mixed feeds" has been changed to expressly exclude mixed feeds made from whole grains, any mixtures thereof, or any feeds processed or manufactured entirely from any one or more of these whole grains.

2. In Amendment 8, in revising rail shipment charges, a sentence was inadvertently omitted. This is restored by this amendment.

3. The amendment to Section 4.1 (e) provides for the addition of differentials between a Class A and a Class C plant of the increase in freight rates recently granted by the Interstate Commerce Commission.

4. The amendment to Section 4.2 (b) (3) (b) allows the manufacturer three alternatives in computing his "control price" for any subsequent price list for any ingredient not subject to price control. He may use either:

(i) The reasonable market value of such ingredient at his plant on the date upon which he computes his list price, or

(ii) His base ingredient price as determined under Section 4.2 as of June 30, 1946, or

(iii) An adjusted base ingredient price as determined under the provisions of Section 4.3.

As the regulation formerly provided for the now decontrolled grains, and as it now provides for controlled items, a manufacturer is allowed to use either of the methods set forth in (ii) or (iii) above. These methods are preserved for several major ingredients which are now out from under price control at the urgent request of the industry. The reason for this is the need of industry and of the Enforcement Branch of this office having a definite standard to rely on, rather than "the reasonable market value."

The standard set forth in (i) above has been adopted to conform with the requirements of Section 1A (e) (10) of the Emergency Price Control Act of 1942 as amended, which requires that whenever maximum prices are in effect for any commodity processed or manufactured in whole or in substantial part from any commodity such as livestock, milk or grain, which has been decontrolled, maximum prices for the processed commodity must return to the processor the raw material cost, the conversion or distribution cost and a reasonable profit. It is further felt by this office that the addition of this standard is desirable as the greater majority of the small manufacturers will find this system much more workable and less irksome.

5. The amendment to Section 4.2 (i) allows manufacturers to include in their ingredient costs the recent increase in incoming freight rates on raw materials authorized by the recent order of the Interstate Commerce Commission.

6. By certain other provisions of this amendment, markups for wholesalers and retailers are increased to conform with the provisions of Section 2 (t) of the Emergency Price Control Act as amended. Due to the peculiar setup of feed prices providing for discounts from retail selling lists, it is necessary to make provision for a Class B manufacturer to come up to the prices of any of his customers in the retail business in his vicinity. Otherwise we would have the manufacturer selling to feeders at prices below those of the retailers who purchased their mixed feeds from him which would, of course, result in putting his retailers out of business. Similar provisions have heretofore been in the regulation for Class A manufacturers and wholesalers but were not necessary in the case of the Class B manufacturers until this recent increase in dollars and cents in the margins of wholesalers and retailers.

7. The other changes in the accompanying amendment increasing the dollars and cents "margin" of wholesalers and retailers are to comply with the provisions of Section 2(t) of the Emergency Price Control Act of 1942 as amended, which states that the Administrator must allow wholesale or retail distributors the average current cost of acquisition of any commodity plus such average percentage discount or markup as was in effect on March 31, 1946. In arriving at the amount of these markups, this office, on the recommendation of the Working Committee of the Class A and Class B Feed Manufacturers and Retailers Advisory Committee, has adopted the formula used by the Feed and Feed Grain Division of the United States Department of Agriculture in establishing quotas for new and expanded feed manufacturing plants for the last three years. It was felt that this formula represented a sound basis for arriving at the average increase price of mixed feeds to wholesalers and retailers. This formula is based on types of feed manufactured and the average weight of price advances in the different classifications.

Due to the many complications involved and the fact that the ceiling on wholesale and retail distributors of feeds is based on margins, it was the opinion both of this office and the committee referred to, that the approximate percentage increase be allowed on the dollars and cents basis and accordingly margins have been adjusted on that basis.

PART 1388—DEFENSE-RENTAL AREAS

[Housing,[1] Amdt. 101 (§ 1388.1161)]

HOUSING

The Rent Regulation for Housing is amended in the following respects:

1. The following paragraph is added immediately following the first paragraph of section 6 (b) (2) (i):

If the purchaser has, during the period of the war emergency, served in the armed forces of the United States, the certificate shall authorize the pursuit of local remedies at the expiration of four months after the date of filing of the petition, unless the Rent Director has determined that the maximum waiting period in the area shall be three months, in which event the certificate shall authorize pursuit of local remedies at the expiration of two months after the date of filing of the petition.

2. Section 6 (b) (2) (ii) is amended to read as follows:

(ii) Where the Administrator finds (a) that equivalent accommodations are available for rent into which the tenant can move without substantial hardship or loss, or (b) that the vendor has or had a substantial necessity requiring the sale and that a reasonable sale or disposition of the accommodations could not be made without the removal or eviction of the tenant, or (c) that other special hardship would result, a certificate may be issued although less than twenty per cent of the purchase price has been paid and may authorize the vendor or purchaser to pursue his remedies for removal or eviction of the tenant at the expiration of a period shorter than the maximum waiting period which would otherwise be imposed under this section.

3. Section 6 (b) is amended by adding the following paragraph (4):

(4) *Change of intention.* No landlord who has obtained a certificate relating to eviction under this section 6 (b) shall use the certificate in connection with any action to remove or evict a tenant unless such removal or eviction is sought for the purpose specified in the certificate.

Any landlord whose intentions or circumstances so change that the premises, whose possession is sought, will not be used for the purpose specified in the petition or certificate shall immediately

STATEMENT TO ACCOMPANY AMENDMENT 101 TO THE RENT REGULATION FOR HOUSING, AMENDMENT 22 TO THE RENT REGULATION FOR HOUSING IN THE ATLANTIC COUNTY DEFENSE-RENTAL AREA, AMENDMENT 30 TO THE RENT REGULATION FOR HOUSING IN THE NEW YORK CITY DEFENSE-RENTAL AREA, AMENDMENT 26 TO THE RENT REGULATION FOR HOUSING IN THE MIAMI DEFENSE-RENTAL AREA

Prior to these amendments the regulations provided that eviction certificates for purchaser occupancy would normally have a six months' waiting period, except in defense-rental areas where a three months' waiting period was established.

The regulations also formerly authorized the rent director in his discretion to waive the 20 per cent down payment requirement and all or part of the six months' waiting period where the purchaser was a veteran in need of the housing accommodations to adequately house himself and his family.

The regulations now provide that the waiting period for all veterans regardless of need for housing shall be four months in areas having six months' waiting period, and two months in areas having a three months' waiting period. The provisions authorizing waiver of the usual waiting period where a veteran needs the accommodation to adequately house his family has been eliminated. Good faith on the part of the purchaser in seeking to evict for self-occupancy will, of course, continue to be an essential requirement for the issuance of a certificate of eviction.

This amendment preserves the preferential treatment given veteran purchasers under the regulation but removes the discretionary authority formerly given the area rent director to vary the waiting period in individual cases. Experience in the application of this section has shown that a uniform standard under which purchaser and tenant are able to ascertain their respective rights with exactitude will be beneficial in the great majority of cases. Extreme cases may still be considered under the other applicable provisions of this section.

Section 6 (b) (4) has been added to the regulations to effectively prohibit the improper use of a certificate. It provides that a landlord who files a petition for a certificate relating to eviction, must notify the area rent director in writing of any change in his intended use of the certificate. If he has obtained a certificate and does not wish to use it for the purpose specified therein, he must give a similar notice and also surrender the certificate to the area rent director for cancellation.

In the judgment of the Price Administrator, these amendments are necessary and proper in order to effectuate the purposes of the Emergency Price Control Act. No provisions which might have the effect of requiring a change in established rental practices have been included in the amendments unless such provisions have been found necessary to achieve effective rent control and to prevent circumvention or evasion of the rent regulations and the Act. To the extent that the provisions of these amendments compel or may operate to compel changes in established rental practices, such provisions are necessary to prevent circumvention or evasion of the rent regulations and the Act.

PART 1400—TEXTILE FABRICS: COTTON, WOOL, SILK, SYNTHETIC, AND ADMIXTURES

[MPR 478, Amdt. 17]

COATED AND COMBINED FABRICS

A statement of the considerations involved in the issuance of this amendment issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 1 (a) (1) is amended to read as follows:

(1) "Coasted fabric" means any knitted or woven fabric coated with a continuous finish (for example, rubber, synthetic rubber, pyroxylin, cellulose ester, cellulose ether, synthetic resin or oxidizable oil). For the purpose of this regulation, the term "coated fabric" also includes artificial leather made from saturated non-woven fibrous products, and oilcloth, bookcloth, window shade cloth, tire cords, and supported or fabric backed sheets of vinyl film made from vinyl chloride, vinylacetate, vinyl butyral or vinylidine chloride or other vinyl resins.

This amendment shall become effective September 25, 1946.

Issued this 20th day of September, 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 14 TO MAXIMUM PRICE REGULATION 406 AND AMENDMENT 17 TO MAXIMUM PRICE REGULATION 478

This amendment transfers the coverage of supported vinyl resin sheetings from Maximum Price Regulation 406 to Maximum Price Regulation 478.

Vinyl resin sheetings and fabrics coated with vinyl resins, although produced by different processes serve the same purpose and are physically indistinguishable from each other. In addition, the same manufacturers produce both products.

Supported vinyl resin sheetings were priced under Section 10 of MPR 406 which provides for "in line" pricing. It was not possible to price this products under the formula provisions since there was no basis for comparison with a "comparable" product. Under MPR 478 these products would be priced under a formula since there is a basis of comparison. No increase in the general level of prices will result in transferring coverage of these products from MPR 406 to MPR 478.

In addition, supported films are a small part of the large field of coated fabrics and since MPR 478 governs the prices for coated fabrics while MPR 406 is basically a raw materials regulation, coverage of supported vinyl resin sheetings are made subject to MPR 478.

SYNTHETIC RESINS AND PLASTIC MATERIALS AND SUBSTITUTE RUBBER

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 406 is amended by adding a new section 3 (f) to read as follows:

(f). *Supported vinyl resin sheetings (Maximum Price Regulation 478 applicable).* This regulation does not establish maximum prices for supported vinyl resin sheetings. These products are subject to the provisions of Maximum Price Regulation No. 478.

This amendment shall become effective September 25, 1946.

Combed broadcloths (all constructions)	13.4
Combed poplin:	
*37" to 37½" width, 116 x 56, 3.25 yds. per lb	11.4
*37½" to 38" width, 102 x 48, 3.15 yds. per lb	16.4
Combed lawns (all constructions)	6.8
Voile, *39" width, 60 x 52, 8.50 yds. per lb	5.3
Wool: * All wool materials	None
Rayon: * All rayon materials	None

*As used in this Appendix B: "Cotton" material means a woven fabric containing 75% or more of cotton fiber. "Wool" material means a fabric woven from yarns spun on the woolen or worsted systems and containing 25% or more by weight of new wool fiber (but not including animal hair other than the fleece of the sheep or lamb, reprocessed or reused wool); "Rayon" material means a woven fabric containing less than 25% wool fiber by weight, but of which 50% or more, by weight, of the remaining fibers are rayon.

*Other widths of the same construction having the same thread count and the same ratio of weight to width as this fabric must be pro-rated, i. e., the increase factor must be raised or lowered in the same proportion in which the width has changed.

2. Section 4.1 (c) (1) (ii), Step 2 is amended to read as follows:

Step 2. Find the current average net cost per yard of that principal material as shown on all invoices from the seller's suppliers of that principal material bearing dates from July 26, 1946 to September 20, 1946.

3. Section 4.1 (d) is amended so that the first sentence of that paragraph reads as follows:

On and after September 20, 1946 any commodity covered by this section may be sold or delivered at the adjusted maximum price described in this paragraph.

4. Section 4.1 (e) (1) (i) is amended to read as follows:

(i) In the case of all principal materials for which he calculates his permitted material cost increases under paragraph (c) (1) (ii) above, all invoices for such materials bearing dates between January 1, 1942 and March 31, 1942 and those bearing dates between July 26, 1946, and September 20, 1946.

5. In section 4.1 (e) (4), subparagraph (ii) thereof (which was added by Amendment 50 to Supplementary Regulation 14E) is hereby deleted.

6. Section 4.1 is amended by adding the following paragraph:

(g) *Saving clause.* Wherever a manufacturer properly adjusted his maximum price for any style under this section prior to September 20, 1946, he may continue to sell at the adjusted maximum price reported and is not required to file a new report under this section.

This amendment shall become effective September 20, 1946.

Issued this 20th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 56 TO SUPPLEMENTARY REGULATION 14E

The accompanying action amends section 4.1 of Supplementary Regulation 14E. By Amendments 47, 50 and 54 to SR 14E, price increases were granted to manufacturers of certain base period staple items to the extent of 90% of the difference between current direct labor costs and those in the base period. To manufacturers of cotton garments, a further allowance was made of 90% of the difference between the base period material costs and the ceiling prices for materials on June 13, 1946, issuance date of Amendment 47. Since that date, three amendments to SO 131, governing basic fabric prices, have resulted in substantial increases of ceiling prices for cotton textiles. This amendment reflects those higher prices in a revised Appendix B, the table of permitted fabric cost increases per yard for listed constructions. This amendment also changes the period to be used in calculating the current average net cost per yard for unlisted constructions to the period July 26, 1946 to September 20, 1946.

At the time Amendment 47 was issued it was thought that the listing of constructions in groups in Appendix B was satisfactory because the manufacturers producing the commodities covered by this regulation was believed to use the whole range of fabrics within each group. At that time increases in all constructions in certain groups, notably Class A and Class C Sheetings and corduroys, were averaged and only one increase factor for each group was included in Appendix B. Representations since made to the Office of Price Administration by industries affected, indicate that many companies using these fabrics use them exclusively in one or two constructions. The result has been a squeeze on those manufacturers using constructions with higher increases exclusively and a windfall for those using the constructions with lower increases exclusively. This was also true for one group of constructions of Class A print cloth. To correct this situation, the list of constructions in Appendix B has been expanded

and a separate increase factor has been computed for each construction listed.

Section 4.1 of SR 14E now requires a 90 day waiting period after an adjustment has been granted before a further adjustment report may be filed. In order to make the provisions of the accompanying amendment effective as soon as possible this provision has been removed. Section 4.1 (e) (2) of SR 14E still requires however, that no person may deliver any commodity at an adjusted maximum price established under this section until he has received approval from Office of Price Administration of the adjusted maximum prices reported to OPA, or 20 days after he has mailed such report to the Apparel Price Branch, Office of Price Administration, Washington, D. C.

This action has been taken as a result of representations made by, and after consultation with representatives of the industry affected.

PART 0—ORGANIZATION AND ASSIGNMENT OF WORK

DUTIES OF THE CHAIRMAN OF THE COMMISSION

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 5th day of February A. D. 1945.

Section 17 of the Interstate Commerce Act, as amended, being under consideration: It is ordered, that the following section be added after § 0.5, *Transfer of Commissioner:*

§ 0.5a *Duties of the Chairman of the Commission.* The following duties and responsibilities are delegated to the Chairman (or, in his absence, to the Acting Chairman who shall be the available senior Commissioner in point of service) to be exercised in addition to his statutory duties and any other duties that may be assigned or delegated to him:

(a) He shall be the executive head of the Commission.

(b) It shall be his duty and responsibility to see that the work of the Commission is promptly and efficiently dispatched. To accomplish this purpose he is specifically authorized and directed (1) to bring to the attention of any Commissioner or Division any lagging or failure in the work under his or its supervision, (2) to report periodically, not less than four times a year, to the Commission at regular or special conferences on the progress of all the Commission's work, and (3) to suggest ways and means of correcting or preventing any unusual or unnecessary delays in the disposition of any official matters which he is unable otherwise to have remedied.

(c) He shall be an ex officio member of Division One.

(d) He shall preside at all Commission arguments and conferences and shall exercise general control over the Commission's argument calendar and conference agenda.

(e) He shall have general supervision of the minutes of the Commission and shall see that they are accurately and promptly recorded.

(f) Except in instances where the duty is otherwise delegated or provided for, he shall act as the correspondent and spokesman for the Commission in all matters involving relations with the heads of other agencies of Government, and in any other case where an official expression of the Commission is required.

And it is further ordered, that this order shall continue in effect until the further order of the Commission.

CALIFORNIA

RESTORATION ORDER 1163 UNDER FEDERAL POWER ACT

SEPTEMBER 10, 1946.

Upon application for Power Project No. 78, filed October 29, 1920, the following described land was reserved for power purposes:

MOUNT DIABLO MERIDIAN

T. 11 N., R. 11 E.,
Sec. 23, SE¼SW¼.

The area described contains 40 acres.

Pursuant to the determination of the Federal Power Commission (DA-532, California) and in accordance with Departmental Order No. 1799 of March 19, 1943, 8 F. R. 3743, that portion of the above-described land lying north of the north project boundary which is a line 100 feet distant horizontally from the center line of the conduit for Project No. 78, as shown on Exhibit E-2, Sheets 4 and 5 (FPC Nos. 78-3) and 78-4), is hereby opened to application, petition, location, or selection under the United States mining laws only, subject to the provisions of section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1063), as amended by the act of August 26, 1935 (49 Stat. 838, 846, 16 U. S. C. sec. 818), and subject to the special restriction that no shaft, tunnel, building, or other improvement shall be so located or constructed upon the aforesaid land as to interfere with the construction or maintenance of the existing Project No. 78 or of any future power development of the South Fork of the American River and its tributaries.

This order shall not become effective to change the status of the land until 10:00 a. m. on November 12, 1946, at which time the land shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to disposition under the United States mining laws only, as above provided.

MARKETING QUOTAS FOR FIRE-CURED AND DARK AIR-CURED TOBACCO FOR 1947-48 MARKETING YEAR

NOTICE OF HEARING

A public hearing will be held at the Elks Building, Hopkinsville, Kentucky, October 3, 1946, at 9:30 a. m. (c. s. t.), for the purpose of considering the provisions of regulations to be issued governing the establishment of farm acreage allotments and normal yields for marketing quotas to be in effect during the 1947-48 marketing year for fire-cured and dark air-cured tobacco. Such allotments and yields will be established pursuant to applicable provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C., Sup. 1312, 1313).

By virtue of the amendment to the act approved July 28, 1945 (Public Law 163, 79th Congress; 59 Stat. 506) an acreage not in excess of 5 per centum of the total acreage allotted to all farms in each State for the 1943-44 marketing year shall be available for adjusting 1947 acreage allotments for old farms, and an acreage not in excess of 5 per centum of the acreage allotted to all farms for the 1943-44 marketing year shall be available for establishing 1947 allotments for new farms (farms on which no tobacco was produced in the last five years). The principal matters for consideration at the hearing relate to (1) whether the regulations should provide for the maximum 5 per centum acreages for allotment to old and new farms or whether lesser acreages should be allotted and, if so, the respective amounts, and (2) the provisions of the regulations stating the conditions under which 1947 allotments for old farms will be adjusted with the acreage made available for that purpose and the conditions which will apply to the establishment of 1947 allotments for new farms.

Any interested person, whether or not he attends the hearing, may submit his views in writing with respect to the proposed regulations to the Director, Tobacco Branch, Production and Marketing Administration, Washington 25, D. C. All submissions must be postmarked not later than October 5, 1946.

Issued at Washington, D. C., this 18th day of September 1946.

DUNMAR ROBES, LTD.

CONSENT ORDER

Dunmar Robes, Ltd., located at 45 West 34th Street, New York, New York, en-

gaged in the manufacture of men's robes, was charged by the Civilian Production Administration on July 11, 1946 with having furnished false and misleading information by falsely certifying on two purchase orders dated November 20, 1945 that rayon linings would be used in accordance with the provisions of paragraph (e) of Direction 28 to Order M-328, thereby subjecting the company to the administrative action provided for by the provisions of § 944.18 of Priorities Regulation No. 1, and was further charged by the Civilian Production Administration on July 11, 1946 with having violated Order M-328 by failing to use or dispose of 1,455 yards of rayon in accordance with the requirements of Direction 28 to Order M-328. Dunmar Robes, Ltd. admits the violations as charged, does not desire to contest the same, and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Dunmar Robes, Ltd., the Regional Compliance Manager, the Regional Attorney, and upon the approval of the Compliance Commission; *It is hereby ordered*, That:

(a) Dunmar Robes, Ltd. shall not for 60 days from the effective date of this order apply or extend any ratings, nor shall any authorization to apply or extend ratings be granted to it during such period.

(b) Nothing contained in this order shall be deemed to relieve Dunmar Robes, Ltd., from any restriction, prohibition, or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

(c) The restrictions and prohibitions contained herein shall apply to Dunmar Robes, Ltd., its successors and assigns or persons acting on its behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(d) This order shall take effect on the date of issuance.

UNION ELECTRIC CO. OF MISSOURI

ORDER POSTPONING HEARING

SEPTEMBER 13, 1946.

It appearing that:

(a) By its order of July 23, 1946, the Commission fixed a public hearing to be held in Jefferson City, Missouri, on October 14, 1946, concerning the operation by Union Electric Company of Missouri, of its Bagnell Project (Project No. 459), its relation to the flood conditions on the Osage and Missouri Rivers below the Bagnell dam, and possible changes in the method of operation which may be proposed;

(b) Several pressing matters pending before the Commission make it desirable to postpone the aforementioned hearing until a later date;

The Commission finds that:

Good cause exists for postponement of said hearing; and

It is ordered, That:

The hearing set for October 14, 1946, upon the subject matters mentioned in paragraph (a) above, is hereby postponed to commence January 13, 1947, to be held in Room 305, U. S. Post Office and Court House, in Jefferson City, Missouri, beginning at 10:00 o'clock a. m.

In re: Stock, bonds and bank account owned by Kurt Schmieder. F-28-572-A-1, F-28-572-E-1.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Kurt Schmieder, whose last known address is Meerane, Saxony, Germany, is a resident of Germany and a national of a designated enemy country (Germany);

2. That the property described as follows:

a. Those certain shares of stock described in Exhibit A, attached hereto and by reference made a part hereof, registered in the name of Cobb & Company, beneficially owned by Kurt Schmieder, and presently in the custody of The New York Trust Company, 100 Broadway, New York, New York, at its branch office located at Madison Avenue and 40th Street, New York, New York, together with all declared and unpaid dividends thereon,

b. Four (4) American Telephone & Telegraph Company 3% convertible debenture bonds, due September 1, 1956, each of $100 face value, bearing the numbers C15-253 to C15-256 inclusive, issued in the name of Bearer and presently in the custody of The New York Trust Company, 100 Broadway, New York, New York, at its branch office located at Madison Avenue and 40th Street, New York, New York, together with any and all rights thereunder and thereto, and

c. That certain debt or other obligation owing to Kurt Schmieder by The New York Trust Company, 100 Broadway, New York, New York, arising out of a checking account entitled Kurt Schmieder, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid national of a designated enemy country;

And determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC-1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on July 30, 1946.

COPYRIGHTS OF JULIUS SPRINGER, GERMAN NATIONAL

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that each and all of the identified persons to whom reference is made in Column 5 of Exhibit A attached hereto and made a part hereof (the names of which persons are listed (a) in Column 3 of said Exhibit A as the authors of the works, the titles of which are listed in Column 2, and the copyright numbers, if any, of which are listed in Column 1, respectively, of said Exhibit A, and/or (b) in Column 4 of said Exhibit A as the owners of the copyrights, the numbers, if any, of which are listed in Column 1, and the titles of the works covered by which are listed in Column 2, respectively, of said Exhibit A, and/or (c) in Column 5 of said Exhibit A as others owning or claiming interests in such copyrights) are nationals of one or more foreign countries;

2. Determining, therefore, that the property described as follows:

All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of each and all of the identified persons to whom reference is made in Column 5 of said Exhibit A, and also of each and all other unidentified individuals who, as of the date of this order, are residents of, and of each and all other unidentified corporations, partnerships, associations or business organizations, of any kind or nature which, as of the date of this order, are organized under the laws of, or have their principal places of business in, Germany, Japan, Bulgaria, Hungary, and Rumania, whether or not such unidentified persons are named elsewhere in this order or in said Exhibit A, in, to and under the following: *Provided*, That in the cases of persons who are residents of, or organized under the laws of, or have their principal places of business in, Bulgaria, Hungary, and Rumania, such right, title, interest and claim shall have been held by said persons on or before December 7, 1945:

a. Each and all of the copyrights, if any, described in said Exhibit A;

b. Every copyright, claim of copyright and right to copyright in each and all of the works described in said Exhibit A and in every issue, edition, publication, republication, translation, arrangement, dramatization and revision thereof, in whole or in part, of whatsoever kind or nature, and of each and all other works designated by the titles therein set forth, whether or not filed with the Register of Copyrights or otherwise asserted, and whether or not specifically designated by copyright number;

c. Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to any or all of the foregoing;

d. All monies and amounts, and all right to receive monies and amounts, by way of royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to any or all of the foregoing;

e. All rights of renewal, reversion or revesting, if any, in any or all of the foregoing;

f. All causes of action accrued or to accrue at law or in equity with respect to any or all of the foregoing, including but not limited to the right to sue for and recover all damages and profits and to ask and receive any and all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting any or all of the foregoing;

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian, to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and

when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

COPYRIGHTS OF CERTAIN GERMAN NATIONALS

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation:

1. Finding that each and all of the identified persons to whom reference is made in Column 5 of Exhibit A attached hereto and made a part hereof (the names of which persons are listed (a) in Column 3 of said Exhibit A as the authors of the works, the titles of which are listed in Column 2, and the copyright numbers, if any, of which are listed in Column 1, respectively, of said Exhibit A, and/or (b) in Column 4 of said Exhibit A as the owners of the copyrights, the numbers, if any, of which are listed in Column 1, and the titles of the works covered by which are listed in Column 2, respectively, of said Exhibit A, and/or (c) in Column 5 of said Exhibit A as others owning or claiming interests in such copyrights) are nationals of one or more foreign countries;

2. Determining, therefore, that the property described as follows:

All right, title, interest and claim of whatsoever kind or nature, under the statutory and common law of the United States and of the several States thereof, of each and all of the identified persons to whom reference is made in Column 5

of said Exhibit A, and also of each and all other unidentified individuals who, as of the date of this order, are residents of, and of each and all other unidentified corporations, partnerships, associations or business organizations, of any kind or nature which, as of the date of this order, are organized under the laws of, or have their principal places of business in, Germany, Japan, Bulgaria, Hungary, and Rumania, whether or not such unidentified persons are named elsewhere in this order or in said Exhibit A, in, to and under the following: *Provided*, That in the cases of persons who are residents of, or organized under the laws of, or have their principal places of business in, Bulgaria, Hungary, and Rumania, such right, title, interest and claim shall have been held by said persons on or before December 7, 1945:

a. Each and all of the copyrights, if any, described in said Exhibit A;

b. Every copyright, claim of copyright and right to copyright in each and all of the works described in said Exhibit A and in every issue, edition, publication, republication, translation, arrangement, dramatization and revision thereof, in whole or in part, of whatsoever kind or nature, and of each and all other works designated by the titles therein set forth, whether or not filed with the Register of Copyrights or otherwise asserted, and whether or not specifically designated by copyright number;

c. Every license, agreement, privilege, power and right of whatsoever nature arising under or with respect to any or all of the foregoing;

d. All monies and amounts, and all right to receive monies and amounts, by way of royalty, share of profits or other emolument, accrued or to accrue, whether arising pursuant to law, contract or otherwise, with respect to any or all of the foregoing;

e. All rights of renewal, reversion or revesting, if any, in any or all of the foregoing;

f. All causes of action accrued or to accrue at law or in equity with respect to any or all of the foregoing, including but not limited to the right to sue for and recover all damages and profits and to ask and receive any and all remedies provided by common law or statute for the infringement of any copyright or the violation of any right or the breach of any obligation described in or affecting any or all of the foregoing;

is property payable or held with respect to copyrights, or rights related thereto, in which interests are held by, and such property constitutes interests held therein by, nationals of one or more foreign countries;

3. Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise; and

4. Deeming it necessary in the national interest;

hereby vests in the Alien Property Custodian the property hereinbefore described in subparagraph 2, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in a special account pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC-1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian. GENERAL PUBLIC UTILITIES CORP. AND ASSOCIATED UTILITIES CORP.

ORDER GRANTING APPLICATIONS AND PERMITTING DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 16th day of September 1946.

General Public Utilities Corporation ("GPU"), a registered holding company, and its wholly-owned subsidiary, Associated Utilities Corporation ("Aucorp"), also a registered holding company, having filed joint applications-declarations, as amended, pursuant to sections 9 (a), 10, 12 (c), 12 (d), and 12 (f) of the Public Utility Holding Company Act of 1935 ("Act") and Rules U-43 and U-44 promulgated thereunder regarding the following proposed transactions:

Aucorp will file a Certificate of Dissolution with the Secretary of State of the State of Delaware, and, in connection therewith, GPU will surrender to Aucorp for cancellation all of the outstanding shares of stock of Aucorp. Aucorp will thereafter, as promptly as may be practicable, distribute to GPU all its assets, or the proceeds thereof, subject to all its liabilities. Such distribution will be made in cash or in kind, except that the 2,450 shares of the common stock of Keuka Lake Power Corporation now held by Aucorp will not be distributed without further application to this Commission for an appropriate order authorizing the distribution of such stock by Aucorp; and

Applicants-declarants having requested that the Commission issue an order determining and reciting that the carrying out of the proposed transactions is necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935 and otherwise conforming to the provisions of sections 373 (a) and 1808 (f) of the Internal Revenue Code, as amended; and

A public hearing having been held after appropriate notice in which the security holders or applicants-declarants and other interested persons were afforded opportunity to be heard; and

The Commission having considered the record and having entered its findings and opinion herein, and deeming it appropriate in the public interest and in the interest of investors and consumers to grant the applications, as amended, and permit the declarations, as amended, to become effective, subject to certain conditions, and to grant the request of the applicants-declarants as to the suggested recitals:

It is hereby ordered, That, pursuant to the applicable provisions of said act, including sections 9 (a), 10, and 12 thereof and the rules and regulations promulgated thereunder, the aforesaid applications-declarations, as amended, be, and hereby are, granted and permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24; and

It is further ordered, That the following transactions are necessary or appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935:

1. The transfer, delivery and distribution by Aucorp to GPU of the assets hereafter enumerated, subject to the liabilities of Aucorp:

ORDER REVOKING REGISTRATION

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 16th day of September A. D. 1946.

In the matter of Ray Murphy, 304 Atlas Life Building, Tulsa, Oklahoma.

Ray Murphy, being duly registered as a broker-dealer under section 15 of the Securities Exchange Act of 1934; proceedings having been instituted to determine whether said Ray Murphy willfully violated section 17 (a) of the act and Rule X-17A-5 promulgated thereunder and whether it is in the public interest to revoke said registration; a hearing having been held after appropriate notice, a trial examiner's report filed and no exceptions, briefs or requests for oral argument filed; and the Commission having this day issued its findings and opinion;

It is ordered, Pursuant to section 15 (b) of the Securities Exchange Act of 1934, that the registration of the said Ray Murphy as an over-the-counter broker-dealer be, and the same hereby is, revoked.

By the Commission.

M. S. WIEN & CO.

ORDER REVOKING REGISTRATION WITHOUT PREJUDICE TO REAPPLICATION UNDER CERTAIN CONDITIONS

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 16th day of September A. D. 1946.

In the matter of M. S. Wien & Co., 26 Broad Street, New York, N. Y.

Proceedings having been instituted to determine whether or not the registration of M. S. Wien & Co. as broker and dealer should be revoked, pursuant to section 15 (b) of the Securities Exchange Act of 1934, and whether or not M. S. Wien & Co. should be suspended or expelled from membership in the National Association of Securities Dealers, Inc. pursuant to section 15A of the said act;

A hearing having been held after appropriate notice and the Commission having this day filed its findings and opinion, on the basis of said findings and opinion;

It is ordered, That, effective September 25, 1946, the registration of M. S. Wien & Co. be and it hereby is revoked, without prejudice to the right of M. S. Wien & Co. to reapply for registration after 30 days from said effective date if at the time of such reapplication Joseph J. Lann shall have withdrawn from M. S. Wien & Co. and shall have become disassociated from its business.

PEOPLES LIGHT AND POWER CO.

MEMORANDUM OPINION AND ORDER

Peoples Light and Power Company ("Peoples"), now by change of name Texas Public Service Company, a registered holding company and a Delaware corporation, has filed an application pursuant to section 5 (d) of the Public Utility Holding Company Act of 1935 for an order declaring that it has ceased to be a holding company and that its registration has ceased to be in effect.

On August 22, 1945, the Commission issued an order under section 11 (b) (1) of the Act[1] directing Peoples to dispose of its interest in the electric, water and ice properties of Texas Public Service Company ("Texas Public"), a Texas corporation and Peoples' only public utility subsidiary, which properties were located at LaGrange, Texas, and in the farm business of Texas Public Service Farm Company ("Texas Farm"), its only non-utility subsidiary.

On September 14, 1945, the Commission approved a plan of reorganization of Peoples[2] which provided for the acquisition and assumption by Peoples of the assets and liabilities of Texas Public, respectively, and the dissolution thereof. The plan also provided for changing Peoples' preferred and common stocks into a single class of capital stock and the distribution thereof to the holders of Peoples' then outstanding stocks. In addition, the plan provided for the distribution of cash to Peoples' preferred stockholders and for the elimination of the arrears on the preferred stock of Peoples and outlined the procedure for the election of a new board of directors.

In compliance with the order issued by the Commission on August 22, 1945 pursuant to section 11 (b) (1), Peoples has disposed of its interest in the electric, water and ice properties at LaGrange, Texas. Also, Peoples has filed a certificate of notification pursuant to Rule U-24, from which it appears that the transactions proposed in the plan of reorganization have been consummated, except that the distribution of the new capital stock and cash is still in progress.

It appears to the Commission that Peoples (now by change of name Texas Public Service Company) has ceased to be a holding company as defined in the Act and that it is solely a public utility company engaged in the purchase and distribution of natural gas principally at Austin, Port Arthur and Galveston, Texas. In addition, Peoples is engaged in leasing oil lands and in the operation of a rice farm in Jefferson County, Texas, through Texas Farm, its only subsidiary, which farm business interest Peoples has been ordered to dispose of by the Commission's order of August 22, 1945 referred to above. Accordingly, the Commission finds that the registration of Peoples as a holding company should cease to be in effect, subject, however, to the express condition that certain requirements, conditions and reservations indicated in the Commission's orders of August 22, 1945 and September 14, 1945 shall remain in full force and effect, which terms and conditions we find to be, and will by our order prescribe as, necessary for the protection of investors.

It is ordered, That Peoples has ceased to be a holding company and that the registration of Peoples as a holding company shall from the date of the entry of this order cease to be effective;

Provided, however, And said registration shall cease to be effective only upon the express condition that the Commission's orders with respect to the following matters shall continue in full force and effect until complied with, or until, and unless this Commission shall, by subsequent order, or orders, amend, modify, or revoke any such orders:

1. The requirements of the Commission's order of August 22, 1945 that Peoples shall, in any appropriate manner, not in contravention of the applicable provisions of the act or of the rules and regulations promulgated thereunder, or of the Commission's order of August 22, 1945, dispose of its interest in the farm business of Texas Farm.

2. The reservation of jurisdiction of this Commission under Rule U-27 contained in the Commission's order of September 14, 1945, with respect to the original cost studies relating to the public utility properties which were then to be acquired by Peoples and the recording of the accounting entries to reflect the results thereof.

3. The reservation of jurisdiction contained in the Commission's order of September 14, 1945 to approve, disapprove, modify, allocate or award by further order or orders all fees or other compensation, and all reimbursement of expenses, now or hereafter claimed by any person in connection with the plan approved by the Commission on September 14, 1945, the transactions incident thereto, and the consummation thereof.

4. The reservation of jurisdiction contained in the Commission's order of September 14, 1945 to entertain such further proceedings, to make such supplemental findings and to take such further action as the Commission may deem appropriate in connection with the plan, the transactions incident thereto and the consummation thereof.

5. The reservation of jurisdiction contained in the Commission's orders of August 22, 1945 and September 14, 1945 to take such action as the Commission shall deem necessary to effectuate the

AMERICAN UTILITIES SERVICE CORP., ET AL.

ORDER RELEASING JURISDICTION OVER CERTAIN FEES AND EXPENSES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 16th day of September A. D. 1946.

In the matter of American Utilities Service Corporation, File No. 54-57; American Utilities Service Corporation and its Subsidiary Companies, Respondents, File No. 59-57.

The Commission having by its order dated March 13, 1945 issued in the above entitled proceedings reserved jurisdiction to approve, disapprove, modify, allocate or award by further order or orders all fees and expenses incurred or to be incurred by American Utilities Service Corporation ("American"), then a registered holding company, in connection with an amended plan of recapitalization filed by such company; and the District Court of the United States for the District of Delaware having by its order of April 21, 1945 approved said plan; and

The Commission having by its order of April 8, 1946 granted the application of American filed pursuant to section 5 (d) of the Public Utility Holding Company Act of 1935 for an order finding that American had ceased to be a holding company under said act, subject, however, to the following condition: That the entry of this order shall not constitute a waiver of jurisdiction by the Commission with respect to the approval of the payment of fees and expenses incurred or claimed to be incurred in connection with the amended plan of recapitalization of American Utilities Service Corporation; and that American Utilities Service Corporation shall pay such fees and expenses incurred or claimed to have been incurred in connection with its amended plan of recapitalization as may be approved, allocated or awarded by order or orders of the Commission, and shall pay no fees and expenses not so approved, allocated or awarded; and

American having filed an application, and amendments thereto, for waiver of jurisdiction with respect to the payment of amounts claimed by various companies, firms and persons from American as fees and expenses for services rendered in connection with said amended plan of recapitalization of the company as follows:

Printing	$12,868.17
Postage	8,363.01
Publishing	121.50
Accounting	426.50
Expenses in connection with hearings	1,097.95
Other incidental charges	446.63
Continental Illinois National Bank & Trust Co. of Chicago, trustee	1,589.51
A. Louis Flynn, counsel for company:	
Fees	20,000.00
Expenses	77.99
Richards, Layton & Finger, Delaware counsel for company:	
Fees	750.00
Expenses	4.28
Guggenheimer & Untermeyer, counsel for certain preferred stockholders:	
Fees	15,000.00
Expenses	1,593.21
Hastings, Stockley & Layton, Delaware counsel for certain preferred stockholders: Fees	500.00
William H. Foulk, counsel for certain holders of voting trust certificates:	
Fees	2,500.00
Expenses	55.02
Charles K. Morris, a preferred stockholder:	
Fees	1,000.00
Expenses	1,024.58
Total	62,418.35

The Commission having examined the record and the data submitted in support of the fees and expenses and it appearing to the Commission that the aforesaid fees and expenses, except with respect to the fees and expenses claimed by Charles K. Morris, a preferred stockholder, under the circumstances of this case, are not unreasonable in amount and that jurisdiction over such matters should be released;

It is ordered, That the jurisdiction heretofore reserved over the payment of the fees and expenses to be paid in connection with the amended plan of recapitalization of American Utilities Service Corporation be, and the same hereby is, released except with respect to the fees and expenses of Charles K. Morris, and that the jurisdiction with respect to the fees and expenses of Charles K. Morris be, and the same hereby is, continued.

By the Commission.

ASSOCIATED GAS AND ELECTRIC CO. ET AL.

ORDER RELEASING JURISDICTION OVER LEGAL FEES

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 16th day of September 1946.

In the matter of Stanley Clarke, Trustee of Associated Gas and Electric Company, Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation, Associated Electric Company, NY PA NJ Utilities Company, File No. 70-1147.

The Commission having by order dated December 28, 1945, granted applications and permitted to become effective declarations filed pursuant to sections 6 (a), 7, 9 (a), 10 and 12 of the Public Utility Holding Company Act of 1935 by Stanley Clarke, Trustee of Associated Gas and Electric Company ("Ageco"), and Denis J. Driscoll and Willard L. Thorp, Trustees of Associated Gas and Electric Corporation ("Agecorp"), and their subsidiaries, Associated Electric Company ("Aelec"), and NY PA NJ Utilities Company ("NY PA NJ"), with respect to transactions involved in carrying into effect the settlement of various claims of Aelec, for itself and its subsidiaries against its parent companies, Ageco and Agecorp, reserving jurisdiction over, among other things, legal and accounting fees and expenses of Aelec in connection with the proposed transactions; and having by order dated April 3, 1946 released jurisdiction over such accounting fees, continuing its reservation of jurisdiction, however, over legal fees and expenses; and

Aelec having now filed statements with respect to such legal services rendered by Hughes, Hubbard & Ewing in connection with the transactions, and it appearing to the Commission that the fee of such firm in the amount of $38,500 and expenses in the amount of $515.90 are not unreasonable, and that jurisdiction over such fee and expenses should be released:

It is ordered, That jurisdiction heretofore reserved over the payment of the legal fee and expenses of Hughes, Hubbard & Ewing in connection with the above transactions be, and hereby is, released.

By the Commission.

COLUMBIA GAS & ELECTRIC CORP.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 16th day of September 1946.

Columbia Gas & Electric Corporation, a registered holding company, having filed a declaration under the Public Utility Holding Company Act of 1935 concerning the following:

(a) A capital contribution will be made by Columbia to its wholly-owned subsidiary, Binghamton Gas Works, through the forgiveness of $474,263.07 out of a total of $750,000 of 5% Demand Loans (open account) owing to it by Binghamton. Columbia will increase its investment in the common stock of Binghamton by the amount of the capital contribution and will concurrently appropriate a like amount from its Special Capital Surplus in order to create a reserve against said investment. This reserve will be available for adjustment of its investment in the common stock of Binghamton at such time as Columbia revalues its investments in its subsidiary companies as ordered by this Commission under date of January 25, 1939 (Co-

lumbia Gas & Electric Corporation, 4 S. E. C. 406 (1939), Holding Company Act Release No. 1417).

(b) Columbia will cause Binghamton to decrease its 5% Demand Loans Payable (open account) and credit Unearned Surplus with the capital contribution in the amount of $474,263.07; and further to use all of the Unearned Surplus thus created for adjustments to its accounts required to state its Utility Plant Account at original cost.

Said declaration having been filed on July 26, 1946 and notice of said filing having been duly given in the form and manner prescribed by Rule U-23 promulgated pursuant to said act, and the Commission not having received a request for hearing with respect to said declaration within the period prescribed in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding said transaction to be in compliance with the standards of said act and deeming it appropriate in the public interest and for the protection of investors and consumers to permit said declaration to become effective;

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act, and subject to the terms and conditions prescribed in Rule U-24 that the aforesaid declaration be, and hereby is, permitted to become effective forthwith.

By the Commission.

OFFICE OF PRICE ADMINISTRATION.

[MPR 591, Amdt. 1 to Order 482]

GENERAL MOTORS CORP.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 9 of Maximum Price Regulation No. 591, Order No. 482 under section 9 of Maximum Price Regulation No. 591, is amended as follows:

1. Paragraph (a) (1) of Order No. 482 is amended to read as follows:

(a) (1) The maximum net prices delivered for sales by any persons of the following home freezer manufactured by the Frigidaire Division of the General Motors Corporation of Dayton, Ohio and described in the application dated September 3, 1946, which is on file with the Mechanical Building Equipment Price Branch, Office of Price Administration, Washington 25, D. C., shall be:

Model	On sales to—		
	Distributors	Dealers	Consumer
HJ4	$108.46	$129.84	$189.75

The maximum prices above include crating, freight, delivery, one-year warranty on the entire refrigeration system and five-year warranty on the sealed-in mechanism.

2. Paragraph 2 (f) is amended to read as follows:

(f) The Frigidaire Division, General Motors Corporation of Dayton 1, Ohio, shall label on the home freezer covered by this order substantially the following:

OPA Retail Ceiling Price, Installed, $189.75.

Above price includes crate, freight, delivery, installation with connection to electric facilities to be provided by the consumer, 1-year warranty on the entire refrigeration system and 5-year warranty on the sealed-in mechanism.

This amendment shall become effective September 21, 1946.

Issued this 20th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING AMENDMENT 1 TO ORDER NO. 482 UNDER SECTION 9 OF MAXIMUM PRICE REGULATION NO. 591

By Order No. 482, issued to the above-named company, Model HJ4 freezer was priced on an f. o. b. basis.

The company has requested that it be authorized to sell Model HJ4 on a delivered basis, including crating, installation, and a warranty, at prices below the f. o. b. maximum prices heretofore authorized in order to remain competitive. Such authorization is fully in accord with the Emergency Price Control Act of 1942, as amended, and Executive orders issued by the President.

ESTABLISHMENT OF MAXIMUM PRICES AND PRICE CLASSIFICATIONS

For the reasons set forth in an opinion issued simultaneously herewith and in accordance with § 1340.212 (c) of Maximum Price Regulation No. 120, *It is ordered:*

Order No. 1548 under Maximum Price Regulation No. 120, is hereby amended in the following respects:

Paragraph (a) is amended by adding thereto the following name of the producer, address, mine name and index number, and preparation plant name, as follows:

Producer and address	Mine name	Mine index No.	Location and name of preparation plant through which the coals are prepared
De Romo Coal Mining Co., Madera, Pa.	De Romo No. 2...	5446	Middle Pennsylvania Coal Corp. Alexander Preparation Plant at Madera, Pa., on the P. R. R.

This Amendment No. 43 to Order No. 1548 under Maximum Price Regulation No. 120 shall become effective September 21, 1946.

Issued this 20th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING AMENDMENT 43 TO ORDER NO. 1548 UNDER MAXIMUM PRICE REGULATION 120

De Romo Coal Mining Company, Madera, Pennsylvania, filed an application pursuant to § 1340.212(c) of Maximum Price Regulation No. 120, requesting that its maximum price for strip-mined coal, produced at its De Romo No. 2 Mine, Mine Index No. 5446 and prepared at its preparation plant at Madera, Pennsylvania, in District No. 1, be increased 50¢ per net ton.

It appears that applicant's strip-mined coal receives thorough cleaning and hand-picking at the said preparation plant, and that it is such that it can be prepared to a standard of general acceptability in the coal-consuming market.

The applicant qualifies, therefore, for the requested relief under the provisions of said § 1340.212(c). All mines of District No. 1, qualifying for an increase of 50¢ per net ton for prepared strip-mined coal under the provisions of § 1340.212(c) of Maximum Price Regulation No. 120, have been grouped together by Order No. 1548, as amended, under Maximum Price Regulation No. 120. Accordingly, this order is being further amended to include applicant's strip-mined coal.

ESTABLISHMENT OF MAXIMUM PRICE AND PRICE CLASSIFICATIONS

For the reasons set forth in an opinion issued simultaneously herewith and in accordance with § 1340.212 (c) (2) of Maximum Price Regulation No. 120. *It is ordered:*

Revised Order No. 1438 under Maximum Price Regulation No. 120 is hereby amended in the following respects:

Paragraph (a) is amended by adding thereto the following in the manner indicated:

Producer and address	Mine index No.	Location and name of preparation plant through which the coals are prepared
J. H. Wallin, doing business as Banner Coal Co., Philipsburg, Pa.	20	Banner Coal Co.'s preparation plant near Osceola Mills, Pa., on the P. R. R.

This Amendment No. 6 to Revised Order No. 1438 under Maximum Price Regulation No. 120 shall become effective September 21, 1946.

Issued this 20th day of September, 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING AMENDMENT 6 TO REVISED ORDER 1438 UNDER MAXIMUM PRICE REGULATION 120

J. H. Wallin, doing business as Banner Coal Company, Philipsburg, Pennsylvania, producing strip-mined coal at his Atlantic Mine, Mine Index No. 20, filed an application pursuant to § 1340.212 (c) (2) of Maximum Price Regulation No. 120, requesting permission to charge deep-mine prices for strip-mined coal when blended with 25% or more of deep-mined coal, and prepared at his preparation plant near Osceola Mills, Pennsylvania, in District No. 1.

It appears that applicant's strip-mined coal receives thorough cleaning and hand-picking at the said preparation plant, and that it is such that it can be prepared to a standard of general acceptability in the coal-consuming market.

It further appears that applicant's strip-mined coal is blended in preparation with not less than 25% deep-mined coal at the said preparation plant.

The applicant qualifies therefore for the requested relief under the provisions of said § 1340.212 (c) (2), since the above mentioned strip-mined coals produced in District No. 1 are prepared in accordance with said § 1340.212 (c) (2) and blended in preparation with not less than 25% deep-mined coal at the above mentioned preparation plant, which is operated as an adjunct of said Mine Index No. 20, in District No. 1.

Accordingly, this revised order is being further amended to include applicant's blended mixture of prepared strip-mined and deep-mined coal.

PILOT LAMP MFG. CO., INC.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188, *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by the Pilot Lamp Manufacturing Company, Incorporated, 390 Fourth Avenue, New York 16, New York.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	For sale by manufacturer to—		For sale by any person to consumers
		Jobbers	Retailers	
Plated-metal torchier with glass reflector	1000	*Each* $9.77	*Each* $11.50	*Each* $20.70
Plated-metal 6-way floor lamp with glass diffuser	1600	9.77	11.50	20.70
Plated-metal swing bridge lamp with glass diffuser	1200	9.77	11.50	20.70
Plated-metal table lamp with glass diffuser (copper, brass, or bronze finish)	1800	5.52	6.50	11.70
Plated-metal table lamp with glass diffuser (silver or gold finish)	1801	5.46	6.42	11.56

These maximum prices are for the articles described in the manufacturer's application dated August 19, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries. For sales to persons other than consumers they are f. o. b. New York City, New York, and terms are net. The maximum price to consumers is net delivered.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the fourth Pricing Method, § 1499.158, of Maximum Price Regulation 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement, with the proper model number and the ceiling price inserted in the blank spaces:

Model Number ------
OPA Retail Ceiling Price $------
Do Not Detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the manufacturer shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) Jobbers' maximum prices for sales of the articles covered by this order shall be established under the provisions of section 4.5 of SR 14J.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 21st day of September 1946.

Issued this 20th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 5192 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

By application dated August 19, 1946, Pilot Lamp Manufacturing Company, Incorporated, 390 Fourth Avenue, New York 16, New York, herein called the applicant, requested the Office of Price Administration to establish maximum prices for sales of lamps which it manufactures.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the Regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the sellers markups normally enjoyed in the industry for their types of distributive operations.

ESTABLISHMENT OF MAXIMUM PRICES AND PRICE CLASSIFICATIONS

For the reasons set forth in an opinion issued simultaneously herewith and in accordance with § 1340.212 (c) of Maximum Price Regulation No. 120, *It is ordered:*

Order No. 1548 under Maximum Price Regulation No. 120 is hereby amended in the following respects:

Paragraph (a) is amended by adding thereto the following name of the producer, address, mine and index number, and preparation plant name, as follows:

OPINION ACCOMPANYING AMENDMENT 44 TO ORDER 1548 UNDER MAXIMUM PRICE REGULATION NO. 120

Somerset Construction Co., Salisburg, Pennsylvania, filed an application pursuant to § 1340.212 (c) of Maximum Price Regulation No. 120, requesting that its maximum price for strip-mined coal,

produced at its Dennis No. 1 mine, Mine Index No. 5871 and prepared at its preparation plant at Niverton, Pennsylvania, in District No. 1, be increased 50¢ per net ton.

It appears that applicant's strip-mined coal receives thorough cleaning and hand-picking at the said preparation plant, and that it is such that it can be prepared to a standard of general acceptability in the coal-consuming market.

The applicant qualifies, therefore, for the requested relief under the provisions of said § 1340.212 (c). All mines of District No. 1, qualifying for an increase of 50¢ per net ton for prepared strip-mined coal under the provisions of § 1340.212 (c) of Maximum Price Regulation No. 120, have been grouped together by Order No. 1548, as amended, under Maximum Price Regulation No. 120. Accordingly, this order is being further amended to include applicant's strip-mined coal.

[MPR 591, Order 820]

HYDRO-AIRE INC.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 9 of Maximum Price Regulation No. 591, *It is ordered:*

(a) The maximum net price for sales by any person to consumers of the following electric wall heaters, manufactured by Hydro-Aire Incorporated of Los Angeles, California and as described in its application dated August 8, 1946, shall be:

Model 700 Electric wall heater, 1,650-watt, 9" x 48", $28.30.

(b) The maximum net price f. o. b. point of shipment for sales to jobbers shall be the maximum net price above, less a discount of 46 percent.

(c) The maximum net price f. o. b. point of shipment for sales to dealers shall be the maximum net price above less the following quantity discounts:

1 to 6 in one shipment, 33 percent discount.
7 or more in one shipment, 36 percent discount.

(d) The maximum net prices established by this order shall be subject to discounts and allowances including transportation allowances and the rendition of services which are at least as favorable as those which each seller extended or rendered or would have extended or rendered to purchasers of the same class on comparable sales of commodities in the same general category during March 1942.

(e) The maximum prices on an installed basis of the commodities covered by this order shall be determined in accordance with Revised Maximum Price Regulation No. 251.

(f) Each seller covered by this order, except on sales to a consumer, shall notify each of his purchasers, in writing, at or before the issuance of the first invoice after the effective date of this order, of the maximum prices established by this order for each such seller as well as the maximum prices established for purchasers except dealers upon resale.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 21, 1946.

Issued this 20th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 820 UNDER SECTION 9 OF MAXIMUM PRICE REGULATION NO. 591

The accompanying order No. 820 under section 9 of Maximum Price Regulation No. 591 establishes maximum prices for sales at all levels of distribution for electric wall heaters manufactured by Hydro-Aire Incorporated of Los Angeles, California.

This particular commodity was only recently introduced into the market by the manufacturer. Maximum price for the item could not be established under section 7 or 8 of Maximum Price Regulation No. 591, because this company had never manufactured comparable commodities. Consequently, a maximum price must be approved pursuant to the provisions of section 9 of Maximum Price Regulation No. 591.

In its application the company submitted its proposed price for the commodity covered by this order. An analysis of the information submitted, indicated that the price requested is in line with the prices of competitive manufacturers for comparable commodities and, therefore, is in line with the level of prices established under Maximum Price Regulation No. 591.

In order to avoid any confusion on the part of resellers as to their maximum prices and for the purposes of protecting consumers, the accompanying order establishes dollars-and-cents prices for all levels of distribution. Maximum prices established for resellers reflect the usual margins of such resellers on sales of comparable products.

The commodity manufactured by this company will be distributed by many resellers who may or may not have access to copies of the accompanying order. Therefore, in order to avoid confusion on the part of resellers who do not have access to this order, the order provides that the manufacturer shall notify each of its purchasers of its maximum price as well as purchasers' maximum resale price.

All provisions of the accompanying order and their effect upon business practices, or cost practices or methods or means or aids to distribution in the industry or industries affected, have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices, or methods or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

The Price Administrator has determined, on the basis of the foregoing, that the maximum prices established by the order, are in conformity with the Emergency Price Control Act of 1942, as amended, and Executive orders of the President.

OPINION ACCOMPANYING AMENDMENT 5 TO ORDER 1716 UNDER MAXIMUM PRICE REGULATION 120

Plummer & James, Sewickley; Penncoal, Inc., 1922 Farmers Bank Bldg., Pittsburgh 22; Sunnyside Coal Mining Co., R. D. #2, Darlington; Hayes Coal Company, Scottdale; all in Pennsylvania; and Ash & Smith Coal Company, c/o Knox, Matthews & Lishman, Esqs., 821 15th Street, NW., Washington, D. C., filed applications pursuant to § 1340.213 (d) of Maximum Price Regulation No. 120, requesting that their maximum prices for strip-mined coal, produced at their Plummer & James No. 4; Penncoal; Murdock; Hayes No. 3 and Smith No. 4 Mines, respectively, Mine Index Nos. 4461, 4598, 4631, 4140 and 4224, respectively, and prepared at their respective preparation plants at Brownfield, LaBelle, Darlington, Wyano and Marion, all in Pennsylvania, in District No. 2, be increased 61¢ per net ton for coals delivered by all methods of transportation except truck or wagon shipment and 36¢ per net ton for truck or wagon shipment.

It appears that the applicants' strip-mined coals receive thorough cleaning and hand-picking at their preparation plants and they are such that it can be prepared to a standard of general acceptability in the coal-consuming market.

The applicants qualify, therefore for the requested relief under the provisions of said § 1340.213 (d). All mines of District No. 2, qualifying for an increase of 61¢ per net ton for prepared strip-mined coal delivered by all methods of transportation except truck or wagon shipment and 36¢ per net ton for truck or wagon shipment under the provisions of § 1340.213 (d) of Maximum Price Regulation No. 120, have been grouped together by Order No. 1716, as amended, under Maximum Price Regulation No. 120. Accordingly, this order is being further amended to include applicants' strip-mined coals.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and in accordance with § 1340.213 (d) of Maximum Price Regulation No. 120, *It is ordered:*

Order No. 1716 under Maximum Price Regulation No. 120 is hereby amended in the following respects:

1. Paragraph (a) is amended by deleting therefrom the following name of the producer, address, mine name and index number, and preparation plant name as follows:

Producer and address	Mine name	Mine index No.	Location and name of preparation plant through which the coals are prepared
Deer Field Coal Co., The—Shields Bldg., Wilkinsburg, Pa.	Clements	2234	Clements Mine Preparation Plant, Renton, Pa., on P. R. R.

2. Paragraph (a) is further amended by adding thereto the following name of the producer, address, mine name and index number, and preparation plant name as follows:

Producer and address	Mine name	Mine index No.	Location and name of preparation plant through which the coals are prepared
Deer Field Coal Co., The Shields Building, Wilkinsburg, Pa.	Clements, No. 2	4620	Clements No. 2 Preparation Plant McKees Rocks, Pa. and P. C. & Y.

This Amendment No. 6 to Order No. 1716 under Maximum Price Regulation No. 120 shall become effective September 21, 1946.

Issued this 20th day of September 1946.

OPINION ACCOMPANYING AMENDMENT 6 TO ORDER 1716 UNDER MAXIMUM PRICE REGULATION 120

The Deer Field Coal Company, Shields Building, Wilkinsburg, Pennsylvania, filed application pursuant to § 1340.213 (d) of Maximum Price Regulation No. 120, requesting that its maximum prices for strip-mined coal, produced at its Clements No. 2 Mine, Mine Index Number 4620, and prepared at its preparation plant at McKees Rocks, Pennsylvania, in District No. 2, be increased 61¢ per net ton for coals delivered by all methods of transportation except truck or wagon shipment and 36¢ per net ton for truck or wagon shipment. It appears that the preparation plant of the applicant which was formerly used for the preparation of the coals of the Clements Mine, and which was located at Renton, Pennsylvania, has been abandoned. It has been moved to McKees Rocks, Pennsylvania, renamed, and is now used for the preparation of the coals of Clements No. 2 Mine.

It further appears that the applicant's strip-mined coals receive thorough cleaning and hand-picking at its preparation plant and they are such that they can be prepared to a standard of general acceptability in the coal-consuming market.

The applicant qualifies, therefore, for the requested relief under the provisions of said § 1340.213 (d). All mines of District No. 2, qualifying for an increase of 61¢ per net ton for prepared strip-mined coal delivered by all methods of transportation except truck or wagon shipment and 36¢ per net ton for truck or wagon shipment under the provisions of § 1340.213 (d) of Maximum Price Regulation No. 120, have been grouped together by Order No. 1716, as amended, under Maximum Price Regulation No. 120. Accordingly, this order is being further amended to include applicant's strip-mined coals.

OPINION ACCOMPANYING ORDER NO. 821 UNDER SECTION 9 OF MAXIMUM PRICE REGULATION NO. 591

The accompanying Order No. 821 under section 9 of Maximum Price Regulation No. 591 establishes maximum prices for sales at consumer and dealer levels of distribution for domestic hot water heaters, manufactured by Heat Equipment Incorporated, Chicago, Illinois.

These particular commodities were only recently introduced into the market by the manufacturer. Maximum prices for the items could not be established under sections 7 or 8 of Maximum Price Regulation No. 591, because this company had never manufactured comparable commodities. Consequently, maximum prices must be approved pursuant to the provisions of section 9 of Maximum Price Regulation No. 591.

In its application the company submitted its proposed prices for the commodities covered by this order. An analysis of the information submitted indicated that the prices requested are in line with the prices of competitive manufacturers for comparable commodities and, therefore, are in line with the level of prices established under Maximum Price Regulation No. 591.

In order to avoid any confusion on the part of resellers as to their maximum prices and for the purposes of protecting consumers, the accompanying order establishes dollars-and-cents prices for consumer and dealer levels of distribution. Maximum prices established for resellers reflect the usual margins of such resellers on sales of comparable products.

The commodities manufactured by this company will be distributed by many resellers who may or may not have access to copies of the accompanying order. Therefore, in order to avoid confusion on the part of resellers who do not have access to this order, the order provides that the manufacturer shall notify each of its purchasers of its maximum prices as well as purchasers' maximum resale prices.

All provisions of the accompanying order and their effect upon business practices, or cost practices or methods or means or aids to distribution in the industry or industries affected, have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices, or methods or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

The Price Administrator has determined, on the basis of the foregoing that the maximum prices established by the order are generally fair and equitable, and are in conformity with the Emergency Price Control Act of 1942, as amended, and Executive orders of the President.

EASTERN GAS & FUEL ASSOCIATES ET AL.

ESTABLISHMENT OF MAXIMUM PRICES AND PRICE CLASSIFICATIONS

For the reasons set forth in an accompanying opinion, and in accordance with § 1340.210 (a) (6) of Maximum Price Regulation No. 120, *It is ordered:*

Producers identified herein operate named mines assigned the mine index numbers, the price classifications and the maximum prices in cents per net ton for the indicated uses and shipments as set forth herein. All are in District No. 8. The mine index numbers and the price classifications assigned are permanent but the maximum prices may be changed by an amendment issued after the effective date of this order. Where such an amendment is issued for the district in which the mines involved herein are located and where the amendment makes no particular reference to a mine or mines involved herein, the prices shall be the prices set forth in such amendment for the price classifications of the respective size groups. The location of each mine is given by county and State. The maximum prices stated to be for truck shipment are in cents per net ton f. o. b. the mine or preparation plant and when stated to be for rail shipment or for railroad fuel are in cents per net ton f. o. b. rail shipping point. In cases where mines ship coals by river the prices for such shipments are those established for rail shipment and are in cents per net ton f. o. b. river shipping point. However, producer is subject to the provisions of § 1340.219 and all other provisions of Maximum Price Regulation No. 120.

OPINION ACCOMPANYING ORDER 1739 UNDER MAXIMUM PRICE REGULATION 120

The order which this opinion accompanies establishes maximum prices and price classifications and assigns mine index numbers to mines in District No. 8 which had not been classified and numbered by the former Bituminous Coal Division. This is done in accordance with § 1340.210 (a) (6) of the Regulation which provides for this action.

Under this section, a producer is required to file an application for maximum prices and classifications based upon those of the nearest mine in the same or substantially similar seams. Generally the producer requests the prices and classifications he deems proper.

This application was then submitted to the industry advisory committee for District No. 8. The prices and classifications established are those recommended by the committee and those requested by the applicants, if a request was made, and are fair and equitable.

CHARLES P. WEST

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 9 of Maximum Price Regulation No. 591, *It is ordered:*

(a) The maximum prices for sales by any person to consumers of the following water softeners manufactured by Charles P. West, of Detroit, Michigan, and described in his application dated August 29, 1946, shall be:

40,000 grain zeolite water softener iron remover and sediment filter.. $323.13

(b) The maximum net LCL prices, f. o. b. point of shipment, for sales by any person shall be the maximum prices specified in (a) above less the following discounts:

1. On sales to a dealer, a discount of 27 percent.

2. On sales to a jobber, successive discounts of 45 and 5 percent.

(c) The maximum prices established by this order are subject to such further cash discounts, transportation allowances and price differentials at least as favorable as those which each seller extended or rendered or would have extended or rendered during March 1942, on sales of commodities in the same general category.

(d) The maximum prices on an installed basis of the commodities covered by this order shall be determined in accordance with Revised Maximum Price Regulation No. 251.

(e) Each seller covered by this order, except on sales to consumers, shall notify each of his purchasers, in writing, at or before the issuance of the first invoice after the effective date of this order, of the maximum prices established by this order for each such seller as well as the maximum prices established for purchasers except dealers upon resale.

(f) Charles P. West shall attach to each water softener covered by this order a tag containing the following:

OPA Maximum Retail Price Not Installed
$------

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 21, 1946.

Issued this 20th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 822 UNDER SECTION 9 OF MAXIMUM PRICE REGULATION NO. 591

The accompanying Order No. 822 under section 9 of Maximum Price Regulation No. 591 establishes maximum prices for sales at all levels of distribution for water softeners manufactured by Charles P. West of Detroit, Michigan.

These particular commodities were only recently introduced into the market by the manufacturer. Maximum prices for the items could not be established under sections 7 or 8 of Maximum Price Regulation No. 591, because this company had never manufactured comparable commodities. Consequently, maximum prices must be approved pursuant to the provisions of section 9 of Maximum Price Regulation No. 591.

In its application the company submitted its proposed prices for the commodities covered by this order. An analysis of the information submitted indicated that the prices requested are in line with the prices of competitive manufacturers for comparable commodities and, therefore, are in line with the level of prices established under Maximum Price Regulation No. 591.

In order to avoid any confusion on the part of resellers as to their maximum prices and for the purposes of protecting consumers, the accompanying order establishes dollars and cents prices for all levels of distribution. Maximum prices established for resellers reflect the usual margins of such resellers on sales of comparable products.

The commodities manufactured by this company will be distributed by many resellers who may or may not have access to copies of the accompanying order. Therefore, in order to avoid confusion on the part of resellers who do not have access to this order, the order provides that the manufacturer attach to each water softener a tag on which will be printed the article's maximum consumer price. In addition, each seller, except on sales to consumers, is required to notify each of his purchasers of his maximum prices as well as purchasers' maximum prices on resale.

All provisions of the accompanying order and their effect upon business practices, or cost practices or methods or means or aids to distribution in the industry or industries affected, have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices, or methods or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

The Price Administrator has determined, on the basis of the foregoing that the maximum prices established by the order are in conformity with the Emergency Price Control Act of 1942, as amended, and Executive orders of the President.

L. & M. COAL CO., ET AL.

ESTABLISHMENT OF MAXIMUM PRICES AND PRICE CLASSIFICATIONS

For the reasons set forth in an accompanying opinion, and in accordance with

§ 1340.210 (a) (6) of Maximum Price Regulation No. 120, *It is ordered:*

Producers identified herein operate named mines assigned the mine index numbers, the price classifications and the maximum prices in cents per net ton for the indicated uses and shipments as set forth herein. All are in District No. 14. The mine index numbers and the price classifications assigned are permanent but the maximum prices may be changed by an amendment issued after the effective date of this order. Where such an amendment is issued for the district in which the mines involved herein are located and where the amendment makes no particular reference to a mine or mines involved herein, the prices shall be the prices set forth in such amendment for the price classifications of the respective size groups. The location of each mine is given by county and state. The maximum prices stated to be for truck shipment are in cents per net ton f. o. b. the mine or preparation plant and when stated to be for rail shipment or for railroad locomotive fuel are in cents per net ton f. o. b. rail shipping point. In cases where mines ship coals by river the prices for such shipments are those established for rail shipment and are in cents per net ton f. o. b. river shipping point. However, producer is subject to the provisions of § 1340.225 and all other provisions of maximum price regulation No. 120.

OPINION ACCOMPANYING ORDER 1740 UNDER MAXIMUM PRICE REGULATION 120

The order which this opinion accompanies establishes maximum prices and price classifications and assigns mine index numbers to mines in District No. 14 which had not been classified and numbered by the former Bituminous Coal Division. This is done in accordance with §1340.210 (a) (6) of the Regulation which provides for this action.

Under this section, a producer is required to file an application for maximum prices and classifications based upon those of the nearest mine in the same or substantially similar seams. Generally the producer requests the prices and classifications he deems proper.

This application was then submitted to the industry advisory committee for District No. 14. The prices and classifications established are those recommended by the committee and those requested by the applicants, if a request was made, and are fair and equitable.

Waters Burner Co.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 9 of Maximum Price Regulation No. 591, *It is ordered:*

(a) The maximum net prices, for sales by any person of the following gas conversion burners manufactured by Waters Burner Company of Bradford, Pennsylvania, and as described in the application dated August 1, 1946, shall be:

	F. o. b. point of shipment on sales to—		Installed ready for operation on sales to consumer
	Distributors	Dealers	
Model D-10 burner	$83.70	$97.65	$163.00
Model D-12 burner	89.70	104.65	170.00
Model D-14 burner	95.70	111.65	177.00
Model D-16 burner	101.70	118.65	184.00
Model D-18 burner	107.70	125.65	190.00

(b) The maximum net prices established by this order shall be subject to discounts and allowances including transportation allowances and the rendition of services which are at least as favorable as those which each seller extended or rendered or would have extended or rendered to purchasers of the same class on comparable sales of commodities in the same general category during March 1942.

(c) Each seller covered by this order, except on sales to a consumer, shall notify each of his purchasers, in writing, at or before the issuance of the first invoice after the effective date of this order, of the maximum prices established by this order for each such seller as well as the maximum prices established for purchasers upon resale.

(d) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 21, 1946.

Issued this 20th day of September 1946.

Paul A. Porter,
Administrator.

OPINION ACCOMPANYING ORDER NO. 823 UNDER SECTION 9 OF MAXIMUM PRICE REGULATION NO. 591

The accompanying Order No. 823 under section 9 of Maximum Price Regulation No. 591 establishes maximum prices for sales at all levels of distribution for gas conversion burners manufactured by Waters Burner Corporation of Bradford, Pennsylvania.

These particular commodities were only recently introduced into the market by the manufacturer. Maximum prices for the items could not be established under section 7 or 8 of Maximum Price Regulation No. 591, because this company had never manufactured comparable commodities. Consequently, maximum prices must be approved pursuant to the provisions of section 9 of Maximum Price Regulation No. 591.

In its application the company submitted its proposed prices for the commodities covered by this order. An analysis of the information submitted indicated that the prices approved are in line with the prices of competitive manufacturers for comparable commodities and, therefore, are in line with the level of prices established under Maximum Price Regulation No. 591.

In order to avoid any confusion on the part of resellers as to their maximum prices and for the purposes of protecting consumers, the accompanying order establishes dollars-and-cents prices for all levels of distribution. Maximum prices established for resellers reflect the usual margins of such resellers on sales of comparable products.

The commodities manufactured by this company will be distributed by many resellers who may or may not have access to copies of the accompanying order. Therefore, in order to avoid confusion on the part of resellers who do not have access to this order, the order provides that the manufacturer shall notify each of its purchasers of its maximum prices as well as purchasers' maximum resale prices.

All provisions of the accompanying order and their effect upon business practices, or cost practices or methods or means or aids to distribution in the industry or industries affected, have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices, or methods or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

The Price Administrator has determined, on the basis of the foregoing that the maximum prices established by the order are generally fair and equitable, and are in conformity with the Emergency Price Control Act of 1942, as amended, and Executive orders of the President.

G. I. HAUK & CO., INC.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 9 of Maximum Price Regulation No. 591, *It is ordered:*

(a) The maximum net prices, f. o. b. point of shipment, for sales by any person of the following frozen food cabinet manufactured by G. I. Hauk & Company, Incorporated, 3041-43 Locust Street, St. Louis, Missouri, and as described in the application dated August 28, 1946, which is on file with the Mechanical Building Equipment Price Branch, Office of Price Administration, Washington 25, D. C., shall be:

	On sales to—		
	Distributors	Dealers	Consumers
10 cubic feet	$212.50	$255.00	$425.00

(b) The maximum net prices established in (a) above may be increased by the following amount to each class of purchaser to cover the cost of crating when crating is actually supplied: $6.00.

(c) The maximum net prices established by this order shall be subject to discounts and allowances and the rendition of services which are at least as favorable as those which each seller extended or rendered or would have extended or rendered to purchasers of the same class on comparable sales of similar commodities in the same general category on October 1, 1941.

(d) On sales by a distributor or dealer the following charges may be added to the maximum prices established in (a) above:

(1) The actual amount of freight paid to obtain delivery to his place of business. Such charges shall not exceed the lowest common carrier rates.

(2) Crating charges actually paid to his supplier but in no instance exceeding the amount specified in (b) above.

(e) Each seller covered by this order, except a dealer, shall notify each of his purchasers, in writing, at or before the issuance of the first invoice after the effective date of this order, of the maximum prices established by this order for each such seller as well as the maximum prices established for purchasers upon resale, except dealers, including allowable transportation and crating charges.

(f) The G. I. Hauk & Company, Incorporated, 3041-43 Locust Street, St. Louis, Missouri shall stencil on the frozen food cabinet covered by this order, substantially the following:

OPA Maximum Retail Price $_____

Plus freight and crating as provided in Order No. 824 under Maximum Price Regulation No. 591.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 21, 1946.

Issued this 20th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 824 UNDER SECTION 9 OF MAXIMUM PRICE REGULATION NO. 591

The accompanying Order No. 824 under section 9 of Maximum Price Regulation No. 591 establishes maximum prices for sales at all levels of distribution for frozen food cabinets manufactured by the G. I. Hauk & Company, Incorporated, 3041-43 Locust Street, St. Louis, Missouri.

These particular commodities were only recently introduced into the market by the manufacturer. Maximum prices for the items could not be established under sections 7 and 8 of Maximum Price Regulation No. 591, because this company had never manufactured comparable commodities. Consequently, maximum prices must be approved pursuant to the provisions of section 9 of Maximum Price Regulation No. 591.

In its application the company submitted its proposed prices for the commodities covered by this order. Based on an analysis of the information submitted the prices set forth in the accompanying order are in line with the prices of competitive manufacturers for comparable commodities and, therefore, are in line with the level of prices established under Maximum Price Regulation No. 591.

In order to avoid any confusion on the part of resellers as to their maximum prices and for the purposes of protecting consumers, the accompanying order establishes dollars-and-cents prices for all levels of distribution. Maximum prices established for resellers reflect the usual margins of such resellers on sales of comparable products. The order also provides that distributors may, under certain circumstances, add delivery charges to the dollars-and-cents maximum prices established to cover actual freight paid to obtain delivery and crating charges actually paid.

The commodities manufactured by this company will be distributed by many resellers who may or may not have access to copies of the accompanying order. Therefore, in order to avoid confusion on the part of resellers who do not have access to this order, the order provides that the G. I. Hauk & Company, Incorporated, shall notify each of its purchasers of its maximum prices as well as purchasers' maximum resale prices. The order further provides that the G. I. Hauk & Company, Incorporated, shall stencil on the inside of the lid of the frozen food cabinet the maximum retail price thereof.

All provisions of the accompanying order and their effect upon business practices, or cost practices, or methods or means or aids to distribution in the industry or industries affected, have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices, or methods or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

The Price Administrator has determined, on the basis of the foregoing that the maximum prices established by the order are generally fair and equitable, and are in conformity with the Emergency Price Control Act of 1942, as amended, and Executive orders issued by the President.

OPINION ACCOMPANYING ORDER 1743 UNDER MAXIMUM PRICE REGULATION 120

The order which this opinion accompanies establishes maximum prices and price classifications and assigns mine index numbers to mines in District No. 2 which had not been classified and numbered by the former Bituminous Coal Division. This is done in accordance with § 1340.210 (a) (6) of the Regulation which provides for this action.

Under this section, a producer is required to file an application for maximum prices and classifications based upon those of the nearest mine in the same or substantially similar seams. Generally the producer requests the prices and classifications he deems proper.

This application was then submitted to the industry advisory committee for District No. 2. The prices and classifications established are those recommended

by the committee and those requested by the applicants, if a request was made, and are fair and equitable.

JABAR MFG. CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 9 of Maximum Price Regulation No. 591, *It is ordered:*

(a) The maximum net prices for sales by any person to consumers of the following steel wall cabinets manufactured by Jabar Manufacturing Company of Ozone Park, New York and as described in the application dated August 31, 1946 shall be:

Steel wall cabinets

Model		
1818	18" x 13" x 18"	$17.50
1824	24" x 13" x 18"	24.50
3018	18" x 13" x 30"	22.75
3021	21" x 13" x 30"	26.25
3024	24" x 13" x 30"	29.75

(b) The maximum net prices f. o. b. point of shipment for sales to dealers shall be the maximum prices in (a) above less a discount of 40 percent.

(c) The maximum net prices f. o. b. point of shipment on sales to jobbers shall be the maximum net prices in (a) above less successive discounts of 50 and 12 percent.

(d) The maximum net prices established by this order shall be subject to discounts and allowances including transportation allowances and the rendition of services which are at least as favorable as those which each seller extended or rendered or would have extended or rendered to purchasers of the same class on comparable sales of commodities in the same general category during March 1942.

(e) The maximum prices on an installed basis of the commodities covered by this order shall be determined in accordance with Revised Maximum Price Regulation No. 251.

(f) Each seller covered by this order, except on sales to consumers shall notify each of his purchasers, in writing, at or before the issuance of the first invoice after the effective date of this order, of the maximum prices established by this order for each such seller as well as the maximum prices established for purchasers upon resale.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 21, 1946.

Issued this 20th day of September 1946.

Administrator.

OPINION ACCOMPANYING ORDER NO. 825 UNDER SECTION 9 OF MAXIMUM PRICE REGULATION NO. 591

The accompanying Order No. 825 under section 9 of Maximum Price Regulation No. 591 establishes maximum prices for sales at all levels of distribution for steel wall cabinets manufactured by Jabar Manufacturing Company, Ozone Park, New York.

These particular commodities were only recently introduced into the market by the manufacturer. Maximum prices for the items could not be established under section 7 or 8 of Maximum Price Regulation No. 591, because this company had never manufactured comparable commodities. Consequently, maximum prices must be approved pursuant to the provisions of section 9 of Maximum Price Regulation No. 591.

In its application the company submitted its proposed prices for the commodities covered by this order. An analysis of the information submitted indicated that the prices requested are in line with the prices of competitive manufacturers for comparable commodities and, therefore, are in line with the level of prices established under Maximum Price Regulation No. 591.

In order to avoid any confusion on the part of resellers as to their maximum prices and for the purposes of protecting consumers, the accompanying order establishes dollars-and-cents prices for all levels of distribution. Maximum Prices established for resellers reflect the usual margins of such resellers on sales of comparable products.

The commodities manufactured by this company will be distributed by many resellers who may or may not have access to copies of the accompanying order. Therefore, in order to avoid confusion on the part of resellers who do not have access to this order, the order provides that the manufacturer shall notify each of its purchasers of its maximum prices as well as purchasers' maximum resale prices.

All provisions of the accompanying order and their effect upon business practices, or cost practices or methods or means or aids to distribution in the industry or industries affected, have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices, or methods or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

The Price Administrator has determined, on the basis of the foregoing that the maximum prices established by the order are generally fair and equitable, and are in conformity with the Emergency Price Control Act of 1942, as amended and Executive orders of the President.

ELECTRIC HOUSEHOLD UTILITIES CORP.

APPROVAL OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 14 of Revised Maximum Price Regulation No. 86, *It is ordered:*

(a) This order establishes differentials which distributors of washing machines and ironing machines manufactured by the Electric Household Utilities Corporation, 54th Avenue and Cermak Road, Chicago, Illinois, may add to their ceiling prices established under Revised Maximum Price Regulation No. 86 or orders thereunder for their sales of such washers and ironers to servicing dealers if, at the request of the dealer, they provide the consumer owning the machine with all the service necessary to comply with the one year warranty on the machine.

(b) A distributor who, at the request of the dealer to whom he sells a washing machine or ironing machine produced by the Electric Household Utilities Corporation agrees to furnish the consumer purchasing the machine with whatever service is necessary to comply with the one year warranty applicable to the machine, shall determine his ceiling price for sale of the machine to dealers who purchase from him subject to such an agreement by adding to his properly determined ceiling price for sales of the same washer or ironer to dealers who themselves provide the necessary warranty service a sum no greater than that set forth below opposite each type of machine:

Type of machine	*Amount which may be added*
Models 200 C or 400 C washing machines	$3 50 each.
Wringer type washing machines	1. 50 each.
Ironing machines	1 50 each

A distributor may not collect the additional charge allowed by this order unless he separately states that charge on the invoice covering the sale of the washing machine to which the charge is applicable.

(c) All the provisions of Revised Maximum Price Regulation No. 86 continue to apply to all sales and deliveries of machines covered by this order, except to the extent that those provisions are modified by this order.

(d) Unless the context requires otherwise, the definitions set forth in the various sections of Revised Maximum Price Regulation No. 86 shall apply to the terms used herein.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 21st day of September 1946.

Issued this 20th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER 78 UNDER REVISED MAXIMUM PRICE REGULATION 86

All washing and ironing machines sold by the Electric Household Utilities Corporation, 54th Avenue and Cermak Road, Chicago, Illinois, are sold at retail subject to a one year warranty. Customarily, whatever services were necessary to comply with this warranty were provided free of charge by the dealer. It now appears, however, that many dealers selling washing or ironing machines produced by the Corporation are not equipped to supply such services and have requested the distributors supplying them to take on the burden of complying with the one year warranty. Accordingly, a number of individual distributors have applied to this Office for the establishment of a differential to reflect the value of the additional services they must supply in connection with the sale of a washer to this type of dealer.

This Office has considered all the data submitted and, on the basis of those data and additional information available to it, has established a differential covering sales to dealers subject to an agreement by the distributor to supply to the purchasing consumer on behalf of the dealer the service needed to comply with the one year warrant. The differential established, in the case of wringer type machines and ironers, is in line with that charged during October, 1941 in connection with similar sales of similar machines produced by other manufacturers. The differential established for sales of semi-automatic and automatic washers adds to the differential set up for wringer type washers an appropriate allowance which reflects the greater cost and probable more frequent incidence of service calls in connection with the more complex machinery contained in automatic and semi-automatic washers.

C. & S. COAL CO. ET AL

ESTABLISHMENT OF MAXIMUM PRICES AND PRICE CLASSIFICATIONS

For the reasons set forth in an accompanying opinion, and in accordance with § 1340.210 (a) (6) of Maximum Price Regulation No. 120, *It is ordered:*

Producers identified herein operate named mines assigned the mine index numbers, the price classifications and the maximum prices in cents per net ton for the indicated uses and shipments as set forth herein. All are in District No. 2. The mine index numbers and the price classifications assigned are permanent but the maximum prices may be changed by an amendment issued after the effective date of this order. Where such an amendment is issued for the district in which the mines involved herein are located and where the amendment makes no particular reference to a mine or mines involved herein, the prices shall be the prices set forth in such amendment for the price classifications of the respective size groups. The location of each mine is given by county and state. The maximum prices stated to be for truck shipment are in cents per net ton f. o. b. the mine or preparation plant and when stated to be for rail shipment or for railroad fuel are in cents per net ton f. o. b. rail shipping point. In cases where mines ship coals by river the prices for such shipments are those established for rail shipment and are in cents per net ton f. o. b. river shipping point. However, producer is subject to the provisions of § 1340.213 and all other provisions of Maximum Price Regulation No. 120.

OPINION ACCOMPANYING ORDER 1745 UNDER MAXIMUM PRICE REGULATION 120

The order which this opinion accompanies establishes maximum prices and price classifications and assigns mine index numbers to mines in District No. 2 which had not been classified and numbered by the former Bituminous Coal Division. This is done in accordance with § 1340.210 (a) (6) of the Regulation which provides for this action.

Under this section, a producer is required to file an application for maximum prices and classifications based upon those of the nearest mine in the same or substantially similar seams. Generally the producer requests the prices and classifications he deems proper.

This application was then submitted to the industry advisory committee for District No. 2. The prices and classifications established are those recommended by the committee and those requested by the applicants, if a request was made, and are fair and equitable.

FIRESTONE TIRE & RUBBER CO.

APPROVAL OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 11 of Maximum Price Regulation No. 64, *It is ordered:*

(a) This order establishes ceiling prices for sales to consumers of the Models No. 5-C-10 and 5-C-11 electric ranges manufactured for sale by the Firestone Tire & Rubber Company, Akron 17, Ohio, as follows:

Model	Ceiling prices for sales to consumers	
	Zone 1	Zone 2
5-C-10	$195.00	$203.50
5-C-11	231.75	240.25

These ceiling prices include the Federal excise tax, delivery, a one year warranty and installation where the installation requires only that the range be connected to electric facilities to be provided by the consumer and such connection does not require any additional materials. If a range cord set (customarily referred to in the industry as a "pigtail") is required and is furnished by the retail dealer, he may add $3.50 to the applicable OPA retail ceiling price shown above. In all other respects these ceiling prices are subject to each seller's customary terms, discounts, allowances and other price differentials in effect on sales of similar articles.

(b) For purposes of this order, Zones 1 and 2 are comprised as follows:

Zone 1: Consists of all those portions of the forty-eight states and the District of Columbia not included in Zone 2.

Zone 2: Consists of the states of Arizona, California, Idaho, Oregon, Utah, Wyoming, Washington, Colorado (except the city of Towner), Nevada, New Mexico (except the counties of Chaves, Curry, De Baca, Eddy, Harding, Lea, Quay, Roosevelt and Union); the following counties in Nebraska: Banner, Box Butte, Cherry (except the cities of Crookston, Valentine, Thatcher, Woodlake, Sparks and Arabia), Cheyenne, Dawes, Deuel, Garden, Grant, Hooker, Kimball, Morrill, Scotts Bluff, Sheridan, and Sioux; the town of Phillip and the following counties in South Dakota: Bennett, Butte, Custer, Fall River, Jackson, Lawrence, Meade (except the town of Faith), Pennington, Shannon, Washington and Washabaugh; and the following counties in Texas: Brewster, Culberson, El Paso, Hudspeth, Jeff Davis, Loving, Pecos, Presidio, Reeves and Terrell; Montana except the cities of Richey and Veda and except the counties of Daniels (exclusive of the towns of Carbert, Glutten, Cesetts, Peerless and West Fork), Richland (exclusive of the towns of Burns and Savage), Roosevelt (exclusive of the towns of Lohmiller, Volt and Washa), Sheridan and Wibaux.

(c) The Firestone Tire and Rubber Company shall cause to be attached to the outside oven door panel of each range, prior to its shipment to a retail dealer, a label which contains all the following information:

1. The model number of the range.
2. The OPA retail ceiling price of the range in each zone.
3. A statement of the areas included in each zone.
4. A statement that the ceiling prices shown include the Federal excise tax, delivery, a one year warranty and installation where the installation requires only that the range be connected to electric facilities to be provided by the purchaser and such connection does not require any additional materials.
5. A statement that if the installation requires the use of a range cord set (customarily referred to in the industry as a "pigtail") and a range cord set is furnished by the retail dealer, he may add $3.50 to the applicable OPA retail ceiling price of the range.

(d) Relationship to Maximum Price Regulation No. 64. All the provisions of Maximum Price Regulation No. 64 continue to apply to sales of articles covered by this order, except to the extent that they are modified by this order. The ceiling prices established by this order have been determined in accordance with section 11b of that regulation and may not, therefore, be increased under that section.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 21st day of September 1946.

Issued this 20th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER 317 UNDER MAXIMUM PRICE REGULATION 64

Ceiling prices were established under Maximum Price Regulation No. 64 for sales by the manufacturer fabricating electric ranges for resale by Firestone Tire and Rubber Company, Akron 17, Ohio, under its private brand.

The accompanying order establishes dollar-and-cent ceiling prices by zones for sales of these ranges by retail dealers to ultimate consumers. This type of stove is subject to pretickeling under Maximum Regulation No. 64, and it is, therefore, necessary to establish these resale prices in order to permit them to be pretickeled.

The ceiling prices fixed in the order for resale reflect average markups over each seller's supplier's ceiling price equal to those taken on March 31, 1946, by the same class of seller on similar sales of similar articles. They may not, therefore, be increased under section 11b. The resale price zones established were those which Firestone had in effect during the base period.

In accordance with the pretickeling requirements of Maximum Price Regulation No. 64, the Firestone Tire & Rubber Company is required to cause to be attached to each stove sold by it a label setting forth the OPA retail ceiling price for sales in each zone, the states included in each zone, and what the retail price includes.

(1) For paper wrapping, the discounts may be shortened 2 points.

(2) For sanding flat surfaces, the discounts may be shortened four points for each side sanded, not to exceed 8 points on any one item.

(3) No additions may be made to the above prices for rabbeting or grooving.

(b) All provisions of Maximum Price Regulation 601 not inconsistent with the provisions of this order shall apply to all sales made under this order.

(c) Invoices covering sales made under this order shall bear the statement "Prices established under Order No. 1 under MPR 601."

(d) The following letter orders issued under section 7 of MPR 601 are hereby revoked: Order Nos L-25, L-29, L-30, L-31, L-33, L-34, L-38, L-41, L-42, L-46, L-47, L-50, L-51, L-52, L-53, L-59, L-63, L-65, L-69, L-71, L-72 L-73, L-78, L-81 and L-98.

Acting Administrator.

OPINION ACCOMPANYING ORDER NO. 1 UNDER SECTION 7 OF MAXIMUM PRICE REGULATION 601

This order establishes maximum prices for direct mill sales of Venetian blind stock mouldings and revokes all letter orders issued to individual manufacturers by the Office of Price Administration establishing their maximum prices for such mouldings.

Numerous letter orders have been issued under Section 7 of MPR 601 establishing maximum prices for various sizes and species of Venetian blind stock mouldings. Previously it has been necessary for each manufacturer to apply for each size which he proposed to sell. This order lists these sizes and will eliminate the necessity of application each time a different size is manufactured for the first time.

Venetian blind stock mouldings are of a higher grade than regular mouldings. They are graded clear on four sides, whereas regular mouldings are graded clear one face and two edges. Venetian blind mouldings are grading B & Better whereas regular mouldings are substantially lower in grade. Previous industry practice has been to shorten the discounts 5 points for four faced stock and 5 points for B & Better. Special type bundling is required on these mouldings because ordinary methods do not protect the corners of the outer pieces of the bundle from being marred by the string. Since Venetian blind mouldings are exposed on four sides, it is necessary that they be bundled either with tape or corner guards for their protection. Previous industry practices has been to shorten discounts 3 points for special bundling. The individual orders were, therefore, issued establishing maximum prices for Venetian blind stock mouldings at 13 points shorter discount than for Standard mouldings.

Amendments 2 and 5 to MPR 601 granted an increase of four points in the maximum prices of Western Pine and Douglas Fir industrial mouldings, and a 12½ point increase in the maximum prices of house mouldings of these species. Venetian blind mouldings are considered as industrial mouldings and accordingly this order establishes maximum prices at 13 points (5 points for four faced stock, 5 points for B and Better and 3 points for special bundling, in line with industry practice) shorter discounts than the current discounts for industrial mouldings. The increase granted by Amendments 2 and 5 to MPR 601 for industrial mouldings is therefore granted to Venetian blind mouldings by this order, so that the maximum prices for these products will be in line with the general level of prices otherwise established under the regulation.

Some of the letter orders which are revoked by this order provided an addition to the list prices for grooving head rail. Since, prior to the issuance of MPR 601, it was not industry practice to make any addition to the list for this type of groove, this addition has been eliminated.

ADJUSTABLE PRICING

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250, 9328, and 9599 and in accordance with section 1.7 of Maximum Price Regulation 53, *It is ordered:*

(a) Until October 7, 1946, unless a revocation order is issued sooner, any person may deliver or agree to deliver and any person may accept delivery or agree to accept delivery of Pacific Coast sardine oil, crude or hydrogenated, covered by section 16.1 of Maximum Price Regulation 53 at a price to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery: *Provided, however*, That delivery takes place prior to October 7, 1946.

(b) Until October 7, 1946, unless a revocation order is issued sooner, any person may deliver or agree to deliver and any person may accept delivery or agree to accept delivery of raw linseed oil and /or linseed oil products covered by section 7.1 of Maximum Price Regulation 53 at a price to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery: *Provided, however*, That delivery takes place prior to October 7, 1946.

This order shall become effective September 20, 1946.

CHARLES F. BRANNAN,
Acting Secretary of Agriculture.

OPINION ACCOMPANYING ORDER NO. 33 UNDER SECTION 1.7 OF MAXIMUM PRICE REGULATION NO. 53

Representations have been made by the pilchard processing industry that the price of sardine oil, as fixed by the provisions of Maximum Price Regulation No. 53, is inadequate and that this commodity can no longer be produced and sold at such prices without causing financial hardship to the industry. From the preliminary information that has been submitted to the Office of Price Administration, it appears that a study of the financial condition of the industry may support these contentions. Accordingly, in view of the fact that some time must necessarily be consumed in making an adequate study, the accompanying adjustable pricing order is being issued, pending any price increase which may later be granted. This order will enable the industry to continue uninterrupted production and distribution of a commodity essential to industrial production and as a vitamin-carrying animal feed.

Since fish meal is also produced from pilchards, after the oil has been extracted, an adjustable pricing order covering fish meal is being issued simultaneously.

Representations have also been made by crushers of flaxseed that the price of linseed oil, as fixed by the provisions of Maximum Price Regulation No. 53, is inadequate and that this commodity can no longer be produced and sold at such prices without causing hardship to the industry. The basis for this complaint is alleged increases in costs since 1945 and reduced volume. Until a study is made of these increased costs and the ability of the industry to absorb, it has been deemed advisable that an adjustable pricing order be issued, pending any price increase which may later be granted. It is possible that no adjustment will need be granted, but it is necessary to provide all facility to the industry to insure continued production of this commodity which is so essential to the manufacture of paints, varnishes, linoleum and other products.

Since any adjustments, if warranted, should be granted by October 7, 1946, it is made explicit that the adjustable pricing order is automatically terminated for both oils on October 7 or sooner if specific action is taken.

FISH MEAL AND FISH SCRAP

ADJUSTABLE PRICING

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250, 9328, and 9599 and in accordance with § 1363.4 of Revised Price Schedule 73, *It is ordered:*

(a) That any person subject to the provisions of Revised Price Schedule 73 may sell and deliver fish meal, and any person may purchase and accept delivery of fish meal, at the appropriate legal maximum prices in effect at the time of delivery, and in addition, the seller may receive and the purchaser may pay, after delivery, any increase in the maximum prices otherwise applicable to such purchase and sale granted by the Price Administrator under the provisions of Revised Price Schedule 73 between the date of delivery and October 7, 1946.

(b) That this order shall become effective September 20, 1946; and

(c) That this order may be amended or revoked by the Administrator at any time.

CHARLES F. BRANNAN,
Acting Secretary of Agriculture.

OPINION ACCOMPANYING ORDER NO. 1 UNDER SECTION 1363.4 OF REVISED PRICE SCHEDULE 73

The pilchard processing industry has made representations that maximum prices for sardine oil and fish meal as established by the Price Administrator are inadequate and that these commodities can no longer be produced and sold at such prices without causing financial hardship to the industry. From the preliminary information submitted to the Office of Price Administration, it appears that a study of the financial condition of the industry may support these contentions. Accordingly, in view of the fact that some time must necessarily be consumed in making an adequate study, the accompanying adjustable pricing order is being issued covering fish meal, pending any price increase which may later be granted. This order will enable the industry to continue uninterrupted production and distribution of an ingredient used for the manufacture of animal feed. Since any adjustment, if warranted, should be granted by October 7, 1946, the accompanying order is limited to deliveries of fish meal occurring prior to October 7, 1946.

FLOOR AND WALL TILE

ADJUSTMENT OF MAXIMUM PRICES

An opinion accompanying this amendment, issued simultaneously herewith has been filed with the Division of the Federal Register.

Order 1 under section 25 of Maximum Price Regulation 592 is amended in the following respect:

A new Section 2.7 is added to read as follows:

SEC. 2.7 *Maximum prices for manufacturers of floor and wall tile in the County of Los Angeles, California*—(a) *Manufacturers' maximum prices.* The manufacturers' maximum prices established pursuant to Maximum Price Regulation 592 for floor and wall tile produced in the county of Los Angeles, California, may be increased by adding 11.2 percent to the March, 1942 f. o. b. or delivered prices.

(b) *Resellers' maximum prices.* Any jobber or dealer purchasing floor and wall tile for resale in the same form from any manufacturer, who has modified his maximum prices in accordance with paragraph (a) above, may increase his maximum prices, f. o. b. yard or delivered, established by the General Maximum Price Regulation by the percentage increase in cost to him resulting from the increase permitted the manufacturer in paragraph (a) above.

(c) *Manufacturers' individual price adjustments.* (1) Any individual price adjustments granted prior to September 25, 1946, by the Price Administrator or any Regional Administrator to any manufacturer of the products set forth in (a) above, in an amount equal to or less than the increase permitted by this section are hereby revoked.

(2) Any individual adjustments granted prior to September 25, 1946, by the Price Administrator or any Regional Administrator to any manufacturer of the products set forth in (a) above, in an amount greater than the increase permitted by this section are hereby continued in full force and effect; such individual adjustments shall not, however, be further increased by the increases permitted in this section.

This amendment shall become effective September 25, 1946.

Issued this 20th day of September 1946.

JAMES G. ROGERS, Jr.,
Acting Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 65 TO ORDER 1 UNDER MAXIMUM PRICE REGULATION 529

The accompanying Amendment permits floor and wall tile manufacturers located in Los Angeles County, California, to increase by 11.2 percent their maximum prices established pursuant to Maximum Price Regulation 592. Any individual price adjustment granted prior to the effective date of the accompanying Amendment, in an amount equal to or less than the increase permitted by this Amendment, is revoked. However, where individual price adjustments were granted, prior to the effective date of the accompanying Amendment, in an amount greater than the increase permitted by the accompanying Amendment, they shall continue in effect but shall not be further increased by this action. Ceiling prices for these commodities were originally established under Maximum Price Regulation 592, and predecessor regulations, at the highest prices charged in March, 1942.

Floor and wall tile is produced by five companies in Los Angeles County, California. Complete cost and financial data have been submitted by three companies representing 85 percent of the production in their request for an adjustment in their maximum prices. One of these companies is a multi-line company, the other two, single line. The two single line companies in the sample account for 60 percent of the production of floor and wall tile in this area.

The area served by producers affected by this Amendment has been determined to constitute a homogeneous producing and marketing area with cross-shipments largely confined within the area. The use of this area for study has been discussed with industry members and generally agreed upon as appropriate.

In determining whether adjustment of maximum prices established for producers in this area is required, the Price Administrator has considered (1) the proportion of total output produced by the manufacturers whose operations are entirely devoted to these products; (2) the earnings position of those manufacturers dependent upon the production of these commodities; (3) the earnings position of those manufacturers as compared with the earnings position of the multi-line producer.

The three companies who submitted cost and financial data have either instituted wage and salary increases approved by the Wage Stabilization Board or have agreed to put such approved increases into effect at such time as the Office of Price Administration takes final action with respect to adjustment of maximum prices.

It is impossible for the Administrator to predict the exact amount of the wage increase yet to be given by the two remaining firms within the area or even to predict that the firms will make wage adjustments. However, inasmuch as the Administrator cannot predict the exact effect of such subsequent wage approvals, he stands ready to re-examine the action at such time as subsequent developments may warrant. Under these circumstances, it appears proper, moreover, for the Office of Price Administration to take final action with respect to adjustment of maximum prices in the light of all approved wage and salary increases, under Executive Order 9697 and the regulations of the Office of Economic Stabilization.

This Office has examined cost and financial data for the most recent available period for the three concerns who represent 85 percent of the production. Similar data for the base period years 1936 to 1939, and the year 1941 were analyzed. The approved wage and salary increases for each producer were reflected into the current data as well as increased cost of materials and rail freight. Analysis of the current data indicated that the industry has been operating at depressed volume when compared to the base period and the most recent normal year, 1941. In order to project future increased volume, total costs have been adjusted to reflect an overhead rate experienced in normal operations. The latter adjustment was effected only for one company, since the other two experienced normal overhead.

The Administrator has found that, after considering the data submitted, earnings on this product are less favorable than in the representative pre-war base period 1936 to 1939. The adjustment of 11.2 percent granted by this action, restores base period average earnings on floor and wall tile operations of all producers, an amount found to be less than that required to restore base period earnings of the single line producers. The adjustment is, accordingly, appropriate under the Administrator's standards where a substantial portion of output is produced by single line firms.

The accompanying Amendment also permits resellers purchasing floor and wall tile for resale in the same form to add to their presently established maximum prices the percentage amount of their increased costs resulting from this adjustment permitted manufacturers. Thus, resellers will continue to realize the same percentage margins.

Prior to the issuance of this Amendment, the Price Administrator has consulted, so far as practicable, with representatives of the industry and has given consideration to their recommendations. The Price Administrator finds that this action is appropriate in accordance with the provisions of the Emergency Price Control Act of 1942, as amended and the Executive Orders of the President.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 8 of Maximum Price Regulation 594, *It is ordered:*

Order 11 under Maximum Price Regulation 594 is amended in the following respect:

1. Paragraph (a) (4) is amended to read as follows:

(4) *Charge for transportation.* A charge for transportation of the new automobile and extra or optional equipment not to exceed a charge computed in accordance with the method and rates approved by the Office of Price Administration.

This amendment shall be effective September 21, 1946.

Issued this 20th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING AMENDMENT 6 TO ORDER 11 UNDER MAXIMUM PRICE REGULATION 594

The amendment which this opinion accompanies authorizes the applicant when it has prepaid freight to make a charge for transportation computed in accordance with the method and rates to be approved by the Office of Price Administration.

The applicant has acquired an assembly plant in California to which it proposes to ship automobiles in a knocked-down condition and from this plant to ship the assembled automobiles to dealers on the West Coast. The wording of the transportation provision in Order 11, prior to the amendment, would not permit the applicant to make a charge for transportation in such cases in line with charges authorized for competitive companies who have assembly plants in various sections of the country. The amendment which this opinion accompanies will permit correction of this situation.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 9a of Maximum Price Regulation 594; *It is ordered:*

Order No. 8 under Maximum Price Regulation 594 is amended in the following respects:

1. The applicable net wholesale price for the DeSoto S-11 Custom 7 passenger Sedan and Limousine is amended to read as follows:

Model	Description	Net wholesale price
S-11 Custom	7-passenger sedan	$1,569.23
	Limousine	1,458.46

2. The applicable factory retail price for the DeSoto S-11 Custom 7 passenger Sedan and Limousine is amended to read as follows:

Model	Description	Factory retail price
S-11 Custom	7-passenger sedan	$1,802.00

OPINION ACCOMPANYING AMENDMENT 7 TO ORDER 8 UNDER MAXIMUM PRICE REGULATION 594

The Chrysler Corporation proposes to use as standard tire equipment on a DeSoto seven passenger automobile and limousine a larger tire than the one for which a charge is included in the present ceiling prices for such automobiles. The Company has applied for a modification of the maximum prices for these DeSotos to reflect the increased purchased cost of the larger tire. The application was submitted under section 9a of Maximum Price Regulation 594.

The prices for which approval has been requested by the Company have been determined in accordance with section 9a and have, therefore, been authorized in this action as maximum prices.

CREATING AN EMERGENCY BOARD TO INVESTIGATE A DISPUTE BETWEEN THE UTAH IDAHO CENTRAL RAILROAD CORPORATION AND CERTAIN OF ITS EMPLOYEES

WHEREAS a dispute exists between The Utah Idaho Central Railroad Corporation, a carrier, and certain of its employees represented by the International Association of Machinists, a labor organization; and

WHEREAS this dispute has not heretofore been adjusted under the provisions of the Railway Labor Act, as amended; and

WHEREAS this dispute, in the judgment of the National Mediation Board, threatens substantially to interrupt interstate commerce within the states of Utah and Idaho, to a degree such as to deprive that portion of the country of essential transportation service:

NOW, THEREFORE, by virtue of the authority vested in me by section 10 of the Railway Labor Act, as amended (45 U. S. C. 160), I hereby create a board of three members, to be appointed by me, to investigate said dispute. No member of the said board shall be pecuniarily or otherwise interested in any organization of railway employees or any carrier.

The Board shall report its findings to the President with respect to the said dispute within thirty days from the date of this order.

As provided by section 10 of the Railway Labor Act, as amended, from this date and for thirty days after the board has made its report to the President, no change, except by agreement, shall be made by The Utah Idaho Central Railroad Corporation or its employees in the conditions out of which the said dispute arose.

PART 904—MILK IN THE GREATER BOSTON, MASSACHUSETTS MARKETING AREA

MISCELLANEOUS AMENDMENTS

§ 904.1 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure covering the formulation of marketing agreements and orders (7 CFR, Cum. Supp., 900.1 et seq., 10 F. R. 11791, 11 F. R. 7737), a public hearing was held upon certain proposed amendments to the tentatively approved marketing agreement and to the order, as amended, regulating the handling of milk in the Greater Boston, Massachusetts, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as amended and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

(b) *Determination.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this amended order) of at least 50 percent of the volume of milk covered by said order, as amended and as hereby further amended, which is marketed in the Greater Boston, Massachusetts, marketing area, refused or failed to sign the tentatively approved marketing agreement regulating the handling of milk in the Greater Boston, Massachusetts marketing area; and it is further determined that:

(1) The refusal or failure of such handlers to sign such tentatively approved marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order further amending the order, as amended, is the only practical means pursuant to the declared policy of the act of advancing the interests of the producers of milk which is produced for sale in said marketing area; and

(3) The issuance of this order further amending the said order, as amended, is approved or favored by at least two-thirds of the producers who during February 1946 determined to be a representative period, were engaged in the production of milk for sale in the said marketing area.

§ 904.2 *Order relative to handling.* It is therefore ordered that on and after the effective date hereof the handling of milk in the Greater Boston, Massachusetts marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby further amended; and the aforesaid order as amended, is hereby further amended as follows:

1. In § 904.6 (a) (1) delete the words "except that for the months of May and June 1946 the price shall be increased by 25 cents over the price otherwise applicable;" and substitute the words "except that from the effective date hereof through February 1947 the price shall not be less than $5.21 per hundredweight:"

2. Revise the table in § 904.6 (a) (1) (iv) to read:

Value computed pursuant to (iii) of this subparagraph (cents)	Class I price (dollars per cwt.)

PART 904—MILK IN THE GREATER BOSTON, MASSACHUSETTS MARKETING AREA

ORDER TERMINATING SUSPENSION ORDER

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and of the order, as amended, regulating the handling of milk in the Boston, Massachusetts, marketing area, hereinafter referred to as the "order", it is hereby determined that the suspension order of May 31, 1946 (11 F. R. 5992), relating to the suspension of certain provisions of § 904.6 (a) (1) of the order, does not tend to effectuate the declared policy of the act with respect to milk received by a handler from producers or cooperative associations of producers.

It is further found and determined that it will be impracticable, unnecessary, and contrary to the public interest to provide notice of, and public procedure on, the proposed issuance hereof because this action is necessary to effectuate fully certain amendments to the order which are to become effective September 21, 1946. For the same reason the effective date hereof must be the same as the effective date of such amendments.

It is therefore ordered, That the suspension order of May 31, 1946 (11 F. R. 5992), relating to the suspension of certain provisions of § 904.6 (a) (1) of the order, be, and it hereby is, terminated, effective as of 12:01 a. m., e. d. s. t., September 21, 1946.

Issued at Washington, D. C., this 13th day of September 1946.

[SEAL] CHARLES F. BRANNAN.
Acting Secretary of Agriculture.

PART 934—MILK IN THE LOWELL-LAWRENCE MARKETING AREA

MISCELLANEOUS AMENDMENTS

§ 934.1 *Findings and determinations—*(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure covering the formulation of marketing agreements and orders (7 CFR, Cum. Supp. 900.1 et seq., 10 F. R. 11791, 11 F. R. 7737), a public hearing was held upon certain proposed amendments to the tentatively approved marketing agreement and to the order, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The said order, as amended and as hereby further amended, and all of the terms and conditions of said order, as amended and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in the said marketing area a purchasing power equivalent to

the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act are not reasonable in view of the prices of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the said order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

(b) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this amended order) of at least 50 percent of the volume of milk covered by said order, as amended and as hereby further amended, which is marketed within the Lowell-Lawrence marketing area, refused or failed to sign the tentatively approved marketing agreement regulating the handling of milk in the Lowell-Lawrence marketing area; and it is further determined that:

(1) The refusal or failure of such handlers to sign such tentatively approved marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order further amending the order, as amended, is the only practical means pursuant to the declared policy of the act of advancing the interests of the producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order further amending the said order, as amended, is approved or favored by at least two-thirds of the producers who during February 1946, determined to be a representative period, were engaged in the production of milk for sale in the said marketing area.

§ 934.2 *Order relative to handling.* It is, therefore, ordered on and after the effective date hereof the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended; and the aforesaid order, as amended, is hereby further amended as follows:

1. In § 934.6 (a) (1) delete the words "except that for the months of May and June 1946 the price shall be increased by 25 cents over the price otherwise applicable" and substitute the words "except that from the effective date hereof through February 1947 the price shall not be less than $5.70 per hundredweight:"

2. Revise the table in § 934.6 (a) (1) (iv) to read:

Value computed pursuant to (iii) of this subparagraph (cents)	Class I price (dollars per hundredweight)	
	April through June	July through March
Under 25	$2.13	$2.57

PART 934—MILK IN THE LOWELL-LAWRENCE, MASSACHUSETTS, MARKETING AREA

ORDER TERMINATING SUSPENSION ORDER

Pursuant to the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and of the order, as amended, regulating the handling of milk in the Lowell-Lawrence, Massachusetts, marketing area, hereinafter referred to as the "order", it is hereby determined that the suspension order of May 31, 1946 (11 F. R. 5992), relating to the suspension of certain provisions of § 934.6 (a) (1) of the order, does not tend to effectuate the declared policy of the act with respect to milk received by a handler from producers or cooperative associations of producers.

It is further found and determined that it will be impracticable, unnecessary, and contrary to the public interest to provide notice of, and public procedure on, the proposed issuance hereof because this action is necessary to effectuate fully certain amendments to the order which are to become effective September 21, 1946. PART 947—MILK IN THE FALL RIVER, MASSACHUSETTS, MARKETING AREA

MISCELLANEOUS AMENDMENTS

§ 947.0 *Findings and determinations*—(a) *Findings upon the basis of the hearing record.* Pursuant to Public Act No. 10, 73d Congress (May 12, 1933), as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937, as amended (hereinafter referred to as the "act"), and the rules of practice and procedure covering the formulation of marketing agreements and orders (7 CFR, Cum. Supp., 900.1 et seq., 10 F. R. 11791, 11 F. R. 7737), a public hearing was held upon certain proposed amendments to the tentatively approved marketing agreement and to the order, as amended, regulating the handling of milk in the Fall River, Massachusetts, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as amended and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The prices calculated to give milk produced for sale in said marketing area a purchasing power equivalent to the purchasing power of such milk as determined pursuant to sections 2 and 8 (e) of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supplies of and demand for such milk, and the minimum prices specified in the order are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

The foregoing findings are supplementary and in addition to the findings made in connection with the issuance of the aforesaid order and the findings made in connection with the issuance of each of the previously issued amendments thereto; and all of said previous findings are hereby ratified and affirmed except insofar as such findings may be in conflict with the findings set forth herein.

(b) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing, or shipping milk covered by this amended order) of at least 50 percent of the volume of milk covered by said order, as amended and as hereby further amended, which is marketed in the Fall River, Massachusetts, marketing area, refused or failed to sign the tentatively approved marketing agreement regulating the handling of milk in the Fall River, Massachusetts, marketing area; and it is further determined that:

(1) The refusal or failure of such handlers to sign such tentatively approved marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order further amending the order, as amended, is the only practical means pursuant to the declared policy of the act of advancing the interests of the producers of milk which is produced for sale in said marketing area; and

(3) The issuance of this order further amending the said order, as amended, is approved or favored by at least two-thirds of the producers who during March 1946, determined to be a representative period, were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in the Fall River, Massachusetts, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended and as hereby further amended; and the aforesaid order as amended, is hereby further amended as follows:

1. Add to § 947.2 (b) the following subparagraph:

(5) Make rules and regulations to effectuate the terms and provisions hereof.

2. Revise § 947.4 (a) to read:

(a) *Class I price.* Each handler shall pay producers or associations of producers for their milk containing 3.7 percent butterfat, during each delivery period in the manner set forth in § 947.9, not less than the prices set forth in (4) of this paragraph except that for each delivery period prior to March 1947 the price shall be not less than $5.96: *Provided*, That for milk delivered to a handler from producers' farms at a receiving plant located more than 100 miles from the City Hall in Fall River, there shall be deducted the sum of 13 cents plus an amount per hundredweight equal to the lowest rail tariff, for the transportation, in carlots of milk in 40-quart cans, as published in the New England Joint Tariff M4 (including revisions and supplements thereof), for the distance from the railroad shipping point for such receiving plant to the handler's railroad delivery point for the marketing area.

(1) Compute the average of the quotations per pound of U. S. Grade A or U. S. 92-score butter at wholesale in the New York market, as reported daily by the United States Department of Agriculture for the 30 days ending on the 24th day of the immediately preceding month.

(2) Using the midpoint of any range as one quotation, compute the average of all hot roller process dry skim milk (nonfat dry milk solids) quotations per pound for "other brands, animal feed, carlots, bags, or barrels", and for "other brands, human consumption, carlots, bags, or barrels", published during the 30 days ending on the 24th day of the immediately preceding month in "The Producers' Price Current"; subtract 4 cents; and multiply the remainder by 1.8.

(3) Add the values determined pursuant to (1) and (2).

(4) The Class I price per hundredweight shall be as shown in the following table:

Value computed pursuant to (iii) of this subparagraph (cents)	Class I price (dollars per hundredweight)	
	April through June	July through March
Under 25	$2.44	$2.88
25 or over, but under 30	2.66	3.10

95 or over, but under 100	5.74	6.18
100 or over, but under 105	5.96	6.40

If the value computed pursuant to (3) of this subparagraph is 105 cents or more, the price shall be increased at the same rate as would result from an extension of this table.

3. Revise § 947.4 (b) (1) to read:

(1) Except as provided in (2) of this paragraph each handler shall pay producers or associations of producers for their milk in the manner set forth in § 947.9 not less than the price per hundredweight, for milk containing 3.7 percent butterfat calculated for each delivery period by the market administrator as follows:

(i) Divide by 33.48 the weighted average price per 40-quart can of 40 percent bottling quality cream in the Boston market, as reported by the United States Department of Agriculture for the delivery period during which such milk is delivered, multiply the result by 3.7 and subtract 15 cents;

(ii) Add any plus amount which results from the following computation: Using the midpoint in any range as one quotation, compute the average quotation per pound of nonfat dry milk solids in carlots for roller process human food products in barrels, and for hot roller process animal feed products in bags, as published during the delivery period by the United States Department of Agriculture for New York City. Multiply each such average quotation by the applicable percentage indicated for the delivery period in the following table and combine the results, subtract 4 cents, and multiply the remainder by 7.5.

Delivery period	Percent	
	Human food products	Animal feed products
January	100	0
February	100	0
March	50	50
April	50	50
May	25	75
June	25	75
July	50	50
August	75	25
September	75	25
October	100	0
November	100	0
December	100	0

4. Revise § 947.7 (b) (3) to read:

(3) For the purpose of this section, Class II milk shall be allocated among sources described and listed in paragraph (a) of this section, in the order of the subdivisions of this subparagraph, as follows:

(i) Actual plant shrinkage classified as Class II milk shall be allocated pro rata among sources (1), (2) (ii), and (3).

(ii) Remaining Class II milk shall be first allocated to source (2) (ii).

(iii) Remaining Class II milk shall be first allocated pro rata to sources (1) and (3) in an amount which including shrinkage allocated to sources (1) and (3) will not exceed 5 percent of milk from sources (1) and (3); remaining Class II milk shall be allocated pro rata to sources (1), (2), (4), and (6), with the exception of milk from source (6) (i) received completely processed and packaged for distribution to consumers, which is disposed of as Class I. Any Class II milk still remaining unallocated shall be considered to be from source (3).

TITLE 24—HOUSING CREDIT

Chapter VI—Federal Public Housing Authority

PART 611—LOW RENT HOUSING AND SLUM CLEARANCE PROGRAM: POLICY

DETERMINATION OF NET ANNUAL INCOME FOR FAMILIES OF SERVICEMEN AND FAMILIES WITH VETERAN MEMBERS ATTENDING EDUCATIONAL INSTITUTIONS

SEPTEMBER 17, 1946.

Policy governing the administration of the low-rent housing and slum clearance program authorized under the U. S. Housing Act of 1937, as amended, in addition to those policy matters covered in the FPHA Requirements, as set forth in § 610.1 of this chapter and in addition to matters covered in specific contracts between the FPHA and the local housing authorities. Included in this program are projects developed by the Public Works Administration and transferred to the U. S. Housing Authority under the aforementioned Act.

Section 611.3 (11 F. R. 177A-910) is amended to read as follows:

§ 611.3 *Determination of net annual income for families of servicemen and families with veteran members attending educational institutions—(a) Determination of net family income and family status of servicemen—(1) When serviceman is living with his family.* All of the income received by the serviceman, including his base pay, all extra pay, subsistence and rental allowance, if any, and that portion of the family dependency allowance contributed by the Government, is included with income received by all family members from all sources. Deductions will be allowed in accordance with § 610.1-403 of this chapter.

(2) *When serviceman is absent from home.* A family head e. g., a husband, will be considered as a member of the family temporarily absent from home. An adult son or daughter, not a family head prior to service in the armed forces, will be considered as having severed ties with the family. Other questions of relationship to the family will be determined on an individual basis. When a serviceman is considered not a family member, only such portion of his income as is contributed regularly to the family will be included in the aggregate family income, with no deductions allowed. When a serviceman is considered a family member, his entire income (including extra pay for sea, overseas duty, submarine or field duty, longevity and other special but regular additions to pay for honor and merit awards plus full allowance for subsistence and rental, if any), that portion of the family dependency allowance contributed by the Government, and income to the family from all other sources will be included in computing the aggregate income of the family. In respect to such income, deductions specified in § 610.1-403 of this chapter will be allowed, plus the following deductions for special occupational expenses of the serviceman incurred by reason of his living away from home: Such deduction may not be more than (i) the first $50 of base pay or so much thereof as remains after the serviceman's mandatory contribution to the family dependency allowance, plus (ii) 25% of his base pay over $50 per month. For officers who have no deductions from their pay for family allowance but who have extra living expenses the deductions will be $50 per month plus 25% of base pay over $50 per month.

(b) *Determination of net income of families with veteran members attending educational institutions.* The entire income of a veteran (1) living with the family, or (2) not living with the family but who is head of the family, will be included in aggregate family income. In the case of a veteran son or daughter, away from home while attending school, and not the head of the family, only such income as he or she actually contributes to the family will be included in aggregate family income. In any case where the veteran's relationship is other than family head, son or daughter, the local management will make an appropriate determination based on the facts in the particular circumstance. The amount of $65 per month (the subsistence allowance payable to a veteran without dependents under the "GI Bill of Rights" as amended, 58 Stat. 284; 38 U. S. C. 693-697) will be deducted from aggregate income to determine net income in the case of a family head who is absent from home while attending an educational institution and who is receiving a subsistence allowance. No deductions will be allowed for the support of a veteran who is living with his family while attending school or who is attending school at his own expense. Other deductions, as set forth in § 610.1-403 of this chapter, will be allowed.

(c) *Cases involving exceptional circumstances.* In exceptional cases deviations from the policies stated in paragraphs (a) and (b) of this section will be allowed where the tenant shows to the satisfaction of the local management that extraordinary expenses of the serviceman or veteran justify additional allowances.

PART 631—WAR HOUSING PROGRAM: POLICY

DISPOSITION OF FEDERALLY OWNED WAR HOUSING PROJECTS

SEPTEMBER 17, 1946.

Section 631.4 (11 F. R. 177A-913) paragraphs (a) (1), (b) (1), (c) (3), (c) (4), (c) (7) and (d), are amended to read as follows:

§ 631.4 *Disposition of federally owned war Housing Projects.* The FPHA is responsible for the disposition of war housing projects, or parts thereof, upon their termination by the Administrator of the National Housing Agency.

(a) *Definitions.* (1) "Government agency" means any executive department, board, bureau, commission, or other agency in the Executive Branch of the Federal Government, or any corporation wholly owned (either directly or through one or more corporations) by the United States. (This includes the Reconstruction Finance Corporation, successor to Smaller War Plants Corporation, in connection with sales to veterans and owner-operators of small businesses.)

• • • • •

(b) *Local consultations—(1) Responsibility for local consultations.* Without awaiting termination of projects, the FPHA Regional Director will initiate consultations with representatives of the local governments in those localities where war housing projects exist. The purpose of such consultations is to provide the local community with an opportunity to study disposition problems, reach agreements within the community, and make recommendations concerning disposition within the framework of disposition policies.

• • • • •

(c) *Disposition of temporary projects not used for Veterans' Emergency Housing.* • • •

(3) *Sale or transfer of temporary dwelling structures to Government agencies, State and local governments, and non-profit institutions.* The following conditions will apply in the sale or transfer of terminated temporary dwelling structures which are not sold for demolition as provided in subparagraph (1) of this paragraph.

(i) *Federal agencies.* (a) Dwelling structures may be transferred to a Government agency for its use on or off the present project site: *Provided*, That where the use is to be on-site, the transferee Government agency will carry out the provisions of the Lanham Act and NHA regulations concerning the removal of temporary housing. Any sale to the Reconstruction Finance Corporation for sale to veterans for owner-operated small businesses will require removal by demolition. Nothing in this paragraph shall be interpreted as forbidding transfers to the Army or Navy pursuant to section 4 of the Lanham Act.

(b) Provisions of this section apply to projects on owned, leased, or temporary use sites. If the structures are on other than owned sites and are to remain on such sites, any transfer will be subject to any conditions underlying the lease or use of the site.

Chief of the Division of Real Estate and

(ii) *State and local governments and non-profit institutions.* Temporary dwelling structures may be sold to state or local governments or non-profit institutions for any use off the present site. They must be demolished as defined in paragraph (c) (1) above, unless they are to be removed for non-residential use.

(4) *Priorities.* In the disposition of temporary war housing projects, the following order of preference will govern:

(i) Government agencies;

(ii) State and local government; and

(iii) Non-profit institutions. The priorities set forth herein will be effective only if the priority holder purchases the project for its own use and not for resale, and purchases at the market value as established by the FPHA. They will be effective only if exercised before the first advertisement for competitive bids for demolition is published. No priorities will be recognized in the sale of temporary dwellings for demolition.

(a) *Temporary dwelling structures.* In the case of temporary dwelling structures, the FPHA will use only a public announcement (made not less than 30 days prior to advertisement for bids) and community consultation to bring the availability of temporary dwellings to the attention of priority holders set forth in this subparagraph, and will advertise them for sale by competitive bid only after such measures have brought no expressions of interest from priority holders.

(b) *Non-dwelling buildings sold separately from the dwellings.* In the sale of community, commercial administration or utility buildings on owned land, in addition to the priorities set forth above, veterans shall have next priority for owner-operated small business or commercial purposes. The priority of a veteran hereunder may be exercised in connection with only a single purchase.

If, prior to advertising, there is interest in purchase by priority holders, such buildings will first be offered by published advertisement to priority holders at the current market value as established by FPHA, and if no priority holder accepts the offer within 30 days of advertisement the buildings will then be advertised for competitive bids in the open market for a period of 30 days. Priority holders may bid, but will have no priority. If no acceptable offer is received from competitive bidding, sales through negotiation, auction, or other means should be made. If there is no known interest by priority holders in advance of advertising, the buildings should be advertised for sale to both priority and non-priority holders for a 30-day period.

Where non-dwelling structures are on leased land, any which are not transferred to the landowner in connection with settlements shall be sold as provided above.

(c) *Priorities on portable shelter structures.* Portable shelter structures may be sold under priorities set forth above in this paragraph, unless it is determined that substantially the entire group of portable shelter structures are salable as individual units. In the latter case individual consumers shall have fourth priority, with veterans and servicemen, or their families having preference as among consumers.

* * * * *

(7) *Trailers.* Trailers for dwelling purposes no longer needed in the public housing program will be declared surplus to the appropriate disposal agency designated by the War Assets Administration for disposal pursuant to the Surplus Property Act of 1944. Surplus community facilities trailers will not be declared to the WAA but will be disposed of by FPHA.

(d) *Disposition of permanent federally owned war housing projects*—(1) *General policy.* Terminated permanent projects (excluding demountable projects sold to meet veterans' needs) will be sold by FPHA for private residential purposes unless sold to a local housing authority under authorization of Congress.

(2) *Occupancy, rent, and sale restrictions.* In disposing of permanent projects (excluding demountable projects sold for veterans' use) or parts thereof to be used for residential purposes, all purchasers, their successors, or assigns will be required to agree that until December 31, 1947, or the date of termination of rent control under Federal regulation (whichever date is the later);

(i) They will not evict the present occupant of any unit except for causes recognized by courts of law as justifying an eviction because of breach of contract of tenancy;

(ii) They will not raise the rent of any tenant occupying the project at the time of sale above the scheduled rent in existence at the date of sale; except that (a) scheduled rents may be adjusted upward to conform to any change in the Federal Rent Control regulations which would permit residential rents to be adjusted upward, and (b) prior to December 31, 1947, the rent of any tenant who is paying an adjusted rent less than the scheduled rent because of distressed circumstances may be increased upward at any time in accordance with any increased ability to pay but not to exceed the scheduled rent, and provided that such increase is approved by FPHA.

(iii) Resale prices of units originally sold to individual owner occupants will be subject to FPHA approval.

(iv) Prior to December 31, 1947, first preference on resale, rental, or sub-lease of individual units will be given to veterans, servicemen, or their families. Such preference will not be deemed to be complied with if the unit is sold or rented within 30 days of the unit's availability to other than a veteran, serviceman, or his family who is available and qualified.

(3) *Sales to occupants, prospective occupants, or private investors.* The plan of sale for private residential properties will be based on the following:

(i) *Occupants or prospective occupants.* Preference will be given to actual occupants and prospective occupants—that is, those who are actually using or will themselves use the premises for residential purposes. Actual occupants will have priority over prospective occupants. As among prospective occupants, veterans, servicemen, or their families will have priority over non-veterans. Occupants and prospective occupants include individuals or mutual ownership corporations whose membership is comprised of occupants or prospective occupants. These preferences are subject to the following conditions:

(a) In case of sales to individuals, the project must be suitable for individual ownership; it should be found that substantially all the dwellings in the project can be disposed of in this manner within a reasonable time; and it should be determined that a substantial majority of present occupants are willing to purchase.

(b) No sale will be made to a mutual ownership corporation unless there is a financially sound plan of purchase and its membership meets FPHA requirements.

(c) In case a sale is possible either to individuals or to a mutual ownership corporation, preference may be given to the plan which is in the best financial interest of the Government, taking into account the probability of ultimate collection of principal and the possibility of houses remaining unsold.

(ii) *Private investors.* In the event it is not possible or feasible to dispose of a project to occupants and prospective occupants, projects or portions thereof may be sold to private investors. Projects which are suitable for disposition in separate portions will be offered for sale in such portions as well as in their entirety. Sales will be consummated which will result in the disposition of the project at the best price and under the best terms available to the Government.

(iii) *Sales prices.* (a) In case of sales to occupants or prospective occupants, including mutual ownership corporations, sales prices will be established by FPHA in an amount equal to the fair market value as established by competent appraisal in order that advantage will not be taken of scarcity in the market to obtain inflated prices. Prices so established will be publicly announced and thereafter sales consummated with purchasers at such prices.

(b) In case of sales to private investors, properties will be advertised requesting the submission of sealed bids within a ninety-day period from the date of the first advertisement. Bids will be opened publicly at the expiration of the ninety-day period. The highest eligible bid will be accepted, subject to the right of the Government to reject all bids if none is satisfactory, and subject to the right of the Commissioner to accept a lower offer if he determines such action to be in the public interest.

(4) *Sales to local housing authorities.* Consideration will be given to sale of a permanent housing project to a local housing authority only if the governing body of the community and the local housing authority in whose jurisdiction such a project is located determine, by appropriate resolution or other act, that it is in the best interest of the community for such a housing project or a part thereof to be conveyed to the local housing authority to fulfill its legitimate needs for public low-rent housing. If FPHA concurs in the determination of the local governing body and the local housing authority as to the need for such project or part thereof to provide low-rent housing in the community, recommendations will be made that the Administrator submit to Congress the requested authorization to sell such housing projects to the local housing authority, pursuant to a plan of sale which will enable the project to be utilized for the sole purpose of providing decent, safe and sanitary low-rent housing for families of low income whom private enterprise cannot adequately serve. The plan to be submitted to Congress for achieving such purpose will be the following, unless the local housing authority proposes an alternative plan which will accomplish this purpose and be acceptable to the FPHA:

(i) *Terms and conditions of sale.* Any such project will be conveyed to a local housing authority in consideration of any agreement by the local housing authority (a) to pay as the purchase price all net income to FPHA over a fixed period of years, which fixed period of years shall be determined on the basis of the estimated useful life of the project for decent, safe and sanitary low-rent housing purposes; (b) to utilize the project during the aforesaid fixed period of years for the sole purpose of providing decent, safe and sanitary low-rent housing; and (c) not to dispose of the project throughout the aforesaid fixed period of years. In addition and as a local contribution the property and assets of the local housing authority must be exempt from state and local taxation; however, local authorities may be permitted to make payment in lieu of taxes from available project revenues to the same extent as permitted under FPHA policy with respect to the PWA Housing Division Projects.

(5) *Disposition of demountable dwelling structures.* (i) When located on Federally-owned land and sold for on-site use, demountable dwelling structures will be disposed of as permanent projects as outlined in preceding paragraphs. The community may recommend the removal of demountable family dwellings if there is no physical need for such structures in the community or if not appropriate to the sites on which they are located. Community recommendations for the removal of demountable family dwellings will be given every consideration by the FPHA, consistent with broad Federal policy and the protection of the Federal interest. It is recognized that there may be some misunderstanding concerning the retention of demountable family dwellings in some communities. The FPHA will carefully examine any commitments as to removal either formal or implied, and will faithfully carry out any obligations.

(ii) When sold for off-site use, appropriate terminated demountables will be sold to meet veterans' needs in the following order of preference: (a) public bodies or their representatives; (b) individual veterans and their families and families of servicemen; and (c) builders, contractors, and others who will resell or rent the houses to veterans and their families and to families of servicemen. Sales contracts shall require that purchasers, successors, and assigns must agree that until December 31, 1947, they will give first preference to veterans, servicemen, or their families, among qualified tenants or purchasers, in the rental of dwellings or their sale for owner occupancy, as the case may be. Resales by public bodies or their representatives, or individual veterans and their families and families of servicemen must be at prices approved by the FPHA.

PART 640—VETERANS' EMERGENCY HOUSING PROGRAM: PROCEDURES

ADMINISTRATION OF PROJECTS

SEPTEMBER 17, 1946.

Procedures governing the administration of the veterans' emergency housing program authorized under Public Laws 87, 292, 269, 336, and 697 (79th Congress).

Section 640.1 (11 F. R. 177A-915) is amended to read as follows:

§ 640.1 *Administration of projects.* The Veterans' Emergency Housing Program is designed to provide housing for distressed families of servicemen and veterans and for single veterans attending non-profit educational institutions, through the use of existing facilities either in their present location or by moving and relocating them. This program is administered through contracts with local bodies, i. e., non-profit educational institutions, state or political subdivisions thereof, local public agencies, or non-profit organizations. These projects may be developed with or without the aid of Federal funds, the properties of the government not otherwise needed for its own use being available for transfer to or use by the local bodies in carrying out the program. The initiation of a project may be undertaken by application to the regional director in the area in which the contemplated project is to be located. The projects are managed and operated by the local bodies, and applications for tenancy in the projects should be filed with these bodies.

PART 641—VETERANS' EMERGENCY HOUSING PROGRAM: POLICY

STANDARDS FOR SELECTION OF TENANTS

SEPTEMBER 17, 1946.

Section 641.2, paragraph (b), is amended to read as follows:

§ 641.2 *Standards for selection of tenants* * * *

(b) *Eligibility for admission*—(1) *Family dwellings.* Admission shall be limited strictly to the following:

(i) Distressed families of veterans.

(ii) Distressed families of servicemen.

(iii) Families of non-veteran faculty and other staff members, not in excess of 5 percent of the units furnished under the contract, operated by an educational institution, or 5 percent of the units occupied by student veterans in projects operated by other local bodies: *Provided, however,* That housing of non-veteran faculty or other staff members in excess of this limitation may be allowed for temporary periods where the educational institution or other local body submits evidence that if not allowed it would be necessary to turn away student veterans for whom all other facilities, including housing, are available or are to be available; prior FPHA approval must be obtained in every case of admissions in excess of the 5 percent limitation.

(2) *Dormitories.* Admission shall be limited strictly to the following:

(i) Single veterans attending educational institutions.

(ii) Single non-veteran faculty and other staff members but not in excess of 5 percent of the project units: *Provided, however,* That this limitation may be exceeded under the circumstances set forth in subparagraph (1) (iii) of this paragraph but only with prior FPHA approval.

TITLE 32—NATIONAL DEFENSE

Chapter IX—Civilian Production Administration

AUTHORITY: Regulations in this chapter unless otherwise noted at the end of documents affected, issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236, 56 Stat. 177, 58 Stat. 827, and Public Laws 270 and 475, 79th Congress; Public Law 388, 79th Congress; E. O. 9024, 7 F. R. 329; E. O. 9040, 7 F. R. 527; E. O. 9125, 7 F. R. 2719; E. O. 9599, 10 F. R. 10155; E. O. 9638, 10 F. R. 12591; C. P. A. Reg. 1, Nov. 5, 1945, 10 F. R. 13714; Housing Expediter's Priorities Order 1, Aug. 27, 1946, 11 F. R. 9507.

PART 4700—VETERANS' EMERGENCY HOUSING PROGRAM

[Veterans' Housing Program Order 4, as Amended Sept. 23, 1946]

PRODUCTION RESTRICTION ON CAST IRON SOIL PIPE AND FITTINGS

There is a shortage in the supply of cast iron soil pipe and fittings for defense for private account and for export. Cast iron soil pipe and fittings are suitable for the construction and completion of housing accommodations in rural and urban areas and for the construction and repair of essential farm buildings. This order is necessary and appropriate in the public interest, to promote the national defense and to effectuate the purposes of the Veterans' Emergency Housing Act of 1946.

§ 4700.17 *Veterans' Housing Program Order 4*—(a) *Definition.* For the purposes of this order, "producer" means any person who makes cast iron soil pipe and fittings for sale.

(b) *Restriction on production of large sizes*—(1) *Restriction.* Beginning September 1, 1946, the tonnage of cast iron soil pipe and fittings which a producer makes during any month in sizes of 5 inches or larger must not exceed 7% of the total tonnage of cast iron soil pipe and fittings he made in all sizes during the preceding month.

(2) *Temporary extensions.* On application, a temporary extension of the effective date of the restriction of paragraph (b) (1) above will be authorized by the CPA, in writing, for any pro-

ducer if (1) more than 7% of his August 1946 production of cast iron soil pipe and fittings was in sizes of 5 inches or larger, and (2) he shows that a reduction during September 1946 to conform with paragraph (b) (1) will materially affect him as the result of either of the following conditions:

(i) Inability to fully and efficiently use his skilled labor for production of cast iron soil pipe and fittings; or

(ii) Inability to produce a total tonnage of cast iron soil pipe and fittings substantially equal to the total tonnage produced in August 1946, because equipment for small sizes is either insufficient or unavailable.

Such extension may be authorized on the basis of an application letter from the producer, stating which of the above two conditions will result, and explaining in detail why that condition will materially affect him.

A producer who gets a time extension authorized under this paragraph (b) (2) must not, during the period of the extension, produce sizes 5" and over in any greater monthly quantity than he produced during August 1946.

(c) *Communications and appeals.* Communications regarding this order, and any appeals from its provisions, should be addressed to the Civilian Production Administration, Building Materials Division, Washington 25, D. C., Ref: VHP-4. Appeals should be made by letter in triplicate, referring to the particular provision appealed from and stating fully the ground of the appeal.

(d) *Violations.* A person who willfully violates any provision of this order or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction, will be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 23d day of September 1946.

Chapter XI—Office of Price Administration

PART 1418—TERRITORIES AND POSSESSIONS

[2d Rev. MPR 183,[1] Amdt. 24 (§ 1418.1)]

RAW CANE SUGAR IN PUERTO RICO

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 4.26 is hereby revoked and a new section 4.26 is added to read as follows:

SEC. 426 *Raw cane sugar*—(a) *Additions to applicable maximum prices for sales of raw cane sugar*—(1) *Sales by producers who own no raw cane sugars on September 17, 1946.* Any producer who owns no raw cane sugars at 11:59 p. m., September 17, 1946, may on and after September 18, 1946, add 1.825 cents per pound to the applicable maximum prices of raw cane sugar of 96 degrees polarization established for him by the General Maximum Price Regulation.

(2) *Sales by producers who own raw cane sugars on September 17, 1946.* Any producer who owns raw cane sugars at 11:59 p. m., September 17, 1946, may on and after September 18, 1946, add 1.825 cents per pound to the applicable maximum prices of raw cane sugar of 96 degrees polarization established for him by the General Maximum Price Regulation, upon the condition that he complies with the pertinent requirements of paragraphs (c) and (d) below.

(b) *Refined granulated cane sugar.* (1) Subject to the provisions of subparagraphs (2) and (3) below, maximum prices for refined granulated cane sugar shall be as follows:

All brands packaged in—	At refiners level [1] (per 100 pounds)	At wholesale (per 100 pounds)	At retail (per unit)
100-lb. container	$7.30	$7.50	[2] $0.09
25-lb. container	7.40	7.60	2.05
10-lb. container	7.45	7.65	.88
5-lb. container	7.55	7.75	.44
2-lb. container	7.55	7.75	.18
1-lb. container	7.75	7.95	.09

[1] Prices include transportation to buyer's place of business.
[2] Deduct 5 cents if packaged in paper bags.
[3] Per pound in bulk (2 for $0.17).

NOTE: The maximum prices specified above shall be reduced by any discounts customarily allowed for cash or prompt payment.

(2) *Sales by refiners owning cane sugars on September 17, 1946.* Any refiner who owns any cane sugars at 11:59 p. m., September 17, 1946, may sell refined granulated cane sugar at the maximum prices set forth in subparagraph (1) above, upon the condition that he complies with the requirements of paragraphs (c) and (d) below.

(3) *Special rules affecting sales by wholesalers and retailers.* (i) At the close of business on September 17, 1946, you must determine the number of pounds of each item of sugar that you own for resale at that time. You must make and keep a record of that inventory at your place of business. After that date you must continue to sell each item of sugar at no more than the ceiling price you had in effect on September 17, 1946, until you have sold an amount equal to your September 17, 1946, inventory of the item. When you have sold that amount, you may charge the prices set forth in paragraph (b) (1).

(ii) On purchases of sugar made by you on and after September 18, 1946, your supplier will notify you whether he is charging you his ceiling price in effect on September 17. If you receive such notification, you must continue to sell such sugar at no more than the ceiling price you had in effect on September 17, 1946.

(c) *Filing of affidavit.* Each person (other than a wholesaler or retailer) owning cane sugars at 11:59 p. m., September 17, 1946, shall not later than October 10, 1946, send by registered mail addressed to Commodity Credit Corporation, 150 Broadway, New York 7, New York, an affidavit setting out the following amounts of sugar owned by him at 11:59 p. m., September 17, 1946:

(1) The total number of pounds of raw cane sugars (including cane juice and its derivatives in the process of being made into raw cane sugar) adjusted to a 96 degree polarization basis.

(2) The total number of pounds of refined, turbinado and washed sugar.

(3) The total number of pounds of raw sugar (converted to a refined basis) in process of refinement.

If any part of a refiner's inventory consists of sugars acquired from a mill other than a mill owned or controlled by him, the refiner must specify how much of the amounts of sugar described in subparagraphs (1), (2) and (3) consists of such outside sugar.

(d) *Payment to Commodity Credit Corporation.* Any person (other than a wholesaler or retailer) owning cane sugars at 11:59 p. m., September 17, 1946, who elects to sell at the increased maximum prices on September 18, 1946, shall make a statement to that effect in the affidavit described in paragraph (c) and shall make payment by check or money order payable in New York funds to the Commodity Credit Corporation in an amount computed as follows:

(1) The total number of pounds of refined, turbinado and washed cane sugar, plus the total number of pounds of cane sugar (converted to a refined basis) in process of refinement, plus the total number of pounds of cane sugar (converted to a turbinado basis) in process of conversion to turbinado, multiplied by 1.47 cents per pound; plus

(2) The total number of pounds of raw cane sugars (including cane juice and its derivatives in the process of being made into raw cane sugar) adjusted to a 96 degree polarization basis, multiplied by 1.37 cents per pound.

Payment may be made at the time of filing the affidavit or monthly payments shall be made within 60 days following the close of the calendar month for the amount of such sugar sold during such month, until the full amount due has been paid. The maximum price in event of failure to make such payment or payments, shall be the maximum price in effect prior to September 18, 1946.

(e) *Election to sell inventory at lower price.* Any person owning cane sugars at 11:59 p. m. September 17, 1946, may, in lieu of making payment to Commodity Credit Corporation, described in paragraph (d) above, elect to sell or otherwise dispose of the entire amount of his inventory at or below his maximum prices in effect on September 17, 1946. Such person shall state in the affidavit described in paragraph (c) that he elects to sell his inventory at the lower price. At such time he has sold an amount equal to his September 17 inventory, he shall file by registered mail with the Commodity Credit Corporation a final affidavit stating that he has fully complied with the requirements of this paragraph (e).

After mailing the final affidavit in proper form such person may sell at the maximum prices set out in paragraphs (a) and (b).

(f) *Modification to wholesalers and retailers when election is made to sell inventory at lower price.* (1) Any refiner or processor who elects to sell his inventory at or below his maximum prices in effect on September 17, 1946, shall, at the time of, or prior to the first delivery to each wholesaler or retailer, notify them in writing to the effect that the prices charged are the refiner's maximum prices in effect September 17, 1946.

(2) Any wholesaler who receives the notification described in paragraph (1) shall, at the time of, or prior to the first delivery to each retailer, notify the retailer in writing to the effect that the prices charged are the wholesaler's maximum prices in effect on September 17, 1946.

This amendment shall become effective as of 12:01 a. m., September 18, 1946.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 24th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 24 TO SECOND REVISED MAXIMUM PRICE REGULATION 183

The accompanying amendment to Second Revised Maximum Price Regulation 183 increases the maximum prices of raw cane sugar 1.37 cents per pound and of refined sugar 1½ to 2 cents per pound. This action coincides with the action increasing sugar prices in continental United States. The reasons for the mainland action are fully discussed in the statement of considerations accompanying amendment 3 to MPR 16 and amendment 4 to MPR 60, and since they establish the basis of the accompanying action, the pertinent parts of that statement are incorporated herein by reference.

In giving effect to the accompanying action, section 4.26 is revoked and a new section 4.26 is added. From all available evidence, producers and distributors have disposed of their February 9, 1946, inventories, thereby removing the necessity for retaining the original recapture provisions. Thus, in revoking section 4.26, the 0.455 of a cent per pound increase granted to producers of raw cane sugar in February 1946 is maintained, so that the amount of the increase which producers may add to their GMPR prices set forth in section 4.26 (a) (1) and (2) now reads 1.825 cents per pound instead of 0.445 of a cent per pound.

The increased prices established at the wholesale and retail levels are calculated to reflect the average percentage markup as was in effect on March 31, 1946, in accordance with the Emergency Price Control Act of 1942 as amended by the Price Control Extension Act of 1946. The reporting and recapture provisions, as well as the requirement that wholesalers and retailers may not charge the increased prices until they have disposed of their September 17 inventories at or below the ceilings in effect on September 17, are the same as those contained in amendment 19 to 2d Revised Maximum Price Regulation 183, and have been included for the same reasons as set forth in the statement of considerations for that amendment, the applicable portions of which are incorporated herein by reference.

In the opinion of the Price Administrator, the action taken by this amendment is generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and the Executive Orders of the President.

PART 1305—ADMINISTRATION

INDIVIDUAL ADJUSTMENTS FOR RECONVERTING MANUFACTURERS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of The Federal Register.

Revised Supplementary Order 119 is amended in the following respects:

1. Section 3 is amended by striking the last sentence thereof and adding the following new paragraphs at the end thereof:

If, however, you have manufactured the product for which you seek an adjustment for a period of three calendar months during which your unit rate of production was at least 90 percent as great as your average unit rate of production during the year 1941, you are no longer eligible for an adjustment under this order. (In such a case you are entitled to seek and receive an adjustment permitted by the terms of any regulation or order allowing an adjustment in the maximum price of the product.)

You must, therefore, supply with your application for adjustment under this order a statement of your unit rate of production of the product in the last three months preceding the filing of your application, and correspondingly, for the year 1941.

2. Section 6 is amended by adding the following new paragraphs at the end thereof:

If the adjustment provided by this order should exceed your actual total cost to make and sell the product at a rate of production substantially less than your 1941 rate of production as indicated by recent operating experience, the amount of your adjustment under this order will be reduced so that your maximum price will not exceed your actual total cost to make and sell.

Accordingly, a profit and loss statement for the department or division of your company making the product for the quarterly period immediately preceding the filing of your application must accompany the application.

NOTE: The reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This amendment shall become effective on the 23d day of September 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT NO. 16 REVISED SUPPLEMENTARY ORDER 119

The present amendment changes Revised Supplementary Order No. 119 in two respects.

First it provides that a manufacturer who has achieved a unit rate of production over a three month period which is equal to 90 percent or more of his unit rate of production for that product in 1941, is no longer eligible to seek relief under the order. The order formerly provided that once that production rate had been achieved, the manufacturer was eligible to receive relief under other adjustment provisions. It did not bar him from continuing to apply for relief under the terms of Revised Supplementary Order 119. As a result many manufacturers were receiving adjustments under Revised Supplementary Order 119 long after normal operating experience made it possible to evaluate their need for relief on the basis of current experience under the criteria of other adjustment provisions. This, of course, is in conflict with the underlying reason for the existence of the reconversion pricing formula, namely, that current operating experience at normal volume being unavailable, it was necessary to construct a new test of the appropriate maximum price based on 1941 costs extended to cover certain increases in cost since that time. For this reason applicants under Revised Supplementary Order 119 are no longer eligible for an adjustment in the maximum price of a product once the appropriate volume rate has been reached. They still, however, will be free to receive any adjustment allowed under other adjustment provisions based on normal costs.

The second change effected by the accompanying amendment places a limit on the amount of adjustment which an applicant may receive. This change is a corollary of the first change. Thus, even though current operating data based on a rate of production substantially less than normal shows that operation at that rate is profitable it should not be ignored. Likewise when such data shows that the need for adjustment is less than that provided by the formula, the adjustment should be so modified. Accordingly adjustment under Revised Supplementary Order 119 will not bring the maximum price for the product above total current cost to make and sell.

[SO 132,[1] Amdt. 55]

EXEMPTION AND SUSPENSION FROM PRICE CONTROL OF CERTAIN FOODS, GRAINS AND CEREALS, FEEDS, TOBACCO AND TOBACCO PRODUCTS, AGRICULTURAL CHEMICALS, INSECTICIDES AND BEVERAGES

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.

Supplementary Order No. 132 is amended in the following respects:

1. Section 1 (a) (7) is amended by the addition of the following items in alphabetical order:

Casein (inedible) for industrial purposes.
Milk sugar (lactose) for industrial purposes.

This amendment shall become effective September 24, 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT NO. 55 TO SUPPLEMENTARY ORDER NO. 132

The accompanying Amendment to Supplementary Order No. 132 exempts from price control casein (inedible) and milk sugar (lactose) used for industrial purposes. This action is taken pursuant to Section 1A (f) of the Price Control Extension Act of 1946. In the absence of control on all other milk products, and since milk is the basic ingredient used in the manufacture of casein and milk sugar for industrial purposes, it is the opinion of the Administrator that the continuation of price control on this relatively small part of milk products is not administratively feasible.

PART 1351—FOOD AND FOOD PRODUCTS

DAIRY PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 23 of Revised Maximum Price Regulation 289 is amended in the following respects:

1. Table A of section 23 (b) is amended to read as follows:

TABLE A

Quantity	Cents per pound	
	Acid	Rennet
10,000 lbs. or more	40	41½
2,000 lbs. or over but less than 10,000 lbs.	40¼	41¾
Less than 2,000 lbs.	40¾	42¼

2. Table B of section 23 (c) is amended to read as follows:

TABLE B

Type of casein	Cents per pound
Wet curd acid-casein, dry basis	34
Wet curd rennet-casein, dry basis	35½
Dry acid-casein	37
Dry rennet-casein	38½

3. The last sentence of section 23 (c) (3) is amended to read as follows: "Thus the maximum price for ground dry acid-casein shall be 37½ cents per pound and for ground dry rennet-casein it shall be 39 cents per pound."

This amendment shall become effective September 23, 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT NO. 56 TO REVISED MAXIMUM PRICE REGULATION NO. 289

The accompanying Amendment increases the maximum price of industrial casein (inedible) by 7 cents per pound. This action is designed primarily to encourage domestic production of this product.

The domestic production of casein (inedible) in the 1935–1939 period averaged 85 percent of our annual usage, while in the year 1945 civilian production decreased to 20 percent of our annual needs. The decrease in domestic production of industrial casein was occasioned by the price relationship which existed between skim milk powder and industrial casein during the wartime period. To encourage the production of skim milk powder for human consumption during the wartime period, such products were priced so that manufacturers of skim milk powder could afford to pay more for skim milk than processors of industrial casein. The need of the Federal government for these skim food products has decreased considerably since the end of the war and the need for industrial casein has greatly increased. It has been deemed expedient, therefore, to increase the price of industrial casein to grant a slight advantage pricewise to the producers of this product. This action will accomplish this purpose to the extent of approximately 10 cents per 100 pounds of skim milk. The present adjustment should preserve the stability in the industry and is necessary under Title III of Executive Order No. 9599 to correct maladjustments or inequities which would interfere with the effective transition to a peacetime economy.

All the provisions of this Amendment and their effect upon business practices, cost practices or methods, or means or aids to distribution in the industry or industries affected, have been carefully considered. No provision which might have the effect of requiring a change in such practices or methods, means or aids to distribution established in the industry or industries affected, have been included in the Amendment unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the Amendment or of the Act. To the extent that the provisions of this Amendment compel, or may operate to compel, changes in business practices, cost practices or methods, or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this Amendment or of the Emergency Price Control Act of 1942, as amended.

SECTION 1. *Sales at higher than maximum prices prohibited.* (a) On and after September 23, 1946, regardless of any contract or other obligation, no person shall sell, deliver, buy or receive in the course of trade or business, any Western softwood shingle product, at prices higher than the maximum prices set forth in this regulation, and no person shall agree, offer, solicit or attempt to do any of the foregoing.

(b) Prices lower than the maximum prices may, of course, be charged, demanded, paid or offered.

SEC. 2. *Products, transactions and persons covered.* The maximum prices in this regulation apply to all sales of Western softwood shingle products which include all wooden shingles, hand split shakes, and all products produced from shingles other than waste resulting from further refining or processing of shingles of the species covered by RMPR 402, RMPR 94, RMPR 290, MPR 253 and 2d RMPR 26, produced in the United States, or produced in Canada and imported into the United States, whether or not they are specifically priced in this regulation, with the following exceptions:

Surplus shingles as defined in and covered by Maximum Price Regulation 603.

Sales covered by 2d Revised Maximum Price Regulation 215.

Any person who makes the kind of sale or purchase described in this section, for himself or others, is subject to this regulation. The term "person" includes an individual, corporation, partnership, association or any other organized group, their legal successors and representatives, the United States or any government or any of their political subdivisions or any agency of any of the foregoing.

SEC. 3. *Definitions.* When used in this regulation the terms:

(a) "Square" means (unless otherwise designated in this regulation) that number of Western softwood shingles necessary to cover 100 square feet when applied so as to expose not more than 5 inches of a 16-inch shingle, not more than 5½ inches of an 18-inch shingle, and not more than 7½ inches of a 24-inch shingle, and is commonly known as a "four-bundle", or "roofing square."

(b) "Mill" means a manufacturing operation which produces shingles or shakes directly from logs or bolts, by sawing or other methods.

(c) "Processor" means one whose operation consists of or includes the processing through remanufacture or by color and/or preservative treatment of any item which before and after such processing is subject to this regulation.

(d) "Jobber" means: (1) Any seller at wholesale and/or retail other than a "mill", and other than a "distribution yard" as defined in 2d RMPR 215, who continuously since March, 1942, has maintained a stock of Western softwood shingles and has been engaged in selling less-than-carload quantities of Western softwood shingles from stock to distribution yards, other retail outlets or consumers and (2) who has no financial interest in any shingle mill or in any operation further processing shingles nor in whose operation as a jobber any shingle manufacturer or processor of shingles has a financial interest.

Any person who does not qualify as a jobber under this definition may apply to the Lumber Branch of the Office of Price Administration, Washington 25, D. C., for authority to sell as a jobber, and may be so authorized upon submission of proof (1) that his operation is, or will be, responsive to an actual need in his community for this type of operation; and (2) that he has not since March, 1942, acquired a financial interest in any shingle mill or shingle processing operation and that no shingle mill or shingle processing operation has a financial interest in his business as a jobber which interest was acquired after March, 1942, and that his jobber's operation is entirely independent of any operation which manufacturers or processes shingles.

(e) "Direct-mill sale" means any sale covered by this regulation except a jobber's sale out of his yard stock.

SEC. 4. *Maximum prices—(a) Maximum prices for direct-mill sales.* The basic maximum prices set forth in this paragraph apply under the following rules:

(1) All prices stated are per square (or other designated unit of measurement) of shingles f. o. b. car or f. o. b. truck at producing mill, except as otherwise provided in tables 4 and 5.

(2) All prices apply irrespective of quantity, whether green or dry, and whether in mixed or straight load shipments unless otherwise specified.

(3) Redwood shingles shall be graded in accordance with paragraph 167, Standard Specifications for Grades of California Redwood Lumber as revised May, 1940.

(4) All No. 1 grade Western softwood shingles (except redwood) shall be graded in accordance with U. S. Department of Commerce Commercial Standards C. S. 31–38; No. 2 and No. 3 in accordance with Sandards and Grading Rules of the Red Cedar Shingle Bureau, as revised June 1, 1939.

(5) Western softwood handsplit shakes, double split or resawn, shall be graded as follows: All shakes strictly clear, no sap, rot or other defects. Random widths, averaging three shakes to 20". None narrower than 4", or wider than 12" except on special orders. All "Taper-Split" or "Double-Hand-Split" shakes 100% vertical grain, up to 4% offgrade allowed. Butts need not be at right angles to sides and sides may vary slightly from parallel. Variation in thickness is permissible in the individual shake and between one shake and another in the same bundle within the specified limitations for each pack. Color of wood is not a defect. Packed in regulation shingle frames 20" wide. Courses to contain 18½" of wood if green or 18" of wood if kiln dried. Band irons double nailed at each end.

(6) The maximum prices for stained red cedar shingles and machine processed shakes apply only to the processors' brands listed at the end of this rule which were in general use and were accepted by the trade as standard brands in the period March 1940 to March 1942, and when each bundle is distinctly labelled with the processor's name and brand and when stained by use of the same, or substantially the same, materials and methods which were used by the processor during the aforementioned period. These prices are f. o. b. the processor's staining plant for plants located in the "Western softwood shingle producing area"; for staining plants located outside such producing area, an addition may be made for inbound freight computed by use of the estimated weights for the unstained product and the carload rate from Seattle, Washington.

(b) *Maximum prices for jobbers' sales.* (1) The jobber's maximum price f. o. b. his yard on less-than-carload sales of Western softwood shingles to other jobbers, distribution yards or other distributors for resale is (i) the price set out in tables 1 to 5 inclusive, or approved specifically under this regulation, plus (ii) transportation additions figured on the Seattle, Washington, carload railroad freight rate to jobber's yard, at estimated weights given in, or approved under, this regulation, plus (iii) a mark-up of 10 percent on the total of (i) and (ii).

(2) The jobber's maximum prices on less-than-carload sales f. o. b. his yard to consumers are the prices established in 2d Revised Maximum Price Regulation 215 for retail type sales by distribution yards of shingles for the zone in which the jobber is located.

(3) The jobber's maximum prices f. o. b. his yard on sales out of stock in carload quantities are the maximum prices shown in tables 1 to 5 inclusive, plus 5%, and plus an addition for inbound transportation computed in accordance with section 5.

(c) *Processor's LCL sales.* The processor's maximum prices f. o. b. his plant on less-than-carload sales of items processed by him except when such sales are part of a carload of natural shingles, lumber or other forest products, are the prices established in section 4 (a) or by order under this regulation, plus 10 percent.

(d) *Direct-mill retail sales.* On direct-mill retail sales of unprocessed shingles only, a mark-up of 15 percent over the prices set out in paragraph (a) is permitted if, but only if, the buyer, at the time of loading-out at the mill, furnished the seller a written statement that:

(1) His total purchases from all mills during the calendar month, including the present purchase, do not exceed 35 squares, and

(2) The purchase is not for resale, and

(3) The shingles are required for a structure owned or rented by the purchaser, and located within 50 miles of the mill;

and whose statement the mill has no reason to disbelieve.

The seller must keep such statement accessible for examination by any accredited representative of the Office of Price Administration, for the duration of the Emergency Price Control Act of 1942, as amended.

Unless the seller complies with these requirements he may not charge or receive more than the prices set out in paragraph (a) even though the sale may be a "direct-mill retail sale."

SEC. 5. *Delivered sales.* The maximum prices for delivered sales are the maximum prices established in section 4 plus a transportation addition computed as follows:

(a) *Rail shipments.* Use estimated weights in paragraph (b) of this section and carload rate from actual shipping point to destination, *Provided,* That:

(1) For natural redwood or other Western softwood shingle products produced in California and delivered to destinations in California: If there is a published railroad freight rate per M'BM for redwood lumber from Eureka, California to destination, the freight rate per square shall be computed as 1/12 of such freight rate per M'BM, otherwise, the transportation addition per square shall be computed by using the Seattle, Washington carload rate and estimated weights in paragraph (b).

(2) For carload sales of stained shingles or shakes the transportation addition shall in all cases be computed on the Seattle, Washington rate and be added to the maximum f. o. b. staining plant producing area prices. See rule 6 in section 4.

(3) For LCL sales of stained shingles or shakes the transportation addition shall be computed by using the LCL freight rate from the staining plant, wherever located.

(4) When a truck haul precedes rail shipment, as when a mill located away from a railroad hauls shingles by truck to the railroad, no addition may be made for the truck haul. However, in the following two cases a mill may apply for permission to make an addition:

(i) Where the mill was located away from rail connections because it specialized in water-borne shipments, and has been forced to ship by rail because of a lack of water carrier facilities;

(ii) Where a mill's rail connections have been abandoned since December 7, 1941;

In these two cases a mill situated at a point not served by a railroad may make application to the Portland, Oregon, Office of Price Administration, for permission to charge the cost of trucking from mill to nearest rail loading point.

(b) *Tables of estimated weights.*

(c) *Private truck (including any truck owned or controlled by the seller).* For distances up to and including six miles, compute on a flat basis of six cents per square from mill loading point to point where truck is unloaded.

For distances greater than six miles, up to and including 40 miles, compute at one cent per mile per square from mill loading point to point where truck is unloaded.

For distances over 40 miles the maximum addition is the charge for the first 40 miles plus ¼¢ per square per mile for the distance over 40 miles, but in no case may this total charge exceed the lowest common carrier freight charge based on carload or truck load rate.

No charge shall be made for the return trip in any case.

(d) *Common or contract carrier other than rail.* Where transportation is by common or contract carrier other than rail, the only rule is that actual costs of transportation paid by the seller may be added.

SEC. 6. *Items not specifically priced.* (a) If a seller wishes to sell an item or grade or size which is not specifically priced in the price tables, or wishes to make an addition for specifications, services, or other extras for which additions are not specifically permitted, he must apply to the Lumber Branch, Office of Price Administration, Washington, D. C. for a maximum price. He must provide the following information:

(1) The requested price;

(2) A complete description of the item, practice or service for which approval is requested;

(3) The price differential between it and the most comparable item in the price tables, between October 1, 1941, and June 1, 1942, from the seller's own records, or if that is impossible, from the experience of the trade. If the established price differential which can be used for comparison existed, a detailed analysis of the calculation of the price should be furnished.

(b) As soon as the request has been filed, quotations and deliveries may be made at the requested price, but final payment may not be made or accepted until the price has been approved.

SEC. 7. *Invoicing*—(a) *Basic price.* An invoice must be submitted in every sale and contain a sufficiently complete description of the commodity to show whether the price is proper. Any working, specification, or extra which affects the price must be mentioned in the description. The amount added for these does not have to be separately shown.

(b) *Charges for transportation.* In all delivered sales, the invoice must show the:

(1) Point of origin of shipment;

(2) Destination;

(3) Rail rate, if estimated weights are used, otherwise the actual amount added for transportation.

(c) *Delivery and related charges.* Any separate charges which the seller is permitted to make for truck delivery after rail haul, or for trucking to railhead, must be separately shown on the invoice.

(d) *Direct-mill retail sales.* If the price exceeds the basic mill price because of a "direct-mill retail sale" mark-up authorized in this regulation, the invoice must show the amount of the mark-up separately labeled "direct-mill retail sale."

SEC. 8. *Records and reports.* Every person who, in the course of trade or business during any calendar month sells, delivers, buys or receives $1,000 worth, or more, of Western softwood shingles, where the shipment originates at the mill, shall keep for inspection by the Office of Price Administration for the duration of the Emergency Price Control Act of 1942, as amended, a complete and accurate record of every such purchase, sale, or delivery, showing the date thereof, the name and address of the other party to the transaction, the price paid or received, and the quantity of each kind or grade of Western softwood shingles involved in the sale or delivery.

SEC. 9. *Prohibited practices*—(a) *General.* Any practice which is a device to get the effect of a higher-than-ceiling price without actually raising the dollars-and-cents prices is as much a violation of this regulation as an outright overceiling price. This applies to changes in credit practices and cash discounts and to devices making use of commissions, services, transportation arrangements, premiums, special privileges, tying agreements, trade understandings and the like.

(b) *Specific practices.* The following are some of the specific practices prohibited:

(1) Getting the effect of a higher price by changing credit practices from what they were in October 1941. This includes decreasing credit periods or making greater charges for extension of credit.

(2) Grading as a special grade shingles which can be graded as a standard grade; or wrongly or falsely grading or invoicing or grading by any standard other than reconized in this regulation.

(3) Making additions for special specifications, services, or other extras which are not specifically permitted.

(4) Refusing to sell on an f. o. b. mill basis, and insisting on selling on a delivered basis or vice versa.

(5) Failing to invoice properly and in accordance with the requirements of this regulation.

(6) Unnecessarily routing shingles through distribution yard or jobbers' outlets.

(7) Quoting a gross price above the maximum price, even if accompanied by a discount the effect of which is to bring the net price below the maximum.

(8) Making the buyer take something he does not want in order to get what he does want; for example, making a buyer who orders No. 1 take other grades.

(9) Sale or delivery by a shingle mill, or agreement to sell or deliver, natural shingles or shakes to a person in consideration of, or in return for, the delivery of stained or further processed shingles or shakes, or to accomplish the same result by any other trading device, the effect of which will result in additional consideration of any type over and above the payment of the maximum price.

(c) *Adding commission to ceiling prohibited.* It is unlawful for any person to charge, receive or pay a commission for the service of procuring (including buying, selling, or locating shingles, or for any related service such as "expediting") which does not involve actual physical handling if the commission plus the purchase price results in a total payment by the buyer of shingles which is higher than the maximum price of the shingles. For purposes of this regulation, a commission is any compensation, however designated, which is paid for the procurement of shingles. This prohibition has no application to cases covered by section 14 or to the case of a bona fide employer-employee relationship where the employee serves only one employer, insofar as shingle procurement is concerned, and where the compensation paid by the employer is a fixed salary and is not based directly or indirectly on the quantity, price or value of the shingles in connection with which the service is rendered.

SEC. 10. *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 11. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulation. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 12. *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1 issued by the Office of Price Administration.

SEC. 13. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of shipment; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after shipment. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of

1942, as amended. The authorization may be given by the Administrator or by any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 14. *Additions to mill ceiling prices on direct-mill sales by direct-mill distributors and by distribution yards*—(a) *Mark-up on wholesale type direct-mill sale.* Subject to the exceptions and limitations set forth in paragraph (f), direct-mill distributors and distribution yards may on a wholesale type direct-mill sale add 5 percent to the mill maximum price established in or approved under this regulation. The addition may be evened out to the nearest 5 cents per square, or the addition may be added as one lump sum to the total amount of the bill based on the mill maximum prices.

(b) *Mark-up on a commission type direct-mill sale.* Subject to the exceptions and limitations set forth in paragraph (f), the maximum price for Western softwood shingles purchased and sold under this regulation on a commission type direct-mill sale, is 3 percent higher than the mill maximum price. The mill maximum price including the commission, may be evened out to the nearest 5 cents per square, or the addition may be added as one lump sum to the total amount of the bill based on the mill maximum prices. The mill must pay to the commission man at least the amount added as a mark-up so that the mill's realization shall not exceed the mill maximum prices.

(c) *Pyramiding prohibited.* The price additions permitted in this section may not be added more than once to the mill maximum price in the regulation regardless of the number of persons participating in the transaction.

(d) *Application for and granting of registration as a direct-mill distributor.* All persons desiring to operate as direct-mill distributors must apply to the Lumber Branch of the Office of Price Administration, Washington 25, D. C., for, and receive, a registration number before charging or receiving the addition provided in paragraphs (a) and (b) of this section. (Distribution yards need not apply.) The application shall contain either a statement showing all connections which the applicant has with any mill, concentration yard, or other lumber producer, which may have any bearing on the question of "control relationship" as described in paragraph (f) (5) of this section, or a statement showing that he has no connection with any mill, concentration yard, or other lumber producer, which has any bearing on the question of "control relationship" as described in paragraph (f) (5) of this section. Anyone previously registered as a direct-mill distributor under Supplementary Order 150 may continue to act under such regulation without reapplying.

(e) *Definition of terms*—(1) *Direct-mill sales.* A direct-mill sale is one which originates at a mill, or concentration yard, and in which the shingles go direct to a consumer or distribution yard without becoming a part of the stock of any intervening purchaser.

(2) *Direct-mill distributor.* A direct-mill distributor is a wholesaler or commission man who is registered as such by the Lumber Branch of the Office of Price Administration, Washington, D. C., and receives his registration number.

(3) *Distribution yard.* A distribution yard is a wholesale or retail lumber yard as defined in 2nd Revised Maximum Price Regulation 215.

(4) *Wholesale type direct-mill sale.* A wholesale type direct-mill sale is a direct-mill sale in which the seller buys shingles from a mill, wholesaler or concentration yard, and sells the shingles to the buyer in the same form.

(5) *Commission-type sale.* A commission-type sale is a direct-mill sale through a commission man. For the purposes of this section, a commission man is a distribution yard or a person who represents, and customarily sells shingles in carload quantities for two or more mills or concentration yards which are independent of each other, receives his compensation from the mills in the form of commission based on the amount of the shingles sold, and operates independently of both buyer and seller.

(f) *Exceptions and limitations.* The mark-ups permitted in this section may not be made in the following cases:

(1) On any sale of shingles under this regulation for which the invoice from the mill or concentration yard does not contain the statement "This mill has no control relationship with (name of distributor) as defined in Revised Supplementary Order 150".

(2) On any sale of less than carload quantities when shipped by rail, except that a sale for resale purposes in less than carload quantities when shipped in a pool carload may carry the mark-up.

(3) On any sale of less than 50 squares when shipped by truck or water.

(4) On any sale which carries an addition for a direct-mill retail type sale.

(5) On any sale of shingles which originates at a mill or concentration yard with which the direct-mill distributor has a "control relationship". A "control relationship" includes any of the following:

(i) *Profit sharing arrangement, direct or indirect, which was established on or after July 1, 1943.* This means a financial interest by a direct-mill distributor in the profits, return or realization of a mill or concentration yard, or by a mill or concentration yard in the profits, return or realization of a direct-mill distributor, and includes common ownership or control of a mill and direct-mill distributor by a third person. It also includes any arrangement whereby a distributor or producer shares in the profits of the other, whether such arrangement is oral or written, direct or indirect. Where a mill, concentration yard or direct-mill distributor is a corporation, stock ownership of more than 10 percent of the total issued outstanding stock by a direct-mill distributor in the mill or concentration yard, or vice versa, constitutes a "control relationship".

(ii) *Family relationship.* A family relationship exists if any member of the family of the owner or part owner to the extent of more than 10 percent of a mill or concentration yard, has any interest in a direct-mill distributor, or vice versa, and such interest was acquired on or after July 1, 1943. Member of a family means any person related to an individual or his spouse by blood or marriage within the third degree.

(g) *Invoicing requirements on distributor's direct-mill wholesale type sale.* The invoice on any distributor's direct-mill wholesale type sale must be plainly marked "wholesaler's direct-mill sale" and must show the name and registration number of the direct-mill distributor. The invoice must also bear the following endorsement: "The shingles covered by this invoice did not originate at a mill or concentration yard with which we have a control relationship."

(h) *Invoicing requirements on direct-mill commission type sale.* The invoice on any direct-mill commission type sale must be plainly marked "commission man's direct-mill sale" and must show the name and registration number of the direct-mill distributor. The invoice must also bear the following endorsement: "We do not have a control relationship with (name of the distributor".

(i) *Maximum price when endorsement on invoice is false.* If a mill or concentration yard makes a statement on an invoice that it has no control relationship with the direct-mill distributor, and such statement is false, the maximum prices at which the shingles covered by such invoice may be sold by it is 5 percent less than the mill maximum price.

(j) *Suspension of licenses.* Any person making a sale under this regulation is subject to the provisions of Licensing Order No. 1. A violation of any provision of this regulation is a violation of the seller's license. Violations of the license or of this regulation may result in suspension of the license in accordance with the provisions of the Emergency Price Control Act of 1942, as amended.

(k) Any provision in this regulation which prohibits the charging, receiving, or paying a commission for the service of procuring shingles shall not be deemed to prohibit the payment and receipt of the commission man's and wholesaler's mark-ups permitted by this section.

SEC. 15. *Canadian shingle products.* The maximum prices for shingle products produced in Canada and imported into or resold in the United States are the maximum f. o. b. car or truck prices set forth in section 4, or approved under section 6, plus the transportation additions in section 5. *Provided,* That such transportation additions may not be greater than if the shipment had originated at Seattle, Washington.

SEC. 16. *Maximum export prices.* The maximum price at which a person may export any commodity to which this regulation is applicable shall be determined in accordance with the provisions of the Maximum Export Price Regulation, as revised, issued by the Office of Price Administration.

This regulation shall become effective September 23, 1946.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF 2D REVISED MAXIMUM PRICE REGULATION 164

This revision is issued to grant a price increase on Western softwood shingles averaging approximately $0.45 per square, or about 10 percent of average sales realization, and to reorganize the text of the regulation by incorporating and integrating the changes made since the issuance of the first revision.

The Civilian Production Administration has surveyed the available supply of Western softwood shingles and estimated its anticipated production. That agency has certified to this Office that in the light of the needs of the housing program a critical shortage of Western softwood shingles exists. It has urged that the Administrator take such discretionary price action within the standards of the stabilization program as he deems will bring about the maximum production of Western softwood shingles. Such action has been accomplished by the inclusion of a $0.12 per square discretionary price increase in the above total increase of $0.45 per square. This increase will result in a price that will cover the costs of production of 90 percent of the industry. This action is taken under the authority expressed in Executive Order 9599 instructing the Administrator to make those price modifications which would expand production and aid in the orderly transition of the national economy from war to peace.

Price action is taken at this time primarily for two reasons: (1) The necessary cost data upon which price action may be based were only recently submitted by the industry and (2) log prices were increased $3.00 per thousand feet by the issuance on August 8, 1946, of amendment 25 to Revised Maximum Price Regulation 161, West Coast Logs. The shingle industry is almost entirely dependent on purchased logs for its log supply, and the data submitted show clearly that the industry could not absorb this cost increase. The data were not submitted soon enough to permit this revision to be issued simultaneously with the amendment to the log regulation. But the increased log costs have been considered in determining the amount of the shingle price increase.

DATA FOR PRICE ACTION

Financial and operating data for the last half of 1945 have been submitted by 28 shingle mills. These mills produced over 800 thousand squares of shingles, or about 60 percent of the production of the industry, during the period covered and consitute a representative sample of the industry.

The data submitted by these mills required adjustment to give effect to the changes that have occurred and will occur in 1946. These adjustments were as follows:

(a) Wage increases of $0.15 per hour granted in January, 1946, and approved by the National Wage Stabilization Board.

(b) Log cost increases resulting from amendments 22, 23, and 25 to Revised Maximum Price Regulation 161, West Coast Logs.

(c) Increased costs of other materials and supplies.

(d) Shingle price increases granted by amendments 1, 3, and 4 to Revised Maximum Price Regulaiton 164, Western Softwood Shingles.

(e) Increased labor efficiency.

(f) Reduced unit overhead costs resulting from an increased volume of production over the volume in the period of the study.

Analysis of the data indicated that a price increase of $0.33 per square is the mimimum required to make prices generally fair and equitable under the standards of the Emergency Price Control Act of 1942, as amended. (Since generally shingles do not fall within the definition of lumber, section 2 (v) of that act, requiring that the costs of production of 50 percent of softwood lumber be covered, does not apply.) A further increase of $0.12 per square is required to cover the production costs of 90 percent of the industry, and that increase is granted by this action on a discretionary basis.

APPLICATION OF THE PRICE INCREASE

The specific changes in shingle prices are as follows:

	per square
No. 1 shingles	$0.60
No. 2 shingles	.35
No. 3 shingles	.25
Nos. 3 and 4 shingles (50% No. 3)	.20
No. 4 shingles	.20

The shingle price increases are made on a graduated basis rather than "across the board" upon the recommendation of the industry. Previous increases have been of the same dollar-and-cent amount for all grades. While this has maintained the same dollar-and-cent differentials between grades, it has meant that the percentage differentials have become smaller. The present increases are designed to provide more appropriate percentage differentials between grades. The above increases, weighted by the reported production for different grades thus far this year, provide an average increase of approximately 10 percent or $0.45 per square. The prices of machine processed shakes, hip and ridge units, and hand split shakes (except for barn shakes which are not used for residential construction) are granted price increases of 10 percent.

CHANGES IN THE TEXT

Since the issuance of the first revision of Maximum Price Regulation 164, the coverage of the regulation has been extended to include a number of products formerly priced by letter order under the special pricing provisions of section 6. Supplementary Order 150 providing for wholesalers' mark-ups and applicable to Western softwood shingles has also been issued since that time. In incorporating these changes into the regulation, a number of changes in organization have been made. Other changers have been made in certain provisions to express more clearly the original intent or to facilitate enforcement and compliance. For example, section 4 (d) relating to direct mill retail sales now specifies that such sales must be for construction within 50 miles of the mill. This addition has been made to give further assurance that sales made under section 4 (d) are bona fide retail sales. A few minor provisions that are no longer necessary have been deleted.

All provisions of this revision and their effect upon business practices, cost practices or methods, or means or aids to distribution in the industry or industries affected have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, aids or methods established in the industry affected, have been included in the revision unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the regulation or of the Act. To the extent that the provisions of this revision compel or may operate to compel changes in business practices, cost practices, or methods, or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this regulation or of the Emergency Price Control Act of 1942, as amended.

All the provisions of this revision have been discussed with the Red Cedar Shingle Industry Advisory Committee.

In view of the above considerations, the Administrator finds that this amendment is necessary and proper and consistent with the purposes and standards of the Emergency Price Control Act of 1942, as amended, and the Executive Orders of the President.

Chapter XXIV—Department of State

[FLC Reg. 8, Order 6]

PART 8508—DISPOSAL OF SURPLUS PROPERTY LOCATED IN FOREIGN AREAS

IMPORTATION INTO UNITED STATES OF SURPLUS PROPERTY LOCATED IN FOREIGN AREAS

All regulations and orders heretofore issued under Part 8308 entitled "Foreign Disposal" have been redesignated "Disposal of Surplus Property Located in Foreign Areas" and will be issued hereafter under Part 8508 as Foreign Liquidation Commissioner Regulation 8. Surplus Property Administration Regulation 8, Order 6, July 18, 1946 entitled "Importation of Surplus Glycerine" (11 F. R. 7938) is hereby revised and amended as herein set forth as Foreign Liquidation Commissioner Regulation 8, Order 6.

The Director of War Mobilization and Reconversion has informed the Secretary of State that certain materials which have been declared to the Foreign Liquidation Commissioner as surplus property located in foreign areas are in

critically short supply and urgently needed for reconversion in the United States, and has requested the Secretary of State to take such action as may be necessary and appropriate to permit the importation of such materials into the United States for use by American industry. Pursuant to the authority of the Surplus Property Act of 1944 (58 Stat. 765), Executive Order No. 9689, issued January 31, 1946 and Public Law 584, 79th Congress, 2d Session.

It is hereby ordered, That § 8508.15 of this part shall not apply to prevent the importation of surplus property specified in Schedule A attached hereto as the same now stands or may hereafter be amended or supplemented to include additional materials designated by the Director of the Office of War Mobilization and Reconversion as necessary for reconversion in the United States.

This order shall become effective September 18, 1946.

[SEAL] W. L. CLAYTON,
Acting Secretary of State.

TITLE 34—NAVY

Chapter I—Department of the Navy

PART 28—REGULATIONS RELATING TO TRESPASSING ON NAVAL VESSELS

Pursuant to the authority vested in the Secretary of the Navy by the act of July 9, 1943, ch. 212, 57 Stat. 391, the following regulations relating to trespassing on naval vessels are prescribed:

Sec.
28.1 Trespassing.
28.2 Penalty.
28.3 Effective date.

AUTHORITY: §§ 28.1 to 28.3, inclusive, issued under 57 Stat. 391; 50 U. S. C. 1211.

§ 28.1 *Trespassing.* No person shall, unless duly authorized by proper authority, enter or remain in or upon any vessel or other water-borne craft of the Navy which has been determined, as provided in Navy Regulations, to be in an inactive status.

§ 28.2 *Penalty.* Wilful violation of the regulations in this part or of any order issued thereunder is a misdemeanor punishable by a fine not to exceed $5,000, or imprisonment for not more than one year, or both, under the act of July 9, 1943, ch. 212.

§ 28.3 *Effective date.* The regulations in this part are effective on publication in the FEDERAL REGISTER.

JAMES FORRESTAL,
Secretary of the Navy.

Chapter I—Interstate Commerce Commission

[S. O. 234, Amdt. 2]

PART 95—CAR SERVICE

REDUCTION OF FREE TIME ON LESS-THAN-CARLOAD FREIGHT AT MEXICAN BORDER POINTS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 18th day of September A. D. 1946.

Upon further consideration of the provisions of Service Order No. 234 (9 F. R. 11653), as amended (11 F. R. 8452), and good cause appearing therefor:

It is ordered, That Service Order No. 234, as amended, be, and it is hereby, further amended by substituting the following paragraph (d) for paragraph (d) thereof:

(d) This order, as amended, shall expire at 11:59 p. m., January 20, 1947, unless otherwise modified, changed, suspended or annulled by order of this Commission. (40 Stat. 101, sec. 402; 41 Stat. 476, sec. 4; 54 Stat. 901; 49 U. S. C. 1 (10)-(17))

It is further ordered, That this amendment shall become effective at 12:01 a m. September 20, 1946; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

FEDERAL POWER COMMISSION.

[Docket No. G-773]

MANUFACTURERS LIGHT AND HEAT CO. AND NATURAL GAS CO. OF WEST VIRGINIA

NOTICE OF APPLICATION

SEPTEMBER 16, 1946.

Notice is hereby given that on September 3, 1946, a joint application was filed

with the Federal Power Commission by The Manufacturers Light and Heat Company, a Pennsylvania corporation (hereinafter referred to as Manufacturers) and by its associate company, Natural Gas Company of West Virginia, a West Virginia corporation (hereinafter referred to as Natural Gas Company), both of which are authorized to do business in the Commonwealth of Pennsylvania and the States of Ohio and West Virginia, and have their principal office in Pittsburgh, Pennsylvania, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Manufacturers to purchase from Natural Gas Company certain facilities heretofore used by Natural Gas Company to be installed and operated at a new location by Manufacturers, and for authority to construct and operate certain gas transmission pipelines, all subject to the jurisdiction of the Federal Power Commission, and all more particularly described hereafter. Natural Gas Company seeks permission to sell and to abandon, pursuant to section 7 of the Natural Gas Act, as amended, the facilities to be purchased by Manufacturers, and further, Natural Gas Company seeks a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize it to construct and operate certain facilities, all subject to the jurisdiction of the Federal Power Commission, and all more particularly described hereafter.

The facilities which Manufacturers seeks to purchase from Natural Gas Company, and which Natural Gas Company seeks to sell to Manufacturers, consist of three 325 horsepower gas engine driven compressors with pipe, valves and fittings, compressor station building and crane. The said facilities are at present located at Natural Gas Company's Heard Compressor Station, West Finley Township, Washington County, Pennsylvania, and it is these facilities which Natural Gas Company seeks permission to abandon and sell to Manufacturers; Natural Gas Company further seeks permission to abandon by retirement to stock of the existing cooling and other auxiliary equipment and auxiliary buildings at its said Heard Compressor Station. Manufacturers seeks authority to install and operate the said three 325 horsepower gas engine driven compressors with pipe, valve and fittings, compressor station building and crane, along with cooling equipment, at Manufacturers' Hundred Compressor Station, Church District, Wetzel County, West Virginia.

Manufacturers further seeks authority to construct and operate 4.2 miles of 12¾-inch OD gas transmission pipeline from Manufacturers' said Hundred Compressor Station to a point of connection with the United Fuel Gas Company's 16-inch pipeline east of said Hundred Compressor Station in Church District, Wetzel County, West Virginia; and 1.2 miles of 8-inch pipeline from an existing point of connection with the Carnegie Natural Gas Company, (Carnegie), on the Hunt Farm, Church District, Wetzel County, West Virginia, to the said Hundred Compressor Station.

Natural Gas Company further seeks authority to install and operate three 90 horsepower portable-type gas engine driven compressors with 25' x 40' structure at its Heard Compressor Station, West Finley Township, Washington County, Pennsylvania.

Both applicants seek authority to install and operate a gas measuring station and structure at the Majorsville Compressor Station, West Finley Township, Washington County, Pennsylvania, and, in addition, Natural Gas Company seeks authorization to install at said station connecting lines consisting of 1,200 feet of 6-inch pipeline.

Applicants recite that the 975 additional horsepower to be installed at Manufacturers existing Hundred Compressor Station will enable Manufacturers to handle an additional 3,000,000 Mcf of gas annually, 13,286 Mcf on a maximum day and 3,871 Mcf on a minimum day, which additional gas is to be purchased from Hope Natural Gas Company (Hope). Applicants state that the 4.2 miles of 12¾ inch OD pipeline which Manufacturers propose to install from its Hundred Compressor Station in an eastwardly direction to connect with the proposed 16-inch line of United Fuel Gas Company (United) will enable Manufacturers to pump at Hundred the 3,000,000 Mcf of gas Hope delivers at Littleton into United's new 16-inch line. It is recited that the 1.2 miles of 8-inch pipeline extending from Hundred Compressor Station to the point of connection with Carnegie's facilities must be installed to enable Manufacturers to receive 5,000 Mcf of natural gas presently being delivered to Manufacturers on a maximum day by Carnegie by a presently existing 12-inch line which it is intended will hereafter be used to deliver the additional Hope Gas.

The application further recites that the sale by Natural Gas Company of the three 325 horsepower compressors with pipe, valves and fittings, the main compressor building and crane, now situated at its Heard Compressor Station, will permit that company to realize net savings in compressor station expense of $23,063 per year. In recent years the supply of gas at this location has not required a station of that size, and the company does not see any potential economic use for the equipment in this station in the future, and seeks to replace it with more suitably sized equipment. The installation and operation by Natural Gas Company of three 90 horsepower compressors at Heard Compressor Station, as proposed in the instant application, is to replace the present equipment upon the sale thereof to manufacturers. It is proposed to use Manufacturers' Majorsville Compressor Station to pump Natural Gas Company's gas in the Heard Storage Field. Applicants recite that the construction and operation of the measuring station and structure at the Majorsville Compressor Station by both applicants is in accordance with the usual practice where natural gas is both delivered and received between companies. Furthermore, it is stated that it will be necessary for Natural Gas Company to construct and operate 600 feet of 6-inch pipeline together with 600 feet of 6-inch pipeline for return, as applied for in the instant application, in order to deliver natural gas from the Heard Storage field to the Majorsville Compressor Station and return. If, however, gas is delivered by Natural Gas Company for pumping at the Majorsville Station, then it would be handled in the same manner as any other gas delivered to Manufacturers by Natural Gas Company, and the gas when redelivered to Natural Gas Company would be delivered under the same terms and conditions as any other gas delivered by Manufacturers to Natural Gas Company, the rate in both cases being 39¢ per Mcf.

Applicants propose by means of the construction and operation of the facilities described in said application to enable Manufacturers to insure more adequate and continuous service to existing customers, and, for a reasonable period in the future, to provide for normal growth of the company and its associate companies of the Pittsburgh group of the Columbia Gas & Electric Corporation system. Furthermore, it will enable Manufacturers to rest some portion of its own producing gas wells. Applicants further propose, by means of said sale and installations, to enable Natural Gas Company to dispose of equipment now operating uneconomically at a low load factor and to replace said facilities with smaller size equipment sufficient to handle available supplies of natural gas, thus effecting savings in annual expenses.

Applicants estimate the overall cost of all the proposed projects will be $348,931, of which Manufacturers' cost will be $316,193. The sale by Natural Gas Company to Manufacturers of the three 325 horsepower compressors with pipe, valves and fittings, the main compressor building and crane, will be at original cost thereof less observed depreciation on each of the items, at an estimated net price of $37,522. Natural Gas Company estimates that the salvage value of the other equipment it seeks to abandon will be $7,196, less cost of dismantling of $1,812, or a total net salvage of $42,906, which amount will be sufficient to cover the $30,926 estimated cost of the construction proposed by Natural Gas Company. Manufacturers state that a verbal agreement has been made for the financing of its capital costs by borrowing the same from Columbia Gas & Electric Corporation, and that said commitment will be reduced to writing and filed as a Supplement to said application when it is received. Applicants state that they anticipate having the construction done by non-affiliated contractors and by their own employees.

Any interested State Commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of the Manufacturers Light and Heat Company and Natural Gas Company of West Virginia should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of this publication, a petition or protest in accordance with the Commission's rules of practice and procedure.

NORTHERN UTILITIES CO.

ORDER FIXING DATE OF HEARING

SEPTEMBER 13, 1946.

Upon consideration of the application filed on July 2, 1946, and the amendment thereto filed on August 5, 1946, by Northern Utilities Company (Applicant) for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, authorizing the construction and operation of the following described facilities:

(a) Approximately 20.21 miles of 10-inch I. D. loop pipe line to loop Applicant's main transmission pipe line running in a westerly direction from the Muskrat Gas Field take-off.

(b) Approximately 2.4 miles of 4-inch I. D. pipe line starting in the Beaver Creek Field in the SE ¼ of section 23, Township 33 North, Range 96 West, of the 6th P. M. and running in a general northeast direction to a point of junction with the Sand Draw-Riverton line in the NE ¼ of section 36, Township 34 North, Range 96 West, of the 6th P. M., all in Fremont County, Wyoming.

(c) Approximately 9 miles of 8-inch pipe line commencing at a point of connection on Applicant's present system in the "Big Sand Draw Gas Field" and running thence in a northwesterly direction to a point of connection with field lines located in the NW ¼ NE ¼ of section 14, Township 33 North, Range 96 West, of the 6th P. M., all in Fremont County, Wyoming.

The Commission orders that:

(A) A public hearing be held commencing on September 23, 1946, at 9:30 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, N. W., Washington, D. C., concerning the matters involved and the issues presented in the above-entitled proceeding: Provided, however, That if no protest or petition to intervene has been filed or allowed prior to the date hereinbefore fixed for hearing, or if a protest or petition to intervene, in the judgment of the Commission, raises no issue of substance, the Commission may dispose of the application without contested hearing, by order upon the application and evidence filed or available to the Commission and such additional evidence as the Commission may require to be filed for its consideration.

(B) Interested State commissions may participate as provided in the Commission's rules of practice and procedure.

PANHANDLE EASTERN PIPE LINE CO.

ORDER CONSOLIDATING PROCEEDINGS AND FIXING DATE OF HEARING

SEPTEMBER 17, 1946.

Upon consideration of the following applications filed by Panhandle Eastern Pipe Line Company (Applicant), for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended:

(a) Application filed November 16, 1945, Docket No. G-684, for authority to install a meter and regulator at a point on Applicant's 4-inch transmission pipe line in the southeast corner of section 25, Township 48, Range 33 West, on Kemper Road, Jackson County, Missouri, for natural gas service by Interstate Gas Company of Lee's Summit, Missouri, to a real-estate development project known as "Bannister Acres," located in Jackson County, Missouri, contiguous to Kansas City, Missouri.

(b) Application filed July 15, 1946, Docket No. G-755, for authority to install a meter and regulator at a point on Applicant's 6-inch lateral pipeline in the southeast quarter of section 27, Township 48 North, Range 33 West, Jackson County, Missouri, for natural gas service by Interstate Gas Company of Lee's Summit, Missouri, to a real estate development project known as "King's Rose Hill Subdivision," located in Jackson County, Missouri, contiguous to Kansas City, Missouri.

It appears to the Commission that:

Good cause exists for consolidating the above matters for purposes of hearing.

The Commission orders that:

(A) The proceedings in Docket Nos. G-684 and G-755 be and they are hereby consolidated for the purposes of hearing.

(B) A public hearing be held commencing on October 2, 1946, at 10:00 a. m. (est), in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue, NW., Washington, D. C., respecting the matters involved and the issues presented in these proceedings: *Provided, however,* That if no protest or petition to intervene has been filed or allowed prior to the date hereinbefore fixed for hearing, or if a protest or petition to intervene, in the judgment of the Commission, raises no issue of substance, the Commission may dispose of the application without contested hearing, by order upon the application and evidence filed or available to the Commission and such additional evidence as the Commission may require to be filed for its consideration.

WILLIAM ADOLPHUS ROSS

In re: Trust under the will of William Adolphus Ross, deceased: File No. D-66-765; E. T. sec. 4624.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding;

That the property described as follows: All right, title, interest and claim of any kind or character whatsoever of Margaret Campbell von Hessen and her issue, names unknown, and each of them in and to the trust created under the Will of William Adolphus Ross, deceased,

is property payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and last known address

Margaret Campbell von Hessen and her issue, names unknown, Germany.

That such property is in the process of administration by Chase National Bank of the City of New York as Trustee of the Trust Under the Will of William Adolphus Ross, deceased, acting under the judicial supervision of the Surrogate's Court, Richmond County, New York;

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property or the proceeds thereof in whole or deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on August 14, 1946.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-1352]

TEXAS POWER & LIGHT CO., AND TEXAS PUBLIC UTILITIES CORP.

NOTICE OF FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 17th day of September A. D. 1946.

Notice is hereby given that a joint declaration and application has been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by Texas Power & Light Company ("Texas Power"), an electric utility company, and Texas Public Utilities Corporation ("Texas Public"), a non-utility company, both subsidiaries of American Power & Light Company ("American"), a registered holding company subsidiary of Electric Bond and Share Company, also a registered holding company.

Notice is further given that any interested person may not later than September 27, 1946 at 5:30 p. m., e. d. t., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request and the nature of his interest, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter, such declaration as filed or as amended may be permitted to become effective pursuant to Rule U-23 of the rules and regulations promulgated pursuant to said act. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said document which is on file in the office of this Commission, for a statement of the transactions therein proposed which are summarized as follows:

Texas Public proposes to contribute to Texas Power approximately 85 miles of rural distribution lines located in Parker County outside of the corporate limits of the City of Weatherford, Texas. The property consists principally of a 7.2 kv, single phase, rural distribution system. In addition to the properties above described, Texas Power proposes to acquire from Texas Public a small tract of land at Clarksville, Texas, on which is located a sub-station and engine room of Texas Power. In the declaration it is stated that the estimated depreciated original cost of such property is approximately $126,109. In the application-declaration it is stated that Texas Public has been pursuing a program of divestment of its water and electric properties in order that its sole remaining assets may be ice properties.

Texas Power proposes to contribute to Texas Public the tracts of land, and the buildings thereon, which it owns at Clarksville, Crockett and Mineral Wells, Texas, upon which ice properties of Texas Public are located. The applicants-declarants state that the estimated depreciated original cost of the property proposed to be conveyed by Texas Power to Texas Public is approximately $28,104.

Texas Public is a wholly-owned subsidiary of American. All of the common stock of Texas Power is owned by Texas Utilities Company, which is, in turn, a wholly-owned subsidiary of American. The net capital contribution of approximately $98,005 to Texas Power by Texas Public has been specifically consented to by American.

The companies have designated sections 9 (a) (1) and 12 (f) of the act and Rules U-43 and U-45 thereunder as applicable to the proposed transactions.

By the Commission.

FIRST YORK CORP. ET AL.

NOTICE OF APPLICATION, STATEMENT OF ISSUES AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 18th day of September A. D. 1946.

In the matter of First York Corporation, Commercial Controls Corporation and International Business Machines Corporation. File No. 812-448.

Notice is hereby given that First York Corporation ("York"), Commercial Controls Corporation ("Commercial"), and International Business Machines Corporation ("IBM"), have filed an application pursuant to section 17 (b) of the Investment Company Act of 1940 ("Act") for an order exempting from the provisions of section 17 (a) of said act a proposed transaction in which IBM is to sell to Commercial all of the outstanding stock of Justowriter Corporation ("Justowriter"), consisting of 21,192 shares of $2 cumulative preferred stock, at $50 per share, and 10,000 shares of common stock, at 10¢ per share, for an aggregate consideration of $1,060,000. Commercial proposes to pay for the Justowriter stock by issuing 11,465 shares of its preferred stock, having a voluntary and involuntary liquidating preference of $50 per share, to IBM and to pay the balance of the purchase price, amounting to $487,350, in cash. York, a registered investment company, controls Commercial. York and IBM are affiliated persons of Commercial and are affiliated persons of an affiliated person of each other within the meaning of the provisions of the act. All interested persons are referred to said application which is on file in the offices of this Commission for a more detailed statement of the proposed transaction.

It appearing to the Commission that a hearing upon the application is necessary and appropriate:

It is ordered, Pursuant to section 40 (a) of said act, that a public hearing on the aforesaid application be held on the 27th day of September, 1946, at 10:00 a. m. eastern daylight saving time, in Room 318 of the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

It is further ordered, That William W. Swift, Esquire, or any officer or officers of the Commission designated by it for that purpose shall preside at the hearing and any officer or officers so designated to preside at any such hearing is hereby authorized to exercise all of the powers granted to the Commission under sections 41 and 42 (b) of the Investment Company Act of 1940 and to trial examiners under the Commission's Rules of Practice.

The staff of the Corporation Finance Division of the Commission upon a preliminary examination of the application deems the following issues, to which attention will be directed at such hearing, to be raised thereby:

(1) Whether the terms of the proposed transaction, including the consideration to be paid and received, are reasonable and fair and do not involve overreaching on the part of any person concerned;

(2) Whether the proposed transaction is consistent with the policy of York as recited in its registration statement and reports filed under the act; and

(3) Whether the proposed transaction is consistent with the general purposes of the act.

The applicants have informed the Corporation Finance Division of the Commission of their intention to appear at the hearing for the purpose of introducing further evidence in support of the application.

Notice of such hearing is hereby given to the above named applicants, First York Corporation, Commercial Controls Corporation, and International Business Machines Corporation, and to any other person or persons whose participation in such proceedings may be in the public interest or for the protection of investors. Any person desiring to be heard or otherwise wishing to participate in said proceeding should file with the Secretary of the Commission, on or before September 25, 1946, his application therefor as provided by Rule XVII of the Rules of Practice of the Commission, setting forth therein any of the above issues of law or fact which he desires to controvert and any additional issues he deems raised by the aforesaid application.

By the Commission.

AUBURN WATER CO. AND ALABAMA POWER CO.

NOTICE REGARDING FILING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 18th day of September A. D. 1946.

Notice is hereby given that a declaration has been filed with this Commission pursuant to the Public Utility Holding Company Act of 1935 by Auburn Water Company ("Auburn") and Alabama Power Company ("Alabama"). Auburn is a subsidiary of Alabama which in turn is a subsidiary of The Commonwealth & Southern Corporation, a registered holding company. Declarants designate sections 12 (c) and 12 (f) of the act and rules U-43 and U-46 of the rules promulgated thereunder as applicable to the proposed transactions.

Notice is further given that any interested person may, not later than September 26, 1946, at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law raised by said declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. At any time thereafter such declaration, as filed or as amended, may become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transaction as provided in Rules U-20 (a) and U-100 thereof. Any such request should be addressed: Secretary, Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania.

All interested persons are referred to said declaration which is on file in the Office of this Commission, for a statement of the transactions therein proposed, which are summarized below:

Auburn, on July 1, 1946, sold all of its properties, consisting of a water works system in Auburn, Alabama, to the City of Auburn for a cash consideration of $303,239.39. It now proposes to liquidate and dissolve. All of its assets, estimated at $339,051.67, will be distributed, subject to estimated liabilities of $3,291.25, to Alabama, the holder of all of its outstanding capital stock which consists of 10 shares of common stock without par value. These assets, at August 31, 1946, were composed of $7,758.60 of cash and U. S. Government Securities (⅞ percent Treasury Certificates due April 1, 1947) which at cost plus accrued interest had a value of $331,293.07. Alabama will surrender to Auburn for cancellation and retirement all of the latter's capital stock.

The declarants request that the Commission's order be issued herein on or before September 27, 1946 and become effective forthwith so that Auburn may dissolve prior to October 1, 1946 and thereby avoid liability for taxes of approximately $6000 for the ensuing year.

By the Commission.

PUBLIC SERVICE CORP. OF NEW JERSEY AND PUBLIC SERVICE COORDINATED TRANSPORT

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 17th day of September 1946.

Public Service Coordinated Transport ("Transport"), a subsidiary company of Public Service Corporation of New Jersey ("Public Service"), a registered holding company, and Public Service, in turn, a subsidiary of The United Corporation, also a registered holding company, having filed a declaration pursuant to the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder, regarding the proposed sale by Public Service of $500,000 principal amount of 4% Series, First and Refunding Mortgage Bonds, due 1990, of Transport to the Trustee under the mortgage for these bonds for a cash consideration of $500,000 plus accrued interest to the date of delivery, the cash to be used by the Trustee for the purchase of the bonds having been deposited with the Trustee by Transport on April 1, 1946, pursuant to the terms of the indenture securing the bonds, as and for a fund for the retirement of Transport's outstanding bonds; Public Service, pursuant to the Plan of Reorganization of Transport dated November 2, 1939, having withheld tender of any bonds until the lapse of five months after the receipt of purchase fund money by the Trustee, and no tenders having been received from the public although the Trustee caused to be published notice requesting tenders; and

Said declaration having been filed on the 16th day of August, 1946, and notice of said filing having been duly given in the manner and form prescribed by Rule U-23 under said act, and the Commission not having received a request for a hearing with respect to said declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and

The Commission finding that the requirements of sections 12 (c) and 12 (f) and Rules U-42 and U-43 are satisfied and that no adverse findings are necessary thereunder and deeming it appropriate in the public interest and in the interest of investors and consumers to permit said declaration to become effective.

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24, that the said declaration be, and the same hereby is, permitted to become effective forthwith.

[MPR 592, Amdt. 68 to Order 1]

SPECIFIED CONSTRUCTION MATERIALS AND REFRACTORIES

ADJUSTMENT OF MAXIMUM PRICES

An opinion accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Order 1 under MPR 592 is amended in the following respects:

1. Section 7.10a (e) is amended to read as follows:

(e) (1) Any reseller, (including resellers whose maximum prices were established by Area Pricing Orders on March 31, 1946) purchasing calcined gypsum plaster "Bag Goods" for resale in the same form from any manufacturer who has adjusted his maximum prices in accordance wth (a), (b), (c) or (d) above may increase his March 31, 1946 maximum prices by an amount not exceeding the percentage increase in cost to him resulting from the increase in maximum prices permitted manufacturers pursuant to (a), (b), (c), and (d) above.

(2) If after September 24, 1946, maximum prices in effect on September 24, 1946, are changed by an Area Pricing Order issued under G. O. 68 or by an amendment to such an order, the maximum prices established by the Area Order shall supersede maximum prices established under (1) above.

2. The notification clause in section 7.10a (f) is amended to read as follows:

Effective August 30, 1946, the OPA has permitted us an additional increase of $—— per ton over and above previous increases permitted us on November 16, 1945 for calcined gypsum "Bag Goods" commonly sold in 80# and 100# sizes, including the several sizes of barrels containing 150# or more per barrel. On your resales of this commodity in the same form, you may increase your maximum prices in effect on March 31, 1946, by an amount not exceeding the actual percentage increase in cost to you resulting from the August 30, 1946 increase in our price to you.

This amendment shall become effective September 24, 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 68 TO ORDER 1 UNDER SECTION 25 OF MAXIMUM PRICE REGULATION NO. 592

The accompanying amendment revises the resellers' pass-through provision of Section 7.10a of Order 1 under Section 25 of MPR 592 which was incorporated into that Order by Amendment 61 to Order 1, effective August 30, 1946. Amendment 61 permitted certain increases in the manufacturers' maximum prices for several types of gypsum plaster "bag goods". Resellers (including resellers whose maximum prices are established by area pricing orders) purchasing any of these commodities for resale in the same form from manufacturers at the adjusted prices were permitted to increase their maximum resale prices by $0.80 per ton when selling in the area served by the Jacksonville-Savannah plants and $1.75 per ton when selling in the area served by plants located in the states of Connecticut, Pennsylvania, New Jersey, Maryland and that part of New York east of the Hudson River. These resellers' adjustments were designed to permit resellers to realize their average March 31, 1946 percentage markups.

The Price Administrator has determined, after further investigation of resellers' mark-ups in the areas involved, that the pass-throughs permitted resellers by Amendment 61 to Order 1 were not accurately computed. It has been found that due to the freight equalization system customarily employed by manufacturers, the continuation of which is required under MPR 592, not all resellers will incur the same cost increase resulting from the increase granted the manufacturers. Thus, resellers in the mid-Atlantic area may actually have their acquisition costs for the several types of gypsum plaster "bag goods" increased by amounts ranging from 10 cents per ton to the full $1.20 per ton permitted the manufacturer. Amendment 61, however, permitted all resellers in the mid-Atlantic area to increase their maximum resale prices by $1.75 per ton regardless of the actual amount by which their acquisition cost had been increased. Such a pass-through was clearly not within the intent of Amendment 61, and was contrary to the Administrator's policy in such cases. The accompanying amendment therefore revises the resellers' pass-through provision of Amendment 61 so that resellers may add to their maximum prices in effect on March 31, 1946 the actual percentage increase in cost resulting to them from the increase permitted the manufacturer. Thus resellers will continue to realize the same percentage margins as were in effect on March 31, 1946.

After due considerations of the foregoing the Price Administrator finds that this action is appropriate under the circumstances and consistent with the provisions of the Emergency Price Control Act of 1942, as amended.

PACKARD MOTOR CAR CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to sections 8 and 9b of Maximum Price Regulation 594; *It is ordered:*

Order 23 under Maximum Price Regulation 594 is amended in the following respects:

1. The schedule in paragraph (a) (2) (i) is amended to read as follows:

	Amount
Automobile:	
Packard Six	$60
Packard Eight	65
Packard DeLuxe Eight	67
Packard Super Eight	84
Packard Custom Super Eight	120
Packard Six Taxicabs	25

2. The schedule in paragraph (a) (3) (i) is amended by adding the following items and applicable amounts:

Description	Excise tax on equipment installed	Wholesale price installed by— Zone	Dealer
Taxicab equipment, motor governor	$0.77	$11.04	$14.36
Special lettering on roof lamps	3.27	50.00	70.00

This amendment shall be effective September 24, 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING AMENDMENT 5 TO ORDER 23 UNDER MAXIMUM PRICE REGULATION 594

The amendment which this opinion accompanies increases the amount of the wholesale rebate which the Packard Motor Car Company is required to give to zone distributors for each automobile sold by the zone to a qualified dealer. The increase is $7.00 in the case of the Packard six and $8.00 for all other models excepting the Taxicab. For the Taxicab, the wholesale rebate remains unchanged.

This action is taken at the request of the Packard Motor Car Company in view of the expansion and development program about to be undertaken by zones. The net result is to reduce slightly the net price received by the Company for its sales. Prices to consumers are not affected by this action.

This amendment also establishes maximum prices for two additional items of optional equipment, a motor governor for taxicabs, and special lettering for roof lamps. The basis upon which prices were authorized for other items of extra or optional equipment in Order 23 and amendments thereto applies equally to the items of extra or optional equipment covered by this amendment.

NATIONAL SUGAR REFINING CO.

AUTHORIZATION OF MAXIMUM PRICES

Order No. 18 under section 2 (a) (1) (i) (b) of Maximum Price Regulation 60. Direct consumption sugar. National sugar refining company. Docket No. 6034:4—MPR 60—2 (a) (2)-4.

For the reasons set forth in an opinion issued simultaneously herewith, it is ordered:

(a) *Maximum prices governing sales by primary distributors of certain new grades and packages of direct consumption sugar.* (1) The National Sugar Refining Company and other primary distributors of direct consumption sugar are hereby authorized to add a differential of 40 cents per 100 lbs. net to the maximum basis price in order to determine their maximum price for fine granulated sugar packed 25 lbs. net in multiwall, asphalt lined paper bags, 11" x 25" x 3" gusset.

(b) This order may be revoked or amended by the Price Administrator at any time.

(c) This order shall become effective September 24, 1946.

NOTE: This action has the prior written approval of the Secretary of Agriculture (10 F. R. 8419, 9419, 10961, 12305.)

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 18 UNDER SECTION 2 (A) (1) (I) (B) OF MAXIMUM PRICE REGULATION 60

The National Sugar Refining Company, 129 Front Street, New York, New York, a primary distributor of sugar, hereinafter called applicant, has filed an application with this office pursuant to the provisions of Section 2 (a) (1) (i) (b) of Maximum Price Regulation 60 requesting the establishment of a price differential of 40 cents per 100 lbs. net by which it may determine its maximum price for fine granulated sugar sold in new packages consisting of multiwall, asphalt lined, open mouth paper bags, 25 lbs. net. Applicant alleges that it has never sold this item before and, to its knowledge, no other primary distributor has established a price differential for an item identical in grade, net weight, and packaging material.

Applicant has submitted December 1941 and current production and selling cost differences between the most nearly like grade and package (granulated sugar packed in 25 lb. paper bags) and the basis bag (granulated 100 lb. cotton bag) per 100 lbs. He has also submitted current production and selling cost differences between the new package and the basis bag.

On the basis of the submitted figures, the Price Administrator is establishing a differential of 40 cents per hundred pounds net over the maximum basis price, which is proportionately in line with previously existing differentials. Since other primary distributors may wish to establish price differentials for identical items, the accompanying order establishes the same price differential for them.

Therefore, in accordance with the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250, 9328, 9599, 9651 and 9697, the Price Administrator is issuing the accompanying order which authorizes applicant and other primary distributors of direct consumption sugar to establish their maximum price for the aforesaid grade and package by the addition of the aforesaid differential to the maximum basis price.

GLOBE AMERICAN CORP.

APPROVAL OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 11 of Maximum Price Regulation No. 64, *It is ordered:*

(a) This order establishes ceiling prices for sales at retail of the Model 5131-GA and Model M-5131-GA gas ranges manufactured by the Globe American Corporation, Kokomo, Indiana. For sales in each zone by retail dealers to ultimate consumers, the ceiling prices, including the Federal excise tax but not including any state or local taxes imposed at the point of sale, are those set forth below:

Model	Ceiling prices for sales to ultimate consumers Zone 1	Zone 2	Zone 3	Zone 4
M-5131-GA	$249.75	$252.25	$255.25	$258.25
5131-GA	226.50	229.00	232.00	235.00

These prices include delivery and installation. If the retail dealer does not provide installation, he shall compute his maximum price by deducting $6.00 from the maximum price shown above for his sales on an installed basis. In all other respects these prices are subject to each seller's customary terms, discounts, allowances (other than trade-in allowances) and other price differentials in effect on sales of similar articles.

(b) The manufacturer shall, before delivering any range covered by this order, after the effective date thereof, attach securely to the inside oven door panel a label which plainly states the applicable OPA retail maximum prices established by this order for sales of the range to ultimate consumers in each zone together with a list of the states included in each zone. The label shall also state that the retail prices shown thereon include the Federal excise tax, delivery and installation, and that if the seller does not provide installation, the maximum price is $6.00 less than the price shown on the label.

(c) For purposes of this order Zones 1, 2, 3, and 4 comprise the following states:

Zone 1: Indiana.

Zone 2: New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Pennsylvania, Maryland, West Virginia, Delaware, Virginia, Ohio, Kentucky, Tennessee, North Carolina, South Carolina, Mississippi, Alabama, Georgia, Michigan, Wisconsin, Illinois, Minnesota, Iowa, Missouri and the District of Columbia.

Zone 3: Maine, Florida, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Arkansas, Louisiana and Texas.

Zone 4: Montana, Idaho, Wyoming, Utah, Colorado, Arizona, New Mexico, Nevada, Washington, Oregon and California.

(d) The ceiling prices established by this order supersede those established for the same ranges by Order 309 under Maximum Price Regulation No. 64.

All the provisions of Maximum Price Regulation No. 64 continue to apply to sales of articles covered by this order, except to the extent that they are modified by this order. The ceiling prices established by this order have been determined in accordance with section 11b of Maximum Price Regulation No. 64 and may not, therefore, be increased under that section.

(e) This order may be revoked or amended by the Price Administrator at any time.

(f) This order shall become effective on the 24th day of September 1946.

Issued this 23d day of September 1946.

OPINION ACCOMPANYING ORDER NO. 318 UNDER MAXIMUM PRICE REGULATION NO. 64

Section 11b (c) of Maximum Price Regulation No. 64 required manufacturers of stoves subject to preticketing by the manufacturer having retail ceiling prices fixed prior to August 19, 1946, to recompute those ceiling prices so as to insure the return to retailers of a percentage markup over their current invoice cost equal to the average percentage markup which they received on sales of the same or similar stoves on March 31, 1946. To achieve this result the manufacturer was required to determine a markup factor for each stove applicable to his current ceiling price to distributors or, if he did not sell to distributors, to his largest buying class of purchaser by dividing his March 31, 1946 ceiling price to that class by his March 31, 1946 retail ceiling price for his most comparable stove in Zone 1.

The Globe American Corporation, Kokomo, Indiana, hereinafter referred to as the applicant, has established under Maximum Price Regulation No. 64 both its ceiling prices and the resale ceiling prices of the two models of gas ranges it is manufacturing. The resale ceiling prices so established were not fixed until June 29, 1946 and later. Hence the applicant had no models in his line on March 31, 1946 which he could use to determine a markup factor to be applied to his current ceiling prices for sales to his largest buying class of purchaser to enable him to recompute the retail ceiling prices of his ranges in accordance with section 11b (c) of Maximum Price Regulation No. 64. It is, therefore, necessary to issue an order establishing new retail ceiling prices for each stove now in his line under section 11 of Maximum Price Regulation No. 64 which provides that orders may be is-

sued establishing retail ceiling prices whenever a manufacturer's ceiling prices have been determined under the regulation.

The retail ceiling prices established by the accompanying order were determined by dividing the retail ceiling price in Zone 1 which would have been established under Maximum Price Regulation No. 64 for the same stove on March 31, 1946 by the applicant's ceiling price to his largest buying class of purchaser as it would have been set under the same regulation on the same date, and applying the resulting markup factor to the applicant's current ceiling price under Maximum Price Regulation No. 64 to the same class of purchaser. The resulting retail ceiling prices return to retailers a percentage markup equal to the average percentage markup they would have received on March 31, 1946 in connection with sales of the same stove. The retail ceiling prices established are, therefore, in accordance with the requirements of section 2 (t) of the Emergency Price Control Act of 1942, as amended and in line with the level of ceiling prices fixed under Maximum Price Regulation No. 64.

In order to avoid confusion the accompanying order specifies that the retail ceiling prices it establishes supersede those previously set for sales of the same ranges under Maximum Price Regulation No. 64 or Order 309 issued thereunder. It also requires compliance with the notification, pretiketing, terms-of-sale and other general provisions of Maximum Price Regulation No. 64.

OPINION ACCOMPANYING AMENDMENT NO. 7 TO ORDER NO. 1716 UNDER MAXIMUM PRICE REGULATION NO. 120

Certain of the producers named in Order No. 1716 under Maximum Price Regulation No. 120 have been included within the provisions of Order No. 1734 under Maximum Price Regulation No. 120. In view of such inclusion, the said Order No. 1716 is being amended for the purpose of deleting therefrom the enumerated producers.

The corrections which are also included within the accompanying Amendment have been made necessary as a result of inadvertence. These corrections shall become effective as of August 21, 1946, the date when the said Order No. 1716 became effective.

OPINION ACCOMPANYING ORDER 1746 UNDER MAXIMUM PRICE REGULATION 120

The order which this opinion accompanies establishes maximum prices and price classifications and assigns mine index numbers to mines in District No. 3 which had not been classified and numbered by the former Bituminous Coal Division. This is done in accordance with § 1340.210 (a) (6) of the regulation which provides for this action.

Under this section, a producer is required to file an application for maximum prices and classifications based upon those of the nearest mine in the same or substantially similar seams. Generally the producer requests the prices and classifications he deems proper.

This application was then submitted to the industry advisory committee for District No. 3. The prices and classifications established are those recommended by the committee and those requested by the applicants, if a request was made, and are fair and equitable.

LASBY BROS.

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to sections 9, 10 and 11 (c) of Revised Maximum Price Regulation 136, *It is Ordered:*

(a) Lasby Brothers, 709 Cottage Avenue, Colton, California, may sell, f. o. b. plant, each Lasby Brothers trailer described in subparagraph (1) below at a price not to exceed $143.60, plus federal excise tax, state and local taxes on the sale or delivery of the trailer and any cost of transporting it to the purchaser.

(1) *Description.* General purpose, two wheel utility trailer, body dimensions 4' wide x 7' long, all steel welded frame, equipped with 6.00 x 16—4-ply tires and other detailed specifications included in the report filed with this office.

(b) Lasby Brothers is authorized to suggest to resellers a resale price for the trailer described in paragraph (a) (1) consisting of the following:

(1) *Suggested resale list price.* $179.50.

(2) *Charges.* (i) A charge for transportation, if any, not to exceed the actual rail charge from the factory at Colton, California to the railroad freight receiving station nearest to the place of business of the reseller.

(ii) A charge equal to the charge made by Lasby Brothers to cover federal excise taxes.

(iii) A charge equal to reseller's expenses for payment of state and local taxes on the purchase, sale or delivery of the trailer.

(c) A reseller of Lasby Brothers in any of the territories or possessions of the United States is authorized to sell the trailer described in paragraph (a) at a price not to exceed the price established in paragraph (b) to which it may add a sum equal to the expense incurred or charged to it for payment of territorial and insular taxes, or the purchase, sale or introduction of the trailer; export premiums; boxing and crating for export purposes; marine and war risk insurance; and landing, wharfage and terminal operations.

(d) All requests not granted herein are denied.

(e) This order may be amended or revoked by the Administrator at any time.

NOTE: Where the manufacturer's invoice charge to the reseller is increased or decreased from the previous invoice charge because the manufacturer has a newly established price under Section 8 of Revised Maximum Price Regulation 136, due to substantial changes in design, specification or equipment of the trailer, the reseller may add to its price under paragraph (b) the increase in price, plus its customary markup on such as cost increase, but in case of a decrease in the price, the reseller must reduce its price under paragraph (b) by the amount of the decrease and its customary markup on such an amount.

This order shall became effective September 24, 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER 678 UNDER REVISED MAXIMUM PRICE REGULATION 136

A report of manufacturer's proposed list price was filed by Lasby Brothers on August 5, 1946 requesting authority to establish a maximum price and suggested

resale price for a two-wheel general purpose utility trailer.

In the order which this opinion accompanies, a price is approved for the sale of this trailer by Lasby Brothers, Colton, California, the manufacturer. This approval is in accordance with sections 9 and 10 of Revised Maximum Price Regulation 136.

Revised Maximum Price Regulation 136 established as maximum prices for resellers, the manufacturer's suggested resale prices in effect on March 31, 1942, where the reseller had no list or established price in effect on that date. Moreover, when, on the base date, the reseller did not have a published list or established price, or the manufacturer did not have suggested resale prices, the Office of Price Administration may approve manufacturer's suggested resale prices which must be used by resellers in determining maximum prices. These resale prices must be in line with the level of prices permitted by this Regulation.

In the present instance, resellers did not have any list or established prices in effect on the base date. Neither did the manufacturer have any suggested resale prices in effect on that date, although it was customary for manufacturers of comparable vehicles to have suggested resale prices. In accordance with section 11 (c), therefore, the Administrator approves, in the order which this opinion accompanies, a manufacturer's suggested resale price. This resale price is in line with the level of prices permitted by the regulation.

The reseller shall determine his maximum price in accordance with section 11 (c) by using the manufacturer's suggested resale price approved in this order.

UNITED STATES RUBBER CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 7 of Revised Maximum Price Regulation 143, *It is ordered:*

(a) The maximum retail prices for the following wheelbarrow casings and tubes manufactured by the United States Rubber Company, Gillette Tire Division, New York, New York, shall be:

Size	Ply	Maximum retail tire price, each	Maximum retail tube price, each
4.00-8	2	$4.72	$1.65
4.00-8	4	5.43	1.65

(b) The maximum wholesale prices for sales of the tubes described in paragraph (a) above, when sold by the Gillette Division of the United States Rubber Company, New York, New York, shall be determined by applying the appropriate discounts determined under section 3 (b) (2) of RMPR 143 to the maximum retail prices of the tubes as established under paragraph (a) above.

The maximum wholesale prices for sales of the casings described in paragraph (a) above, when sold by the Gillette Division of the United States Rubber Company, New York, New York, shall be determined by applying the appropriate discounts determined under section 3 (b) (2) of RMPR 143 to the discount base for such tire listed below and adding to the price so computed the amount of the wholesale increase specified for such tire below:

Size	Ply	Discount base	Wholesale increase
4.00-8	2	$4.60	$0.29
4.00-8	4	5.30	.34

(c) All provisions of Revised Maximum Price Regulation 528 not inconsistent with this order shall apply to retail sales of commodities covered by this order. All provisions of RMPR 143 not inconsistent with this order shall apply to wholesale sales of commodities covered by this order.

(d) This order may be amended or revoked by the Office of Price Administration at any time.

This order shall become effective September 24, 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 44 UNDER REVISED MAXIMUM PRICE REGULATION 143

The United States Rubber Company, Gillette Tire Division, New York, New York, has applied for approval of maximum retail prices on two sizes of wheelbarrow tires and tubes. Since these items are not listed in Appendix III to Revised Maximum Price Regulation 143 for the purpose of determination of wholesale prices when sold by the manufacturer or brand owner, it is necessary to establish such wholesale prices by authorization under section 7 of that regulation. In connection with the establishment of a wholesale price, a maximum retail price may also be established under the provisions of that section since these tires and tubes are not priced at retail under the provisions of Revised Maximum Price Regulation 528 nor were they listed in any price list of the manufacturer as of February 1, 1944. This order, therefore, also establishes maximum retail prices for sales of these tires and tubes by any person.

The maximum prices fixed by this order bear the normal relationship to the maximum prices fixed by the regulation for other sizes of this type of tires and tubes and such maximum prices are consistent with the level of maximum prices otherwise fixed by RMPR 143 for wholesale sales and RMPR 528 for retail sales.

OPINION ACCOMPANYING ORDER NO. 45 UNDER REVISED MAXIMUM PRICE REGULATION 143

The Goodyear Tire & Rubber Company, Inc., Akron, Ohio, has applied for approval of maximum retail prices for a number of sizes of Stop Start truck tires in both cotton and rayon construction. Since these items are not listed in Appendix III to Revised Maximum Price Regulation 143 for the purpose of determination of wholesale prices when sold by the manufacturer or brand owner, it it necessary to establish such wholesale prices by authorization under section 7 of that regulation. In connection with the establishment of a wholesale price, a maximum retail price may also be established under the provisions of that section since these tires and tubes are not priced at retail under the provisions of Revised Maximum Price Regulation 528 nor were they listed in any price list of the manufacturer as of February 1, 1944. This order, therefore, also establishes maximum retail prices for sales of these tires by any person.

The maximum prices fixed by this order bear the normal relationship to the maximum prices fixed by the regulations for other sizes of this type of tires and such maximum prices are consistent with the level of maximum prices otherwise fixed by RMPR 143 for wholesale sales and RMPR 528 for retail sales.

HART-CARTER CO.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.158 of Maximum Price Regulation No. 188, *It is ordered,* That Order No. 5091 under Maximum Price Regulation No. 188, be amended in the following respects:

1. Paragraph (a) (1) is amended to read as follows:

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

FOR SALES OF 2.5 HORSE POWER 4 CYCLE OUTBOARD MOTOR

Maximum Selling Prices for Sporting Model

By any seller to Wholesalers (Stocking Jobbers), $6,180 each.

By manufacturer to Dealers (Retailers), $74.59 each.

By Wholesalers (Stocking Jobbers) to Dealers (Retailers) located in:
Zone 1, $74.59 plus $1.56 freight.
Zone 2, $74.59 plus $1.91 freight.
Zone 3, $74.59 plus $1.26 freight.
Zone 4, $74.59 plus $1.91 freight.
Zone 5, $74.59 plus $2.16 freight.
Zone 6, $74.59 plus $1.16 freight.
Zone 7, $74.59 plus $1.66 freight.
Zone 8, $74.59 plus $1.91 freight.
Zone 9, $74.59 plus $3.26 freight.

By any seller to Consumers located in:
Zone 1, $106.55 plus $2.50 freight.
Zone 2, $106.55 plus $3.25 freight.
Zone 3, $106.55 plus $2.00 freight.
Zone 4, $106.55 plus $2.75 freight.
Zone 5, $106.55 plus $3.25 freight.
Zone 6, $106.55 plus $1.75 freight.
Zone 7, $106.55 plus $2.75 freight.
Zone 8, $106.55 plus $3.25 freight.
Zone 9, $106.55 plus $4.75 freight.

2. Paragraph (a) (2) is amended to read as follows:

(2) Maximum prices to consumers are net delivered prices. Maximum prices on sales by the manufacturer to wholesalers are f. o. b. factory and are net; and on sales by the manufacturer to dealers are f. o. b. factory and subject to a cash discount of 2 percent for payment in 10, net 30 days. Maximum prices on sales by wholesalers to dealers are f. o. b. wholesalers' warehouse or city and are subject to a cash discount of 2 percent for payment within 10 days, net 30 days, but the cash discount is not to be applied to freight charges.

This amendment may be revoked or amended by the Price Administrator at any time.

This amendment shall become effective on the 24th day of September 1946.

Issued this 23d day of September 1946.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 5091 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

Order No. 5091 under § 1499.158 of Maximum Price Regulation No. 188 established maximum prices for certain sales of a Sporting Model 2.5 Horse Power Outboard Motor manufactured by the Lauson Division of Hart-Carter Company, 1610 Michigan Street, New Holstein, Wisconsin.

Applicant now requests the establishment of a maximum price for sales by it of the said motor to a new class of purchasers, namely retailers, which was not included in the original order. The application has been considered under the provisions of § 1499.158 of Maximum Price Regulation No. 188.

Applicant's prices were established originally under § 1499.158 of Maximum Price Regulation No. 188 because its application showed that it could not use any of the other pricing methods of Maximum Price Regulation No. 188 as it had not previously manufactured an article the maximum price of which could be used as a basis for pricing the new articles contained in the application. Maximum prices were set in accordance with the Regulation in line with the level of maximum prices established by the Regulation, and were arrived at by comparing the new articles as to specifications, construction and design with comparable articles for which maximum prices have been properly established under the Regulation. The prices established by Order No. 5091 are in line with the maximum prices for sales of those comparable articles to the specified classes of purchasers by competitive sellers and are, therefore, in line with the level of maximum prices established by the Regulation.

The maximum prices established by this amendment for sales to retailers reflect the differentials from properly established maximum prices to other classes of purchasers customarily in effect on sales to this class of purchaser. The prices established by this amendment for sales to retailers are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Paragraph (a) (4) of Order No. 5091 provides that "If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales and no sales or deliveries may be made until maximum prices have been established by the Office of Price Administration."

The only other change made by this amendment is that the maximum prices for sales by wholesalers to dealers and by any seller to consumers are listed separately from freight charges. This has been done at the request of the manufacturer who wishes to sell on the basis of list prices less discounts, and also so that any adjustment which the manufacturer may be eligible for will be on the maximum prices exclusive of freight charges. Since these charges have previously been included in the maximum prices, this change is a change in form only, and will not substantially affect the said prices.

SONATA ELECTRONIC CORP.

APPROVAL OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to Section 1499.158 of Maximum Price Regulation No. 188, *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by Sonata Electronic Corp., 624 South Michigan Avenue, Chicago, Illinois.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Model No.	Brand name	Description	Ceiling price to—: Distributor	Dealer	Customer
HW 101	Sonata	Acoustic portable phone, hand wound motor, manual leatherette covered wood cabinet 13" x 17" x 6".	$8.22	$10.28	$17.95

Ceiling price to the consumer includes the Federal excise tax. Terms are 2%, 10 days, net 30 days, f. o. b. factory.

These maximum prices are for the articles described in the manufacturer's application dated August 1, 1946.

(2) For sales by the manufacturer, the maximum prices apply to all sales and deliveries since Maximum Price Regulation No. 188 became applicable to those sales and deliveries.

(3) For sales by persons other than the manufacturer, the maximum prices apply to all sales and deliveries after the effective date of this order. Those prices are subject to each seller's customary terms and conditions of sale on sales of similar articles.

(4) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement:

OPA Retail Ceiling Price—$17.95
Do not detach

(c) At the time of, or prior to, the first invoice to each purchaser for resale, the seller shall notify the purchaser in writing of the maximum prices and conditions established by this order for sales by the purchaser. This notice may be given in any convenient form.

(d) This order may be revoked or amended by the Price Administrator at any time.

(e) This order shall become effective on the 24th day of September 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,

OPINION ACCOMPANYING ORDER NO. 5193 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

The applicant, Sonata Electronic Corporation, Chicago, Illinois, applied for price approval for its new model Sonata acoustic portable hand wound phonograph on August 1, 1946.

Since the applicant has not previously manufactured an article the maximum price of which may be used as a basis for pricing the articles described in the application under one of the first three pricing methods of Maximum Price Regulation No. 188, it has been necessary to consider the application under the Fourth Pricing Method, § 1499.158, which requires that prices be set in line with the level of maximum prices established by Maximum Price Regulation No. 188.

The specifications, construction and design of the applicant's product have been compared with those of comparable competitive articles for which maximum prices have been properly established under the Regulation. The prices established by this order are in line with the maximum prices of those comparable articles for sales to the same classes of purchasers and are, therefore, in line with the level of maximum prices established by Maximum Price Regulation No. 188.

Highly inflationary tendencies have developed as a result of a great shortage in the supply of these articles. The Administrator has, therefore, deemed it advisable to establish maximum resale prices. These prices are in line with the general levels of maximum resale prices for similar merchandise, allowing the sellers markups normally enjoyed in the industry for their types of distributive operations.

UNITY LEATHER AND TEXTILE CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 10 of Maximum Price Regulation 478, it is ordered:

(a) *What this order does.* This order establishes the maximum prices for sales in rolls of imitation leather produced by Unity Leather and Textile Company, 114 South Street, Boston 11, Massachusetts, to manufacturers.

(b) *Maximum prices.* The maximum prices for all sales and resales of the following sizes of imitation leather in rolls to manufacturers, produced by Unity Leather and Textile Company, 114 South Street, Boston 11, Massachusetts, shall be:

Maximum Prices for Sales to Manufacturers

Commodity	Per linear yard
Fabricated Leather, 48" leather fiber and pulp base, finished to simulate leather, 5 spread coats of pyroxylin coating, 4 oz. dry weight per linear yard, embossed:	
1 iron (or 1 oz.)	$0.808
1½ iron (or 1½ oz.)	1.118
2 iron (or 2 oz.)	1.429

(c) *Terms.* All prices shall be subject to all discounts, allowances, and trade practices of the seller in effect during March 1942.

(d) *Relation to MPR 478.* All provisions of Maximum Price Regulation 478 not inconsistent with this order shall apply to commodities sold under this order.

(e) *Notification.* With or prior to the first delivery of any of the commodities priced by this order to any reseller, the seller shall furnish such reseller a written notice setting forth the maximum prices for sales to manufacturers as set forth in paragraph (b).

(f) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 24, 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 205 UNDER MAXIMUM PRICE REGULATION 478

The Unity Leather and Textile Company, 114 South Street, Boston 11, Massachusetts, applied on July 31, 1946, for maximum prices for sales of imitation leather in rolls. It appears that the company purchases the base material composed of leather fiber and pulp base and has it coated to produce imitation leather. It further appears that this company is unable to use section 9a of Maximum Price Regulation 478 as that section applies only to sales by converters who sell to cutters, supply jobbers, and retailers. The maximum prices for sales by a converter to any other class of purchaser must be established under section 10 of Maximum Price Regulation 478.

Unity Leather and Textile Company, a converter, proposes to sell this commodity to manufacturers and to wholesalers who will resell to manufacturers. During March 1942, and for several years prior thereto, converters of coated fabrics generally sold direct to manufacturers. It is not the usual practice for a converter to sell to a wholesaler who resells to manufacturers. In the few instances of such resalers to manufacturers, the converter's sales price to such wholesalers was lower than his sales price to the manufacturer, permitting resale by the wholesaler to the manufacturer at the same prices at which the converter would have sold directly to the manufacturer. This order, therefore, establishes maximum prices for sales by all sellers of this commodity which are the same as the maximum prices for sales directly to manufacturers by the Unity Leather and Textile Company.

It is desirable that the applicant be required to notify the wholesaler to whom he sells of the maximum prices which apply to sales to manufacturers. This is the most practical way of informing the wholesalers of the price at which he must sell. If such notice is not given, many wholesalers may price these coated fabrics under section 9 of the regulation, which may result in different and higher maximum prices for sales of the same commodity.

The maximum prices proposed by the applicant have been compared with the maximum prices established by other converters under Maximum Price Regulation 478. The Administrator finds that the proposed maximum prices are consistent with the level of maximum prices generally established by the regulation.

In the judgment of the Price Administrator, the maximum prices established by this order are consistent with the level of maximum prices otherwise established by Maximum Price Regulation 478, are fair and equitable and effectuate the purpose of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9326.

(h) Each seller covered by this order, except on sales to a consumer shall notify each of his purchasers, in writing, at or before the issuance of the first invoice after the effective date of this order, of the maximum prices established by this order for each such seller as well as the maximum prices established for purchasers except dealers upon resale.

(i) Harley Machine Division of Electric Household Utilities Corporation shall stencil or tag in a conspicuous place on each item covered by this order, substantially the following:

OPA Maximum Retail Price Uninstalled
$------

(j) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 24, 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 826 UNDER SECTION 9 OF MAXIMUM PRICE REGULATION 591

The accompanying Order No. 826 under section 9 of Maximum Price Regulation No. 591 establishes maximum prices for sales at all levels of distribution for combination steel undersink cabinet, dishwasher and clotheswasher.

These particular commodities were only recently introduced into the market by the manufacturer. Maximum prices for the items could not be established under sections 7 or 8 of Maximum Price Regulation No. 591, because this company had never manufactured comparable commodities. Consequently, maximum prices must be approved pursuant to the provisions of section 9 of Maximum Price Regulation No. 591.

In its application the company submitted its proposed prices for the commodities covered by this order. An analysis of the information submitted indicated that the prices requested are in line with the prices of competitive manufacturers for comparable commodities and, therefore, are in line with the level of prices established under Maximum Price Regulation No. 591.

In order to avoid any confusion on the part of resellers as to their maximum prices and for the purposes of protecting consumers, the accompanying order establishes dollars and cents prices for all levels of distribution. Maximum prices established for resellers reflect the usual margins of such resellers on sales of comparable products.

The commodities manufactured by this company will be distributed by many resellers who may or may not have access to copies of the accompanying order. Therefore, in order to avoid confusion on the part of resellers who do not have access to this order, the order provides that the manufacturer shall notify each of its purchasers of its maximum prices as well as purchasers' maximum resale prices.

All provisions of the accompanying order and their effect upon business practices, or cost practices or methods or means or aids to distribution in the industry or industries affected, have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices, or methods or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

The Price Administrator has determined, on the basis of the foregoing that the maximum prices established by the order are generally fair and equitable, and are in conformity with the Emergency Price Control Act of 1942, as amended, and Executive Orders of the President.

SUPERIOR BRICK CO.

AUTHORIZATION OF MAXIMUM PRICES

Order No. 149 under section 16 of Maximum Price Regulation No. 592. Specified construction materials and refractories, the Superior Brick Company, Docket No. 6122-592.16-335.

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to section 16 of Maximum Price Regulation No. 592, *It is ordered:*

(a) The maximum net prices for sales by the Superior Brick Company, Washington, Pennsylvania, of brick and structural clay tile to its various classes of purchasers may be increased by an amount not in excess of $2.00 per M. for standard size brick equivalents or by an amount not in excess of $0.80 per ton for structural hollow tile.

(b) If the Superior Brick Company, Washington, Pa., had an established differential in price during the month of March 1942 for nonstandard sizes of brick it may convert the adjustment granted herein for standard size brick on the basis of the conversion factors or formulae in use by it during March 1942 in establishing price differentials between standard size brick and the other sizes.

(c) Any person purchasing any of the products covered by this Order produced by the Superior Brick Company, Washington, Pennsylvania, for the purpose of resale in the same form may increase his presently established prices under the General Maximum Price Regulation by adding the percentage increase in cost resulting to him from the increase permitted the manufacturer in (a) above. Notwithstanding the provisions of this paragraph, in any area where specific maximum prices are fixed by an area pricing order such specific maximum prices shall apply in that area.

(d) All requests of the application not granted herein are denied.

(e) This order may be amended or revoked by the Office of Price Administration at any time.

This order shall become effective September 24, 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 149 UNDER SECTION 16 OF MAXIMUM PRICE REGULATION 592

The Superior Brick Company, Washington, Pennsylvania, has applied for an adjustment in its maximum selling prices for brick and structural clay tile which it produces. This application is based upon increased labor costs resulting from putting into effect certain wage and salary increases approved in accordance with Executive Order No. 9697. This application has been processed under Section 16 of Maximum Price Regulation 592.

The facts in this case indicate that the applicant has met the eligibility requirements set forth under Section 16 of Maximum Price Regulation 592. The latter section provides for various adjustments depending upon the applicant's current over-all profitability. The Administrator, in the interest of expedient action based upon wage price applications, has completed studies of this industry generally, and is, in the instance of this and other similar applications, applying to individual applications determinations which generally accord with the tests set forth in Section 16, and which are in conformance with Office policy. The adjustments granted in the accompanying Order will compensate the applicant only for that portion of the approved wage or salary increase which it appears the applicant cannot absorb out of the adjustment permitted the clay brick and tile industry under section 2.1 (k) of Order No. 1 under Maximum Price Regulation 592, issued September 18, 1945. Should the applicant have factors other than those considered in this action which warrant further adjustment of maximum prices, he may apply for adjustment based on such other factors.

Resellers (except in areas where specific maximum prices are established by area orders) are permitted to increase their existing maximum prices by the percentage increase in cost to them resulting from the increase granted the manufacturer. Thus, these resellers will continue to realize the same percentage margin. The accompanying order, does not, however, permit resellers to increase their maximum prices where such prices are established by dollars-and-cents area pricing orders. In the latter case, appropriate adjustments of such orders will be made where necessary.

OWENSBORO CLAY PRODUCTS CO.

AUTHORIZATION OF MAXIMUM PRICES

Order No. 150 under section 16 of Maximum Price Regulation No. 592. Specified construction materials and refractories. The Owensboro Clay Products Company. Docket No. 6122-592.16-426.

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to Section 16 of Maximum Price Regulation No. 592, *It is ordered:*

(a) The maximum net prices for sales by the Owensboro Clay Products Company, Owensboro, Ky., of brick and structural clay tile to its various classes of purchasers may be increased by an amount not in excess of $2.25 per M for standard size brick equivalents or by an amount not in excess of $0.90 per ton for structural hollow tile.

(b) If the Owensboro Clay Products Company, Owensboro, Ky., had an established differential in price during the month of March 1942 for non-standard sizes of brick it may convert the adjustment granted herein for standard size brick on the basis of the conversion factors or formulae in use by it during March 1942 in establishing price differentials between standard size brick and the other sizes.

(c) Any person purchasing any of the products covered by this Order produced by the Owensboro Clay Products Company, Owensboro, Kentucky, for the purpose of resale in the same form may increase his presently established prices under the General Maximum Price Regulation by adding the percentage increase in cost resulting from the increase permitted the manufacturer in (a) above. Notwithstanding the provisions of this paragraph, in any area where specific maximum prices are fixed by an area pricing order such specific maximum prices shall apply in that area.

(d) All requests of the application not granted herein are denied.

(e) This order may be amended or revoked by the Office of Price Administration at any time.

OPINION ACCOMPANYING ORDER NO. 151 UNDER SECTION 16 OF MAXIMUM PRICE REGULATION 592

The Kasten Brothers Brick Company, Jackson, Missouri has applied for an adjustment in its maximum selling prices for brick and structural tile which it produces. This application is based upon increased labor costs resulting from putting into effect certain wage and salary increases approved in accordance with Executive Order No. 9697. This application has been processed under section 16 of Maximum Price Regulation 592.

The facts in this case indicate that the applicant has met the eligibility requirements set forth under section 16 of Maximum Price Regulation 592. The latter section provides for various adjustments depending upon the applicant's current over-all profitability. The Administrator, in the interest of expedient action based upon wage price applications, has completed studies of this industry generally, and is, in the instance of this and other similar applications, applying to individual applications determinations which generally accord with the tests set forth in section 16, and which are in conformance with Office policy. The adjustment granted in the accompanying Order will compensate the applicant only for that portion of the approved wage or salary increase which it appears the applicant cannot absorb out of the adjustment permitted the clay brick and tile industry under section 2.1 (k) of Order No. 1 under Maximum Price Regulation 592, issued September 18, 1945. Should the applicant have factors other than those considered in this action which warrant further adjustment of maximum prices, he may apply for adjustment based on such other factors.

Resellers (except in areas where specific maximum prices are established by area orders) are permitted to increase their existing maximum prices by the percentage increase in cost to them resulting from the increase granted the manufacturer. Thus, these resellers will continue to realize the same percentage margin. The accompanying Order, does not, however, permit resellers to increase their maximum prices where such prices are established by dollars-and-cents area pricing orders. In the latter case, appropriate adjustments of such orders will be made where necessary.

CONTINENTAL CLAY PRODUCTS CO.

AUTHORIZATION OF MAXIMUM PRICES

Order No. 152 Under Section 16 of Maximum Price Regulation No. 592. Specified construction materials and refractories. Continental Clay Products Company. Docket No. 6122-592.16-422.

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to section 16 of Maximum Price Regulation No. 592, *It is ordered:*

(a) The maximum net prices for sales by the Continental Clay Products Company of brick and structural clay tile produced at its Martinsburg, West Virginia, plant to its various classes of purchasers may be increased by an amount not in excess of $2.00 per M for standard size brick equivalent or by an amount not in excess of $0.80 per ton for structural hollow tile.

(b) If the Continental Clay Products Company had an established differential in price during the month of March 1942 for non-standard sizes of brick it may convert the adjustment granted herein for standard size brick on the basis of the conversion factors or formulae in use by it during March 1942 in establishing price differentials between standard size brick and the other sizes.

(c) Any person purchasing any of the products covered by this order produced by the Continental Clay Products Co., at its Martinsburg, W. Virginia, plant for the purpose of resale in the same form may increase his presently established prices under the General Maximum Price Regulation by adding the percentage increase in cost resulting from the increase permitted the manufacturer in (a) above. Notwithstanding the provisions of this paragraph, in any area where specific maximum prices are fixed by an area pricing order such specific maximum prices shall apply in that area.

(d) All requests of the application not granted herein are denied.

(e) This order may be amended or revoked by the Office of Price Administration at any time.

This order shall become effective September 24, 1946.

Issued this 23d day of September 1946.

MARTIN STEEL PRODUCTS CORP.

AUTHORIZATION OF MAXIMUM PRICES

Amendment No. 1 to Order No. 212 under Revised Supplementary Order No. 119, Docket No. 6123-119-194, Martin Steel Products Corporation, Mansfield, Ohio.

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to Revised Supplementary Order No. 119, *It is ordered*:

That Order No. 212 under Revised Supplementary Order No. 119 be amended as follows:

1. Paragraph (a) (1) is amended to read as follows:

(a) (1) The above manufacturer shall determine his maximum prices for his line of prefabricated metal farm buildings by increasing by 25 percent his prices on these items in effect on October 1, 1941 to each class of purchaser.

2. Paragraph (b) is amended to read as follows:

(b) *"Resellers" maximum prices.* All resellers of the commodities covered by this order may add to their presently established maximum prices the percentage increase in cost to them resulting from the increase granted the manufacturer by this order.

3. Paragraph (c) is amended to read as follows:

(c) *Notification to all purchasers.* The manufacturer shall send the following notice to every purchaser of the commodities covered by this order at or before the time of the first invoice after the adjustment granted by this amendment is put into effect:

Order No. 212 is amended by Amendment No. 1 to authorize a 25 percent increase in October 1, 1941 net price for sales of prefabricated metal farm buildings manufactured by this company.

Resellers, (but not manufacturers who purchase these items for use in the manufacture of other products) may add to their existing maximum prices the percentage increase in cost to them resulting from the increase granted the manufacturer by Order No. 212, as amended.

This amendment shall become effective September 24, 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 212 UNDER REVISED SUPPLEMENTARY ORDER NO. 119

Order No. 212 authorizes the Martin Steel Products Corporation of Mansfield, Ohio, to compute maximum prices for its line of prefabricated metal farm buildings by adding 19.5 percent to its October 1, 1941 prices to each class of purchaser.

The accompanying Amendment to Order No. 212 authorizes the computation of maximum prices for these products by adding 25 percent to the company's October 1, 1941 prices.

The company submitted additional data, accompanied by Wage Stabilization authorization, showing that a general wage increase has been granted since the issuance of Order No. 212.

Accordingly, Order No. 212 is amended to take this increased wage cost into account, the resulting price increase being 25 percent over October 1, 1941 prices of these products.

Resellers are permitted to increase their existing maximum prices by the percentage increase in cost to them resulting from the increase granted the manufacturer. Thus resellers will continue to realize the same percentage margin over acquisition cost that they realized previous to the issuance of the accompanying Order.

Controls over the maximum prices of some of these products may have been, or may be suspended in the future by Supplementary Order No. 129. In that event, the provisions of this order, as amended, with respect to those items are also suspended during the period of price control suspension, subject to reinstatement if the former price controls are restored.

After due consideration of the foregoing, the Price Administrator finds that this action is consistent with the Emergency Price Control Act of 1942, as amended and the Executive Orders of the President.

(f) The maximum net delivered prices, excluding federal excise taxes, for sales to distributors in less than carload quantities by any person of the water heaters covered by this order shall be the published price list covering groups (d) and (e) above plus 3 percent.

(g) The maximum prices for sales of the commodities covered by this order on an installed basis shall be determined in accordance with the provisions of Revised Maximum Price Regulation No. 251.

(h) The General Electric Company of Bridgeport, Connecticut and the Edison General Electric Appliance Company, Inc. of Chicago, Illinois are authorized to increase by 14.8 percent their maximum selling prices on accessories of and repair parts for the water heaters listed above over the October 1, 1941 prices in effect to each class of purchaser.

(i) Resellers of the accessories and repair parts referred to in (h) above (but not manufacturers who purchase such item for use in the manufacture of other products) may add to their presently established maximum prices the percentage increase in cost to them resulting from the increase granted the General Electric Company and the Edison General Electric Appliance Company, Inc. by this order.

(j) Each seller, except on sales to consumers, shall notify in writing each of his purchasers at or before the time of the first invoice after the effective date of this order of the maximum prices established by this order for sales to such purchasers, as well as the purchaser's, except dealers, maximum prices upon resale.

(k) The Edison General Electric Appliance Company, Inc. and the General Electric Company shall attach to each of the electric water heaters covered by this order a tag containing the following:

(l) The model number of the electric water heater. The Office of Price Administration retail maximum price including federal excise tax. A statement that the maximum price shown includes the federal excise tax actually paid, delivery and one year warranty.

(m) This order as revised supersedes Order No. 148 and 326 under Section 13 of Maximum Price Regulation No. 591 in their entirety.

(n) This order as revised may be revoked or amended by the Price Administrator at any time.

This revised order shall become effective September 24, 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING REVISED ORDER NO. 299 UNDER REVISED SUPPLEMENTARY ORDER NO. 119.

Order No. 299 under Revised Supplementary Order No. 199, effective July 29, 1946, itemized a series of maximum prices to distributors, dealers and retailers for specified water heaters manufactured by the Edison General Electric Appliance Company, Inc. of Chicago, Illinois and distributed by the Edison General Electric Appliance Company and the General Electric Company of Bridgeport, Connecticut.

On request of the applicant Order No. 299 was effected embodying the dollars-and-cents pass through, rather than a percentage pass through, in the interest of expeditious action since the itemized prices involved a lengthy calculation. It was decided that a revision of the order would be made at a convenient date in the future.

Accordingly, the accompanying revision of Order No. 299 makes this change and itemizes a series of maximum prices

with resellers prices based on the percentage increase in acquisition cost to them resulting from the 14.8 percent adjustment granted the manufacturer. Thus, resellers will realize the same percentage margin over acquisition cost that they realized previous to the issuance of Order No. 299.

The manufacturer requested that accessories and repair parts be authorized the same percentage increase over October 1, 1941 prices that is authorized for the water heaters. These items were included in the data on which the adjustment was calculated, but were not specified in Order No. 299. Therefore, accessories and repair parts for the heaters specified in this order are incorporated into the order by this revision.

After due consideration of the foregoing, the Price Administrator finds that this action is consistent with the Emergency Price Control Act of 1942, as amended, and the Executive Orders of the President.

PHOENIX TRIMMING CO.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 309 under Revised Supplementary Order No. 119 is redesignated Revised Order No. 309 under Revised Supplementary Order No. 119, and is revised and amended to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to sections 15 and 16 of Revised Supplementary Order No. 119, it is ordered:

(a) *Manufacturer's ceiling prices.* Phoenix Trimming Company, 2000 North Racine Avenue, Chicago 14, Illinois, may compute its adjusted ceiling prices for all articles of cotton rugs which it manufactures, as follows:

(1) For an article in its line during October 1941, the adjusted ceiling price is the highest price charged during that month to each class of purchaser increased by no more than 30.6 percent.

(2) For an article not in its line during October 1941, but which has a properly established ceiling price, the adjusted ceiling price is the article's properly established ceiling price for the particular sale (exclusive of all permitted increases or adjustment charges) increased by the percentage determined in accordance with "Note 3" in section 8 of Revised Supplementary Order No. 119.

(3) The manufacturer's adjusted ceiling price fixed in accordance with this order is his new ceiling price if it is higher than his previously established ceiling price including all increases and adjustments otherwise authorized for him individually or for his industry.

(b) Except as modified by this order, all sales and deliveries of the articles covered by this order shall be subject to the provisions of Order No. 5169 under Maximum Price Regulation No. 188.

(c) This revised order may be revoked or amended by the Price Administrator at any time.

This revised order shall become effective on the 24th day of September 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING REVISED ORDER NO. 309 UNDER REVISED SUPPLEMENTARY ORDER NO. 119

The accompanying order revises Order No. 309 under Revised Supplementary Order No. 119 which was issued to Phoenix Trimming Company, 2000 North Racine Avenue, Chicago 14, Illinois. It grants to the said company an increase of 30.6 percent over its October 1941 prices for sales by it of cotton rugs which it manufactures, instead of 25 per cent as Order No. 309 provided for.

The reasons for the issuance of this order are the same as those contained in the opinion accompanying the issuance of Order No. 309 under Revised Supplementary Order No. 119 and the reasons contained in that opinion are incorporated herein by reference. An examination of the application upon which Order No. 309 was based reveals that following the methods and procedures contained in Revised Supplementary Order No. 119, the amount of the increase that should originally have been granted to applicant is 30.6 percent instead of 25 percent, and this revised order accordingly substitutes the latter for the former.

The order is revised instead of amended because since the issuance of the original order, Order No. 5169 under Maximum Price Regulation No. 188 has been issued. That order provides a method for the establishment of maximum prices by resellers of the articles covered by this order. The revised order, therefore, eliminates the provisions of the original order relating to resellers, and states that all sales of the articles covered by this order are subject to the provisions of Order No. 5169, except as that order is modified herein.

DURO METAL PRODUCTS CO.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 56 under Supplementary Order No. 133 is redesignated Revised Order No. 56, and is hereby revised and amended to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to Supplementary Order No. 148, it is ordered:

(a) *Manufacturer's maximum prices.* The Duro Metal Products Company, 2649-59 North Kildare Avenue, Chicago, Illinois, may increase by no more than 15.8 per cent its current maximum prices (exclusive of any permitted increase or adjustment) for sales of hand tools which it manufactures.

(b) *Maximum prices of purchasers for resale*—(1) *Wholesalers' maximum prices.* A purchaser for resale at wholesale of any of the articles covered by this order shall determine his maximum resale prices for such articles in accordance with the provisions of Order No. 5105 under Maximum Price Regulation No. 188.

(2) *Retailers' maximum prices.* A purchaser for resale at retail of any of the articles covered by this order shall determine his maximum resale prices for such articles in accordance with the provisions of Maximum Price Regulation No. 614.

(c) The provisions of Supplementary Order No. 153 shall not apply to any of the articles covered by this order.

This revised order may be revoked or amended by the Price Administrator at any time.

This revised order shall become effective on the 24th day of September 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING REVISED ORDER NO. 56 UNDER SUPPLEMENTARY ORDER NO. 133

The accompanying order revises Order No. 56 under Supplementary Order No. 133 which authorized an increase of no more than 8.3 per cent of its then current maximum prices for sales by Duro Metal Products Company, 2649-59 North Kildare Avenue, Chicago, Illinois, of certain hand tools which it manufactures. It authorizes an increase of no more than 15.8 per cent in current maximum prices (exclusive of any permitted increase or adjustment).

The reasons for the issuance of this order are the same as those contained in the opinion accompanying Order No. 56, and are, therefore, incorporated herein by reference. A further increase is necessary, and is being granted by this revised order because the manufacturer has experienced cost increases since the issuance of Order No. 56, which results in its still being in a loss position.

The order is revised instead of simply being amended by the substitution of one percentage figure for the other because since the issuance of Order No. 56, Order No. 5105 under Maximum Price Regulation No. 188 has been issued covering resales by purchasers for resale at wholesale and Maximum Price Regulation No. 614 has been issued covering resales by purchasers for resale at retail. The revised order, therefore, provides that purchasers for resale shall follow the provisions of the applicable one of the above, instead of the provisions concerning them in Order No. 56.

Since neither Order No. 5105, nor Maximum Price Regulation No. 614 require any absorption at distributive levels of the increase granted manufacturers that was not required at such levels on March 31, 1946, and since this revised order provides that sellers at these levels are governed by the applicable order or regulation, this revised order is in conformity with section 2 (t) of The Emergency Price Control Act of 1942, as amended, which provides: "In establishing maximum prices applicable to wholesale or retail distribution, the Administrator shall allow the average current cost of acquisition of any commodity, plus such average percentage discount or markup as was in effect on March 31, 1946."

CONSTRUCTION AND ROAD MAINTENANCE MACHINERY AND EQUIPMENT

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, *It is ordered:*

Order No. 676 under Revised Maximum Price Regulation 136 is amended in the following respects:

1. Delete subdivision (2) of paragraph (d) and substitute therefor the following:

(2) If the manufacturer's base prices were approved by the OPA as "in-line" prices under section 9 (c) of Revised Maximum Price Regulation 136 subsequent to April 10, 1946, and prior to September 17, 1946, the maximum prices shall be the prices so approved, increased by 3.2%.

2. Delete subdivision (3) of paragraph (d) and substitute therefor the following:

(3) If the manufacturer's base prices were approved by the Office of Price Administration as "in-line" prices under section 9 (c) of Revised Maximum Price Regulation 136 subsequent to September 28, 1945 and prior to April 10, 1946, the maximum prices shall be the prices so approved, increased by 8.1%.

This amended order shall become effective September 23, 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING AMENDMENT 1 TO ORDER 676 UNDER REVISED MAXIMUM PRICE REGULATION 136

Order No. 676 under Revised Maximum Price Regulation 136, issued and effective September 17, 1946, authorized a 13.5% increase over base date sales prices for construction and road maintenance machinery and equipment. Since there were two previous increases for construction and road maintenance machinery and equipment, it was necessary to make separate provisions in the order authorizing lesser increases for products which were priced on an "in-line" basis at any time after the date of the first increase. The aim was, of course, to put all manufacturers at the same level insofar as increases are concerned. Subdivision (3) of paragraph (d) authorized manufacturers whose prices were "in-lined" after September 28, 1945, (the effective date of Amendment 13 to Revised Maximum Price Regulation 136 authorizing the initial increase of 5%) and prior to April 10, 1946 (the effective date of Amendment 33 to Revised Maximum Price Regulation 136 authorizing the second increase of 5%) an increase of 8.5% over their "in-lined" prices. This figure is in error and is properly changed to 8.1%. Subdivision (2) of paragraph (d) authorized manufacturers whose prices were "in-lined" after April 10, 1946, and prior to September 17, 1945 (the effective date of Order No. 676) an increase of 3.5% over their "in-lined" prices. This figure is also in error and is properly changed to 3.2%. The substituted figures will accord to producers whose products have been priced on an "in-line" basis the same resultant increases as producers whose products have been priced on some other basis.

CLOCKS AND WATCHES

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 14 of Order No. 14 under § 1499.159e of Maximum Price Regulation No. 188. *It is ordered:*

(a) This order covers all sales by purchasers for resale of automobile clocks unless such clocks are sold as part of the original equipment in connection with the sale of automobiles. "Automobile clocks" for the purpose of this order means all clocks designed for use on or with, motor vehicles.

(b) Purchasers for resale of automobile clocks shall determine their maximum prices for resales of automobile clocks in accordance with the methods and procedures set forth in Maximum Price Regulation No. 452 or Maximum Price Regulation No. 453, whichever is applicable, for resellers of new automotive equipment.

(c) To the prices so determined, resellers of automobile clocks may add 17 percent in the case of spring-wound clocks; and 15 percent in the case of electric clocks.

This order shall become effective on the 28th day of September 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANY ORDER NO. 6 UNDER SECTION 14 OF ORDER NO. 14 UNDER SECTION 1499.159E OF MAXIMUM PRICE REGULATION NO. 188

The accompanying order provides that purchasers for resale of automobile clocks shall determine their maximum prices for resales of such clocks in the same manner as is provided in Maximum Price Regulations Nos. 452 and 453 for resellers of automotive equipment. This order does not apply to automobile clocks when sold as original equipment in connection with the sale of an automobile as such sales are governed by the provisions of Maximum Price Regulation No. 594.

Order No. 14 provides specific markups over manufacturers' prices for sales of household clocks. The markups set forth in Order No. 14 are based on average markups on household clocks, which are sold mostly through retail stores and mail order houses carrying a general line of merchandise, whereas automobile clocks, when used as replacement parts, are sold by automobile manufacturers and automotive equipment dealers. It was therefore considered necessary to make other provision in accordance with the authority of the order for sales of automobile clocks which are traditionally sold through distributive channels that do not handle household clocks.

The accompanying order preserves the historical distributive pattern that pertains to the sales of these clocks, instead of requiring that they be priced in accordance with household clocks.

OPINION ACCOMPANYING ORDER OF REVOCATION OF ORDER NO. 2 UNDER SECTION 16 OF REVISED MAXIMUM PRICE REGULATION NO. 289

Amendment No. 56 to Revised Maximum Price Regulation 289, which is being issued simultaneously with this Order, makes certain adjustments in the ceiling prices of industrial casein (inedible). There is no longer any necessity for an adjustable pricing order in reference to industrial casein and Order No. 2 is, therefore, being revoked.

ESTABLISHMENT OF CEILING PRICES

Maximum Price Regulation 580, amendment 4 to Order 8. Establishing ceiling prices at retail for certain articles. Docket No. 6063-580-13-785.

For the reasons set forth in the opinion issued simultaneously herewith, Order 8 issued under section 13 of Maximum Price Regulation 580 on application of American Girl Shoe Company, 210 Lincoln Street, Boston 11, Massachusetts, is amended in the following respect:

1. Paragraph (a) is amended to increase the uniform retail ceiling price established by the order for women's kid and goat skin shoes. The new cost-retail price line is as follows:

WOMEN'S SHOES

Wholesaler's unadjusted selling price	*Retail ceiling price*
$3.95	$6.75

HUDSON MOTOR CAR CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to section 6 and 9b of Maximum Price Regulation 594, *It is ordered:*

Order 12 under Maximum Price Regulation 594 is amended in the following respects:

1. The narrative preceding subparagraph (1) of paragraph (a) is amended by adding the following: "The 4% discount shall not apply to any automobiles shipped or delivered from the factory prior to August 12, 1946. The 3.5% discount shall apply to 1946 model automobiles shipped or delivered from the factory prior to August 12, 1946."

2. Paragraph (a) (2) (i) is amended by adding the following tire options and applicable prices:

Description	Company net price to distributor	Distributor net price to dealer	List price
4-16 x 6.50 4 ply tires including large hub caps over 4-15 x 6.50 tires models 52 & 54	$2.27	$2.48	$2.94
4-16 x 6.50 6 ply tires including large hub caps over 4-15 x 6.50 tires models 52 & 54	15.12	16.20	21.60

3. Paragraph (c) (2) is amended by adding the following at the end of the schedule:

These base amounts shall not apply to automobiles shipped or delivered from the factory prior to August 12, 1946. The list prices or base amounts (as the case may be) to be used in computing volume discounts and wholesale discounts on such automobiles shipped or delivered from the factory prior to August 12, 1946, shall be the list prices in paragraph (a) or the base amount in paragraph (c) whichever are applicable in Order No. 12 in effect at time of shipment of the automobile from the factory.

This amendment shall be effective September 24, 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING AMENDMENT 8 TO ORDER 12 UNDER MAXIMUM PRICE REGULATION 594

The amendment which the opinion accompanies authorizes maximum prices for two items of extra or optional equipment. These items are 16 x 6.50 4 ply and 6 ply tires instead of 15 x 6.50 4 ply tires. The maximum prices are consistent with the maximum prices authorized for other items of Hudson extra or optional equipment. The amendment also changes the wholesale discount and volume discount provisions by specifying that these provisions in amendment 7 to Order 12 are not retroactive.

[Atlanta Order G-1 Under Gen. Order 68, Amdt. 3]

HARD BUILDING MATERIALS, FULTON, COBB, AND DE KALB COUNTIES, GA., AREA

For the reasons set forth in the accompanying opinion and under the authority vested in the District Director of the Atlanta, Georgia, District Office, Region IV, of the Office of Price Administration, by General Order No. 68, issued by the Administrator of the Office of Price Administration in Region IV, Delegation Order 93, issued November 5, 1945, this amendment is hereby issued.

1. Section 1 is amended to read as follows:

SECTION 1. *What this order covers.* This order covers all "retail sales" by any seller of the commodities specified in Table I when sold to a purchaser whose place of business or receiving point for purpose of delivery is located in Fulton, Cobb, De Kalb, Rockdale, Henry, Clayton, Fayette, and Spalding Counties, Georgia. This order does not apply to sales made to any person who customarily resells more than 10% of his purchases of the commodities specified herein through "retail sales".

2. That sentence in section 7 which now reads in part as follows: "For any sale of $50.00 or more each seller, regardless of previous custom, must keep records showing at least the following * * *" shall be amended by changing the foregoing wording to read: "For any sale of $10.00 or more each seller, regardless of previous custom, must keep records showing at least the following * * *."

3. A new section designated as "Section 9" is added as follows:

"SEC. 9. (a) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum price provides that all resellers, including those subject to area orders issued under General Order No. 68, may increase their prices for the commodities in question.

(b) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. You may do this, however, only if the effective date of the action increasing your supplier's maximum price is later than the date on the price list contained in Table I of this order. Thus, if your supplier's maximum price for a product is increased and at some later date the price listed in this order is increased for this product, the amendment to this order will supersede the increase previously granted you by the amendment or order increasing your supplier's price. For the purposes of this section a provision is being added to Table I stating the date through which such table reflects all increases in your supplier's maximum price.

4. Table I is amended by changing the maximum prices of the items listed below from the prices now appearing in Table I to the prices listed below for such items:

TABLE I

7,000 to 28,000 sq. ft. per thousand sq. ft	51.60
28,000 to 56,000 sq. ft. per thousand sq. ft	49.45
Carload	48.40

5. The following sentence is added at the beginning of Table I: "The maximum prices provided herein reflect all increases in your supplier's maximum prices on any of the listed items through August 24, 1946, and you may not increase the prices listed in this table to reflect any increase in your supplier's maximum price which occurred prior to this date."

This amendment reflects the increases in maximum prices permitted by Supplementary Order No. 172 (Modification of Resellers' Maximum Prices Established Under General Order No. 68, Certain Building and Construction Materials). Accordingly, this amendment supersedes that supplementary order and the maximum prices established by this amendment cannot be increased under that supplementary order.

This amendment shall become effective as of August 24, 1946.

Issued: August 22, 1946.

THOMAS C. DICKSON,
Acting District Director.

OPINION ACCOMPANYING AMENDMENT 3 TO ORDERS G-1 AND G-2, AS AMENDED, UNDER GENERAL ORDER NO. 68

The above described amendments are issued for the following purposes:

(1) To provide that the order applies on sales to any purchaser whose place of business or point of delivery is located within the described territory rather than applying only to sales made by sellers whose places of business are located within the described territory. This change is made in order to obtain a uniformity of prices within the area covered by the order and the change is made after findings were made that the prices charged in the area by outside sellers are the same as or approximately the same as prices charged by sellers located inside the area.

(2) To change the requirements pertaining to the keeping of records so that on sales of $10.00 or more the record keeping provisions apply rather than only on sales of $50.00 or more. This was found necessary so that the records would be kept on smaller sales which in many instances formed parts of larger sales but were made by means of consecutive deliveries.

(3) To change maximum prices in order to reflect increases in suppliers' maximum prices which have occurred since the issuance of the regulation and to provide margins as required under the Price Control Extension Act of 1946.

(4) To insert a provision whereby sellers may automatically increase their maximum prices above the prices provided in the price list contained in the table to compensate for increases in their suppliers' maximum prices which are not reflected in the prices contained in such table. The date on which the table was amended to take care of all previous price increases is inserted in the table by means of this amendment, and it is clearly provided in the amendment that the trade may not set forth in the table because of any increase of maximum prices of suppliers previous to that date. This date will be changed from time to time as the prices therein are changed by appropriate amendment to reflect increases in the suppliers' maximum prices.

(5) To advise the trade that this amendment reflects the increases provided under Supplementary Order No. 172 and, therefore, the resellers may not increase their prices under that supplementary order above the prices provided in this table.

Except for the changes as above noted, necessitated by the enactment of the Price Control Extension Act of 1946, maximum prices provided herein were calculated in the manner described in the opinion accompanying the issuance of these orders.

Meetings were held with members of the industry and of the industry committee affected by this amendment and consideration was given to the advice obtained from the industry in this connection.

For the above reasons, it is the opinion of the Director that this amendment will comply with the applicable requirements of the law and will establish fair and equitable prices and otherwise effectuate the purposes of the applicable laws, regulations, and orders.

[Birmingham Order G-5 Under Gen. Order 68, Amdt. 2]

HARD BUILDING MATERIALS IN DOTHAN, ALA., AREA

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the District Director of the Birmingham District Office, Region IV, of the Office of Price Administration by General Order No. 68 and Regional Delegation Order No. 93, Order G-5 under General Order No. 68 is amended in the following respects:

1. Maximum prices set forth in Table I are amended to read as set forth in the attached revised Table I, which is incorporated into and made a part of the order.

2. This amendment reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of Resellers' Maximum Prices established under General Order 68 for certain Building and Construction Materials). Accordingly, this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

3. A new Section 4-A is added to read as follows:

SEC. 4-A. *Adjustment to reflect increase in supplier's price*—(1) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum price provides that all resellers, including those subject to area orders issued under General Order 68, may increase their maximum prices for the commodity in question.

(2) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. You can only do this, however, if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this order. Thus, if your supplier's maximum price for a product is increased and at some later date the price listed in this order is increased for this product, the amendment to this order will supersede the increase originally granted you by the amendment or order increasing your supplier's maximum price.

This Amendment No. 2 to Order G-5 under General Order 68 shall become effective September 12, 1946.

Issued this the 10th day of September 1946.

SAM J. WATKINS,
District Director.

OPINION ACCOMPANYING AMENDMENT 2 TO ORDER G-5 UNDER GENERAL ORDER 68

The accompanying Amendment No. 2 to Order No. G-5 under General Order No. 68, which establishes area wide prices for retail sales of hard building materials in the Dothan, Alabama Trading Area is issued for the purpose of revising the maximum prices set forth in Table I to reflect recent increases in the retailer's cost of those items and to restore to the retailer profit margins in effect on March 31, 1946 in keeping with the provisions of the Price Control Extension Act of 1946.

The amendment reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of Resellers Maximum Prices Established under General Order 68 for certain Building and Construction Materials). Accordingly, this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

The amendment also adds an additional section, designated Section 4-A, which provides a method of adjustment to reflect increase in supplier's maximum prices in accordance with the conditions set forth in this new section.

[Birmingham Order G-6 Under Gen. Order 68, Amdt. 2]

HARD BUILDING MATERIALS IN GADSDEN, ALA., AREA

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the District Director of the Birmingham District Office, Region IV, of the Office of Price Administration by General Order No. 68 and Regional Delegation Order No. 93, Order G-6 under General Order No. 68 is amended in the following respects:

1. Maximum prices set forth in Table I are amended to read as set forth in the attached Revised Table I, which is incorporated into and made a part of this order.

2. This amendment reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of Resellers' Maximum prices established under General Order 68 for certain Building and Construction Materials). Accordingly, this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

3. A new section 4-A is added to read as follows:

SEC. 4-A. *Adjustment to reflect increase in supplier's price*—(1) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum price provides that all resellers, including those subject to area order issued under General Order 68, may increase their maximum prices for the commodity in question.

(2) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. You can only do this, however, if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this order. Thus, if your supplier's maximum price for a product is increased and at some later date the price listed in this order is increased for this product, the amendment to this order will supersede the increase originally granted you by the amendment or order increasing your supplier's maximum price.

This Amendment No. 2 to Order G-6 under General Order 68 shall become effective September 9, 1946.

Issued this the 5th day of September 1946.

SAM J. WATKINS,
District Director.

OPINION ACCOMPANYING AMENDMENT 2 TO ORDER G-6 UNDER GENERAL ORDER 68

The accompanying Amendment No. 2 to Order No. G-6 under General Order No. 68, which establishes area wide prices for retail sales of hard building materials in the Gadsden, Alabama, Trading Area is issued for the purpose of revising the maximum prices set forth in Table I to reflect recent increases in the retailer's cost of those items and to restore to the retailer profit margins in effect on March 31, 1946 in keeping with the provisions of the Price Control Extension Act of 1946.

The amendment reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of Resellers Maximum Prices Established under General Order 68 for certain Building and Construction Materials). Accordingly, this amendment supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

The amendment also adds an additional section, designated Section 4-A, which provides a method of adjustment to reflect increase in supplier's maximum prices in accordance with the conditions set forth in this new section.

[Miami Rev. Order G-14 Under Gen. Order 68]

HARD BUILDING MATERIALS IN MIAMI, FLA., AREA

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, it is ordered:

SECTION 1. *What this order covers.* This orders covers all retail sales by any seller of commodities specified in this order delivered to a purchaser in Hernando, Pasco, Pinellas, Sarasota and Manatee Counties, Florida.

SEC. 2. *Definition of retail sales.* For the purposes of this order, a retail sale means a sale to an ultimate user, or to a purchaser for resale on an installed basis.

SEC. 3. *Description of items covered by this order.* This order covers the commodities set forth in the annexed price table.

SEC. 4. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order. Except to the extent they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation, or of any other applicable regulation or order shall apply to sales covered by this order. This order reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of Resellers Maximum Prices Established under General Order 68 for certain Building and Construction Materials). Accordingly, this order supersedes that supplementary order, and the maximum prices established by this order cannot be increased under that supplementary order.

SEC. 5. *Maximum prices.* The maximum prices for the building materials covered by this order are set forth in Table 1 which is annexed to and made a part of this order.

SEC. 6. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of the list of maximum prices fixed by this order in each of his places of business in Hernando, Pasco, Pinellas, Sarasota and Manatee Counties in a manner plainly visible to all purchasers.

SEC. 7. *Sales slips and records.* Every seller covered by this order who has customarily given his customers a sales slip or other evidence of purchase must continue to do so. Upon request from a customer, such seller regardless of previous custom, shall give the purchaser a receipt showing the date, name and address of the seller, the description of each item sold and the price received for it. If he customarily prepared his sales slips in more than one copy, he must keep for at least 6 months after delivery a duplicate copy of each slip delivered by him pursuant to this section. Each such seller shall also keep at least such records of each sale as he customarily kept. For any sale of $50.00 or more, each seller, regardless of previous custom must keep records showing at least the following:

1. Name and address of buyer.
2. Date of transaction.
3. Place of delivery.
4. Complete description of each item sold and price charged.

SEC. 8. *Adjustment to reflect increase in suppliers price*—(a) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum price provides that all resellers, including those subject to area orders issued under General Order 68 may increase their maximum prices for the commodity in question.

(b) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your suppliers maximum price. You can only do this, however, if the effective date of the action increasing your suppliers maximum price is later than the date stated on the price list contained in this order. Thus, if your suppliers maximum price for a product is increased and at some later date the price listed in this order is increased for this product, the amendment to this order will supersede the increase originally granted you by the amendment or order increasing your suppliers maximum price.

SEC. 9. *Amendment.* This order may be amended or revoked at any time by the Office of Price Administration.

This order shall become effective August 24, 1946.

Issued this 22d day of August 1946.

BERNARD C. GOODWIN,
District Director.

TABLE 1

READY MIXED CONCRETE

The maximum prices for sales of ready-mixed concrete delivered to a job site within a five mile radius of the seller's plant shall

be as follows:[1] $12.00 per cubic yard of five bag mix.

An additional 15¢ per cubic yard per mile may be charged for deliveries beyond a five mile radius of the seller's plant.

An additional $.64 per bag of cement per cubic yard may be charged for ready mixed concrete containing more than 5 bags of cement per cubic yard and 64¢ per bag of cement per cubic yard must be deducted for ready-mixed concrete containing less than 5 bags of cement per cubic yard.

An additional $1.50 per cubic yard may be charged for sales of less than two cubic yards.

An additional $2.00 per cubic yard may be added for installing the concrete in place with a chute.

An additional $1.00 per cubic yard may be added for concrete treated with a waterproofing additive.

An amount computed at the rate of $4.00 per hour may be added on deliveries requiring a waiting time of more than twenty (20) minutes.

OPINION ACCOMPANYING REVISED ORDERS G–3, G–4, G–5, G–6, G–7, G–8, G–9, G–10, G–11, G–12, G–13, G–14, G–15 AND ORDER G–16

Under General Order No. 68, as amended, the Price Administrator may, and each Regional Administrator of the Office of Price Administration and any District Director who may be authorized by the appropriate Regional Administrator is authorized to issue and put into effect orders establishing maximum prices, applicable to a particular community or defined area, for sales of commodities under the jurisdiction of the Building Materials and Construction Price Branch by all persons to ultimate users or to purchasers for resale on an installed basis.

This authority has been delegated to the Director of the Miami District Office by the Regional Administrator of Region IV, by Regional Delegation Order No. 93, as amended.

Acting pursuant to said General Order 68, as amended, and to Regional Delegation Order No. 93, the District Director of the Miami District Office has heretofore issued orders numbered G–13 through G–15. These orders established ceiling prices for the listed hard building materials and covered most of the area comprising the Miami District.

General Order 68 provides the following standards to be applied to orders issued under that general order: (1) Maximum prices shall be set forth in dollars-and-cents unless this shall clearly appear impractical or inappropriate; and (2) maximum prices thus set forth shall not exceed the general level of prices as fixed by the regulation which would otherwise be applicable.

In accordance with the first of the above described standards, prices established in the above mentioned orders are specific dollars-and-cents prices applicable to sales in various quantities.

In determining the appropriate prices for inclusion in the orders the Director of the Miami District Office surveyed the prices charged by the principal suppliers in the stated areas. Prices charged currently and in March 1942, for each item in each quantity bracket as well as discount terms, delivery practices and other conditions of sale were obtained. The prices obtained were first studied in order to ascertain that amount of differentiation as to types of sellers, types of purchasers and quantity of sales that should be recognized in the orders to prevent substantial hardship and to avoid marked increases and which could be based on definite and recognizable objective characteristics apparent at the time of the sale. The data for each selected grouping was next set forth in an array and where possible a quasi-modal price based on prices weighted on the over-all sales volumes of the sellers studied and was chosen as the ceiling prices for the particular commodity. In those cases where the modal price was not appropriate or where it was impossible of ascertainment a buikline price covering 60–65% of the sales was selected. By the use of these statistical methods it was apparent that in general the prices established did not exceed the level of prices as fixed by the regulation which otherwise would have been applicable nor was any substantial reduction made in the current legal maximum prices of any important group of sellers.

Aside from correcting certain minor errors found in the orders numbered G–3 through G–15, the issuance of the Revised Orders accompanying this opinion is intended to accomplish two objectives. In the first place the minor revisions in the areas covered under the revised orders numbered G–3 through G–15 together with the issuance of Order G–16, complete the coverage of the entire area comprising the Miami District. Thus, dollars-and-cents ceiling prices for the listed hard building materials are now established for the entire area commonly known as South Florida or Peninsular Florida. In the second place the issuance of the accompanying orders is intended to, and apparently does, remove the absorption of certain costs heretofore required of dealers and arising because of increased manufacturer's ceilings subsequent to March 31, 1946. Further, in accordance with the provisions of Section 2 (t) of the Emergency Price Control Act of 1942, as amended, the revised orders now make specific provisions regarding increased costs accruing to the affected sellers.

This action has been discussed with members of the trade at informal meetings with representative dealers and all suggestions and recommendations offered by the trade have been considered and have been incorporated into this order to the extent that these suggestions were consistent with the provisions of General Order No. 68 and the Emergency Price Control Act of 1942, as amended.

All provisions of these orders and their effect upon business practices, cost practices, or methods or means or aids to distribution in the industry have been carefully considered by the District Director of the Miami District Office. No provisions which might have the effect of requiring a change in such practices, methods, means or aids established in the industry have been included in the new regulations unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the regulation or of the Emergency Price Control Act of 1942, as amended. To the extent that provisions of the orders compel or may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry, such provisions have been found necessary to prevent circumvention or evasion of the regulation or act.

HARD BUILDING MATERIALS IN MIAMI, FLA., DISTRICT

An opinion accompanying this amendment has been issued simultaneously herewith. Revised Order No. G–3 under General Order 68 is amended in the following respects:

1. Table 1 of Revised Order G–3 is amended by changing the maximum prices for the items set forth below to read as follows:

Item and quantity	*Price*
Gypsum hard wall plaster, 100-lb. bag	$1.09
Finishing plaster, 100-lb. bag	1.60

2. A new footnote is added at the end of Table 1 of Revised Order G–3 to read as follows:

When standard concrete brick are sold f. o. b. seller's yard deduct $2.00 per thousand.

This amendment shall become effective September 10, 1946.

Issued this 9th day of September 1946.

BERNARD C. GOODWIN,
District Director.

OPINION ACCOMPANYING AMENDMENT 1 TO REVISED ORDERS G–3, G–4, G–5, G–6, G–7, G–8, G–9 AND G–16 UNDER GENERAL ORDER 68

The amendments accompanying this opinion are issued to reflect the increased ceiling prices for Gypsum Hard Wall Plaster and Finishing Plaster permitted under Amendment 61 to Order 1 under MPR 592.

In addition, these amendments correct various typographical errors appearing in the several orders.

This Amendment to Order No. G–3 under General Order No. 68 shall become effective September 5, 1946.

Issued this 11th day of September 1946.

CARSON VAUGHAN,
District Director.

OPINION ACCOMPANYING AMENDMENT 2 TO ORDER G–3 UNDER GENERAL ORDER NO. 68

Pursuant to the authority and provisions set out in General Order No. 68, this amendment to Order G–3 is issued for the "Chattanooga, Tennessee, Trade Area."

In view of the fact that an incorrect quotation had been given for the items listed in the accompanying amendment, in Appendix A to Order No. G–3 under General Order No. 68, it was necessary to issue the accompanying Amendment setting out the correct prices for the items heretofore incorrectly stated.

The prices established in Amendment No. 2 to Order G–3 under General Order No. 68 are generally fair and equitable, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328.

[Miami Rev. Order G–3 Under Gen. Order 68]

HARD BUILDING MATERIALS IN MIAMI, FLA.

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, it is ordered:

SECTION 1. *What this order covers.* This order covers all retail sales by any seller of commodities specified in this order delivered to a purchaser in the counties of Dade and Broward, in the State of Florida.

SEC. 2. *Definition of retail sales.* For the purposes of this order, a retail sale means a sale to an ultimate user, or to a purchaser for resale on an installed basis.

SEC. 3. *Description of items covered by this order.* This order covers the commodities set forth in the annexed price table.

SEC. 4. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order. Except to the extent they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation, or of any other applicable regulation or order shall apply to sales covered by this order. This order reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of Resellers Maximum Prices Established under General Order 68 for certain Building and Construction Materials). Accordingly, this order supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

SEC. 5. *Maximum prices.* The maximum prices for the building materials covered by this order are set forth in Table 1 which is annexed to and made a part of this order.

SEC. 6. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of the list of maximum prices fixed by this order in each of his places of business in Dade and Broward Counties in a manner plainly visible to all purchasers.

SEC. 7. *Sales slips and records.* Every seller covered by this order who has customarily given his customers a sales slip or other evidence of purchase must continue to do so. Upon request from a customer, such seller, regardless of previous custom, shall give the purchaser a receipt showing the date, name and address of the seller, the description of each item sold and the price received for it. If he customarily prepared his sales slips in more than one copy, he must keep for at least 6 months after delivery a duplicate copy of each sale slip delivered by him pursuant to this section. Each such seller shall also keep at least such records of each sale as he customarily kept. For any sale of $50.00 or more, each seller, regardless of previous custom, must keep records showing at least the following:

1. Name and address of buyer.
2. Date of transaction.
3. Place of delivery.
4. Complete description of each item sold and price charged.

SEC. 8. *Adjustment to reflect increase in suppliers price*—(a). *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum price provides that all resellers, including those subject to area orders issued under General Order 68, may increase their maximum prices for the commodity in question.

(b) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. You can only do this, however, if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this order. Thus, if your supplier's maximum price for a product is increased and at some later date the price listed in this order is increased for this product the amendment to this order will supersede the increase originally granted you by the amendment or order increasing your supplier's maximum price.

SEC. 9. *Amendment.* This order may be amended or revoked at any time by the Office of Price Administration.

This order shall become effective August 24, 1946.

Issued this 22d day of August 1946.

BERNARD C. GOODWIN,
District Director.

OPINION ACCOMPANYING REVISED ORDERS G–3, G–4, G–5, G–6, G–7, G–8, G–9, G–10, G–11, G–12, G–13, G–14, G–15, AND ORDER NO. G–16

Under General Order No. 68, as amended, the Price Administrator may, and each Regional Administrator of the Office of Price Administration and any District Director who may be authorized by the appropriate Regional Administrator is authorized to issue and put into effect orders establishing maximum prices, applicable to a particular community or defined area, for sales of commodities under the jurisdiction of the Building Materials and Construction Price Branch by all persons to ultimate users or to purchasers for resale on an installed basis.

This authority has been delegated to the Director of the Miami District Office by the Regional Administrator of Region IV, by Regional Delegation Order No. 93, as amended.

Acting pursuant to said General Order 68, as amended, and to Regional Delegation Order No. 93, the District Director of the Miami District Office has heretofore issued orders numbered G–13 through G–15. These orders established ceiling prices for the listed hard building materials and covered most of the area comprising the Miami District.

General Order 68 provides the following standards to be applied to orders issued under that general order: (1) Maximum prices shall be set forth in dollars-and-cents unless this shall clearly appear impractical or inappropriate; and (2) maximum prices thus set forth shall not exceed the general level of prices as fixed by the regulation which would otherwise be applicable.

In accordance with the first of the above described standards, prices established in the above mentioned orders are specific dollars-and-cents prices applicable to sales in various quantities.

In determining the appropriate prices for inclusion in the orders the Director of the Miami District Office surveyed the prices charged by the principal suppliers in the stated areas. Prices charged currently and in March 1942, for each item in each quantity bracket as well as discount terms, delivery practices and other conditions of sale were obtained. The prices obtained were first studied in order to ascertain that amount of differentiation as to types of sellers, types of purchasers and quantity of sales that should be recognized in the orders to prevent substantial hardship and to avoid marked increases and which could be based on definite and recognizable objective characteristics apparent at the time of the sale. The data for each selected grouping was next set forth in an array and where possible a quasi-modal price based on prices weighted on the over-all sales volumes of the sellers studied and covering 60–65% of the volume of sales was chosen as the ceiling prices for the particular commodity. In those cases where the modal price was not appropriate or where it was impossible of ascertainment a bulk-line price covering 60–65% of the sales was selected. By the use of these statistical methods it was apparent that in general the prices established did not exceed the level of prices as fixed by the regulation which otherwise would have been applicable nor was any substantial reduction made in the current legal maximum prices of any important group of sellers.

Aside from correcting certain minor errors found in the orders numbered G–3 through G–15, the issuance of the revised orders accompanying this opinion is intended to accomplish two objectives. In the first place the minor revisions in the areas covered under the revised orders numbered G–3 through G–15 together with the issuance of Order G–16, complete the coverage of the entire area comprising the Miami District. Thus, dollars-and-cents ceiling prices for the listed hard building materials are now established for the entire area commonly known as South Florida or Peninsular Florida. In the second place the issuance of the accompanying orders is intended to, and apparently does, remove the absorption of certain costs heretofore required of dealers and arising because of increased manufacturer's ceilings subsequent to March 31, 1946. Further, in accordance with the provisions of Section 2 (t) of the Emergency Price Control Act of 1942, as amended, the revised orders now make specific provisions regarding increased costs accruing to the affected sellers.

This action has been discussed with members of the trade at informal meetings with representative dealers and all suggestions and recommendations offered by the trade have been considered and have been incorporated into this order to the extent that these suggestions were consistent with the provisions of General Order No. 68 and the Emergency Price Control Act of 1942, as amended.

All provisions of these orders and their effect upon business practices, cost practices, or methods or means or aids to distribution in the industry have been carefully considered by the District Director of the Miami District Office. No provisions which might have the effect of requiring a change in such practices, methods, means or aids established in the industry have been included in the new regulations unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the regulation or of the Emergency Price Control Act of 1942, as amended. To the extent that provisions of the orders compel or may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry, such provisions have been found necessary to prevent circumvention or evasion of the regulation or act.

[New Orleans 2d Rev. Order 1 Under Gen Order 68]

BUILDING MATERIALS IN ORLEANS, JEFFERSON, AND ST. BERNARD PARISHES, LA.

Revised Order No. 1 under General Order No. 68 is redesignated as Second Revised Order No. 1 under General Order No. 68 and is revised to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order No. 68 and Regional Order of Delegation No. 126, it is hereby ordered:

SECTION I. *What this order does.* This order establishes maximum prices for all retail sales of certain building materials specifically described in Appendix A of this order when such sales are made in Orleans, Jefferson, and St. Bernard Parishes, Louisiana.

SEC. II. *Definition of retail sales.* The term retail sale as used in this order means any sale of the building materials covered by this order to an ultimate user or to a contractor who will resell the same on an installed basis.

SEC. III. *Maximum prices.* Maximum prices for commodities subject to this order are those set forth in Appendix A, which is specifically made a part of this order, subject to the terms and conditions of sale and other limitations set forth therein.

SEC. IV. *The relation of this order to other regulations.* The maximum prices fixed by this order supersede any maximum prices or price determining method previously established by any other regulation or order issued by the Office of Price Administration for the commodities covered by this order.

SEC. V. Each seller making sales subject to this order shall post a copy of Appendix A of this order plainly visible to all purchasers in each of his places of business located in the area covered by this order.

SEC. VI. *Invoices and notification.* Each seller making sales subject to this order shall, if requested by any purchaser of commodities subject hereto, make available to such purchaser for inspection a copy of this order. Each seller covered by this order is required to furnish each purchaser with an invoice at the time of sale, which must contain the following information:

1. Name and address of the purchaser.
2. A description of each commodity sold.
3. The quantity of each commodity sold.
4. The price charged for each commodity sold.
5. The type of sale, whether f. o. b. railroad car, f. o. b. seller's yard or store, delivered to job site in free delivery zone, or delivered outside free delivery zone.
6. If delivery is made outside the seller's free delivery zone, the amount of any delivery charges made stated separately on the invoice.
7. A statement of cash discounts allowed for prompt payment.
8. A separate statement of any amount added for the extension of credit.

SEC. VII. *Adjustment to reflect increase in suppliers price*—(1) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum price provides that all resellers (including those subject to area orders issued under General Order 68) may increase their maximum prices for the commodity in question.

(2) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your suppliers maximum price. You can only do this, however, if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this order. Thus, if your suppliers maximum price for a product is increased, and at some later date, the price listed in this order is increased for this product, the amendment to this order will supersede the increase originally granted you by the amendment or order increasing your suppliers maximum price.

SEC. VIII. *What this order prohibits.* Regardless of any contract or obligation no person shall:

(1) Sell, or in the course of trade or business buy, building materials at higher prices than the maximum prices set by this order; but less than the maximum prices may at any time be charged, paid or offered.

(2) Obtain higher than maximum prices by:

(i) Making a charge for delivery of building material items delivered within the free delivery zone hereinafter defined;

(ii) Making a charge for delivery outside the free delivery zone in excess of that permitted by this order;

(iii) Making a charge higher than this order authorizes for the extension of credit;

(iv) Failure to give the discounts required by this order for prompt payment;

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the building materials requested by him; or

(vi) Using any other device by which a higher than maximum price is obtained directly or indirectly.

SEC. IX. *Enforcement.* (1) Persons violating any provisions of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the New Orleans District Office of the Office of Price Administration.

SEC. X. *Building materials not covered by this order.* There are building materials sold and delivered in the area covered by this order which are not included in, and for which prices are not established in this order. The maximum prices for such building materials, when sold by any person covered by this order, shall continue to be determined under the applicable Maximum Price Regulation. The items, specifications and prices for quantity differentials not specifically priced in this order shall remain subject to the General Maximum Price Regulation (except when such sales are made by manufacturers and are subject to other Maximum Price Regulations). Sellers who are in doubt as to the regulation applicable to such building materials should consult the New Orleans District Office of the Office of Price Administration.

SEC. XI. The discounts, the free delivery zone and the charges for delivery outside the free zone and additions for the extension of credit and sales taxes are specified and defined in Appendix A of this order.

This order may be amended or revoked at any time by the Office of Price Administration.

This order shall become effective August 24, 1946.

[1] See paragraph (b).

The maximum prices hereinabove established are subject to the following:

(b) *Discounts.* A discount of 7% for cash within 10 days, from date of sale, and 5% for cash by the 15th of the following month, proximo, from the date of sale, shall be applied to the listed maximum prices of all the items of building materials priced in the above schedule, except those prices which are preceded by a superior numeral 1. On item Asphalt Roofing, 90 lb., Mineral Surface, the only discount to be applied is 2% for cash within 10 days from date of sale. In addition, all customary discounts and allowances, such as contractors' discounts, and discounts for pickup by the customer, must be continued as required by the Maximum Price Regulations which were controlling for these commodities prior to the issuance of this order.

(c) The free delivery zone applicable to all items in the above schedule shall be defined as including all points within a radius of 10 miles from the place from which delivery is made, and all points within the following boundaries:

On the North, Lake Pontchartrain; on the South, Mississippi River; on the West, the shortest line between Lake Pontchartrain and the Mississippi River which will include the corporate limits of Harahan, Louisiana; on the East, the shortest line between Lake Pontchartrain and the Mississippi River which will include the corporate limits of Chalmette, Louisiana. The above described area is generally known and referred to as the trading area of New Orleans, Louisiana.

(d) *Additions for delivery.* (1) When a delivery is made to a point beyond the 10 mile radius, or the boundaries as shown above, an additional charge for the distance between the limit of the free delivery zone and the job site may be made as follows:

(i) Sellers who were in business during March 1942 are permitted to add to the prices established hereinabove for such delivery the same charges they had in effect during March 1942 for each type and quantity of sale made. If no extra charges were made for such delivery during March 1942, none may be added now.

(ii) Sellers who were not in business during March 1942 are permitted to make the same charge for such delivery as their most closely competitive seller, who was in business during March 1942, is permitted under the provisions of this order.

(2) When a delivery requires a crossing of the Mississippi River, the prices established hereinabove may be increased by 10%.

(3) When a delivery is made at purchaser's request before 7:30 a. m. and after 4:30 p. m. (overtime) on any regular business day, or on holidays and days during which seller's establishment is not usually open for business, following additions for such delivery may be made:

(i) Sellers who were in business during March 1942 are permitted to add to the prices established hereinabove for such delivery the same charges they had in effect during March 1942 for each type and quantity of sale made. If no extra charges were made for such delivery during March 1942, none may be added now.

(ii) Sellers who were not in business during March 1942 are permitted to make the same charge for such delivery as their most closely competitive seller, who was in business during March 1942, is permitted under the provisions of this order.

(e) *Additions for the extension of credit.* The following additions to the maximum prices hereinabove established may be made for the extension of credit beyond 60 days:

(1) Sellers who were in business during March 1942 are permitted to add to prices established hereinabove for the extension of credit beyond a period of 60 days the same additions that they had in effect during March 1942 for the same type and quantity of sale. If no extra charges were made for the extension of credit during March 1942, none may be added.

(2) Sellers who were not in business during March 1942 are permited to make the same charge for the extension of credit which their most closely competitive seller, who was in business during March 1942, is permitted to make under the provisions of this order.

(f) sellers may add to the prices listed in this Appendix A the sales taxes required to be collected by them under the Laws of the State of Louisiana and City of New Orleans. These taxes shall be separately stated in the dealer's invoices, sales slip or receipt.

OPINION ACCOMPANYING SECOND REVISED ORDER NO. 1 UNDER GENERAL ORDER NO. 68

Pursuant to the authority vested in the District Director of the New Orleans District Office by General Order No. 68 and Order of Delegation No. 126 issued by the Regional Administrator, Region V, the accompanying Second Revised Order No. 1 has been issued establishing maximum prices for retail sales of certain specified building materials. The order establishes maximum prices for all retail sales of such building materials when made in the area comprising Orleans, Jefferson and St. Bernard Parishes, Louisiana.

Under the provisions of General Order No. 68 and Delegation of Authority No. 126 from the Regional Administrator of Region V, the District Director is authorized to issue and put into effect pricing orders for the building materials included in said Second Revised Order No. 1, in accordance with the Emergency Price Control Act of 1942 as amended and consistent with Executive Orders 9250 and 9328, and Public Law 548, 79th Cong.

Section B of General Order No. 68 requires that the District Director in issuing such orders observe the following standards:

(1) Maximum prices shall be stated in dollars-and-cents terms unless this shall clearly appear to be impracticable or inappropriate.

(2) Maximum prices fixed by any such pricing order shall not exceed the general level of prices in the area.

In accordance with this authority, the District Director has issued Second Revised Order No. 1 under General Order No. 68.

Prior to the issuance of this order the maximum prices for the sales of building materials covered thereby were established by the provisions of the General Maximum Price Regulation and other maximum price regulations, which did not establish dollars and cents maximum prices but rather established sellers' maximum prices as the highest prices which they charged during March of 1942 or a specified freeze date.

It has been determined that the freeze date technique of establishing maximum prices has in many instances made it difficult for both seller and buyer of building material items covered by Second Revised Order No. 1 to determine whether the prices charged or paid are in compliance with the applicable maximum price regulations.

It is the finding of the District Director that the issuance of Second Revised Order No. 1 is in conformity with the present program of the Office of Price Administration to establish dollars and cents prices on building materials, and that a simplified pricing method easily understood and applied by both the buyer and the seller is urgently needed, and is accomplished by the issuance of Second Revised Order No. 1.

The District Director has observed the above-quoted standards set forth in General Order No. 68 in issuing Second Revised Order No. 1. It sets forth specific dollars and cents prices which may be charged for building material items covered. It further establishes maximum prices which are in line with the level of prices which existed in Orleans, Jefferson and St. Bernard Parishes, Louisiana, under the provisions of maximum price regulations applicable prior to the issuance of this order.

The level of prices as expressed in Second Revised Order No. 1 was determined by a survey conducted by the Office of Price Administration of a representative group of sellers affected by the order. The prices set forth in the order reflect the level of prices reported to the O. P. A. by the sellers who were surveyed.

Preliminary to any action being taken by the New Orleans District Office in establishing maximum prices for building materials and before any surveys were made, an advisory group of sellers, who would be affected by said order, were consulted. From this advisory group advice was obtained as to the commodities which should be included in said order and other pertinent information. After the survey was accomplished and results tabulated, a preliminary draft of the maximum prices proposed was submitted to a representative group of the sellers to be affected by the order. Consideration has been given to the recommendations and suggestions made by the industry groups with whom representatives of the District Office consulted prior to issuance of this order.

Insofar as practicable the order recognizes and perpetuates business practices which have been in effect in the area covered by the order.

In order to effectuate the purposes herein expressed, sellers subject to Second Revised Order No. 1 are required to keep certain records and give to the customers sales slips or invoices containing specified information, which requirements are set forth in section VI of the order.

It is, therefore, the finding of the District Director that Second Revised Order No. 1 has been issued in conformity with provisions and requirements of standards set forth in General Order No. 68, and will effectuate the purposes of the Emergency Price Control Act of 1942 as amended and is consistent with Executive Orders 9250 and 9328, and Public Law 548, 79th Cong.

This order will not compel changes in established business practices except as such as in the judgment of the District Director are necessary to prevent evasion of this order.

For the foregoing reasons, the District Director has issued the accompanying Second Revised Order No. 1.

[Little Rock Order 3 Under Gen. Order 68, Amdt. 1]

BUILDING MATERIALS IN GARLAND COUNTY, ARK.

Pursuant to the Emergency Price Control Act of 1942, as amended, General Order No. 68, and Delegation of Authority Order No. 126, and in accordance with Order No. 3 issued under General Order No. 68 by the Little Rock District Director of the OPA, and for the reasons set forth in the accompanying opinion, this amendment is issued. The statement of considerations involved in the issuance of this Amendment No. 1 to Order No. 3 under General Order No. 68, has been issued simultaneously herewith and filed with the Division of the Federal Register.

It is ordered, That the title and contents of section VII of Order No. 3, under General Order No. 68, is amended to read as follows:

SEC. VII. *Adjustment to reflect increase in supplier's price*—(a) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum prices provides that all resellers, including those subject to area orders, issued under General Order No. 68, may increase their maximum prices for the commodity in question.

(b) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. You can only do this, however, if the effective date of the section increasing your supplier's maximum price is later than the date stated on the price list contained in this order.

It is also ordered, That Appendix A to Order No. 3, under General Order No. 68, is amended in the following respects:

1. The dollars-and-cents prices for specific items of hard building materials contained in Order No. 3, issued under General Order No. 68, are revised to the extent set forth in Appendix A attached hereto and dated August 23, 1946.

2. The original Appendix A to Order No. 3, under General Order No. 68, is hereby by reference dated August 23, 1946.

3. The hard building material items of fire brick, plastic fire brick, fire clay, and items of screen wire cloth, 18'' x 14'', both galvanized and black, originally set forth in Appendix A of Order No. 3, under General Order No. 68, are deleted from said appendix.

This amendment No. 1 shall become effective August 23, 1946.

Issued at Little Rock, Arkansas, this 23d day of August 1946.

ROBERT P. HALL,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 3 UNDER GENERAL ORDER NO. 68

Pursuant to the authority vested in the District Director of the Little Rock District Office by General Order No. 68 and Order of Delegation No. 126, issued by the Regional Administrator of Region V, and in accordance with the provisions of Order No. 3, under General Order No. 68, Amendment No. 1 to the above order has been issued.

Order No. 3, under General Order No. 68, was issued by the Little Rock District Director of the OPA on May 27, 1946, and became effective June 1, 1946. This order established dollars-and-cents ceiling prices for various items of hard building materials set forth in Appendix A thereof when sold at retail in the geographical area comprising Garland County, Arkansas.

Subsequent to March 31, 1946, various industry-wide adjustments have been granted manufacturers of hard building materials; and under the provisions of the Emergency Price Control Act as amended, the retail industry is entitled to its March, 1946 mark-up on those items on which the manufacturer has received adjustments. Therefore, in view of increases granted the producer of hard building materials, it has been necessary, under the provisions of the Emergency Price Control Act of 1942 as amended, to amend and revise the retail price list of hard building material items (as of August 23, 1946) to the extent set forth in the accompanying amendment. Such action by the District Director has been found necessary under the act and will remove all inequities now existing in the original order.

Section VII of order No. 3 provides that retailers subject to the order are required to absorb all price increases granted the producer of hard building materials. However, under the provisions of the Emergency Price Control Act, as amended, the retail industry is entitled to its March, 1946 mark-up on items on which the manufacturer has received price increases. Because of this provision of the act as amended, it has been necessary to amend Order No. 3 to conform to the new provisions of the act. It is also for this reason that this amendment is being issued.

Since the issuance of the above order, it has been found that certain items of building materials have been either suspended from price control or covered by other regulations. Therefore, this amendment is also being issued to delete items exempt from control or covered by other regulations.

BUILDING MATERIALS IN PULASKI COUNTY, ARK.

Pursuant to the Emergency Price Control Act of 1942, as amended, General Order No. 68, and Delegation of Authority Order No. 126, and in accordance with Order No. 1, issued under General Order No. 68 by the Little Rock District Director of the OPA, and for the reasons set forth in the accompanying opinion, this amendment is issued. The statement of considerations involved in the issuance of this Amendment No. 1 to Order No. 1, under General Order No. 68, has been issued simultaneously herewith and filed with the Division of the Federal Register.

It is ordered, That Order No. 1, under General Order No. 68, is amended by adding the following section VII at the end of the second sentence of item 7 under section VI:

SEC. VII. *Adjustment to reflect increase in supplier's price*—(a) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum prices provides that all resellers, including those subject to area orders, issued under General Order No. 68, may increase their maximum prices for the commodity in question.

(b) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. You can only do this, however, if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this order.

It is also ordered, That Appendix A to Order No. 1, under General Order No. 68, is amended in the following respects:

(1) The dollars-and-cents prices for specific items of hard building materials contained in Order No. 1, issued under General Order No. 68, are revised to the extent set forth in Appendix A attached hereto and dated August 23, 1946.

(2) The original Appendix A to Order No. 1, under General Order No. 68, is hereby by reference dated August 23, 1946.

(3) The hard building material items of fire brick, plastic fire brick, fire clay, concrete blocks, and screen wire cloth 18 x 14, both galvanized and black, originally set forth in Appendix A of Order No. 1, under General Order 68, are deleted from said appendix.

(4) The hard building material item of masonry mortar, paper sacks, originally set forth in the order as 65# sack, is corrected to read 70# sack.

This amendment No. 1 shall become effective August 23, 1946.

Issued at Little Rock, Arkansas, this 23d day of August 1946.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 1 UNDER GENERAL ORDER NO. 68

Pursuant to the authority vested in the District Director of the Little Rock District Office by General Order No. 68 and Order of Delegation No. 126, issued by the Regional Administrator of Region V, and in accordance with the provisions of Order No. 1, under General Order No. 68, Amendment No. 1 to the above order has been issued.

Order No. 1, under General Order No. 68, was issued by the Little Rock District Director of the OPA on January 15, 1946, and became effective January 18, 1946. This order established dollars-and-cents ceiling prices for various items of hard building materials set forth in Appendix A thereof when sold at retail in the geographical area comprising Pulaski County, Arkansas.

Subsequent to the issuance of the above order and prior to March 31, 1946, manufacturers of hard building material items included in the above order were granted adjustments in their prices under various amendments to the applicable regulations which permitted passthroughs by retailers unless otherwise provided by the provisions of area hard building material orders. Under the provisions of Order No. 1, retailers of items of hard building materials were required to absorb price increases granted to the producer, and no amendment was ever issued permitting passthroughs by the retailers.

Also, subsequent to March 31, 1946, various industry-wide adjustments have been granted manufacturers of hard building materials. However, under the provisions of Emergency Price Control Act as amended, the retail industry is entitled to its March, 1946 mark-up on those items on which the manufacturer has received adjustments. Therefore, in view of the above, it has been necessary to amend and revise (as of August 23, 1946) the retail prices of hard building material items to the extent set forth in the accompanying amendment, which will allow retailers affected by the order to pass on to the consumer the above increases. Such action by the District Director has been found necessary under the provisions of the Emergency Price Control Act, as amended, and will remove all inequities now existing under the original order.

Since the Emergency Price Control Act of 1942 as amended provides that the retail industry is entitled to its March, 1946 mark-up on items affected, in which the producer has been granted percentage adjustments, it has necessitated the amendment of Order No. 1 by adding a new section VII, in order to conform with the provisions of the act. It is also for this purpose that Amendment No. 1 to the above order has been issued.

Since the issuance of the above order, it has been found that certain items of building materials have been either suspended from price control or covered by other regulations, and also that items set forth in the order have been inaccurately described because of typographical errors. Therefore, this amendment is also being issued to delete items exempt from control or covered by other regulations, as well as to correct typographical errors which appeared in the description of items of hard building materials in the original order.

BUILDING MATERIALS IN CRAWFORD AND SEBASTIAN COUNTIES, ARK.

Pursuant to the Emergency Price Control Act of 1942, as amended, General Order No. 68, and Delegation of Authority Order No. 126, and in accordance with Order No. 2, issued under General Order No. 68 by the Little Rock District Director of the OPA, and for the reasons set forth in the accompanying opinion, this amendment is issued. The statement of considerations involved in the issuance of this Amendment No. 1 to Order No. 2, under General Order No. 68, has been issued simultaneously herewith and filed with the Division of the Federal Register.

It is ordered, That Order No. 2, under General Order No. 68, is amended by adding the following section VII after the end of the second sentence of item 7 under section VI:

SEC. VII *Adjustment to reflect increase in supplier's price*—(a) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum prices provides that all resellers, including those subject to area orders, issued under General Order No. 68, may increase their maximum prices for the commodity in question.

(b) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. You can only do this, however, if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this order.

It is also ordered, That Appendix A to Order No. 2, under General Order No. 68, is amended in the following respects:

(1) The dollars-and-cents prices for specific items of hard building materials contained in Order No. 2, issued under General Order No. 68, are revised to the extent set forth in Appendix A attached hereto and dated August 23, 1946.

(2) The original Appendix A to Order No. 2, under General Order No. 68, is hereby by reference dated August 23, 1946.

(3) The hard building material items of fire brick, plastic fire brick, fire clay, and items of screen wire cloth 18" x 14", both galvanized and black, originally set forth in Appendix A of Order No. 2, under General Order No. 68, are deleted from said appendix.

(4) The hard building material item of masonry mortar, originally set forth in the order as 65# sack, is corrected to read 70# sack.

This Amendment No. 1 shall become effective August 23, 1946.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 2 UNDER GENERAL ORDER NO. 68

Pursuant to the authority vested in the District Director of the Little Rock District Office by General Order No. 68 and Order of Delegation No. 126, issued by the Regional Administrator of Region V, and in accordance with the provisions of Order No. 2, under General Order No. 68, Amendment No. 1 to the above order has been issued.

Order No. 2, under General Order No. 68, was issued by the Little Rock District Director of the OPA on March 8, 1946, and became effective March 15, 1946. This order established dollars-and-cents ceiling prices for various items of hard building materials set forth in Appendix A thereof when sold at retail in the geographical area comprising Sebastian and Crawford Counties, Arkansas.

Subsequent to the issuance of the above order and prior to March 31, 1946, manufacturers of hard building material items included in the above order were granted adjustments in their prices under various amendments to the applicable regulations which permitted passthroughs by retailers unless otherwise provided by the provisions of area hard building material orders. Under the provisions of Order No. 2, retailers of items of hard building material were required to absorb price increases granted to the producer, and no amendment was ever issued permitting passthroughs by the retailers.

Also, subsequent to March 31, 1946, various industry-wide adjustments have been granted manufacturers of hard building materials. However, under the provisions of the Emergency Price Control Act as amended, the retail industry is entitled to its March, 1946 mark-up on those items on which the manufacturer has received adjustments. Therefore, in view of the above, it has been necessary to amend and revise (as of August 23, 1946) the retail prices of hard building material items to the extent set forth in the accompanying amendment, which will allow retailers affected by the order to pass on to the consumer the above increases. Such action by the District Director has been found necessary under the provisions of the Emergency Price Control Act, as amended, and will remove all inequities now existing under the original order.

Since the Emergency Price Control Act of 1942 as amended provides that the retail industry is entitled to its March, 1946 mark-up on items affected, in which the producer has been granted percentage adjustments, it has necessitated the amendment of Order No. 2 by adding a new section VII, in order to conform with the provisions of the act. It is also for this purpose that Amendment No. 1 to the above order has been issued.

Since the issuance of the above order, it has been found that certain items of building materials have been either suspended from price control or covered by other regulations, and also that items set forth in the order have been inaccurately described because of typographical errors. Therefore, this amendment is also being issued to delete items exempt from control or covered by other regulations, as well as to correct typographical errors which appeared in the description of items of hard building materials in the original order.

by Delegation Order No. 93 issued November 5, 1945, by the Regional Administrator, Region IV, *It is hereby ordered:* That Order No. G–4 under General Order No. 68 is amended in the following respect:

1. Section 1 is amended to read as follows:

SECTION 1. *What this order covers.* This order covers all "retail sales" by any seller of the commodity specified in Appendix A delivered to any purchaser located in the "Upper East Tennessee Trade Area."

This amendment to Order G–4 under General Order No. 68 shall become effective September 5, 1946.

Issued this 11th day of September 1946.

CARSON VAUGHAN,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER G–4 ISSUED UNDER THE AUTHORITY AND PROVISIONS OF GENERAL ORDER NO. 68

Pursuant to the authority and provisions set out in General Order 68, this amendment to Order G–4 is issued for the Upper East Tennessee Trade Area.

It is desired to have this order cover all "retail sales" by any seller of the commodity specified in Appendix A, to any purchaser in the "Upper East Tennessee Trade Area." In order to effect this it is necessary to amend section 1 so as to not only restrict the sellers of these commodities to the Upper East Tennessee Trade Area, but also restrict purchasers to the Upper East Tennessee Trade Area.

The President

EXECUTIVE ORDER 9783

REVOCATION OF EXECUTIVE ORDER NO. 7744, AUTHORIZING THE SOLICITOR OF THE DEPARTMENT OF LABOR TO ACT AS SECRETARY OF LABOR

WHEREAS Executive Order No. 7744 of November 19, 1937, authorizes the Solicitor of the Department of Labor to perform the duties of the Secretary of Labor under certain circumstances during the absence of the Secretary of Labor; and

WHEREAS Public Law 346, Seventy-ninth Congress, approved April 17, 1946, establishes in the Department of Labor the office of Under Secretary of Labor and three offices of Assistant Secretary of Labor, and provides in part that in the absence of the Secretary of Labor the Under Secretary of Labor shall perform the duties of the Secretary of Labor:

NOW, THEREFORE, by virtue of the authority vested in me by section 179 of the Revised Statutes, and as President of the United States, and in the interest of the internal management of the Government, I hereby revoke the said Executive Order No. 7744 of November 19, 1937.

HARRY S. TRUMAN

(a) *Eligible producer.* An eligible producer shall be any person (individual, partnership, firm, corporation, association, joint-stock company, trust, estate, or other legal entity, or a State or political subdivision thereof, or an agency of such State or political subdivision) producing cotton in 1946 in the capacity of landowner, landlord, tenant, or sharecropper. Except as provided below, two or more producers may not obtain a joint loan. If the eligible cotton produced on a farm has been divided among the producers entitled to share in such cotton, each landlord, tenant, and sharecropper may obtain a loan on his separate share. If the cotton has not been divided, the landlord and one or more of the share

tenants or sharecroppers may obtain a joint loan on their shares of such cotton. In no case shall a share tenant or sharecropper obtain a loan individually on cotton in which a landlord has an interest. In any case where a landlord obtains a loan on cotton in which a share tenant or sharecropper has an interest, he must have the legal right to do so, and the share tenant or sharecropper must be paid his pro rata share of the proceeds.

(b) *Eligible cotton.* Eligible cotton shall be cotton produced in the United States in 1946 by or for a producer, provided that the cotton meets the following requirements:

(1) Such cotton must be of a grade and staple length specified in tables Nos. 1 and 2 appearing at the end of these instructions.

(2) In the case of warehouse-stored cotton, such cotton must be represented by warehouse receipts complying with the provisions of § 256.107. In the case of farm-stored cotton, the cotton must be covered by a Cotton Chattel Mortgage (C. C. C. Cotton Form F) (hereinafter referred to as "Form F") and a 1946 Cotton Mortgage Supplement (1946) C. C. C. Cotton Form FF) (hereinafter referred to as "Form FF") which will give the payee of the Cotton Producer's Note (C. C. C. Cotton Form E) (hereinafter referred to as "Form E") secured by such mortgage a first lien on such cotton.

(3) Such cotton must not be compressed to high density.

(4) Such cotton must be free and clear of all liens and encumbrances, except (in the case of warehouse-stored cotton) those in favor of the warehouse in which the cotton is stored, as specified in the Warehouseman's Certificate and Storage Agreement in the 1946 Cotton Producer's Note and Loan Agreement (1946 C. C. C. Cotton Form A) (hereinafter referred to as "Form A").

(5) Such cotton must be tendered for a loan by a person who has the legal right to pledge or mortgage it as security for a loan.

(6) If the person tendering such cotton for a loan is a landlord, or landowner, the cotton must not have been acquired by him directly or indirectly from a share tenant or sharecropper, and must not have been received in payment of fixed or standing rent; and if it was produced by him in the capacity of landlord, share tenant, or sharecropper, it must be his separate share of the crop, unless he is a landlord and is tendering cotton in which both he and a share tenant or a sharecropper have an interest.

(7) The person tendering such cotton for a loan must not have previously executed and delivered, with respect to such cotton, a Form A, Form E, or 1946 C. C. C. Cotton Form G–2 and must not have previously sold and repurchased such cotton.

(8) Each bale of such cotton must weigh at least 300 pounds.

(9) American-Egyptian cotton shall be of normal character. No such cotton shall be accepted for loan with respect to which official classification indicates any reduction in grade or staple length because of irregularities or defects.

(c) *Lending agency.* Lending agency shall be any bank, corporation, partnership, association or person who has executed a Lending Agency Agreement (C. C. C. Cotton Form D) covering loans on 1946 crop cotton.

(d) *Eligible paper.* Eligible paper shall be a Form A or a Form E duly executed subsequent to July 31, 1946, and prior to May 1, 1947. State documentary revenue stamps should be affixed thereto where required by law. (A Form A or a Form E executed by an administrator, executor, or trustee will be acceptable only where valid in law and must be submitted for a direct loan in accordance with § 256.110, unless accompanied by a repurchase agreement of the lending agency. Copies of this agreement may be obtained from the New Orleans Office, Cotton Branch, Production and Marketing Administration, New Orleans 12 La. (hereinafter referred to as the New Orleans Office).)

§ 256.102 *Forms.* The following documents must be delivered in connection with every loan:

(a) *Warehouse-stored cotton.* (1) Form A.

(2) Warehouse receipts complying with the provisions of § 256.107.

(3) Producer's Letter of Transmittal (C. C. C. Cotton Form B) or Lending Agency's Letter of Transmittal (C. C. C. Cotton Form C).

(b) *Farm-stored cotton.* (1) Form E.

(2) Form E, covering the cotton tendered as security for the loan.

(3) Lending Agency's Letter of Transmittal (C. C. C. Cotton Form C) (unless the loan is being made direct by Commodity Credit Corporation).

Each of the forms, A, B, E, F, and FF, representing American-Egyptian cotton must have the words "American-Egyptian cotton" conspicuously stamped or typed at the top of each such form.

§ 256.103 *Amount—*(a) *Upland cotton.* Loans will be made only on those grades and staple lengths shown in Table No. 1 appearing at the end of these instructions, and will be made on the gross weight of the cotton. An allowance of 7 pounds per bale will be made for bales covered with cotton bagging. The base loan rate applicable at each approved warehouse will be shown in the "Schedule of Base Loan Rates by Cities and Counties for Cotton Entering the 1946 Loan" in the Instructions to Warehousemen, and the base loan rate under the farm-storage program for each county will be shown in the "Schedule of Base Loan Rates by Counties for Farm Stored Cotton." These schedules will be issued by Commodity Credit Corporation and will be available at the office of the county agricultural conservation committee (hereinafter called "county committee"). The premium or discount applicable to each grade and staple length is shown in Table No. 1. Loans on warehouse-stored cotton will be made at the rates shown in "Schedule of Base Loan Rates by Cities and Counties for Cotton Entering the 1946 Loan" and loans of farm stored cotton will be made at the rates shown in the "Schedule of Base Loan Rates by Counties for Farm-Stored Cotton," adjusted in each case for the appropriate premium or discount for such grade and staple length.

(b) *American-Egyptian cotton.* Loans will be made at rates shown in Table No. 2 appearing at the end of these instructions.

§ 256.104 *Classification of cotton.* All cotton must be classified by a Board of Cotton Examiners of the U. S. Department of Agriculture. Warehousemen (in

the case of warehouse-stored cotton) and the county committees (in the case of farm-stored cotton) should forward samples to the Board of Cotton Examiners serving the district in which the warehouse or county is located, and a list showing the class of the cotton will be returned by the Board. Instructions have been issued to approve warehouses and county committees concerning sampling and forwarding of samples and recording the class of the cotton in the loan agreements or chattel mortgages. No separate charge is to be made to producers for this service. A Form I Classification Memorandum of the U. S. Department of Agriculture will also be accepted as evidence of the class of cotton, provided the sample is a representative cut sample drawn by an approved warehouseman, a U. S. Department of Agriculture employee, or a bonded sampler.

A charge of 20 cents per bale shall be collected from the producer for all cotton from which samples are submitted to a Board of Cotton Examiners for classification, except that no charge shall be collected for samples submitted for Form I classification. Each Board of Cotton Examiners will make collections for classing charges from the warehousemen and county committees at the end of each month. A certified check, cashier's check, or postal money order payable to Commodity Credit Corporation must be sent to the Board of Cotton Examiners by each warehouseman and county committee in payment of these charges.

§ 256.105 *Preparation of documents.* All blanks must be filled in with ink, indelible pencil, or typewriter in the manner indicated therein, and no documents containing additions, alterations, or erasures will be accepted by Commodity Credit Corporation.

(a) *Warehouse-stored cotton.* A producer desiring to obtain a loan may obtain the necessary forms from approved cotton warehouses and also from persons approved by the county committees in the cotton-producing areas to assist producers in preparing and executing the loan forms. Only persons approved by county committees for such purpose may execute the Clerk's Certificate on Form A. The Clerk's Certificate must be executed on each Form A tendered for a loan. Such persons are permitted to collect a fee from producers not to exceed the fees shown in the following schedule:

Number of bales on the note:	*Maximum fee allowed*
1–6	25 cents.
7–8	30 cents.
9–10	35 cents.
11–20	35 cents plus 2 cents for each bale over 10.
21 and over	55 cents plus 2 cents for each bale over 20.

The original copy of Form A must be signed by the producer, and the copy marked "duplicate" is to be retained by the producer and must be used when the loan is repaid or his equity sold. The Schedule of Pledged Cotton must represent cotton of only one grade and staple length.

(b) *Farm-stored cotton.* A producer desiring to obtain a loan on farm-stored cotton may obtain the necessary forms from, and will be assisted in their preparation by, the county committees. A service fee for upland cotton of $1 per bale, and for American-Egyptian cotton of $1.30 per bale shall be collected by the county committee from the producer to cover services rendered under this program. Each Form E must be approved by the county committee, and the member signing such form in the space provided certifies on behalf of the county committee, as provided in 1946 Cotton Loan (Farm-Storage) Part I, issued by the Field Service Branch, Production and Marketing Administration.

§ 256.106 *Approved warehouses.* Warehouse receipts representing eligible cotton will be accepted as security for loans made pursuant to Form A only if issued by warehousemen approved by Commodity Credit Corporation. Warehousemen desiring to be approved should communicate with the New Orleans Office. When warehouses are approved, notification will be given either by letter or published lists. All cotton pledged as security for any one loan must be in the same warehouse.

The warehouseman is required, as provided in the Warehouseman's Certificate and Storage Agreement in Form A, to draw representative samples from the bales and to deliver or forward such samples to a board of cotton examiners for classing, except where Form 1 Classification Memorandum of U. S. Department of Agriculture is used.

§ 256.107 *Warehouse receipts.* Only negotiable warehouse receipts issued by an approved warehouse, dated on or prior to the date of the producer's note, and properly assigned by an endorsement in blank so as to vest title in the holders or issued to bearer will be acceptable. They must set out in their written or printed terms a description by tag number and weight of the bale represented thereby and all other facts and statements required to be stated in the written or printed terms of a warehouse receipt under the provisions of section 2 of the Uniform Warehouse Receipts Act. Warehouse receipts issued prior to August 1, 1946, which by their terms will expire prior to August 1, 1947, must bear an endorsement of the warehouse extending the terms of the warehouse receipt for a period of 1 year from August 1, 1946. Block warehouse receipts will not be accepted.

§ 256.108 *Warehouse charges.* The warehouseman's charges are limited and his obligations defined by the Warehouseman's Certificate and Storage Agreement contained in Form A. This should be read carefully and must be executed by the warehouseman issuing the cotton warehouse receipts pledged as collateral to the producer's note. It must not be executed more than 10 days preceding the date of the note.

§ 256.109 *Liens.* Eligible cotton must be free and clear of all liens except (in the case of warehouse-stored cotton) those in favor of the warehouse in which the cotton is stored, as specified in the Warehouseman's Certificate and Storage Agreement in Form A. The names of the holders of all existing liens on cotton tendered as security for a loan, such as landlords, laborers, or mortgages (but not the warehouseman, if the cotton is stored in a warehouse), must be listed in the List of Lienholders on each Form A and Form FF and the lienholders so listed must execute the Lienholders' Waiver on such forms. A Form A or Form FF will not be acceptable unless all prior lienholders are listed in the List of Lienholders and have executed the Lienholders' Waiver. If the producer tendering the cotton for the loan is not the owner of the land on which the cotton was produced, all landowners and landlords must be listed in the List of Lienholders on the Form A or Form FF and must sign the Lienholders' Waiver on such form, whether or not they claim liens, unless they sign the note jointly with the borrower. A misrepresentation, as to prior liens or otherwise, will render the producer personally liable under the terms of the Loan Agreement and subject him to criminal prosecution under the provisions of section 35 (A) of the Criminal Code of the United States (18 U. S. C. 80 (1940)). The Lienholders' Waiver must be signed personally by all lienholders listed, by their agents (in which case duly executed powers of attorney must be attached), or, if a corporation, by the designated officer thereof customarily authorized to execute such instruments (in which case no authority need be attached).

§ 256.110 *Direct loans.* It is contemplated that producers will ordinarily obtain loans from a local bank or other lending agency which, in turn, may sell the paper evidencing such loans to Commodity Credit Corporation. Arrangements, however, have been made for making direct loans to producers prior to May 1, 1947. In each such case the note must be made payable to Commodity Credit Corporation and must be tendered to the New Orleans Office, on a Producer's Letter of Transmittal (C. C. C. Cotton Form B) in duplicate, postmarked not later than April 30, 1947, if tendered by mail. Upon receipt of all necessary documents, properly executed, and upon approval, payment will be made in accordance with the directions of the producer contained in the C. C. C. Cotton Form B, which permits the producer, if he so desires, to designate persons other than himself to receive all or part of the proceeds of the loan.

Direct loans will also be made on Certificates of Indemnity (Form FCI–574, Revised, issued by the Federal Crop Insurance Corporation) as provided in § 256.115.

§ 256.111 *Time and manner of tendering loans for purchase and pooling.* Loans made by a lending agency which has executed and delivered a Lending Agency Agreement (C. C. C. Cotton Form D) to the New Orleans Office, prior to the making of the loan will be eligible for purchase or pooling by Commodity Credit Corporation. C. C. C. Cotton Forms D are obtainable only from the New Orleans Office. Under the terms of this agreement, lending agencies which are parties thereto are required to tender to Commodity Credit Corporation, on Lending Agency's Letter of Transmittal (C. C. C. Cotton Form C), executed in triplicate, all notes on Form A and Form E, with warehouse receipts and cotton chattel mortgages attached, representing loans made by the lending agency within 15 days of the dates of the notes. Forty notes shall be submitted on each Lending Agency's Letter of Transmittal except when fewer notes are listed thereon in order that the loans may be tendered within 15 days of the dates of their execution. The Lending Agency's Letter of Transmittal shall state whether the lending agency desires Commodity Credit Corporation to purchase the notes or to place them in a pool operated by the Corporation. Upon receipt by the New Orleans Office, the loan papers will be examined and, if found correct, will be approved and will be transmitted to the Federal Reserve bank serving the district in which the cotton is stored and purchased or placed in a pool, as directed by the lending agency. In the event that the notes are pooled, a Certificate of Interest representing the interest in the pool acquired as the result of the deposit therein of the notes shown on the letter of transmittal will be issued to any approved lending agency designated by the lending agency tendering the eligible paper.

§ 256.112 *Lending agency.* The lending agency shall endorse the notes of producers as provided on Form A and Form E. In the case of warehouse-stored cotton care should be exercised by the lending agency to determine that the warehouse receipts are genuine. No provision is made for any deduction from the loan proceeds by the lending agency as a charge for handling the loan documents, except the authorized clerk's fee in case the lending agency has executed the Clerk's Certificate on Form A.

§ 256.113 *Federal Reserve Banks.* The location of the Federal Reserve banks and branches referred to herein and the district served by each are shown below:

Location	*District served*
Atlanta, Ga.	Georgia, Florida, Virginia, North Carolina, South Carolina.
Birmingham, Ala.	Alabama.
Dallas, Tex.	Texas, New Mexico.
Little Rock, Ark.	All of Arkansas except the counties assigned to Memphis.
Los Angeles, Calif.	California, Arizona.
Memphis, Tenn.	Illinois, Missouri, Tennessee; the following counties in Arkansas: Clay, Craighead, Crittenden, Cross, Greene, Lawrence, Lee, Mississippi, Phillips, Poinsett, Randolph, and St. Francis; and the following counties in Mississippi: Alcorn, Attala, Benton, Bolivar, Calhoun, Carroll, Chickasaw, Choctaw, Clay, Coahoma, De Soto, Grenada, Holmes, Humphreys, Itawamba, Lafayette, Lee, Leflore, Lowndes, Marshall, Monroe, Montgomery, Noxubee, Oktibbeha, Panola, Pontotoc, Prentiss, Quitman, Sunflower, Tallahatchie, Tate, Tippah, Tishomingo, Tunica, Union, Washington, Webster, Winston, Yalobusha.
New Orleans, La.	Louisiana and counties in Mississippi not assigned to Memphis.
Oklahoma City, Okla.	Oklahoma.

§ 256.114 *Repayments—(a) Warehouse-stored cotton.* No partial releases of the cotton securing a note will be permitted. If a producer desires to obtain the return of the note and the release of the collateral, he should execute the Producer's Request for the return of the Cotton Producers Note and Loan Agreement on his duplicate copy of the Form A and send it to Commodity Credit Corporation, care of the Federal Reserve Bank or branch thereof serving the district in which the cotton is stored, as shown in § 256.113. The notes and warehouse receipts will then be forwarded to an approved bank for release to said producer only and no other person, upon payment of the amount of the loan, the accrued interest and proper charges. Do not send requests for the return of notes and the release of collateral to the New Orleans office, as this causes delay in making the release. If the producer desires to sell his equity in the loan cotton, he must complete the Producer's Equity Transfer on his copy of Form A or Cotton Producer's Equity Transfer Agreement (CCC Cotton Form AA) (hereinafter referred to as "Form AA"). Upon receipt of the request contained in the Producer's Equity Transfer on the producer's copy of Form A or Form AA, the note and warehouse receipts will be forwarded to any approved bank designated by the person requesting the release of the cotton with direction to release such note and warehouse receipts upon payment of the amount of the loan, the accrued interest, and proper charges. In all such cases, the bank will be instructed to return the notes and warehouse receipts to the Federal Reserve Bank if payment is not effected within 15 days. All charges and expenses of the bank to which the notes and warehouse receipts are sent shall be paid by the person requesting the release of the cotton. In the event the producer's duplicate copy of the Form A is destroyed or lost, the producer may obtain from the Federal Reserve Bank or branch thereof serving the district in which the cotton is stored a Form AA, covering the cotton listed on the destroyed or lost note. The witness to the producer's signature on Form A or on Form AA must be a person approved for such purpose by a county committee in the cotton-producing area.

(b) *Farm-stored cotton.* If a producer desires to obtain the return of the note and release of the collateral, he should notify the county committee of the county in which the cotton is stored. Partial releases will be allowed. Complete instructions on the release of farm-stored cotton may be obtained from the county committee.

§ 256.115 *F. C. I. C. Loans.* Loans will be made on upland cotton covered by Certificates of Indemnity issued by the Federal Crop Insurance Corporation (hereinafter referred to as "Certificate").

(a) *Eligible Certificate.* An eligible Certificate shall be a Certificate representing 400 pounds or more of cotton against which no collateral assignment is outstanding.

(b) *Amount.* Direct loans on cotton covered by Certificates will be made at the base loan rate shown in the "Schedule of Base Loan Rates by counties for farm-stored cotton—1946 Cotton Loan Program", adjusted by the appropriate premiums or discounts for grade and staple length as shown in table No. 1. In determining the loan rate the county and the grade and staple shown in the Certificate shall be used.

(c) *Eligible producer.* Loans will be made only on Certificates issued with respect to 1946 crop cotton to "Eligible producers" as defined in these instructions.

(d) *Forms.* The following documents must be delivered in connection with every loan:

(1) 1946 Cotton Producer's Note and Loan Agreement (1946 CCC Cotton Form A).

(2) Certificate of Indemnity (FCI–574, Revised, Issued by the Federal Crop Insurance Corporation).

(3) Producer's Letter of Transmittal (CCC Cotton Form B).

(e) *Manner of obtaining loans.* An eligible producer desiring to obtain a loan on cotton covered by a Certificate should present the Certificate to the county agricultural conservation committee. The county committee will prepare a 1946 Cotton Producer's Note and Loan Agreement and a Producer's Letter of Transmittal for the producer's signature and mail the executed documents together with the Certificate directly to the New Orleans Office, Cotton Branch, Production and Marketing Administration, New Orleans 12, Louisiana. Upon approval of the documents Commodity Credit Corporation will make payment of the amount of the loan in accordance with the directions of the producer contained in the note.

(f) *Service fee.* To meet the cost of preparing loan documents in the county agricultural conservation office a service fee of twenty-five cents shall be collected from each producer obtaining a loan on a Certificate.

(g) *Repayment.* If the producer desires to repay the loan from the cash equivalent of the Certificate and obtain the balance of such cash equivalent, he should notify the appropriate branch office of the Federal Crop Insurance Corporation. The Federal Crop Insurance Corporation will establish the amount of the cash equivalent, make payment to Commodity Credit Corporation of the amount due on the loan, and remit any balance after repayment of the loan to the producer. Upon receipt of payment, Commodity Credit Corporation will stamp the note "paid" and return it to the producer. The Certificate will be delivered to Federal Crop Insurance Corporation.

Dated this 20th day of September 1946.

[SEAL] C. C. FARRINGTON,
Acting President.

TITLE 7—AGRICULTURE

Chapter XI—Production and Marketing Administration (War Food Distribution Orders)

[WFO 144, Amdt. 16]

PART 1468—GRAIN

USE OF WHEAT

War Food Order No. 144, as amended (11 F. R. 6750, 7322, 7563, 7738, 7999, 8214, 9551) is hereby further amended as follows:

1. By deleting paragraph (a) (20) and inserting in lieu thereof the following:

(20) "Milling quality wheat" means wheat of all classes, except Red Durum, that grades No. 3 or better, or that grades No. 4 or No. 5 on test weight only.

2. By deleting paragraph (b) (1) and inserting in lieu thereof the following:

(b) *Use of wheat by mixed feed manufacturers.* (1) No mixed feed manufacturer shall use milling quality wheat in the manufacture of mixed feed: *Provided, however,* That any mixed feed manufacturer located in the States of Arizona, California, Idaho, Nevada, New Mexico, Oregon, Utah, or Washington, or in that part of the State of Montana which is on or south of the main line of the Chicago, Milwaukee, St. Paul and Pacific Railroad or west of the continental divide may, during any calendar quarter use milling quality wheat in the manufacture of mixed feed in a quantity not in excess of 40 percent of the quantity of grain so used by such manufacturer during the corresponding calendar quarter of 1945.

This amendment shall become effective at 12:01 a. m., e. s. t., October 1, 1946. With respect to violations, rights accrued, liabilities incurred, or appeals taken, prior to said date, under War Food Order No. 144, as amended, all provisions of said order shall be deemed to remain in full force for the purpose of sustaining any proper suit, action or other proceeding, with respect to any such violation, right, liability, or appeal.

PART 1468—GRAIN

DISTRIBUTION AND USE OF GRAIN

War Food Order No. 145 (§ 1468.12), as amended (11 F. R. 4783, 8859, 9951), is hereby further amended as follows:

1. By deleting paragraphs (d) (1) and (d) (2) and inserting in lieu thereof the following:

(d) *Wet processors; use of corn and grain sorghums.* (1) Unless specifically authorized by the Administrator, no wet processor shall, during any calendar month, use corn or grain sorghums in excess of 85 percent of the average monthly quantity of corn and grain sorghums used by such person during the first six months of 1945.

(2) No wet processor shall use white corn unless such white corn has first been offered for sale and delivery to a dry processor.

(3) Wet processors may upon specific authorization by the Administrator use corn or grain sorghums in excess of the quota restrictions set forth in paragraph (d) (1): *Provided:*

(i) The corn or grain sorghums used in excess of quota is processed into glucose or dextrose and is to be sold for the manufacture of certain types of preserves, fruit butters, jellies or marmalades, to be specified by the Administrator;

(ii) The wet processor make application to the Administrator for the exemption provided for herein by forwarding to the Administrator, Production and Marketing Administration, Washington 25, D. C., a statement by him setting forth the amount of corn and grain sorghums to be used in excess of quota, and a statement in writing signed by the manufacturer to whom the glucose or dextrose is to be delivered, setting forth the amount of glucose or dextrose to be used during a specified 60-day period, the purpose for which the glucose or dextrose is to be used and the amount of preserves, fruit butters, jellies or marmalades to be manufactured therefrom.

This order shall become effective at 12:01 a. m., e. s. t., September 21, 1946. With respect to violations, rights accrued, liabilities incurred, or appeals taken, prior to said date, under War Food Order No. 145, as amended, all provisions of said order shall be deemed to remain in force for the purpose of sustaining any proper suit, action, or other proceedings, with respect to any such violation, right, liability, or appeal.

TITLE 24—HOUSING CREDIT

Chapter VI—Federal Public Housing Authority

PART 603—FINAL DELEGATIONS OF AUTHORITY

REGIONAL DIRECTORS

SEPTEMBER 18, 1946.

In § 603.2 (a) (6), subdivisions (x) and (xi) are amended and subdivision (xii) is added, so that subparagraph (6) reads as follows:

§ 603.2 *Delegations to regional office officials*—(a) *Delegations of authority to Regional Directors.* • • •

(6) Pursuant to Title V of the Lanham Act as amended, regional directors are delegated the power:

(i) To execute contracts for the Commissioner between the United States and local bodies for the provision of housing under Title V of the Lanham Act.

(ii) To negotiate and execute cost-plus-a-fixed-fee contracts for the construction of Title V housing projects on Form FPHA-1432, including schedules of prices for finished dwelling units, and any amendments to these forms (and additional schedules of prices for finished dwelling units) subsequently approved by the Assistant Commissioner for Development and Reutilization.

(iii) To execute or approve changes in the contract ir any amount within the limit of available or allotted funds, and to execute and approve documents involving any extensions of the contract completion date which may be approvable under the terms of the contract irrespective of whether extra work is involved. Any changes approved by any region shall apply only to Notices to Proceed with projects to be erected in that region (without regard to the original location of the buildings being moved).

(iv) To make such findings of need as are required by the provisions of the Lanham Act with respect to installation of movable equipment for family dwellings.

(v) Pursuant and subject to the provisions of the First War Powers Act, Executive Orders 9001, 9116, and 9686 and the National Housing Administrator's General Order FPHA-7:

(*a*) To approve advance payments to contractors in connection with contracts executed under any cost-plus-a-fixed-fee contract executed in the Central Office or the regional office and to local bodies for use in payment of development costs under PL-336.

(*b*) To waive requirements of advertising and competitive bidding to the extent permitted or required by established FPHA policies and procedures.

(*c*) To waive the requirement of performance and payment bonds in connection with lump-sum contracts relating to the development of veterans' emergency housing projects where the FPHA contracts with a local public body for the erection and repair of trailers to be done by the local body, subject to a legally sufficient determination that such action will facilitate or expedite the program. Such bonds, however, may be required from the subcontractors of the local body, at the option of the above-mentioned FPHA officials, when such action is deemed necessary and in the best interest of the Government.

(vi) Pursuant and subject to the provisions of the Contract Settlement Act of 1944, to take such actions as are authorized by that Act and are appropriate to accomplish its objectives, including the establishment of a Regional Settlement Review Board.

(vii) To execute Notices to Proceed.

(viii) To grant revocable licenses, permits, and easements, and execute appropriate instruments therefor, to facilitate

the provisions of necessary streets, alleys, walks, or other means of ingress and egress and utilities.

(ix) Pursuant to the terms of CPA Directive 42 as amended, NHA General Order 21–33A, Priority Regulation 33 as amended, and in consideration of CPA Order VHP–1:

(*a*) To process and approve application for HH preference ratings, and to begin construction for projects within the terms of PR–33, when such requests are submitted on Form CPA–4386.

(*b*) To process supplemental applications when submitted on Form CPA–4387.

(*c*) To exercise such other powers and assume such responsibilities as are set forth in Directive 42 and PR–33, except in connection with appeals.

(*d*) To redelegate to one specific person with the Development and Reutilization Division in each region authority to exercise the above functions in his behalf; such person, whose name shall be registered with the Central Office Priorities and Materials Survey Division, to act as Liaison Officer with the Central Office in priority matters. [All such actions shall be in conformity with the applicable CPA and NHA regulations.]

(x) To execute contracts or other documents conveying surplus personal property available to FPHA to local bodies (non-profit educational institutions, States or political subdivisions thereof, local public agencies, and non-profit organizations) for use in connection with veterans' emergency housing.

(xi) To amend all outstanding contracts with local bodies which involve payment of net income to the FPHA at the end of each fiscal year to include at the election of the local body either the provisions for reserves for repair, maintenance, and replacement or for fixed operating expenses.

(xii) To amend outstanding contracts covering the bailment of trailers, to transfer title to trailer to local bodies.

Chapter VII—National Housing Agency

[Gen. Order 21–33B–1]

PART 705—DELEGATION OF AUTHORITY

PROCESSING OF APPLICATIONS AND APPEALS

Section 705.8 (d) of General Order No. 21–33B delegated to the Director and Associate Director of the Prefabrication Production Branch of the Office of the Administrator the authority to process applications and appeals filed with the National Housing Agency under Direction 8 of Priorities Regulation 33 of the Civilian Production Administration. It is the purpose of this regulation to remove the reference in this delegation to the Associate Director, and also to make a similar delegation with respect to applications and appeals filed with the National Housing Agency under Direction 13 to Priorities Regulation 33.

Section 705.8 (d) of General Order No. 21–33B (11 F.R. 6073) is hereby amended to read as follows:

(d) The Director of the Prefabrication Production Branch of the Office of the Administrator is hereby authorized to exercise all the powers and duties delegated to the National Housing Agency by Directive 42 of the Civilian Production Administration with respect to applications and appeals authorized under Directions 8 and 13 to Priorities Regulation 33 of the Civilian Production Administration to be filed with, or mailed to, the National Housing Agency, except applications under paragraph (n) of Direction 8 or paragraph (r) of Direction 13.

This amendment shall be effective as of August 28, 1946.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–943]

DUBOIS ELECTRIC STORAGE BATTERY CO.

J. W. Rafferty, doing business as DuBois Electric Storage Battery Company is engaged in the manufacture of automotive replacement storage batteries at DuBois, Pennsylvania. During the third and fourth quarters of 1945 and the first quarter of 1946, J. W. Rafferty used in the manufacture of industrial type storage batteries and automobile type storage batteries a substantial amount of lead in excess of his quota for those quarters in violation of General Preference Order M–38. These violations have diverted critical materials to uses not authorized by the War Production Board and the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.943 *Suspension Order No. S–943.* (a) J. W. Rafferty shall during the four calendar quarters beginning October 1, 1946 and ending September 30, 1947 reduce his use of lead in the manufacture of storage batteries by using during each of these quarters at least 12½ tons less than the quota he would otherwise be entitled to use during these quarters under the provisions of General Preference Order M–38, unless otherwise authorized in writing by the Civilian Production Administration.

(b) Nothing contained in this order shall be deemed to relieve J. W. Rafferty from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

(c) The restrictions and prohibitions contained herein shall apply to J. W. Rafferty, doing business as DuBois Electric Storage Battery Company or under any other name, his successors and assigns or persons acting on his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

PART 1010—SUSPENSION ORDERS

[Suspension Order S–974]

BLASCO WILSON CO.

W. N. Wilson, W. Norman Wilson and W. H. Harris, co-partners doing business as Blasco Wilson Company at 4536 West Warren Avenue, Detroit, Michigan, are engaged in the manufacture of automotive SLI type replacement storage batteries. During the third and fourth quarters of 1945 and the first quarter of 1946 they used in the production of storage batteries lead in excess of their quotas for such quarters as established by the provisions of General Preference Order M–38. These acts constitute grossly negligent violations of General Preference Order M–38. These violations have diverted critical materials to uses not authorized by the War Production Board and the Civilian Production Administration. In view of the foregoing, it is hereby ordered that:

§ 1010.974 *Suspension Order No. S–974.* (a) During the fourth quarter of 1946 and the first, second and third quarters of 1947, W. H. Wilson, W. Norman Wilson, and W. H. Harris shall use in the manufacture of automotive SLI type replacement storage batteries 15,000 pounds of lead less than they would otherwise be entitled to use in each of these quarters under the provisions of General Preference Order M–38.

(b) W. N. Wilson, W. Norman Wilson, and W. H. Harris shall refer to this order in any application or appeal that they may file with the Civilian Production Administration dealing with their use of lead during the period of this suspension order.

(c) Nothing contained in this order shall be deemed to relieve W. N. Wilson, W. Norman Wilson and W. H. Harris from any restriction, prohibition or provision contained in any other order or regulation of the Civilian Production Administration, except insofar as the same may be inconsistent with the provisions hereof.

(d) The restrictions and prohibitions contained herein shall apply to W. N. Wilson, W. Norman Wilson, and W. H. Harris, individually and as co-partners doing business as Blasco Wilson Company or any other name, their successors and assigns or persons acting on their behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, Direction 19, as Amended Sept. 24, 1946]

DISPOSAL OF SURPLUS COPPER AND COPPER BASE ALLOY SCRAP BY WAR ASSETS ADMINISTRATION

Direction 19 to Priorities Regulation 13 is amended to read as follows:

(a) *What this direction does.* There is a critical shortage in the supply of copper and copper base alloy scrap, and these materials are not now readily obtainable in sufficient quantities from other than Government sources. The purpose of this direction is to limit the sale of these materials by War Assets Administration to persons who have immediate need for them in order to provide the greatest possible relief for the civilian deficiencies. It limits sales of these materials by the War Assets Administration to persons who give the certification described below.

Although this direction restricts sales to persons who will use the material for the purposes specified, it does not prohibit WAA from making sales, to the persons and for the purposes specified, upon such other terms and in such quantities as WAA may determine; and preference ratings have no effect upon any sales which may be made by WAA either by way of obliging it to sell or by way of determining as among the several buyers permitted by this direction, who shall get the material from WAA.

(b) *Restrictions on sales by WAA.* Unless the Civilian Production Administration specifically directs otherwise, WAA may sell any copper and copper base alloy scrap, including ammunition cases, only as follows:

(1) Sales specifically authorized by the Civilian Production Administration on Form CPA–1161.

(2) Sales to Reconstruction Finance Corporation for resale under section 18 (e) of the Surplus Property Act of 1944 to persons who give to RFC the certificate described in paragraph (b) (3).

(3) Sales to smelters or reprocessors who give a certificate with their purchase order in substantially the following form:

The undersigned certifies to the seller and Civilian Production Administration, subject to the penalties of section 35 (A) of the United States Criminal Code, that (i) he is a smelter or reprocessor; (ii) his inventory of the type of material covered by this purchase order (including this lot) will not be in excess of his succeeding three months requirements; and (iii) the materials obtained under this purchase order will be used or disposed of only in accordance with applicable Civilian Production Administration orders and regulations.

The standard certification in Priorities Regulation 7 may not be used instead of these certifications.

(c) *Obligations of persons giving certificate.* Any person giving the certificate described above, or any of the certificates formerly required by the direction, may obtain and use or dispose of the material which he gets with his certificate, only in accordance with its terms.

(d) *Special directives.* The directives formerly issued to WAA under this direction, as issued June 3, 1946, remain in effect until they expire by their own terms. It is the policy of the Civilian Production Administration not to issue any more special directives under this direction. However, CPA may reissue outstanding special directives requiring the delivery of particular lots of copper or copper base alloy scrap to smelters or reprocessors when such outstanding direc-

tives have been unfilled by WAA before the expiration date provided for in the directive.

Issued this 24th day of September 1946.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 13, Direction 22]

SALE OF COPPER AND COPPER BASE ALLOY SCRAP BY THE UNITED STATES ARMY, NAVY, OR MARITIME COMMISSION

The following direction is issued pursuant to Priorities Regulation 13:

(a) *What this direction does.* There is a critical shortage in the supply of copper and copper base alloy scrap, and this material is not now readily obtainable in sufficient quantities from regular sources of supply. The purpose of this direction is to limit the sale of this material by the United States Army, Navy, or Maritime Commission to persons who have immediate need for it in order to provide the greatest possible relief for the civilian deficiencies and to assure the widest distribution of this critical material. As used in this direction "copper and copper base alloy scrap" means any material or product (other than prime metals) which has no reasonable prospect of sale except for its basic metal content, and which contains 40% or more by weight of copper metal (or in the case of copper clad or copper base alloy clad steel scrap, which contains 18% or more by weight of copper metal).

(b) *Restrictions on sales by owning agencies.* The United States Army, Navy, or Maritime Commission may not sell any copper or copper base alloy scrap to any person unless the sale has been specifically authorized by the Civilian Production Administration on Form GA 2811. In general, the Civilian Production Administration will authorize sales of copper and copper base alloy scrap only to smelters and reprocessors who require the material for their own use in order to maintain their smelting or reprocessing operations at a minimum economic rate. Authorizations will not be granted for any person to obtain more material than the quantity which he will require to meet his current or scheduled operations during the next 30 days, less the amount he has on hand or expects to receive from other sources during that period.

(c) *Applications for copper and copper base alloy scrap.* Any smelter or reprocessor who wishes to obtain copper or copper base alloy scrap from the United States Army, Navy, or Maritime Commission may apply on Form CPA 4513, to the Copper Branch, Civilian Production Administration, Washington 25, D. C., Ref: PR-13, Direction 22.

(d) *Exceptions.* The restrictions of paragraph (b) do not apply to the following types of sales:

(1) Sales of any lot or lots of copper or copper base alloy scrap where the gross weight of all the lots available at any one location at any one time does not exceed 10,000 pounds. Lots may not be subdivided for the purpose of making sales under this exception.

(2) Sales of scrap located outside the forty-eight states of the United States and the District of Columbia.

(3) Sales by the Reconstruction Finance Corporation for and on behalf of the owning agencies of any lots of scrap which, under War Assets Administration Regulation 17 the owning agencies are required to report to the Reconstruction Finance Corporation as strategic materials. (Priorities Regulation 34 gives the rules applicable to sales by Reconstruction Finance Corporation).

(4) Sales of contractor inventory if the owning agency has not taken possession of such inventory.

Issued this 24th day of September 1946.

Chapter XI—Office of Price Administration

PART 1418—TERRITORIES AND POSSESSIONS

[RMPR 395,[1] Amdt. 25 (§ 1418.158)]

RAW CANE SUGAR IN VIRGIN ISLANDS

A statement of considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Section 47 is hereby revoked and a new section 47 is added to read as follows:

SEC. 47. *Maximum prices for raw cane sugar produced and sold in the Virgin Islands.*—(a) *Sales by persons who own no raw cane sugars at the close of business on September 17, 1946.* Any person who owns no raw cane sugars at the close of business on September 17, 1946, shall refer to Table XXXVII below for his maximum prices for sales by him of raw cane sugars on and after September 18, 1946.

(b) *Sales by persons who own raw cane sugars at the close of business on September 17, 1946.* Any person who owns raw cane sugars at the close of business on September 17, 1946, may use the maximum prices set forth in Table XXXVII below for sales by him of raw cane sugars, on and after September 18, 1946, upon the condition that he complies with all the pertinent requirements of the following subparagraphs (1) and (2):

(1) *Filing of affidavit.* Any producer who sells raw cane sugars, and who owns raw cane sugars at the close of business on September 17, 1946, shall, not later than October 10, 1946, send by registered mail addressed to the Commodity Credit Corporation, 150 Broadway, New York 7, New York, an affidavit setting out the total number of pounds of raw cane sugars (including cane juice and its derivatives in the process of being made into raw can sugar) adjusted to a 96 degree polarization basis, owned by him at the close of business on September 17, 1946.

(2) *Payment to Commodity Credit Corporation.* Any producer who elects to increase his maximum price on September 18, 1946, shall make a statement to that effect in the affidavit described in subparagraph (1), and shall make payment by check or money order payable in New York funds to the Commodity Credit Corporation in an amount computed as follows:

(i) The total number of pounds of raw cane sugars (including cane juice and its derivatives in the process of being made into raw cane sugar) adjusted to a 96 degree polarization basis, owned by him at the close of business on September 17, 1946;

(ii) Multiplied by 1.37 cents per pound.

Payment may be made at the time of filing the affidavit or monthly payments shall be made within 30 days following the close of the calendar month for the amount of sugar sold during such month, until the full amount due has been paid. The maximum price, in the event of failure to make such payment or payments, shall be the applicable maximum price in effect prior to September 18, 1946.

(3) *Election to sell inventory at lower price.* Any producer who owns raw cane sugars at the close of business on September 17, 1946, may in lieu of making payment to Commodity Credit Corporation, described in subparagraph (2), elect to sell or otherwise dispose of the entire amount of his inventory at or below the maximum price in effect on September 17, 1946. Such person shall state in the affidavit described in subparagraph (1) that he elects to sell his inventory at the lower price. At such time as he has sold an amount equal to his September 17, 1946 inventory, he shall file by registered mail with the Commodity Credit Corporation a final affidavit stating that he has fully complied with the requirements of this subparagraph (3).

After mailing the final affidavit in proper form, such person may use the maximum prices set out in Table XXXVII below.

(c) *Maximum prices for sales at wholesale and retail after September 17, 1946.* At the close of business on September 17, 1946, each seller at wholesale or retail must determine the number of pounds of raw cane sugars held by him for resale at that time. The owner of one or more stores shall determine the number of pounds held in each such store and wherever else located. The maximum prices in effect on September 17, 1946, shall apply to all sales of such raw cane sugar until the seller has sold an amount equal to his September 17, 1946 inventory of such raw cane sugar. Thereafter such wholesaler or retailer may use the maximum prices set forth in the following table:

TABLE XXXVII—MAXIMUM PRICES FOR SALES OF RAW CANE SUGAR OF NOT LESS THAN 96 DEGREES POLARIZATION

	To wholesalers (ex warehouse or factory per 100 lb.)	At wholesale (per 100 lb.)	At retail (per lb.)
Island of St. Croix	$5.43	$5.96	$0.06
Island of St. Thomas	5.43	6.45	.06
Island of St. John	5.43	[1]6.45	.06

[1] This price includes delivery to buyer.

Any wholesaler or retailer who, at the close of business on September 17, 1946, has an inventory of more than 10,000 pounds of locally produced raw cane sugar, must file an affidavit with the Office of Price Administration in the Virgin Islands showing the number of pounds of such raw cane sugar owned by him for resale at that time.

This amendment shall become effective as of 12:01 a. m., September 18, 1946.

NOTE: The record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 24th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 25 TO REVISED MAXIMUM PRICE REGULATION 395

The accompanying amendment to Revised Maximum Price Regulation 395 increases the maximum prices of raw cane sugar produced and sold in the Virgin Islands. Producers' prices are increased 1.37 cents a pound and equivalent increases are provided at the wholesale and retail levels to reflect the increased cost plus the average percentage markup as was in effect on March 31, 1946.

Effective September 18, 1946, maximum prices of raw cane sugar were increased by 1.37 cents a pound in continental United States. It is necessary to take concurrent action in order to insure a continued supply of raw cane sugar in the Virgin Islands. The basis of the increase on the mainland is fully discussed in the statement of considerations accompanying amendment 3 to MPR 16, reference to which is hereby made.

The reporting and recapture provisions, as well as the requirement that wholesalers and retailers may not charge the increased prices until they have disposed of their September 17 inventories at or below the ceilings in effect on September 17, are the same as those contained in amendment 20 to RMPR 395, and have been included for the same reasons as set forth in the statement of considerations for that amendment, the applicable portions of which are incorporated herein by reference.

In the opinion of the Price Administrator, the action taken by the accompanying amendment is generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and the Executive orders of the President.

PART 1306—IRON AND STEEL

[RPS 10, Amdt. 14]

PIG IRON

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

In § 1306.52, a new paragraph (e) is added to read as follows:

(e) *Bonus payment under Premium Payment Plan.* Notwithstanding any other provision of this regulation, a producer of foundry or malleable grades of merchant pig iron may make a bonus payment to a producer of steel grade pig iron, and the latter may receive such bonus payment, for steel grade pig iron produced and sold in accordance with the former's request. "Steel grade pig iron," for the purpose of this paragraph, means pig iron of grades used for the manufacture of steel or steel castings.

Provided, That such payment conforms in all respects with the purposes and terms of the Premium Payment Plan for merchant pig iron as set forth in Housing Expediter's Premium Payments Regulation No. 9 and specifically with the terms of paragraph (e) thereof.

Provided, further, That sale of such steel grade pig iron to the consumer shall conform in all respects with the applicable maximum prices established by this regulation.

This amendment shall become effective as of September 1, 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT NO. 14 TO REVISED PRICE SCHEDULE NO. 10

The accompanying Amendment makes a minor change in the Regulation in order to implement the Premium Payment Plan for merchant pig iron. That plan, established by the Housing Expediter with the concurrence of the Office of Price Administration and the Civilian Production Administration, provides incentive payments by the government for additional production of urgently needed merchant pig iron, in foundry and malleable grades. The present level of ceilings for merchant pig iron of all grades remains unchanged.

Although the plan does not provide for premium payments for the steel-making grades of merchant pig iron, it has been found possible to provide a greater encouragement to the production of foundry and malleable grades than would otherwise be the case, by means of permitting arrangements whereby a producer of foundry or malleable grades, who has heretofore supplied one or more of his customers with shipments of steel grade pig iron, may arrange with another producer to take over the supplying of the steel grade, thus freeing the original producer for a greater concentration on the foundry and malleable grades. By providing an inducement to the producer who takes over the account in respect to the steel grade, such arrangements may be stimulated. It has been found more practical to accomplish this by allowing the producer of the foundry and malleable grades, to pass on to the producer of steel grade pig iron a part of the premium payments which he derives from the Plan, than to provide for a separate compensation by the Government to the producer of the steel grade.

Paragraph (e) of Housing Expediter's Premium Payments Regulation No. 9 accomplishes this result and Amendment No. 14 makes the changes in Revised Price Schedule No. 10 necessary to permit such bonus payments. Since this transaction will occur prior to the level of final sale to the consumer of pig iron, and since ceiling prices of pig iron when sold to consumers will be entirely unaffected, the Administrator finds it proper to amend the maximum price regulation for pig iron to enable such arrangements to be made. Although the additional tonnage of foundry and malleable grades of pig iron which may be expected from this arrangement is relatively small in proportion to the total additional supplies expected to result from the Premium Payment Plan, the additional supplies which may be obtained in this way have nevertheless been found significant by the Housing Expediter. Administration of this arrangement, as part of the general Premium Payment Plan, will be effected by the Housing Expediter.

The Premium Payments Plan for pig iron has been made retroactively effective as of September 1, 1946. Since the Plan had been announced by the Housing Expediter in advance of its final establishment, and since arrangements of the type covered by the accompanying amendment have been made in good faith by certain producers to be covered by the Plan, the Administrator finds it necessary and proper to make the accompanying amendment effective as of September 1, 1946.

For the reasons set forth above, the Administrator finds that Amendment No. 14 is in accordance with Executive Order 9599 and the Emergency Price Control Act of 1942, as amended.

[RMPR 143, Corr. to Amdt. 13]

WHOLESALE PRICES FOR NEW RUBBER TIRES AND TUBES

Amendment 13 is corrected in the following respects:

1. The last sentence of section 3 (b) (3) (iii) is corrected to read as follows:

Provided, however, That no adjustment resulting in a higher wholesale price may be made in the case of tubes or farm tractor, implement, and aircraft tires.

2. The following item in Appendix III:

AUTHORITY: § 1351.1808, issued under 56 Stat. 23, 765, 57 Stat. 566; Pub. Law 383, 78th Cong.; Pub. Laws 108 and 548, 79th Cong.; E. O. 9250, 7 F. R. 7871; E. O. 9328; 8 F. R. 4681; E. O. 9599, 10 F. R. 10155; E. O. 9651, 10 F. R. 13487; E. O. 9697; 11 F. R 1691.

SECTION 1. *Explanation of the regulation.* Except for those items exempt under section 2, this regulation establishes maximum prices for all sales of domestically manufactured candy items when packaged by the manufacturer in consumer-size units designed to sell to the consumer from 5 to 10 cents, inclusive. Any item for which the manufacturer's maximum price to wholesalers is greater than 68 cents or less than 30 cents per dozen consumer units (bars, bags, individual boxes, etc.) shall not be considered an item designed to sell to the consumer from 5 to 10 cents.

SEC. 2. *Items which are exempt from the regulation.* This regulation shall not apply to the following:

(a) Solid chocolate molded items, either filled or unfilled;

(b) Any bar or packaged item for which the manufacturer's price to a wholesaler is greater than 68 cents or less than 30 cents per dozen consumer units.

SEC. 3. *General effect of the regulation.* Thirty days after the effective date of this regulation, the provisions of the General Maximum Price Regulation and all other regulations and orders, heretofore issued with respect to the items covered by this regulation, will become inoperative as to future sales except in the following instances:

(a) Any manufacturer may continue to sell at prices established by him in March 1942 under the provisions of § 1499.2 (a) of the General Maximum Price Regulation, provided he reports within 30 days after the effective date of this regulation, to the Grocery Products Branch of the OPA, Washington 25, D. C., on the form provided in Appendix B, the name of the item, together with his intention of continuing his March 1942 ("freeze") price. (Prices established under § 1499.2 (a) of the General Maximum Price Regulation include only those prices at which the manufacturer sold or offered his product for sale in March 1942. It does not include a so-called "borrowed" price established under the provisions of § 1499.2 (b) of the General Maximum Price Regulation by adopting a competitor's price "for the same or similar item". Nor does it include any price established subsequent to March 1942 regardless of the manner or authority by which it was established.)

(b) The provisions of Supplementary Order 182 remain fully effective.

SEC. 4. *Classification of items.* For the purpose of establishing maximum prices, all candy items covered by this regulation are divided into the following two groups:

(a) All consumer-size items containing from 1 to 6 pieces, inclusive. (This group shall include chocolate covered and non-chocolate covered bars; boats, boxes, bags or other packages containing six or less individual pieces of candy.)

(b) All consumer-size items containing more than 6 pieces. (This group shall include boxes, boats, bags or other packages containing more than 6 individual pieces.)

SEC. 5. *Maximum prices.* (a) Except as provided in section 3 (a) and (b), the manufacturer's maximum delivered price, per unit of sale, for each item subject to this regulation, shall be the "total cost" of ingredients and packaging materials, per unit of sale, multiplied by (1) 1.85 for items included in section 4 (a), and (2) 2.27 for items included in section 4 (b). "Total cost" means the sum of the manufacturer's delivered cost of each ingredient and packaging material contained in one sales unit. These costs must be based upon the last typical purchase of that ingredient or packaging material. A typical purchase shall be one made between December 31, 1945 and September 17, 1946, (except purchases made between July 1 and July 26, 1946) and must be of a customary amount from a customary type of supplier.

If a manufacturer has made no typical purchase of an ingredient or packaging material used in an item, subject to this regulation he must apply for a maximum price for that item in accordance with the provisions of section 7 (b).

(b) If a manufacturer has customarily sold to retail stores not units of a corporate chain of 4 or more stores, at a price differential over and above his price to wholesalers, his maximum price for such sales shall be the price determined under paragraph (a) of this section plus the differential which he had established prior to the issuance of this regulation.

(c) The manufacturer's maximum price f. o. b. factory shall be the price determined under paragraph (a) or (b) of this section, less the actual freight charges incurred in delivering the item to the purchaser's customary receiving point.

SEC. 6. *Reporting of price determination.* Each manufacturer who establishes a maximum price under this regulation shall mail to the Grocery Products Branch of the OPA, Washington 25, D. C., a complete report of his calculations following the procedure described in OPA Form 6035-2904 and its accompanying instructions which are a part of this regulation and appear in Appendix A. Copies of this form may be obtained at any District Office of the OPA.

Twenty days after the manufacturer's report is mailed, his reported prices shall be considered approved and he may begin selling unless, within that time, the Office of Price Administration has (a) requested additional information, (b) disapproved the reported price, or (c) notified the manufacturer that his reported costs appear out of line, in one or more respects, with costs generally prevailing for comparable manufacturers.

SEC. 7. *Price adjustment or authorization by Price Administrator.* (a) In the event that a reported price is disapproved by the Office of Price Administration, or the reported costs appear out of line with costs generally prevailing for comparable manufacturers, the Price Administrator on his own motion may authorize a maximum price in line with other prices established under section 5 of this regulation for comparable manufacturers.

(b) In the event that a manufacturer is unable to establish a maximum price for such item under the provisions of section 5 of this regulation, he shall make application to the Office of Price Administration describing the item in detail, and stating the amount of and costs of all ingredients and packaging materials contained in the item. The Price Administrator shall establish a maximum price for such item in line with prices established for comparable item by comparable manufacturers under section 5 of this regulation.

SEC. 8. *Notices.* With the first delivery of an item for which a manufacturer has established a maximum price under this regulation, the manufacturer shall provide each purchaser who purchases from him with the following notice:

Date

Our maximum price of (insert maximum price) for (describe item, brand name and type) has been determined in accordance with Maximum Price Regulation 615. Maximum prices for sales by wholesalers and retailers are established by Section 9 of the same regulation. This section provides that wholesalers and retailers shall add to their "cost of acquisition" (not in excess of his supplier's lawful maximum price) the same percentage markup which they had on or before June 29, 1946 for the item bearing the same brand name. If any wholesaler or retailer did not sell such an item on or before June 29, 1946 he shall add the same percentage markup which he had for sales of a candy item with the same or most similar cost of acquisition. Wholesalers must provide a similar notice to retailers who purchase from them.

The above notice must be attached to or stamped on the shipping container or may be attached to or stamped on the invoice covering the first delivery to any purchaser.

SEC. 9. *Wholesale and retail prices.* The maximum price which any wholesaler or retailer may charge for any item subject to this regulation shall be his cost of acquisition (not in excess of his supplier's lawful maximum price) multiplied by the same percentage markup he had on or before June 29, 1946 for sales of the item bearing the same brand name, or if he sold no such item, the same percentage markup he had on or before June 29, 1946 for sales of the candy item with the same or most similar cost of acquisition.

All wholesalers establishing maximum prices under the provisions of this regulation shall furnish each purchaser upon the first delivery of an item, with a notice stating his maximum price, the regulation under which it was authorized, and the method by which a retailer must establish his maximum price.

SEC. 10. *Geographical applicability.* The provisions of this regulation shall apply to the 48 States of the United States of America and to the District of Columbia.

SEC. 11. *Compliance with the regulation.*—(a) *Prohibition.* No person shall buy, offer to buy or receive in the course of trade or business, and no person shall sell, offer to sell, transfer or deliver any candy item to which this regulation applies at a price higher than the maximum price established by this regulation. Sales and purchases at prices lower than those established may be made.

(b) *Evasion.* No person shall evade a maximum price, directly or indirectly whether by commission, service, transportation or other charge or discount, premium or other privilege; by tying agreement or other trade understanding; by any change of product or in any other way.

SEC. 12. *Enforcement.* Any person violating any provision of this regulation is subject to the criminal penalties, civil enforcement actions and suits for treble damages provided by the Emergency Price Control Act of 1942, as amended.

SEC. 13. *Records.* All sellers, except retailers, who make sales of candy items covered by this regulation shall make and preserve for examination by the Office of Price Administration, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, a record of all sales of such commodities, showing the quantity sold, terms of sale, price and name and addresses of the purchasers. All sellers, including retailers, shall likewise preserve all cost records, invoices and other data used in determining their maximum selling prices.

SEC. 14. *Failure to file reports.* The failure of any person to file any report required by this regulation or by any order issued hereunder shall constitute a violation of this regulation and of the Emergency Price Control Act of 1942, as amended.

SEC. 15. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control are applicable to all sellers subject to this regulation. A seller's license may be suspended for violation of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sales for which his license has been suspended.

SEC. 16. *Petition for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.

SEC. 17. *Appendices—Reporting forms.* The form in Appendix A must be used by all manufacturers in reporting maximum prices determined under this regulation. The form in Appendix B must be used for reporting maximum prices of any items for which the manufacturer elects to retain his price determined under § 1499.2 (a) of the General Maximum Price Regulation, or his maximum price determined under the provisions of Supplementary Order 182.

Copies of these forms may be obtained at any District Office of the Office of Price Administration, or the report may be made on forms copied from Appendix A or Appendix B.

INSTRUCTIONS TO ACCOMPANY OPA FORM 6035-2904

PART I. IDENTIFICATION OF ITEM

Item 1. Identify the item you are pricing by indicating the brand name appearing on the wrapper, box, bag, etc. If it is not sold under a brand name, a statement to that effect must be made. Your application must be accompanied by three representative samples of the item.

Item 2. If the item being priced contains from one to six pieces per consumer-size unit your product belongs in group (a), as defined in Section 4 of the regulation. If the product contains more than six pieces per consumer-size unit you should price the item in accordance with the provisions governing group (b). Check the group under which the reported item falls.

Item 3. Indicate the number of consumer-size packages customarily sold as a unit (12's, 24's, etc.). This will be the unit on which your calculations, made in Parts II and III of OPA Form 6035-2904 will be based.

PART II. CURRENT COST BREAK-DOWN OF INGREDIENTS AND PACKAGING MATERIALS

Item 1, Column 1. List all ingredients used to produce the item being reported. Each ingredient should be described in detail. For example, Spanish peanuts, roasted, blanched, picked out; 43° corn syrup; low fat cocoa, etc.

Column 2. Show in this column the net cost per pound, gallon, etc., to you, of each ingredient listed in Column 1 as shown on the invoice for the last purchase of this ingredient made between December 31, 1945 and September 17, 1946. However, you may not use any cost incurred during the period of July 1, 1946 through July 25, 1946, as a basis for determining your cost for any ingredient or for any raw material entering into a semi-finished product. In order to expedite your case, submit with your application the invoices (or authenticated copies thereof) used in determining your cost. If you manufacture a semi-finished product which enters into the production of the item, you may enter the total cost to produce the semi-finished product as an ingredient cost if the semi-finished product may normally be purchased on the open market. For example, if you produce your own chocolate to be used as a coating on the item being reported, you may show as the cost of your coating, the total cost to manufacture it (cocoa beans, labor, overhead, etc.). However, if you purchase two types of chocolate and blend them, since that blend could not, normally, be purchased in the open market, you may only show as ingredient cost, the net purchase price of the two types, per unit of sale.

Column 3. Show in this column the quantity of each ingredient used to produce a sales unit.

Column 4. Your cost per unit of sale for each ingredient is determined by multiplying Column 3 by Column 2.

Item 1B. Deduct from the total weight of raw materials entering into the production of your sales unit, the average shrink, by weight, experienced in the production of the item.

Item 1C. Subtracting your loss in process (item 1B) from item 1A results in the net weight per sales unit.

Item 1D. The amount shown in Item A, carried down to Item 1D, is your legal maximum price, per sales unit for the item you are reporting.

Item 5, Column 1. List and describe all materials used to package the item being reported.

Column 2. List the cost to you for packaging materials, per purchase unit as shown on the invoice for the last purchase made between December 31, 1945 and September 17, 1946. However, you may not use, as a basis for determining packaging material costs, any cost incurred during July 1, 1946, through July 25, 1946, or any invoice dated later than the effective date of this regulation.

Column 3. If, in the packaging process, you perform a service or produce an item which, normally may be obtained from an outside source, you may enter, as the cost thereof, the total cost to produce that item. For example, if you produce the glassine bags in which you package the product, the total cost to manufacture them (glassine, labor, power, etc.) may be shown in this column. However, costs to seal the glassine bag, setting up or sealing shipping containers may not be included as an item of packaging materials cost inasmuch as these services are, normally, performed by the candy manufacturer.

Column 4. Indicate the cost for each item of packaging material, per unit of sale.

PART III. SELLING PRICE

Item 6. If the item falls within group (a) (6 or less pieces), as defined by Section 4 of the regulation, the total cost for raw materials and packaging should be multiplied by 1.85 to arrive at your maximum price.

Item 7. If the item falls within group (b) (more than 6 pieces), as defined by Section 4 of the regulation, the total cost for raw materials and packaging should be multiplied by 2.27 to arrive at your maximum price.

Item 8A. The net weight per consumer-size unit, is determined by dividing the weight shown in Item 4C, by the number of consumer-size units per sales unit (Item 3). The figure resulting from this calculation will be the net weight, per consumer-size unit, which you are required to maintain for the item you are reporting; a reduction of which will constitute a violation of this regulation.

Item 8B. Indicate the weight which will appear on the wrapper.

If you have elected to retain a maximum price for a candy item determined in accordance with either Section 1499.2 (a) of the General Maximum Price Regulation (March 1942 freeze price) or Supplementary Order 182, you must report on this form the brand name, weight per consumer size package and maximum price per sales unit for each such item. If the item has no brand name you must give a description of the item.

Brand name	Net weight per consumer-size	Maximum price per sales unit

Indicate (yes or no) whether these prices have been determined under SO 182 .....

District Office at which application under SO 182 was filed .....

Date adjustment of prices granted under SO 182 .....

This regulation shall become effective September 23, 1946.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 23d day of September 1946.

JAMES G. ROGERS, JR.,
Acting Administrator.

Approved: September 16, 1946.

CHARLES F. BRANNAN,
Acting Secretary of Agriculture.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF MAXIMUM PRICE REGULATION 615

This regulation provides a new method for manufacturers as well as wholesalers and retailers to determine maximum prices for all candy items packaged by the manufacturer in consumer size units which are designed to sell to consumers from 5 to 10 cents. (Only items which manufacturers sell to wholesalers at between 30 and 68 cents per dozen consumer-size units are considered as designed to sell from 5 to 10 cents.) Solid chocolate molded items are excluded but all items such as chocolate and non-chocolate covered bars, consumer size packages of wafers, mints flavored hard candy tablets, panned goods, caramels, fudges, gums, jellies, etc., which sell to consumers from 5 to 10 cents, are covered. For these items, this regulation supersedes all maximum prices previously established with the exception of (1) prices established under Supplementary Order 182 and (2) prices established under section 1499.2 (a) (the highest price charged during March, 1942 for that item).

Candy was placed under price control by the General Maximum Price Regulation effective in May 1942. There have been two modifications of this original pricing structure for candy covered by this regulation. In July 1943, Amendment 7 to Maximum Price Regulation 262 was issued which allowed manufacturers of peanut candy to recalculate their maximum prices to reflect the ingredient costs current at that time. The maximum prices of pecan candy were increased in October 1945 by Amendment 13 to Supplementary Regulation 140. With the exception of these two types of candy the manufacturers' maximum prices of all bar candy covered by this regulation are determined under the General Maximum Price Regulation.

The period since March 1942 has been marked by drastic pressures on the price ceilings. Demand for candy has increased enormously, but the supply has not kept pace because of the shortage of sugar. The General Maximum Price Regulation has not been too satisfactory as an instrument to combat these pressures, due in large part to the unstandardized nature of candy items. As a "freeze" regulation it has held the prices of old items to the March 1942 level; however, the maximum prices of items introduced since March 1942 have been determined either by price comparisons to similar products or in accordance with price-cost relationships on comparable products. These two methods tend toward loose pricing because of the difficulty of defining similarity and comparability. Gradually items of lower and lower value in terms of March 1942 cost conditions could be priced under the new product pricing provisions. As a consequence, the importance of bars which were sold in March 1942 has been declining during the period of price control.

The circumvention of maximum prices in line with the level of prices existing in March 1942 has been stimulated by the shortage of sugar and increases in material and labor costs. Manufacturers, to maintain or to increase their volume, have turned to items using less sugar. Since the end of the war the sugar allotments of most manufacturers have been reduced due to cancellation of war contracts. This has meant a lower volume of production resulting in higher overhead costs per unit. At the same time direct costs have been rising due to both higher maximum prices on many important ingredients such as sugar and corn syrup and wage increases. The introduction of new items has been a means to offset and delay the impact of these increases.

The substitution of new items for "freeze" items has had the same effect as a price increase on the general level of earnings of manufacturers of candy items covered by this regulation. The Administrator has no evidence which indicates that current earnings are below those of a normal peacetime period with adjustments for changes in net worth. However, it appears that the distribution of earnings has shifted from its prewar pattern. The degree of substitution of new items for old varies widely among manufacturers. Manufacturers who have maintained the bulk of their production in "freeze" items have felt the impact of higher production costs without the compensating effects of new items; the earnings of this group have been depressed as a result.

The trend away from "freeze" bars may result in a nearly complete circumvention of the General Maximum Price Regulation, except for those manufacturers who are unable to shift their production to new items because of highly specialized equipment. Such manufacturers would continue to find themselves in a position of increasing financial hardship. As a result of these conditions, the accompanying regulation is being issued in order to halt the trend of further circumvention of price control and to remove existing price inequities without perceptibly increasing the general price level.

The Administrator has explored various methods designed to halt this trend and to remove the price inequities existing between old-line items and newly introduced items. He has determined that in view of the wide variations in the ingredients and packaging materials the most practical method is a formula which relates the maximum price to the material cost per unit of sale. Such a formula based on current prices and material costs should equalize the prices for all manufacturers and for all items without raising the general level of prices. Although some of the old standard items may be increased in price or may be slightly reduced in size, other items, currently offering a lesser value to the consumer, should be either increased in size or reduced in price.

Cost data for a great number of 5 and 10 cent items, showing the relationship of selling prices to ingredient and packaging material costs, were examined. A significant difference was found to exist between the bar type items or those containing 6 or less individual pieces and items containing more than 6 individual pieces. The cost of ingredients and packaging materials for the first group equalled, on the average, approximately 54 per cent of the delivered price, whereas these costs for the second group equalled only 44 per cent.

Based on these findings the Administrator has classified the items covered by this regulation into two groups for the purpose of establishing maximum prices. A simple pricing method has been established, applying a percentage markup to the total cost of ingredients and packaging materials of the sales unit. Translating the relationship of costs to selling prices, resulted in a multiplying factor of 185 per cent for one group and 227 per cent for the other. In order to avoid the former weakness of the General Maximum Price Regulation in pricing candy, which induced the introduction of new items all items are priced on the basis of costs during a specific period. In restricting the use of material and ingredient costs to a specific period, the Price Administrator is aware of the possibility that increases in ingredient costs in the near future may seriously distort the present cost price relationship. In such an event appropriate action will be taken.

In determining his maximum price the manufacturer must use as a basis for the total cost of ingredients and packaging materials, his most recent purchases made between December 31, 1945, and September 17, 1946, except any purchases made between July 1, and July 25, 1946. Purchases made prior to January 1, 1946, or during the period of no price control would be unrepresentative of current costs and would not permit the maintenance of the present general level of prices. To further assure that costs are representative, the purchases must be of a customary quantity, from a customary type of supplier. In the event that a manufacturer was not in operation or made no purchases of an ingredient or packaging material during the prescribed period, a maximum price will be established by the Office of Price Administration in line with prices determined in accordance with the formula by other manufacturers.

The price established by the formula is a delivered price since it has been the custom of practically all manufacturers to charge one delivered price. However, f. o. b. sales may be made, provided that the delivered price is reduced by the actual cost of transportation. An additional provision permits manufacturers, who customarily have sold to independent retailers at a differential over and above their price to wholesalers and chain stores, to add the same differential for such sales under this regulation.

Other requirements of this regulation are the keeping of adequate records showing the determination of ceiling prices and the reporting of all maximum prices. A report of the calculation of any price must be filed with the OPA prior to the offering of any item for sale. A reporting form and instructions for its use have been included in the regulation. If the OPA does not request additional information or disapprove the filing, the price reported, if correctly calculated, will be deemed approved at the end of twenty days after filing.

With the first delivery of an item priced under this regulation, the manufacturer must provide his purchasers with a notice (set forth in the regulation) telling wholesalers and retailers how to establish their maximum prices. Specifically, wholesalers and retailers establish their maximum prices by adding to their current cost of acquisition the same percentage markup they had on or before June 29, 1946, for the item bearing the same brand name. If any wholesaler or retailer sold no such item, he may add the same percentage markup which he had on or before June 29, 1946 for sales of a candy item with the same or the most similar cost of acquisition.

Representatives of the industry affected have been consulted and insofar as practicable, the Administrator has incorporated their recommendations and suggestions into this regulation.

The provisions of this regulation do not compel changes in the business practices, or methods of the industry except to the extent necessary to prevent circumvention or evasion of this regulation and of the Emergency Price Control Act of 1942, as amended.

PART 1305—ADMINISTRATION

[Rev. SO 9, Revocation]

ADJUSTMENT OF MAXIMUM PRICES OF COMMODITIES OF SERVICES UNDER GOVERNMENT CONTRACTS OR SUB-CONTRACTS

A statement of the considerations involved in the issuance of this order, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Revised Supplementary Order No. 9, as amended, Adjustment of Maximum Prices of Commodities or Services Under

Government Contracts or Subcontracts, is hereby revoked.

This order shall become effective September 25, 1946.

Issued this 24th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF CONSIDERATIONS ACCOMPANYING REVOCATION OF REVISED SUPPLEMENTARY ORDER 9, AS AMENDED

Revised Supplementary Order No. 9, as amended, provided for adjustments of maximum prices of commodities or services under Government contracts or subcontracts in order to remove impediments to war procurement. With the cessation of hostilities the former urgency of war procurement has disappeared. Furthermore, existing price regulations generally contain individual adjustment provisions or other supplementary orders provide for adjustments sufficient, it is believed, to remove any price impediments that may hamper production and distribution whether or not the commodities or services involved are the subject of Government contracts or subcontracts. For these reasons, the Administrator believes the overriding adjustment provisions of Revised Supplementary Order No. 9, as amended, are no longer necessary and, in fact, they are now generally inactive. The accompanying order, therefore, revokes Revised Supplementary Order No. 9, as amended.

[SO 176, Amdt. 1]

ALTERNATIVE PRICING BY USE OF MARCH 31, 1946 MARKUP

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Supplementary Order 176 is amended in the following respect:

1. Paragraph (f) is added to read as follows:

(f) *Certain foods.* Any seller at wholesale covered by this supplementary order who sells to wholesalers or retailers subject to Maximum Price Regulation 421, 422 or 423 any commodity which is covered by those regulations must, with the first delivery of such commodity after the date of an authorized change in the seller's maximum price, supply each wholesaler or retailer covered by those regulations who purchases from him, with written notice, reading as follows:

(Insert date)

NOTICE TO WHOLESALERS AND RETAILERS

Our OPA ceiling price for (describe item by kind, variety, grade, brand, style of pack, and container type and size) has been changed by the Office of Price Administration. We are authorized to inform you that if you are a wholesaler or retailer pricing this item under Maximum Price Regulation No. 421, 422 or 423, you must refigure your ceiling price for this item on the first delivery of it to you from your customary type of supplier with this notification after (insert effective date of the applicable supplement, amendment or order). You must refigure your ceiling price following the rules in section 6 of Maximum Price Regulation No. 421, 422 or 423, whichever is applicable to you.

For a period of 60 days after determining the new maximum price for the item, and with the first shipment after the 60-day period to each person who has not made a purchase within that time, each seller shall include in each case, carton, or other receptacle containing the item, the written notice set forth above, or securely attach it to the outside. However, for sales direct to any retailer subject to MPR 422 or 423 he may supply the notice by attaching it to, or stating it on, the invoice covering the shipment, instead of providing it with the goods.

This amendment shall become effective September 30, 1946.

Issued this 24th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 1 TO SUPPLEMENTARY ORDER 176

The accompanying Amendment requires wholesalers covered by Supplementary Order 176 who sell food items to wholesalers and retailers whose resales of the items are governed by Maximum Price Regulations 421, 422 and 423 to give formal official notification to their customers when they use their new ceiling prices figured under the order. In the absence of such notification the buyers could not refigure their own ceiling prices and would be compelled to absorb the increases in their suppliers' ceiling prices. Section 2 (t) of the Emergency Price Control Act of 1942, as amended, prohibits the requiring of such absorption. This amendment will obviate that result.

STATEMENT OF CONSIDERATIONS TO SO 183, CORRECTION

In the Statement of Considerations accompanying the issuance of Supplementary Order 183, the last sentence in the seventh paragraph is corrected to read as follows:

That paragraph sets forth one of the provisos to the basic standard and allows the Administrator to use total product costs plus a reasonable profit as a limitation upon the increase otherwise required, unless it appears that a substantial expansion in the production of the product would be practicable without reducing the production of at least equally needed products.

FOOD RATIONING FOR INSTITUTIONAL USERS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Revised General Ration Order 5 is amended by adding a new section 12.5 to read as follows:

SEC. 12.5 *Institutional users who suffer hardship because of amendment to definition of sugar may obtain relief.* (a) Any institutional user (other than a Group I user) who, on August 22, 1946, had a product which before such date was not classified as sugar but which was classified as sugar by the enactment of Amendment 20 to Third Revised Ration Order 3 and who wishes to make an institutional use of such product without having to give up evidences for such use (or incur an excess inventory charge) may do so. However, such institutional user must on or before October 15, 1946, report to the District Office with which he is registered in accordance with the provisions of section 17.6 of Third Revised Ration Order 3. (All use made after August 22, 1946, and prior to the making of the report is considered excess inventory.)

(b) The Washington Office, under the provisions of section 17.6 (b) of Third Revised Ration Order 3, may give permission to institutional users to acquire and use specified amounts of such products which distributors had on hand on August 22, 1946.

This amendment shall become effective September 24, 1946.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1946.

Issued this 24th day of September 1946.

RATIONALE ACCOMPANYING AMENDMENT NO. 23 TO THIRD REVISED ORDER 3 AND AMENDMENT NO. 10 TO REVISED GENERAL RATION ORDER 5

PRESENT REGULATIONS

The definition of sugar as revised by Amendment No. 20 to Third Revised Ration Order 3 includes certain products which were not classified as sugar prior to August 22, 1946, the effective date of Amendment No. 20.

PROPOSED AMENDMENTS

These amendments provide that any person who had such a product on August 22, 1946 and desires to make an industrial or institutional use of it without giving up evidences or incurring an excess inventory charge, may do so provided he makes a report to the District Office with which he is registered or, if he is not registered, to the District Office for the place where his establishment is located, on or before October 15, 1946, stating the total amount of such product he had on August 22, 1946, its location, and the amount of sugar solids it contains. Any amount used after August 22, 1946, and not reported on or before October 15, 1946, will be charged as excess inventory.

They further provide that any person who wishes to sell or deliver such a product without getting evidences must, on or before October 15, 1946, apply in writing to the Washington Office of the Office of Price Administration for permission to do so, stating the amount of such product which he had on August 22, 1946 and remaining unsold or undelivered on the date he files his application, the amount of sugar solids it contains, its location, the persons to whom he wishes to sell or deliver it and the amount he wishes to deliver to each.

Permission to sell and deliver such a product without the exchange of ration evidences and permission for persons to whom it is delivered to use it without incurring an excess inventory charge will be granted on such terms and conditions as the Washington Office of the Office of Price Administration may deem advisable. Such Office may also restrict the amount any person may receive.

[1] 11 F. R. 116.

REASONS FOR AMENDMENT

Revision of the definition of sugar by enactment of Amendment No. 20 to Third Revised Ration Order 3 found some persons with products which are now classified as sugar although prior to the effective date of such amendment, August 22, 1946, those same products were not included in the former definition of sugar.

It was not possible to give advance notice of the issuance of Amendment No. 20 revising the definition of sugar so that any person who had a product which became classified as sugar by reason of such amendment might have a period of grace in which to use, sell or deliver it ration-free and without incurring any excess inventory charge, as the case might be. Therefore, these amendments are being issued to alleviate hardship that might ensue to any person who is placed in such a position by virtue of the revision of the definition of sugar.

The report required of a person who desires to make an industrial or institutional use of any such product will enable the District Office to ascertain the total amount of such product, its location, its sugar solids content, and will permit it to grant relief only in those cases where a person had such a product on August 22, 1946 and reported it on or before October 15, 1946.

Similar information is required to be submitted in the case of a person who applies in writing to the Washington Office of the Office of Price Administration for permission to sell or deliver such a product. In addition, the applicant must state in his application the names of the persons to whom he wishes to sell or deliver such product, and the amounts he wishes to deliver to each. In this way the Washington Office of the Office of Price Administration will be able to provide for an equitable distribution of any such product and thus prevent any person from obtaining an inordinate amount of such product.

FINISHED RICE AND RICE MILLING BY-PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Subparagraphs (1), (2) and (3) of section 9 (a) are amended to read as follows:

(1) For finished rice consisting of not less than 96 percent of whole kernels and not more than 4 percent of broken kernels nor more than 1 percent of a variety other than the predominant variety, the maximum prices per hundred pounds shall be as follows:

Variety	Milled rice	Unpolished[1] rice	Brown[2] rice	Parboiled rice
Rexoro	$9.90	$9.05	$8.40	$10.70
Texas Patna	9.90	9.05	8.40	10.70
Blue Bonnet	9.90	9.05	8.40	10.70
Nira	9.90	9.05	8.40	10.30

Any other variety	7.80	7.30	7.00	9.20

[1] When unpolished rice is sold to the United States Government or any of its agencies, or is sold to purchaser having a certificate from a governmental agency showing that such rice is essential to the war effort and is to be exported from the United States, the maximum price shall be the maximum price for milled rice. Any such certificate shall be filed in duplicate with the National Office of Price Administration, Washington, D. C., ten days prior to the purchase of the rice and shall also state the quantity of rice to be purchased and the mill from which it is to be purchased.

[2] When brown rice is sold to a purchaser having a certificate from a governmental agency showing that such rice is essential to the war effort and is to be exported from the United States, the maximum price shall be the maximum price for milled rice. Any such certificate shall be filed in duplicate with the National Office of Price Administration, Washington, D. C., ten days prior to the purchase of the rice and shall also state the quantity of rice to be purchased and the mill from which it is to be purchased.

(2) For finished rice not covered by subparagraph (1) above, the maximum price shall be as follows:

(i) For any lot of milled rice containing more than 4 per cent broken kernels, either:

(*a*)

Class:	*Maximum price*
Second heads—Rexoro, Nira, Fortuna, Bluebonnet, Java, long, and Texas Patna	$6.75
Second heads—any other variety	6.00
Screenings	5.00
Brewers	4.50

or (*b*) the figure obtained:

(*1*) By multiplying the percentage of whole kernel finished rice in the lot by $6.40 (or, at the option of the seller, by multiplying the percentage of each variety and kind of whole kernel rice in the lot by the maximum price for each such variety and kind respectively, as specified in subparagraph (1) above, and totaling the results); and/or

(2) By multiplying the percentage of broken kernel finished rice in the lot by $4.75 (or, at the option of the seller, by multiplying the percentage of each class or kind of broken kernels in the lot by the maximum price for each such class or kind of broken kernels, respectively, as specified in inferior subdivision (*a*) above and totaling the results); and

(3) By totaling the results of (*1*) and (*2*) if the lot contains both whole kernel finished rice and broken kernel finished rice.

(ii) For unpolished rice broken kernels, $5.50.

(iii) For brown rice broken kernels, $5.25.

(3) For finished rice which has been granulated, the maximum prices shall be:

(i) Where the seller furnishes a certificate of a recognized grading service certifying the variety or kind of finished rice in the lot before granulation, the maximum price for such variety or kind shall be as above set forth in this section plus an increase at the rate of 10 cents per one hundred pounds.

(ii) Where no such certificate is furnished, $4.50 per one hundred pounds.

This amendment shall become effective as of September 16, 1946.

Issued this 24th day of September 1946.

Administrator.

Approved: September 20, 1946.

CHARLES F. BRANNAN,
Acting Secretary of Agriculture.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 17 TO 2D RMPR 150

The Secretary of Agriculture, under section 1 (A) (e) (A) of the Emergency Price Control Act of 1942 as amended, has directed the Price Administrator to increase maximum prices of rough rice by $1.00 per barrel and to adjust maximum prices for finished rice to reflect such increase in the cost of rough rice.

Maximum prices for rough rice have already been increased pursuant to such directive by Amendment 12 to MPR 518. The accompanying amendment makes the required adjustments in maximum prices of finished rice. The Price Administrator has determined that the most feasible method of reflecting this increase is to distribute it among whole kernels, second heads, screenings and brewers rice on the basis of milling yields for the different varieties. The milling yields used for this purpose are those which the rice milling industry has currently submitted to the Office of Price Administration.

In addition, the accompanying amendment increases maximum prices of finished rice to compensate for two recent increases in raw material costs. These increases became effective on July 25, 1946, and millers are just beginning to experience their impact as the 1945 rice crop commences to be harvested. The first of these increases is a result of Amendment 11 to MPR 518 which provides a premium of 2 cents per barrel for each one-tenth of one percent of moisture content below 17 percent down to

price for this item on the first delivery of it

11:12 a. m.]

No. 167——3

14 percent. Previously maximum prices for rough rice were established on the basis of 17 percent moisture content with no premiums for lower percentages. However, it was found that rough rice to be suitable for milling purposes should contain less than 17 percent of moisture and preferably not much more than 14 percent. As a result of this amendment, millers are faced with the prospect of paying additional amounts for their rough rice. It is clear, however, that under present harvesting conditions this premium will not be paid on all rice because some of it will be sold on a wet basis. Since this year's production of rice is approximately equal to that of last year the Price Administrator is of the opinion that the most equitable method of determining the amount of this increase is to base it upon the production and moisture figures of last year's crop. On such a basis the Price Administrator is satisfied that 50 cents per barrel represents a fair and equitable estimate of increased costs for the industry as a whole as a result of such amendment. The second of these increases is the result of a requirement of official certification and determination of moisture by the U. S. Department of Agriculture, the expense of which, amounting to 2 cents per barrel, must be borne by the miller.

It appears from an accounting survey conducted by the Office of Price Administration in 1944 and from other information available to this office that rice millers are not now recovering total cost. Under such circumstances, the Price Administrator is of the opinion that an interim adjustment in maximum prices of finished rice is appropriate in order to cover these two known material costs increases. Such adjustment will assure the industry that the maximum prices for finished rice will generally cover total costs for the product.

The Rice Milling Industry Advisory Committee is now preparing a petition for adjustment of maximum prices of finished rice under Section 6 of the Emergency Price Control Act of 1942, as amended. The Price Administrator realizes that a considerable period of time may elapse before the petition has been finally prepared and filed with the Office of Price Administration and a decision reached upon it. The information received as a result of that petition will enable the Administrator to determine the extent of any further adjustment that may be necessary.

Prices for staves previously authorized under section 4 of this regulation may be increased by 18¢ per bundle of 400 inches.

This amendment shall become effective September 24, 1946.

Issued this 24th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF THE CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT 6 TO MAXIMUM PRICE REGULATION 342

This Amendment replaces the interim adjustment of 10% on nail keg staves, 5% on heading and 2 cents per keg issued April 4th and effective April 9, 1946, with increases as follows: 14% on staves, 12% on heading under 10⅝" in diameter, 14% on heading 10⅝" or over in diameter, 3.5 cents per keg with heads under 10⅝" in diameter and 3.7 cents per keg with heads 10⅝" or over in diameter. The current increases, taken at the discretion of the Administrator to bring out an increased supply of packages for nails urgently needed for the expanded veterans housing program, represent increases of approximately 3.6% on staves, 7.6% on heading and 1.6 cents per keg over those temporarily authorized in April of this year.

The new prices are based on cost surveys of stave mills, heading mills and nail keg plants made earlier this year at the request of the Slack Cooperage Industry Advisory Committee. The data submitted cover 1945 operations of these mills and plants and were adjusted for cost increases in 1946, including allowable wage increases, in order to reflect current costs of production. In determining the extent of the increases, the Administrator has given consideration to representations by the National Housing Agency and the Civilian Production Administration that price action by this Agency be such as will stimulate increased production of nail kegs. Recently nail keg production has fallen below levels sufficient to meet the demand for shipping containers for the current output of nails. The Civilian Production Administration has ordered greatly increased production of nails. Substitute packages for nails have proven unsatisfactory and divert steel and boxes from other essential needs. It is therefore deemed advisable to authorize prices for nail keg staves, nail keg heading and nail kegs which will contribute to increased production of these items.

The 14% increase in prices for nail keg staves over price levels in effect prior to the interim adjustment is designed to cover the total costs of over 87% of the production and should result in profitable operations for all but a few high cost producers. For those who cannot produce profitably at the new prices, the regulation provides for individual adjustment of maximum prices on showings of financial hardship.

The increases for heading, averaging 13% over price levels in effect prior to the interim adjustment, are designed to cover the total costs of approximately 88% of nail keg heading production and should likewise result in profitable operations for all but a few high cost producers who may, if necessary, avail themselves of the individual adjustment procedure. The heading increases have been allocated in such a way as to give a 14% increase for the larger heading, 10⅝" and over in diameter, and a 12% increase for the smaller heading. This was done at the request of the Industry Advisory Committee which explained that the heading prices in the regulation did not properly reflect the higher costs of producing the larger heading. This contention is supported by a comparison with ceiling prices for 12⅝" slack heading, #2 grade, in Maximum Price Regulation 481, which heading is similar to the larger nail keg heading. The 14% and 12% division, on the basis of expected production projected from sales data for 1945, and the first quarter of 1946, should give an average realization no different from that of a 13% increase on all nail keg heading. A request by the Civilian Production Administration that shippers, wherever possible, attempt to pack 125 lbs. of nails per keg instead of the customary 100 lbs., may result in sales of a somewhat greater proportion of the larger heading. However, examination of the data indicates that a considerable shift in the proportions of larger and smaller heading would be necessary for the 14%–12% allocation to result in a significant change in the designed average 13% increase in overall realization.

The increases for staves and heading represent increased costs incurred in 1945 plus reported increases in labor costs since then which have been authorized by the Wage Stabilization Board.

The average increase allowed for nail kegs is 3.6 cents per keg over price levels in effect prior to April 9, 1946 or 1.6 cents per keg over those permitted the industry by the interim adjustment.

The price increases authorized for nail kegs are based on the costs of producing nail kegs in 1945 as shown in the survey. These costs were adjusted to reflect increased steel and freight costs which have developed in 1946. These costs were further adjusted, as required by the standards of this Office, to reflect those cost savings which might reasonably, apart from increased ceiling prices, be expected to result in a net improvement in the earnings position of the nail keg industry. This adjustment took account of such factors as increased sales, reduction in overtime operations, downgrading of labor, the return of more efficient labor and general improvements in efficiency.

Analysis of the costs of producing nail kegs so adjusted, indicated that an increase in prices of 2.3% was necessary to cover the total cost of 90% of the production of nail kegs, before allowance for increased stave and heading prices. As in staves and headings, such an increase should permit profitable operations for all but the high cost producers, who have the privilege of applying for individual adjustment.

Expressed in terms of cents per keg on a weighted average basis the 2.3% amounts to nine tenths of a cent, using a 40¢ keg as the average. Similarly the 14% increase on staves averages 1.9¢ per keg and the 13% increase on heading averages 8/10 of a cent per keg. Therefore, a direct pass through of the stave and heading cost increases allowed by this amendment added to the 2.3% increase above referred to amounts to approximately 3.6 cents per keg. When allowance is made for the allocation of the heading increase as between the larger and the smaller heading, the final keg adjustment becomes 3.5 cents for kegs made of heading less than 10⅝" in diameter and 3.7¢ per keg for those made with heading over 10⅝" in diameter.

Prices approved for sellers under this regulation pursuant to Section 7 (b) remain in effect unless they are lower than those provided by this Amendment. Such prices may, of course, be readjusted on proper showing of financial hardship.

At the time of the interim adjustment, sellers of staves priced under Section 4 were allowed to add 13¢ per bundle to the prices previously authorized by letter order in order to keep special prices in-line with the level of prices in the regulation. This allowance is now changed to 18¢ for the same reason.

The recommendations of the Slack Cooperage Industry Advisory Committee have been fully considered in the preparation of this Amendment.

In view of the foregoing considerations, the Administrator finds that this Amendment is necessary, proper and consistent with the purposes and standards of the Emergency Price Control Act of 1942, as amended, and the relevant Executive orders of the President.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[3d Rev. RO 3,[1] Amdt. 23]

SUGAR

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Third Revised Ration Order 3 is amended to read as follows:

Section 17.6 is added to read as follows:

SEC. 17.6 *Certain persons who suffer hardship because of amendment to definition of sugar may obtain relief.* (a) Some persons on August 22, 1946, had a product which before such date was not classified as sugar and which was by the enactment of Amendment 20 to this order classified as sugar.

(1) Any such person who wishes to make an industrial or institutional use of such sugar without having to give up evidences for such use (or incur an excess inventory charge) may do so. However, he must on or before October 15, 1946, report to the District Office with which he is registered. If he is not a registered industrial or institutional user he will make a report to the District Office for the place where his establishment is located. In his report he must state:

(i) The total amount in pounds of such product which he had on August 22, 1946 (net weight).

(ii) The location of such product. (If in transit so state.)

(iii) The amount of sugar solids in the product (in pounds). (All amounts used after August 22, 1946, and not reported prior to October 15, 1946, and all such sugar used after August 22, 1946, and prior to the making of the report will be deemed excess inventory in accordance with the provisions of section 2.8 of Third Revised Ration Order 3 and of section 9.7 of Revised General Ration Order 5.)

(2) Any person who wishes to sell or deliver such sugar without getting evidences must, on or before October 15, 1946, apply in writing to the Washington Office of the Office of Price Administration for permission to do so. Application must state:

(i) The total amount in pounds of such product which he had on August 22, 1946 and which he had not sold or delivered on the date he files his application (net weight).

(ii) The amount of sugar solids in the product (in pounds).

(iii) The location of such product. (If in transit so state.)

(iv) The persons to whom he wishes to sell or deliver such product, and the amounts he wishes to deliver to each.

The Washington Office of the Office of Price Administration will, on such conditions as it may deem advisable, permit such product to be sold and delivered without the exchange of ration evidences and may permit the persons to whom delivery is made to use it without having it charged as excess inventory. (That Office may restrict the amounts of such products to any industrial or institutional user.)

(b) Except as outlined and expressly permitted by the Office of Price Administration any such product may be used or delivered only in the way sugar is permitted to be used under the provisions of this order or Revised General Ration Order 5.

(c) Any person making a report or an application under this section must keep a copy of such report or application at his principal business office as long as this order remains effective.

This amendment shall become effective September 24, 1946.

NOTE: The reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 24th day of September 1946.

RATIONALE ACCOMPANYING AMENDMENT NO. 23 TO THIRD REVISED ORDER 3 AND AMENDMENT NO. 10 TO REVISED GENERAL RATION ORDER 5

PRESENT REGULATIONS

The definition of sugar as revised by Amendment No. 20 to Third Revised Ration Order 3 includes certain products which were not classified as sugar prior to August 22, 1946, the effective date of Amendment No. 20.

PROPOSED AMENDMENTS

These amendments provide that any person who had such a product on August 22, 1946 and desires to make an industrial or institutional use of it without giving up evidences or incurring an excess inventory charge, may do so provided he makes a report to the District Office with which he is registered or, if he is not registered, to the District Office for the place where his establishment is located, on or before October 15, 1946, stating the total amount of such product he had on August 22, 1946, its location, and the amount of sugar solids it contains. Any amount used after August 22, 1946, and not reported on or before October 15, 1946, will be charged as excess inventory.

They further provide that any person who wishes to sell or deliver such a product without evidences must, on or before October 15, 1946, apply in writing to the Washington Office of the Office of Price Administration for permission to do so, stating the amount of such product which he had on August 22, 1946 and remaining unsold or undelivered on the date he files his application, the amount of sugar solids it contains, its location, the persons to whom he wishes to sell or deliver it and the amount he wishes to deliver to each.

Permission to sell and deliver such a product without the exchange of ration evidences and permission for persons to whom it is delivered to use it without incurring an excess inventory charge will be granted on such terms and conditions as the Washington Office of the Office of Price Administration may deem advisable. Such Office may also restrict the amount any person may receive.

REASONS FOR AMENDMENT

Revision of the definition of sugar by enactment of Amendment No. 20 to Third Revised Ration Order 3 found some persons with products which are now classified as sugar although prior to the effective date of such amendment, August 22, 1946, those same products were not included in the former definition of sugar.

It was not possible to give advance notice of the issuance of Amendment No. 20 revising the definition of sugar so that any person who had a product which became classified as sugar by reason of such amendment might have a period of grace in which to use, sell or deliver it ration-free and without incurring any excess inventory charge, as the case might be. Therefore, these amendments are being issued to alleviate hardship that might ensue to any person who is placed in such a position by virtue of the revision of the definition of sugar.

The report required of a person who desires to make an industrial or institutional use of any such product will enable the District Office to ascertain the total amount of such product, its location, its sugar solids content, and will permit it to grant relief only in those cases where a person had such a product on August 22, 1946, and reported it on or before October 15, 1946.

Similar information is required to be submitted in the case of a person who applies in writing to the Washington Office of the Office of Price Administration for permission to sell or deliver such a product. In addition, the applicant must state in his application the names of the persons to whom he wishes to sell or deliver such product, and the amounts he wishes to deliver to each. In this way the Washington Office of the Office of Price Administration will be able to provide for an equitable distribution of any such product and thus prevent any person from obtaining an inordinate amount of such product.

PART 1444—ICE BOXES

[MPR 399, Amdt. 35]

NEW ICE BOXES

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.

Maximum Price Regulation No. 399 is amended in the following respect:

1. Section 14, Table A, *Retail ceiling prices in each State for sales of ice boxes by ice companies and retail establishments controlled by ice companies*, is amended by altering the ceiling prices for the Coolerator Company's Model C-7 ice box to read as follows:

This amendment shall become effective on the 30th day of September 1946.

Issued this 24th day of September 1946.

PAUL A. PORTER,
Administrator.

STATEMENT OF CONSIDERATIONS INVOLVED IN THE ISSUANCE OF AMENDMENT NO. 35 TO MAXIMUM PRICE REGULATION NO. 399

The Coolerator Company has received an adjustment under Supplementary Order No. 133 of its ceiling prices for sales to resellers of the Model C-7 ice box which it manufactures. Section 2 (b) of the Emergency Price Control Act of 1942, as amended, requires that the Administrator allow wholesale and retail distributors their average percentage margins in effect March 31, 1946, when he establishes ceiling prices applicable to their sales. It is, therefore, necessary that resellers be permitted to pass through the full amount of the adjustment granted the manufacturer. The accompanying amendment, therefore, establishes resellers' ceiling prices for the Model C-7 ice box which will reflect the average percentage margins received by these resellers on March 31, 1946.

In establishing these retail ceiling prices, the Office of Price Administration employed the pricing methods and techniques utilized in arriving at retail ceiling prices for other ice boxes under Maximum Price Regulation No. 399.

TITLE 38—PENSIONS, BONUSES AND VETERANS' RELIEF

Chapter I—Veterans' Administration

PART 10—INSURANCE

REINSTATEMENT

§ 10.3078 *Provision for reinstatement.* Subject to the provisions of paragraph 3 of the present United States Government life insurance policy or a similar paragraph in any policy that may be issued under the World War Veterans' Act, 1924, or any amendment or supplement thereto, United States Government life insurance which has lapsed, or may hereafter lapse, may be reinstated upon evidence of the insurability of the applicant satisfactory to the Administrator of Veterans' Affairs and under the conditions stated in §§ 10.3079, 10.3080, 10.3081, 10.3090 and 10.3092.

Reinstatement. The policy, if it has not been surrendered for a cash value, may be reinstated at any time after lapse upon evidence of the insurability of the insured satisfactory to the Administrator of Veterans' Affairs, and upon the payment of all premiums in arrears, with interest from their several due dates at the rate of five per centum per annum, compounded annually, to the first monthly premium due date after July 31, 1946, and thereafter at the rate of four per centum per annum, compounded annually, and the payment or reinstatement of any indebtedness which existed at the time of such default, with interest. However, if such indebtedness with interest would exceed the reserve of the policy at the time of application for reinstatement of said policy, then the amount of such excess shall, except as provided in § 10.3081, be paid by the insured as a condition of the reinstatement of the indebtedness and of the policy. PART 35—VETERANS' REGULATIONS

PAYMENT OF PENSION, COMPENSATION OR RETIREMENT PAY WHILE BEING FURNISHED HOSPITAL TREATMENT, INSTITUTIONAL OR DOMICILIARY CARE BY THE VETERANS' ADMINISTRATION

For the purpose of effecting the provisions of Section 1, Public Law No. 662, 79th Congress, the following instructions are issued:

1. Section 1, Public Law No. 662, 79th Congress, provides as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (A) (1) where any veteran having neither wife, child, nor dependent parent is being furnished hospital treatment, institutional or domiciliary care by the Veterans' Administration, any pension, compensation, or retirement pay otherwise payable shall continue without reduction until the first day of the seventh calendar month following the month of enactment hereof, or the month of admission of such veteran for treatment or care, whichever is the later. If treatment or care extends beyond that period, the pension, compensation, or retirement pay, if $30 per month or less, shall continue without reduction, but if greater than $30 per month, the pension, compensation, or retirement pay shall not exceed 50 per centum of the amount otherwise payable or $30 per month, whichever is the greater: *Provided*, That if such veteran is discharged from such treatment or care upon certification by the officer in charge of the hospital, institution, or home, that maximum benefits have been received or that release is approved, he shall be paid in a lump sum such additional amount as would equal the total sum by which his pension, compensation, or retirement pay has been reduced under this section: *Provided further*, That where treatment or care is terminated by the veteran against medical advice or as the result of disciplinary action the amount by which any pension, compensation, or retirement pay is reduced hereunder, shall be paid to him at the expiration of six months after such termination or, in the event of his prior death, as provided in paragraph (2) hereof; and the pension, compensation, or retirement pay of any veteran leaving against medical advice or as the result of disciplinary action shall, upon a succeeding readmission for treatment or care, be subject to reduction, as herein provided, from the date of such readmission, but if such subsequent treatment or care is continued until discharge therefrom upon certification, by the officer in charge of the hospital, institution, or home in which treatment or care was furnished, that maximum benefits have been received or that release is approved, the veteran shall be paid in a lump sum such additional amount as would equal the total sum by which his pension, compensation, or retirement pay has been

reduced under this section subsequent to such readmission.

(2) In the event of the death of any veteran subject to the provisions of this section, while receiving hospital treatment, institutional or domiciliary care, or prior to payment of any lump sum authorized herein, such lump sum shall be paid in the following order of precedence: First, to the widow or widower; second, if the decedent left no widow or widower, or the widow or widower be dead at time of settlement, then to the adult or minor children in equal parts; third, if no widow, widower, or children, then to the father and mother in equal parts; fourth, if either the father or mother be dead, then to the one surviving; fifth, if there be no widow, widower, children, father, or mother at the time of settlement, then to the brothers and sisters in equal parts; *Provided*, That if there be no persons in the classes named to whom payment may be made hereunder, no payment shall be made, except there may be paid only so much of the lump sum as may be necessary to reimburse a person who bore the expenses of last sickness or burial, but no part of the lump sum shall be used to reimburse any political subdivision of the United States for expenses incurred in the last sickness or burial of such veteran: *Provided further*, That no payment shall be made under this paragraph unless claim therefor shall be filed with the Veterans' Administration within five years after the death of the veteran; except that if any person so entitled under this paragraph be under legal disability at the time of death of the veteran, said five-year period of limitation shall run from the termination or removal of the legal disability.

(B) Where any veteran having neither wife, child, nor dependent parent is being furnished hospital treatment, institutional or domiciliary care by the Veterans' Administration, and shall be rated by the Veterans' Administration in accordance with regulations as being incompetent by reason of mental illness, the pension, compensation, or retirement pay for such veteran shall be subject to the provisions of subsection (A) of this section: *Provided*, That no payment of a lump sum herein authorized shall be made until after the expiration of six months following a finding of competency: *Provided further*, That in any case where the estate of such incompetent veteran derived from any source equals or exceeds $1,500, further payments of such benefits will not be made until the estate is reduced to $500: *And provided further*, That all or any part of the pension, compensation, or retirement pay payable on account of any incompetent veteran may, in the discretion of the Administrator, and in accordance with instructions issued by the Administrator, be paid to the chief officer of the institution wherein the veteran is hospitalized, to be properly accounted for by said chief officer and to be used for the benefit of the veteran; or may be paid to the guardian of the veteran in accordance with the provisions of paragraph 1 of section 21 of the World War Veterans' Act, 1924, as amended; or, in the event the veteran has a wife, child, or dependent parent, may, in the discretion of the Administrator, be paid to his wife or apportioned on behalf of such wife, child, or dependent parent; or otherwise be disposed of in accordance with the provisions of paragraph 3 of section 21 of the World War Veterans' Act, 1924, as amended.

(C) Where any veteran who is being furnished hospital treatment, institutional or domiciliary care by the United States, or any political subdivision thereof, has a wife, child, or dependent parent, the pension, compensation, or retirement pay may, in the discretion of the Administrator, be apportioned on behalf of such wife, child, or dependent parent, in accordance with instructions issued by the Administrator.

(D) Any veteran subject to the provisions of subsection (A) or (B) shall be deemed to be single and without dependents in the absence of satisfactory evidence to the contrary: *Provided*, That in no event shall increased compensation, pension, or retirement pay of such veteran be granted for any period more than one year prior to receipt of satisfactory evidence showing such veteran has a wife, child, or dependent parent.

(E) Subparagraphs (A), (B), (C), and (D) of paragraph VI of Veterans Regulation Numbered 6 (a),[1] as amended, are hereby repealed.

(F) Notwithstanding any other provision of this section or any other provision of law, no reduction shall be made in the pension, compensation, or retirement pay of any veteran for any part of the period during which he is furnished hospital treatment, or institutional or domiciliary care, for Hansen's disease, by the United States or any political subdivision thereof.

(G) The administrative, definitive, penal, and forfeiture provisions of Public Law Numbered 2, Seventy-third Congress, act of March 20, 1933, and the Veterans Regulations, as now or hereafter amended, not inconsistent with this section, shall be applicable under this section.

2. (a) The provisions of section 1, paragraph (A) (1) and (B) of the act, pertaining to the reduction or discontinuance of pension, compensation, or retirement pay, are applicable only when the hospital treatment, institutional or domiciliary care is being furnished by the Veterans' Administration, and do not apply when receiving treatment or care for Hansen's disease.

(b) The provisions of section 1, paragraphs (A) (1) and (B) of the act are applicable, except as hereinafter provided, in cases of veterans whose pension, compensation or retirement pay has been reduced or discontinued pursuant to the provisions of § 35.06 (f) (1) and (2), as amended, as well as those veterans who are admitted to a hospital or institution on or after August 8, 1942, the date of approval of the act.

3. On and after August 8, 1946, VA Form 404, showing admission of a veteran to a hospital, center, or other institution at the expense of the Veterans' Administration, will not be dispatched until the first day of the seventh calendar month following the date of admission, except in those instances where the previous admission terminated against medical advice or as a result of disciplinary action, in which event the VA Form 404 showing admission will be dispatched as heretofore, within 24 hours after admission. In the event the veteran is granted a furlough of thirty days or more during this period, VA Form 404 will not be dispatched until the first day of the seventh calendar month following date of return from such furlough. In those instances where VA Form 404 is submitted as outlined above, copy thereof will be submitted upon termination of treatment or care, or furlough for thirty days or more.

4. Upon receipt of VA Form 404 showing admission of a veteran without dependents to a hospital, center, or other institution at the expense of the Veterans' Administration, any running award of pension, compensation or retirement pay in excess of $30 per month will be reduced to $30 per month or 50 percent of the monthly amount otherwise payable, whichever is the greater, effective as of the first day of the seventh calendar month following month of admission, except when the veteran has been rated as incompetent by reason of mental illness and the estate of the incompetent, derived from any source, equals or exceeds $1,500, payment will be discontinued effective as of the date of admission or the first day of the month following receipt of evidence showing the estate equals or exceeds $1,500, whichever is later, and further payments of such benefits will not be made until the estate is reduced to $500, or in the event of a readmission succeeding a termination of treatment or care against medical advice or as the result of disciplinary action the reduction or discontinuance as provided above will be effective as of the date of readmission, or if upon the prior admission the payments were discontinued because the veteran had an estate of $1,500 the discontinuance will be effective as of the date of readmission, or if not so discontinued, the discontinuance will be effective the first day of the month following receipt of evidence showing the estate equals or exceeds $1,500.

5. (a) Restoration to the full amount of pension, compensation or retirement pay otherwise payable in those cases heretofore reduced pursuant to the provisions of § 35.06 (f) (1) and (2), as amended, will as far as possible be automatically effected from the finance records without individual adjudications, effective as of August 8, 1946. In those instances in which the veteran is rated incompetent by reason of mental illness and payments were discontinued because his estate equals or exceeds $1,500 payments will not be restored. The abstract section, adjudication division, regional office or center, and the claims statistics service, central office, will prepare lists of cases by name, C-number, and class of awards as specified in established procedure from the abstract cards, of all cases in which the pension, compensation, or retirement pay has been reduced by reason of hospitalization, institutional or domiciliary care. Copies of these lists in duplicate will be forwarded to the finance division and adjudication officer, regional office or center, or the payees accounts service and chief, claims division, veterans claims service, central office, whichever is in order.

(b) It should be carefully noted that section 1 of the act restores only the full amount of compensation, pension, or retirement pay to such veterans as outlined in paragraph 5 (a) of this instruction. It does not restore the aid and attendance allowance to which such veteran might be entitled were he not in a hospital, home, or other institution of the Veterans' Administration. Accordingly, in effecting the automatic adjustment of restoration to full pension, compensation or retirement pay of such veterans, the aid and attendance allowance will not be restored.

(c) No attempt will be made to adjust the amounts payable to such veterans on the checks for the month of August. These checks should go out to the payees at the reduced rate. The adjustment will be made on the checks to such payees for the month of September.

(d) The adjustment in the amount payable to such payees affected by this provision of the Act and who are also entitled to the 20 percent increase in compensation and pension under section 2 of the Act will be made as follows: The check-copy books for the finance codes affected by the 20 percent increase will be run for the month of September without the amounts payable being shown. For the payees in these codes also entitled under section 1 of the Act to restoration of the full amount of compensation or pension payable from August 8, 1946, two entries will be made on the check-copies. To the right of the C-number, there will be entered an amount reflecting the additional amount due from August 8 to August 31, 1946 under the old rate plus the amount due under the 20 percent increased rate for September. In the right hand margin there will be entered the new monthly rate for subsequent months, which entry will be circled. Appropriate entries will be made on the award account cards to reflect these two automatic adjustments, the authority being Public Law 662, 79th Congress. In addition, when the cards, run by the regional disbursing offices on the codes affected by the 20 percent increase, are received in the finance office and are checked against the award account cards, the cards for those payees affected by section 1 of the Act should have an additional ink or indelible pencil entry made on them—namely, the new monthly rate payable. This ink or indelible pencil entry should be identified as the new monthly rate payable and should be made before they are forwarded to the organizational unit responsible for the abstract cards. In this connection, see also Instructions issued under section 2, Public No. 662, 79th Congress, on procedure for effecting the 20 percent increase provided for by the Act.

(e) The adjustment in the amounts payable to those veterans affected by section 1 of the act but who are not entitled to the 20 percent increase provided for in section 2 of Public Law 662, will, in general, be made as follows: Using the lists by codes referred to in paragraph 5 (a) of this instruction, the check-copies for such payees for September will be marked "void." The award account cards for these payees will be withdrawn from file and forwarded to the adjustment unit. An adjustment voucher, Form 1006, will be prepared, reflecting thereon the accrued amount payable from August 8 through September 30, 1946, under the proper rate and the full monthly rate due. Inasmuch as these payees are subject to a change in amount due for October, insert at the top of the "Remarks" column on the Form 1006 the notation "No Plate Action." In this connection the usual carbon copy of the Form 1006, sent to the regional disbursing office for addressograph purposes, will not be prepared. The Forms 1006 will then be properly processed, certified, and forwarded to the regional disbursing office for payment. In addition, the adjustment unit in the finance office on the cases handled under this procedure will prepare a check size card, showing the name of the payee, the C-number, the adjusted amount payable for August and September, and the full monthly rate payable. Following this, these check size cards will be forwarded to the organizational unit responsible for the abstract cards for appropriate recording entries and filing in the case folders immediately over the most recent award action. The award account cards will then be returned to file.

6. (a) All cases automatically adjusted as above provided will be diaried for review as of March 1, 1947. If, when reviewed, the veteran is still being furnished hospital treatment, institutional or domiciliary care at the expense of the Veterans' Administration, the pension, compensation or retirement pay will be reduced or discontinued as provided in paragraph 4 of this instruction, effective as of March 1, 1947. In the event the treatment or care is terminated prior to March 1, 1947 the follow-up or diary will be canceled.

(b) In cases where an institutional award has been authorized and no guardian has been appointed, any increase in the veteran's award will be deposited in the Funds Due Incompetent Beneficiaries, provided deposits are currently being made in this fund, otherwise such adjustment will be accomplished by award action. If a guardian has been appointed, any increase will be awarded to the guardian.

(c) In any cases where finance employees are in doubt as to the action which should be taken in automatically adjusting the account of a veteran, the case should be referred to the adjudication officer, field office, or the chief, claims division, veterans claims service, central office, for preparation of necessary award. Cases restored to the full amount of pension, compensation or retirement pay otherwise payable by award action will, in the event the veteran is being furnished hospital treatment, institutional or domiciliary care by the Veterans' Administration be diaried for review as of March 1, 1947 and action as provided in subparagraph (a) hereof.

7. (a) When VA Form 404 is submitted upon discharge or furlough for 30 days or more, there will be included in the certification now required of the officer in charge a statement as to whether maximum benefits have been received, or that the release is approved, or was against medical advice or the result of disciplinary action.

(b) When a veteran whose pension, compensation or retirement pay has been reduced or discontinued as provided in paragraph 4 of this instruction, is discharged from treatment or care upon certification of the officer in charge of the hospital, institution, or home that maximum benefits have been received, or release is approved, the award to or on behalf of the veteran will be adjusted in accordance with the last valid rating, if otherwise in order, effective as of the day the veteran is discharged or released from the hospital or institution, and the award will include such additional amount as will equal the total sum by which the pension, compensation or retirement pay has been reduced; except, when the reduction or discontinuance has been effected pursuant to the provisions of section 1, paragraph (B) of the act, in which event payment of the amount equal to the amount by which the pension, compensation or retirement pay was reduced will be awarded six months following the finding of competency, or, in the event treatment or care is terminated by the veteran against medical advice or as the result of disciplinary action payment of the amount by which the pension, compensation or retirement pay was reduced will be awarded the veteran at the expiration of six months after termination of treatment or care.

8. By the provisions of section 1, paragraph (D) of the act, any veteran subject to the provisions of section 1, paragraphs (A) and (B) of the act, shall be deemed to be single and without dependents in the absence of satisfactory evidence to the contrary, and in no event shall increased compensation, pension or retirement pay be granted for any period more than one year prior to receipt of satisfactory evidence showing the veteran has a wife, child or dependent parent. In those instances where the required proof of dependents is not of record, sworn statements on Form 404 or otherwise as to dependency status will constitute a prima facie showing thereof. The veteran will be informed of the necessary additional evidence and that unless it is submitted within 60 days the award will be adjusted on the basis of a veteran without dependents effective as of the first day of the seventh calendar month following admission or date of admission, whichever is applicable, if otherwise in order.

9. (a) Payments of pension, compensation or retirement pay due an incompetent veteran will be made in accordance with current regulations and instructions governing release of payments to a court fiduciary, wife of the veteran, or chief officer of an institution. In cases in which hospital treatment, institutional or domiciliary care is not being furnished the incompetent veteran by the Veterans Administration, payments to the chief officer will not exceed $30 per month and any excess over that amount will be deposited in the Funds Due Incompetent Beneficiaries apportioned to dependents, or a court fiduciary will be appointed when the total amount payable justifies such action.

(b) Apportionments of pension, compensation or retirement pay will be made in accordance with current apportionment regulations.

(c) Determinations as to value of incompetent veteran's estate will be made in accordance with current regulations and instructions governing this matter.

10. Deputy Administrators and managers will, at their discretion, order the necessary over-time and may without regard to personnel ceiling employ temporary part-time employees for not to exceed 45 days, in order to effect the account adjustments outlined in this instruction. Chapter II—United States Maritime Commission

[Gen. Order 44, Rev.]

PART 304—LABOR

SUBSTANTIALLY CONTINUOUS SERVICE OF SEAMEN

The following rules and regulations are prescribed by the United States Maritime Commission to carry out the provisions of Public Law 87, 78th Congress, approved June 23, 1943 (57 Stat. 162), as amended:

Sec.
304.75 Definitions.
304.76 Substantially continuous service.
304.77 Completion of period.
304.78 Partial certificate.
304.79 Record of special proficiency or merit.
304.80 Applications for certificate.

AUTHORITY: §§ 304.75 to 304.80, inclusive, issued under 57 Stat. 162 (50 U. S. C. App., Sup. III, 1471), as amended by Public Law 660, 79th Congress, and Public Law 692, 79th Congress; Public Law 499, 79th Congress.

§ 304.75 *Definitions.* As used herein: (a) "Commission" means, effective as of September 1, 1946, the United States Maritime Commission and means, prior to said date, the Administrator of the War Shipping Administration.

(b) "Division of Recruitment and Manning" means the Division of Recruitment and Manning of the United States Maritime Commission.

(c) "Training Organization" means the Training Organization of the United States Maritime Commission.

(d) "Vessel" means any vessel documented under the laws of the United States, and any vessel owned by, chartered to, or operated by or for the account or use of the Commission or of the War Department.

(e) "Seaman" means any person who has entered service in the merchant marine after May 1, 1940, and before the termination of the unlimited national emergency declared by the President on May 27, 1941.

(f) "Service in the merchant marine" means honorable service:

(1) As a civilian officer or member of the crew on or in connection with a vessel; or

(2) As an enrollee in the United States Maritime Service on active duty; or

(3) As an enrollee or student in any school or institution, including the United States Merchant Marine Cadet Corps and any State Maritime Academy, under the jurisdiction of the Commission or in any civilian marine schools under the jurisdiction of the Army Transportation Corps; or

(4) As a person awaiting assignment for service, as defined above, to such extent as may be established to the satisfaction of the Division of Recruitment and Manning or the Training Organization, as the case may be; or

(5) In any combination of the foregoing.

§ 304.76 *Substantially continuous service.* The service of any seaman in the merchant marine shall be deemed to have been "substantially continuous" if such seaman performs service, as defined in § 304.75 (f), seventy-five per cent (75%) or more of the time elapsing between the date of his entry into such service and the conclusion of one of the periods provided in § 304.77: *Provided*, That any such seaman shall be credited with service in the merchant marine (a) for a reasonable period, but not exceeding one year, including hospitalization, during which he may be disabled for active employment in such service as the result of illness or injury not caused by his own wilful misconduct, (b) for any time required for his repatriation following his separation from the vessel for any cause not due to his own neglect or wilful misconduct (not including time consumed in delay resulting from his refusal to be repatriated) and (c) for any period of interment by an enemy nation: *Provided, further*, That no disadvantage shall accrue to any seaman, who applies within thirty (30) days after his last active service in the merchant marine, as a result of the time intervening between the date of the filing of his application and the date of issuance of his certificate.

§ 304.77 *Completion of period of substantially continuous service.* A seaman shall be deemed to have completed a period of substantially continuous service in the merchant marine if he has performed substantially continuous service, as defined in § 304.76,

(a) For a period of not less than twenty-four (24) months: *Provided*, That in the case of a person who, having been discharged or released from active military or naval service in the land or naval forces of the United States, receives a certificate evidencing satisfactory completion of such service and who, within thirty (30) days from date of discharge or release from such service, enters upon service in the merchant marine, his length of service in the land or naval forces of the United States shall be credited towards this requirement; or

(b) To the date he is permanently disabled for further service as a result of an illness or injury not caused by his own wilful misconduct, plus a reasonable period, not to exceed one year, for necessary medical treatment and hospitalization; or

(c) To the date when the Division of Recruitment and Manning or the Training Organization, as the case may be, certifies that the continued service of the applicant is no longer desirable or necessary.

Upon verification of such service he shall be entitled to a certificate of substantially continuous service, worded as in form A attached.

§ 304.78 *Partial certificate.* Any seaman who terminates his service in the merchant marine for the purpose of performing active military or naval service in the land or naval forces of the United States and enters thereupon within thirty (30) days after termination of his service in the merchant marine shall be entitled to a partial certificate of substantially continuous service, worded as in form B attached, if he performs service, as defined in § 304.75 (f), seventy-five per cent (75%) of the time from the date he enters such service to the date he terminates such service and he shall be entitled to be credited with service in accordance with the provisions of § 304.76.

§ 304.79 *Record of special proficiency or merit.* The applicable certificates described in §§ 304.77 and 304.78 shall contain a record of any special proficiency or merit obtained, as evidenced by any special awards that may have been issued to such seaman by the Merchant Marine Decorations and Medals Board or its predecessor Committees.

§ 304.80 *Applications for certificate.* If at the time of application for a certificate or partial certificate of substantially continuous service in the merchant marine, the applicant has most recently been engaged as an enrollee in the United States Maritime Service, as a cadet-midshipman, or as an enrollee or student in any school or institution under the jurisdiction of the Commission, application for such certificate shall be made through the Training Organization. Application for such certificate by all other seamen shall be made through the Division of Recruitment and Manning. Application forms shall be provided at all regional and port offices of the Division of Recruitment and Manning in the United States, at all schools or institutions under the jurisdiction or supervision of the Commission, and at other accessible places.

By order of the United States Maritime Commission.

R. L. MCDONALD,
Assistant Secretary.

Notices

FEDERAL POWER COMMISSION.

[Docket No. G-775]

OHIO FUEL GAS CO.

NOTICE OF APPLICATION

SEPTEMBER 18, 1946.

Notice is hereby given that on September 6, 1946, an application was filed with the Federal Power Commission by The Ohio Fuel Gas Company (hereinafter referred to as "Applicant"), an Ohio corporation having its principal place of business in Columbus, Ohio, and authorized to do business in the States of Ohio and Indiana, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize the Applicant to construct and operate certain natural gas facilities subject to the jurisdiction of the Federal Power Commission as hereinafter more particularly described.

Applicant seeks authorization to construct and operate the following facilities:

(a) An underground natural gas storage project in Lorain and Medina Counties, Ohio, to be known as the Wellington Storage Project, and consisting of three (3) separate pools covering a total surface area of about 5,225 acres in which there are now a total of sixty (60) producing natural gas wells, and which pools are proposed to be repressured eventually to the original rock pressure (about 1,000 psig) thus giving them a calculated storage capacity of six (6) billion cu. ft. above remaining reserves;

(b) Approximately twenty-six (26) miles of well and gathering pipe lines ranging from 3-inches to 10-inches in size, to be installed in said Wellington Storage Project, and to replace approximately 18.3 miles of existing pipe line ranging from 2-inches to 8-inches in size, in order to withstand higher operating pressures in said Wellington Storage Project resulting from conversion to a repressured area;

(c) A natural gas compressor station in Penfield Township, Lorain County, Ohio, to be known as Wellington Compressor Station with 2,000 horsepower in gas engine compressor units, having a capacity to handle fifteen (15) million cu. ft. of gas per day from a suction pressure of 100 psig to a discharge pressure of 1,100 psig, together with normal auxiliaries and a dehydrating unit;

(d) Approximately sixteen (16) miles of 16-inch OD gas transmission pipeline in Lorain County, Ohio, extending from said proposed Wellington Compressor Station to a point of connection with Applicant's existing 12-inch pipeline "D" in Henrietta Township, Lorain County, Ohio;

(e) A natural gas compressor station in Fayette Township, Lawrence County, Ohio, to be known as South Point Compressor Station with 2,400 horsepower in gas engine-compressor units, having a capacity to handle a maximum of eighty-five (85) million cu. ft. of gas per day from a suction pressure of 280 psig to a discharge pressure of 440 psig, together with normal auxiliaries;

(f) Approximately seventy-two (72) miles of 16-inch OD gas transmission pipeline in Fairfield, Licking and Knox Counties, Ohio, connecting Applicant's existing Crawford, Treat and Brown Compressor Stations;

Applicant states that the construction of the South Point Compressor Station described in (e) above, will permit the receipt and handling between said South Point Station and Applicant's presently existing Crawford Station of an additional 20 to 25 million cu. ft. of gas daily, which it is anticipated will be available from United Fuel Gas Company in the Winter of 1946–47 and which will be required to enable Applicant to meet expected increased peak day requirements.

Applicant further states that the proposed 72 miles of 16-inch pipeline described in (f) above will parallel its existing lines between said Crawford Station and its Brown Station, and is required to transport additional gas expected by reason of said 20 to 25 million cu. ft. daily increase in deliveries from United Fuel Gas Company because Applicant's presently existing pipelines between these two stations do not allow practical operation at the pressures required for such increased volume of gas.

Applicant proposes, by means of the Willington Storage Project, described in (a) above, to increase its present storage capacity since present storage projects are expected to be filled to ultimate capacity in 1946. By placing additional volumes of gas in the proposed storage project Applicant expects to make effective use of it in meeting anticipated increases in peak demands upon its system. The application recites that the estimated capacity of the proposed Wellington Storage Project will be 6 billion cu. ft. above reserves remaining in the spring of 1947, and that it is planned to build up this storage from 1947 to 1949. The area will then be repressured and Applicant believes it will be possible to obtain an initial deliverability of 85 million cu. ft. per day.

The Wellington Compressor Station described in (c) above is proposed in order to provide for repressuring of said Wellington Storage Project.

Applicant states that the proposed 16 miles of 16-inch gas transmission pipe line described in (d) above will enable it to use some 6 to 8 million cu. ft. of daily capacity now being developed in the Wellington natural gas field (which cannot be handled through existing facilities) by transportation of said additional gas to Applicant's transmission line "D" through said proposed 16-inch pipe line. The completion of the South Point Compressor Station and this 16-inch line, the application recites, will permit Applicant to receive and transport to market a total of about 30 million cu. ft. additional gas daily during the winter of 1946–47.

Applicant states that it is necessary that it improve its position with respect to gas deliveries from out-of-State sources in order to meet both annual and peak day requirements of its customers, and proposes, by means of the facilities which are the subject of its application, to insure the adequacy and continuity of service to present markets by permitting receipt of additional natural gas deliveries from United Fuel Gas Company and permitting placement in storage of that part of available gases which are in excess of market requirements. Thus Applicant expects to improve its ability to meet winter demands by reason of both increased deliveries from United Fuel Gas Company and a greater deliverability from underground storage. No new markets are expected to be served. The application recites that the additional gas made available by increased deliveries from United Fuel Gas Company may be used in 1947 in any or all of three ways: (1) for meeting increased market requirements; (2) by replacement, to permit cutting back production from Ohio wells, thus conserving this production to meet winter peaks; or (3) to fill the new Wellington storage project at a rate up to 18 million cu. ft. daily.

Applicant states that the facilities proposed in its application are expected to form a part of a plan of future operations involving contemplated construction of additional pipeline facilities by Applicant and United Fuel Gas Company for which application will be made later.

Applicant estimates the total over all cost of construction of the proposed facilities will be $3,370,100 of which $3,073,100 represents new construction and $297,000 represents replacement construction. The cost of construction is proposed to be procured from Columbia Gas and Electric Corporation in accordance with arrangements evidenced by correspondence filed with the application as exhibits thereto. The amount made available is expected to be procured from funds of approximately $13,000,000 which Columbia Gas and Electric Corporation anticipates will be available for new construction by its subsidiaries during 1946, 1947, and 1948. No contracts for construction of the proposed facilities have been entered into as yet, and Applicant states that the contractors expressing interest in said construction have no affiliation with Applicant.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of the Commission's rules of practice and procedure, and, if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, the creation of a board, or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the application of The Ohio Fuel Gas Company should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen days from the date of publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the Commission's rules of practice and procedure.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[Docket No. G-779]

HOPE NATURAL GAS CO.

NOTICE OF APPLICATION

SEPTEMBER 18, 1946.

Notice is hereby given that on September 9, 1946, an application was filed with the Federal Power Commission by Hope Natural Gas Company (hereinafter referred to as "Applicant"), a West Virginia corporation having its principal office at Clarksburg, West Virginia, and authorized to do business in West Virginia, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicant to construct and operate certain facilities subject to the jurisdiction of the Federal Power Commission as more particularly described hereafter:

Approximately 3/10 mile of 12" pipe from a point known as Nolan Junction to the high pressure engines at Hastings Compressor Station No. 2 and approximately 3/10 mile of 12" pipe from Hastings Compressor Station No. 1 (medium pressure plant) to Hastings Compressor Station No. 2 (high pressure engines).

Applicant states that it is necessary to strengthen its present suction line system into the Hastings Compressor Station No. 2, and the authority is sought in the pending application in view of the fact that these facilities were inadvertently omitted in the applications filed in F. P. C. Dockets Nos. G-696 and G-716. Applicant further states that the present suction lines are not of sufficient capacity to carry all the gas necessary to be discharged at No. 2 Plant of Applicant's system without an excessive drop in pressure between the points above described. In order to compress the high pressure discharge of from 140,000 to 145,000 Mcf. available at Hastings Plant No. 2 and discharge this amount of gas at high pressure to the New York State Natural Gas Corporation and The East Ohio Gas Company, it is necessary to maintain a suction pressure at No. 2 Plant of the system of 300#. The present system of suction lines for the above necessary discharge of volumes cannot now maintain a suction pressure of over 260#.

Applicant states that the approximate cost of these two new proposed suction lines will be $25,000 and $14,000 respectively, which will be financed from company funds and will be constructed by the company's employees.

Any interested State commission is requested to notify the Federal Power Commission whether the application should be considered under the cooperative provisions of rule 37 of the General Rules of Practice and Procedure of the Commission under the Natural Gas Act, as amended, and if so, to advise the Federal Power Commission as to the nature of its interest in the matter and whether it desires a conference, creation of a board or a joint or concurrent hearing, together with the reasons for such request.

Any person desiring to be heard or to make any protest with reference to the said application of Hope Natural Gas Company should file with the Federal Power Commission, Washington 25, D. C., not later than fifteen (15) days from the date of publication of this notice in the FEDERAL REGISTER, a petition or protest in accordance with the General Rules of Practice and Procedure of the Commission under the Natural Gas Act.

[S. O. 396, Special Permit 50]

RECONSIGNING OF CELERY AT KANSAS CITY, MO.

Pursuant to the authority vested in me by paragraph (f) of the first ordering paragraph of Service Order No. 396 (10 F. R. 15008), permission is granted for any common carrier by railroad subject to the Interstate Commerce Act:

To disregard entirely the provisions of Service Order No. 396 insofar as it applies to the reconsignment at Kansas City, Missouri, April 5, 1946, by American Fruit Growers, Inc., of car WFEX 63137, celery, now on the St. L.-S. F. Railway, to Lincoln, Nebraska (C., B. & Q.).

The waybill shall show reference to this special permit.

A copy of this special permit has been served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and notice of this permit shall be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

Issued at Washington, D. C., this 18th day of September 1946.

UNLOADING OF FLOUR AT PITTSBURGH, PA.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 19th day of September A. D. 1946.

It appearing, that car SP 96937, containing flour, at Pittsburgh, Pennsylvania, on The Baltimore and Ohio Railroad Company, has been on hand for an unreasonable length of time and that the delay in unloading said car is impeding its use; in the opinion of the Commission an emergency exists requiring immediate action: *It is ordered,* That:

Flour at Pittsburgh, Penna., be unloaded. (a) The Baltimore and Ohio Railroad Company, its agents or employees, shall unload immediately car SP 96937, loaded with flour, now on hand at Pittsburgh, Pennsylvania, consigned to Hacmeister, Inc.

(b) Notice and expiration. Said carrier shall notify V. C. Clinger, Director, Bureau of Service, Interstate Commerce Commission, Washington, D. C., when it has completed the unloading required by paragraph (a) hereof, and such notice shall specify when, where, and by whom such unloading was performed. Upon receipt of that notice this order shall expire. (40 Stat. 101, sec. 402; 41 Stat. 476, sec. 4; 54 Stat. 901, 911; 49 U. S. C. 1 (10)–(17), 15 (2))

It is further ordered, that this order shall become effective immediately; that a copy of this order and direction be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

By the Commission, Division 3.

CHARGES ON SMALL SHIPMENTS BY RAILROADS AND BY MOTOR CARRIERS

NOTICE OF HEARING

SEPTEMBER 13, 1946.

The above-entitled proceedings are assigned for initial hearing at the offices of the Interstate Commerce Commission, Washington, D. C., on November 6 1946, at 9:30 a. m., United States standard time before Commissioner J. Haden Alldredge and Examiners H. G. Cummings, L. J. Kassel, and G. B. Vandiver. This initial hearing will be limited to (1) general matters embraced within the issues and not pertaining to any particular territory and (2) matters relating particularly to traffic within Southern Territory, between Southern and Official Territories, and within Western Trunk-line Territory, all as defined in Class Rate Investigation, 1939 262 I. C. C. 447.

At this hearing members of the Commission's staff of employees will present evidence embracing (1) a general survey of existing systems of charges on small shipments maintained by the various agencies of transportation in this country and in England and Canada, together with related information, (2) statements showing the existing rules of railroads and motor carriers pertaining to minimum charges and the relation between minimum charges and other charges and (3), traffic, revenue and cost data for motor carriers pertaining to the particular territories above mentioned. The foregoing should not be regarded as exclusive. Occasion may arise to present additional evidence by staff members falling within the scope of the hearing as described in the preceding paragraph hereof.

Advance service of copies of exhibits to be presented by members of the Commission's staff will be made upon all members of committees representing railroads, motor carriers and shippers appointed at the prehearing conference in these proceedings on July 15, 1946, or subsequently, and upon the three commissioners hereinafter named. These exhibits will be ready for distribution not later than October 23, 1946. The Commission will make additional advance service of its employees' exhibits upon others who expect to take an active part in the proceedings, and who make special request therefor. Similar advance service, including service of 10 copies upon the Commission, should be made by all parties who expect to offer exhibits at the hearing. The Commission upon request will send a list of the names and addresses of the committee members.

The following State commissioners have been designated by the President of the National Association of Railroad and Utilities Commissioners to serve in these proceedings under the cooperative plan: Hon. Paul Revelle of Washington; Hon. John C. Hammer of Tennessee; and Hon. Edgar H. Hunter of New Hampshire.

By the Commission.

CHARGES ON SMALL SHIPMENTS BY RAILROADS AND BY MOTOR CARRIERS

ORDER OF INVESTIGATION

At a general session of the Interstate Commerce Commission, held at its office in Washington, D. C., on the 12th day of September, A. D. 1946.

Upon further consideration of the record herein and of request by respondents in No. 29556 for modification of the order of investigation entered therein on June 10, 1946;

It is ordered, That the orders of investigation in No. 29556 and No. MC-C-543 entered on June 10, 1946, be, and they are hereby, modified by striking in the second paragraph of each of said orders the words "particularly those subject to minimum charges, but exclusive of shipments weighing more than 300 pounds each," and substituting the words "whether subject to minimum or other character of charges, but embracing primarily shipments weighing not more than 300 pounds each,".

By the Commission.

OSCAR FUHRER

In re: Estate of Oscar Fuhrer, deceased, and Trust created under the last Will of Oscar Fuhrer, deceased. File D-34-875; E. T. sec. 14526.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

That Deutsche Jugent Fursorga, Deutscher Kultur Verband and Deutsche Winter Hilfsaktion are or, on or since the effective date of Executive Order No. 8389, as amended, have been, controlled by or acting for or on behalf of a designated enemy country (Germany) and are nationals of a designated enemy country (Germany);

That the property described as follows: All right, title, interest and claim of any kind or character whatsoever of Deutsche Jugent Fursorga, Deutscher Kultur Verband and Deutsche Winter Hilfsaktion, and each of them, in and to the Trust created under the Will of Oscar Fuhrer, deceased,

is property payable or deliverable to, or claimed by, nationals of a designated enemy country, Germany, namely,

Nationals and Last Known Address

Deutsche Jugent Fursorga, Czechoslovakia.
Deutscher Kultur Verband, Czechoslovakia.
Deutsche Winter Hilfsaktion, Czechoslovakia.

That such property is in the process of administration by Ralph A. Hoffman, as Administrator with the Will annexed, acting under the judicial supervision of the Superior Court of Maricopa County, State of Arizona;

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Germany);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on August 14, 1946.

G. RAMCHAND ET AL.

In re: Debts owing to G. Ramchand and others.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the Alien Property Custodian, after investigation, finding:

1. That each individual whose name and last known address is set forth in Exhibit A, attached hereto and by reference made a part hereof, is a resident of Japan and a national of a designated enemy country (Japan);

2. That each partnership, association, corporation or other business organization whose name and last known address is set forth in Exhibit A, attached hereto and by reference made a part hereof, is a partnership, association, corporation or other business organization organized under the laws of Japan, or which has or, since the effective date of Executive Order No. 8389, as amended, has had its principal place of business in Japan and is a national of a designated enemy country (Japan);

3. That the property described as follows: Those certain debts or other obligations owing to the individuals and organizations listed in Exhibit A, by the Superintendent of Banks of the State of New York, as Liquidator of the Business and Property in New York of Bank of Taiwan, Ltd., in the respective amounts appearing opposite the names of said individuals and organizations, as of December 31, 1945, arising out of collection after closing accounts, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country;

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on September 5, 1946.

MASUO SANEYOSHI, ET AL.

In re: Debts owing to Masuo Saneyoshi and others.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Masuo Saneyoshi, whose last known address is 5-10 Korenbashi, Higashi-Ku, Osaka, Japan, is a resident of Japan and a national of a designated enemy country (Japan):

That each partnership, association, corporation or other business organization whose name and last known address is set forth in Exhibit A, attached hereto and by reference made a part hereof, is a corporation, partnership, association or other business organization organized under the laws of Japan, and which has or, since the effective date of Executive Order No. 8389, as amended, has had its principal place of business in Japan and is a national of a designated enemy country (Japan);

3. That the property described as follows: Those certain debts or other obligations owing to the individual and organizations listed in Exhibit A, by the Superintendent of Banks of the State of New York, as Liquidator of the Business and Property in New York of Yokohama Specie Bank, Ltd., 80 Spring Street, New York, New York, in the respective amounts appearing opposite the names of said individual and organizations, as of December 31, 1945, arising out of accepted accounts payable, together with any and all accruals thereto, and any and all rights to demand, enforce and collect the same,

is property within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the aforesaid nationals of a designated enemy country;

And determining that to the extent that such nationals are persons not within a designated enemy country, the national interest of the United States requires that such persons be treated as nationals of a designated enemy country (Japan);

And having made all determinations and taken all action required by law, including appropriate consultation and certification, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest and for the benefit of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to constitute an admission by the Alien Property Custodian of the lawfulness of, or acquiescence in, or licensing of, any set-offs, charges or deductions, nor shall it be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall it be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

OFFICE OF PRICE ADMINISTRATION.

[SO 94, Rev. Order 135]

CERTAIN MATTRESS COVERS

SPECIAL MAXIMUM PRICES

Order No. 135 under Supplementary Order 94 is redesignated Revised Order 135 and is revised and amended to read as follows:

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and in accordance with section 11 of Supplementary Order 94, It is ordered:

(a) *What this order does.* This order establishes maximum prces at which the new and used mattress covers hereinafter described may be sold and delivered by the War Assets Administration or any other United States Government agency, and by any subsequent reseller.

(b) *Maximum prices.* The maximum prices (f. o. b. shipping point) for the mattress covers described herein shall be:

Description	Price for all sales to wholesaler	Price for all sales to retailer	Price for all sales at retail
New mattress cover, unbleached or white cotton, with tie strings at one end for clothing, cot, single or twin bed size	$1.47	$1.85	$3.10
Used mattress cover, unbleached or white cotton, with tie strings at one end for closing, cot, single or twin bed size	1.00	1.25	2.10

Cross-stream sales may be made at any normal level of distribution by division of the markup in such proportion as may be agreed upon between the parties to the transaction.

(c) *Notification.* Every person, except a retailer, who sells the mattress covers described in paragraph (b) shall furnish his purchaser with an invoice of sale setting forth the maximum prices established by this order for sales at wholesale or retail, and stating, in case such purchaser is a retailer, that the retailer is required by this order to either attach to each mattress cover before sale a tag or label which plainly states a selling price not in excess of the appropriate ceiling price or conspicuously display at the place where the mattress covers are offered for sale a suitable sign which plainly states a selling price not in excess of the appropriate ceiling price.

(d) *Tagging.* Any person who sells at retail the mattress covers described in paragraph (b) shall either attach to each mattress cover before sale a tag or label which plainly states a selling price not in excess of the appropriate ceiling price or shall conspicuously display at the place where the mattress covers are offered for sale a suitable sign which plainly states a selling price not in excess of the appropriate ceiling price.

(e) *Failure to furnish invoice or tag.* If any person, except a retailer, who sells the mattress covers described in paragraph (b), fails to furnish his purchaser with an invoice of sale containing the information required by paragraph (c) or, in the case of a retailer, fails to comply with the tagging requirements of paragraph (d), such person's maximum sales price shall be his net invoice cost plus incoming freight, regardless of any other pricing provisions of this order.

(f) *Relation to other regulations and orders.* This order with respect to the commodities it covers supersedes any other regulation or order previously issued by the Office of Price Administration.

(g) *Definitions.* (1) "Wholesaler" means any person who sells to purchasers for resale.

(2) "Retailer" means any person who sells to ultimate consumers.

(h) *Revocation and amendment.* This order may be revoked or amended at any time.

This order shall become effective September 25, 1946.

Issued this 24th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING REVISED ORDER 135 UNDER SUPPLEMENTARY ORDER 94

Order No. 135 established maximum prices for sales of certain new and used mattress covers therein described.

Since the issuance of that order it has been brought to the attention of the Administrator that the War Assets Administration also has available for sale a quantity of both new and used mattress covers which vary in size from those covered by the original order. Accordingly, the order is revised to include all new and used mattress covers made of unbleached or white cotton and of cot, single or twin bed sizes. The prices established by the original order remain unchanged.

The revised order also provides that all purchasers for resale be notified of their maximum prices, and that retailers be also notified that each mattress cover either be tagged with a price not in excess of the appropriate ceiling price by the retailer before sale or that the retailer conspicuously display at the place where the mattress covers are offered for sale a suitable sign which plainly states a selling price not in excess of the appropriate ceiling price.

In the opinion of the Administrator the maximum prices established by the order are generally fair and equitable and are consistent with and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328.

PARTEN MACHINERY CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 3 (e) (3) of the General Maximum Price Regulation, *It is ordered:*

(a) The maximum prices f. o. b., Minneapolis, Minnesota, for sales by any person of prefabricated steel corn cribs with aluminum roofs, and parts for these cribs, uninstalled, manufactured by Parten Machinery Company, Minneapolis, Minnesota, as prescribed in their applications of August 22, 1946 and August 31, 1946 on file in this Office shall be as follows:

(1) 210 bushel capacity sidewall ring (5 sections) with door	$56.30
(2) 210 bushel capacity sidewall ring (5 sections) no door, each	51.70
(3) Floor, plain, sectional	92.08
(4) Floor, with drop for emptying into elevator drag	104.50
(5) Ventilator sections cone for each sidewall ring	8.95
(6) Roof, aluminum with adaptor	117.57
(7) 630 bushel capacity corn crib complete, with floor, aluminum roof, ventilator sections, and one door	369.45
(8) Single plain sidewall sections	10.34
(9) Single door sections	14.95
(10) Double doors instead of single door	7.50

Sales may be made below the above maximum prices.

(b) The maximum prices as listed above shall be subject to cash discounts, transportation allowances and price differentials which are at least as favorable as those the manufacturer or resellers extended or rendered or would have extended or rendered to each class of purchaser on commodities in the same general category on March 31, 1946.

(c) To the maximum prices listed under (a) there may be added the actual cost of any State sales tax, provided the customer is notified in writing that the tax is included in the total sales price.

(d) To the maximum f. o. b. prices there may be added actual transportation expense to the destination specified by the purchaser. If shipment is made direct from factory to purchaser, the charge for transportation expense shall be computed on that basis.

(e) This order may be amended or revoked by the Price Administrator at any time.

This order shall become effective September 25, 1946.

Issued this 24th day of September, 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER 167 UNDER SECTION (e) (3) OF THE GENERAL MAXIMUM PRICE REGULATION

The accompanying order under section 3 (e) (3) of the General Maximum Price Regulation establishes maximum f. o. b. prices for sales by any person of prefabricated metal corn cribs manufactured by Parten Machinery Company of Minneapolis, Minnesota.

The maximum prices requested by the manufacturers have been found to be in line with the level of maximum prices otherwise established by the General Maximum Price Regulation, and have therefore been approved in the amounts requested.

This order establishes maximum prices for sales by any person subject to normal discounts to specific classes of purchasers. Thus the established maximum prices are, in effect, maximum prices to consumers, and prices to jobbers or other resellers must be established in accordance with allowances and discounts as provided in the accompanying order.

Actual cost of transportation may be added to the maximum prices. Also, actual cost of any State sales tax may be added to the maximum prices, provided the purchaser is notified in writing that the tax is included in the total purchase price.

The Price Administrator has determined, on the basis of the foregoing, that the maximum prices established by the accompanying order are in conformity with the Emergency Price Control Act of 1942, as amended, and Executive order of the President.

GENERAL MOTORS CORP.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 339 under Revised Supplementary Order No. 119. Delco Appliance Division, General Motors Corporation, Rochester, New York, Docket No. 6123-119-81.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to Revised Supplementary Order No. 119, it is ordered:

(a) *Maximum prices for the Delco Appliance Division of the General Motors Corporation.* (1) The above manufacturer shall determine his maximum prices for his line of Delco Heat Bituminous coal stokers by increasing by 9.2 percent his prices on these items in effect on October 1, 1941 to each class of purchaser.

(2) Since the provisions of this order are not intended to reduce properly established maximum prices, the manufacturer may continue to use as his maximum prices to each class of purchaser his properly established prices in effect under Maximum Price Regulation No. 591 in the event that such prices exceed the prices in effect to each class of purchaser on October 1, 1941 plus the increase provided for in (1) above.

(3) The maximum prices set forth above shall be subject to discounts and allowances including transportation allowances and price differentials which are at least as favorable as those the manufacturer extended or rendered or would have extended or rendered to each class of purchaser on commodities in the same general category during March, 1942.

(b) *Resellers' maximum prices.* All resellers of the commodities covered by this order (but not manufacturers who purchase such items for use in the manu- prices the percentage increase in cost to their presently established maximum prices the percentage increase in cost to them resulting from the increase granted the manufacturer by this order.

(c) *Notification to all purchasers.* The manufacturer shall send the following notice to every purchaser of the commodities covered by this order at or before the time of the first invoice after the adjustment granted by this order is put into effect:

Order No. 339 under Revised Supplementary Order No. 119 authorizes a 9.2 percent increase in October 1, 1941 net prices for sales of Delco-heat bituminous coal stokers manufactured by this company.

Resellers (but not manufacturers who purchase such items for use in the manufacture of other products) may add to their existing maximum prices the percentage increase in cost resulting from the increase granted by Order No. 339.

(d) All requests for relief not granted herein are denied.

(e) This order may be amended or revoked by the Price Administrator at any time.

This order shall become effective September 25, 1946.

Issued this 24th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 339 UNDER REVISED SUPPLEMENTARY ORDER NO. 119

The accompanying order under Revised Supplementary Order No. 119 authorizes the Delco Appliance Division of the General Motors Corporation to compute maximum prices for its Delco-Heat Bituminous Coal Stokers by adding 9.2 percent to the company's October 1, 1941 prices for these items. As an alternative, the manufacturer may continue to use as his maximum prices, his properly established maximum prices in effect under Maximum Price Regulation No. 591 in the event that such prices are higher than the adjusted October 1, 1941 prices.

Resellers are permitted to increase their existing maximum prices by the percentage increase in cost to them resulting from the adjustment granted the manufacturer. Thus resellers will continue to realize the same percentage margin over acquisition cost that they realized previous to the issuance of the accompanying order.

Bituminous coal stokers have been declared reconversion products under Appendix A of Revised Supplementary Order No. 119.

The applicant, a manufacturer of such products has filed an application and the supporting cost and financial data pursuant to the provisions of Revised Supplementary Order No. 119. Applying the standards for computing adjustments set forth in the Revised Supplementary Order, it is found that the applicant qualifies for an increase of 9.2 percent over October 1, 1941 prices. Accordingly, the accompanying order authorizes such

a price advance. If for any item, however, the properly established maximum price under Maximum Price Regulation No. 591 exceeds the October 1, 1941 price plus the increase factor, the manufacturer may continue to use his heretofore properly established maximum prices.

Controls over the maximum price of some of these products may have been or may be suspended in the future by Supplementary Order No. 129 (Exemption and Suspension from Price Control of Machines, Parts, Industrial Materials and Services). In that event, the provisions of this order with respect to these items are also suspended during the period of the price control suspension, subject to reinstatement if the former price controls are restored.

After due consideration of the foregoing, the Price Administrator finds that this action is consistent with the Emergency Price Control Act of 1942, as amended, and the Executive orders of the President.

JAMESTOWN STEEL PARTITIONS, INC.

ADJUSTMENT OF MAXIMUM PRICES

Order No. 340 under Revised Supplementary Order No. 119, Docket No. 6123-119-185. Jamestown Steel Partitions, Inc., Jamestown, New York.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to Revised Supplementary Order No. 119, it is ordered:

(a) *Maximum Prices for Jamestown Steel Partitions, Inc. of Jamestown, New York.* (1) The above manufacturer shall determine his maximum prices for his line of metal portable shower cabinets by increasing by 14 percent his prices on these items in effect on October 1, 1941 to each class of purchaser.

(2) Since the provisions of this order are not intended to reduce properly established maximum prices, the manufacturer may continue to use as his maximum prices to each class of purchaser his properly established prices in effect under Maximum Price Regulation No. 591 in the event that such prices exceed the prices in effect to each class of purchaser on October 1, 1941 plus the increase provided for in (1) above.

(3) The maximum prices set forth above shall be subject to discounts and allowances including transportation allowances and price differentials which are at least as favorable as those the manufacturer extended or rendered or would have extended or rendered to each class of purchaser on commodities in the same general category during March, 1942.

(b) *Resellers' maximum prices.* All resellers of the commodities covered by this order (but not manufacturers who purchase such items for use in the manufacture of other products) may add to their presently established maximum prices the percentage increase in cost to them resulting from the increase granted the manufacturer by this order.

(c) *Notification to all purchasers.* The manufacturer shall send the following notice to every purchaser of the commodities covered by this order at or before the time of the first invoice after the adjustment granted by this order is put into effect:

Order No. 340 under Revised Supplementary Order No. 119 authorizes a 14 percent increase in October 1, 1941 net prices for sales of metal portable shower cabinets manufactured by this company.

Resellers (but not manufacturers who purchase such items for use in the manufacture of other products) may add to their existing maximum prices the percentage increase in cost resulting from the increase granted by Order No. 340.

(d) All requests for relief not granted herein are, denied.

(e) This order may be amended or revoked by the Price Administrator at any time.

This order shall become effective September 25, 1946.

Issued this 24th day of September 1946.

[SO 133, Order 72]

WESTERN AUTO SUPPLY CO.

ADJUSTMENT OF CEILING PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to Supplementary Order No. 133, *It is ordered:*

(a) This order establishes ceiling prices for sales at retail of the Wizard brand Models 117C, 117AC, 117CP, 117ACP, 117CG and 117ACG private brand washing machines sold by the Western Auto Supply Company, 2107 Grand Avenue, Kansas City, Missouri as follows:

Model:	*Ceiling prices for sales to consumers, each*
117C and 117AC	$90.75
117CP and 117ACP	96.50
117CG and 117ACG	119.00

The prices are subject to each seller's customary terms, discounts, allowances, and other price differentials in effect on sales of similar articles.

(b) All the provisions of Revised Maximum Price Regulation No. 86 continue to apply to all sales and deliveries of machines covered by this order, except to the extent that those provisions are modified by this order.

(c) Unless the context requires otherwise, the definitions set forth in the various sections of Revised Maximum Price Regulation No. 86 shall apply to the terms used herein.

(d) The ceiling prices established by this order supersede those established by Order No. 36 under Maximum Price Regulation No. 86 for sales of the same machines.

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 24th day of September 1946.

Issued this 24th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER 72 UNDER SUPPLEMENTARY ORDER NO. 133

The manufacturer of the private brand models of washing machines sold by the Western Auto Supply Company, 2107 Grand Avenue, Kansas City, Missouri, has received an adjustment of its ceiling prices under Supplementary Order No. 133. The same supplementary order provides that whenever a manufacturer's ceiling prices for certain articles have been adjusted under the order, an order may be issued establishing ceiling prices for resales of those articles. Accordingly, the accompanying order, pursuant to Supplementary Order No. 133, establishes retail ceiling prices for the private brand washing machines sold by the Western Auto Supply Company.

The retail ceiling prices established by the accompanying order for each model reflect a markup over the current invoice cost to the retailer equal to the average markup received by such retailers in connection with their sales of that model on March 31, 1946. This is in accordance with the policy of this Office in such cases.

OPINION ACCOMPANYING ORDER NO. 1747 UNDER MAXIMUM PRICE REGULATION NO. 120

The order which this opinion accompanies establishes maximum prices and price classifications and assigns mine index numbers to mines in District No. 7 which had not been classified and numbered by the former Bituminous Coal Division. This is done in accordance with § 1340.210 (a) (6) of the regulation which provides for this action.

Under this section, a producer is required to file an application for maximum prices and classifications based upon those of the nearest mine in the same or substantially similar seams. Generally the producer requests the prices and classifications he deems proper.

Producers identified herein operate named mines assigned the mine index numbers, the price classifications and the maximum prices in cents per net ton for the indicated uses and shipments as set forth herein. All are in District No. 7. The mine index numbers and the price classifications assigned are permanent but the maximum prices may be changed by an amendment issued after the effective date of this order. Where such an amendment is issued for the district in which the mines involved herein are located and where the amendment makes no particular reference to a mine or mines involved herein, the prices shall be the prices set forth in such amendment for the price classifications of the respective size groups. The location of each mine is given by county and State. The maximum prices stated to be for truck shipment are in cents per net ton f. o. b. the mine or preparation plant and when stated to be for rail shipment or for railroad locomotive fuel are in cents per net ton f. o. b. rail shipping point. In cases where mines ship coals by river the prices for such shipments are those established for rail shipment and are in cents per net ton f. o. b. river shipping point. However, producer is subject to the provisions of § 1340.218 and all other provisions of Maximum Price Regulation No. 120.

This application was then submitted to the industry advisory committee for District No. 7. The prices and classifications established are those recommended by the committee and those requested by the applicants, if a request was made, and are fair and equitable.

AMERICAN CENTRAL MFG. CO.

ESTABLISHMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to § 1499.158 of Maximum Price Regulation No. 188, *It is ordered:* That Order No. 4801 under § 1499.158 of Maximum Price Regulation No. 188 be and hereby is revoked.

This revocation shall become effective on the 25th day of September 1946.

Issued this 24th day of September 1946.

Administrator.

OPINION ACCOMPANYING REVOCATION OF ORDER 4801 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION NO. 188

Order 4801 under § 1499.158 of Maximum Price Regulation No. 188 was issued on December 29, 1946 and established prices for certain steel cabinets and accessories manufactured by American Central Manufacturing Corporation, Connersville, Indiana.

Since the issuance of that order it has been determined that metal base and wall cabinets and accessories such as those covered by Order 4801 are under Maximum Price Regulation 591 rather than Maximum Price Regulation 188. Accordingly, Order 4801 which was issued pursuant to Maximum Price Regulation 188 is being revoked simultaneously with the issuance of a new order under Maximum Price Regulation 591 covering the articles involved.

Order 4801 also established maximum prices for sales of certain metal utility cabinets viz a broom cabinet and a linen cabinet, which remain under the provisions of Maximum Price Regulation No. 188, and whose maximum prices established under Order 4801 continue to be valid. Therefore, a new order will be issued under § 1499.158 of Maximum Price Regulation No. 188 continuing the prices previously established by Order 4801. The new order will also be issued simultaneously with the revocation of Order 4801.

Price Regulation No. 188, *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of certain articles manufactured by American Central Manufacturing Corporation, Connersville, Indiana.

(1) For all sales and deliveries to the following classes of purchasers by the sellers indicated below, the maximum prices are those set forth below:

Article	Model No.	Manufacturer's maximum price for sales to distributor or stocking jobber	Maximum price for sales to retailers by all sellers	Maximum prices for sales to consumers by all sellers
Broom cabinet	A U–2184	$18.00	$22.50	$37.50
Linen cabinet	A L–2184	19.44	24.30	40.50

These maximum prices are for the articles described in the manufacturer's application dated December 5, 1945. For sales to retailers, the prices established are f. o. b. distributor's warehouse, and for sales to other classes of purchasers they are f. o. b. destination.

(2) These maximum prices apply to all sales and deliveries after the effective date of this order.

(3) If the manufacturer wishes to make sales and deliveries to any other class of purchaser or on other terms and conditions of sale, he must apply to the Office of Price Administration, Washington, D. C., under the Fourth Pricing Method, § 1499.158 of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until maximum prices have been authorized by the Office of Price Administration.

(b) The manufacturer shall attach a tag or label to every article for which a maximum price for sales to consumers is established by this order. That tag or label shall contain the following statement:

OPA retail ceiling price—$____

OPINION ACCOMPANYING ORDER NO. 5194 UNDER SECTION 1499.158 OF MAXIMUM PRICE REGULATION 188

The accompanying order purports to establish maximum prices for sales of a broom cabinet and linen cabinet manufactured by the American Central Manufacturing Corporation, Connersville, Indiana.

The maximum prices of those articles had been previously established by Order No. 4801 under § 1499.158 of Maximum Price Regulation No. 188. However, Order No. 4801 is being revoked for the reasons set forth in the opinion accompanying that revocation. Those reasons are not relevant to the maximum prices established for the two articles covered by the accompanying order and, therefore, the accompanying order continues the maximum prices heretofore established by Order No. 4801. The considerations set forth in the opinion accompanying Order No. 4801 which originally established those maximum prices are, therefore, equally applicable, and are incorporated herein by reference.

TAYLOR APPLIANCE AND MFG. CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 9 of Maximum Price Regulation No. 591; *It is ordered:*

(a) The maximum net prices, for sales by any person of the following gas conversion unit manufactured by Taylor Appliance and Manufacturing Company, Royal Oak, Michigan, and as described in its application dated August 14, 1946, shall be:

	Uninstalled f. o. b. on sales to distributors	Uninstalled f. o. b. on sales to dealers	Consumer price installed complete ready to operate
Model 100B—100C gas conversion unit 32" x 18" x 20"	$71.00	$83.00	$175.00

(b) The maximum net prices established by this order shall be subject to discounts and allowances including transportation allowances and the rendition of services which are at least as favorable as those which each seller extended or rendered or would have extended or rendered to purchasers of the same class on comparable sales of commodities in the same general category during March 1942.

(c) Each seller covered by this order, except on sales to a consumer, shall notify each of his purchasers, in writing, at or before the issuance of the first invoice after the effective date of this order, of the maximum prices established by this order for each such seller as well as the maximum prices established for purchasers except consumers upon resale.

(d) Taylor Appliance and Manufacturing Company shall stencil or tag in a conspicuous place on each item covered by this order, substantially the following:

OPA Maximum Retail Price Installed—$175.00

(e) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 25, 1946.

Issued this 24th day of September 1946.

OPINION ACCOMPANYING ORDER NO. 828 UNDER SECTION 9 OF MAXIMUM PRICE REGULATION NO. 591

The accompanying Order No. 828 under section 9 of Maximum Price Regulation No. 591 establishes maximum prices for sales at all levels of distribution for gas conversion unit manufactured by Taylor Appliance and Manufacturing Company, Royal Oak, Michigan.

These particular commodities were only recently introduced into the market by the manufacturer. Maximum prices for the items could not be established under sections 7 or 8 of Maximum Price Regulation No. 591, because this company had never manufactured comparable commodities. Consequently, maximum prices must be approved pursuant to the provisions of section 9 of Maximum Price Regulation No. 591.

In its application the company submitted its proposed prices for the commodities covered by this order. An analysis of the information submitted indicated that the prices requested are in line with the prices of competitive manufacturers for comparable commodities and, therefore, are in line with the level of prices established under Maximum Price Regulation No. 591.

In order to avoid any confusion on the part of resellers as to their maximum prices and for the purposes of protecting consumers, the accompanying order establishes dollars-and-cents prices for all levels of distribution. Maximum prices established for resellers reflect the usual margins of such resellers on sales of comparable products.

The commodities manufactured by this company will be distributed by many resellers who may or may not have access to copies of the accompanying order. Therefore, in order to avoid confusion on the part of resellers who do not have access to this order, the order provides that the manufacturer shall notify each of its purchasers of its maximum prices as well as purchasers' maximum resale prices.

All provisions of the accompanying order and their effect upon business practices, or cost practices or methods or means or aids to distribution in the industry or industries affected, have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices, or methods or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

The Price Administrator has determined, on the basis of the foregoing that the maximum prices established by the order are in conformity with the Emergency Price Control Act of 1942, as

amended and Executive orders of the President.

INDUSTRIAL HEATERS, INC.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 9 of Maximum Price Regulation No. 591, *It is ordered:*

(a) The maximum prices excluding Federal Excise Tax, for sales by any person to consumers of the following gas fired water heaters manufactured by Industrial Heaters, Incorporated of Los Angeles, California and described in its application dated August 29, 1946 shall be:

Model 75, gas fired quick recovery water heater having copper tank with a plurality of copper flues.... $350.00
Model 180, gas fired quick recovery water heater having copper tank with a plurality of copper flues.... 420.00

(b) The maximum net LCL prices excluding Federal Excise Tax, f. o. b. point of shipment, for sales by any person shall be the maximum net prices specified in (a) above less the following discounts:

1. On sales to dealers, a discount of 40 percent.

2. On sales to jobbers, successive discounts of 40 and 20 percent.

(c) The maximum prices established by this order are subject to such further cash discounts, transportation allowances and price differentials at least as favorable as those which each seller extended or rendered or would haxe extended or rendered during March 1942, on sales of commodities in the same general category.

(d) The maximum prices on an installed basis of the commodities covered by this order shall be determined in accordance with Revised Maximum Price Regulation No. 251.

(e) Each seller covered by this order, except on sales to consumers shall notify each of his purchasers, in writing, at or before the issuance of the first invoice after the effective date of this order, of the maximum prices established by this order for each such seller as well as the maximum prices established for purchasers except dealers upon resale.

(f) Industrial Heaters Incorporated shall attach to each water heater covered by this order a tag containing the following:

OPA maximum retail price not installed including actual Federal excise tax paid at source—$____
(Do Not Detach)

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 25, 1946.

Issued this 24th day of September 1946

OPINION ACCOMPANYING ORDER NO. 829 UNDER SECTION 9 OF MAXIMUM PRICE REGULATION NO. 591

The accompanying Order No. 829 under section 9 of Maximum Price Regulation No. 591 establishes maximum prices for sales at all levels of distribution for gas fired water heaters manufactured by Industrial Heaters Incorporated of Los Angeles, California.

These particular commodities were only recently introduced into the market by the manufacturer. Maximum prices for the items could not be established under sections 7 or 8 of Maximum Price Regulation No. 591, because this company had never manufactured comparable commodities. Consequently, maximum prices must be approved pursuant to the provisions of section 9 of Maximum Price Regulation No. 591.

In its application the company submitted its proposed prices for the commodities covered by this order. An analysis of the information submitted indicated that the prices requested are in line with the prices of competitive manufacturers for comparable commodities and, therefore, are in line with the level of prices established under Maximum Price Regulation No. 591.

In order to avoid any confusion on the part of resellers as to their maximum prices and for the purposes of protecting consumers, the accompanying order establishes dollars and cents prices for all levels of distribution. Maximum prices established for resellers reflect the usual margins of such resellers on sales of comparable products.

The commodities manufactured by this company will be distributed by many resellers who may or may not have access to copies of the accompanying order. Therefore, in order to avoid confusion on the part of resellers who do not have access to this order, the order provides that the manufacturer attach to each water heater a tag on which will be printed the article's maximum consumer price. In addition, each seller, except on sales to consumers, is required to notify each of his purchasers of his maximum prices as well as purchasers' maximum prices on resale.

All provisions of the accompanying order and their effect upon business practices, or cost practices or methods or means or aids to distribution in the industry or industries affected, have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices, or methods or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

The Price Administrator has determined, on the basis of the foregoing, that the maximum prices established by the order are generally fair and equitable, and are in conformity with the Emergency Price Control Act of 1942, as amended, and Executive orders of the President.

DACUS STOVE & FOUNDRY CO. AND MUNDIE MFG. CO.

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to section 9 of Maximum Price Regulation No. 591. *It is ordered:*

(a) The maximum prices, for sales by Dacus Stove and Foundry Company, of Chattanooga, Tennessee and Mundie Manufacturing Company of Aurora, Illinois, to the following classes of purchasers of the Model 6-6 Titan Hot Water Supply Boiler shall be:

Class of purchaser:	*Maximum price*
Mail Order Houses	$12.75
Jobbers	13.75
Dealers	17.18
Consumers	21.72

The foregoing prices shall be f. o. b. Chattanooga on sales to mail order houses; on all other sales the manufacturer shall allow actual freight up to but not exceeding 50 cents per cwt. The foregoing maximum prices are subject to the following terms of sale: 2 percent 10 days, net 30 days.

(b) Maximum prices for sales by resellers of the Model 6-6 Titan hot water supply boilers to any class of purchasers shall be the maximum prices set forth in paragraph (a) above for sales by the manufacturers thereof.

(c) Maximum prices established by this order are subject to cash discounts, transportation allowances and freight differentials at least as favorable as those which each seller extended or would have extended or rendered during March 1942 on sales of commodities in the same general category.

(d) The maximum prices for the sales of the hot water supply boilers covered by this order on an installed basis shall be determined in accordance with Revised Maximum Regulation Price No. 251.

(c) Each seller covered by this order shall, except on sales to consumers, notify each of his purchasers in writing at or before the issuance of the first invoice after the effective date of this order of the maximum prices established by this order for each such seller as well as the maximum prices established for purchasers, except dealers, upon resale.

(f) Dacus Stove and Foundry Company and Mundie Manufacturing Company shall stencil or tag in a conspicuous place on each item covered by this order, substantially the following:

O. P. A. Maximum Retail Price $21.72, uninstalled, pursuant to Order No. 832 under Maximum Price Regulation No. 591.

This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 25, 1946.

OPINION ACCOMPANYING ORDER NO. 832 UNDER SECTION 9 OF MAXIMUM PRICE REGULATION NO. 591

The accompanying order under Section 9 of Maximum Price Regulation No. 591 establishes maximum prices for sales of Titan Model 6-6 (cast iron) hot water supply boiler by Dacus Stove and Foundry Company and Mundie Manufacturing Company. The order establishes maximum prices for sales to various classes of purchasers, which also apply to resellers' sales.

The application, dated August 29, 1946, was executed by Dacus Stove and Foundry Company but in subsequent conferences it was represented to the Office of Price Administration by both the above named companies that they desire to carry on jointly the business of manufacturing the subject hot water supply boilers, it appearing that Mundie Manufacturing Company was the owner of the patents, designs and molds, etc. for the units which were to be manufactured in the Dacus Foundry's plant. Maximum prices established herewith are in line with the level of prices established for sales by other manufacturers of comparable units.

The maximum prices provided for resales at the jobber and dealer levels allow such resellers to realize percentage margins comparable with the margins historically and currently enjoyed by other, comparable, resellers of similar types of water heaters.

(a) The maximum net prices, f. o. b. point of shipment, for sales by any person of the following food freezer manufactured by the Ben Hur Manufacturing Company, 634 East Keefe Avenue, Milwaukee, Wisconsin and as described in the application dated August 14, 1946 which is on file with the Mechanical Building Equipment Price Branch, Office of Price Administration, Washington 25, D. C., shall be:

	On sales to—	
	Distributors	Dealers
12.5 cu. ft. standard less condensing unit	$164.00	$196.80
12.5 cu. ft. Delux less condensing unit	189.00	226.80

(b) The maximum net prices established in (a) above may be increased by the following amount to each class of purchaser to cover the cost of crating when crating is actually supplied: $6.00.

(c) The maximum net prices established by this order shall be subject to discounts and allowances and the rendition of services which are at least as favorable as those which each seller extended or rendered or would have extended or rendered to purchasers of the same class on comparable sales of similar commodities in the same general category on October 1, 1941.

(d) On sales by a distributor or dealer the following charges may be added to the maximum prices established in (a) above:

(1) The actual amount of freight paid to obtain delivery to his place of business. Such charges shall not exceed the lowest common carrier rates.

(2) Crating charges actually paid to his supplier but in no instance exceeding the amount specified in (b) above.

(e) Each seller covered by this order, except a dealer, shall notify each of his purchasers, in writing, at or before the issuance of the first invoice after the effective date of this order, of the maximum prices established by this order for each such seller as well as the maximum prices established for purchasers upon resale, except dealers, including allowable transportation and crating charges.

(f) Ben Hur Manufacturing Company, Milwaukee 12, Wisconsin shall stencil on the food freezer covered by this order, substantially the following:

OPA Maximum Retail Price $------

Plus freight and crating as provided in Order No. 833 under Maximum Price Regulation No. 591.

(g) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective September 25, 1946.

Issued this 24th day of September, 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 833 UNDER SECTION 9 OF MAXIMUM PRICE REGULATION NO. 591

The accompanying Order No. 833 under section 9 of Maximum Price Regulation No. 591 establishes maximum prices for sales at all levels of distribution for food freezers manufactured by the Ben Hur Manufacturing Company, 634 East Keefe Avenue, Milwaukee 12, Wisconsin.

These particular commodities were only recently introduced into the market by the manufacturer. Maximum prices for the items could not be established under sections 7 and 8 of Maximum Price Regulation No. 591, because this company had never manufactured comparable commodities. Consequently, maximum prices must be approved pursuant to the provisions of section 9 of Maximum Price Regulation No. 591.

In its application the company submitted its proposed prices for the commodities covered by this order. Based on an analysis of the information submitted the prices set forth in the accompanying order are in line with the prices of competitive manufacturers for comparable commodities and, therefore, are in line with the level of prices established under Maximum Price Regulation No. 591.

In order to avoid any confusion on the part of resellers as to their maximum prices and for the purpose of protecting consumers, the accompanying order establishes dollars-and-cents prices for all levels of distribution. Maximum prices established for resellers reflect the usual margins of such resellers on sales of comparable products. The order also provides that distributors may, under certain circumstances, add delivery charges to the dollars-and-cents maximum prices established to cover actual freight paid to obtain delivery and crating charges actually paid.

The commodities manufactured by this company will be distributed by many resellers who may or may not have access to copies of the accompanying order. Therefore, in order to avoid confusion on the part of resellers who do not have access to this order, the order provides that the Ben Hur Manufacturing Company shall notify each of its purchasers of its maximum prices as well as purchasers' maximum resale prices. The order further provides that the Ben Hur Manufacturing Company shall stencil on the inside of the lid of the food freezer the maximum retail price thereof.

All provisions of the accompanying order and their effect upon business practices, or cost practices or methods or means or aids to distribution in the industry or industries affected, have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, or methods established in the industry or industries affected, have been included in the order unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the order or of the act. To the extent that the provisions of this order compel or may operate to compel changes in business practices, cost practices, or methods or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion of this order or of the Emergency Price Control Act of 1942, as amended.

The Price Administrator has determined, on the basis of the foregoing that the maximum prices established by the order are generally fair and equitable, and are in conformity with the Emergency Price Control Act of 1942, as amended, and Executive orders issued by the President.

WEST POINT BRICK CO., INC.

ADJUSTMENT OF MAXIMUM PRICES

Order 154 under Section 16 of Maximum Price Regulation No. 592, specified construction materials and refractories. West Point Brick Company, Incorporated, Docket No. 6122-592.16-427.

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to Section 16 of Maximum Price Regulation No. 592, *It is ordered:*

(a) The maximum net prices for sales by the West Point Brick Company, Inc., West Point, Ky. of brick and structural clay tile to its various classes of purchasers may be increased by an amount not in excess of $2.00 per M for standard size brick equivalents or by an amount not in excess of $0.80 per ton for structural hollow tile.

(b) If the West Point Brick Co., Inc. West Point, Ky. had an established differential in price during the month of March 1942 for nonstandard sizes of brick it may convert the adjustment granted herein for standard size brick on the basis of the conversion factors or formulae in use by it during March 1942 in establishing price differentials between standard size brick and the other sizes.

(c) Any person purchasing any of the products covered by this order produced by the West Point Brick Company, Inc., West Point, Ky. for the purpose of resale in the same form may increase his presently established prices under the General Maximum Price Regulation by adding the percentage increase in cost resulting from the increase permitted the manufacturer in (a) above. Notwithstanding the provisions of this paragraph, in any area where specific maximum prices are fixed by an area pricing order such specific maximum prices shall apply in that area.

(d) All requests of the application not granted herein are denied.

(e) This order may be amended or revoked by the Office of Price Administration at any time.

This order shall become effective September 25, 1946.

Issued this 24th day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 154 UNDER SECTION 16 OF MAXIMUM PRICE REGULATION NO. 592

The West Point Brick Company, Incorporated, West Point, Kentucky, has applied for an adjustment in its maximum selling prices for brick and structural clay tile which it produces. This application is based upon increased labor costs resulting from putting into effect certain wage and salary increases approved in accordance with Executive Order No. 9697. This application has been processed under section 16 of Maximum Price Regulation 592.

The facts in this case indicate that the applicant has met the eligibility requirements set forth under section 16 of Maximum Price Regulation 592. The latter section provides for various adjustments depending upon the applicant's current over-all profitability. The Administrator, in the interest of expedient action based upon wage price applications, has completed studies of this industry generally, and is, in the instance of this and other similar applications, applying to individual applications determinations which generally accord with the tests set forth in section 16, and which are in conformance with Office policy. The adjustment granted in the accompanying order will compensate the applicant only for that portion of the approved wage or salary increase which it appears the applicant cannot absorb out of the adjustment permitted the clay brick and tile industry under section 2.1 (k) of Order No. 1 under Maximum Price Regulation 592, issued September 18, 1945. Should the applicant have factors other than those considered in this action which warrant further adjustment of maximum prices, he may apply for adjustment based on such other factors.

Resellers (except in areas where specific maximum prices are established by area orders) are permitted to increase their existing maximum prices by the percentage increase in cost to them resulting from the increase granted the manufacturer. Thus, these resellers will continue to realize the same percentage margin. The accompanying order, does not, however, permit resellers to increase their maximum prices where such prices are established by dollars-and-cents area pricing orders. In the latter case, appropriate adjustments of such orders will be made where necessary.

NOLDE & HORST CO.

ESTABLISHMENT OF MAXIMUM PRICES

Maximum Price Regulation 580, Amendment 2 to Order 40. Establishing ceiling prices at retail for certain articles. Docket No. 6063-580-13-795.

For the reasons set forth in the opinion issued simultaneously herewith, Order No. 40 issued under section 13 of Maximum Price Regulation 580 on application of The Nolde & Horst Company, Reading, Pennsylvania, is amended in the following respects:

1. Paragraph (a) is amended to read as follows:

(a) The following ceiling prices are established for sales by any seller at retail of the following articles having the brand name "Westminster" and manufactured or supplied by The Nolde & Horst Company, Reading, Pennsylvania.

MEN'S, WOMEN'S, BOYS' AND CHILDREN'S HOSIERY

Supplier's selling price (per dozen pair)	*Ceiling price at retail (per pair)*
$3.10	$0.45
3.50	.50
4.00	.55
4.50	.65
5.00	.70
5.40	.75
6.00	.85
7.25	1.00
8.00	1.10
9.00	1.25
10.50	1.50
11.75	1.65
12.50	1.75
13.25	1.85
14.25 to 14.50	2.00
17.50 to 18.00	2.50

2. Paragraph (b) is amended to read as follows:

(b) The retail ceiling price of each article covered by paragraph (a) shall apply in place of the ceiling price which has been or would otherwise be established under this or any other regulation, and shall apply to any other article of the same type, having the same selling price to the retailer, the same brand name, and first sold by The Nolde & Horst Company after the effective date of this order.

3. Paragraph (c) is amended by deleting the phrase "Maximum Price Regulation No. 580" and substituting therefor the phrase "the regulation which would apply in the absence of this order."

4. Paragraph (c) is further amended by adding thereto the following undesignated paragraph:

Upon issuance of any amendment to this order which either adds an article to those already covered by the order or changes the retail ceiling price of a covered article, The Nolde & Horst Company, as to such article, must comply with the pretickeling requirements of this paragraph within 30 days after the issuance of the amendment. After 60 days from the issuance date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60 day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this order.

5. Paragraph (d) is amended to read as follows:

(d) At the time of or before the first delivery to any purchaser for resale of any article covered by this order, the seller shall send the purchaser a copy of the order and of each amendment thereto issued prior to the date of such delivery. Within 15 days after the effective date of any subsequent amendment to the order, the seller shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment. The seller shall also send a copy to all other purchasers at the time of or before the first delivery of the article subsequent to the effective date of the amendment.

6. Paragraph (e) is amended by deleting the phrase "Maximum Price Regulation No. 580" and substituting therefor the phrase "the regulation which would apply in the absence of this order."

This amendment shall become effective September 24, 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING AMENDMENT 2 TO ORDER NO. 40 UNDER MAXIMUM PRICE REGULATION NO. 580

The accompanying amendment to Order No. 40 issued to The Nolde & Horst Company, Reading, Pennsylvania, under Section 13 of Maximum Price Regulation 580, revises paragraph (a) to list all of The Nolde & Horst Company's current cost lines which were covered by the order prior to this amendment as well as those now in its line. Previously, the order did not actually list the company's cost lines and retail ceilings but merely incorporated them by reference to the company's original application for the order. The revision is made in the interest of a more effective administration of the order. Cost lines not listed in paragraph (a) as amended are no longer covered by the order even though they are included in the original application for the order.

The retail prices here established are based upon an average margin of 41.4% on selling price (except insofar as specific price points requested by the company result in a lower margin), and, for the kind of hosiery involved, reflect the proportionate amount of absorption required generally for other types of hosiery of the same constructions. The hosiery priced under this amendment belongs to a group of hosiery (i. e., hosiery priceable under Section 13 orders) for which the Administrator has found it possible to determine separately a reduced margin reflecting the same proportion of absorption required for other hosiery priced under General Retail Order 3. The distinction which the Administrator has made in this case as between branded hosiery priced under Section 13 orders and these other types of hosiery is consistent with the distinction which has normally existed. Under Amendment 10 to General Retail Order 3, issued August 23, 1946, a margin of 37.6% on selling price was fixed for the pricing of hosiery generally, the difference between that margin and the normal margin of 40% reflecting the permitted amount of absorption as explained in the statement of considerations accompanying that amendment. The 41.4% margin fixed for the pricing of the hosiery covered in the accompanying amendment reflects a corresponding ratio of reduction from the 43.5% found to have been the average margin at retail for branded hosiery covered by Section 13 orders.

With respect to articles for which retail ceiling prices are established by amendment, provision is made for the suspension of the pretickeling requirements for a specified period.

The amendment also adds a requirement that The Nolde & Horst Company send a copy of each amendment to the order to certain purchasers for resale.

ALLIED NOVELTY SHOE CORP.

ESTABLISHMENT OF CEILING PRICES

Maximum Price Regulation 580, amendment to order 316. Establishing ceiling prices at retail for certain articles. Docket No. 6063-580-13-786.

For the reasons set forth in the opinion issued simultaneously herewith, Order 316 issued under section 13 of Maximum Price Regulation 580 on application of Allied Novelty Shoe Corporation, Springvale, Maine, is amended in the following respects:

1. Paragraph (a) is amended to increase the uniform retail ceiling price established by the order for the "American Girl Shoe" as follows:

Manufacturer's selling price unadjusted	*Ceiling price at retail*
$3.86	$6.75

This amendment shall become effective September 24, 1946.

Issued this 23d day of September 1946.

INNERSPRING MATTRESSES MADE WITH BONNELL, CLIP AND CRIMP TYPES (WIRE-TIED) UNITS

ADJUSTMENT OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to § 1499.159e of

Maximum Price Regulation No. 188, *It is ordered*, That Revised Order 5 under § 1499.159e of Maximum Price Regulation No. 188, be, and it hereby is, amended in the following respects.

1. Section 3 (b) is amended to read as follows:

(b) *Increase factor.* (1) Manufacturers may increase by 26 percent their maximum prices (exclusive of any previously permitted increases) properly established under Maximum Price Regulation No. 188, or the "comparability Method" of Order No. 4332 under the regulation, for sales to all persons except household consumers.

(2) Manufacturers may increase by 12 percent their maximum prices (exclusive of any previously permitted increases) properly established under Maximum Price Regulation No. 188 or the "comparability method" of Order No. 4332 under that regulation, for their sales to ultimate consumers.

2. Section 3 (c) (1) is amended to read as follows:

(1) His maximum price properly established under Maximum Price Regulation No. 188 or the "comparability method" of Order No. 4332 under that regulation, increased by 26 percent in accordance with paragraph (b) (1) of this section, or increased by 12 percent in accordance with paragraph (b) (2) of this section, whichever is applicable.

3. Section 3 (d) is amended to read as follows:

(d) *"Unadjusted maximum price."* On and after July 26, 1946, a manufacturer's "unadjusted maximum price" for his sale of an article covered by this revised order shall be 89 percent of his actual selling price for the article. Actual selling price is the manufacturer's price to a particular class of purchaser without deducting cash discounts, PM's—premium money payments or freight allowances. If the articles are sold on a delivered basis, the delivered price is the actual selling price; if sold on an f. o. b. factory basis, the f. o. b. factory price is the actual selling price; if sold in carload lots, the carload price is the actual selling price, if sold in l. c. l. the l. c. l. price is the actual selling price.

4. Section 10 (a) is amended to read as follows:

(a) *Definition.* An article covered by this revised order is a "branded article" if:

(1) It was and is consistently continued to be advertised at a uniform retail price, or from the time the article is first offered for sale and thereafter, it is consistently advertised at a uniform retail price.

(2) It is identified by a brand or company name; and

(3) It shall be generally sold at retail at the advertised uniform retail price.

5. Section 13 is amended to read as follows:

SEC. 13. *Revision of maximum prices.* Any maximum price adjusted under this revised order may be revised by the Price Administrator whenever he determines that such an adjusted maximum price is not in line with the level of October 1941 prices increased by 26 percent for sales by manufactirers to all classes of purchasers except ultimate consumers, and by 12 percent for sales by manufacturers to ultimate consumers. In determining the "in-lineness" of a manufacturer's adjusted maximum price, due consideration will be given to the manufacturer's customary price relation to other manufacturers in the industry.

This amendment may be revoked or amended by the Price Administrator at any time.

This amendment shall be effective on the 23d day of September 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING AMENDMENT 2 TO REVISED ORDER 5 UNDER SEC. 1499.159E OF MAXIMUM PRICE REGULATION 188

The accompanying amendment to Revised Order 5 under Section 1499.159e of Maximum Price Regulation No. 188 substitutes a price increase factor of 26 percent for the 18 percent now permitted to manufacturers who sell to other than consumers and grants an increase of 12 percent for sales by manufacturers directly to the ultimate consumer. These increases in maximum prices are granted to cover the increases in basic wage rates and part of the legal increases in the prices of ticking, innerspring units and sisal pads which have taken place since the issuance of Revised Order 5 to Maximum Price Regulation No. 188.

At the request of the industry that it be granted some measure of price relief in view of alleged increases in production costs, this Office has made an examination of the material and labor cost increases that have occurred since the last reconversion study, and based on an analysis of these cost increases reached the decision that an immediate price action is warranted. An earnings standard study is now in process and as soon as this is completed a finding will be made as to the extent of any additional relief to which the industry is entitled under that standard.

This interim action is based on a reapplication of the reconversion formula to reflect certain of the increases referred to above. A comparison of the most recent reconversion study made in April 1946 with the current increases has revealed the following: Basic wage rates have gone up 42.2 percent over 1941 rates as compared with 10.7 percent allowed in previous applications of the reconversion formula. Ticking costs have gone up to 74.7 percent over 1941 as compared with 33.7 percent in April 1946. Spring units have increased 3.5 percent and sisal pads 8.9 percent over April 1946 costs. It was not deemed feasible to make a study of direct selling manufacturers at this time. Since these manufacturers have been experiencing the same kind of cost increases, an adjustment is now being made on their behalf. The increase granted these manufacturers is equivalent to the increase in price at the retail level for mattresses sold through retailers.

Production of innerspring mattresses, as revealed by monthly reports from the industry is approaching the 1941 rate in terms of units and has exceeded that rate in terms of dollars. This favorable production record in conjunction with certain earnings figures from the industry indicates that the industry may be able to absorb some of the additional cost increases above referred to. The current earnings study of the industry now in progress will determine the extent of further price increases, if any, to which the industry may be entitled. In the meantime, the size of the labor and materials increases here recognized has led the office to take this interim action.

The overall material increase was 41.7 percent over 1941 as compared to 32.8 percent in April 1946. Only half of the materials increase over April 1946 was added to the total increase due to changes in basic wage rates in determining the final increase factor. This was because the current profit and loss statements from a small proportion of the industry indicate that the earnings position of the industry may now be more adequately measured on a current earnings basis. These statements also indicate that the increase required by law under the earnings standard may not be as great as that which the industry would receive under a reapplication of the reconversion formula if all the recent costs are fully reflected.

The accompanying amendment also amplifies the language of Section 3 (d) in order to clarify how a manufacturer shall determine what is intended to be the actual selling price for the purpose of calculating his "unadjusted maximum price."

Section 10 of the revised order provides for the establishment of adjusted maximum prices for "branded articles" covered by the order. In order to permit of the marketing of new "branded articles", the definition of "branded article" contained in Section 10 has been revised so as to remove the existing restriction that "branded articles" must be an article which was in production during or prior to March 1942.

Members of the industry affected by the provisions of this amendment have been consulted and their recommendations have been considered.

All provisions of this amendment and their effect upon business practices, cost practices, or methods, or means or aids to distribution in the industry or industries affected have been carefully considered. No provisions which might have the effect of requiring a change in such practices, means, aids, or methods established in the industry or industries affected, have been included in the amendment unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the amendment or of the Act. To the extent that the provisions of this amendment compel or may operate to compel changes in business practices, cost practices, or methods, or means or aids to distribution established in the industry or industries affected, such provisions are necessary to prevent circumvention or evasion in this amendment or of the Emergency Price Control Act of 1942, as amended.

ESTABLISHMENT OF CEILING PRICES

Maximum Price Regulation 580, Amendment 2 to Order 197, establishing ceiling prices at retail for certain articles, Docket No. 6063-580-13-798.

For the reasons set forth in the opinion issued simultaneously herewith, Order No. 197 issued under section 13 of Maximum Price Regulation 580 on application of Shwayder Bros., Inc., 1050 South Broadway, Denver, Colorado, is amended in the following respects:

1. Paragraph (a) is amended by changing the heading of the fourth column to read as follows: "Manufacturer's Unadjusted Selling Price."

2. Paragraph (a) is further amended by increasing the uniform retail ceiling price previously established by the order for the article listed below. The new cost-retail price line is as follows:

Brand name	Article	Manufacturer's unadjusted selling price	Retail ceiling price
Samson	Card table	$2.22	$3.95

3. Paragraph (b) is amended as follows:

(b) The retail ceiling price of each article listed in paragraph (a) shall apply to any other article of the same type, having the same unadjusted selling price to the retailer, the same brand name, and first sold by the manufacturer after the effective date of this order.

4. Paragraph (d) is amended by adding thereto the following undesignated paragraph:

Upon issuance of any amendment to this order which either adds an article to those already covered by the order or changes the retail ceiling price of a covered article. Shwayder Bros., Inc., as to such article, must comply with the preticketing requirements of this paragraph within 30 days after the issuance of the amendment. After 60 days from the issuance date, no retailer may offer or sell the article unless it is ticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60 day period, unless the article is so ticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this order.

5. Paragraph (e) is amended to read as follows:

(e) At the time of or before the first delivery to any purchaser for resale of any article covered by this order, the seller shall send the purchaser a copy of the order and of each amendment thereto issued prior to the date of such delivery. Within 15 days after the effective date of any subsequent amendment to the order, the seller shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment. The seller shall also send a copy to all other purchasers at the time of or before the first delivery of the article subsequent to the effective date of the amendment.

This amendment shall become effective September 24, 1946.

Issued this 23d day of September 1946.

OPINION ACCOMPANYING AMENDMENT 2 TO ORDER NO. 197 UNDER MAXIMUM PRICE REGULATION 580

The accompanying amendment to Order No. 197 issued to Shwayder Bros., Inc., 1050 So. Broadway, Denver, Colorado under Section 13 of Maximum Price Regulation 580, increases the uniform retail ceiling price of a card table for which the manufacturer has received a price increase under Revised Order No. 8 of Maximum Price Regulation 188.

The amendment makes it explicit that retail ceilings established by the order are based upon the manufacturer's unadjusted prices.

With respect to articles for which retail ceiling prices are established by amendment, provision is made for the suspension of the preticketing requirements for a specified period.

The amendment also adds the requirement that copies of each amendment to the order must be sent by the manufacturer to specified purchasers.

150.00	25.00
240.00	40.00
300.00	50.00

(b) The retail ceiling price of an article stated in paragraph (a) shall apply to any other article of the same type, having the same selling price to the retailer, the same brand or company name, and first sold by the manufacturer after the effective date of this order.

(c) The retail ceiling prices contained in paragraph (a) shall apply in place of the ceiling prices which have been or would otherwise be established under this or any other regulation.

(d) On and after October 25, 1946, Frank Stack Hats, Inc. must mark each article listed in paragraph (a) with the retail ceiling price under this order, or attach to the article a label, tag or ticket stating the retail ceiling price. This mark or statement must be in the following form:

Sec. 13, MPR 580 OPA Price—$_____

On and after November 25, 1946, no retailer may offer or sell the article unless it is marked or tagged in the form stated above. Prior to November 25, 1946, unless the article is marked or tagged in this form, the retailer shall comply with the marking, tagging and posting provisions of the applicable regulation.

Upon issuance of any amendment to this order which either adds an article to those already listed in paragraph (a) or changes the retail ceiling price of a listed article, Frank Stack Hats, Inc., as to such article, must comply with the preticketing requirements of this paragraph within 30 days after the effective date of the amendment. After 60 days from the effective date, no retailer may offer or sell the article unless it is preticketed in accordance with the requirements of this paragraph. Prior to the expiration of the 60 day period, unless the article is so preticketed, the retailer shall comply with the marking, tagging and posting provisions of the regulation which would apply in the absence of this order. However, the pricing provisions of this order or of any subsequent amendment thereto shall apply as of the effective date of the order or applicable amendment.

(e) Within 15 days after the effective date of this order, the seller shall send a copy to each purchaser for resale to whom, within two months immediately prior to the effective date, the seller had delivered any article covered in paragraph (a). Copies shall be sent to all other purchasers at the time of or before the first delivery of such article subsequent to the effective date of the order and shall be accompanied by copies of each amendment thereto (if any) issued prior to the date of the delivery. Within 15 days after the effective date of any subsequent amendment to the order, the seller shall send a copy of the amendment to each purchaser to whom, within two months immediately prior to the effective date of such amendment, the seller had delivered any article the sale of which is affected in any manner by the amendment. The seller shall also send a copy to all other purchasers at the time of or before the first delivery of the article subsequent to the effective date of the amendment.

(f) Unless the context otherwise requires, the provisions of the applicable regulation shall apply to sales for which retail ceiling prices are established by this order.

(g) This order or any provision thereof may be revoked, suspended, or amended by the Price Administrator at any time.

This order shall become effective September 24, 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 321 UNDER MAXIMUM PRICE REGULATION NO. 580

In accordance with Section 13 of Maximum Price Regulation No. 580, the applicant named in the accompanying Order, Frank Stack Hats, Inc. has applied to the Office of Price Administration for maximum resale prices for retail sales of certain of its articles. Applicant has submitted the information required under this Section and has produced evidence which in the judgment of the Price Administrator indicates that the applicant has complied with other stated requirements.

The Price Administrator has determined on the basis of information available to him, including the data submitted by the applicant, that the retail ceiling prices requested and which are established by this Order are no higher than the level of maximum prices under Maximum Price Regulation No. 580. The articles for which the accompanying Order fixes ceiling prices for sales at retail under Section 13 will no longer be priced under any other section of this or of any other regulation.

The Order also contains a provision requiring each article to be marked by the applicant with the retail ceiling price established by the accompanying Order. Applicant and subsequent sellers (except sellers at retail) are required to send purchasers of the articles a copy of this Order, and, in specified cases, of subsequent amendments thereto.

(2) *Charges for extra or optional equipment.* A charge for each item of extra or optional equipment not to exceed the list price to be computed as follows, less the discount in effect on March 31, 1942 to the applicable class of purchaser:

(i) The Company shall multiply the list price in effect on January 1, 1941 for each item of extra or optional equipment by the increase factor approved by the Office of Price Administration for adjusting the Company's January 1, 1941, prices under section 8 of Maximum Price Regulation 610.

(ii) The Company shall file the dollar and cents list prices for each item of extra or optional equipment with the Office of Price Administration, Automotive Branch, Washington, D. C., within 48 hours after such adjusted prices are established.

(3) *Charge for transportation.* A charge for transportation of the truck and extra or optional equipment not to exceed a charge computed in accordance with the method the Company had in effect on March 31, 1942.

(4) *Charge for taxes.* A charge to cover Federal Excise Taxes at the current legal rate, computed in accordance with the method the Company had in effect on March 31, 1942, and also state and local taxes, if any, directly imposed upon the delivery of the truck and extra or optional equipment.

(5) *Charge for factory handling and delivery.* A charge to cover factory handling and delivery computed by using the same rate and method the Company had in effect on March 31, 1942, except as provided in the following sentence: In the case of a sale to a user, the amount that may be included in the handling and delivery charge for preparing and conditioning operations shall be determined in accordance with section 10 (g) (3) of Maximum Price Regulation 610.

NOTE: As required by section 12 of Maximum Price Regulation 610, the Company shall notify all resellers of list prices and discounts for the vehicles of base specifications and extra or optional equipment and shall notify resellers that they must use such list prices and discounts in determining maximum prices in accordance with section 10.

(b) *Sales below ceiling to resellers.* In the event the Company sells to resellers below the maximum net price in this order for sales of truck chassis or items of extra or optional equipment it shall so advise the National Office of Price Administration, Automotive Branch, Washington, D. C., within 48 hours and shall immediately comply with the provisions of section 8 (h) of Maximum Price Regulation 610.

(c) A distributor of Reo Motor trucks may sell and deliver each of the new Reo trucks described in paragraph (a) (1) at a price not to exceed the total of the following charges:

(1) *Charge for the new truck.* A charge for the new truck not to exceed the applicable list price set forth in paragraph (a) (1) less the discount in effect on March 31, 1942 to the applicable class of purchaser.

(2) *Charges for extra or optional equipment.* A charge for each item of extra or optional equipment not to exceed the list price which the Company shall determine in accordance with paragraph (a) (2) less the discount in effect on March 31, 1942 to the applicable class of purchaser.

(3) *Discounts for distributors not in business on March 31, 1942.* A distributor who was not in business on March 31, 1942 shall apply to the applicable list price for the new truck and extra or optional equipment, the discounts generally in effect for Reo distributors on March 31, 1942 to the applicable class of purchaser.

(4) *Other charges.* Charges permitted for section 10 of Maximum Price Regulation 610 when applicable to the sale.

(d) Resellers may sell and deliver to users each of the new Reo trucks described in paragraph (a) (1) at a price not to exceed the total of the following applicable charges:

(1) *Charge for new truck.* A charge for the new truck not to exceed the applicable list prices set forth in paragraph (a) (1), adjusted to reflect suggested discounts the Company had in effect on March 31, 1942, to the applicable class of purchaser. The Company will notify all resellers of the list prices and discounts authorized in this order for new trucks.

(2) *Charges for extra or optional equipment.* A charge for each item of extra or optional equipment not to exceed the list price which the Company will determine in accordance with paragraph (a) (2), adjusted to reflect suggested discounts the Company had in effect on March 31, 1942, to the applicable class of purchaser. The Company will notify all resellers of the list prices and discounts authorized in this order for extra or optional equipment.

(3) *Other charges.* Charges permitted by section 10 of Maximum Price Regulation 610 when applicable to the sale.

(e) *Sales by resellers in Porto Rico and the Territory of Alaska.* A reseller may sell and deliver in Porto Rico and Alaska each of the new Reo trucks described in paragraph (a) (1) at a price it may charge under paragraph (c) or (d), whichever is applicable, to which it may add a sum equal to the expense incurred by or charged to it for: Payment of territorial and insular taxes on the purchase, sale or introduction of the new truck and extra or optional equipment in the territory or possession, when not charged under paragraph (c) or (d); export premiums; boxing and crating for export purposes; assembly costs, if any; marine and war risk insurance; landing, wharfage and terminal operations, ocean freight; freight to the port of embarkation when not charged under paragraph (c) or (d); and inland freight from the port of debarkation by the most direct route to the reseller's place of business.

(f) All requests not granted herein are denied.

(g) This order may be amended or revoked by the Administrator at any time.

This order shall become effective September 23, 1946, for new Reo trucks and extra or optional equipment sold by the Company on and after September 23, 1946.

Issued this 23d day of September 1946.

PAUL A. PORTER,
Administrator.

OPINION ACCOMPANYING ORDER NO. 21 UNDER MAXIMUM PRICE REGULATION 610 MAXIMUM PRICES FOR NEW TRUCKS AND NEW MOTORCYCLES

Reo Motors, Inc., Lansing, Michigan, has applied, pursuant to section 8 of Maximum Price Regulation 610, for maximum prices on its Models 19 B, 20 B, 21 B, 22 B, 23 B and 25 B trucks and extra or optional equipment. Maximum prices in the order which this opinion accompanies supersede adjusted maximum prices under Revised Maximum Price Regulation 136 for Models 19 B, 20 B and 21 B. The maximum prices for the remaining models, prior to this action, were those in effect on March 31, 1942. The gross vehicle weights on the models priced in this action range from 13,000 pounds for Model 19 B to approximately 27,000 pounds for the Model 25 B.

In general, section 8 of the regulation permits the establishment of maximum prices for manufacturers by the calculation of a price increase factor for each commodity line reflecting legal increases since January 1, 1941 in materials prices and basic wage rate schedules and a profit margin over cost, the application of this increase factor to 1941 model prices and the adjusting of the resulting prices to show increases or decreases in direct labor and direct materials costs due to changes in specification, design, material and equipment from the 1941 models.

The increases in basic wage rate schedules and in the general level of materials prices, including increases consistent with Executive Order 9697, and profit, which were reflected in the Reo increase factor were in accordance with the provisions of section 8. Section 8 was adhered to in determining increases in direct labor and materials cost resulting from changes in specification, design, material and equipment incorporated in the new trucks and in determining the overall price increase factor. The price increase factor and the increases resulting from specification changes were correctly applied to the 1941 model prices. In these circumstances, the prices requested by Reo for its sales have been authorized in the accompanying order.

The company's maximum prices for its sales consist of a price for the truck and extra or optional equipment plus charges for transportation, federal excise taxes and handling and delivery.

In accordance with section 10 of Maximum Price Regulation 610, the order also includes adjusted maximum prices for resellers in the United States and for resellers in Porto Rico and the Territory of Alaska. Resellers' adjusted maximum prices reflect the increase in prices given to the applicant, Reo Motors, Inc., and preserve the resellers' customary prewar margin on their increased cost. Maximum prices for resellers consist of list prices for the new trucks and optional equipment, less applicable discounts, plus the applicable charges for transportation, state and local taxes, federal excise taxes, factory handling and delivery, and preparing and conditioning set forth in section 10. For resellers in Porto Rico and Alaska, provision is made for additional charges as set forth in section 11. As required by section 12, the company must notify resellers of list prices and discounts for the new trucks and extra or optional equipment.

The prices authorized in this order are in accordance with the provisions of Maximum Price Regulation 610 and the provisions of the Emergency Price Control Act of 1942, as amended.

[Region VII Order G-26 Under RMPR 122, Amdt. 48]

SOLID FUELS IN DENVER REGION

Order No. G-26 Under Revised Maximum Price Regulation No. 122. Amendment No. 48. Maximum prices for solid fuels when sold by dealers within specified trade areas in Region VII. Docket No. 7-122-259 (a) (1), 260-30.

Pursuant to the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and §§ 1340.259 (a) and 1340.260 of Revised Maximum Price Regulation No. 122, and for the reasons set forth in the accompanying opinion, this Amendment No. 48 is issued.

1. The table of maximum prices, as set forth in paragraph (3) of *Appendix X, Northern Colorado Trade Area*, as heretofore amended, is hereby further amended by inserting at the end thereof and immediately preceding the note thereto, the following proviso:

Provided, However, That if you are a dealer located in the municipalities of Berthoud, Longmont, Loveland, La Porte, Windsor, or Wellington, you may, as to all coal produced in District 16 and coming to your yard by rail shipment originating on the Union Pacific Railroad, add 25¢ per ton to the above specified dollars-and-cents prices. If you are a dealer located in the Town of Hudson or the hamlet of Derby, receiving coal from District 16 coming to you by rail shipment originating on the Union Pacific Railroad, you may add 70¢ per ton to the above specified dollars-and-cents prices. If you are a dealer located in the Town of Keenesburg, receiving coal from District 16 coming to you by rail shipment originating on the Union Pacific Railroad, you may add 65¢ per ton to the above specified dollars-and-cents prices.

2. Effective date. This Amendment No. 48 shall become effective on the 9th day of September 1946.

Issued this 5th day of September 1946.

PAUL D. SHRIVER,
Acting Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 48 TO ORDER NO. G-26 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122

When dollars-and-cents prices were established for the Northern Colorado Trade Area, as set forth in Appendix X to Order No. G-26 under Revised Maximum Price Regulation No. 122, dealers located in the municipalities, towns, and hamlet referred to in this Amendment No. 48 were able to have coals purchased by them from producers in District 16 shipped via Chicago, Burlington and Quincy Railroad, and their principal source of supply was the Columbine Mine of the Rocky Mountain Fuel Company. Some months ago said Columbine Mine

ceased production and now the only sources of supply available to the dealers in question are those which make shipment only via Union Pacific Railroad; and because of the established freight tariffs such shipments via Union Pacific Railroad are subjected to additional transportation charges of 25¢, 70¢, and 65¢ per ton respectively as stated in this Amendment No. 48 and such increased transportation costs are by this Amendment No. 48 permitted to be added to the dollars-and-cents maximum prices by the dealers in question.

[Little Rock Order 4 Under Gen. Order 68, Amdt. 1]

BUILDING MATERIALS IN OUACHITA AND UNION COUNTIES, ARK.

Pursuant to the Emergency Price Control Act of 1942, as amended, General Order No. 68, and Delegation of Authority No. 126, and in accordance with Order No. 4, issued under General Order No. 68 by the Little Rock District Director of the OPA, and for the reasons set forth in the accompanying opinion, this amendment is issued. The statement of considerations involved in the issuance of this Amendment No. 1 to Order No. 4, under General Order No. 68, has been issued simultaneously herewith and filed with the Division of the Federal Register.

It is ordered, That the title and contents of section VII of Order No. 4, under General Order No. 68, is amended to read as follows:

SEC. VII. *Adjustment to reflect increase in supplier's price*—(a) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum prices provides that all resellers, including those subject to area orders, issued under General Order No. 68, may increase their maximum prices for the commodity in question.

(b) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. You can only do this, however, if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this order.

It is also ordered, That Appendix A to Order No. 4, under General Order No. 68, is amended in the following respects:

(1) The dollars-and-cents prices for specific items of hard building materials contained in Order No. 4, issued under General Order No. 68, are revised to the extent set forth in Appendix A[1] attached hereto and dated August 23, 1946.

(2) The original Appendix A to Order No. 4, under General Order No. 68, is hereby by reference dated August 23, 1946.

(3) The hard building material items of fire brick, fire clay, plastic fire brick, and items of screen wire cloth, 18" x 14", both black and galvanized, originally set forth in Appendix A of Order No. 4, under General Order No. 68, are deleted from said appendix.

(4) The hard building material item of masonry mortar, originally set forth in the order as 65# bag, is corrected to read 70# bag.

This amendment No. 1 shall become effective August 23, 1946.

Issued at Little Rock, Arkansas, this 23d day of August 1946.

ROBERT P. HALL,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 4 UNDER GEERAL ORDER NO. 68

Pursuant to the authority vested in the District Director of the Little Rock District Office by General Order No. 68 and Order of Delegation No. 126, issued by the Regional Administrator of Region V, and in accordance with the provisions of Order No. 4, under General Order No. 68, Amendment No. 1 to the above order has been issued.

Order No. 4, under General Order No. 68, was issued by the Little Rock District Director of the OPA on May 31, 1946, and became effective June 1, 1946. This order established dollars-and-cents ceiling prices for various items of hard building materials set forth in Appendix A thereof when sold at retail in the geographical area comprising Ouachita and Union Counties, Arkansas.

Subsequent to March 31, 1946, various industry-wide adjustments have been granted manufacturers of hard building materials; and under the provisions of the Emergency Price Control Act as amended, the retail industry is entitled to its March, 1946 mark-up on those items on which the manufacturer has received adjustments. Therefore, in view of increases granted the producer of hard building materials, it has been necessary, under the provisions of the Emergency Price Control Act of 1942 as amended, to amend and revise the retail price list of hard building material items (as of August 23, 1946) to the extent set forth in the accompanying amendment. Such action by the District Director has been found necessary under the act and will remove all inequities now existing in the original order.

Section VII of Order No. 4 provides that retailers subject to the order are required to absorb all price increases granted the producer of hard building materials. However, under the provisions of the Emergency Price Control Act, as amended, the retail industry is entitled to its March, 1946 mark-up on items on which the manufacturer has received price increases. Because of this provision of the act as amended, it has been necessary to amend Order No. 4 to conform to the new provisions of the act. It is also for this reason that this amendment is being issued.

Since the issuance of the above order, it has been found that certain items of building materials have been either suspended from price control or covered by other regulations, and also that items set forth in the order have been inaccurately described because of typographical errors. Therefore, this amendment is also being issued to delete items exempt from control or covered by other regulations, as well as to correct typographical errors which appeared in the description of items of hard building materials in the original order.

3. Section VII is hereby revoked, and a new section VII is added to read as follows:

SEC. VII. *Adjustment to reflect increase in supplier's price*—(a) *Applicability.* This section is applicable only where the amendment or order which grants the supplier an increase in his maximum price provides that all resellers, including those resellers subject to area orders issued under General Order 68, may increase their maximum prices for the commodity in question.

(b) *Maximum price.* A seller making sales subject to this order may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing his supplier's maximum price. Such seller can only do this, however, if the effective date of the action increasing his supplier's maximum price is later than the date stated on the price list contained in this order. Thus, if the supplier's maximum price for a product is increased, and at some later date the price listed in this order is increased for this product, the amendment to this order will supersede the increase originally granted the reseller by the amendment or order increasing his supplier's maximum price.

This Amendment No. 4 to Order No. 1 under General Order No. 68 shall become effective August 24, 1946.

Issued this 21st day of August 1946.

WILLIAM H. BRYAN,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 4 TO ORDER NO. 1 UNDER GENERAL ORDER NO. 68

The accompanying Amendment No. 4 to Order No. 1 under General Order No. 68 permits certain increases in the maximum prices of asphalt and tarred roofing products and in the maximum prices of metal lath.

This action is taken in conformity with the provisions of section 2 (t) of the Emergency Price Control Act of 1942, as amended, which provides "in establishing maximum prices applicable to wholesale and retail distributors, the Administrator shall allow the average current cost of acquisition of any commodity, plus such average percentage discounts or mark-up as was in effect March 31, 1946."

Amendment 8 to Revised Price Schedule 45 granted producers of asphalt and tarred roofing products certain price increases. This was the first increase in producers' maximum prices for these items since March 31, 1946. Amendment No. 3 to Order No. 1 under General Order No. 68, effective June 20, 1946, provided for an increase in the price of asphalt and tarred roofing products within the coverage of Order No. 1, only to the extent that costs had been increased resulting from increase granted producers by Amendment 8 to Revised Price Schedule 45. The accompanying amendment now permits persons making retail sales of asphalt and tarred roofing products within the coverage of Order No. 1, to realize the same average percentage mark-up on such products, as was in effect on March 31, 1946.

Moreover, the price increase for asphalt and tarred roofing products granted by the accompanying amendment, includes an adjustment necessary to prevent diversion of roofing materials from the St. Louis and St. Louis County, Missouri area. Prior to the issuance of the accompanying Amendment 4, maximum prices for asphalt and tarred roofing products established by area orders issued under General Order No. 68 for areas adjacent to the St. Louis and St. Louis County, Missouri area, were substantially higher than those in St. Louis and St. Louis County, Missouri; consequently, asphalt and tarred roofing products normally flowing into St. Louis and St. Louis County, Missouri, were diverted into adjacent areas. The District Director has determined that the increases permitted by the accompanying amendment are sufficient to prevent such diversion, and thus assure normal distribution of asphalt and tarred roofing products.

Amendment 44 to Order No. 1 under Maximum Price Regulation No. 592, effective June 10, 1946, granted increases in manufacturers' prices for specified items of metal lath. The accompanying Amendment No. 4 to Order No. 1 under General Order No. 68, permits persons making retail sales of metal lath to realize the same average percentage mark-up on average current acquisition costs of such products, as was in effect March 31, 1946.

Section VII of Order No. 1 under General Order No. 68 has been amended to permit resellers to increase their maximum prices in the event their suppliers' maximum prices have been increased by an amendment or order permitting such resellers to make such an increase. The reseller, however, may so increase his price only if the effective date of the action increasing his supplier's maximum price is later than the date stated on the price list contained in Order No. 1 under General Order No. 68.

Fire Brick and Fire Clay have been deleted from Order No. 1 under General Order No. 68, inasmuch as these items are now suspended from price control by Amendment 27 to Supplementary Order No. 129, effective June 12, 1946. Smooth Roofing Paper 35# has been removed from the coverage of Order No. 1 inasmuch as the manufacture of this item has practically ceased.

To the extent practicable, the District Director has advised and consulted with representatives of the industry which will be affected by this amendment and has given due consideration to their recommendations.

In the light of the foregoing, the District Director finds that the accompanying Amendment No. 4 to Order No. 1 under General Order No. 68 is consistent with and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

[Region VIII Rev. Order G-16 Under MPR 592]

SPECIFIED CEMENT PRODUCTS IN NEVADA

For the reasons set forth in an opinion issued simultaneously herewith and pursuant to authority vested in the Regional Administrator by section 23 of Maximum Price Regulation No. 592, Order No. G-16 under Maximum Price Regulation No. 592 is revised and amended to read as follows:

(a) This order shall apply to sales by producers in the State of Nevada.

(b) Maximum prices for sales at retail of specified building blocks and clay bricks shall be as set forth in Appendix A, attached hereto, for producers located in Nevada, except Clark and Lincoln Counties.

(c) Maximum prices for sales at retail of specified building blocks shall be as set forth in Appendix B, attached hereto, for producers located in Clark or Lincoln Counties, Nevada.

(d) Maximum prices for sales to building block producers of specified aggregates shall be as set forth in Appendix C,[1] attached hereto.

(e) For the purpose of this order sales at retail shall mean sales to persons such as contractors, who purchase for resale

on all installed basis, and ultimate consumers.

(f) This order may be corrected, amended or revoked at any time.

(g) This revised order shall become effective September 6, 1946.

Issued this 28th day of August 1946.

GUY R. KINSLEY,
Acting Regional Administrator.

OPINION ACCOMPANYING REVISED ORDER NO. G–16 UNDER SECTION 23 OF MAXIMUM PRICE REGULATION NO. 592

The accompanying revision of Order No. G–16 incorporates the counties of Clark and Lincoln, which were excluded from the coverage of Order No. G–16 when originally issued, thus establishing maximum prices for sales of building blocks by producers located in said counties. The order further provides that the prices listed for aggregates shall cover sales by producers located anywhere in Nevada.

The action taken is based on information recently obtained as a result of a survey of Clark and Lincoln Counties. The prices established are based on the general level of prices in the area covered, and are set forth in dollars-and-cents amounts.

The considerations given to the issuance of Order No. G–16 have been applied to the issuance of this revised order.

In the opinion of the Regional Administrator the action taken herein is fair and equitable and consistent with the Emergency Price Control Act of 1942, as amended, and Executive orders supplementary thereto.

3. Section VIII is hereby revoked, and a new section VIII is added to read as follows:

SEC. VIII. *Adjustment to reflect increase in supplier's price*—(a) *Applicability.* This section is applicable only where the amendment or order which grants the supplier an increase in his maximum price provides that all resellers, including those resellers subject to area orders issued under General Order No. 68, may increase their maximum prices for the commodity in question.

(b) *Maximum price.* A seller making sales subject to this order may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing his supplier's maximum price. Such seller can only do this, however, if the effective date of the action increasing his supplier's maximum price is later than the date stated on the price list contained in this order. Thus, if the supplier's maximum price for a product is increased, and at some later date the price listed in this order is increased for this product, the amendment to this order will supersede the increase originally granted the reseller by the amendment or order increasing his supplier's maximum price.

This Amendment No. 2 to Order No. 2 under General Order No. 68 shall become effective August 24, 1946.

Issued this 21st day of August 1946.

WILLIAM H. BRYAN,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 2 TO ORDER NO. 2 UNDER GENERAL ORDER NO. 68

The accompanying Amendment No. 2 to Order No. 2 under General Order No. 68 permits certain increases in maximum prices of asphalt and tarred roofing products, and in the maximum prices of metal lath.

This action is taken in conformity with the provisions of section 2 (t) of the Emergency Price Control Act of 1942, as amended, which provides "in establishing maximum prices applicable to wholesale and retail distributors, the Administrator shall allow the average current cost of acquisition of any commodity, plus such average percentage discounts or mark-up as was in effect March 31, 1946."

Amendment 8 to Revised Price Schedule 45, effective May 10, 1946, granted producers of asphalt and tarred roofing products certain price increases. This was the first increase in producers' maximum prices for these items since March 31, 1946. Amendment No. 1 to Order No. 2 under General Order No. 68, effective June 20, 1946, provided for an increase in the price of asphalt and tarred roofing products within the coverage of Order No. 2 only to the extent that costs had been increased resulting from increase granted producers by Amendment 8 to Revised Price Schedule 45. The accompanying amendment now permits persons making retail sales of asphalt and tarred roofing products within the coverage of Order No. 2 to realize the same average percentage mark-up on such products as was in effect on March 31, 1946.

Amendment No. 44 to Order No. 1 under Maximum Price Regulation No. 592, effective June 10, 1946, granted increases in manufacturers' prices for specified items of metal lath. The accompanying Amendment No. 2 to Order No. 2 under General Order No. 68, permits persons making retail sales of metal lath to realize the same average percentage mark-up on average current acquisition costs of such products, as was in effect March 31, 1946.

Section VIII of Order No. 2 under General Order No. 68 has been amended to permit resellers to increase their maximum prices in the event their suppliers' maximum prices have been increased by an amendment or order permitting such resellers to make such an increase. The reseller, however, may so increase his price only if the effective date of the action increasing his supplier's maximum price is later than the date stated on the price list contained in Order No. 2 under General Order No. 68.

Fire brick and fire clay have been deleted from Order No. 2 under General Order No. 68, inasmuch as these items are now suspended from price control by Amendment No. 27 to Supplementary Order No. 129, effective June 12, 1946.

To the extent practicable, the District Director has advised and consulted with representatives of the industry which will be affected by this Amendment and has given due consideration to their recommendations.

In the light of the foregoing, the District Director finds that the accompanying Amendment No. 2 to Order No. 2 under General Order No. 68 is consistent with and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

3. Section VIII is hereby revoked, and a new section VIII is added to read as follows:

SEC. VIII. *Adjustment to reflect increase in supplier's price*—(a) *Applicability.* This section is applicable only where the amendment or order which grants the supplier an increase in his maximum price provides that all resellers, including those resellers subject to area orders issued under General Order No. 68, may increase their maximum prices for the commodity in question.

(b) *Maximum price.* A seller making sales subject to this order may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing his supplier's maximum price. Such seller can only do this, however, if the effective date of the action increasing his supplier's maximum price is later than the date stated on the price list contained in this order. Thus, if the supplier's maximum price for a product is increased, and at some later date the price listed in this order is increased for this product, the amendment to this order will supersede the increase originally granted the reseller by the amendment or order increasing his supplier's maximum price.

This Amendment No. 1 to Order No. 3 under General Order No. 68 shall become effective August 24, 1946.

Issued this 21st day of August 1946.

WILLIAM H. BRYAN,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 3 UNDER GENERAL ORDER NO. 68

The accompanying Amendment No. 1 to Order No. 3 under General Order No. 68 permits certain increases in maximum prices of asphalt and tarred roofing products.

This action is taken in conformity with the provisions of section 2(t) of the Emergency Price Control Act of 1942, as amended, which provides "in establishing maximum prices applicable to wholesale and retail distributors, the Administrator shall allow the average current cost of acquisition of any commodity, plus such average percentage discount or mark-up as was in effect March 31, 1946."

Amendment 8 to Revised Price Schedule 45, effective May 10, 1946, granted

producers of asphalt and tarred roofing products certain price increases, which were the first increases in producers' maximum prices for these items since March 31, 1946. Amendment 44 to Order No. 1 under Maximum Price Regulation No. 592, effective June 10, 1946, granted increases in manufacturers' prices for specified items of metal lath, which were the first increases in manufacturers' maximum prices for these items since March 31, 1946. Order No. 3 under General Order 68, in establishing maximum prices for retail sales of specified asphalt and tarred roofing products and metal lath, included the dollars-and-cents increase in cost to persons making retail sales of such items, resulting from the increase granted the manufacturers. The accompanying amendment now permits persons making retail sales of asphalt and tarred roofing products and metal lath, within the coverage of Order No. 3, to realize the same average percentage mark-up on average current acquisition costs of such products, as was in effect on March 31, 1946.

Section VIII of Order No. 3 under General Order 68 has been amended to permit resellers to increase their maximum prices in the event their suppliers' maximum prices have been increased by an amendment or order permitting such resellers to make such an increase. The reseller, however, may so increase his price only if the effective date of the action increasing his supplier's maximum price is later than the date stated on the price list contained in Order No. 3 under General Order 68.

The issuance and effective date of Order No. 4 have been changed to July 26, 1946.

In the light of the foregoing, the District Director finds that the accompanying Amendment No. 1 to Order No. 4 under General Order No. 68 is consistent with and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

2. Section VIII is hereby revoked, and a new section VIII is added to read as follows:

SEC. VIII. *Adjustment to reflect increase in supplier's price*—(a) *Applicability.* This section is applicable only where the amendment or order which grants the supplier an increase in his maximum price provides that all resellers, including those resellers subject to area orders issued under General Order 68, may increase their maximum prices for the commodity in question.

(b) *Maximum price.* A seller making sales subject to this order may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing his supplier's maximum price. Such seller can only do this, however, if the effective date of the action increasing his suppliers' maximum price is later than the date stated on the price list contained in this order. Thus, if the supplier's maximum price for a product is increased, and at some later date the price listed in this order is increased for this product, the amendment to this order will supersede the increase originally granted the reseller by the amendment or order increasing his supplier's maximum price.

3. The issuance and effective dates in Order No. 4 under General Order 68 are amended to read "July 26, 1946."

This Amendment No. 1 to Order No. 4 under General Order No. 68 shall become effective August 24, 1946.

Issued this 21st day of August 1946.

District Director.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 4 UNDER GENERAL ORDER NO. 68

The accompanying Amendment No. 1 to Order No. 4 under General Order No. 68 permits certain increases in maximum prices of asphalt and tarred roofing products. This action is taken in conformity with the provisions of section 2 (t) of the Emergency Price Control Act of 1942, as amended, which provides "in establishing maximum prices applicable to wholesale and retail distributors, the Administrator shall allow the average current cost of acquisition of any commodity, plus such average percentage discount or mark-up as was in effect March 31, 1946."

Amendment 8 to Revised Price Schedule 45 effective May 10, 1946, granted producers of asphalt and tarred roofing products certain price increases, which were the first increases in producers' maximum prices for these items since March 31, 1946. Amendment 44 to Order No. 1 under Maximum Price Regulation No. 592, effective June 10, 1946, granted increases in manufacturers' prices for specified items of metal lath, which were the first increases in manufacturers' maximum prices for these items since March 31, 1946. Order No. 4 under General Order 68, in establishing maximum prices for retail sales of specified asphalt and tarred roofing products and metal lath, included the dollars-and-cents increase in cost to persons making retail sales of such items, resulting from the increase granted the manufacturers. The accompanying amendment now permits persons making retail sales of asphalt and tarred roofing products and metal lath, within the coverage of Order No. 4, to realize the same average percentage mark-up on average current acquisition costs of such products, as was in effect on March 31, 1946.

Section VIII of Order No. 4 under General Order 68 has been amended to permit resellers to increase their maximum prices in the event their suppliers' maximum prices have been increased by an amendment or order permitting such resellers to make such an increase. The reseller, however, may so increase his price only if the effective date of the action increasing his supplier's maximum price is later than the date stated on the price list contained in Order No. 4 under General Order 68.

The issuance and effective date of Order No. 4 have been changed to July 26, 1946.

In the light of the foregoing, the District Director finds that the accompanying Amendment No. 1 to Order No. 4 under General Order No. 68 is consistent with and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended.

SOLID FUELS IN ELBERT COUNTY, COLO.

Revised Order No. G-1 Under Maximum Price Regulation No. 121. Order modifying maximum prices for miscellaneous solid fuel produced at or for delivery from a mine or preparation plant operated as an adjunct thereof in Elbert County, Colorado. Docket No. 7-121-247a (e)-2.

Pursuant to the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and § 1340.247a (c) of Maximum Price Regulation No. 121, and for the reasons set forth in the accompanying opinion, this Revised Order No. G-1 is issued.

(a) *What this Revised Order No. G-1 does.* This Revised Order No. G-1 amends Order No. 1 issued under § 1340.-247a (c) of Maximum Price Regulation No. 121, issued November 9, 1942, and supersedes said Order No. 1 as of the effective date hereof.

(b) (1) The title to said Order No. 1 is hereby deleted and a new title as set forth in the caption hereof is hereby substituted therefor.

(2) The preamble or introductory paragraph of said Order No. 1 is hereby deleted and a new preamble as hereinabove set forth is substituted therefor.

(3) The numbering of paragraphs and subparagraphs is changed as set forth in this Revised Order No. G-1.

(c) *Maximum f. o. b. mine prices.* The maximum prices for miscellaneous solid fuel sold at or delivered f. o. b. from a mine or preparation plant operated as an adjunct thereof in Elbert County, State of Colorado, shall, from and after the effective date of this Revised Order No. G-1, be as follows:

	Per ton
3" lignite lump	$3.50
3" x 1" lignite nut	2.75
1¾" x ¾" pea	1.80

(d) *Definitions.* "Miscellaneous solid fuel" means lignite coal produced at any mine in Elbert County, State of Colorado.

(e) *Customary discounts and allowances must be maintained.* Sellers covered by this Revised Order No. G-1 must maintain their customary discounts, differentials, and allowances.

(f) *Relation to other regulations and orders.* Persons making sales under this Revised Order No. G-1 remain subject to all the terms and provisions of Maximum Price Regulation No. 121 that are not contradictory hereof or inconsistent herewith. Order No. 1 under § 1340.-247a(c) of Maximum Price Regulation No. 121, issued November 9, 1942, is hereby superseded by this Revised Order No. G-1, as of the effective date hereof.

(g) *Right to revoke or amend.* This Revised Order No. G-1 may be revoked, modified, or amended by the Price Administrator or the Regional Administrator.

Effective date. This Revised Order No. G-1 shall become effective on the 9th day of September, 1946.

Issued this 5th day of September, 1946.

PAUL D. SHRIVER,
Acting Regional Administrator.

OPINION ACCOMPANYING REVISED ORDER NO. G-1 UNDER MAXIMUM PRICE REGULATION NO. 121

The opinion issued in support of Order No. G-1 which is now superseded by this Revised Order No. G-1, which said opinion was designated "Statement of Reasons for the Order", is, insofar as applicable, incorporated herein by reference and made a part of this opinion now issued in support of Revised Order No. G-1.

When the said original Order No. 1 was issued, the method of numbering orders and paragraphing them was in process of development and no manual on field price instructions had been promulgated definitely determining these matters. Therefore this revised order renumbers, reparagraphs, and, in some respects, rewrites said original Order No. 1, to make the same conform with the now established procedure.

When said Order No. 1 was issued there was, and there now is, only one small mine operating in Elbert County, State of Colorado. That mine has heretofore produced only two classes of coal, mine run and pea coal. Recently the mine changed hands, and the present owner and operator desires to expand his classification of coals produced as set forth in this Revised Order No. G-1, and in order to enable him to do so maximum prices are hereby established for the three categories specified.

General Notes

The following general notes shall be a part of the tables to which they relate:

1. To the prices listed in Tables I-IX, inclusive, may be added the following:
   a. 10 cents per net ton as heretofore permitted by Order #G-11 under RMPR 122.
   b. The exact amount of the increase in railroad freight incurred as a result of the order of the Interstate Commerce Commission of June 20, 1946 on Docket Ex Parte 162, as permitted by Amendment 46 to Revised Maximum Price Regulation 122.
   c. 15 cents per net ton as permitted by Amendment 48 to RMPR 122.

This amendment shall become effective upon issuance.

Issued this 6th day of September 1946.

BEN C. DUNIWAY,
Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 2 TO ORDER NO. G-9 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122

The accompanying amendment revises the prices set forth in Tables I through IX of Order G-9 under Revised Maximum Price Regulation No. 122.

The price changes effected by this amendment for Wyoming, Utah and Montana coals (Tables I through III-A), and Washington coals (Tables IV through IX) were prompted because of increased prices at the producer level granted by terms of Amendments 146 and 158 to Maximum Price Regulation No. 120. In the case of Wyoming, Utah and Montana coals, the maximum prices were re-calculated upon the basis of these mine increases and were determined in the same manner as the prices established by the terms of Order G-9. Relative to Washington mined coals, specific price increases have been allowed to reflect authorized increases at the mine level.

When Order G-9 under Revised Maximum Price Regulation No. 122 was originally issued, maximum prices for the various types of out-of-state coals were on a fairly uniform basis after taking into consideration mine and transportation costs and selling margins. Recently authorized mine increases, however, have varied in amounts among the different coal producing districts. For this reason the same types of coals from the various districts will command different maximum prices.

Maximum price changes for Canadian coals (Tables VIII and IX) were deemed necessary because of the change in exchange rates between Canadian funds and American funds on July 5, 1946. The 10% premium which was granted on American funds was discontinued by the Canadian Government and the exchange basis of Canadian currency raised to par with American currency. As a result, adjusted maximum prices for Canadian coals at the mine level have been incorporated in Amendment No. 2 to Revised Order G-1 under Order 68, as amended, under Section 21 of the Maximum Import Price Regulation. The price changes, then, for Canadian coals have been re-calculated to reflect this 10% increase in the price of such coal at the mine and were determined in the same manner as the prices established by the terms of Order G-9.

Since the preparation of the basic tables, certain increases have been permitted by Amendments 46 and 48 to RMPR 122. These increases have been reflected in this amendment by the insertion of the general notes at the end of the tables. In addition, the increase permitted by Order Nos. G-11 and G-13 under RMPR 122 have been reflected in this amendment. Consequently, simultaneously with this amendment, Order Nos. G-11 and G-13 are being amended to eliminate from their coverage those dealers covered by Order No. G-9.

For reasons stated above, the maximum prices established by this order are generally fair and equitable and are consistent with and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders No. 9250 and 9328.

The same considerations which prompted the issuance of Order G-9 are present herein. For a complete statement of such considerations, reference is made to the opinion accompanying the order.

Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 7 TO ORDER NO. G-51 UNDER SECTIONS 1340.-260 AND 1340.259 (a) (1) OF REVISED MAXIMUM PRICE REGULATION NO. 122

By Amendment No. 6 effective August 22, 1946, to Maximum Price Regulation No. 77—Beehive Oven Coke, the maximum prices for beehive coke produced in the Connellsville District were increased by $1.35 per net ton for hand drawn coke. By action of the Interstate Commerce Commission in Ex Parte 162, freight rate increases were effected and by Amendment No. 48 to Revised Maximum Price Regulation No. 122, increases of 30¢ and 10¢ were effected in the prices for direct and yard deliveries respectively.

The Amendment which this opinion accompanies has been issued to reflect these increases.

[Little Rock Order 5 Under Gen. Order 68, Amdt. 1]

BUILDING MATERIALS IN JEFFERSON COUNTY, ARK.

Pursuant to the Emergency Price Control Act of 1942, as amended, General Order No. 68, and Delegation of Authority Order No. 126, and in accordance with Order No. 5, issued under General Order No. 68 by the Little Rock District Director of the OPA, and for the reasons set forth in the accompanying opinion, this amendment is issued. The statement of considerations involved in the issuance of this Amendment No. 1 to Order No. 5, under General Order No. 68, has been issued simultaneously herewith and filed with the Division of the Federal Register.

It is ordered, That the title and contents of section VII of Order No. 5, under General Order No. 68, is amended to read as follows:

SEC. VII. *Adjustment to reflect increase in supplier's price*—(a) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum prices provides that all resellers, including those subject to area orders, issued under General Order No. 68, may increase their maximum prices for the commodity in question.

(b) Maximum price. You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. You can only do this, however, if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this order.

It is also ordered, That Appendix A to Order No. 5, under General Order No. 68, is amended in the following respects:

(1) The dollars-and-cents prices for specific items of hard building materials contained in Order No. 5, issued under General Order No. 68, are revised to the extent set forth in Appendix A attached hereto and dated August 23, 1946.

(2) The original Appendix A to Order No. 5, under General Order No. 68, is hereby by reference dated August 23, 1946.

(3) The hard building material items of fire brick, fire clay, plastic fire brick, and items of screen wire cloth 18 x 14, black and galvanized, originally set forth in Appendix A of Order No. 5, under General Order No. 68, are deleted from said appendix.

This amendment No. 1 shall become effective August 23, 1946.

Issued at Little Rock, Arkansas, this 23d day of August 1946.

ROBERT P. HALL,
District Director.

OPINION ACCOMPANYING AMENDMENT NO. 1 TO ORDER NO. 5 UNDER GENERAL ORDER NO. 68

Pursuant to the authority vested in the District Director of the Little Rock District Office by General Order No. 68 and Order of Delegation No. 126, issued by the Regional Administrator of Region V, and in accordance with the provisions of Order No. 5, under General Order No. 68, Amendment No. 1 to the above order has been issued.

Order No. 5, under General Order No. 68, was issued by the Little Rock District Director of the OPA on May 31, 1946, and became effective June 1, 1946. This order established dollars-and-cents ceiling prices for various items of hard building materials set forth in Appendix A thereof when sold at retail in the geographical area comprising Jefferson County, Arkansas.

Subsequent to March 31, 1946, various industry-wide adjustments have been granted manufacturers of hard building materials; and under the provisions of the Emergency Price Control Act as amended, the retail industry is entitled to its March, 1946 markup on those items on which the manufacturer has received adjustments. Therefore, in view of increases granted the producer of hard building materials, it has been necessary, under the provisions of the Emergency Price Control Act of 1942 as amended, to amend and revise the retail price list of hard building material items (as of August 23, 1946), to the extent set forth in the accompanying Amendment. Such action by the District Director has been found necessary under the Act and will remove all inequities now existing in the original order.

Section VII of Order No. 5 provides that retailers subject to the Order are required to absorb all price increases granted the producer of hard building materials. However, under the provisions of the Emergency Price Control Act, as amended, the retail industry is entitled to its March, 1946 mark-up on items on which the manufacturer has received price increases. Because of this provision of the Act as amended, it has been necessary to amend Order No. 5 to conform to the new provisions of the act. It is also for this reason that this amendment is being issued.

Since the issuance of the above order, it has been found that certain items of building materials have been either suspended from price control or covered by other regulations. Therefore, this amendment is also being issued to delete items exempt from control or covered by other regulations.

SOLID FUELS IN DENVER, COLO., AREA

Third Revised Order No. G-24 under Revised Maximum Price Regulation No. 122, Amendment No. 21. (Solid fuels sold and delivered by dealers.) Adjustment of specific maximum prices of dealers in Region VII to compensate for increases in supplier's price under Amendment 74 to Maximum Price Regulation No. 120. Docket No. 7-122-260-24.

Pursuant to the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, as amended, and § 1340.260 of Revised Maximum Price Regulation No. 122, and for the reasons set forth in the accompanying opinion, this Amendment No. 21 is issued.

1. Part IV of paragraph (d) of this Third Revised Order No. G-24, as heretofore amended, is hereby further amended to read as follows:

PART IV

MINES IN DISTRICT 16

Operator	Subdistrict	Index No.	Size groups	Amount	Effective date
(1) Boulder Valley Coal Co.: Centennial	2	3	All	50¢	Sept. 6, 1945
(2) National Fuel Co.: Monarch	1	13	1 through 9	$1.60	Aug. 26, 1946
			10 through 13	70¢	Aug. 26, 1946

(4) Louisville-Lafayette Coal Co.: Hi-Way	2	9	All	9¢	Sept. 3, 1946

NOTE: Notwithstanding anything to the contrary in this Third Revised Order No. G-24, the increases above set forth in subparagraphs (1), (2), (3), and (4) of this Part IV are applicable to shipments made by truck as well as to shipments made by rail.

Effective date. This amendment No. 21 shall become effective on the 3d day of September 1946.

Issued this 5th day of September 1946.

PAUL D. SHRIVER,
Acting Regional Administrator.

OPINION ACCOMPANYING AMENDMENT NO. 21 TO THIRD REVISED ORDER NO. G-24 UNDER REVISED MAXIMUM PRICE REGULATION NO. 122

Order L-788, issued by the Washington Office of the Office of Price Administration, effective August 26, 1946, granted Louisville-Lafayette Coal Company an increase of 9¢ per ton on all sizes produced at its Hi-Way Mine; and Order L-789, issued by the Washington Office of the Office of Price Administration, effective August 26, 1946, granted National Fuel Company further price increases for coals produced at its Monarch Mine. This Amendment No. 21 to Third Revised Order No. G-25 permits dealers retailing coals produced by the two mines specified to increase their dollars-and-cents maximum prices as now established to cover in full these f. o. b. mine price increases.

[Miami Rev. Order G-12 Under Gen. Order 68]

HARD BUILDING MATERIALS IN PALM BEACH COUNTY, FLA.

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, it is ordered:

SECTION 1. *What this orders covers.* This orders covers all retail sales by any seller of commodities specified in this order delivered to a purchaser in Palm Beach County, Florida.

SEC. 2. *Definition of retail sales.* For the purposes of this order, a retail sale means a sale to an ultimate user, or to a purchaser for resale on an installed basis.

SEC. 3. *Description of items covered by this order.* This order covers the commodities set forth in the annexed price table.

SEC. 4. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order. Except to the extent they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation, or of any other applicable regulation or order shall apply to sales covered by this order. This order reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of Resellers Maximum Prices Established under General Order 68 for certain Building and Construction Materials). Accordingly, this order supersedes that supplementary order, and the maximum prices established by this order cannot be increased under that supplementary order.

SEC. 5. *Maximum prices.* The maximum prices for the building materials covered by this order are set forth in Table 1 which is annexed to and made a part of this order.

SEC. 6. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of the list of maximum prices fixed by this order in each of his places of business in Palm Beach County, Florida, in a manner plainly visible to all purchasers.

SEC. 7. *Sales slips and records.* Every seller covered by this order who has customarily given his customers a sales slip or other evidence of purchase must continue to do so. Upon request from a customer, such seller regardless of previous custom, shall give the purchaser a receipt showing the date, name and address of the seller, the description of each item sold and the price received for it. If he customarily prepared his sales slips in more than one copy, he must keep for at least 6 months after delivery a duplicate copy of each sale slip delivered by him pursuant to this section. Each such seller shall also keep at least such records of each sale as he customarily kept. For any sale of $50.00 or more, each seller, regardless of previous custom, must keep records showing at least the following:

1. Name and address of buyer.
2. Date of transaction.
3. Place of delivery.
4. Complete description of each item sold and price charged.

SEC. 8. *Adjustment to reflect increase in suppliers price*—(a) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum price provides that all resellers, including those subject to area orders issued under General Order 68, may increase their maximum prices for the commodity in question.

(b) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your suppliers maximum price. You can only do this, however, if the effective date of the action increasing your suppliers maximum price is later than the date stated on the price list contained in this order. Thus, if your suppliers maximum price for a product is increased and at some later date the price listed in this order is increased for this product the amendment to this order will supersede the increase originally granted you by the amendment or order increasing your suppliers maximum price.

SEC. 9. *Amendment.* This order may be amended or revoked at any time by the Office of Price Administration.

This order shall become effective August 24, 1946.

Issued this 22d day of August 1946.

BERNARD C. GOODWIN,
District Director.

TABLE 1

Effective in Palm Beach County, Florida.
Effective August 24, 1946.

READY MIXED CONCRETE

The maximum prices for sales of ready-mixed concrete delivered to a job site within a five mile radius of the seller's plant shall be as follows: [1]

$11.15 per cubic yard of five bag mix

An additional 15¢ per cubic yard may be charged for deliveries beyond a five mile radius of the seller's plant.

An additional 98¢ per bag of cement per cubic yard may be charged for ready-mixed concrete containing more than 5 bags of cement per cubic yard and 98¢ per bag of cement per cubic yard must be deducted for ready-mixed concrete containing less than 5 bags of cement per cubic yard.

An additional $1.50 per cubic yard may be charged for sales of less than two cubic yards.

An additional $2.00 per cubic yard may be added for installing the concrete in place with a chute.

An additional $1.00 per cubic yard may be added for concrete treated with a waterproofing additive.

An amount computed at the rate of $4.00 per hour may be added on deliveries requiring a waiting time of more than twenty (20) minutes.

OPINION ACCOMPANYING REVISED ORDERS NUMBERED G-3, G-4, G-5, G-6, G-7, G-8, G-9, G-10, G-11, G-12, G-13, G-14, G-15, AND ORDER NO. G-16

Under General Order No. 68, as amended, the Price Administrator may, and each Regional Administrator of the Office of Price Administration and any District Director who may be authorized by the appropriate Regional Administrator is authorized to issue and put into effect

[1] All prices are subject to the customary quantity and trade differentials in effect during March, 1942.

contained in Order No. 5, issued under

in supplier's price under Amendment

orders establishing maximum prices, applicable to a particular community or defined area, for sales of commodities under the jurisdiction of the Building Materials and Construction Price Branch by all persons to ultimate users or to purchasers for resale on an installed basis.

This authority has been delegated to the Director of the Miami District Office by the Regional Administrator of Region IV, by Regional Delegation Order No. 93, as amended.

Acting pursuant to said General Order 68, as amended, and to Regional Delegation Order No. 93, the District Director of the Miami District Office has heretofore issued orders numbered G–13 through G–15. These orders established ceiling prices for the listed hard building materials and covered most of the area comprising the Miami District.

General Order 68 provides the following standards to be applied to orders issued under that general order: (1) Maximum prices shall be set forth in dollars-and-cents unless this shall clearly appear impractical or inappropriate; and (2) maximum prices thus set forth shall not exceed the general level of prices as fixed by the regulation which would otherwise be applicable.

In accordance with the first of the above described standards, prices established in the above mentioned orders are specific dollars-and-cents prices applicable to sales in various quantities.

In determining the appropriate prices for inclusion in the orders the Director of the Miami District Office surveyed the prices charged by the principal suppliers in the stated areas. Prices charged currently and in March 1942, for each item in each quantity bracket as well as discount terms, delivery practices and other conditions of sale were obtained. The prices obtained were first studied in order to ascertain that amount of differentiation as to types of sellers, types of purchasers and quantity of sales that should be recognized in the orders to prevent substantial hardship and to avoid marked increases and which could be based on definite and recognizable objective characteristics apparent at the time of the sale. The data for each selected grouping was next set forth in an array and where possible a quasi-modal price based on prices weighted on the over-all sales volumes of the sellers studied and covering 60–65% of the volume of sales was chosen as the ceiling prices for the particular commodity. In those cases where the model price was not appropriate or where it was impossible of ascertainment a bulkline price covering 60–65% of the sales was selected. By the use of these statistical methods it was apparent that in general the prices established did not exceed the level of prices as fixed by the regulation which otherwise would have been applicable nor was any substantial reduction made in the current legal maximum prices of any important group of sellers.

Aside from correcting certain minor errors found in the orders numbered G–3 through G–15, the issuance of the revised orders accompanying this opinion is intended to accomplish two objectives. In the first place the minor revisions in the areas covered under the Revised Orders numbered G–3 through G–15 together with the issuance of Order G–16, complete the coverage of the entire area comprising the Miami District. Thus, dollars-and-cents ceiling prices for the listed hard building materials are now established for the entire area commonly known as South Florida or Peninsular Florida. In the second place the issuance of the accompanying orders is intended to, and apparently does, remove the absorption of certain costs heretofore required of dealers and arising because of increased manufacturer's ceilings subsequent to March 31, 1946. Further, in accordance with the provisions of Section 2 (t) of the Emergency Price Control Act of 1942, as amended, the revised orders now make specific provisions regarding increased costs accruing to the affected sellers.

This action has been discussed with members of the trade at informal meetings with representative dealers and all suggestions and recommendations offered by the trade have been considered and have been incorporated into this order to the extent that these suggstions were consistent with the provisions of General Order No. 68 and the Emergency Price Control Act of 1942, as amended.

All provisions of these orders and their effect upon business practices, cost practices, or methods or means or aids to distribution in the industry have been carefully considered by the District Director of the Miami District Office. No provisions which might have the effect of requiring a change in such practices, methods, means or aids established in the industry have been included in the new regulations unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the regulation or of the Emergency Price Control Act of 1942, as amended. To the extent that provisions of the orders compel or may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry, such provisions have been found necessary to prevent circumvention or evasion of the regulation of act.

[Miami Rev. Order G–7 Under Gen. Order 68]

Hard Building Materials in Miami, Fla., District

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68 it is ordered:

Section 1. *What this order covers.* This order covers all retail sales by any seller of commodities specified in this order delivered to a purchaser in the counties of De Soto, Hardee, Hernando, Highlands, Okeechobee, Osceola, Pasco, Glades and Polk in the State of Florida.

Sec. 2. *Definition of retail sales.* For the purposes of this order, a retail sale means a sale to an ultimate user, or to a purchaser for resale on an installed basis.

Sec. 3. *Description of items covered by this order.* This order covers the commodities set forth in the annexed price table.

Sec. 4. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order. Except to the extent they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation, or of any other applicable regulation or order shall apply to sales covered by this order. This order reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of Resellers Maximum Prices Established under General Order 68 for certain Building and Construction Materials). Accordingly, this order supersedes that supplementary order, and the maximum prices established by this amendment cannot be increased under that supplementary order.

Sec. 5. *Maximum prices.* The maximum prices for the building materials covered by this order are set forth in Table 1 which is annexed to and made a part of this order.

Sec. 6. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of the list of maximum prices fixed by this order in each of his places of business in De Soto, Glades, Hardee, Hernando, Highlands, Okeechobee, Osceola, Pasco and Polk Counties in a manner plainly visible to all purchasers.

Sec. 7. *Sales slips and records.* Every seller covered by this order who has customarily given his customers a sales slip or other evidence of purchase must continue to do so. Upon request from a customer, such seller regardless of previous custom, shall give the purchaser a receipt showing the date, name and address of the seller, the description of each item sold and the price received for it. If he customarily prepared his sales slips in more than one copy, he must keep for at least 6 months after delivery a duplicate copy of each sales slip delivered by him pursuant to this section. Each such seller shall also keep at least such records of each sale as he customarily kept. For any sale of $50.00 or more, each seller, regardless of previous custom, must keep records showing at least the following:

1. Name and address of buyer.
2. Date of transaction.
3. Place of delivery.
4. Complete description of each item sold and price charged.

Sec. 8. *Adjustment to reflect increase in supplier's price.*—(a) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum price provides that all resellers, including those subject to area orders issued under General Order 68, may increase their maximum prices for the commodity in question.

(b) *Maximum price.* You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your supplier's maximum price. You can only do this, however, if the effective date of the action increasing your supplier's maximum price is later than the date stated on the price list contained in this order. Thus, if your suppliers maximum price for a product is increased and at some later date the price listed in this order is increased for this product, the amendment to this order will supersede the increase originally granted you by the amendment or order increasing your suppliers maximum price.

Sec. 9. *Amendment.* This order may be amended or revoked at any time by the Office of Price Administration.

This order shall become effective August 24, 1946.

Issued this 22d day of August 1946.

Bernard C. Goodwin,
District Director.

[1] All prices listed above include free delivery to the job side within the area covered by this order. All prices are subject to a 2 percent cash discount and customary quantity and other trade differentials in effect during March 1942.

[2] A square is defined as the quantity of asphalt or tarred roofing products sufficient to cover 100 square feet of surface when applied in the customary trade manner.

[3] If delivery of concrete blocks is made at the seller's yard, deduct 2 cents from above prices, for 8 x 8 x 16 blocks, 2½ cents for 8 x 12 x 16 blocks, and 1 cent for all others.

Opinion Accompanying Revised Orders Numbered G–3, G–4, G–5, G–6, G–7, G–8, G–9, G–10, G–11, G–12, G–13, G–14, G–15, and Order No. G–16

Under General Order No. 68, as amended, the Price Administrator may, and each Regional Administrator of the Office of Price Administration and any District Director who may be authorized by the appropriate Regional Administrator is authorized to issue and put into effect orders establishing maximum prices, applicable to a particular community or defined area, for sales of commodities under the jurisdiction of the Building Materials and Construction Price Branch by all persons to ultimate users or to purchasers for resale on an installed basis.

This authority has been delegated to the Director of the Miami District Office by the Regional Administrator of Region IV, by Regional Delegation Order No. 93, as amended.

Acting pursuant to said General Order 68, as amended, and to Regional Delegation Order No. 93, the District Director of the Miami District Office has heretofore issued orders numbered G–13 through G–15. These orders established ceiling prices for the listed hard building materials and covered most of the area comprising the Miami District.

General Order 68 provides for the following standards to be applied to orders issued under that general order: (1) Maximum prices shall be set forth in dollars-and-cents unless this shall clearly appear impractical or inappropriate; and (2) maximum prices thus set forth shall not exceed the general level of prices as fixed by the regulation which would otherwise be applicable.

In accordance with the first of the above described standards, prices established in the above mentioned orders are specific dollars-and-cents applicable to sales in various quantities.

In determining the appropriate prices for inclusion in the orders the Director of the Miami Office surveyed the prices charged by the principal suppliers in the stated areas. Prices charged currently and in March 1942, for each item in each quantity bracket as well as discount terms, delivery practices and other conditions of sale were obtained. The prices obtained were first studied to ascertain that amount of differentiation as to types of sellers, types of purchasers and quantity of sales that should be recognized in the orders to prevent substantial hardship and to avoid increases and which could be based on definite and recognizable objective characteristics apparent at the time of the sale. The data for each selected grouping was next set forth in an array and where possible a quasi-model price based on prices weighted on the over-all sales volumes of the sellers studied and covering 60-65% of the volume of sales was chosen as the ceiling prices for the particular commodity. In those cases where the model price was not appropriate or where it was impossible of ascertainment a bulkline price covering 60-65% of the sales was selected. By the use of these statistical methods it was apparent that in general the prices established did not exceed the level of prices as fixed by the regulation which otherwise would have been applicable nor was any substantial reduction made in the current legal maximum prices of any important group of sellers.

Aside from correcting certain minor errors found in the orders numbered G–3 through G–15, the issuance of the Revised Orders accompanying this opinion is intended to accomplish two objectives. In the first place the minor revisions in the areas covered under the Revised Orders numbered G–3 through G–15 together with the issuance of Order G–16, complete the coverage of the entire area comprising the Miami District. Thus, dollars-and-cents ceiling prices for the listed hard building materials are now established for the entire area commonly known as South Florida or Peninsular Florida. In the second place the issuance of the accompanying orders is intended to, and apparently does, remove the absorption of certain costs heretofore required of dealers and arising because of increased manufacturer's ceilings subsequent to March 31, 1946. Further, in accordance with the provisions of Section 2 (t) of the Emergency Price Control Act of 1942, as amended, the revised orders now make specific provisions regarding increased costs accruing to the affected sellers.

This action has been discussed with members of the trade at informal meetings with representative dealers and all suggestions and recommendations offered by the trade have been considered and have been incorporated into this order to the extent that these suggestions were consistent with the provisions of General Order No. 68 and the Emergency Price Control Act of 1942, as amended.

All provisions of these orders and their effect upon business practices, cost practices, or methods or means or aids to distribution in the industry have been carefully considered by the District Director of the Miami District Office. No provisions which might have the effect of requiring a change in such practices, methods, means or aids established in the industry have been included in the new regulations unless such provisions have been found necessary to achieve effective price control and to prevent circumvention or evasion of the regulation or of the Emergency Price Control Act of 1942, as amended. To the extent that provisions of the Orders compel or may operate to compel changes in business practices, cost practices or methods, or means or aids to distribution established in the industry, such provisions have been found necessary to prevent circumvention or evasion of the regulation or Act.

[Miami Rev. Order G–13 Under Gen. Order 68]

Hard Building Materials in Hillsborough County, Fla.

For the reasons set forth in an opinion issued simultaneously herewith, and pursuant to the provisions of General Order 68, it is ordered:

Section 1. *What this order covers.* This order covers all retail sales by any

seller of commodities specified in this order delivered to a purchaser in Hillsborough County, Florida.

SEC. 2. *Definition of retail sales.* For the purposes of this order, a retail sale means a sale to an ultimate user, or to a purchaser for resale on an installed basis.

SEC. 3. *Description of items covered by this order.* This order covers the commodities set forth in the annexed price table.

SEC. 4. *Relation to other regulations.* The maximum prices fixed by this order supersede any maximum price or pricing method previously fixed by any other regulation or order. Except to the extent they are inconsistent with the provisions of this order, all other provisions of the General Maximum Price Regulation, or of any other applicable regulation or order shall apply to sales covered by this order. This order reflects the increases in maximum prices permitted by Supplementary Order 172 (Modification of Resellers' Maximum Prices Established under General Order 68 for certain Building and Construction Materials). Accordingly, this order supersedes that supplementary order, and the maximum prices established by this order cannot be increased under that supplementary order.

SEC. 5. *Maximum prices.* The maximum prices for the building materials covered by this order are set forth in Table 1 which is annexed to and made a part of this order.

SEC. 6. *Posting of maximum prices.* Every seller making sales covered by this order shall post a copy of the list of maximum prices fixed by this order in each of his places of business in Hillsborough County in a manner plainly visible to all purchasers.

SEC. 7. *Sales slips and records.* Every seller covered by this order who has customarily given his customers a sales slip or other evidence of purchase must continue to do so. Upon request from a customer, such seller regardless of previous custom shall give the purchaser a receipt showing the date, name and address of the seller, the description of each item sold and the price received for it. If he customarily prepared his sales slips in more than one copy, he must keep for at least 6 months after delivery a duplicate copy of each slip delivered by him pursuant to this section. Each such seller shall also keep at least such records of each sale as he customarily kept. For any sale of $50.00 or more, each seller, regardless of previous custom, must keep records showing at least the following:

1. Name and address of buyer.
2. Date of transaction
3. Place of delivery
4. Complete description of each item sold and price charged.

SEC. 8. *Adjustment to reflect increase in suppliers price*—(a) *Applicability.* This section is applicable only where the amendment or order which grants your supplier an increase in his maximum price provides that all resellers, including those subject to area orders issued under General Order 68, may increase their maximum prices for the commodity in question.

(b) ***Maximum price.*** You may increase the price listed in this order by the amount permitted for resellers by the amendment or order increasing your suppliers maximum price. You can only do this, however, if the effective date of the action increasing your suppliers maximum price is later than the date stated on the price list contained in this order. Thus, if your suppliers maximum price for a product is increased and at some later date the price listed in this order is increased for this product, the amendment to this order will supersede the increase originally granted you by the amendment or order increasing your suppliers maximum price.

SEC. 9. *Amendment.* This order may be amended or revoked at any time by the Office of Price Administration.

This order shall become effective August 24, 1946.

Issued this 22d day of August, 1946.

BERNARD C. GOODWIN,
District Director.

TABLE 1

Effective in Hillsborough County, Florida.
Effective August 24, 1946

READY MIXED CONCRETE

The maximum prices for sales of ready-mixed concrete delivered to a job site within a five mile radius of the seller's plant shall be as follows: [1]

$12.20 per cubic yard of five bag mix.

An additional 15¢ per cubic yard per mile may be charged for deliveries beyond a five mile radius of the seller's plant.

An additional 74¢ per bag of cement per cubic yard may be charged for ready-mixed concrete containing more than 5 bags of cement per cubic yard and 74¢ per bag of cement per cubic yard must be deducted for ready-mixed concrete containing less than 5 bags of cement per cubic yard.

An additional $1.50 per cubic yard may be charged for sales of less than two cubic yards.

An additional $2.00 per cubic yard may be added for installing the concrete in place with a chute.

An additional $1.00 per cubic yard may be added for concrete treated with a waterproofing additive.

An amount computed at the rate of $4.00 per hour may be added on deliveries requiring a waiting time of more than twenty (20) minutes.

OPINION ACCOMPANYING REVISED ORDERS NUMBERED G–3, G–4, G–5, G–6, G–7, G–8, G–9, G–10, G–11, G–12, G–13, G–14, G–15 AND ORDER NO. G–16

Under General Order No. 68, as amended, the Price Administrator may, and each Regional Administrator of the Office of Price Administration and any District Director who may be authorized by the appropriate Regional Administrator is authorized to issue and put into effect orders establishing maximum prices, applicable to a particular community or defined area, for sales of commodities under the jurisdiction of the Building Materials and Construction Price Branch by all persons to ultimate users or to purchasers for resale on an installed basis.

This authority has been delegated to the Director of the Miami District Office by the Regional Administrator of Region IV, by Regional Delegation Order No. 93, as amended.

Acting pursuant to said General Order 68, as amended, and to Regional Delegation Order No. 93, the District Director of the Miami District Office has heretofore issued orders numbered G–13 through G–15. These orders established ceiling prices for the listed hard building materials and covered most of the area comprising the Miami District.

General Order 68 provides the following standards to be applied to orders issued under that general order: (1) Maximum prices shall be set forth in dollars-and-cents unless this shall clearly appear impractical or inappropriate; and (2) maximum prices thus set forth shall not exceed the general level of prices as fixed by the regulation which would otherwise be applicable.

In accordance with the first of the above described standards, prices established in the above mentioned orders are specific dollars-and-cents prices applicable to sales in various quantities.

In determining the appropriate prices for inclusion in the orders the Director of the Miami District Office surveyed the prices charged by the principal suppliers in the stated areas. Prices charged currently and in March 1942 for each item in each quantity bracket as well as discount terms, delivery practices and other conditions of sale were obtained. The prices obtained were first studied in order to ascertain that amount of differentiation as to types of sellers, types of purchasers and quantity of sales that should be recognized in the orders to prevent substantial hardship and to avoid marked increases and which could be based on definite and recognizable objective characteristics apparent at the time of the sale. The data for each selected grouping was next set forth in an array and where possible a quasi-modal price based on prices weighted on the over-all sales volumes of the sellers studied and covering 60–65% of the volume of sales was chosen as the ceiling prices for the particular commodity. In those cases where the modal price was not appropriate or where it was impossible of ascertainment a bulkline price covering 60–65% of the sales was selected. By the use of these statistical methods it was apparent that in general the prices established did not exceed the level of prices as fixed by the regulation which otherwise would have been applicable nor was any substantial reduction made in the current legal maximum prices of any important group of sellers.
